Why there are no shootings in Israeli schools

Gallup Poll: 64 Percent of Americans Want School Officials Armed to Protect Children

Another Perspective: Arm the Teachers and School Staff

If someone were to truly want to solve the problem of school shootings, they would allow various, random staff members to carry guns, and post signs allowing intruders, and potentially violent students to know that they will not get very far if they plan on carrying out an attack.

Allowing random staff members a choice to carry weapons instead of mandating all teachers to do so or mandating them not to would bring an extra element of security to the equation because no one would know which teachers were armed and which ones were not, forcing them to assume that all of them are.

For an attacker, knowing that they are walking into a firing squad can be a very strong deterrent.

On the other hand, under our current “no gun school zone” policies, attackers are given the message that the whole building will be defenseless.

Media Blackout: Oregon Mall Shooter Was Stopped By An Armed Citizen

While reports of Tuesday’s shooting at the Clackamas Town Center Mall in Oregon, dominated the national media until Friday’s horrific shooting at Sandy Hook Elementary School in Connecticut; **one very important detail has been repeatedly (and intentionally) left out of the MSM’s coverage.**

The shooter, Jacob Tyler Roberts, when finally confronted by an armed citizen, ran away and shot himself. By the time police arrived on the scene, Roberts was already dead.

Mass Killings Stopped by Armed Citizens

Numerous school massacres stopped by gun owners who wielded their weapons in defense of children

Audio: Newtown Massacre - Obama's Hypocrisy

Slaughter of the Innocents

Exodus 21:22-25; Jeremiah 7:1-7

www.sermonaudio.com/sermoninfo.asp?SID=121812719162

Shortly after the news of the massacre dominated the network media this past Friday, President Obama appeared on network TV to make a **scripted**, emotional speech that was very well written - and fairly well presented - **but sadly overshadowed and nullified by the gross hypocrisy of the one who presented it.**

This audio message explains why Obama's expression of sympathy for innocent victims was a deception, but also what Obama must do if he wants to prove to this nation that he cares about the lives of innocent victims. If Obama means what he says - and truly plans to "take meaningful action to prevent more tragedies like this, regardless of the politics" - **then he must start by ending the mindless slaughter of millions of other innocent victims for which he bears personal responsibility - from the daily slaughter of thousands of innocent unborn**

children to the slaughter of hundreds of thousands of innocent civilians in illegal foreign wars - victims who ALSO, in Obama's words, "had their entire lives ahead of them — birthdays, graduations, weddings, kids of their own." And if Obama means what he says - he must also begin an initiative to fix the very public schools that CAUSED this epidemic - **when they replaced the Bible, prayer and creation science in the classrooms with their godless religion of atheistic evolution.**

Comment: But he won't as he is of his father the devil and of his lusts and works will Obama do.

Americans in denial about school violence and the obvious solution: Arm school personnel

When he took to the microphones to suggest that, in the wake of yet another horrific school shooting, **it is past time to arm qualified educators so they can better protect their young charges**, he raised more than a few eyebrows.

This was an outside-the-box solution being made by a very law-and-order type of guy:

Here was the police chief of St. Louis County, in the days after the Sandy Hook Elementary School massacre, actually recommending that it was high time teachers and other education professionals be given the ability to carry firearms on campus for self-defense and the defense of the children they are entrusted with.

"We can talk on the back end of the need for funding of mental illness programs and gun control, but as a law enforcement officer, **I'm focused on that five-minute window that it takes for the cops to get there while people are getting killed,**" said Chief Tom Fitch.

"There is somebody out there right now trying to figure out how to do something worse than this guy did, and there is only one way to end a threat, and that's with lethal force."

Subject: **From a Listener: Why I carry a gun.....**

I found this on one of the forums I am a member of. It is well written and sums up why I carry. I thought you could enjoy it.

*"I do not carry a firearm because it is my right. I do not carry because I am afraid. I do not carry because I am paranoid, and I don't carry because I am trying to make a statement. I am not being political, and I am not being religious. I do not carry a gun because I want to frighten, intimidate, or kill. **I carry a gun because there is genuine evil in this world. I carry a gun because most people are not equipped to deal with that evil. I carry a gun because the police mostly respond to crime, they do not prevent it. I carry a gun because there are some that can not defend themselves. Some threats are too fearsome, too strong, and too evil. I carry a gun because I am willing to stand between you and that evil. I carry a gun, expecting that someday I may have to use it, and praying that I will never have to.**"*

Let's let facts guide the gun control debate for a change

With the recent horrible shootings around the nation, the left-wing -- led by President Obama, some members of the Senate and House, and most of today's media -- are screaming for new gun control laws.

But what would the consequences of such laws be?

A study done by the Justice Department in 1999 analyzed the 1994 "Assault Weapons" ban and concluded it did nothing to reduce crime or shootings. The Justice Department stated, "The ban has failed to reduce the average number of victims per gun-murder incident or multiple-gunshot wound victims."

No wonder the Congress allowed the useless gun ban to "sunset" after ten years -- it didn't work, period!

Despite the fact we have these new incidents where innocents were murdered, **gun murders themselves have drastically dropped over the last two decades. Why?** **Noted gun-crime author and statistician, Dr. John R. Lott, attributes much of this to the increase in "concealed carry" permits issued nationwide to ordinary citizens, which now allow them to carry weapons for personal protection and the protection of others. These laws have reduced crime because potential perpetrators don't know who's carrying for personal protection. In fact, according to FBI data, U.S. murders dropped nearly 40% to 14,478 in 2010 -- a significant drop from 23,440 in 1990 -- even as the overall population grew by 24 percent!** **This may be why Dr. Lott's most famous book is titled "More guns, less crime."** <http://www.gunowners.org/news12202012.htm>

Solution to School Mass Murders--Free Concealed Handgun License Class to Teachers/ Administrators

The tragic event that happened this past Friday made many realize that 'gun free zones' will not stop the criminal element (in fact it will only encourage them). **We are supportive of legislation allowing teachers to carry a concealed handgun in school if they desire. To show our support to this movement we are offering free Concealed Handgun classes to any teachers and administrators until 1-6-13. Please pass this on to anyone you know that may be interested.**

Faced with mass murder in class, teachers are told to throw a book at the killer.

We don't have to be physics majors to know: lead would work much better.

Front Sight's Monday Blog: I Told You So in 1999 and Every Year Since

Dr. Ignatius
Piazza

For Immediate Release: Monday, December 17, 2012

Please Forward to Your Local Newspapers, Radio Stations, and Television News Stations

Back in 1999 I gave our nation the solution to stop innocent children from being slaughtered.

Every year since then, I have given the nation the solution. Isn't it time our nation allows Front Sight to provide the solution, free of charge?

I'm angered that more children have to die when I have the solution for every school in America and I am willing to pay for it.

Subject: Gun School For Teachers

Las Vegas, Nevada: In the wake of the yet another senseless school massacre, I ask all our politicians, law enforcement officials, and school administrators one simply question:

WHEN ARE WE GOING TO WAKE UP AS A NATION AND PROTECT OUR CHILDREN?

How many more children have to die before we will find the fortitude, as a nation, to put in place REAL policies that will stop a deranged gunman in his tracks, before he can commit mass murder on innocent and defenseless children?

How many times do I have to offer the nation THE solution?

What is wrong with the leaders of our country? Find a pair, and make the RIGHT decision to protect our children, not more of the wrong decisions that create the opportunity for the next lunatic to murder at will with zero resistance!

Once again, Front Sight Firearms Training Institute, arguably the world leader in providing intensified courses in the defensive use of firearms for private citizens, has the answer to stopping further attacks on school children. **Front Sight will once again offer free firearms training to any school administrator, teachers, or full time staff members designated as school Safety Monitors.**

Front Sight will accept for training up to three staff members from each school, college or university.

Applicants must submit a letter requesting training on school letterhead signed by the top school district official and designating the applicant as the school's Safety Monitor.

Please forward this e-mail to your state and federal legislators, local law enforcement departments and your child's school administrator, as well as your friends and family, asking them to do the same.

Guns and Teachers

My offer is not a new idea. In the early 70's, Israel was faced with much greater problems of armed terrorist attacks on schools. The cry for more gun control was heard then too, but Israel very carefully analyzed all possible options before adopting the proactive position of arming and training their teachers. School shootings stopped and terrorists looked for easier targets. Gun control never has and never will stop criminals and madmen from carrying out acts of gun violence.

**Here is the reason why there are no school shooting in Israel. Wake up America!
The problem is not guns. Guns don't cause these incidents to occur any more than cameras cause child pornography or automobiles cause traffic fatalities.**

Israel has the right answer. Society is safer when we train and arm our law abiding citizens. As the defensive training leader in the USA, Front Sight is willing and able to set the example for the rest of the country to follow.

It is time WE WAKE UP and start providing REAL protection for our children in schools. Front Sight stands ready, willing and able to train every teacher in America if that is what it takes! Help us protect your children by demanding YOUR school send their teachers to Front Sight!

HOUSE DEM: 'Turn in your guns'...

Rep. Sheila Jackson Lee (D-Texas) on Wednesday afternoon urged people to turn in their guns, arguing it would be an appropriate response to last week's mass shooting in Newtown, Conn.

"I would personally just say to those who are listening, maybe you want to turn in your guns," Jackson Lee said on the House floor. "Oh no, I'm not going to take your guns. **But look at what Dick's Sporting Goods did ... they wanted to be part of the solution and part of America.**"

Dick's Sporting Goods announced this week that it would stop selling and displaying guns at its store closest to Newtown and would suspend the sale of modern sporting rifles nationwide out of respect for the victims of the shooting.

Stampeding Gun Control Through Crisis: Never let a crisis go to waste – especially when it is an opportunity to abridge our Constitutional rights.

Predictably and right on cue Bloomberg and others instantly started screaming for massive gun control in the wake of the Newtown shooting. Clamors to change the **Second Amendment, to invoke an Executive Orders and even to kill the leaders of the NRA abound.**

I am appalled. Yes, I am appalled about this slaughter, but I am more appalled that the first response from the professional control freaks — the political animals across the nation — **is to initiate the long-planned campaign to stampede Americans into surrendering their rights, to disarm all the people who didn't murder anyone, and — most importantly — to eliminate the ability of the citizens to defend themselves from a whole spectrum of evils ranging from common bad guys to government tyranny.**

Senator Feinstein **has pledged to submit new "assault weapon" legislation, even more draconian than the last completely useless ban (the one that had no effect on crime other than to create new classes of victims).** Senator Feinstein, evidently in an effort to avoid accusations that this new bill is a knee jerk response to the shootings, assures us that she has been working on this bill for a year.

Contemplate that for a moment. This "new" bill has been poised to launch for months, waiting only for the inevitable next horrific incident or an appropriate tragedy, to then whip this "solution" out, while stampeding a brainwashed populace into accepting yet another "DO SOMETHING!" law that constrains honest people while not even addressing the actual problem. The senseless slaughter of 20 little ones is the perfect political platform for shoving fascist policies down our throats. The media will trot out every profile of every child and teacher who died, to engender guilt, horror and remorse and bully Americans into letting go of their guns.

Obama seems poised to declare military dictatorship in America over Sandy Hook Elementary shooting

In yet another masterful bit of presidential theater, Obama took to the airwaves Sunday night to declare his "love" for children and then to ask, "Are we really prepared to say that we're powerless in the face of such carnage, that the politics are too hard?"

This is code speak for **gun prohibition schemes** now being pushed ultra-aggressively by anti-gun zealots like Obama, Feinstein and Bloomberg.

What Obama failed to say in his speech is that **his own government made the Sandy Hook Elementary School principal "powerless" to stop the killing** by outlawing concealed carry weapons in so-called "gun-free zones."

A gun-free zone is a place where somebody puts up a sign that reads, "Gun-Free Zone." These signs **are not magic**. They have no power whatsoever and are the intellectual equivalent to hocus pocus, delusional thinking and lucky charms. **Quite the contrary these signs attract killers who know they will not have to deal with return fire.**

Printed signs do not stop psychopathic killers. What stops them (**unless God intervenes in another way**) is *return fire*. **If the school principal had been allowed to legally and lawfully carry a concealed firearm at the school, the entire death toll could have been avoided or minimized.**

Thirty-two thousand Americans are killed each year in automobile accidents, and the President sheds no tears for them. The deaths aren't on the news, and there is no call to "ban cars" to prevent the deaths. Over 100,000 Americans are killed each year by government-approved pharmaceuticals, yet we never see all those dead bodies on the evening news.

The government's horror at Americans dying, it seems, is highly selective. Only people killed with certain kinds of things -- such as guns -- are keyed on by the federal government.

But no, Obama doesn't want to empower principals and school administrators with a means to defend the children. Instead, he wants to strip firearms from EVERYONE in the nation, even if they are upstanding, law-abiding citizens who help build and protect strong communities. Of course, such gun-grabbing agendas don't strip guns away from the government: it's a *selective gun grab* that disarms only law-abiding citizens, leaving the government with a **monopoly of firepower** that history has shown is inevitably turned against the citizens.

To stop another school shooting, it seems, Obama would deliver our nation into a **military dictatorship** under which no one would be safe from the government itself. Why military?

Because that's the only way for the government to enforce a nationwide gun confiscation program. They would have to unleash **troops on the streets across America**, and pit many soldiers against their own families in fierce gun battles.

It's all so predictable: Governments consistently seize on tragedy and emotional outpouring to consolidate power for themselves. Obama has now promised to **bypass Congress** and to, as he explains, "use whatever power this office holds to engage our citizens ... to save another child or another parent or another town..."

In other words, he will do *anything* to stop the death of one more child, **even if it means disarming the entire nation** and thereby subjecting the citizens to runaway violent crime and government tyranny.

This is the non-logic of tyrants. **"We have to change," Obama says, implying that he means "at any cost." Including the cost of liberty.**

If Obama backs up his words with action, it appears he is about to effectively declare America a military dictatorship where private gun ownership is prohibited by the government. Imagine a nationwide gun turn-in mandate, armed federal raids on the homes of farmers and ranchers, Obama declaring anyone who owns a gun to be a "terrorist..." you get the picture. This is where Obama's rhetoric leads us.

Anti-gun nuts are loudly calling for mass violence against gun owners and the NRA. On Twitter, Facebook and elsewhere, left-leaning control freaks are demanding that all gun owners should shoot their own children and that the president of the NRA should be executed. This is the rhetoric of those who claim to "love the children."

Such outrageous talk of violence, my friends, may combine with Obama's promise to bypass Congress and push America into **civil war**. Because I can assure you with absolute certainty that there are tens of millions of armed Americans -- many are cops, firearms instructors or returning veterans -- who will **under no circumstances, voluntarily turn in their guns** to the government; especially not to Obama's government.

Yet emotional, irrational and historically ignorant anti-gun zealots are now demanding, screaming, even *threatening* that everybody in America must now turn their guns in **because of (in this case) the actions of ONE deranged individual.**

Senator Jay Rockefeller Calls for Gun Control and More Psychoactive Drugs

The Rockefeller family has been strict supporters of gun control for many years and they are one of the handful of families who fund and influence the politicians through their manipulation of monetary systems and control of natural resources like land, oil, gold, and diamonds.

They belong to the Illuminati aristocratic club that wants to further enslave humanity using the political system.

This should be no surprise to people who are familiar with the history of this family and the nature of gun control, **but recently a Rockefeller in the Senate has issued a statement using the recent shooting as an excuse to push for gun control.**

According to the State Journal, **Jay Rockefeller recently issued the following statement:**

"I voted for the assault weapons ban in 1994, which also included a ban of high capacity clips, and it's unacceptable that it hasn't been reauthorized... We need to pass a bill that will again prohibit such weapons."

In addition, Rockefeller discussed the need to **funnel more people into a state sanctioned and tax funded mental health system, which would undoubtedly include the distribution of harmful psychoactive drugs that have been known to play a role in many violent crimes.**

<http://theintelhub.com/2012/12/19/senator-jay-rockefeller-calls-for-gun-control-and-more-psychoactive-drugs/>

'This Is Not Some Washington Commission'...Obama taps Biden to lead gun grab...

President Barack Obama announced today that he's "asked the Vice President to lead an effort that includes members of my Cabinet and outside organizations to come up with a set of concrete proposals no later than January -- proposals that I then intend to push without delay."

But make no mistake, Obama made clear: "This is not some Washington commission." Instead, according to the president, **"This is a team that has a very specific task, to pull together real reforms right now. I asked Joe to lead this effort in part because he wrote the 1994 Crime Bill... That plan -- that bill also included the assault weapons ban."**

Obama **believes the American people are on his side.**

He said: "The good news is there's already a growing consensus for us to build from," said Obama. "A majority of Americans support banning the sale of military-style assault weapons. A majority of Americans support banning the sale of high-capacity ammunition clips."

Eric Holder, Obama Propose To Use Executive Orders To Impose New Gun Control Laws

Holder, who is traveling to Newtown today, **said they are considering their options on executive orders:** "Those options will have to include a 'strong and robust' Bureau of Alcohol, Tobacco, Firearms and Explosives, the chronically **under-funded** agency that enforces federal gun laws, he said."

That's the Bureau of Alcohol, Tobacco, Firearms and Explosives **that ran Operation Fast and Furious, in which U.S. law enforcement allowed drug cartels to purchase weapons in this country and smuggle them into Mexico, where they were used to kill thousands of people in Mexico and border patrol agent Brian Terry.**

Even with the exposure of the disastrous Fast and Furious program, Attorney General Eric Holder has used the program as a reason to call for more gun restrictions.

The American people need to demand the truth about the Fast and Furious scandal, before allowing Eric Holder and the Obama administration to take one more step toward issuing executive orders to further their gun control agenda.

The operation was conceived to actually increase the American guns used in Mexican drug cartel violence so that the Obama administration could have cover for using executive orders to impose gun restrictions without congress.

Now the Obama administration and Eric Holder have the Sandy School shooting tragedy to use to further their gun control agenda. If at first you don't succeed try, try again seems to be the mantra of the Obama administration.

Reuters Calls for Obama to Act as Dictator to Ban Guns

In a shocking article that seems to completely toss the Constitution out the window, **Reuters announced President Obama's official dictatorship in a story it published yesterday, "Even Without Congress, Obama Could Act to Restrict Guns."**

The subheading begins, "Unburdened by re-election worries and empowered by law to act without Congress, U.S. President Barack Obama could take action..." Because he has won a second term, the story points out that, "Obama does not need to fear alienating

voters who favor gun rights” and that he can, “press ahead without lawmakers” to pass executive orders restricting our 2nd Amendment rights.
According to this story, it’s official: America is under an admitted dictatorship.

China Calls for ‘No Delay’ on Gun Controls in U.S.

HONG KONG — The state news agency in China, the official voice of the government, has called for the United States to quickly adopt stricter gun controls in the aftermath of the shooting rampage in Connecticut that left 28 people dead, including 20 schoolchildren.

“Their blood and tears demand no delay for U.S. gun control,” said the news agency, Xinhua, which listed a series of shootings this year in the United States.

China suffered its own school tragedy on Friday — a man **stabbed** 22 children at a village elementary school in Henan Province. An 85-year-old woman also was stabbed.

Obama Targets Gun Shows

During a news conference on Wednesday, Obama said that a “majority of Americans support laws requiring background checks before all gun purchases...”

This is a direct reference to gun shows.

Under the Firearm Owners Protection Act of 1986, individuals “not engaged in the business” of selling firearms are not required to conduct background checks on buyers or maintain records of sale.

Michael Bloomberg, New York Mayor and rabid anti-Second Amendment activist, **claims that 40 percent of firearms sales occur either at gun shows or over the internet.** Bloomberg’s claim is based on 15-year-old survey data released by the National Institute of Justice, a development and evaluation agency of the United States Department of Justice

US lobby issues point-blank 'no' on gun control

National Rifle Association (NRA) Executive Vice President

Wayne LaPierre speaks on December 21, 2012, in Washington, DC.

AFP - The NRA, the most powerful gun lobby in the United States, ruled out any support Sunday for greater regulation of firearms or ammunition magazines after the Sandy Hook elementary school massacre.

Wayne LaPierre, the executive vice president of the National Rifle Association, said planned legislation to outlaw military-style assault weapons and large-capacity magazines was "phony" and would not work.

He repeated the NRA's call to place an armed guard in every school and argued that prosecuting criminals and fixing the mental health system, rather than gun control, were the solutions to America's mass shooting epidemic.

Firearms Supplier Sells More Than Three Years Worth Of Gun Magazines In Just Three Days

Brownells, the world's largest supplier of firearms, **has reportedly sold three-and-a-half years worth of gun magazines in just seventy-two hours.**

Brownells CEO [said](#):

"I wanted to take a minute to shed some insight on the magazine situation if I can. First of all I wanted to offer an apology for the situation... [The] demand for magazines actually exceeded the ability for the system to keep up with the volume that was being ordered."

"To shed some more light on the magazine situation at present, it really has been unprecedented in the last 5 days. **During a roughly 72 hour period...we sold the 'average**

demand' equivalent of about 3.5 years worth of PMAGS, and an even greater amount of our Brownells magazines."

Wal-Mart Almost Wiped Clean of Guns as Concerns Amongst Americans Deepen

The retail giant Wal-Mart has sold out of guns in many stores across the US as the beginning of Obama's second term nears.

More importantly this could signify the public's awareness that the factions of the US government and mainstream media alike, have been hyping mass shootings in a rehetorical-like manner heavily for the past few years, pushing toward full scale confiscation or heavy gun control policies at minimum. Wal-Mart's recent sell-out of guns could also signify that the people are not going to stand for the removal of their rights granted under the US Constitution. <http://theintelhub.com/2012/12/21/90873/>

GOA Defending Your Rights on the Firing Line

Barack Obama has made it his central priority to destroy us. And he and his anti-gun allies have billions of dollars of support from the TV, print, and cable media.

Obama will start out trying to ban semi-automatics, magazines and gun shows. But make no mistake about it. Obama's initial efforts to crush us will just be the first step to making the entire country a replica of Chicago — complete with across-the-board gun bans and defenseless citizens.

Julian Epstein, an MSNBC commentator, candidly revealed that the point of Obama's campaign was not any particular piece of legislation, but rather to "break the back" of the gun lobby. You can be sure of this: The battle against Obama and his anti-gun stooges will be the biggest fight of our lives.

Already, Gun Owners of America has been the most prominent spokesman for the Second Amendment in the wake of the horrific Newtown tragedy.

Roll Call, the newspaper of record on Capitol Hill, remarked that, in the immediate aftermath of the shooting, "the reaction from one gun rights group [GOA] stood out."

The liberal *Huffington Post* trumpeted: "Gun Owners of America steals Newtown gun debate while NRA hides." It went on to say that "[w]hat is surprising is that [GOA Executive Director] Pratt is the only gun lobby representative willing to discuss his beliefs in public in the days after the Connecticut massacre."

GOA has virtually been a solitary voice giving interviews all over the country -- and the world -- on behalf of gun rights and the Second Amendment.

[Stand with us so that we can continue fighting against the anti-gun onslaught.](#)

As much as anyone, we deplore the efforts of anti-gun zealots to exploit this tragedy for political gain. But if we hide in fear, we will have lost the debate and the legislative battle before even coming onto the battlefield. We cannot let that happen.

This has not been without cost. We have received death threats against us and our children, and hundreds of profanity-laced emails. One writer said he wished our own children had died at Sandy Hook. Another said he wished that all our GOA members would "just put a gun to their heads and pull the trigger."

But, when you stand up to sick-minded opportunistic people -- as we have -- you can expect their true colors to show through.

So we need your help to keep fighting. And we need you to fight alongside us.

ACTION:

- (1) [Go to our Facebook page at Gun Owners of America](#) and "like" us, if you have not already. There are daily articles there that will keep you up to date with what is going on in regard to our gun rights.
- (2) [Please do everything you can to help us](#), as we work overtime during this holiday season to defend our rights.
- (3) [Help us recruit even more gun owners on our free email alert list](#). Once the new Congress is sworn-in this January, we will be fighting the biggest battle of century.

What Can Women do for the Lord?

A group of clergy members, representing mainline and evangelical **Protestants, Catholics, Jews and Muslims**, plans to lead off the campaign in front of the Washington National Cathedral at an event on Friday timed to mark the moment a week before when a young gunman opened fire in a school in Newtown, Conn.

2Cr 6:14 Be ye not unequally yoked together with unbelievers: for what fellowship hath righteousness with unrighteousness? and what communion hath light with darkness?

Dean Hall said in an interview that he and Bishop Mariann Budde of the Episcopal Diocese of Washington were calling on their parishioners **to support four specific steps: bans on assault weapons and high-capacity magazines, tightening rules for sales at gun shows and re-examining care for the mentally ill.**

“Everyone in this city seems to be in terror of the gun lobby. But I believe the gun lobby is no match for the cross lobby,” said the Very Rev. Gary Hall, dean of the Washington National Cathedral, in an impassioned sermon on Sunday that has become a rallying cry for gun control.

Jer 48:10 Cursed [be] he that doeth the work of the LORD deceitfully...

People in the cathedral’s pews rose and applauded.

Jer 5:23 But this people hath a revolting and a rebellious heart; they are revolted and gone.

Jer 5:24 Neither say they in their heart, Let us now fear the LORD our God, that giveth rain, both the former and the latter, in his season: he reserveth unto us the appointed weeks of the harvest.

Jer 5:25 Your iniquities have turned away these [things], and your sins have withholden good [things] from you.

Jer 5:26 For among my people are found wicked [men]: they lay wait, as he that setteth snares; they set a trap, they catch men.

Jer 5:27 As a cage is full of birds, so [are] their houses full of deceit: therefore they are become great, and waxen rich.

Jer 5:28 They are waxen fat, they shine: yea, they overpass the deeds of the wicked: they judge not the cause, the cause of the fatherless, yet they prosper; and the right of the needy do they not judge.

Jer 5:29 Shall I not visit for these [things]? saith the LORD: shall not my soul be avenged on such a nation as this?

Jer 5:30 A wonderful and horrible thing is committed in the land;

Jer 5:31 The prophets prophesy falsely, and the priests bear rule by their means; and my people love [to have it] so: and what will ye do in the end thereof?

Jer 14:10 Thus saith the LORD unto this people, Thus have they loved to wander, they have not refrained their feet, therefore the LORD doth not accept them; he will now remember their iniquity, and visit their sins.

Jer 14:11 Then said the LORD unto me, Pray not for this people for [their] good.

Jer 14:12 When they fast, I will not hear their cry; and when they offer burnt offering and an oblation, I will not accept them: but I will consume them by the sword, and by the famine, and by the pestilence.

Subject: **Listener Comment REGARDING the AUDIO of THE Sandy Hook SHOOTING & SSRI Medication Side Effects**

*I ran across this website called ssri (**Selective Serotonin Reuptake Inhibitors**) stories and I wanted you to be aware of this...I noticed how these antidepressants play a big roll in this. Obviously it is related to witchcraft (Pharmakeia).*

<http://ssristories.com/>

WARNING!--Withdrawal can often be more dangerous than continuing on a medication. It is important to withdraw extremely slowly from these drugs, usually over a period of a year or more, under the supervision of a qualified specialist. Withdrawal is sometimes more severe than the original symptoms or problems.

This website is a collection of 4,800+ news stories with the full media article available, mainly criminal in nature, that have appeared in the media (newspapers, TV, scientific journals) or that were part of FDA testimony in either 1991, 2004 or 2006, in which antidepressants are mentioned. These stories are aimed at highlighting the lunacy of the current system but also showing how someone who is determined can change

everything. On December 15, 2010, PLoS Medicine released a study which showed that, in regard to prescription medications and violence, the FDA had received the most reports of violence from the SSRI & SNRI antidepressants. **The study listed Prozac as the number 2 drug for violence, and Paxil as number 3.**

<http://www.ssristories.com/show.php?item=4701>⁴

This web site focuses on the Selective Serotonin Reuptake Inhibitors (SSRIs), of which Prozac (fluoxetine) was the first. Other SSRIs are Zoloft, Paxil, (known in the UK as Seroxit), Celexa, Lexapro, and Luvox. Other newer antidepressants included in this list are Remeron, Anafranil and the SNRIs Effexor, Cymbalta and Pristiq as well as the dopamine reuptake inhibitor antidepressant Wellbutrin (also marketed as Zyban). Newtown Murders: Astonishing Hunger Games Coincidence, and killers mother now a Doomsday Prepper??

(Source): the CBS Evening News, broadcast (on network TV) Sat. 12-15-2012.

The segment begins at 7 minute point in online version of the TV broadcast:

<http://www.cbsnews.com/video/watch/?id=50137189n>

Program anchor Jim Axelrod (live in Newtown, CT): ***“You’re also learning more about the guns used in the shooting that belonged to Lanza’s mother?”***

Senior Correspondent John Miller sets us up for the punch line: ***“...She made an affirmative effort to get these weapons and as we learned from the landscaper, enjoyed shooting.”***

Ready? Here is John Miller’s punch line: ***“We spoke to another relative who also said she was worried about the defense of her home if there was a collapse of the economy. She wanted to have weapons on hand to defend them, which of course only underscores the irony that those were the guns used by her own child to kill her and so many others.”***

And there we are. The circle is complete. Now the gun grabbers can really take off and run with this. “The doomsday preppers are responsible for the murders of 20 children! That’s where this whole thing is going and what is clearly being implied.

You don’t have to be a genius to figure out the agenda behind this.

Yesterday the mainstream media began churning out articles about Nancy Lanza, the mother of the shooter, Adam Lanza. When you read the following quotes, ask yourself: “How many of these comments could describe ME?”

A few descriptive quotes:

- Nancy was a **member of the Doomsday Preppers movement, which believes people should prepare for end of the world.** ([Riehl World View](#))
- According to reports, **Nancy Lanza was a so-called ‘prepper’, a part of the survivalist movement which urges individuals to prepare for the breakdown of society by training with weapons and hoarding food and other supplies.** ([The UK Independent](#))
- Reports are starting to emerge of the troubled young man **and his unusual upbringing.** ([Yahoo](#))
- Dan Holmes, owner of a landscaping firm who worked on the family’s home, **said she was an avid gun collector: ‘She told me she would go target shooting with her kids.’** ([UK Daily Mail](#))
- Marsha Lanza described Nancy **as ‘self-reliant’.**([The UK Independent](#))
- He was reportedly homeschooled by his mother, a school principal **and gun enthusiast, who wasn’t satisfied with the education her son was receiving..** ([Yahoo](#))
- **As America searches for answers, investigators are turning towards Nancy Lanza’s supposed identification as a survivalist.** ([Yahoo](#))
- Her former sister-in-law Marsha said **she had turned her home ‘into a fortress’.** ([UK Daily Mail](#))

- Mrs Lanza is thought to have trained her sons, Adam and Ryan to shoot, even taking them to local ranges. ([The UK Independent](#))
- 'Nancy had a survivalist philosophy which is why she was stockpiling guns. She had them for defense. She was stockpiling food. She grew up on a farm in New Hampshire. She was skilled with guns. We talked about preppers and preparing for the economy collapsing.' (UK Daily Mail)

Gee...they say this stuff like it's a Horrible, BAD thing.
Let's see.

- Stockpiles of food....check.
- Takes children target shooting....check.
- Preparing for economic and/or social collapse....check.
- Serious about home defense....check.
- Home is well-fortified against criminals....check.
- Skilled with weapons....check.
- Survivalist philosophy....check.
- Self-reliant....check.
- Believes that we are capable of educating our children at home....check.

Nancy Lanza's description could apply to nearly any prepper. Preppers have been cast in an ugly light for quite some time. We are painted as camo-clad survivalists, clenching a knife in our teeth while unloading an automatic weapon into some real or imagined threat. After our Rambo-esque rampage, we will crouch in the forest by a campfire, shoveling down an MRE while glaring suspiciously into the dark, a large Katana hunting knife close at hand with which to dispatch the next enemy.

The assault on preppers through the media is obviously becoming more and more focused

<http://lewrockwell.com/orig13/luther3.1.1.html>

But then there is THIS. The *SGT Report* cites a "coincidence" that will leave you thinking about a planned scenario at Newtown, just the kind of operation secret societies are reputedly famous for.

<http://sgtreport.com/2012/12/a-startling-fact-gigantic-coincidence-about-fridays-mass-shooting/>

In *The Hunger Games*, many times called a model of predictive programming, the ritual sacrifice of 23 children is carried out. Twelve districts, two children from each district; they fight in pairs and kill each other until one winner is left. 23 children are killed.

In Newton 20 children were killed.

The author of *The Hunger Games*, Suzanne Collins, is listed by Wikipedia as one of the famous people who lives in Newtown.

You take it from there. Call it whatever you want to. I try to avoid big stretches, but this is too stunning to omit.
