Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. But all things that are reproved are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a

sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive **the very elect.**"

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we **are not ignorant** of his devices."

II Chronicles 7:14: "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

SES and Serco plan to control the world--"Wet-Ware" Soft Kill Plan Is Happening, but Can Be Stopped: Defund Them Now!

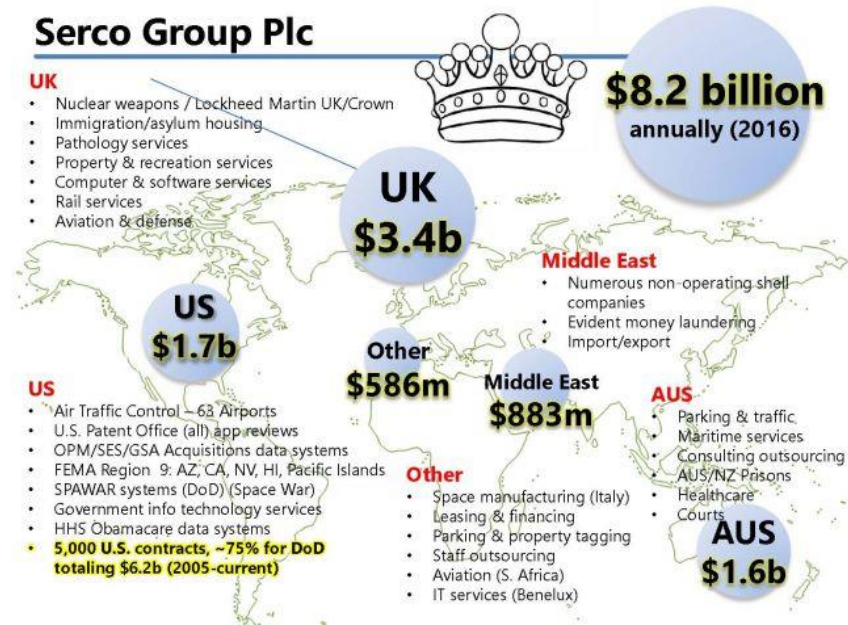

May 18, 2018 6:00--An intricate funding source for the Deep State is now being exposed, a British Crown-controlled company named Serco Inc. was awarded a \$610 million contract to manage FEMA Region 9 that covers Arizona, California, Nevada, Hawaii and the Pacific Islands. On Jul. 16, 2013, Obama awarded Serco a

\$1.2 billion contract to run the Obamacare website.

Serco also manages the air traffic control towers in 63 U.S. airports and has been paid more than \$95 million to run the U.S. Patent and Trademark examination processes.

Who Is SERCO? Why have we not heard of them? More to the point, why are we

outsourcing critical American infrastructure, ingenuity and private medical information on every U.S. citizen to sworn agents of the British Crown?! Douglas Gabriel and Michael McKibben discuss how Serco companies work with the SES Deep State shadow government to implement 5G, and then manage the societal effects of their coming mass murder program. That's why Serco runs FEMA camps, owns pathology companies,

houses migrants, owns laundries, operates prisons, provides transport and rail, run hospitals and leisure centers, builds ships and space technology—to zap the populace with 5G like a mosquito zapper, then handle the clean up.

++ [Vaccine Mandates, Strategic Social Strategy – The Gateway into the Transhumanism Movement](#)

What is Transhumanism? The main science mega-project of the 2045 Initiative aims to create technologies enabling the transfer of a individual's personality to a more advanced non-biological carrier, and extending life, including to the point of immortality.

Eileen Dannemann of the Vaccine Liberation Army stated: "The apparent reality is that the establishment is disabling the emerging generations of humanity,

preparing the age of transhumanism... The same industries (Artificial Intelligence, Nanotechnology and Biotechnology) involved in vaccines are the pioneers of Transhumanism. By destroying the functioning human system through mandated vaccines that are disabling the emerging generations of humanity, they are indeed paving the way for Transhumanism. What is the plan then? Are we to exchange traditional antiquated hospitals for nano-hospitals when our implanted mechanics fail? Why would anyone in their right minds allow these industries to control the switch?"...

[Did You Know That Dozens of Genetically Modified Babies Have Already Been Born? – How Will They Alter Human Species?](#)

By Dr. Mercola--As of 2001, 30 children genetically modified children had been born, courtesy of a process in which genes from a female donor are inserted into a woman's eggs before being fertilized. Two children that were later tested were found to have DNA from three parents—two women and one man & no one really knows what the ramifications of having DNA from three parents might be for the individual, or for their subsequent offspring

When I first read that genetically modified humans have already been born, I could hardly believe it. However, further research into this story featured in the UK's Daily Mail¹ proved it to be true. **They've really done it... they've created humans that nature could never allow for, and it's anyone's guess as to what will happen next.**

Even more shocking was the discovery that this is actually old news!

The Daily Mail article was not dated, and upon investigation, the experiments cited actually took place **over a decade ago; the study announcing their successful birth was published in 2001².**

At best, I hope I can stir you to ponder the implications of this type of genetic engineering. As reported in the featured article:

"The disclosure that 30 healthy babies were born after a series of experiments in the United States provoked another furious debate about ethics... Fifteen of the children were born... as a result of one experimental program at the Institute for Reproductive Medicine and Science of St Barnabas in New Jersey.

The babies were born to women who had problems conceiving. Extra genes from a female donor were inserted into their eggs before they were fertilized in an attempt to enable them to conceive.

Genetic fingerprint tests on two one-year-old children confirm that they have inherited DNA from three adults—two women and one man."

Today, these children are in their early teens, and while the original study claims that this was "the first case of human germline genetic modification resulting in normal healthy children," later reports put such claims in dispute.

Scientists create first human-sheep hybrids - paving the way for organs to be grown in animals for transplant

Scientists have created the first ever human-sheep hybrids, paving the way for organs to be grown in animals which can be transplanted into humans.

The successful Stanford University project could even open the door to finding a cure for type 1 diabetes by creating healthy pancreases to regulate blood sugar.

While scientists have previously developed human-pig hybrids, sparking excitement that they could use them grow human organs, no team has been able to take it to the next step.

The breakthrough could also help to alleviate the global shortage of organ donors.

Around 76,000 people in the US and 6,500 in the UK are on an organ transplant list, and it can take up to five years to reach the top.

Thirty-two people die a day waiting for a life-saving organ.

++ Thousands of Americans Are Dying in Hordes: A Death Surge Now Happening

"The present vast overpopulation, is now far beyond the world carrying capacity, & cannot be answered by future reductions in the birth rate due to contraception, sterilization, and abortion, but must be met in the present by the reduction of numbers presently existing. This must be done by whatever means necessary." –

"A total world population of 250-300 million people, a 95% decline from present levels, would be ideal." Ted Turner, in an interview with Audubon magazine
It's obvious the ruling elite have a death wish for you and me, and they will stop at nothing until it has been fully implemented. Agenda 21 (now Agenda 2030) is solid evidence of this sickening plan to limit population using famine, pestilence, war, food, geoengineering, GMO's and sterilants.

In the video below I delve into how the American population is now suffering from the death throes of the elite. How the elite's depopulation plan is already in place and how our population is now declining.

[Scientists Raided After Discovering Dangerous Nanoparticle Contaminants in Common Vaccines](#)

In an unabated attack on vaccine science and public health, **two world renowned scientists who discovered contaminants in common vaccines have recently had their home raided and much of the documentation of their findings confiscated.**

Dr. Antonietta Gatti is most known for her work in the 1990's studying the relationship between micro- and macro-particles in relation to diseases like cancer, cardiovascular disease, and immune disease. Through researching substances like depleted uranium, waste incineration, and inorganic contaminants in food products, she has been involved in many international

projects and also heads the Italian Institute of Technology's Project of Nanoecotoxicology (INESE).

However, after publishing a study on nanoparticulate contaminants in vaccines,

Gatti and her husband Dr. Stefano Montanari came under the eye of the several government authorities and ended up having their home raided by the Italian police.

“Because Gatti and Montanari had taken their research of nanodust and nanoparticles...to what unseen contamination might reside in vaccines in 2016, they came under the microscope of the United States,

European, and Italian authorities...They had crossed the no-go zone with the purported crime being scientific research and discovery.” – [James Grundvig, World Mercury Project](#)

Dr. Gatti's findings are extremely significant when it comes to vaccine safety research. In her study titled [New Quality-Control Investigations on Vaccines: Micro- and Nanocontamination](#), she exposes the fact that many inorganic adjuvants are contained within vaccines; when injected directly into tissue the particles become even more dangerous because they bypass normal digestive and respiratory filters, trapping the particles in the tissue and sometimes resulting in a permanent inflammatory effect.

Additionally, In 2009 [CBS reported](#) on several frightening emails from vaccine manufacturer Merck which referenced a desire to “neutralize,” “destroy,” or “discredit” doctors who opposed their interests in the late 1990's.

According to [Senta Depuydt](#), the journalist who interviewed the two scientists, Dr. Gatti was about to testify in Italian parliament on the dangers of these foreign particles found to be contaminants in vaccines before her home was raided.

[Doctor Who Discovered Cancer Enzymes In Vaccines Found Murdered](#)

Prominent autism specialist, Dr. James Jeffrey Bradstreet, was researching cancer enzymes prior to his death in July 2015.

His body was discovered floating in a North Carolina river with a single gunshot injury to the chest.

Suspicious swirled that the medical professional may have been killed as an outcome of his groundbreaking research study.

Bradstreet and his colleagues had actually found that the immune system is being jeopardized by [nagalase](#) cancer enzymes

Dr. Bradstreet's research found that these cancer enzymes are being introduced through vaccines.

Doctor Bradstreet was working with a naturally occurring substance that may be the single most efficient thing in the immune system for eliminating cancer cells.

Nagalase interferes with an important protein in the body that eliminates cancer cells, discussed Dr. Ted Broer in an interview on the Hagmann and Hagmann Report.

This brand-new development treatment, which you can discover more about in the **video below**, consists of the human protein GcMAF (globulin part macrophage triggering aspect).

GcMAF in fact triggers macrophages that are currently current within the human body, and in turn, causes the body to damage cancer cells.

As the body produces this compound naturally, lots of cancer clients cannot produce enough necessary to ward off the illness.

Thankfully, when administered GcMAF, the body's immune system can become more powerful and can fight cancer by itself, without more invasive treatments like radiation or chemotherapy.

CBS: Nurses hit the street to vaccinate homeless with flu shot

From the article:

“On a drizzly Friday, an IHS outreach team walked the streets of Waikiki looking for people to vaccinate.

‘Would you be interested in a flu vaccine?’ said Justin Phillips asked a homeless person. (SIC)

The traveling clinic was a first — so it wasn't clear how many people would accept the vaccination.

Turned out, the majority of people who were offered the shot agreed to get one. In the first hour, outreach nurses went through half of their supply.”¹

But it's not just happening in the Aloha state. Big cities like Atlanta are vaccinating the homeless, too.²
