**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather **reprove them**. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive **the very elect.**"

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we **are not ignorant of his devices.**"

**II Chronicles 7:14:** "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

---

## **REAL ID to Launch in 2016: TSA Will Force Airline Passengers to Show National ID Before Flying**

Starting in 2016, the Transportation Security Administration will require all airline passengers to present a REAL ID compliant identification card or a passport in order to board a flight. **The Department of Homeland Security estimates that 20-30% of Americans live in jurisdictions that are not REAL ID compliant, meaning their driver's licenses will no longer be accepted during security checks at the airport.**

Most Americans use a state-issued driver's license as their primary identification card. However, federal-level politicians have pushed for many years, the implementation of a national ID card, which privacy and states' rights advocates have argued against as a threat to citizens' private information or an affront to state authority. Reports of a move towards a national ID card were often dismissed by skeptics as conspiracy theories until 2005, when the REAL ID Act passed into law. However, the REAL ID has experienced significant pushback from many non-compliant states, forcing federal officials to delay its implementation.

Fast forward nearly a decade, and the REAL ID is set to launch in airports across the United States starting in January of 2016. According to KTVN-2, the Transportation Security Administration will no longer accept state-issued driver's licenses that lack REAL ID compliant features as an accepted form of ID for boarding aircraft after the beginning of next year.

However, the adoption of the REAL ID by citizens is being portrayed as voluntary. Said Nevada Department of Motor Vehicles Public Information Officer David Fierro in comments to KTVN-2, "It is a choice. It's not mandatory. It's a choice for secured identification. If you use a passport when you're traveling you don't have any problems. If you use your driver's license as identification, you'll need to either apply for the REAL ID card or get a passport." While adoption of the federal REAL ID card by citizens may not be mandatory, **those who choose not to get a passport or REAL ID will effectively be barred from airline travel.**

**REAL ID compliant cards must capture specific identifying details about each person and associate the data with a unique number. Privacy advocates worry that the REAL ID's information database will eventually merge with other federal data sweeps such as the FBI's Next Generation Identification system, which stores biometric data on Americans (many of whom have never been suspected of committing a crime), and the National Security Agency's trove of stolen private**

online and mobile communications. The cards must also contain an electronic swipe feature allowing machines to read and write to them, raising fears that the REAL ID may be vulnerable to tampering by hackers and identity thieves.

Some US states, such as Maine, New Hampshire, Hawaii, and Idaho, have passed laws against participating in the REAL ID program, meaning state-issued ID cards from those states may not be compliant in time for 2016. According to the Department of Homeland Security, 20-30% of Americans live in jurisdictions that are not compliant with the program, meaning citizens in those areas may no longer be able to use their state-issued driver's licenses to board aircraft after January 2016. KIVI-TV notes that Idaho legislators are currently scrambling to find a solution to this problem. The REAL ID's implementation process is designed to come in four stages, two of which are already complete. The first two phases require the use of compliant cards to get into nuclear power plants and restricted federal facilities. The third phase of implementation, coming in October, mandates the presentation of REAL ID cards in order to enter semi-restricted federal facilities such as courthouses and military bases that require identification for admittance, with a waiver granted for individuals seeking entry to apply for federal benefits. The last phase of implementation, set to begin in January of 2016, will take place during security checks at airports.

---

#### Airlines Consider Requiring Proof Of Vaccination For Domestic Air Travel

Traveling by air may get even more complicated if a reported plan by major carrier airlines requiring passengers to be vaccinated comes to fruition. **Lie Alert:** After the increasing problem of unvaccinated individuals contracting and spreading communicable diseases, airlines hope to be a stopgap solution to preventing larger outbreaks. An inside source with the Federal Aviation Administration (FAA) suggests that, "Multiple major carriers have begun discussing requiring vaccination records for all passengers before allowing them to board a flight." The FAA source, speaking on condition of anonymity explains that many of the airlines have, "had it with the anti-vaccination arguments and don't want to be left with the guilt and partial responsibility when a preventable disease spreads by way of air travel." It is assumed that a valid vaccination record will be required upon check in before travelers embark on their journey. "It'll add another step to the flight process, but the airlines, so far, are willing to absorb any costs associated with it," said the FAA source. It is not expected to impact the already beleaguered Transportation Security Administration as this would be an elective requirement and not a federally mandated change.

*With the vaccine and autism link now reaching a fevered pitch after an Italian court awarding compensation to a boy for vaccine-induced autism. (See the Italian document here,) and the US media blacking out the story and not reporting it, and the federal Vaccine Injury Compensation Program, awarding millions of dollars to two children with autism for "pain and suffering" and lifelong care of their injuries, there is ample evidence as to why US citizens would elect to avoid vaccines like the plague.*

---

#### U.S. SUPREME COURT UPHOLDS MANDATORY VACCINATIONS IN NY

If you were a parent who has researched vaccine dangers compulsively as a means to protect your child from questionable adjuvants and known neurotoxins, **what would you do if a US Supreme Court told you that you had no 'right' to refuse vaccines for your child? Well, a New York court made such a determination long ago, and recently refused the plea of a plaintiff who tried to overturn the archaic decision.**

In Jacobson [v. Massachusetts], **all children who attend New York public schools can be 'forced' to be vaccinated, according to a 2nd circuit court of law.** The law was determined in 1905 but was recently challenged by Dina Check, **the plaintiff who decided that her Catholic religion gave her a right to determine whether or not her child should be vaccinated.**

While religious leanings are a fine reason to refuse a vaccination **– the court also determined against her in the case because there was 'strong evidence' that her refusal vaccines were due to her fear of them being harmful, and not due to her religious beliefs.**

Unfortunately, it's true that vaccines can potentially cause unwanted problems, as outlined even by the CDC's Vaccine Adverse Event reports. **Vaccines could lead to reproductive health damage, hampered child development, autism, cancer, death and neurological disorders.** This is no less abhorrent than the teenage girl **who was recently told by a court of law that she HAD to get chemotherapy for her cancer treatment. Really? How can the 'nation of the free' make such enforcement on its citizens?**

17-year old Cassandra has Hodgkin's Lymphoma, but she says she doesn't want chemotherapy:

**"Everyone including myself should have the given right to say what you do or don't want to be done to their body."**

Whether you believe in these types of medical interventions or not, your rights are being stripped from you. **There are currently 58 bills in 24 different states that would limit your rights when it comes to vaccines, and in some cases, you would be forced or face jail time or have your children taken from you by Child Protective Services.**

This should also cause a moment of **reflection since the US has an extremely high infant mortality rate (and we start vaccinating our babies at birth). Furthermore, U.S. law protects vaccine manufacturers from any liability due to faulty vaccines – not the people who suffer from them.**

## **++ Nazi's On the Loose: Jail 'anti-vax' parents: Column**

**Alex Berezow** January 28, 2015

The entirely **preventable** California measles outbreak has now sickened **more than 70 people**. With perhaps hundreds more exposed, the outbreak will likely continue.

As the disease spreads, **experts will debate how we respond and what to do**

about the anti-vaccine movement that's partly to blame for this mess. Likely, all we'll agree on is better outreach to parents.

That's not enough. Parents who do not vaccinate their children should go to jail.

In the year 2015, it is amazing that anyone in the United States contracts measles. Today, however, because of ignorant "anti-vaxxers," the disease is staging a comeback.

Anti-vaxxers often claim the right not to put "poison" in their children's bodies. That is ludicrous. A mountain of data has demonstrated that vaccines are safe and effective. Insisting otherwise is akin to believing that the moon landing was faked.

<http://www.usatoday.com/story/opinion/2015/01/27/jail-anti-vax-parents-vaccines-cdc-measles-disney-world-california-column/22420771/>

Comment: Their forked tongue, devil lies just keep getting bigger and bigger.

Here are the facts, just regarding the Measles (MMR & ProQuad) vaccines:

A mother whose newborn contracted measles is blaming "unvaccinated" children, despite evidence showing vaccinated children can still spread measles and statistics showing the measles vaccine was linked to more deaths in the past 10 years than the disease.

Not only that, but the person who may have given her newborn measles was vaccinated, according to officials.

Measles Vaccine Kills More People Than The Disease Media buries statistics and studies pointing to vaccine dangers.

Vaccine Inserts Say Recipients are Contagious for 28 Days

The Vaccinated are Infected Carriers

CDC lies: Measles outbreaks confirmed among children already vaccinated

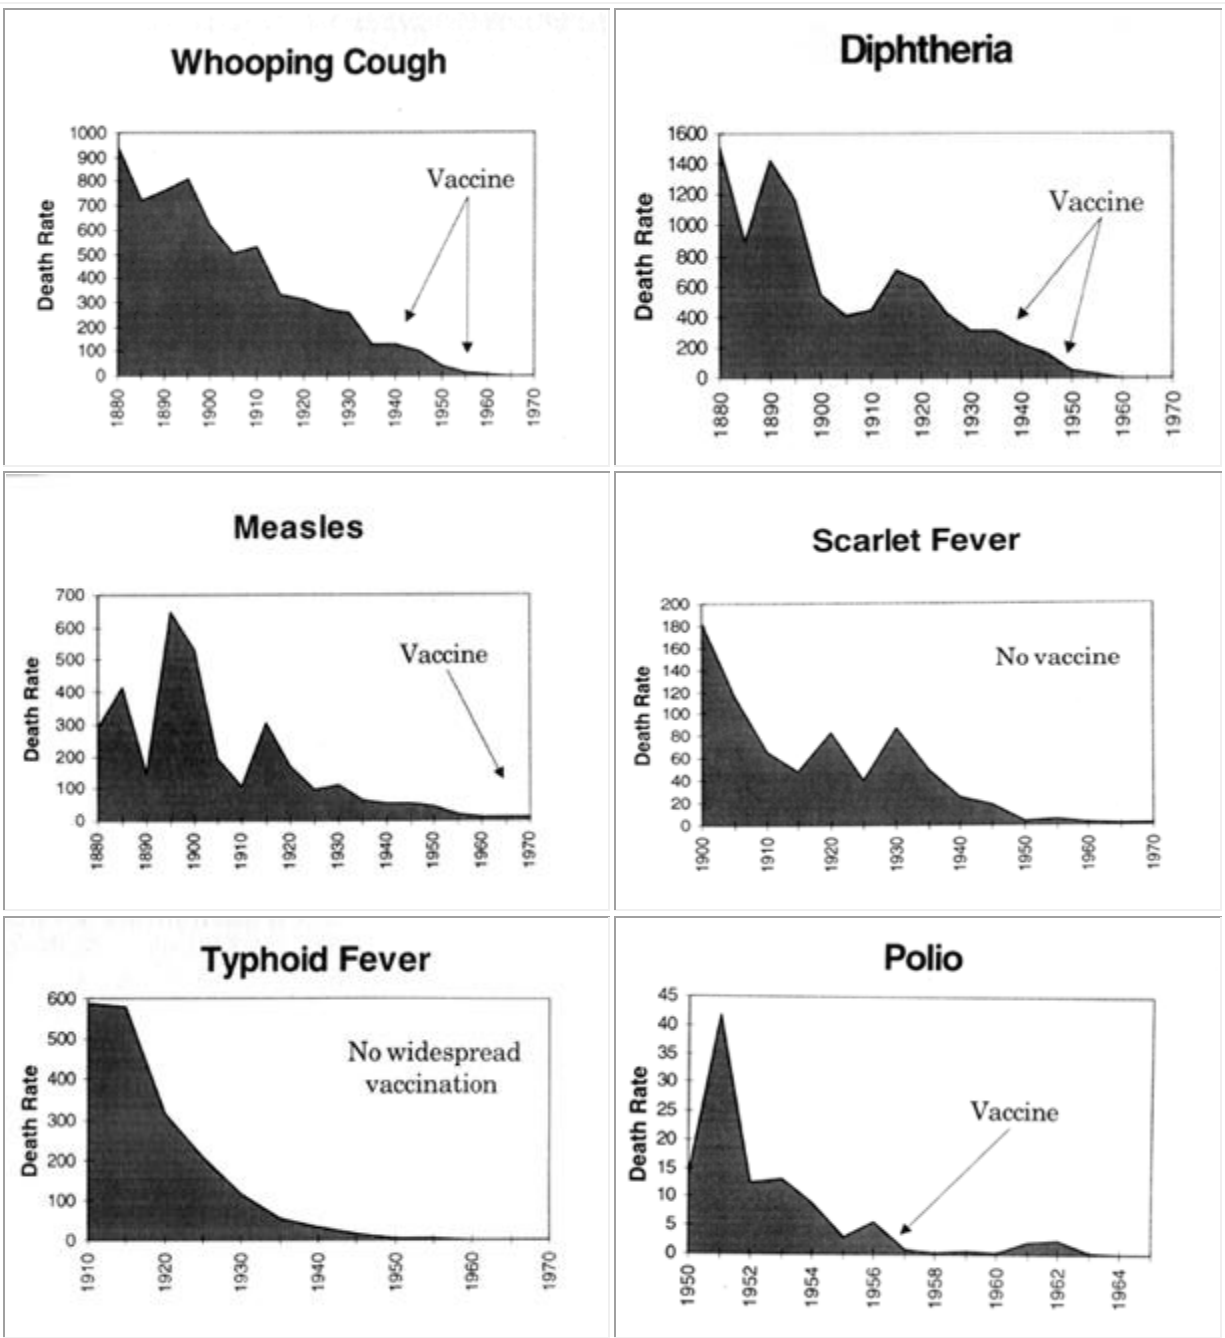

Infant Develops Measles-Like Rash Weeks After Receiving Measles Vaccine

MMR measles vaccine clinical trial results FAKED by Big Pharma - shocking U.S. court documents reveal all

## GRAPHICAL EVIDENCE SHOWS VACCINES DIDN'T SAVE US

The above graphs, based on the official death numbers as recorded in the Official Year Books of the Commonwealth of Australia, are taken from Greg Beattie's excellent book "*Vaccination A Parent's Dilemma*": ([http://www.informedparent.co.uk/books\\_and\\_videos.html](http://www.informedparent.co.uk/books_and_videos.html)) and represent the decline in death rates from infectious disease in Australia. They clearly show that vaccines had nothing to do with the decline in

death rates. (Note: Graphical evidence on the decline in death rates from infectious disease for USA, England, New Zealand and many other countries shows the exact same scenario as above).

**So what were the true reasons for this decline?** From his book 'Health and Healing' Dr Andrew Weil best answers it with this statement;

*"Scientific medicine has taken credit it does not deserve for some advances in health. Most people believe that victory over the infectious diseases of the last century came with the invention of immunizations. In fact, cholera, typhoid, tetanus, diphtheria and whooping cough, etc, were in decline before vaccines for them became available - the result of better methods of sanitation, sewage disposal, and distribution of food and water."*

### **MMR & ProQuad--Aborted Babies Used in Vaccinations**

For over fifty years pharmaceutical companies in this country have been producing vaccines derived from tissues of aborted babies, a fact that was brought to light when several prominent religious newspapers published articles on the morality of using the vaccines. The trouble began when a new law in St. Louis County, Mo. required food handlers to obtain the Hepatitis-A vaccine for employment. When the source of the vaccine was revealed, many principled individuals objected and with good reason. And as this information has continued to become more and more public, a large number of physicians and parents are highly troubled by the ethical issues involved.

**How did this happen?** During the Rubella epidemic of 1964, some doctors advised exposed pregnant women to abort their children. The resulting virus strain developed was known in the science world as **RA/27/3**, where **R=Rubella, A=Abortus, 27=27th aborted baby tested, 3=third tissue sample**. There were actually 26 abortions prior to finding the right "species" with the active virus. **The vaccine was then cultivated on the lung tissue of yet another aborted infant, known as WI-38 (Wistar Institute 38)**, this sample was taken from the lung tissue of an aborted female infant at 3 months gestation in the 1960s. A second human cell line, MRC-5 was derived from a aborted male at 14 weeks gestation in the 1970s. They were used to cultivate the weakened virus strains of several diseases to produce immunizations. **These two human cell lines cultivated in the lab continue to provide an ongoing source for many widely used vaccines.**

Vaccines developed from aborted fetal tissues:

### **MMR II Rubella Virus Live Merck**

#### **M-M-R ® II**

(Measles, Mumps, and Rubella Virus Vaccine Live) is a **live** virus vaccine for vaccination against measles (rubeola), mumps, and rubella (German measles). M-M-R II is a sterile lyophilized preparation of:

(1) **ATTENUVAX® (Measles Virus Vaccine Live)**, a more attenuated line of measles virus, derived from Enders' attenuated Edmonston strain and **propagated in chick embryo cell culture**;

(2) **MUMPSVAX® (Mumps Virus Vaccine Live)**, the Jeryl Lynn™ (B level) strain of mumps virus **propagated in chick embryo cell culture**; and

(3) MERUVAX® II (Rubella Virus Vaccine Live), the **Wistar RA 27/3** strain of live attenuated rubella virus propagated **in WI-38 human diploid lung fibroblasts**.{1,2} The growth medium for measles and mumps is Medium 199 (a buffered salt solution containing vitamins and amino acids and supplemented with **fetal bovine serum**) *Fetal bovine serum (FBS) or fetal calf serum is the blood fraction remaining after the natural coagulation of blood, followed by centrifugation to remove any remaining red blood cells.<sup>[1]</sup> Fetal bovine serum comes from the blood drawn from a bovine fetus via a closed system of collection at the slaughterhouse.*

...containing SPGA (sucrose, phosphate, glutamate, and recombinant human albumin) (*Human albumin is a blood plasma protein produced in the liver*) as stabilizer and neomycin. *Neomycin is typically used as a topical preparation, such as Neosporin...**It is not given intravenously, as neomycin is extremely nephrotoxic (causes kidney damage), especially compared to other aminoglycosides.** The exception is when neomycin is included, in very small quantities, as a preservative in some vaccines –<sup>[1]</sup>*

...*The controversial MMR II vaccine also reportedly contains a genetically-engineered human protein known as Recombumin, or recombinant human albumin, that most parents are unaware is being injected into their babies. **MMR II is the only known vaccine that contains GM human protein**, according to NVIC, but its unique presence in this contentious combination vaccine could help explain the unusual uptick in vaccine-induced neurological damage associated with it in recent years.*

*Human albumin is derived from human blood. The vaccine package inserts do not specify the source of the human blood. However, this investigative report provides some clues. For a deeper understanding of the market in human blood, read this Forbes article: The Guys Who Trade Your Blood For Profit.*

### Proquad MMR Varicella Live Virus Merck

#### **ProQuad® Measles, Mumps, Rubella and Varicella Virus Vaccine Live**

Lyophilized preparation for subcutaneous injection

11 DESCRIPTION ProQuad (Measles, Mumps, Rubella and Varicella Virus Vaccine Live) is a combined, attenuated, **live virus vaccine containing measles, mumps, rubella, and varicella viruses**. ProQuad is a sterile lyophilized preparation of (1) the **components of M-M-R II (Measles, Mumps, and Rubella Virus Vaccine Live)**: Measles Virus Vaccine Live, a more attenuated line of measles virus, derived from Enders' attenuated Edmonston strain and **propagated in chick embryo cell culture**; Mumps Virus Vaccine Live, the Jeryl Lynn™ (B level) strain of mumps virus propagated in **chick embryo cell culture**; Rubella Virus Vaccine Live, the **Wistar RA 27/3 strain** of live attenuated rubella virus **propagated in WI-38 human diploid lung fibroblasts**; and (2) Varicella Virus Vaccine Live (Oka/Merck), the Oka/Merck strain of varicella-zoster virus propagated in **MRC-5 cells**. **Comment: this one has all 3 strains of aborted fetal cell lines used to culture vaccines!!!! The cells, virus pools, bovine serum, and human albumin used in manufacturing are all tested to provide assurance that the final product is free of potential adventitious agents.**

*The FDA has concerns about the safety of **medical products derived from human blood and the risk of viral and prion disease transmission**. This concern is echoed on page 4 of the **package insert for ProQuad (MMR/Chicken Pox)**.*

*From the late 1970s to the mid-1980s, about **half of all people with hemophilia became infected with HIV after using contaminated blood products**. According to **The National Hemophilia Foundation, Despite the implementation of safety advances, the risk remains for known and unknown potential infectious agents and pathogens to threaten the blood supply and blood products**.*

*After widespread use, some vaccines were **found to have been contaminated with animal virus DNA that was not detected pre or post-licensure**.*

*The long-term risks to human health of injecting infants, children and adults with **human protein/DNA have never been studied**.*

---

**The CDC says: To prevent measles, children (and some adults) should be vaccinated with the measles, mumps, and rubella (MMR) vaccine. Two doses of this vaccine are needed for complete protection.** Children should be given the first dose of MMR vaccine at 12 to 15 months of age. The second dose can be

given 4 weeks later, but is usually given before the start of kindergarten at 4 to 6 years of age.

---

### [McDonald's Gives Free Vaccines With Happy Meals In Texas](#)

As it turns out, **your child may just be able to receive a number of significant vaccinations at your local McDonald's on behalf of the Department of Public Health.**

I was just as shocked as you are when I heard news from an email **tip that one reader's local McDonald's was launching a 'free vaccination' program alongside their fast food marketing campaign**, and I was reasonably skeptical that even McDonald's would launch such a strange combination. **Especially when considering the extreme financial downfall that the company is experiencing as millions abandon their fake food amid public knowledge over the true extent of their synthetic ingredient list.**

As it turns out, however, **numerous Texas newspapers and outlets have documented the 'free McDonald's vaccine' events that have popped up in Amarillo. It was, and is, very real.** Amarillo.com details the event that first occurred years ago, writing:

***"The city of Amarillo's Department of Public Health and the Caring for Children Foundation of Texas will offer free vaccinations for children from 9 a.m. to 2 p.m. Saturday at McDonald's restaurant, 1815 S. Grand St.***

***The vaccinations will include meningococcal vaccine, which is required for seventh- and eighth-graders and for college students residing in campus housing; the varicella vaccine, which is required for kindergarten and first grade and for seventh- and eighth-graders; the Tdap vaccine booster required for seventh- and eighth-graders; MMR vaccine for kindergarten and first grade; and hepatitis A, required for kindergarten and first grade.***

***Parents and guardians are asked to bring immunization records, and children under 17 must be accompanied by a parent or guardian."***

---

### [Big Brother Alert: Mandatory Vaccines: Shots Should Be As Nonnegotiable As Seat Belts, Experts Claim](#)

Mandatory vaccines may not be happening any time soon, **but a growing number of experts think that they should be.**

While many parts of the country allow exemptions for vaccinations under philosophical or religious differences, **a large number of medical professionals are crying foul.**

In a [recent article](#) on *Huffington Post*, some of these individuals discussed their feelings, **drawing comparisons between mandatory vaccines and mandatory laws requiring motorists to wear seat belts.**

One of these **experts** is Patsy Stinchfield, director of Pediatric Infectious Disease Services at Children's Hospitals and Clinics of Minnesota.

In comments to the news site, she had this to say.

**"We would never think to just lay that newborn baby down in the front seat and say, 'I don't really believe in car seats,' or 'I don't really want to buckle my child**

up.'... **We should have the same kind of vigor when it comes to protecting children from vaccine-preventable diseases.**"

<http://www.inquisitr.com/1825825/mandatory-vaccines-shots-should-be-as-nonnegotiable-as-seat-belts-experts-claim/#rtVSALfc0WvIGiXm.99>

*A bigger and more primary issue in this discussion of forced, mandated, and "required to work" vaccinations is this: **where comes the "Authority" to violate the body of an individual without permission, by force or threat of job loss or jail ? By what moral authority or life natural authority can costumed pretend authorities violate a person's most intimate and private possession, his/her body?***

### Quotes From Many Prominent MD's Regarding Vaccines

"The greatest threat of childhood diseases lies in the dangerous and ineffectual efforts made to prevent them through mass immunization.... There is no convincing scientific evidence that mass inoculations can be credited with eliminating any childhood disease."

Dr Robert Mendelsohn, M.D.

"There is a great deal of evidence to prove that immunization of children does more harm than good."

Dr. J. Anthony Morris, former Chief Vaccine Control Officer and research virologist, US

"I am no longer "trying to dig up evidence to prove" vaccines cause autism. There is already abundant evidence.....This debate is not scientific but is political."

David Ayoub, M.D.

"The further I looked into it the more shocked I became. I found that the whole vaccine business was indeed a gigantic hoax. Most doctors are convinced that they are useful, but if you look at the proper statistics and study the instance of these diseases you will realise that this is not so."

Archie Kalokerinos A.M.M., M.B.B.S., Ph.D., F.A.P.M.

**"Modern drugs and vaccines have proven to be a hoax in attaining health. They have brought false hopes.....The vaccinations are not working, and they are dangerous...We should be working with nature."**

Dr. Lendon Smith M.D.

"I think that the biological case against Thimerosal is so dramatically overwhelming anymore that only a very foolish or a very dishonest person with the credentials to understand this research would say that Thimerosal wasn't most likely the cause of autism."

Boyd Haley Ph.D. (2006)

"The (vaccine autism) evidence is now overwhelming, despite the misinformation from the Centers for Disease Control and Prevention, the American Academy of Pediatrics and the Institute of Medicine."

Dr. Bernard Rimland, Ph.D. (2006)

**"A single vaccine given to a six-pound newborn is the equivalent of giving a 180-pound adult 30 vaccinations on the same day."**

Dr. Boyd Haley, Professor and Chair, Dept. of Chemistry, University of Kentucky (2001)

"I did not find it difficult to conclude that there is no evidence whatsoever that vaccines or any kind are effective in preventing the infectious diseases they are supposed to prevent. Further, adverse effects are amply documented and are far more significant to public health than any adverse effects of infectious diseases. Immunizations not only did not prevent any infectious diseases, they caused more suffering and more deaths than has any other human activity in the entire history of medical intervention. It will be decades before the mopping-up after the disasters caused by childhood vaccination will be completed."

Viera Scheibner Ph.D.

---

**Big Brother Alert: Unvaccinated Families' Addresses Should Be Made Public**  
**Joe Mathews / Zocalo Public Square @ThePublicSquare**

Feb. 11, 2015 -- **The names and addresses of parents who won't vaccinate their children should be made available on the Internet through a public registry. Shouldn't we know where they live?**

California's measles outbreak has touched off a debate about how to reduce the number of parents who choose—in defiance of all credible public health information—not to vaccinate their children. So far, the debate has focused on tightening California laws that make it easy for parents to obtain exemptions from school vaccination requirements. Newly introduced state legislation would eliminate the "Personal Belief Exemption" that thousands of anti-vaccine parents have used.

I'd be more than happy to see this proposal become law. But the politics of reducing parental choice are fraught, and there are limits to the law's ability to compel good parenting. There's also a hard cultural fact: few things are more fundamentally Californian than the freedom to believe whatever pseudo-religious or pseudo-scientific nonsense you choose. So, one way or another, it's likely that parents will still find ways to avoid vaccinating their children, despite the risks to both their own kids and their communities.

A tougher, smarter way of dealing with anti-vaccine parents would be to target not their choice—but the secrecy that surrounds that choice.

Under today's privacy laws, public schools and health authorities must protect the identity of parents who choose not to vaccinate. That's wrong for many reasons. First, the secrecy effectively forces public employees, whose first duty should be to the public safety, to be enablers of those who threaten that safety. Second, parents who endanger the community's health don't deserve official protection. And third, the confidentiality of such exemptions makes it harder for those families who vaccinate their children to protect themselves.

People deserve privacy in their private spheres. But a parent who won't vaccinate is not making a private health decision: She is making a public health decision that profoundly affects others.

So let's treat the exemption they obtain as the public act it is. Every single exemption request should be reviewed in a public meeting and approved by a public body (like a city council or school board). And if the exemption is approved, basic information—the parent's name, address, and the vaccinations declined—should be available on the Internet via a publicly maintained registry. The virtues of disclosure are clear. Having your family's name published as a potential hazard to public health would be a strong disincentive to obtaining an exemption for all but the most committed (i.e., delusional) anti-vaxxers. And the

rest of us would be able to identify our unvaccinated neighbors, and our children's unvaccinated schoolmates.

### **++ The End of Medical Ethics: "Informed Consent" is in Critical Condition**

**Play to 10:19:** [http://youtu.be/4dcl5y\\_WPAA](http://youtu.be/4dcl5y_WPAA)

**From the:** <http://legal-dictionary.thefreedictionary.com/Informed+Consent>

**We read: “*Informed Consent--Assent to permit an occurrence, such as surgery, that is based on a complete disclosure of facts needed to make the decision intelligently, such as knowledge of the risks entailed or alternatives.***

**The name for a fundamental principle of law that a physician has a duty to reveal what a reasonably prudent physician in the medical community (employing reasonable care) would reveal to a patient as to whatever reasonably foreseeable risks of harm might result from a proposed course of treatment. This disclosure must be afforded so that a patient...can intelligently exercise judgment by reasonably Balancing the probable risks against the probable benefits.”**

-----

**It looks like governments around the world will try to either force these vaccinations on the public or launch a massive propaganda campaign to trick you into submitting to a jab. If they attempt to force these untested and essentially experimental vaccinations on you, cite the Nuremberg Code, which states: “The voluntary consent of the human subject is essential.” No experimental vaccine should be “conducted where there is a prior reason to believe that death or disabling injury will occur, except, perhaps, in those experiments where the experimental physicians also serve as a subjects.”**

**[Bill Gates Insane Quest To Sterilize And Depopulate The World Revealed \(\)](#)  
[Geri Ungurean](#) | February 13, 2015 | [38 Comments](#)**

**Bill Gates dream of population control is being accomplished through the extensive use of vaccines and abortion**

**“Woe to them that devise iniquity, and work evil upon their beds! When the morning is light, they practise it, because it is in the power of their hand.” (Micah 2:1)**

When I was outlining the main points of this article, at times I felt like I was reading a fictional novel — **so EVIL, that it nearly took my breath away that people could do such horrific things to their fellow human beings.**

In an interview, Gates talked about his family, in particular – his dad. **He told the interviewer that his father was a eugenicist, and that for many years his dad was the head of Planned Parenthood.** When Bill Gates divulged this information, it was clear that he felt proud of his father for his work. It disgusted me.

**The Ebola Scare, Where Did It Disappear To?**

Please stay with me on this. I believe that **I have collected enough compelling evidence to show that this was “calculated” and very well planned.** I will, in this article, explain why I have come to this conclusion.

“Once again, major, hard evidence is available from government scientific websites showing that major fraud is being perpetrated on us all regarding the latest vaccine scam through **a well coordinated fear campaign by our government and associated regulatory agencies.** Months ago we first heard of Ebola out of Africa where no remedy was available. **Then two doctors who were contaminated were brought into the U.S... Then, wait for it... they were cured and released!** **Science had come through again. Problem/Reaction/Solution.**

**Bill Gates explains why vaccinations can LOWER population**

No, you didn't read that wrong, and it's not a typo. That's exactly what he said. Let me show you:

Bill gates explains in this short video clip, that there are presently 6.8 billion people on our planet, and that is rapidly rising and will be at 9 billion not long from now. He shows in the video a chart that certain criteria must be examined. His short answer is that the miracle that will save our planet are VACCINES (which he states in the video that he loves)

## Anti-Vaccine Professionals, Doctors and Nurses-- The International Medical Council on Vaccination

**See:** <http://www.vaccinationcouncil.org/about/> "The International Medical Council on Vaccination is an association of medical doctors, registered nurses and other qualified medical professionals whose purpose is to counter the messages asserted by pharmaceutical companies, the government and medical agencies that vaccines are safe, effective and harmless.

Our conclusions have been reached individually by each member of the Council, after thousands of hours of personal research, study and observation.

### Principles and Findings

- We are profoundly critical of the practice of vaccination. Vaccination is an unacceptable risk to every member of society, regardless of age.
- As medical professionals, Council members have observed first-hand the health of vaccinated vs. the unvaccinated. We find the latter group to be robust, healthy and drug-free compared to the former group.
- We have reviewed published studies in support of vaccines and have found them wanting in both substance and science.
- We have brought out into the open hundreds of peer-reviewed, published medical articles that document the damage and the diseases caused by vaccines.
- We find the premise of herd immunity to be a faulty theory.
- We encourage intelligent debate about vaccination.
- We expect individuals to take responsibility for their health and the health of their children by investigating the problems due to vaccination prior to subjecting their children, or themselves, to this medical procedure.
- We believe that refusing vaccination is a personal right that should be legislatively guaranteed.

### **The Great Annual Outbreak Hype:**

**2007 SARS Virus**

**2008 Bird Virus**

**2009 The Great H1N1 scare which allowed vaccination manufactures to get immunity from prosecution for any vaccines**

**2010 HPV vaccine**

**2011 Whooping Cough**

**2012 MMR (measles)**

**2013 Pregnant Women for Hep B,**

**2014 Ebola...**

**So typically this is a this a yearly beta testing scare to force compliance, brainwash the public, gauge public pushback and to ensure Big Pharma makes Big Bank. [2] – source**

**In 1999, Gates gave over 20 million dollars to Johns Hopkins to establish a wing of the hospital where the Foundation was born. This foundation has always hidden behind the mantra of “Health and help” for women in third world countries. The thrust of the foundation has been working with the big Pharma companies, to create vaccines for the masses in these impoverished countries.**

**When the Scientists and doctors in India examined the vaccines sent to them by the Gates Foundation, they found chemicals used to sterilize people. They now have a huge lawsuit against Bill Gates and his Foundation.**

**[3] – source**

**So in Conclusion POPULATION CONTROL (in part) is being accomplished through the extensive use of vaccines.**

**There are mega rich, unsaved people, deceiving millions of people all over the world who are bent on our destruction. But the ones who are being manipulated and harmed the most are in these third world countries.**

**That is exactly why Planned Parenthood strategically places most of their killing mills in the inner cities, where they know that there are densely populated areas of blacks.**

**I thank the Lord that the scientists and doctors in India had the presence of mind to test the ingredients in the “Vaccines.”**

---

**++ VACCINE APOCALYPSE NOW: This is a war, started centuries ago and continues today because most Americans have no education in the history of vaccines or the nature of medical tyranny.**

**Vaccines themselves are an open door to your body, a direct entrance past the firewall of your skin and immune system, capable of causing or creating any imaginable malady in your body, whether at the moment of injection or, via a timed mechanism, causing long term health problems after any number of years.**

Pharmaceutical cartels protected by regulatory bodies, captured and controlled by Big Pharma, are finding it more difficult and expensive to produce medicine to actually treat disease **and have been moving to a cheaper and highly profitable model of vaccinating for disease.** The upside also includes a not spoken about benefit, **vaccinated people are likely to develop chronic lifelong problems associated with immune disorders and disease caused by the compounds of vaccines. Damaged vaccine recipients become a continual source of patients supplied to the conventional medical system still treating people with disease causing medicine, unnecessary surgery and long term hospitalization and nursing home care for older people suffering from disease caused originally by vaccination years earlier.**

*"Edward Jenner (1796-1839) "discovered" that the cowpox vaccine would supposedly inoculate persons against the eighteenth century scourge of smallpox. In fact, smallpox was already on the wane, and some authorities believe it would have vanished by the end of the century, due to a number of contributing factors. **After the use of cowpox vaccine became widespread in England, a smallpox epidemic broke in which killed 22,081 people. The smallpox epidemic became worse each year that the vaccine was used. In 1872, 44,480 people were killed by it. England finally banned the vaccine in 1948, despite the fact that it was one of the most widely heralded "contributions" which that country had made to modern medicine. This action came after many years of compulsory vaccination, during which period those who refused to submit to its dangers were hurried off to jail.**" [E] page 136-137 [E] "Death By Injection: The Story of the Medical Conspiracy Against America", Eustace Mullins*

*According to the study below Researchers identified three specific change points in the U.S. between 1970 and 2002 following the approval in 1979 of the MMR II and Varivax Chickenpox vaccines, **which used the aborted baby fetal cell line WI-38, instead of animal-based cells.** The Late 1980 study by the EPA confirmed one of the change points in which **the incidence of Autism rose significantly in the U.S. as well as points in other countries. Each of these points corresponds to the times that a vaccine containing DNA from aborted babies was added to the recommended vaccine schedule.**" [emphasis added] IBID*

*Worse yet ""Not only are the human fetal contaminated vaccines associated with autistic disorder throughout the World but also with epidemic childhood leukemia and lymphomas." IBID The actual study is located here:*

**++ Well over a hundred parents speak out in two minute video clips on youtube to tell the world that they are absolutely certain that the vaccines caused their children's neuro-developmental injuries. Go to the Channel...**

## **You Could Be Quarantined and Forced to Take Toxic Drugs**

Posted By [ANH-USA](#) On [January 13, 2015](#)

A new federal executive order expands the list of illnesses for which you could be detained, isolated, and treated against your will if you are entering the US or traveling between states—even if you are completely healthy. Some states have similar or worse laws that would even allow entry into your home.

**President Obama has signed an executive order <sup>[1]</sup> expanding the list of illnesses that could result in forced detention, isolation, and quarantine for anyone exposed, even if they are not sick.** It updates [a Bush-era executive order](#) <sup>[2]</sup>, adding “severe acute respiratory syndromes” except for influenza to the list of detainable communicable diseases.

The [Public Health Service Act](#) <sup>[3]</sup> allows the government to apprehend and detain individuals based on communicable diseases named in the Act, or named by presidential executive orders. Executive orders do not have to get congressional approval.

Not only can people with the disease be forcibly isolated, **but the CDC also has the power to quarantine anyone who *may* have been exposed.** The new executive order allows detentions for “diseases that are associated with fever and signs and symptoms of pneumonia or other respiratory illness...capable of being transmitted from person to person, and that either are causing, *or have the potential to cause*, a pandemic, or, upon infection, are highly likely to cause mortality or serious morbidity if not properly controlled” [italics ours]. In other words, **if you have been exposed to one of the listed communicable diseases—even if you do not show symptoms—you may be forcibly detained and quarantined.**

This is broad authority, as the CDC notes: “**In addition to serving as medical functions, isolation and quarantine also are ‘police power’ functions, derived from the right of the state to take action affecting individuals for the benefit of society.**” **And since this is federal law, it covers** <sup>[4]</sup> **people entering into the United States and people traveling between states as well.**

Even worse, [because of various draconian state laws](#) <sup>[5]</sup>, **individuals can also be detained against their will within their state—which includes being forced from their home. Once in quarantine, a potentially toxic drug regimen is generally enforced.** While detention authority and scope differs from state to state, some have excessively broad powers. For example

- In Alabama, the governor or state board of health **may proclaim a quarantine whenever it is deemed necessary. The board of health has full powers of enforcement, and may formulate any rules it believes necessary.**
- In Idaho, **the state reserves the right to enter an individual's home by force if an occupant may have been exposed.**

- Maine reserves the right to impose emergency regulations at the mere threat of an outbreak.
- New York can also detain patients in a locked ward at Bellevue hospital.
- In 2009 the Massachusetts Senate [considered a bill](#) <sup>[6]</sup> allowing the police, during a declared public health emergency, to arrest people without a warrant if they have “probable cause” to think they’re not complying with orders (including verbal orders from the public health commissioner or local public health authority). Under this bill, citizens could have been detained for as long as necessary for the public authorities to “convey information to you regarding the disease.” **Happily, because of grassroots activists like you and opposition from the Massachusetts House, the bill did not pass** <sup>[7]</sup> and was never reintroduced.

Of deep concern is that, in most instances, natural treatments will be denied in favor of state-mandated treatments. [In New York, for example](#) <sup>[8]</sup>, a patient with tuberculosis was placed in mandatory isolation for two weeks—and now, even after being released from isolation, he still must take three powerful antibiotics every day and is monitored by health officials via smartphone from his home. In Arkansas, for those under mandated treatment for tuberculosis, “disorderly conduct” can be punished with confinement of up to six months. Does disorderly conduct include not accepting the state-mandated treatment? We don’t know for certain, but it seems likely.

Keep yourself healthy! **Vitamin D is an excellent preventive treatment for influenza and other viral diseases, and is being studied as a powerful tool to treat and prevent tuberculosis** <sup>[9]</sup> and other communicable diseases and potential pandemics.

**++++D-3 & Invive Mild Silver Protein Offer--Dr. Johnson's Comment:** *From the feedback I have gotten it is apparent that the high dose, foodstate Vitamin D-3 from Innate Response Formula is not readily available off the Internet. So if interested I will be offering the high dosage, Professional line Innate Response Formula-1000iu, 2000iu & 5000iu Vitamin D-3 products at the sizes and prices below (Sorry US orders only). Also if you order any quantity of Invive 5000ppm Silver with the Innate Vitamin D-3 the shipping is free.*

**++For a total just email Dr. Johnson ( [drjohnson@ix.netcom.com](mailto:drjohnson@ix.netcom.com) ) with what you would like to order & your shipping address; and a total with payment options will be emailed to you quickly.**

*Innate Vitamin D-3 1000iu (90 tablets): 30.00*

*Innate Vitamin D-3 2000iu (90 tablets): 43.00*

*Best Value: Innate Vitamin D-3 5000iu per capsule (60 capsules): 34.00*

## Proactive Measures In the Event of a Pandemic

### 5000 Mild Silver Protein (M.S.P.) Suggested Therapeutic Dosing Guidelines

1tsp.-1tbsp. for every 30 lbs. of bodyweight per day; if you have been exposed or if you have a virulent virus/Pandemic. The 1 tbsp. dosage would be used for life threatening situations. This dosage should be equally broken up and taken in 3 hour intervals. Stay at home and avoid contact with the populace till the outbreak passes. If taking the M.S.P. drink at least 8, eight ounce glasses of purified water per day. M.S.P. can be used topically with DMSO over an infectious site. Because the 5000 PPM M.S.P. is only available in 4 ounce bottles it would be wise to keep at least a few bottles for each adult family member and 1-2 for each child in your household. View this like an insurance policy that hopefully you will never have to use. Even if you don't use this product in the event of a pandemic, it can be diluted and taken on an everyday basis to keep the immune system strong.

### Invive Silver Dosing Chart for children/babies

**Maximum dosage in case of a severe infection:** 5 cc's of the 5000ppm Invive Mild Silver Protein per 30 lbs Bodyweight. 5cc = 1tsp.

That means a 30 lb. child receives 5 cc in total per day, **in divided doses** of 1.2 cc q.i.d. (or 4 times a day)

A 10 lb. baby receives 2 cc **in total per day**, in divided doses of 1.6 cc total per day.

In this case (2cc's) that means 7 (drops) Q.I.D.(or 4 times a day)

Q.I.D.= 28 drops total per day divided by 4 = 7 minims (drops) sublingually every 6 hours.

**Mild Silver Protein Website:** [www.dr-johnson.com](http://www.dr-johnson.com)

**++** Because Invive Silver is so stable it has a **15 year minimum shelf life**. **Currently the expirations dates are 2028.** There is no colloidal silver in any form that can even come close to their shelf life or potency; **nor has there been one case of Argyria (turning gray) reported from taking Invive Silver.**

---

**++ Note:** Taking a true, natural, vitamin C is a major factor in dealing with virtually any immune system condition. Vitamin C (a full spectrum food source with the

bioflavonoids) is the best choice.

**Highly recommended:** [Vitamin C-400 - 180 tablets](#) or [C Complete Powder 81 G](#)

-----  
**++ Note:** Selenium is highly anti-viral. **I recommend the foodstate:** [Selenium - 90 tablets](#) by Innate Response Formulas
