**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. See then that ye walk **circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive **the very elect**."

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we **are not** ignorant of his devices."

**II Chronicles 7:14:** "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

**Psa 112:4** Unto the upright there ariseth light in the darkness: *he is* gracious, and full of compassion, and righteous.

**Psa 112:5** A good man sheweth favour, and lendeth: he will guide his affairs with discretion.

**Psa 112:6** Surely he shall not be moved for ever: the righteous shall be in everlasting remembrance.

**Psa 112:7** He shall not be afraid of evil tidings: his heart is fixed, trusting in the LORD.

**Psa 112:8** His heart *is* established, he shall not be afraid, until he see *his desire* upon his enemies.

**Psa 112:9** He hath dispersed, he hath given to the poor; his righteousness endureth for ever; his horn shall be exalted with honour.

**New "recycling" technology is actually CANNIBALISM: Dead people are liquefied, drained into city sewers, then dumped on food crops as "biosludge"**  
 Monday, February 05, 2018 by:  
[Mike Adams \(Natural News\)](#) **A new "recycling" technology**

called “bio-cremation” liquefies the dead, then dumps their liquid remains into city sewers where solid and liquid waste are collected as “biosludge” to be dumped on food crops. Those crops, in turn, are fed back to humans as part of the mainstream food supply.

In a shocking true story that’s part *The Matrix* and part *Soylent Green*, a company based in Smith Falls, Ontario has devised a “bio-cremation” system that it calls an “eco-friendly alternative to flame-based cremation or casket burials,” reports [Canada’s CBC News](#). The company is called [Hilton’s Aquagreen Dispositions](#) and touts its approach to dissolving dead bodies as “eco-friendly alkaline hydrolysis.”

According to CBC News, dead bodies are liquefied with a “process that blends water with an alkali solution...” The company’s website describes the body liquefaction process as follows:

*Bio Cremation creates a highly controlled and sophisticated environment that uniquely combines water, alkali, heat and pressure. This process biochemically hydrolyzes the human body, leaving only bone fragments. During a typical Bio Cremation cycle, the body is reduced, bone fragments are rinsed and the remaining by-product is a sterile fluid.*

There’s no mention of handling the mercury and other toxic heavy metals that would survive such a process, of course. Those metals would obviously end up in the city’s sewer system.

“The company came under fire in 2016 when it was revealed the liquid byproduct is then drained into the town’s sewage system,” reports [CBC News \(Canada\)](#):

# Smiths Falls company that dissolves the dead has licence suspended

Suspension of bio-cremation company's licence in 'public interest,' province's bereavement authority says

CBC News Posted: Jan 29, 2018 1:48 PM ET | Last Updated: Jan 29, 2018 3:02 PM ET

Dale Hilton shows off the pressurized stainless steel chamber where the 'bio-cremation' process takes place at his Smiths Falls, Ont., business. The company has had its operating licence suspended. (Stu Mills/CBC)

A Smith Falls, Ont., bio-cremation company that offers what it calls an "eco-friendly alternative to flame-based cremation or casket burials" has had its operating licence suspended.

The Bereavement Authority of Ontario suspended the licence for Hilton's Aquagreen Dispositions Jan. 24.

• **Smiths Falls, Ont., funeral business dissolves the dead, pours them into town sewers**

"The immediate suspension is believed to be in the public interest," the authority wrote in a brief statement. "The past conduct of the licensee and interested persons are believed to be inconsistent with the legal criteria for continued licensure."

Hilton's Aquagreen Dispositions uses a process that blends water with an alkali solution of potassium hydroxide to break human bodies down to bone ash. The company **came under fire in 2016 when it was revealed** the liquid byproduct is then drained into the town's sewage system.

## Top News Headlines

- Stock markets continue to sink after worst week in 2 years
- Man, 21, charged with 2nd-degree murder in Tess Richey homicide

As [Natural News](#) has extensively documented, cities across North America — including Toronto — collect sewage into so-called "biosolids" or "biosludge," which is trucked out of the city's sewage treatment center and dumped on food crops in rural areas.

**Play: The trailer for the upcoming film Biosludged** for more details on this alarming process that spreads toxic heavy metals, pharmaceutical chemicals and industrial pollutants onto crop soils:

In effect, the practice of "bio-cremation" means that dead humans would be liquefied and fed to plants which are then eaten by other humans. This process is almost militantly called "recycling" by proponents of biosludge and bio-cremation operations. It's all pushed under the agenda of "green living." Soon, it will no doubt be part of "Agenda 21" and the globalist push to kill off 90% of the human population on the planet while feeding the dead to the living.

(See [Depopulation.news](#) or [Eugenics.news](#) for more coverage.)

Perhaps the "bio-cremation" process wouldn't be so bad if humans weren't already so heavily contaminated with toxic heavy metals like mercury, cadmium and lead. But thanks to the relentless contamination of the food supply, personal care products and medicines with toxic substances, most humans are so saturated with toxins that eating them would make you sick.

A more accurate description of eating recycled dead people might be "cannibalism." Or, in the case of feeding dead people to plants and then eating the plants, it might

be called “cannibalism one-step removed.” While from a scientific point of view, the idea of recycling nutrients of dead bodies back into food crops may not seem outlandish, from a humanitarian and dignity point of view, something seems incredibly inhumane and deceptive about calling it “recycling.”

By the same logic, humans should also be eating their own recycled feces and calling it “green living.” Oh wait, a new technology developed for space travel will allow astronauts to achieve exactly that: Eating their own feces. See [Hey, this space lasagna tastes like feces! Astronauts to eat their own microbe-recycled human waste in latest science “breakthrough”](#).

The good news about all this, we’re told, is that relatives of the dead can reclaim titanium implants and other metals from the body after the liquefied remains are flushed into the city’s sewer system. “Items such as titanium implants and pacemakers can be recovered for recycling at the conclusion of the process,” touts the [Hilton’s Aquagreen Dispositions FAQ page](#). Oh, and you also get to pick up the remaining bones, which are, “safe to handle with bare hands immediately after the process,” says the company. This is apparently a “bonus.”

**Sent:** Tuesday, January 23, 2018 6:28 PM

**To:** Glynda

**Subject:** **Using Bio-CardioSirt BP & BioCardiozyme to Naturally Lower Blood Pressure and the Cardiovascular System**

**Glynda:**

Biotics sent me a huge amount of literature I had not had a chance to get to yet. I started to look through it today and realized they have a companion product (to the BioCardiozyme I sent today) that they recently came out with specifically to lower blood pressure. Now what I sent today it a much more complete product for any cardiovascular condition (like a foundational product) and it is strongly indicated for high blood pressure, **but this one (see below) is specifically for lowering blood pressure.** Both of these products taken together would be an ideal combination to lower blood pressure. God bless!

*A placebo controlled human clinical trial of 42 adult patients with hypertension was conducted at the Hypertension Institute in Nashville, TN, Dr. Mark Houston was the head investigator. Both the clinic and the patients were blinded in the study.*

*The purpose of the study was to evaluate the effects of Bio-CardioSirt BP (a specific blend of seven micronutrients) on patients with hypertension.*

*The blend consists of vitamin C, grape seed extract, magnesium, vitamin B6, vitamin D3, Biotin and Taurine.*

*All participants had hypertension, i.e. systolic blood pressure (SBP)  $\geq$  140 mmHg and/or diastolic blood pressure (DBP)  $\geq$  90 mmHg. **All participants that had been taking BP meds had a one month washout period before participating in the study.***

**Twenty-two patients received the active (Bio-CardioSirt BP™) and twenty received placebo.**

- BP measurements were taken every 2 weeks, and readings reported were an average of three readings.
- **Patients were informed not to make any lifestyle changes such as smoking, coffee consumption, alcohol intake or exercise programs.**
- **The active group lowered SBP 13.24 mmHg at week 2 and 15.96 mmHg at week 4.**
- **The active group lowered DBP by 10 mmHg at week 2 and 11 mmHg at week 4.**
- **At week 4 the active group lowered both SBP and DBP significantly compared to placebo.**

Each container of **Bio-CardioSirt BP™** provides a full 30 day supply as an easy to take powder. It is 48.00 per 30 day supply. Simply blend one rounded scoop with 6 to 8 ounces of water or your beverage of choice each day.

**Bio-CardiozymeForte(120ct)25.00(360ct)65.00**

**A New Kind of Deep but Gentle Detox: UNDA Biotherapeutic Drainage Kit Liver & Kidney Support**

<https://www.anovahealth.com/content/unda-biotherapeutic-drainage-kit-liver-kidney-support>

From: Frank

Sent: Wednesday, January 17, 2018 7:49 AM

**To:** Scott Johnson

**Subject:** RE: UNDA #38- 0.7 fl oz (20 ml) | Anova Health

Scott: There is no aluminum in the product. It is a homeopathic dilution to help detox aluminum.

If you do homeopathic lead you actually stimulate the body to detox lead. Same for all heavy metals.

The world of biological medicine and drainage is so powerful.

The reason people get sick and don't heal is that they have cellular toxicity.

I was committed to learn UNDA and after I did I could take on any case with more confidence and more tools.

This is the outline to the textbook for UNDA. Read the last page of the attachment from my Mentor Dr. Thom.

## INTRODUCTION

I decided to write the original version of this text in 1999 as a result of my own journey in the practice of medicine. During the last few of 12 successful years as a dentist, I became increasingly interested in doing more for my patients. On many occasions, my dental patients had common health ailments that responded well to lifestyle changes I suggested. This motivated me to seek further education and I enrolled in Naturopathic College. I took to heart what was taught, and became a believer in the value of a healthy lifestyle, nutritional supplements, herbal, homeopathic, and physical medicines, both for my own health and that of my patients. My practice became so successful that new patients had to wait several weeks for an appointment to see me.

And yet as the years passed, I was frustrated by conditions that I felt should have responded more favorably to my chosen treatments. I was considered to be a fairly successful doctor with a thriving practice but I continually searched for additional therapies to support my patients.

One classic example was the use of glucosamine sulfate in the treatment of arthritis. Like many other physicians, I found, as the research suggested, that in 4-6 weeks, the patients would report an improvement in symptoms, specifically decreased pain. This is a rewarding experience for any physician. Unfortunately, I also discovered that if the patients discontinued the therapy, the pain would often return. This pattern was repeated over and over in many patients. As a result of this, it became evident that this was not a real solution to the patient's problems. It provided only a palliative therapy and thus was not successful in actually reversing the disease state.

My discovery of Biotherapeutic drainage changed the way I practice. Not only does the theory blend perfectly with the principles of Natural medicine, but also my results with patients have dramatically improved. I have found that often, I am able to reverse the disease state, not just palliate symptoms. Additionally, this therapy is more cost effective for patients than many other Natural and allopathic treatments currently available. My continuous study of this approach to medicine, along with experience with thousands of patients over the past several years, has led me to this point of sharing what I have learned.

The text will provide an overview of drainage, followed by an introduction to the UNDA Numbers. A detailed study of each of the remedies is outlined. The appendix includes additional information important for you and your patients to successfully use the treatments presented.

We are living in a time when the costs and successes of conventional, allopathic medicine and alternative medicine are coming into question. Drainage, as outlined, is a therapy that will improve your results with almost all your patients and enhance your practice of medicine.

I have outlined the book in sections, for ease of understanding the Principles. Like any new modality, it will take years of study to fully understand its

**I agree it can be maddening to keep up with all of the information and toxins in food. Food additives being preservatives also affect cellular metabolism. Gemmotherapies and UNDA Numbered compounds work slower and are not felt like nutraceuticals. Genetic defects are triggered after an accumulation of toxins. If we clean up the cells the genetic issues fade into the background in most people. For instance we know that latent cancer genes are not triggered unless stress factors begin to pile up.**

I think the best people can do today with time and cost constraints is to be addressing their weakest links.

Our two UNDA Drainage kits for [Liver and Kidney](#) and [Stress and Insomnia](#) are now getting hot as Docs realize everyone can use these kits to continually address detoxification and stress/sleep. I put 80% of my NEW patients on the Liver and Kidney Kit which is a 21 day drainer because the nutrients they take begin to work better.

Many of my bio-identical hormone MDs use these kits and notice marked improvements.

The Gemmos yes require a little study and they have to be used typically for 3-6 months. It took years to create the damage and nature takes its own path.

The UNDAS are never to be mixed and can be taken consecutively with a few seconds in between.

I like 5 drops TID but most people do great to put them on their nightstands and do morning and evening. Easiest way to develop a great habit.

---

**++ Flu vaccine BOMBHELL: 630% more “aerosolized flu virus particles” emitted by people who received flu shots... flu vaccines actually SPREAD the flu** A

bombshell new scientific study published in the [Proceedings of the National Academy of Sciences \(PNAS\)](#) **finds that people who receive flu shots emit 630% more flu virus particles into the air, compared to non-vaccinated individuals. In effect, this finding documents evidence that flu vaccines spread the flu, and that so-called “herd immunity” is a medical hoax because “the herd” is actually transformed into carriers and spreaders of influenza.**

Details of this bombshell study have been revealed by Sayer Ji at [Green Med Info](#), a site that's rapidly becoming one of the world's most authoritative sources on intelligent analysis of real science. Green Med Info has published **500 studies** that document the adverse effects (and injury) of vaccines. Find that extensive list [at this link](#).

---

**More young people being seriously afflicted with hallucinations and self-abuse after taking TAMIFLU ... why won't the FDA recall the dangerous drug?** Marketed as flu medicine, Tamiflu is actually a risky nervous system damaging, hallucinogenic drug that causes some children to go into seizures, wild delusions, and twitching fits.

The typical medical doctor, aligned with the state's medical directives, resorts to prescribing Tamiflu as a primary treatment for people who have flu and flu-like symptoms.

**This FDA approved drug, however, carries serious side effects that the government, the doctors, and the advertisements aren't being transparent about.**

**The FDA has on file over 550 cases of confirmed hallucinations from Tamiflu in the U.S. since 2009. Each case has traumatized and altered the lives of individual families that can only stand by and watch helplessly as their child hallucinates and loses control of their mind and motor control.**

[A family from North Texas](#) is speaking out about odd reactions that their two-year-old son endured as soon as he began taking Tamiflu. **The twitching and hallucinations only stopped when they quit using the drug. Andrea and Josh Wallen said their son changed almost immediately after ingesting Tamiflu. Twitching through the night, the two-year-old**

banged his head repeatedly, picked at his arms, and acted out violently toward his parents.

Other families across the Nation have spoken out. [A family from Indiana](#) said their daughter began hearing voices and picking at "bugs" on her body. Another family said their six-year-old daughter tried to jump out of a window.

---

### Vaccine industry in PANIC MODE as \*vaccinated\* children keep dying from the flu all across America

Children are dying from the flu all across America, according to media reports. What the media *isn't* reporting, however, is how many of the children who died were also vaccine recipients. Make no mistake: If only *unvaccinated* children were dying from the flu, that would be the headline everywhere: "Unvaccinated Children Dying Across America" or even "Flu Shot Saves Children from Deadly Influenza." But of course you're not seeing those headlines for the simple reason that *vaccinated* children are among those who are being killed by this year's flu.

"The dominant Influenza strain this year is H3N2. This particular strain has a history of causing more hospitalizations and more deaths," reports [The Organic Prepper](#). "In addition to H3N2 producing a more serious infection in general, this year's particular H3N2 influenza virus is particularly virulent."

This year's flu has reportedly killed 44,116 people, according to the CDC.

---

### Dr. Johnson's Flu & Cold Protocols:

-----  
++ 5000 Mild Silver Protein (M.S.P.) Suggested Therapeutic Dosing Guidelines 1tsp for every 30 lbs. of bodyweight per day if you have a virulent flu virus (split up dosages). Hold each dose under the tongue for at least 2-3 minutes before swallowing. Can use a drop of organic peppermint oil to kill the taste.

++ Note: Taking a natural, vitamin C is a major factor in dealing with virtually any immune system condition. Vitamin C (a full spectrum food source with the bioflavonoids) is the best choice. Highly recommended: Vitamin C-400 - 180 tablets &/or C Complete Powder 81 G &/or Bio-C Plus 1000 by Biotics (100 T)

++ A good whole food Vitamin D-3 product like: Innate Response Vitamin D 5,000 60 count &/or Innate Response Vitamin D-3 (2000 IU)- 90 count

++ A good, high quality calcium supplement can help to feed the white blood cells of the immune system and in certain cases is indispensable: Davinci Labs CAL MAG 180 tablets &/or Davinci Labs CAL-MAG CITRATE POWDER 30 Servings 4.9 oz

++ Note: Selenium is highly anti-viral. I recommend the foodstate: Selenium - 90 tablets by Innate Response Formulas

++ For more information a price list or how to order contact:

[drjohnson@ix.netcom.com](mailto:drjohnson@ix.netcom.com)

**With America Turning Into A 'Suicide Cult' Preaching 'Death By Medicine', Big Pharma's Mafia Is Still Terrorizing Americans - Big Pharma's Poisons Responsible For Americans Life Expectancy To Drop For 2nd Year In A Row**

In this [brand new story over at Zero Hedge](#) they report **that the deaths of millenials in America are surging due to the ever-deepening opioid crisis that has struck nationwide, quickly becoming the leading cause of death of Americans under 50. Reporting within their story that because of the continuing crisis, the overall life expectancy of Americans has dropped for the 2nd year in a row, what's happening to people across America is a damning indictment of 'big pharma' and the medical system in America.**

Yet while man-made drugs are killing thousands across the country, in this [fabulous recent story over at the Daily Mail](#) we learn that after years of fighting blood cancer with no success using 'big pharma poisons', Dieneke Ferguson of London, England decided to take a leap of faith and drop out of the chemotherapy sessions that were tearing apart her body and try an experimental treatment.

**And while the Daily Mail story called her amazing and miraculous recovery via the usage of the spice 'turmeric' a 'first recorded case of its kind', anybody who has been paying attention knows that using turmeric as a treatment against cancer has been a tried and proven method for a very long time. Though the western medical system won't be broadcasting such information because natural treatments of many different varieties could help to eventually put the 'big pharma mafia' out of business with numerous alternative health care treatments already cutting into their profit margins.**

Alternative health websites such as [Natural News](#), the [Truth About Cancer](#) and [Natural Blaze](#) have been publishing stories about the use of turmeric as a natural remedy against cancer dating back many, many years and as we see outlined within this ANP story, **with God giving man everything we need in nature to heal many diseases and illnesses, why do we need big pharma's poisons?**

Even all the way back on July 16th of 2013, [Johns Hopkins Medicine published a story](#)

titled "A Simple Spice That May Battle Cancer" within which they reported turmeric "may one day join the cancer tool kit".

According to [Nutrition Facts.org](http://NutritionFacts.org), "overall cancer rates are much lower in India than in western countries." As we read within their story, experts believe that the use of turmeric on a regular basis in their food is one of the reasons why. So should we be surprised that 67-year old Dienneke Ferguson was able to heal her cancer with turmeric while chemotherapy failed? [From the Nutrition Facts story: U.S. men get 23 times more prostate cancer than men in India. Americans get between 8 and 14 times the rate of melanoma, 10 to 11 times more colorectal cancer, 9 times more endometrial cancer, 7 to 17 times more lung cancer, 7 to 8 times more bladder cancer, 5 times more breast cancer, and 9 to 12 times more kidney cancer. This is not mere 5, 10, or 20 percent more, but 5, 10, or 20 times more. Hundreds of percent more breast cancer, thousands of percent more prostate cancer...](#)

The researchers in this study, highlighted in my video *Back to Our Roots: Curry and Cancer*, conclude: "Because Indians account for one-sixth of the world's population, and have some of the highest spice consumption in the world, epidemiological studies in this country have great potential for improving our understanding of the relationship between diet and cancer."

**Turmeric/Curcumin Products Dr. Johnson Carries:**  
[Innate Response Inflama-Complete 90 Capsules 45.00](#) & [Douglas Labs Ayur-Curcumin \(Turmeric\) 90 capsules 27.00](#) & [CurcumRx\(60C\) 32.00](#) or [Davinci Labs ENZ-FLAME 30 Servings \(9.52 oz\) 60.00](#)

Subject: [Listener Question on: How to Buy The Professional Supplements Outside the US?](#)

Hi Dr Scott Thank you so much for your ministry it has been such a blessing to so many people throughout the world, especially myself in so many ways. I know and understand that you are just one man doing such a big ministry and I recognize that your focus is mainly the USA that you are called to minister too. I dont know the percent of international listeners you have, I do imagine that they would be growing as the Lord continues to open hears, to listen, 30% maybe growing towards 50%. I have no idea. The problem that I have as an international listener, is trying to obtain recommended supplements for various ailments. **Total Health does sell some supplements internationally, but not all your recommended cross over supplements are accessible. If you ever got time, would you be able to give us alternative accessible options for international listeners.** For example, for gout, your new change over supplement you now use is biotics, however, A-C Carbamide isnt available to buy, would there be another brand, for example, Innate which is easier to obtain, that we could use instead, that would be more easier to obtain online for international listeners.

Kind Regards

Donna

**Subject:** RE: Health Updates and Alerts: 1-14-18

Donna: Thank you for your kind words. Now there is really no way for me to prepare such a list as international sales would vary from country to country and the amount of work that would take would really require a team of people dedicated to that for an extended period of time. But see the attachment (that took me about 5 months total to put together) as it gives the Standard Process products with the alternative crossover product list in alphabetical order. The crossover product for AC Carbamide is **Carbamide Plus (90 C)**. So what you can do is search the internet for: **buy Carbamide Plus by Biotics in Australia** Which I think is your home country. Now I just did this and found it right away at: **Biotics Research Australia - eVitamins.com** See: **Biotics Research Carbamide Plus - 90 Capsules** I did a further search on this website with their search bar and found the second product you need for Gout as well: **Biotics Research Argizyme - 100 Capsules**

**This is my Gout Protocol:**

**Dr. Johnson Comment: Gout is high uric acid in the blood and can be caused by eating rich foods and high protein content foods. For gout my protocol is:**

**Carbamide Plus® (90 C) 9 day**

**Argizyme (100ct) 9 day**

**Till the gout symptoms are gone. The patient would need to avoid the protein rich foods and drink 8-10 glasses of purified water per day as well.**

**1-3 of each product a day can be taken to keep it away. This is from a professional line of supplements that I carry.**

**Gout's cause is much more related to the kidneys than the liver.**

**God bless!**

---

### **Standard Process Crossover Alternative Professional Line Supplements with prices**

**++Note the Standard Process & Mediherb products are listed on the left side of the page with their prices; while their corresponding professional crossover supplement alternatives (I am or will be carrying) are listed to their right in bold blue with their prices. The bold blue products listed are also actually links to that given product on the internet, so you can click on them & research them if you like.**
