Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. See then that ye walk **circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive **the very elect.**"

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we **are not** ignorant of his devices."

II Chronicles 7:14: "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Subject: ++ Listener Comment: The Greatest Threat to Christianity today

I got up this morning and turned on the history channel and they were talking about the star child skull. It was on the show ancient aliens. So when they first did tests on this skull they could not get dna from the fathers side only the mothers side. So people believed that this child was a hybrid of a human woman and an alien. Now they just released that they did further testing on the mothers DNA from the skull and she was not fully human like they once thought. They are now saying the mothers dna was not fully human but a hybrid.

It is just like Genesis 6 the angels intermarried with the women and had offspring, but then they also had a breeding population of hybrid males and females on the earth. The Bible is very clear that there was a population of these things before and after the flood. I am a firm believer like others that these hybrids have been with us all along.

So back to the history channel program, they are using this to spread the ancient astronaut theory. I watched all of the LA Marzulli Watchers and if I remember correctly that he said ufology is a fast growing religion. With all the evidences of these skulls like the Paracus skulls, the Darwin religion is under attack just like Christianity. For the most part pastors do not want to talk about this. They just stick their head in the sand and talk about the catholic doctrine the Godly line of Seth. Since many of these denominations now are under the Catholic Church including many Baptists maybe this is all by design. Maybe these denominations like the Baptists that are under the Catholic whore will baptize aliens as well since the Catholics are talking about it.

[World Religions Unite as Prelude to Extraterrestrial Disclosure](#)

Written by [Dr Michael Salla](#) on June 22, 2017

Leaders from a diverse collection of religious communities issued an extraordinary statement for world unity in a video message released last week. The call to world unity is a prelude to disclosure of extraterrestrial life according to

independent sources working with secret space program whistleblower, Corey Goode. The world religious leaders came together on June 14 to make a joint statement through a video calling on people to embrace ideas of friendship and unity, and

to overcome negativity and division in society. It is available in 16 languages and features leaders from Buddhism, Hinduism, Christianity, Islam, Judaism and other faiths.

[A press release states:](#)

Each of the leaders contributed a personal statement for the exclusive purpose of creating this joint appeal. Ayatollah Al-Milani advises people to make friends with followers of all religions. Patriarch Bartholomew calls on the world to “recognize the beauty of God in every living human being”. Pope Francis and Rabbi Abraham Skorka demonstrate how their religious experiences have been enriched by their interfaith friendship. Grand Mufti of Egypt Shawki Allam stresses not to focus on differences between religious groups. The Dalai Lama calls for a deepening of spiritual friendship. Rabbi Jonathan Sacks says “One of the wonderful things about spending time with people completely unlike you is that you discover how much you have in common. The same fears, hopes and concerns.” Archbishop of the Church of Sweden Antje Jackelén stresses the importance for society: “This should start a process that will take prejudices away and where new insights and hope is born.” The Archbishop of Canterbury adds that “It’s not complicated, start with sharing what we all share, which is the pleasure of conversation.”

The joint statement by world religious leaders for unity and friendship across diverse faiths is a very important message in its own right. What lends this message added significance is recent information received by Corey Goode from two separate sources concerning the role of a positive group of human-looking extraterrestrials in promoting world unity and disclosure.

On June 15 Goode says **that a human looking group of extraterrestrials is working with the Vatican and other religious leaders to bring about disclosure.**

Goode is essentially saying that four groups of extraterrestrials are now committed to open contact with humanity, and have started the process to make this a reality. World religious leaders have been contacted to act as intermediaries to introduce humanity to the extraterrestrials, and in particular the Nordic race.

Goode says that he was given two versions of how open contact would happen:

V1. Three religious leaders come out and introduce an angelic ET race who would bring us a book and a new “esoteric/New Age” type religion based on “Oneness”.

V2 was almost the same except it was only the Pope standing next to a Nordic announcing the same thing.

It is very significant that the Vatican has indeed been playing a very prominent role in encouraging its billion plus adherents to view extraterrestrials as potential “brothers in Christ”. A number of Vatican astronomers have discussed extraterrestrials in this regard, and the Vatican was linked to a UNICEF video encouraging tolerance of extraterrestrial children.

Goode says that the extraterrestrial disclosure announcement “sounds very imminent”, but cautions that this is not the first time such an announcement has been planned by the Vatican, and might still require a few years. He says that an earlier attempt was made in 2008, which coincides with the Vatican’s chief astronomer Gabriel Funes making statements about extraterrestrials in an interview titled: “The Alien is my Brother.”

Goode said that similar information about Nordic extraterrestrials being involved in a contact initiative with major religious groups had been earlier given to him by two airmen working with a US Air Force run Secret Space Program, which works with prominent members of the intelligence community including the Defense Intelligence Agency.

It is more than coincidental that in the June 13 leak of an alleged Majestic-12 document authored by the Defense Intelligence Agency, prominence is given to human looking extraterrestrials in conducting diplomatic relations with humanity.

The document said:

There are several variations more-or-less like ourselves. The majority of these are friendly and are the bulk of our EBE (Extraterrestrial Biological Entity) contacts. Most have a high degree of psychic ability and all use science and engineering of an advanced nature.

It is worth emphasizing that this alleged Defense Intelligence Agency document was leaked on virtually the same day of the world religious leaders’ unity statement – another coincidence?

While the Majestic document is currently the subject of hot debate, prominent UFO researchers such as Dr. Robert Wood and Stanton Friedman believe the document shows no sign of forgery and is worth serious investigation.

In my own research of the document’s content, there is much there which is consistent with historical records, and provides an important overview of recent human interaction with extraterrestrials dating back to Nikola Tesla’s radio experiments in the late 1800’s. This suggests that the document contains genuine information despite anomalies in formatting and classification markings as critics have pointed out.

According to Goode, **the Nordic extraterrestrials outreach with religious leaders is likely to lead to the birth of a new global religion: “It is FULLY expected that over 90% of people of Earth will adopt this new ET Religion without question.”**

This is likely to lead to some controversy given the work of others such as Chris Putnam and Tom Horn who have been warning against the Vatican’s quiet preparations for open contact with extraterrestrials. In their 2013 book, *Exo-Vaticana* they do not consider the human-looking extraterrestrials who would be revealed in such an announcement by the Vatican as positive at all – they claim them to be demons in disguise.

In a [lengthy review of Exo-Vaticana](#), I wrote about the danger of viewing extraterrestrials in this way using a myopic interpretation of biblical scripture: *Exo-Vaticana* is dangerous insofar as Putnam and Horn undergird it with some powerful religious prejudices about the motivations of alien visitors to our world. They claim that biblical scripture is a solid foundation for understanding that aliens are demonic entities who destructively intervened in human history, and

are about to return and do so again. In contrast, according to Putnam and Horn, Pope Francis I is preparing to lead the Catholic Church to embrace the returning/visiting aliens as “brothers in Christ” – reflective of the 1950s and 1960s contactee reports of benevolent “space brothers.”

Putnam’s and Horn’s Exovaticana portends a future religious war between those accepting visiting extraterrestrials as “brothers in Christ” and those believing them to be returning demons about to enslave us.

Putnam and Horn’s misgivings about welcoming extraterrestrials stems from a profound misunderstanding of the full spectrum of their motivations and activities, which I have described at length in my 2013 book, *Galactic Diplomacy: Getting to Yes with ET*.

Thankfully, the recently leaked Majestic document indicates that military officials are well aware that most alien visitors are friendly, and capable of becoming important allies for humanity’s evolution into a galactic society.

It is a very positive development for all humanity that prominent religious leaders made a major statement advocating friendship and unity across religious traditions. The possibility that this is a prelude for the Vatican announcing, in association with other major world religious leaders, the existence of friendly extraterrestrial visitors is something to be welcomed. If Goode’s sources are correct, then the June 14 statement for world unity takes us one step closer to disclosure of extraterrestrial life, and ending religious conflict on our planet.

Michael E. Salla, Ph.D.
