- Bonus: Susan G. Komen Foundation Exposed, Breast Cancer's Shocking Secret, Mammogram Warning

**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive **the very elect**."

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we **are not ignorant** of his devices."

**II Chronicles 7:14:** "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

**Psa 94:14** For the LORD will not cast off his people, neither will he forsake his inheritance.

**Psa 94:15** But judgment shall return unto righteousness: and all the upright in heart shall follow it.

**Psa 94:16** Who will rise up for me against the evildoers? [or] who will stand up for me against the workers of iniquity?

**Psa 94:17** Unless the LORD [had been] my help, my soul had almost dwelt in silence.

**Psa 94:18** When I said, My foot slippeth; thy mercy, O LORD, held me up.

**Psa 94:19** In the multitude of my thoughts within me thy comforts delight my soul.

**Psa 94:20** Shall the throne of iniquity have fellowship with thee, which frameth mischief by a law?

**Psa 94:21** They gather themselves together against the soul of the righteous, and condemn the innocent blood.

**Psa 94:22** But the LORD is my defence; and my God [is] the rock of my refuge.

**Psa 94:23** And he shall bring upon them their own iniquity, and shall cut them off in their own wickedness; [yea], the LORD our God shall cut them off.

---

**8. AEROSOL SPRAYING - Chemtrails-** Have you noticed all those plums planes make in the sky over your head? I have. They can turn a clear Arizona deep blue sky cloudy, in just about an hour and in a short time, you might find you can't breath so well, or you find these cobweb like things on your plants, or it can look like it's snowing when it's 100 degrees! When you read about the testing of what's been collected in air samples, or in people's blood and saliva. **Micro particles of ethylene dibromide, aluminum, barium, strontium, arsenic, and too many to list other heavy metals, along with strange bacteria and fibers.**

A typical chemtrail appears as a white line in the sky. These lines become diffuse as they float down to earth. Heavy spraying creates a thick haze over vast areas. Often, in certain areas of the country, you will see grid patterns in the sky formed by chemtrails. If you watch closely, you will see that these white lines in the sky come from passing jets.

The fact that these exhausts persist means that they are of particulate matter.

**Contrails are unadulterated and typically disappear within 2 minutes while chemtrails can linger for hours.** The word 'chemtrail' is derived from the word 'contrail.' By most accounts, chemtrail spraying became nationally prevalent in the mid 1990's.

Have you ever heard of Morgellon's disease? It's where people develop moving fibers under their skin. It's one of the most horrible, unimaginable, creepy and disgusting skin ailments ever. Look it up. Dr. Clifford Carnicom has been researching aerosol spraying, otherwise known as chemtrails, for over 12 years and **has discovered the Morgellons fibers in the fallen debris and in the saliva of 99% of the people he's tested.** What do you know? One more thing we all like, **breathing the air!**

By the way according to (Section 1520a Chapter 32 of U.S. Code Title 50), **it's not legal for the government to experiment on us without our permission, "UNLESS it's for medical, therapeutic, pharmaceutical, agricultural, industrial purposes, or for**

research in general, or for protection against, or for law enforcement purposes, including riot control". No wonder our 'representatives' scurry like rats when approached about this subject! Maybe they have their own special air to breathe.

---

By now everyone has seen crisscrossing streaks of white clouds trailing behind jet aircraft, stretching from horizon to horizon, eventually turning the sky into a murky haze. Our innate intelligence tells us these are not mere vapor trails from jet engines, but few have probed the questions: who is doing this and why. With the release of this video, all of that has changed. Here is the story of a rapidly developing industry called geo-engineering, driven by scientists, corporations, and governments intent on changing global climate, controlling the weather, and altering the chemical composition of soil and water — all supposedly for the betterment of mankind. Although officials insist that these programs are only in the discussion phase, evidence is abundant that they have been underway since about 1990 — and the effect has been devastating to crops, wildlife, and human health. We are being sprayed with toxic substances without our consent and, to add insult to injury, they are lying to us about it. Do not watch this documentary if you have high blood pressure.

Sesame Seed Oil Perles by Standard Process (6 day)

Wheat Germ Oil Perles by Standard Process (6 day)

Chlorophyll Complex Perles by Standard Process (3 day)

Spleen PMG by Standard Process (3 day)

---

**9. FDA-** Some doctors have been known to call this the **Federal Death Agency**. There are countless detrimental to life: additives, fillers, chemicals, artificial extenders, dyes, poisons in plastic food containers, and even radiation that are just fine with the FDA for us to eat. But don't you dare consume organic raw milk! They just won't have any of that!

If you report adverse effects from one of their approved elements, you may not hear back from them for years. You won't even be noticed if you're already a statistic! **It just depends on what made you sick. If it was something a huge corporation makes, forget it. If you got sick from a peach you bought at a local roadside stand, or some lemonade from your neighbors little girls stand down the street, well its curtains for them. They'll get 10+ years in the slammer.**

Just beware while you're shopping at your favorite organic fresh food grocer. Those black Suburban cars, swat team cops, and big AK-47 rifles can be quite startling.

Oh, I forgot about all the toxic chemicals that are allowed to go into our skin and hair products too. So don't forget to use your (cancer causing) sunscreen now.

**P.S. Watch out for domestic home grown terrorists like John McCain and Dick Durbin, they've been trying to outlaw your vitamin and mineral diet supplements, and they just won't quit.**

**An estimated 80% of processed foods sold in the U.S. contain genetically modified organisms. Yet GMO foods are totally unlabeled thanks to the FDA.**

For the past 20 years, Americans have been denied their basic right to know because of a flawed regulatory system that has relied on corporate science without adequate peer-reviewed testing and scientific oversight. **It's time for that to change.**

**Tell the FDA: Label GMO foods!**

**Already more than 40 countries around the world require labeling of foods that contain GMOs.** While Americans who live in the "land of the free" have no idea what's in our food, citizens in Australia, Brazil, the European Union, Japan, Russian and even China have the legal right to know.

---

**10. VITAMIN SUPPLEMENT DEMONIZATION-** The Pharmaceutical companies have a jealousy problem. They don't like all the money you've been spending on vitamins to stay healthy. It's just driving them crazy. So they got our government to sign onto some UN treaty called Codex Alimentarius.

This multi country UN treaty wants to dictate just how little nutrition you actually need in your vitamin pills, something like what wouldn't be enough for your pet fly. Then they want to give the rights to BigPharma to make the pills, with only slightly more milligrams at one thousand times the cost. And to make it even better, you'll have to go to your doctor (IF you can find one after ObamaCare kicks in) for a prescription for your vitamin A, B, C, D, Etc.

**So now, we won't have to worry at all about maintaining good health, because our loving government will do it all for us, right? So, when all the diseases that are caused by nutritional deficiencies get even worse, all the pharmaceutical companies will be lined up waiting to fix us.**

Are you getting the picture yet? We get foods that are loaded up with chemicals, pesticides, herbicides, hormones and anti-biotics coupled with severely depleted in nutrients and minerals, and shipped in from all over the world with scant oversight.

**Yet they want to deny us the only means we have to counteract the industrialization and over processing of our foods. The deal is to keep us very sick, slowly dying, and drain our purses dry, before we die. Speaking of dying, how many people are killed by vitamins each year? None, or one? From the way the FDA is reacting, and Sen. Durbin's new bill, you might think there was a holocaust in progress. Well, there is..... But it's not caused by vitamins!!**

**Preparation Regarding the End-times**

Rev 6:5 ¶ And when he had opened the third seal, I heard the third beast say, Come and see. And I beheld, and lo a black horse; and he that sat on him had a pair of balances in his hand.

Rev 6:6 And I heard a voice in the midst of the four beasts say, A **measure(1)** of wheat for a **penny(2)**, and three **measures(1)** of barley for a **penny(2)**; and [see] thou hurt not the oil and the wine.

### Strong's G5518 - choinix

χοῖνιξ

1) a choenix, a dry measure, containing two setarii (less than a quart) (**or as much as would support a man of moderate appetite for a day**)

### Strong's G1220 - dēnariion

δηνάριον

2) A Roman silver coin in NT time called the denarius...It was the principal silver coin of the Roman empire. From the parable of the labourers in the vineyard, **it would seem that a denarius was then the ordinary pay for a day's wages.** (Mt. 20:2-13)

If we have wisdom we should prepare for this, like God instructed Joseph to do:  
Gen 41:34 Let Pharaoh do [this], and let him appoint officers over the land, and take up the fifth part of the land of Egypt in the seven plenteous years.

Gen 41:35 And let them gather all the food of those good years that come, and lay up corn under the hand of Pharaoh, and let them keep food in the cities.

Gen 41:36 And that food shall be for store to the land against the seven years of famine, which shall be in the land of Egypt; that the land perish not through the famine.

Pro 6:6 ¶ Go to the ant, thou sluggard; consider her ways, and be wise:

Pro 6:7 Which having no guide, overseer, or ruler,

Pro 6:8 Provideth her meat in the summer, [and] gathereth her food in the harvest.

Pro 22:3 A prudent [man] foreseeth the evil, and hideth himself: but the simple pass on, and are punished.

1Ti 5:8 But if any provide not for his own, and specially for those of his own house, he hath denied the faith, and is worse than an infidel.

---

### Natural Vitamin C & A--How to Make Pine Needle Tea

By Laura Crawley, eHow Contributor

You can make a healthy, invigorating tea anywhere, it seems -- even in the middle of a pine forest. Native Americans, the early settlers and explorers made pine needle tea, which is rich in **vitamins A and C**. Pine needles, pound for pound, have more vitamin C than lemons! It's especially good for those suffering from colds and flu, and its vitamin C content makes it as good a cure for scurvy as citrus fruits. If you have access to fresh, bright-green pine needles, you too can enjoy this unusual tea.

#### Instructions

##### Things You'll Need

- Saucepan
- Measuring cup
- 3 Cups water
- Chopping board
- Knife
- 1/2-Cup fresh pine needles
- Wooden spoon
- Lemon juice from 1 lemon (optional)
- Sugar or other sweetener (optional)

1.

○ 1

Pick at least 1 cup of fresh, green pine needles; the freshest ones will be bright in color, and give the best taste to your tea. Rinse them in fresh water to clean off any surface dirt. Chop the pine needles into small pieces.

○ 2

Measure 3 cups of water in a large measuring cup. Pour the water into a saucepan. Place the saucepan on the stove and bring the water to a boil.

○ 3

Place the pine needles on a chopping board. Chop the needles into small pieces. Remove any faded or imperfect needles.

○ 4

Add the chopped pine needles to the water as soon as it comes to a boil. Stir the needles into the water with a wooden spoon. Bring the water to a simmer; let the mixture simmer for 20 minutes.

○ 5

Steep the tea mixture for an additional 20 minutes. Add the juice squeezed from one lemon to the tea if you like. You may let the tea steep overnight; it will be a deep reddish color and taste stronger if you do.

○ 6

Strain the pine needles out of the tea. Pour into cups and sweeten with a teaspoon of sugar, honey or maple syrup, if desired.

#### **Tips & Warnings**

- Pregnant women should never drink pine needle tea; it may cause spontaneous abortion.
- Don't overboil the tea; doing so will lessen its amount of vitamin C.

---

## **11. The EPA - Permitting & Fracking**

**Hydraulic fracturing has caused our water supply to be tainted with even more toxic chemicals which in turn has caused millions of Americans to essentially drink poison.** Documentaries such as Gasland has exposed fracking to a huge audience yet the process still continues to this day. **GASLAND out in theaters now, takes a look at communities where fracking takes place and residents have noticed contaminated drinking water and other hazards. One household even had water that could catch on fire.** Increasing pressure has led the EPA to launch an investigation. GASLAND's Director Josh Fox says this is the largest drilling campaign in history and that the problem affects so many people in their own backyards

**Play: Gasland part 1 of 2--Some key points from the Film Gasland**

**170 million barrels of PA frack waste injected in Ohio lands**

October 11, 2011

(Phil Masturzo/Akron Beacon Journal) By Bob Downing [Akron Beacon Journal](#)

Over the **last four years, enough yellow-brown, salty liquid has been injected thousands of feet under Portage County to fill railroad tank cars stretching for 63 miles.**

**From 2007 through 2010, Portage injection wells handled nearly 4 million 42-gallon barrels of waste,** according to records from the Ohio Department of Natural Resources' Division of Mineral Resources Management.

**That's nearly 168 million gallons, or enough to fill enough rail tank cars to stretch from Akron to Mansfield.**

<http://coto2.wordpress.com/2011/10/11/170-million-barrels-of-pa-frack-waste-injected-in-ohio-lands/>

-----  
**[10/20/2011 -- Texas 4.7 magnitude earthquake = MAN MADE = fracking well at epicenter](#)**

-----  
5 year Naval war exercises on all US coasts with every horrible kind of toxin, bomb, or chemical warfare germ you can think of. They even admit this endeavor will "take" (meaning 'kill') up to 11 million sea mammals. Nuclear leakage and fallout. Every imaginable chemical, pesticide, and herbicide. Chemtrails. Oil spills and gushers. Aerosol spraying of deadly toxins on oceans. Ocean trash dumping by corporations. Neglected toxic Superfund sites. Overflowing spent nuclear fuel pools all over the country. Let's see. What am I forgetting? It doesn't matter. **Anything that kills us or animals and/or benefits big business is OK by the EPA apparently.**

**12. USDA-** All these alphabet soup agencies are fakes. They were put in place by TPTB to make us think the government was protecting us and our country. And maybe for awhile, to get us believing in them. But folks, the truth is finally coming out. They

are all there to enable the move to consolidate the elites' plan for total control over our lives!

Here's a line from a recent article: 'The USDA lied to farmers and ranchers about federal drought insurance. The government has refused to pay up during the worst drought in US history'. More farmers down the drain. The USDA is an enemy of the country. The FDA is an enemy of people. The SEC is an enemy of investors. The EPA is an enemy of the earth. I could go on. Nothing is logical. Nothing makes sense. TPTB are brutal, evil, and diabolical. They delight in death and destruction, and enjoy watching us suffer.

**13. FUKUSHIMA-** Fukushima's nuclear disaster is a nightmare. Ghostly releases of radioactivity haunt the Japanese countryside. Lives, once safe, are now beset by an ineffable scourge promising vile illness and death.

Large sectors of the population are accumulating significant levels of internal contamination, setting the stage for a public health tragedy.

A increase in the number of miscarriages and fetal deaths will be the first manifestation that something is amiss.

An elevated incidence of birth defects will begin in the Fall and continue into the indefinite future. Thyroid diseases, cardiac diseases and elevated rates of infant and childhood leukemia will follow.

Over the next decade and beyond, cancer rates will soar.

Japan's government, its Nuclear Safety Commission, and the Tokyo Electric Power Company **have already demonstrated that they will do everything in their power to keep citizens ignorant of what is taking place. The emerging health crisis is scheduled to be erased.**

Following a time-tested blueprint worked out by prior radiation releases around the world, **data relevant to assessing the medical impact of the accident will not be gathered. Radiation doses to the population will be woefully underestimated. The hazards associated with low levels of internal contamination will be obliterated from all discussions of risk.**

Academic journals that support the nuclear agenda will be flooded with bogus studies demonstrating that no health detriment was suffered by the population. Nothing is more despicable than to have our government order a news black-out about what is very possibly a life extinction event of mass proportion.

<http://theintelhub.com/2011/09/26/fukushima-and-the-battle-for-truth/>

---

#### **14. THE FOOD SAFETY AND MODERNIZATION ACT-**

"If accepted (Comment: Which it has) [S 510] would preclude the public's right to grow, own, trade, transport, share, feed and eat each and every food that nature makes. It will become the most offensive authority against the cultivation, trade and consumption of food and agricultural products of one's choice. It will be unconstitutional and contrary to natural law or, if you like, the will of God." ~[Dr. Shiv Chopra](#), Canada Health whistleblower

**Update:** *Our loyal representatives twisted themselves into pretzels to get this bill passed. The lame duck congress even worked till the wee hours of the morning*

**so no one would see what they were doing on the last day they were in office. Many who may have voted 'no' had gone home to bed.**

**They got about 6 million letters, calls, and e-mails from Americans begging them not to pass this dangerous bill! But they just couldn't resist giving us a parting gift, because they couldn't resist the parting gifts they got for passing this disgusting bill. In case you haven't picked up on it, every new bill in this Orwellian world we live in, has a name the exact opposite of what its underlying purpose is.**

America was once founded on ideas of opportunity and that **hard work is supposed to pay off**. People who invest in their small businesses and grow them should be rewarded, not punished. But now, thanks to the U.S. Congress and the [Food Safety Modernization Act](#), small farmers who find even a little bit of success selling food (because selling \$500,000 worth of food is still a very small scale operation, and the actual profit on that might only be \$50,000 for a full year of work) are about to find themselves *punished* for being successful.

So much for free enterprise in [America](#). So much for local [food production](#). Watch for food [prices](#) to skyrocket in the coming years, and watch as **America's local food security collapses** under the iron fist of [the FDA](#) driving small farmers out of business.

**But that's what the empire wants, of course: Complete control over food production so that people are forced to buy their food from the sources Big Government tells them to. Those monopolistic sources are, of course, the powerful, centralized mega-corporations planting [GMO](#) crops and spraying them with chemical pesticides. Thanks to the FSMA, we are now living under a bona-fide system of **food fascism**.**

But don't take my word for it: Ask the farmers yourself! That's what I've been doing, and their answers reveal a disturbing truth: America's food security is headed South.

Watch my interview with Farmer Brad here:

<http://naturalnews.tv/v.asp?v=3F59F...>

Wisconsin residents:

**"Do not have a fundamental right to own and use a dairy cow or a dairy herd;"**

"Do not have a fundamental right to consume the milk from their own cow;"  
"Do not have a fundamental right to board their cow at the farm of a farmer;"  
"Do not have a fundamental right to produce and consume the foods of their choice;" and Cannot enter into private contracts without State police power intervention.

[Judge Patrick J. Fiedler's Decision](#) in Farm-to-Consumer Legal Defense Fund vs Wisconsin Dept of Agriculture, 9 Sept. 2011

<http://www.infowars.com/wisconsin-judge-no-right-to-decide-what-to-eat-without-permission-from-state/>

### Is The Government Stockpiling Food To Prepare For A Major Forthcoming Crisis?

Is the U.S. government stockpiling huge amounts of food and supplies in anticipation that something bad is about to happen? Is something about to cause a major economic crisis that will require large quantities of emergency food? This morning I received a call from a very prominent person in the storable food industry. When I talked to him today, he had just received a huge order for storable food from a U.S. government source. He told me that the dollar amount of the order was in the "five figures". When he asked about why so much food was being ordered, the government source told him essentially that "because what is coming". The truth is that the government is taking emergency preparedness very seriously these days. For example, you can see video of a high-level NASA official urging NASA employees to develop preparedness plans for their own families [right here](#). But what if this is a sign of something bigger?

**15. SMART GRID and SMART METERS-** As if electro magnetic frequencies (EMF) from cell phones, cell towers, microwave ovens, HD TVs, wi-fi signals, medical CT scans, X-rays, and airport scanners, aren't enough to fry us, we now get to have the new and improved electrical grid along with the deadly 'smart meters' that go with them.

Here's another gift from TPTB money grabbers who have nothing but their own agenda in mind. No wonder that the corporations who are going to be bidding for a piece of the action dare not bring up the issue of safety. This may *finally* be the wake-up call for all the people who refused to believe their government has anything but their best interests at heart. Once again, our dependence on electricity will be used to hold us hostage, and to make us comply with something that may very well kill us!

Not to mention that 'smart meters' are a complete invasion of your privacy and a way for Big Brother to keep track of your every move and even control your appliances remotely if they want. Please read up on this subject *before* they come to your town and alert your neighbors! The meters will be spewing strong pulses of microwave energy all through the environment, your home and everybody in it, then returning the signal to a receiver up to 2 miles away. Even if you didn't have one, don't worry, you'll be treated to all your neighbors signals as well, right through your walls.

Your utility's talking point will be that 'they are no more dangerous than a cell phone', or that it only pulses twice a day, which are outright lies! Apparently, they haven't been keeping up on their propaganda scheme.

Even the WHO is finally admitting that cell phones do cause cancer tumors! Another case of hiding the health risks for the benefit of big corporations. And, according to Dr. Bill Deagle, who has been testing the smart meter, it's been putting out 100 times the EMF of a cell phone! I wonder how long it will take to kill people who are unfortunate enough to live in multi-family dwellings, or live with a meter bank containing hundreds of meters a short distance from their home?

**Don't think our government knows exactly what they're doing to us? The military has studied this technology extensively! The meters have not even been approved by UL, and you need a subpoena to get safety rating records from the utility co.**

**The meters have been catching on fire and may have been the cause of the gas line explosion in San Diego that took 8 lives and 47 homes a few months ago. Federal "investigators" said they were not going to investigate if the meter was the cause "because the meter did not cause the explosion". They don't look for things they don't want to find.**

The utility commissions and the utility companies are playing extreme hardball with people who do not want to be microwaved in their homes.

Judging by Dr. Deagle's own testing of his smart meter, it's obvious that any test results provided by the industry claiming the meters are completely safe are fraudulent! Further, they do admit that there has been no long term testing, but you'll need a subpoena to see their safety data.

"The meters are within the FCC's guidelines" they say. (Another alphabet agency) I guess cell phones are too, although the radio frequency levels they put out have just been listed as carcinogens.

The government has offered bribe money to the states, utilities and the utility commissions (which came from us in the form of 'stimulus money') to institute this program. Then we'll pay for it again 'to reimburse the utility along with a 'fair' profit', by paying much higher rates.

It is NOT mandated by law, but if you refuse them permission to install the meter, they will come back and install it anyway and say you have no choice. Or they'll threaten to turn your power off! They thought they could pass this one off by saying it will save us money, conserve energy, and save the earth! But people are catching on to this one, and the lawsuits are already under way. But how many judges do you trust these days?) Act now and get your city to ban them!

Every cell in our body has an electrical biology, and unless you aren't human, you will be damaged. It's the modern day version of a gas chamber but the chamber this time happens to be your own home.

**16. UNENDING WARS-** Mothers of soliders, **Look up Gulf War Syndrome. They are guinea pigs for every imaginable vaccine, and unwitting victims of America's own weapon of mass destruction called depleted uranium.**

The next time someone says our sons and daughters are defending **our freedom**, remind them of the black SUVs and swat team raids on the Amish farmers, or the 630 citizen deaths by cop tasers, or the no warrant, no knock raids on homes of innocent

people, or the ongoing sexual assaults, and the full body radiation/pornographic body scanners used by the airport TSA just because people want to visit their families in another state.

I know our young people sign up out of financial desperation and perceived patriotism. Once they sign they are compelled to follow orders, but it is now apparent to the entire world that they are not fighting for our country, but for the agenda of the cabal of elites who want to own it all, including you. **We need the military to defend us, right here at home, from the enemies within, and the outside enemies who are fomented by our government's lies.**

**Watch: [Beyond Treason: Depleted Uranium & Anthrax Vaccines \[Full Film\]](#)**

**17. OBAMA" CARE"-** Written by the insurance companies, it will be the perfect covert plan to eliminate all the 'useless eaters' and save the government from paying all of us pesky Baby Boomers our social security. It won't be hard, since while they are adding 30 million people into the system, 60% of the doctors we have now will be long gone. They want nothing to do with it.

Everyone knows that the medical system is in melt down as we speak anyway. One of my favorite parts of this travesty is the rule that if you are 'not up to date on your vaccines', you won't get care. It's such a fabulous law that the scum who voted for it made themselves and their staff exempt from it! But make your doctor appointments now!

Ask him if he makes house calls to jails, since that's where you'll be if you can't afford ObamaCare.

---

### **Hatch: Obamacare Reg Would Force Religious Employers to Provide Abortifacients**

By [Erick Hamme](#)--**October 12, 2011 (CNSNews.com)** - Sen. Orrin Hatch (R-Utah), said Tuesday that a regulation the Obama administration has proposed under the new health-care law enacted last year **would require religious employers to provide their workers with abortifacients, which are drugs that kill an unborn child.**

He also said that what he perceived as Obamacare's threat to individual liberty was "one of the most serious issues we've ever seen in the history of this Republic. "

The U.S. Conference of Catholic Bishops came out recently and made the statement that [Health and Human Services] Secretary [Kathleen] Sebelius's proposed regulations, **that would require all private health plans to cover sterilizations, and all FDA-approved contraceptives that include even abortions**--they claimed that this was an unprecedented attack on religious liberty.

---

### **[Undercover Calls Reveal Medicaid Pays For \\$9,000 Late-term Abortions With Our Tax Dollars](#)**

Written by Operation Rescue--**October 12, 2011**--Albuquerque, New Mexico – As **debate over tax-funding of abortions in Obamacare** is scheduled in Washington, D.C. for Thursday, an investigation conducted by Operation Rescue and Project Defending Life **shows millions of tax dollars are already paying for abortions each year.** Operation Rescue has released a short video containing excerpts from an undercover recording

showing **that Medicaid pays not only for abortions, but completely covers third-trimester abortions for no medical reason whatsoever.**

The caller identified herself as having a healthy pregnancy in the 26th week of gestation to a Southwestern Women's Options employee named Sue. She told Sue that the reason she wanted an abortion was because her husband had just lost his job.

**"It's shocking that our tax dollars would pay \$9,000 for a third-trimester abortion simply because of a lost job. The vast majority of the American people strongly object to their tax money being used in this way,"** said Operation Rescue President Troy Newman.

Operation Rescue **has identified 15 states where Medicaid funds pay for abortions.**

**Those states are Alaska, California, Connecticut, Hawaii, Maryland, Massachusetts, Minnesota, Montana, New Jersey, New Mexico, New York, Oregon, Vermont, Washington, and West Virginia.**

**The undercover caller phoned abortion clinics in 12 of those states and in every case was told that Medicaid would pay for abortions.**

## **18. WEATHER MODIFICATION-**

***"Others are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves. So there are plenty of ingenious minds out there that are at work finding ways in which they can wreak terror upon other nations. It's real, and that's the reason why we have to intensify our efforts, and that's why this is so important."***-1997, US Secretary of Defense William Cohen

***"Senator Claiborne Pell several years ago had been quoted in a news story in which he had said, "now that we can control the weather, create earthquakes and tidal waves and use it as a weapon of war we need to do a treaty." ....***Russia and the United States have worked together hand in hand for twenty years in developing weather control

I'm sure the ruling Cabal has unlimited funds to invest in it, and the Navy says they'll own the weather by 2025. We keep having rare, deadly, 'once every 100 years' droughts, floods, earthquakes, temperatures, and snowfalls, so I'm really suspicious about this.

I appears they may own the weather **now!** **It seems to add up to broke farmers, food shortages and sky high prices.** Our government signed on to a UN treaty that prohibits all countries from using weather weapons. So, our leaders promptly privatized the U.S. weather bureau, and created numerous front companies that carry out their plans for them anyway.

**19. FINANCIAL COLLAPSE/DEPRESSION-** Many, many people died during the 1930s depression? & coincidentally one of the most telling discoveries were the thousands of coffins piled up that the Jessi Ventura showed on one of his TruTV shows. That show was never aired again, and was removed altogether from the TruTV website and the internet. Are the coffins for the masses of people who will die during the new great depression? Why did the government order them? If they are there in case of a big natural disaster, wouldn't the government just say so? Instead they removed the evidence from view. In detective terms, they call that consciousness of guilt.

Please print out this article and give it to the people you care about. If they are still sleeping, but have any survival instinct left, maybe this will shake them awake.

**Bonus:**

**Attention Christians:** [The Fraud and Evil of the Susan G. Komen Foundation](#)

**Summary by** Terry Carroll

I consider the Susan G. Komen Foundation to be a disingenuous fraud for raising hundreds of millions of dollars that, effectively, do little more than create public service announcements encouraging annual mammograms, sponsor fund raising "races," and provide emotional support for women diagnosed with breast cancer. **What they don't do is acknowledge credible studies linking breast cancer to hormonal contraceptives and abortion, and they partner with America's version of Dr. Mengele's medical practice: Planned Parenthood.**

The Susan G. Komen Foundation is a cultural icon that is virtually beyond criticism. It might not be an exaggeration to include it with "motherhood and apple pie" as an institution about which nothing but good is allowed to be said. Living people who have suffered the effects of breast cancer are legion, survivors themselves or related to either survivors or victims. Almost everyone who loses someone tragically, whether it be through disease or drunk driving or murder, seeks to "make sense" out of their tragedy by working for the eradication of whatever evil has befallen them.

My harsh criticism of the SGK Foundation flows from concern about how much the SGK Foundation does *not* do to *prevent* breast cancer. **What the SGK Foundation actually achieves is an increase in the occurrence of breast cancer by relentlessly denying the truth of risk factors such as abortion and hormonal contraceptives.**

I'm sorry if this truth is received as a slap in the face by those who, desperately, seek to do something in response to the scourge of breast cancer. There *are* things which *can* be done, but they're being done by *other* breast cancer organizations, less well known and lacking SGK Foundation's resources & friendly press.

Seeking a cure for breast cancer is a good thing, **but not if it includes killing more women and children than it can ever hope to save through a cure.** Not only has all their money produced nothing except splashy publicity and sympathy events, they also ignore the truths that can actually help people prior to finding a cure. **That makes them complicit in many deaths from the very disease for which they hope to find a cure.**

From <http://www.abortionbreastcancer.com/> we read: *Publication of the first edition of this booklet was prompted by the authors' knowledge that much of the recent surge in breast cancer was attributable to avoidable risks....* Read [here](#) for more on ABC (Abortion/Breast Cancer) link.

**Cancer groups lied to women about the risks of using combined (estrogen + progestin) hormone replacement therapy and 'the pill' when conclusive evidence of a breast cancer risk became available in the 1980s, and they are still lying**

**about abortion.**

The SGK Foundation rejects all of this and outright **deny the validity of such studies as if the studies had no value at all.**

'I realize that the breast cancer epidemic has been tremendously profitable for the cancer establishment,' continued Malec 'but those who've participated in this cover-up should be deeply ashamed of themselves for the incredible suffering they've inflicted. These people are cold, calculating abortion zealots driven by greed and fear of widespread medical malpractice lawsuits.'"

Read more [here](#).

So the best thing women can do for themselves to lower their risk of breast cancer is to refrain from abortions and use of hormonal contraceptives but most don't want to hear this either because they (and their male partners) **want to have sex without the risk of procreation or they consider procreation itself a greater health risk than cancer** (see [this article](#) by Jill Stanek). Smokers don't deny the risks they take. **Aborting and contracepting women do. That makes smokers both morally superior and more intellectually honest than most women.**

[Research Shows Abortion-Breast Cancer Link](#): The researchers affirmed previous studies showing **that a full-term pregnancy before age 35 reduces the long-term risk of developing breast cancer.** They said the fact was well-established and that their own research renewed the evidence for it. **Karin Michels of Brigham and Women's Hospital, who headed the study, said that someone who has had an abortion "misses out on the potential benefit she would have had if she had a full-term pregnancy."** Read more [here](#).

**The SGK Foundation refuses to tell women that use of "the pill" dramatically increases the risk of breast cancer. What would we think of an organization that focused on cures for lung cancer and didn't bother to tell anyone that smoking was a significant risk factor? They also support killing more women through Planned Parenthood (more below) than they will ever save through finding a cure for breast cancer.**

It is claimed that the Susan G. Komen Foundation does so much good. Exactly what have they done, what do they do, to conquer breast cancer other than collect massive amounts of sympathy money to find a cure for something whose exploding occurrence could be reduced by personal decisions made by many women?

**Why support a group that so outrageously lies and supports the homicide of more babies in the womb than it can ever hope to save outside it? Each year Christians raise their concerns about supporting Komen specifically because Komen donates money to Planned Parenthood. Most Christians unknowingly assist Komen in their fundraising efforts which goes against the teachings of the Bible as stated in the Fifth Commandment of "You shall not kill".** (article [here](#))

How can anyone with a conscience contribute to this organization? [Susan G. Komen Foundation's "partnership" with Planned Parenthood is reprehensible.](#) Planned Parenthood's roots are so deeply embedded in the American eugenics movement that, unlike most rhetorical exaggerations, comparisons and links to Nazi Germany are not without merit. **Hitler received inspiration, direct guidance and documented praise from Planned Parenthood.**

### **Susan G. Komen and the BPA-Breast Cancer Link**

[http://www.truthdig.com/eartotheground/item/susan\\_g\\_komen\\_and\\_the\\_bpa-breast\\_cancer\\_link\\_20111003/](http://www.truthdig.com/eartotheground/item/susan_g_komen_and_the_bpa-breast_cancer_link_20111003/)

**Posted on Oct 3, 2011--**In the face of mounting scientific evidence, Susan G. Komen for the Cure, a nonprofit devoted to wiping out breast cancer, has published statements on its **website that dismiss links between the disease and the ubiquitous chemical bisphenol A (BPA), while simultaneously funding research exploring that connection.**

**More than 100 studies connect BPA to breast cancer in humans, while others have established the link in lab animals.** The Centers for Disease Control and Prevention estimated that BPA is in the bodies of more than 90 percent of the U.S. population. **In April of last year, however, Komen deemed the chemical safe.**

**Nevertheless, in 2011 the organization gave \$450,000 to a researcher (United States' President's Cancer Panel) who hypothesizes that BPA "causes or accelerates breast cancer."**

### **Susan G. Komen Buckets for the Cure program exposed: The buckets you buy make no difference**

by Mike Adams,(NaturalNews) The whole push behind the new "Buckets for the Cure" pinkwashing campaign by Komen for the Cure is to convince people to buy more fried chicken (which is laced with MSG, by the way) in order to "end breast cancer forever." (<http://www.naturalnews.com/images/K...> **But NaturalNews has learned that there is no relationship between how many buckets of chicken are purchased by consumers and how much money KFC donates to Komen for the Cure. Consumer purchases of fried chicken don't raise money for anything!**

As is stated directly on the Komen for the Cure promotional [website](#), "Customer purchases of [KFC](#) buckets during the promotion will not directly increase the total contribution." See the small print at the bottom of this screen capture:

<http://www.naturalnews.com/images/K...> **And yet the Komen for the Cure website proudly proclaims, "Each bucket makes a difference. Help make the largest single donation to end breast cancer FOREVER."**

This is an outright lie. Each bucket you buy doesn't make any difference at all, as is admitted on their own website. This is an organization promoting fried chicken as a cure for breast cancer and using deceptive language to imply that buying fried chicken raises money for ending cancer. But you have to read the small print to learn that's not really true.

So we have layers of [fraud](#) upon fraud happening here:

Fraud #1) Eating fried chicken will cure cancer.

Fraud #2) Buying fried chicken will result in a monetary donation to Komen for the Cure.

Fraud #3) That Komen for the Cure will ever "end breast cancer FOREVER."

These are all **fraudulent marketing claims** being made by the Susan G. Komen for the Cure non-profit, **which is really a Big Pharma front group that causes breast cancer by irradiating women's breasts with radiation machines (mammography) which actually increase the risk for breast cancer every time a women receives one.**

[http://www.naturalnews.com/z028670\\_Komen\\_for\\_the\\_Cure\\_fraud.html](http://www.naturalnews.com/z028670_Komen_for_the_Cure_fraud.html)

### **Mammograms Don't Help, They Harm Women**

Tuesday, April 01, 2008 by: Jo Hartley--Like all x-rays, mammograms utilize doses of ionizing radiation to create this image. The image is then analyzed for any abnormal growths. **Mammography is now receiving sizable opposition because of high error rates and high radiation levels involved in the procedure.**

**The rate of false positives and false negatives is alarming. 70 to 80 percent of all positive mammograms do not show any presence of cancer upon biopsy. Additionally, mammograms have a high rate of missed tumors (false negatives). In the book The Politics of Cancer, Dr. Samuel S. Epstein claims that in women ages 40 to 49, 25% have their cancer missed by mammography.** Many women depend on an annual mammogram to diagnose breast cancer. Recent studies show, however, **that an annual mammogram may actually increase your risk of developing breast cancer from 1 to 3 percent. This is because the breast is one of the parts of the body most sensitive to radiation exposure. It is second only to fetal tissue.**

In addition, by the age of 50 approximately 45 percent of women will have cancer cells present in their breasts. These cells remain dormant in most women. However, if you are in this group of women, you are at an increased risk of these cells becoming active. Research has uncovered a gene, called oncogene AC that is highly sensitive to even small doses of radiation. A significant percentage of women have this gene and this could increase their risk of mammography-induced cancer.

**Since mammograms were introduced, the occurrence of a form of breast cancer called ductal carcinoma in situ (DCIS) has increased by over 300 percent. Two hundred percent of this increase is thought to be due to mammography. Mammography may also contribute to the spread of existing cancer cells due to the enormous pressure placed on the woman's breast during the procedure. According to some physicians, this compression may even cause existing cancer cells to metastasize from the affected breast tissue.**

**Russell L. Blaylock, MD, estimates that annual radiological breast exams increase the risk of breast cancer by two percent a year. Over a 10 year period the risk will have increased by 20 percent. Another estimation is that one rad increases the breast cancer risk by one percent and is the equivalent of one year's natural aging.**

**Hence, if a woman has yearly mammograms from age 55 to age 75, she will receive at least 20 rads of radiation.**

The mainstream medical establishment is largely ignoring safe and effective alternatives to mammography. **One such option is digital mammography.** This is a mammogram in which x-ray film is replaced by solid-state detectors that convert x-rays into electric signals. Though radiation is still used, this kind of digital mammography requires a much smaller amount. The electrical signals are used to create images that can be electronically manipulated. A physician can enhance, magnify and optimize different parts of the breast tissue digital image without having to take an additional image.
