- ALERT: Federal government may seize and shut down all internet sites that don't push vaccines during a national emergency pandemic

**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, **but rather reprove them. But all things that are reprov'd are made manifest by the light:** for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest,** and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly,** not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive **the very elect.**"

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we **are not** ignorant of his devices."

**II Chronicles 7:14:** "If **my people,** which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

**Psa 91:1** ¶ He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty.

**Psa 91:2** I will say of the LORD, He is my refuge and my fortress: my God; in him will I trust.

**Psa 91:3** Surely he shall deliver thee from the snare of the fowler, **and from the noisome pestilence.**

**Psa 91:4** He shall cover thee with his feathers, and under his wings shalt thou trust: his truth shall be thy shield and buckler.

**Psa 91:5** Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day;

Psa 91:6 **Nor for the pestilence that walketh in darkness**; nor for the destruction that wasteth at noonday.

Psa 91:7 A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh thee.

Psa 91:8 Only with thine eyes shalt thou behold and see the reward of the wicked.

Psa 91:9 Because thou hast made the LORD, which is my refuge, even the most High, thy habitation;

Psa 91:10 There shall no evil befall thee, **neither shall any plague come nigh thy dwelling**.

Psa 91:11 For he shall give his angels charge over thee, to keep thee in all thy ways.

Psa 91:12 They shall bear thee up in their hands, lest thou dash thy foot against a stone.

### **Texas Nurse Tests Positive for Ebola First Ebola Transmission in U.S.**

The nurse was involved in Duncan's second visit to the hospital, when he was admitted for treatment, **and was wearing protective gear as prescribed by the CDC: gown, gloves, mask and shield.**

**Play:** <http://youtu.be/l8YA7QC29C4>

### **Bleach is friend in this Ebola fight**

**As for the sprayer, if they are using 5.25% Household bleach at a rate of 1:10 for 10 minutes of exposure; that would effectively kill the virus.** -- Making a mixture of bleach and water will provide only the disinfectant, not the detergent base. Therefore, a two-step process may be needed if cleaning is to be performed prior to disinfection.

-- If a bleach and water mixture is made, use only chlorine bleach without the scent additive, as this reduces the resultant parts per million (ppm) of available chlorine.

-- There is a difference between a germicidal bleach (6.15 percent hypochlorite), a laundry bleach (6.0 percent hypochlorite), and a discounted bleach (5.25 percent or less hypochlorite).

-- A contact time of one minute for the hypochlorite (bleach and water) solution should provide adequate disinfection for non-porous surfaces. This is accomplished by a thorough wetting of the surface with the hypochlorite solution, then allowing it to air dry.

Providing for the appropriate disinfectant contact time, **which refers to the amount of time necessary for the germicide to come into contact with the organism and result in a significant reduction in the number of microorganisms**, is a critical step in the disinfection protocol.

### **Chlorhexidine Gluconate, Hand Sanitizer & Surgical Gloves in Ebola Prevention**

Regarding Ebola a wise risk mitigation action **would be near full time use of surgical gloves combined with frequent use of hand sanitizer on those gloves.** Note that using hand sanitizer directly on skin could result in skin disruption / drying which could increase the risks of

infection with Ebola if exposed.

Prior to such an outbreak and needed use of gloves, **the proper use of Hibiclens (Chlorhexidine Gluconate) as a skin lotion could provide prophylactic protection against infection as it continues to invisibly kill enveloped viruses for hours after application. We believe Hibiclens offers a huge advantage to those who know of its existence, use it properly, and have it on hand before it becomes unavailable.** We believe Amazon is the most cost effective source for Hibiclens (CHG)

In that regard, a key item to note is that once things become public there will very little time to react in either gathering supplies or reuniting with loved ones before travel restrictions are imposed. **Things key to have on hand at that point are disposable medical gloves & hand sanitizer to keep the gloves clean.** One should expect protective disposable exam gloves to become unavailable. Currently such gloves are readily available at Sam's Club at half the price available elsewhere.

### **BP Agent: 'FEMA is preparing for 200 million deaths'**

A retired Border Patrol Agent **has made some startling claims, as to what we are not being told about the recent surge in illegal aliens over our Southern border, and its consequences.**

The agent, Zack Taylor, spent many years as a supervisor working along the U.S.-Mexico border in Texas, and as a U.S. Border Patrol Section Chief in Tuscon, Ariz. As someone who has spoken to Mr. Taylor many times, this columnist knows this man to be honest, reasoned and well informed. He keeps in regular contact with those currently working on the border, and has proven to be a valuable source of information time and time again.

Furthermore, Mr. Taylor (as I always address him) has spent most of his life in service to his country, and never makes a statement before giving it great thought...**That is what makes this revelation so frightening.**

### **Mystery virus EV-D68 exploding among vaccinated children; U.S. medical system clueless without a vaccine**

by Mike Adams, the Health Ranger, NaturalNews Editor (NaturalNews) **The rapid explosion of mystery virus EV-D68 is sending hundreds of children to hospitals across Missouri, Colorado, Kansas, Utah and eight other states. "In Kansas City, about 475 children were recently treated at Children's Mercy Hospital, and at least 60 of them received intensive hospitalization,"** reports CNN.

(1)

CNN goes on to report: **"It's worse in terms of scope of critically ill children who require intensive care. I would call it unprecedented. I've practiced for 30 years in pediatrics, and I've never seen anything quite like this,"** said Dr. Mary Anne Jackson, the hospital's division director for infectious diseases.

**What CNN and other media outlets are not reporting, however, is that this outbreak is occurring among vaccinated children.**

**Children who have been vaccinated with MMR vaccines, influenza vaccines, polio vaccines and many others are the same children who are now being struck by EV-D68. How do we know this? Because we know how the rabid pro-vaccine media consistently reports on viral outbreaks:**

**Vaccine media propaganda rule #1)** If an outbreak ever occurs among unvaccinated children, then the published stories will strongly condemn parents for failing to vaccinated their children while promoting vaccines as the one and only solution.

**Vaccine media propaganda rule #2)** If there's an inconvenient fact about vaccines that the media doesn't want the public to know, it will **withhold that fact** from all its stories. This was made abundantly clear in the **recent media-wide blackout of the CDC whistleblower story, where top CDC scientist Dr. William Thompson openly admitted to committing scientific fraud at the CDC in order to hide the link between MMR vaccines and autism.** [Click here to read the once-secret letter Dr. Thompson sent to CDC director Julie Gerberding, admitting to a cover-up.](#)

The fact that the mainstream media is right now not blaming the EV-D68 outbreak on unvaccinated children, in other words, is near-conclusive proof that this outbreak is occurring among vaccinated children.

Because **there is no vaccine for EV-D68, the media can't push vaccines as the solution for these infections.** And so the media seems totally lost and clueless about what to report. There's no mention of protecting children's immune systems with vitamin C and D, Zinc, Colloidal Silver or the highly antiviral trace mineral Selenium; and no mainstream media outlet even dares mention the words "immune support" for fear that people might realize a strong immune system is far better than a vaccine at preventing infectious disease.

Even when children's lives are at stake, the media is so opposed to nutritional defenses that it consistently refuses to mention a low-cost, high-safety, readily-available nutrients that could save countless lives during a pandemic outbreak...!

The over-reliance on vaccines in public health will ultimately kill millions of children in a real outbreak for the simple reason that **vaccines are blindly relied upon at the exclusion of all else.**

Any honest health care system that really cared about public health would have a multi-layered pandemic defense strategy which included immune boosting activities, nutritional defenses, personal hygiene reinforcement and finally medical intervention as last resort.

### Some astounding quotes about the severity of this outbreak

"An unprecedented lung virus that has infected over 1000 children across 10 states from the Midwest to the east coast is likely to spread to the rest of the country, doctors have warned." (2)

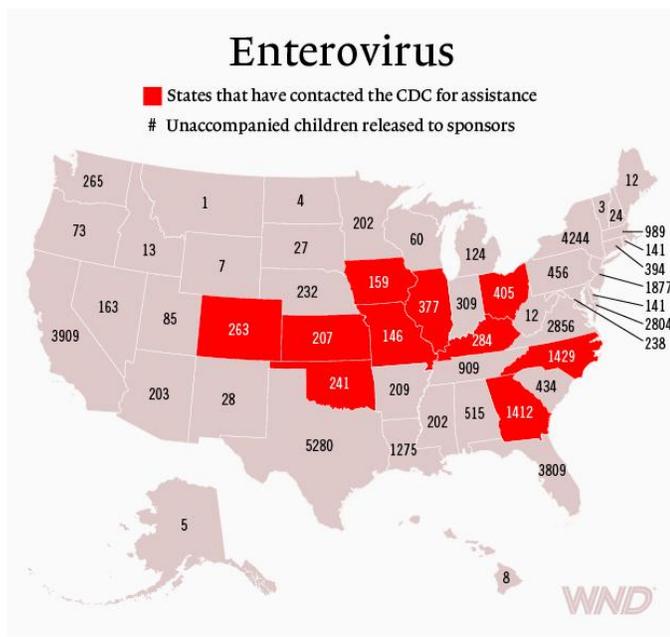

*The unusually high number of hospitalizations reported could be "just the tip of the iceberg in terms of severe cases," said Mark Pallansch, a virologist and director of the Centers for Disease Control and Prevention's Division of Viral Diseases. - CNN (1)*

**"Just weeks after the Obama administration let more than 37,000 illegal-alien children into the U.S. without health screening, more than 1,000 kids across 10 states have been stricken with a respiratory virus – prompting widespread concerns about a major outbreak sweeping across the nation."** - WND.com (3)

One more noteworthy twist on this entire story has been fielded by radio host Michael Savage, a very high-IQ individual trained as an epidemiologist.

Yesterday he said on his radio show: (3) **For 20 years, I've been trying to warn America about the unscreened immigrants being brought in. Now, of course, it's coming home to roost and the American people are being lied to by the Centers for Disease Transmission. They used to be the CDC; they're now the CDT.**

**Instead of stopping disease spread, they're encouraging it by not speaking out against bringing in infected children and putting them in our public schools, right? It's astounding to me what they can get away with because of the ignorance of the public. Common sense is gone.**

**...What do you expect to happen if you put a kid with a certain virus into a school where they've never been exposed to that virus? It's called an epidemic breakout.**

**...This population in America, which once enjoyed the greatest health on earth, is now being devolved into a second-world nation in terms of health because **Obama is so corrupt,... & so evil** that he's taken what was once the greatest nation on earth and is now devolving us into a second nation status.**

**Savage's argument is further supported by this graphic from WND, showing states which have received illegal immigrants correlated with states which have urgently contacted the CDC to ask for help concerning this sudden outbreak:**

**For once, the mainstream media can't blame "unvaccinated" children because there is no vaccine for this virus. That's why the medical advice currently circulating around the media for dealing with this outbreak is so remarkably worthless.**

Consider the pathetic reality of our present-day government and its failed medical system:

**Shocking reality #1) Our current federal government refuses to secure the U.S. border and openly invites immigrants to walk right in, regardless of what they might be carrying from a public health point of view.**

**Shocking reality #2) Our medical system is a "one-trick pony" when it comes to pandemic prevention. That one trick is "vaccines." And if there isn't a vaccine, the entire medical system is absolutely clueless about what to do.**

**Shocking reality #3) Medical authorities outright refuse to recommend any nutritional therapies that boost immune defenses against pandemic diseases**

**Shocking reality #4) Many advocates of vaccines are also strong advocates of population reduction. They actually applaud shrinking the number of living humans on the planet. So pandemics literally help them accomplish their goals. "That's the answer!" remarked Dr. Charles Arntzen in a comment caught on video. "Go out and use genetic engineering to create a better virus. (laughter) Twenty-five percent of the population is supposed to go in Contagion." (5)**

Even more, **Bill Gates famously stated during a public presentation that vaccines could help lower the human population by 10 to 15 percent.** His exact words:

**"The world today has 6.8 billion people... that's headed up to about 9 billion. Now if we do a really great job on new vaccines, health care, reproductive health services, we could lower that by perhaps 10 or 15 percent."**

**Don't believe that he said this? The video has been pulled from Youtube numerous times, but we've preserved it at TV.naturalnews.com. [Click this link to watch it for yourself.](#) The video leaves no question whatsoever about Gates' advocacy of vaccines to reduce human population.**

**Maybe now with Ebola, EV-D68, chikungunya virus and other exploding pandemics that have suddenly taken hold across our world, people like Bill Gates will finally get their wish. A massive population wipeout may be just around the corner, and if you tune in to CNN, they will probably feature fifty high-level scientists telling you all the different ways you can wash your hands while waiting for the CDC to rescue you with an experimental vaccine that carries a 40% fatality rate like the ZMapp Ebola drug.**

**The five biggest lies about Ebola being pushed by government and mass media**

by Mike Adams, the Health Ranger, NaturalNews Editor (NaturalNews) All the disinformation being spread about Ebola by the U.S. government and the complicit mass media will unfortunately make the Ebola pandemic far worse. That's because the public isn't being told the truth about how Ebola spreads and how individuals can help prevent transmission of the disease.

**At every level of media and government, protecting the financial interests of drug companies appears to be far more important than protecting public health. So people aren't told the truth about how Ebola spreads and how they can increase their ability to survive a global pandemic.**

Here are five of the biggest lies being spread about Ebola right now. Once you've reviewed the lies, learn the truth at [www.BioDefense.com](http://www.BioDefense.com)

#### **Lie #1) Ebola won't ever come to the United States**

This lie was shattered just this week when [the CDC confirmed Ebola in a hospital patient in Dallas, Texas.](#)

Not only has Ebola already spread to America, but a top scientist who used to work for the FDA now says this is only the beginning and that Ebola will spread in America. [1]

#### **Lie #2) Ebola is only spread via direct contact with body fluids**

**This outrageous medical lie may soon cost the lives of millions of innocent people. In truth, Ebola can spread through the air over short distances via *aerosols* - airborne particles.**

Ebola can also spread via contaminated surfaces. When an infected patient makes contact with a surface such as a doorknob or ATM keypad, they may leave behind the Ebola virus which survives for many minutes or hours in the open, depending on environmental conditions (temperature, humidity, etc.) Another person who touches the same surface may then become instantly infected by simply touching their own eyes, nose or mouth.

**The ability of Ebola to spread via contaminated surfaces is why victims in Africa have become infected by riding in taxi cabs. This also means any form of public transportation -- airplanes, ambulances, subways -- may harbor the virus and accelerate the spread of an outbreak.**

Like all viruses, Ebola is destroyed by sunlight. But it can remain viable for a surprisingly long time in environments where sunlight never reaches -- such as underground subways, which are the perfect breeding grounds for viral transmission.

#### **Lie #3) Don't worry: Health authorities have everything under control**

The overarching lie about Ebola that's being repeated by the U.S. government is "Don't worry, we have it under control!"

**Of course, the fact that an infected Ebola victim just flew right into the country with Ebola, then walked around the city of Dallas for 10 days while carrying Ebola, utterly belies the false promises of health authorities who claim to have things under control.**

In truth, **Ebola is completely out of control** which is precisely why its sudden appearance in a Dallas hospital surprised nearly everyone. The sobering fact of the matter is that despite all the money being spent on "homeland security," **DHS has no intention on stopping Ebola from walking right into the USA, including on foot from our wide open southern border.**

**If the U.S. government has everything under control, then why did the government just purchase 160,000 Ebola hazmat suits? Why did Obama just recently sign an executive order authorizing the forced government quarantine of anyone showing symptoms of infectious disease?**

#### **Lie #4) The only defense against Ebola is a vaccine or a pharmaceutical drug**

**This lie may get millions of people killed if the Ebola outbreak gets worse. In a desperate bid to make sure Ebola generates billions of dollars in profits for vaccine makers and pharmaceutical companies, the CDC, FDA and even the FTC routinely censor truthful information about natural treatments that might hold promise (such as colloidal silver).**

Companies that offer essential oils and colloidal silver products have already been threatened with criminal arrest and prosecution by the FDA.

**Fact #1) The FDA refuses to conduct any testing on natural or alternative therapies (such as colloidal silver) in order to find out their efficacy.**

**Fact #2) The FDA openly rubber-stamped the treatment of Ebola patients with the entirely unproven, experimental drug "ZMapp," which has so far resulted in around a 40% fatality rate in Ebola patients. How exactly is it that an unproven pharmaceutical is okay to use as a treatment for Ebola, but an herb or natural remedy is completely unacceptable and possibly illegal? (The double standard of so-called "science" is breathtaking...)**

Where is the FDA's warning letter to the manufacturer of ZMapp? Oh, wait... instead of receiving a warning letter from the FDA, the ZMapp manufacturer received a [\\$42 million grant from Health and Human Services](#).

**Fact #3) The FDA openly allows billions of dollars of pharmaceuticals to be prescribed each year for health conditions they were never approved for! This is called "off-label prescribing" and it's a huge part of the pharmaceutical industry's profit model.**

The mainstream media remains complicit in the systematic oppression of natural cures, printing the FDA's propaganda while completely avoiding any balanced reporting that might highlight the extraordinary anti-viral capabilities of many medicinal herbs as I've described in [Episode Six of Pandemic Preparedness](#).

If we really want to stop the spread of this viral pandemic right now, both government and the media should be urging citizens to boost their immune defenses by consuming more nutritious foods, herbal spices, superfoods and anti-viral plants (which include peppermint, basil, rosemary, cinnamon and oregano, just to name a few).

Everyone should be immediately urged to make sure they have sufficient vitamin C & D & Selenium circulating in their blood.

**Lie #5) Ebola came out of nowhere and was a random fluke of nature**

The modern-day version of Ebola that's so aggressively circulating today **may actually be a bioengineered virus, according to one scientist who wrote a front-page story in Liberia's largest newspaper. "Ebola is a genetically modified organism (GMO)," declared Dr. Cyril Broderick, Professor of Plant Pathology, in a front-page story published in the Liberian Observer. [2]** He goes on to explain: ***[Dr Leonard Horowitz] confirmed the existence of an American Military-Medical-Industry that conducts biological weapons tests under the guise of administering vaccinations to control diseases and improve the health of "black Africans overseas."***

Further supporting this genetic engineering research claim, the U.S. government patented Ebola in 2010 and now claims intellectual property ownership over all Ebola variants. That patent number is CA2741523A1, viewable [at this link](#).

Read more about the patenting of Ebola and control over its research in [this Natural News article](#). This means the U.S. government claims all control over Ebola research, too, because any research project involving replication of the virus would violate the government's patent.

In fact, the vastly improved transmission ability of the Ebola strain currently circulating (compared to previous outbreaks in years past) has many people convinced this strain is a "weaponized" variant which either broke through containment protocols at [government](#) labs **or was intentionally deployed as a population control weapon.**

**Several U.S. scientists have openly called for global depopulation using genetically engineered bioweapons such as Ebola. Dr. Eric Pianka of the University of Texas at Austin reportedly advocated the use of Ebola to wipe out 90% of the human population,** according to Life Site News. [3]

It appears he may soon get his wish. If the current Ebola explosion continues, the global population may be in serious jeopardy and many millions could die.

## Special-Ops Dire Ebola Warning! Ebola Vaccine Is Trigger For The Plague!

By Live Free or Die--We recently received the following email from John DiNardo who has requested that it be published in full. The email contains information **gleaned from a special-ops source within the United States military who warns that the Ebola vaccine is most likely the trigger for the coming Ebola plague. I received the following information from an ex-military guy whom I have known for about eight years. He served in special operations. I'm recalling some of the many things he said.**

He suspects that the 1,600 US Army troops who were recently sent to Africa to contend with the Ebola threat **are to be exposed to this Ebola virus (which is not the true Zaire Ebola, but a man-made variant; you'll find out why in a moment), and that these troops will be injected with the new Ebola vaccine, which will subdue that specific virus. However, recalling his victimization as a virus vector in the Army, he suspects that the anti-Ebola vaccine will be given to these US soldiers in Africa, and — just as they did to him — this vaccine will also contain a “trigger” element. These soldiers, who have unwittingly been made virus vectors, will then come home to the United States, and many of them will be discharged; thusly, they will be dispersed to all areas of the United States. This man told me that when these vector soldiers come home to the United States, pathogens will later be released into the atmosphere, perhaps in chemtrails and/or in ground releases, such as in the subway systems of major cities. The latter plot has already been perpetrated in the New York City subway system when they released the serratia marcescens bacteria, which was encapsulated in light bulbs and tossed into the subways. This diabolical plot is documented in the book, CLOUDS OF SECRECY, by Prof. Leonard Cole of Rutgers University. My ex-military friend told me that the trigger element planted in the U.S. soldiers' ebola vaccinations in Africa will then “recombine” in their bodies with the pathogen that is to be released throughout the United States. The product of this recombination of the pathogen... will be a deadly biological weapon of mass extermination, calculated and designed to go airborne and thus, to be highly contagious. Remember the BATMAN comic book series of 1996, foretelling, in a symbolic story line, this diabolical plot for mass extermination of the American population. You see, the flu vaccine also contains the trigger element which, when injected into thousands of victimized vectors, will recombine within the bodies of some of these vectors to make a lethal-but-non-contagious virus which will become an airborne mutant of that virus. My contact also believes that the recent ushering in of thousands of children from Central America across the Texas border near San Antonio is a part of this very same plot that is being perpetrated against our 1,600 U.S. soldiers . . . and I suspect that the ushering in of thousands of illegal Mexicans across the border is likewise another part of this very same diabolical plot of mass extermination of the American population. In fact, infowars.com reporters have confirmed that the Centers for Disease Control is spearheading an unprecedented roundup of illegal Mexicans, who are exhibiting flu-like symptoms. Infowars.com is asking a vital question: Where are the CDC's disease agents taking all of these illegal, apparently diseased Mexicans? My ex-military, special operations, vaccine-victimized contact told me that he has learned that those thousands of Central American children are being housed at Lackland Air Force base in San Antonio, near the Texas border. He believes that these children are likewise being infected and injected with the trigger element, as part of this diabolical plot to exterminate the American population. The sick Mexicans, who today are being rounded up and sequestered by the CDC, are probably also being brought to Lackland Air Force Base. And Lackland or some similar place is where all the ill Mexicans are probably being sequestered for vaccination with the trigger element that will later make their disease go lethally airborne. And so, we begin to realize that this vaccination victimization of our soldiers in Africa is for the very same purpose as that of ushering many thousands of illegal Mexicans across the Texas and Arizona borders, and as that of ushering in many thousands of Central American children across our borders. We have yet more indications that this diabolical American genocide plot — indeed, this global**

**genocide plot — is now underway.** BeforeItsNews.com has recently broken the story of a disease epidemic at Lackland Air Force Base — an epidemic that is now kept under a veil of tight secrecy, enforced by ominous threats against the insiders at Lackland. And we have reports that people fleeing Africa are being given easy entry into the United States. More desired fuel to feed the fires of contagion! My contact tells me that airports in twenty-four more U.S. cities have just been added as welcome centers for passengers from Africa. John DiNardo

### **Clues to Killer Flu Conspiracy**

**In March of 2009, pharmaceutical giants Baxter and Bayer attempted to infect the populations of 18 countries with a deadly laboratory-made bird flu which — when introduced to sizable populations — was certain to mutate and/or recombine with the non-lethal airborne seasonal flu virus in the vaccines which health departments of nations typically dispense to their citizenries. This means that the lethal, but non-airborne bird flu virus would become airborne to unleash a worldwide plague via the masses who are deceived into clamoring for the vaccine, their perceived agent of protection, which would have ironically been the agent of their demise. However, the eighteen victimized nations detected the lethality of this Baxter/Bayer trojan horse concoction, and voiced strong objections to this genocidal plot by “big pharma.” Today, a comparably malicious plot is likely being foisted upon the world. Judging by their past treachery, we can be sure that this deadly ebola virus has been concocted in a laboratory and was released by the same demonic perpetrators (sitting atop the pyramid of world power) who tried to murder us with the lethally spiked seasonal flu vaccine five and a half years ago.**

### **Ebola Patients & Exposed Persons to be Sent to Death Camps According to HHS Documents by Dave Hodges**

**--When Ebola strikes America in force, it will set into motion a cascade of catastrophic events.** This article has a very narrow focus in that it will subsequently focus on how Ebola will impact the healthcare system once the nation moves beyond the condition of having only a few victims and attempts at isolation will quickly turn to quarantine. **This article is a combination of repeating what I was told by a key insider source and the partial collaboration of this data through the results of what I have found as a result of my own research**

In the early days of an Ebola outbreak, mandatory vaccinations, similar to what was reported on in yesterday's article [2], will be instituted. My sources tell me that they believe that about 90% of the nation will be vaccinated in less than a week. As I pointed out yesterday, there is legislation[3] sweeping the country making vaccinations of all kinds mandatory to hold a job or to even avoid being quarantined as a precautionary procedure.

My sources tell me that **Federal authorities believe that about 65% will voluntarily show up to various public venues, such as schools, and willingly take the vaccines. DHS estimates that about 35% of the country will resist taking the coming vaccines and that enforcement mechanisms (e.g. vaccine roadblocks will be instituted). The “vaccine police” will be present at all gatherings of people in which vaccination ID cards must be shown in order to attend an event.**

I have been made privy to the fact that **Federal authorities believe that they can vaccinate 90% of the population, while 10% of non-vaccinated people will remain at large until the outbreak of pandemic conditions reaches the level of declared martial law.**

The spread of Ebola will devastate the healthcare system. And the healthcare system, attempting to avoid complete devastation by being overwhelmed by the Ebola pandemic, will move into survival mode and attempt to preserve its own shelf life. The healthcare's industry self-protective move will have devastating consequences on the American people.

If one Ebola patient shows up at a hospital emergency room, that one patient potentially has the ability to get the entire hospital shut down and quarantined due to the spread of the virus. I have been told that Ebola care will quickly try and prevent Ebola victims from coming to the hospital.

Ebola care will quickly come to consist of phoning in your symptoms **and that very soon after the pandemic outbreak hospitals will be closed to random walk-in traffic.** **This is designed to turn away Ebola patients. If a patient has Ebola-type symptoms, the hospital will order the patient to stay home and take comfort medication in as much as it is available.** And as I have learned, **proxy forces under the control of Human Health Services will show up at a residence and transport both the Ebola sufferer and their presumably infected family members to a FEMA camp type of facility.**

**If someone presents with no Ebola symptoms (e.g. tonsillitis), they will be instructed to come to the hospital and enter through a make shift biohazard zone, where they will be screened for the virus before being allowed to proceed into the hospital for treatment.**

When Ebola is out in the open and there is no denying that it has spread to every state and threatens the very existence of this country, the American people will begin to take notice of some very sobering policy shifts.

Before one can “legally” transport Ebola patients to “death camps” and await the inevitable, the public must be reassured that the rule of law is being followed.

When Ebola strikes, the changes in the handling of Ebola patients have already been planned for through a series of legal actions, most of them are Executive Orders. For example, the Executive Order, entitled *Revised List of Quarantinable Communicable Diseases*[4], amends Executive Order 13295[5], passed by George W. Bush in April 2003, **which allows for the, “apprehension, detention, or conditional release of individuals”, and Ebola is specifically mentioned.** Obama’s executive order, entitled, *Revised List of Quarantinable Communicable Diseases*[4], amends Bush’s Executive Order 13295[6], **which allows for the, “apprehension, detention, or conditional release of individuals to prevent the introduction, transmission, or spread of suspected communicable diseases.”**

Even though President Bush specifically mentioned Ebola as an illness which would permit the authorities to utilize forced quarantines, **Obama takes this portion of the Executive Order to a whole new level. Obama has granted his administration the authority to detain, in any manner deemed necessary, any person who demonstrates any degree of respiratory distress. This means people with noninfectious asthma could be detained.**

**When the forced transport of Ebola patients begins to occur, relatively healthy people will be joining them in this death parade march.** The operational details will be covered later in this article. **In the event of a pandemic, the Secretary of Human Health Services (HHS) will assume operational control of Federal emergency public health and medical response.**

**In the event of a pandemic outbreak the HHS will order the quarantining of Ebola sufferers and the transport of the same to detainment camps. The mass transport of Ebola victims to quarantine camps is referred to “ambulance services”, and it is a euphemism for transporting sick people to a death camp.**

**I have found evidence supporting these claims in a federal document entitled *Emergency Support Function #8 (ESF #8) – Public Health and Medical Services Annex.***

This document can be accessed by Googling “ESF #8” and you will arrive at the following listing and a PDF will appear.

[PDF]Emergency Support Function #8 – Public Health and Medical[7]

Federal Emergency Management Agency

ESF #8 **established the national ambulance contract, which is designed to provide support for evacuating seriously ill or injured patients.**

HHS will enlist the VA and Department of Defense assets (the military) in support of providing “transportation assets, operating and staffing **NDMS Federal Coordination Centers**, and processing and **tracking patient movements from collection points to their final destination reception facilities”** (emphasis added).

According to the ESF #8 document, the DOD is the only recognized Federal partner responsible for regulating and tracking patients transported on DOD assets to appropriate treatment facilities (i.e.,

NDMS hospitals). However, other agencies “may assist with isolation and quarantine measures and with point of distribution operations (mass prophylaxis and vaccination)”.

**The ESF #8 document leads to some disturbing revelations.**

**The Ebola Detainment Centers Have No Real Medical Facilities**

[8]

Look at the participating partners in the “hospital” detainment centers in the EFS #8 document.

Support Agencies: Department of Agriculture, Department of Commerce, Department of Defense, Department of Energy, Department of Homeland Security, Department of the Interior, Department of Justice, Department of Labor, Department of State, Department of Transportation, Department of Veterans Affairs, Environmental Protection Agency, General Services Administration, U.S. Agency for International Development, U.S. Postal Service, American Red Cross

In the above list of Ebola detainment centers, I don't see the CDC or the National Institute of Health listed. Nor do I see any legitimate medical organizations. I don't even see the presence of any “volunteer” medical organizations such as *Doctors Without Borders*. **Does anyone else find it disturbing that the transport of very sick people will be conducted and the end point is devoid of any medical treatment organizations and/or facilities?**

**In my opinion these facilities are death camps. There is not one shred of evidence that these camps are intended to treat or even make comfortable people who will contract Ebola or be exposed to Ebola. The most disturbing thing is that these camps could also be death camps for relatively healthy people (Comment: Like the Red and Blue List?).** If you are a person who is unlucky enough to be discovered to have asthma or

merely be temporarily suffering from congestion in one's lungs from allergies or a simple cold, you could find yourself on one of the federally approved ambulance services (bus, train, plane) and headed to your final destination.

**BREAKING NEWS: National Institutes of Health “We may need to vaccinate the whole country”**

Two days ago, Dr. Anthony Fauci, director of the U.S. National Institute for Allergy and Infectious Diseases, told The Canadian Press that **it's “quite conceivable, if not likely” that fast-tracked Ebola vaccines may have to given to entire countries to get the viral outbreak under control (via Modern Healthcare).**

**One Comment Reads:** *WOW.. A BOON FOR THE PHARMACEUTICAL INDUSTRY. It is always about money and control. How many years have they been trying to find a reason to force vaccinations?? Remember they can also chip people at the same time which is also in their agenda. When you get chipped..., they can send frequencies to your brain to make the body get sick, turn you into a zombie, make you docile enough to never resist again. The*

**possibilities are endless and THEY KNOW IT!!! That is exactly why they keep coming up with this garbage to force vaccinations. If they can chip us all, they won't need to take our guns.**

## **ALERT: Federal government may seize and shut down all internet sites that don't push vaccines during a national emergency pandemic**

(NaturalNews) **If you aren't saving off articles, downloading important MP3 audio files and printing off vital information that might save your life in a pandemic outbreak, you may soon find yourself completely cut off from all alternative health information on the web.** Under an executive order signed by President Obama in 2012, the U.S. federal government now has the authority to **seize and shut down all private websites which do not promote vaccines and pharmaceuticals** during the coming Ebola pandemic the government expects to sweep across America.

The **order claims total federal authority over all communications, including granting the government the ability to seize private facilities such as web server farms, amateur radios, printing presses and all forms of communication.**

**In response to the signing of the order, the Electronic Privacy Information Center (EPIC) issued this dire warning:**

The White House has released a new Executive Order seeking to ensure the continuity of government communications during a national emergency. **The Executive Order grants new powers to the Department of Homeland Security, including the ability to collect certain public communications information.** Under the Executive Order the White House has also granted the Department the authority to seize private facilities when necessary, effectively shutting down or limiting civilian communications.

**So in other words the U.S. federal government now has the authority to seize and shut down all private websites which do not promote vaccines and pharmaceuticals during the coming Ebola pandemic the government expects to sweep across America.**

Billions of lives are at stake around the world, **and the governments of the world seem to deliberately want as many people to die as possible in a pandemic, which is precisely why no government will dare test colloidal silver, Vitamin C & D, Selenium & medicinal herbs as an Ebola treatment.** Many observers are convinced **the governments don't want to stop Ebola,** which is precisely why the international response has deliberately been so slow, practically guaranteeing a continued explosion of the pandemic.

**"Ebola, AIDS Manufactured by Western Pharmaceuticals, US Department of Defense," declares a headline of a fascinating news story authored by a Liberian scientist. [4] That story goes on to explain that "Ebola is a genetically modified organism (GMO)... testing has been secretly taking place in Africa."**

This report also states: **"The World Health Organization (WHO) and several other UN Agencies have been implicated in selecting and enticing African countries to participate in the testing events, promoting vaccinations, but pursuing various testing regiments,"** the author declares. He continues by warning, **"AFRICAN LEADERS AND AFRICAN COUNTRIES NEED TO TAKE THE LEAD IN DEFENDING BABIES, CHILDREN, AFRICAN WOMEN, AFRICAN MEN, AND THE ELDERLY. THESE CITIZENS DO NOT DESERVE TO BE USED AS GUINEA PIGS!"**

If he's right, **and if the U.S. government is deliberately using African children and adults as human guinea pigs to test a genetically engineered bioweapon, do you really think that same government won't shut down a few web servers that are trying to tell people the truth?**
