Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive the very elect."

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we are not ignorant of his devices."

II Chronicles 7:14: "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

++ 'Operation Iron Focus' Storms Texas Ahead Of Jade Helm 15 And Christian Pastor Gives Us The Latest News On The Martial Law Takeover Plan Of America
By Stefan Stanford - All News Pipeline
- Live Free Or Die

Called 'the closest thing to actual combat' for many soldiers, 'Operation Iron Focus' is a live-gunfire military drill going on right now at the US/Mexico border involving 6,500 troops training to get back to the 'blocking and tackling' of war fighting, just the latest massive military drill to

take place in Texas ahead of the Jade Helm 15 exercises sweeping into the state and leaving many Americans deeply concerned about a possible martial law takeover plan for America as shared in the newly released 2nd video below from Gianluca Zanna.

EYE WITNESS ACCOUNT OF POSSIBLE FOREIGN TANKS COMING INTO THE U.S FROM MEXICO -EL PASO TEXAS EYE WITNESS-

My wife and step-daughter just came in and woke me up to explain they'd never seen tanks before but they were held up by a train for about ten minutes. They saw all kinds of tanks on it. Thousands of them they said, but at train speed 10 minutes only amounts to hundreds, coming in from Mexico by rail. American tanks they think (but I don't know how that would be). I live 1/4 of a mile from the Mexican border. Yes, they have to move tanks around but for half a decade of living here we've never seen even one tank on rail. Never. Not even one. It must have been a very impressive sight because they were just jibbering in spanish in excitement about having seen it all. Take care, man. Terry

Luca Zanna is joined by Christian Pastor Walt Mansfield at the 3:40 mark of this video: <https://www.youtube.com/watch?v=IFDXFwLrYp8> Pastor Mansfield originally broke FEMA's clergy response story, a story about Pastors being trained to brainwash, subdue and herd their flocks into FEMA camps by FEMA and the Department of Homeland Security and in this new video, Pastor Mansfield exposes this evil and sinister martial law plan on the air for all of us to hear. We learn here that these plans have been in place at least as far back as 2006 according to Pastor Mansfield and sadly, most pastors have fallen for FEMA's tactics and feel they are doing their duties to the government by following through on FEMA's plans, not realizing that their actions are actually putting their followers in danger as the US government gets closer and closer to declaring 'checkmate' against the American people. Fortunately, with Americans awakening en masse to the evil intentions of the 'new world order' global government behind much of the evil we are now seeing across America, Mansfield tell us that we do still have time and we should make our voices heard loudly and clearly while we

still can while preparing for the absolute worst forthcoming possibilities.

[Please, tell the people, be aware of their pastor's comings and goings and take note of resignations. The fox is in the hen house, and the sheep are being set up for the slaughter.](#)

Hello Steve, I thought this important to mention. Yesterday I was listening to Dave Hodges on The Weekend Vigilante show. At one point, he spoke about "How can you predict when martial law is going to happen". One subject he expanded upon concerned the Clergy Response Teams, I found it fascinating until he mentioned something that hit me personally.

He stated: "Find out where the 28,000 pastors who have signed on with the clergy response teams are at all times, if they go away for long periods of time, they are more than likely part of these teams. In addition, if your pastor goes away for an extended period of time, you can probably assume he is a part of this".

Two weeks ago, my mother's pastor of 7 years, up and resigned with no explanation other than he needed time with his family. In addition, some of the church elders followed suit a few days later. This stunned my mother's congregation, they have had no contact with him sense.

By the way, and here's when I lost my fascination/had an overwhelming feeling of fear for my mother, when I realized she lives in Palm Coast Florida, and now they

are conducting extraction drills in Florida-Get My Drift?

Please, tell the people, be aware of their pastor's comings and goings and take note of resignations. The fox is in the hen house, and the sheep are being set up for the slaughter. Your brother in Christ, CHRIS NAVY SEAL RETIRED!

EMPIRE STATE REBELLION: Hundred of Thousands of New Yorkers Refuse To Register So-Called 'Assault Weapons' Ahead Of April 15 Deadline

Due to the tyrannical actions of Andrew Cuomo and his allies in the state legislature, New York residents are required to register an estimated 1 million firearms designated as “assault weapons” under the NY SAFE Act by April 15. Unfortunately for the Governor and his allies, it appears that the open revolt of most of the state’s law enforcement leaders against NY SAFE—who correctly view the law as a blatantly unconstitutional assault on the state constitution and the Second Amendment—means that noncompliance is overwhelming. While NY State Police refuse to publicly share the number of firearms that have been registered (citing a provision of the NY SAFE Act itself), leaks purporting to be from within the agency suggest that compliance might be as low as just 3,000-5,000 firearms. There is no way to conclusively verify this paltry figure which suggests that 99.5% of New Yorkers are thumbing their noses at the NY SAFE Act, but it may very well be a credible figure.

Special Op Veterans Groups Have Launched ‘Counter Jade Helm’ Operation

Patriot groups across the country are preparing to launch a 'Counter Jade Helm' operation to keep tabs on a controversial U.S. military exercise that some fear is part of preparations to train troops for civil unrest and martial law.

Jade Helm, a "realistic" military training exercise involving nine states, which will involve the Green Berets, Navy Seals, and the 82nd Airborne Division and is set to take place from July 15-September 15, **has prompted concerns after Texas and Utah were labeled "hostile" territory in documents related to the exercise.**

Although the U.S. Army insists the drill is supposedly designed to prepare troops for combat abroad, **concerns have been raised that the exercise is part of a history of the military readying for domestic disorder.**

During the drill, soldiers will operate "undetected amongst civilian populations," to see if they can infiltrate without being noticed. Residents will be encouraged to report "suspicious activity" during the exercise.

In response, patriot groups led by Pete Lanteri, former president of Icon Tactical Industries, will monitor the exercises.

A [Facebook page](#) for the initiative promises to, "observe the attempted infiltration of our towns during Operation Jade Helm with self sufficient teams in the field conducting counter surveillance."

"Our main focus right now is on gathering intel on when and where the military will be infiltrating SOF teams for Operation Jade Helm," writes Lanteri. "We have the Texas locations. We need verified info on South Cali and Utah locations. Arizona looks like it will only be on 1 military installation. Once we gather that intel and the field teams are informed then we will start posting information on how to go about locating SOF teams in public. Looking for certain mannerisms, etc. But right now we are focused on locations and dates!!"

Over 2,000 people have followed the page so far, with many posting updates about Jade Helm, including speculation that Colorado has told the Army it will refuse to allow state or city property to be used for the drill.

Other similar initiatives, named 'Operation Tyranny Response' And 'Operation Homeland Hawkeye', have also been launched in response to Jade Helm.

Related see: 'Operation Homeland Hawkeye'

A post attributed to Navy veteran Geoff Ross asserts that he has arranged for 25 retired Navy SEAL, DELTA and Rangers to travel to Washington DC to conduct exercises similar to those described in the Jade Helm documents.

"They will wander around and be tourists. They may pop in and visit a few Congressman or maybe they won't. Or, maybe they will. The 1st Amendment is about to be exercised. Body cams in place. They practice we practice. We all practice. They visit us. We visit them," writes Ross.

It is not yet known whether the Oathkeepers organization will take part in any of these campaigns. The Oathkeepers were present during the unrest in Ferguson, Missouri last year and protected numerous businesses from being targeted by looters.

Wildcard Command Press Release 4/5/2015

My name is Mark Rizzo, Commanding Officer of Wildcard Command.

We are a Constitutional group who provide C 3 and other assistance to Militia and Patriot groups in the US. We have actively begun operations throughout the country against the illegal and unconstitutional government that include destruction of their intelligence gathering equipment. Our allies include entire State Militia groups and many patriot organizations and we number well over 100,000. I have read some of the comments from the radio show and assure you that the reason we are so dark on the net is the very reason we are able to launch effective resistance operations. I am writing this from a forward command post and assure you we are dead serious. BLACKEYE is our Tea Party. At last count, over 275 cameras had been neutralized across America.

This is only the beginning of a campaign to ultimately cripple our enemy. We have technical intelligence that will help all militia to blind and deafen our foes. We do not seek to command units, but stand them up and coordinate their strikes with others. For those of you who are done talking and wish to take a stand we offer any help we can provide. Some of those are intelligence sources in the highest levels of government. Some are secure communications and field tested means to degrade and defeat their advantages.

Tonight I will by every means available convey to the US Congress our demand for militia to be represented in an observatory capacity in all levels of government

in accordance with free access and equal representation guaranteed in the Constitution.

It is our price for peace and is non-negotiable. We are in the field and prepared to take the fight to them. They fired the first shots long ago.

Dear Steve, I wanted to tell you two things.

Yesterday, in a gun store in my area, the manager told me that **one of his customers is DHS, and that that customer told him yesterday that DHS officially considers Texas, Louisiana, Oklahoma, Utah and a couple of other states to be "terrorist" states.**

My guess is because we are hostile to the NWO.--Jerry

WASHINGTON STATE: I counted 106 military vehicles heading East on I-90. On my Way East on I-90 heading home I counted 20 more military vehicles. That's 126 in 2 days!!!!!!

Steve, I am a resident of **Washington State** of 37 years. As I have been following all the news out their regarding the "Jade Helm"! On March 14th of this year my mother passed away! My father lives in North Pierce County, (which is the western half of the state). So I was required to travel back and forth over the last couple weeks from Chelan County which is on the Eastern side of the mountains, via I-90.... During my transits back and forth over the last...few **weeks I observed military vehicles traveling east-bound in convoys of up to 25 vehicles with up to 2-3 convoys.** Well this Easter weekend i.e.. Friday and Saturday heading West bound on Friday **I counted 106 military vehicles heading East on I-90.** On my Way East on I-90 heading home **I counted 20 more military vehicles. That's 126 in 2 days!!!!!!** As I noticed that a few exits along the way had exits that paralled I-90. And during my observations of military vehicles pulled over I noticed they had "porta-potties"! **So my conclusion is this has been going on for some time and they have designated stops along the way that is off the interstate that they can "use the restroom"!** As I do not have any photos nor video of my encounters as being a solo driver makes it difficult. **The vehicles were "various" hummers, tankers (maybe for water or fuel), Big hummers that seem to have satellites dishes on them. Hummers hauling what seem to be guns. Lots of what seem to be maybe communications or maybe a microwave beam trucks of some sort. Bull dozers, and what to look like "mini-tanks with the guns sticking out etc.** Many of the vehicles were "Very dark-green" in color while the rest were very light green. I know their had to be others that witnessed at least part of it! **Wish to pass this on**

and maybe some one with more understanding of the military and its movements can shed some light on this. God bless to you and all that read this! Michael

Washington State Flies Chinese Communist Flag At State Capitol - US Patriots Come Out And Take It Down, Assisted By Law Enforcement

In a video that should be the feel-good story of the day and a sign that shows Americans who still love America that we still have many members of law enforcement on our side, a group of US patriots arrived at the state capitol in Washington and proceeded to take down a Chinese/communist flag that was flying between the American flag and the Washington state flag, assisted by a Washington State trooper who obviously loves our country as much as we do. In honor of his meeting with Chinese Ambassador Cui Tiankai, the governor of Washington Jay Inslee decided to fly the Chinese flag at the state capitol building. Let's all hope this goes viral...the communists in the White House and the US Capitol building need to see this. Huge props go out to this law enforcement officer and to all military and law enforcement across the country who uphold their oaths to America. Thank you! Massive Military Convoy Spotted Headed Towards Texas! 'I've Never Seen Anything Like It' - More Jade Helm 15 Prep In America - Photos

With the official beginning of Jade Helm 15 still more than 3 months away, another massive military convoy was spotted on the H.E. Bailey Turnpike heading south of Oklahoma City towards Texas and captured in the several photographs published above and below. We were told that these pictures are only a small fraction of the entire convoy and that the person who took them had 'never seen anything like it'. They also took two videos during the long passing of this convoy, one 5

minutes long and one 3 minutes long, but the videos 'oddly disappeared' from their phone.

While some may unwisely dismiss this convoy as 'normal military movement', ANP strongly disagrees and cite as evidence recent warnings voiced by a survivor of the 'round-up' of dissidents by the Fidel Castrol regime in Cuba who told us he was 'immensely worried about Jade Helm' as shared in the 3rd video below as well as the conspiracy by mainstream media outlets such as the Washington Post to hide the 'true purpose' of Jade Helm. Google has also pinned the Washington Post Jade Helm 15 propaganda story to the top of their news search for many consecutive days in an attempt to sway their users perceptions to believe that there is 'nothing to worry about' in regards to the US military's 'invasion of America'. In the 5th video below, Bug Out Preps shares with us the difference between 'normal' military training and Jade Helm 15 and what we learn is that what we are now witnessing here is 'anything but normal'.

Scott, This utah jade helm thing is concerning. Here's some recent stuff we are seeing....
Military helicopter and airplanes flying over at night, some in the day, more than we've ever

seen or known. Hill Field airforce base is about 40 miles away north, **but we've not had a history of planes from there flying here. We don't know where the military planes/helicopters are coming from but** there are several military bases nearby.

We notice much unusual construction on highways, **especially I-15 going from SLC north. In Davis county (borders SLC county going north) has HUGE road dividers... I passed through there yesterday and they look like they must be at least 6 feet high - a normal person could not climb over them easily or at all. They are not road dividers, they are walls! See the picture. It's like the road crews are scrambling to get the road work and put these huge walls up fast, as I'm seeing more progress on this than before.**

I'm also **seeing a lot of this kind of wall dividing on highways, especially going east on hwy 80 through utah/wyoming/colorado for miles and miles. I'm also noticing there are long, tall, fences that border the highways that I've never seen before... very high.** I know there is livestock, but these are not typical livestock fences. But no barbed wire that I've noticed.

There are super tall lights all along the city highways/freeways/parkways with more lights than are reasonably needed for normal night driving. (I'm seeing this in a number of cities as I travel). Once I saw a light turned on and thought it was a low level flying helicopter or plane, the light was blinding bright... then suddenly it went off and I realized it was one of those strange tall lights along the freeway. They use different lights for the auto travelers at night that are a softer color and not so bright. Why do they need such bright lights? Wonder if other have noticed this?

Then we find out obama is here in the SLC area visiting hill field airforce base... suddenly out of the blue!

As a Believer we want to get out of here, but with family here and no place to go with all of us, it is difficult. Luke [21:36](#) is our prayer. God bless...

PILOT--We were in Tulsa yesterday on a scheduled flight and were delayed for a time while F16's were flying with full bomb, missile and long range tank loads, while training at the airport

Hello Steve, I wanted to take an opportunity to report on Geo engineering activity. In general I see a significant decrease in activity across the country and **suspect this activity is happening west of California to keep moisture away from food producing areas**. My sister is an over the road trucker **and has noticed a decrease in produce loads**.

I am currently flying with a co-pilot who was in the Soviet Air force for 15 years and is Ukrainian. He has some very interesting perspective on what is happening in Ukraine as he is in contact with family members and friends.

We were in Tulsa yesterday on a scheduled flight and were delayed for a time while F16s were training at the airport which is a joint use airport and has a National Guard wing established. **The strange thing about this is that they were flying with full bomb, missile and long range tank loads**. I have not seen this at civilian airports before although I am sure it has been done as there are military aircraft based there. I think this was part of the Jade Helm 15 Drill.--ROB

This is the first time I've seen a B-52 flying in this area since maybe 20 years ago. What was even more strange was the chemtrail that appeared instantly as if someone flipped a switch on

Hi Steve, I was in Great Falls today and about 6:20 pm tonight a B-52 coming in from the south at about approx. 12- 15,000 ft elevation made a 90 degree turn over the center of town and then headed East out of sight. **This is the first time I've seen a B-52 flying in this area since maybe 20 years ago. What was even more strange was the chemtrail that appeared instantly as if someone flipped a switch on. This happened about 7 seconds before it made the turn going East and continued spraying for many miles into the distance**. About 5 minutes later, I believe what was a different B-52 followed the same flight path with no spraying visible. This just seemed really strange so maybe someone out there might be able to give some insight. God bless.TOM

WHY IS NERVE GAS ANTIDOTE BEING DISTRIBUTED IN TEXAS, TO SHERIFFS DEPARTMENTS ACROSS THE STATE? NEED LAW ENFORCEMENT CONFIRMATION

Hello steve I have received some disturbing news from a friend late at night as to what is being distributed all over texas to the sheriff's office by the military, a friend of my friend was working on a trailer for the Brownwood Texas sheriff's department **when he noticed that it was a nerve agent antidote**, this guys boss put a picture and a statement on a local blog and shortly after it was removed and then they received a visit from the sheriff and a federal agent that told them not to say anything else about what they had found, I was sent the conversation of my friend and the mechanic who worked on the trailer in an email and the next day the email disappeared so i called my friend back and his phone had also had the

message removed so my friend called the mechanic and got the conversation sent back to him but the mechanic and the shop owner are afraid to release any other info such as pictures of the antidote they took, i can say that it was in a black trailer with panther 2 on the side and the next stop was Taylor county, Abilene Texas . Now I told a friend in Roundrock texas about all of this and he came by today 4-10-2015 an told me that he has a friend that is a deputy in Roundrock Texas and when he ask the deputy about this nerve agent the deputy got a deer in the headlight look and ask him where he heard this, and he told him a friend, **and the deputy said yes that all sheriff departments received this antidote**. Thanks for taking the time to read this...I know this to be true as I have known this man for 20 plus years and he would not lie, what I really need is a whistle blower from a sheriff's department to help. bring this story to life for all. Sincerely ,Wes
SEEKING CONFIRMATION FROM ANY TEXAS LAW ENFORCEMENT AGENT TO THE VERACITY OF THESE CLAIMS

ALL VETERAN ALERT! HEADS UP EVERYONE- DO NOT RESPOND TO ATTEMPTS TO DRAW YOU OUT AT NIGHT-I KNOW THIS PERSON PERSONALLY AND HE'S NOT GIVEN TO PARANOIA

DEAR STEVE, THIS MORNING MY WIFE WENT OUT THE FRONT DOOR TO WATER PLANTS BEFORE GOING TO WORK. SHE CALLED ME AND SHOWED ME THREE ROCKS ON THE FRONT PORCH. THEY SHOULDN'T HAVE BEEN THERE. THEN SHE TOLD ME THE NIGHT BEFORE SHE HAD HEARD BANGS ON THE FRONT DOOR BUT ASSUMED THAT IT WAS EITHER BIRDS OR SOME LARGE INSECT TRYING TO GET IN, AS THAT HAPPENS ALL THE TIME AROUND HERE. **NOW WE ARE BOTH OF THE MIND THAT SOMEONE OUTSIDE WAS TRYING TO GET US TO OPEN THE DOOR. I DON'T KNOW IF IT WAS A THIEF OR AN ASSASSIN. BEING AN INFANTRY VET, AND HAVING WRITTEN 'OVERTHROWN'** IT MAKES ME WONDER, GIVEN THAT JADE HELM IS GETTING STARTED. I WILL KEEP YOU POSTED ON ANY FURTHER DEVELOPMENTS. YOURS IN CHRIST,

JADE HELM'S USE OF DEATH SQUADS

11 Apr, 2015 by [Dave Hodges](#)

Jade Helm is morphing into something very dark and very sinister. At the conclusion of the article, many of us will be asking about how we should collectively respond. We certainly need to explore the possibilities.

One of the reasons that I believe that Jade Helm could go live is because of the bravado and attention being given to this topic. The globalists who have hijacked our government have taken off the gloves and there is no denying

what they are up to. As a result, people who have been clueless about the New World Order are awakening to the level of tyranny that is growing within our country. As Jade Helm swings into full operation this coming summer, millions of Americans, that mistakenly thought they were living in a Republic, will have their eyes opened as to what has happened to their precious country. Soon, the websites, Youtube channels, the television shows and the radio shows of the Independent Media will soon see their audiences grow to unparalleled popularity. And of course, the federal government minions will be there waiting as the FCC attempts to stifle dissent with the recently imposed Net Neutrality. Clearly the line in the sand is being drawn in preparation for the coming conflict.

Paul Joseph Watson and Joe Biggs wrote an interesting article on [Infowars](#) in which they have discovered that “Patriot groups across the country are preparing to launch a ‘Counter Jade Helm’ operation to keep tabs on a controversial U.S. military exercise that some fear is part of preparations to train troops for civil unrest and martial law”. Among those protesting the Jade Helm 15 drills are former Special Operations forces as well as many veterans groups.

Along these lines, I am beginning to receive invitations to speak about Jade Helm to various groups including the Oath Keepers. People, in great numbers are and will be soon waking up and for good reason.

Two more Disturbing Elements of Jade Helm

In recent days, I have learned that the reason that we are seeing Jade Helm activity in so many areas and we are also witnessing the prepositioning of massive military equipment, is because Jade Helm forces will isolate certain geographic areas, thus trapping a segment of the population and keep them from fleeing to

other areas. The second part of Phase III of the Jade Helm operation will be the insertion of Special Forces death squads among the civilian population which will target key dissident leaders. The remainder of this article will discuss these two issues.

In my estimation, these veterans groups better accelerate their protest efforts if they want to have any meaningful impact, because in every part of this country, Jade Helm activities are growing and intensifying at an alarming rate.

In the past 24 hours alone, I have received a total of 54 communications regarding suspicious and increased military activity in every part of this country. Since I began tracking my communications specifically for reports of greatly increased military activity, most likely related to Jade Helm, I have counted a total of 31 states involved in the drill, not the nine states that the government is claiming. Here are four examples, out of the 54 of these communications reporting increased military activity in their area:

Dave, Traveling north on I-15. Saw a sided train of tanks, armored personnel vehicles at North Salt Lake on the east side of the freeway with three engines. All were camouflaged light tan.

Hello Dave Hodges, I live in Charlotte, North Carolina. Last week the “military?” surrounded the Water Treatment Facility in Charlotte, North Carolina. Just last year the city built a new holding reservoir. It’s pretty good size and is filled to the brim with water...but I’m 59 years old and don’t remember any time in my growing up years seeing this much “military” shuffling going on in the USA.

Dear Dave, I’ve been an independent researcher for over 30 years.... I’m now 68 and moved out of Houston, TX..., following a friend’s advice to come to Patagonia, AZ...Considering Jade Helm, I thought you’d want to know that the rumbling noise I heard early this evening was not 18-wheelers on Rt 82, but several bombers flying overhead from direction of Nogales heading east, maybe to Ft. Huachuca, followed by several military helicopters. I have always been very prescient and have a very bad feeling about what’s being put into position to bring genuine shock and awe to America...

Hello Mr. Hodges, I don’t normally talk or post about what’s going on. I’m used to military vehicles as I’m prior service...I’ve deployed to Iraq in 2009 doing convoy security, so I’m very familiar with MRAPs etc. On my way to work this morning (I live in central Texas, right near fort hood) on 116 heading to gatesville my coworker texted me “dude lots of military vehicles in gatesville”. That was at 9:56, she also called me twice. I just shrugged it off, as gatesville sits right next to North Fort Hood. I got to work at 10:45am, walked in and asked her about the vehicles she saw. She said they were all humvee’s, but blacked out black and grey. That caught my attention, as we normally do not, nor have I ever seen blacked out and or grey humvees before. She said there was a convoy coming into town, and then one right off of 36. I could go on sir, about some of the sketchiest stuff I have ever experienced after coming home from Iraq. I honestly do not know, who else to talk too. Everyone thinks I’m nuts. I don’t wanna believe the stuff I’ve seen and know. If you want to know more, just let me know sir.

Take Your Money Out of the Bank Before Jade Helm Ushers in Martial Law

10Apr, 2015 by [Dave Hodges](#)

<<Picture of M1 Abrams tank, taken by talk show host and health expert Ted Broer near his Florida home on a local toll road. According to Broer, there were several tanks being transported.

As Jade Helm forces are preparing to tighten the martial law noose around our collective necks, most Americans are on verge of losing

everything.

I am continuing to receive dozens of emails, by the day, which detail the increased military presence and preparations for the Jade Helm forces all around the country. With each passing day, as martial law draws near, your opportunity to get your money out of the bank is growing far less likely with each day you delay in taking your money out of the bank.

Many of the citizens of our country are finally awakening to the unfolding tyranny.

Yesterday, I received 37 emails from readers that in some form were asking me what they should do with their money because their investigations and observations agreed with mine in that the United States is headed towards and economic meltdown followed by martial law.

As the country races toward martial law and financial collapse, There are several major reasons to take the majority of your money out of the bank while leaving just enough in the bank to conduct business and to pay your bills.

Presently, the United States has an \$18 trillion dollar deficit, a \$240 trillion dollar unfunded liability and credit swap derivatives debt in excess of \$1 quadrillion dollars. The only backing that the U.S. dollar enjoys is the Petrodollar and that practice is being eroded by the Russian and Chinese led charge away from the dollar and into gold. There will soon come a tipping point where the American economy will die a sudden and violent collapse as the currency hyper-inflates.

It far more likely that an economic collapse will be contrived instead of following the natural path listed above because the timing and severity could be controlled by the banksters.

The Seventh Circuit Court of Appeals ruled that when you put money into the bank, you have transferred ownership of that money to the bank. This ruling represents government sponsored theft in the highest order, yet most of us are unaware that this happened.

Also, as previously reported, on the morning of November 16, 2014, the G20 fulfilled the mandates of a new investment program. This new program creates a whole new paradigm and set of rules whereby banks will no longer recognize your deposits as money. Russell Napier is declaring November 16th as "the day money died". This declaration by the G20 declared your bank account to not be money and therefore, the FDIC does not technically insure your money because it is not money in the eyes of the government.

In April of 2013, the banksters began to seriously manipulate the price of gold as evidenced by the actions of "Goldman Sachs" who told their clients earlier that they recommend initiating a short COMEX gold position." After investors were duped into panic selling, the banksters bought up massive sums of gold. The banksters were buying gold while getting out the American Stock Market and the megabanks.

Why? Because the dollar is going to collapse and the banksters are seeking safe havens for their wealth. This move should have been huge red flag for all bank depositors.

If by some small chance you are not convinced that the banking system is living on borrowed time, I would strongly suggest that you read this article as the documentation leaves no doubt as to the fact that the final resting place for the dollar is right around the corner.

When Taking Your Money Out of the Bank, Be Cautious! George Soros won't go to prison for taking his money out of the bank, but you could, if you are not very careful. In a clear escalation in the ongoing war on U.S. citizens, **the Justice Department has recommended that bank employees snitch on customers attempting to withdraw more than \$5,000.** The banks and the Justice Department knows what is coming and they are going to keep you from withdrawing as little of your money as possible.

Under present laws, it is permissible to withdraw \$5,000. **However, with the recent Justice Department dictatorial decree, if you do withdraw that much money, you could find two cops sitting in your driveway waiting for you.** It is mind boggling regarding how few people are preparing to act to preserve what assets they have remaining by not removing their money from the bank.

Because you have put your money in the bank, you no longer own your money. Taking what was your money out of the bank is no longer a matter of walking up to your friendly teller with a withdrawal slip and the teller cheerfully honors your request and you calmly exit the bank with your money in tow. In fact, your teller is trained to look for certain indicators in any cash withdrawal of any significance. As you move to withdraw the bulk of your money, there are three federal banking laws that you should be cognizant of, namely, Cash Transaction Report (CTR), a Suspicious Activity Report (SAR) and structuring.

CTR's

Skip--Federal law requires that the bank file a report based upon any withdrawal or deposit of \$10,000 or more on any single given day. The law was designed to put a damper on money laundering, sophisticated counterfeiting and other federal crimes. *To remain in compliance with the law, financial institutions must obtain personal identification, information about the transaction and the social security number of the person conducting the transaction.*

Before proceeding with the planed withdrawal of your money, I would strongly suggest that you read the following federal guidelines as it relates to CTR's as produced by The Financial Crimes Enforcement Network (FinCEN). All the federal regulations contained in this article are elucidated in this series of federal reports.

Structuring and SAR

There will undoubtedly be some geniuses whose math ability will tell them that all they have to do is to withdraw \$9,999.99 and the bank and its protector, the federal government will be none the wiser. It is not quite that simple. Here are a few examples of structuring violations that one should be aware of:

- 1. Joe has obtained \$15,000 in cash he obtained from selling his truck. He knows that if he deposits \$15,000 in cash, his financial institution will be required to file a CTR. Instead he deposits \$7,500 in cash in the morning with one financial institution employee and comes back to the financial institution later in the day to*

another employee to deposit the remaining \$7,500, hoping to evade the CTR reporting requirement.

2. Sally needs \$16,000 in cash to pay for supplies for her arts and crafts business. Sally cashes an \$8,000 personal check at a financial institution on a Monday. She subsequently cashes another \$8,000 personal check at the bank the following day. Sally is careful to have cashed the two checks on different days and structured the transactions in an attempt to evade the CTR reporting requirement. Sally should have made irregular deposits on staggered days.
3. A married couple, John and Jane, sell a vehicle for \$12,000 in cash. To evade the CTR reporting requirement, John and Jane structure their transactions using different accounts. John deposits \$8,000 of that money into his and Jane's joint account in the morning. Later that day, Jane deposits \$1,500 into the joint account, then \$2,500 into her sister's account, which is later transferred to John and Jane's joint account at the same bank.

The aggregate total of the three transactions totals more than the \$10,000 threshold, therefore, a SAR would be filed by the bank and you would be the subject of a federal investigation as all three of the above cases clearly violate the federal banking laws related to structuring. It is a federal crime to break up transactions into smaller amounts for the purpose of evading the CTR reporting requirement. In these instances, the bank is required to file a SAR which serves to notify the federal government of an individual's attempt to structure deposits or withdrawals by circumventing the \$10,000 reporting requirement.

Structuring transactions to prevent a CTR from being reported can result in imprisonment for not more than five years and/or a fine of up to \$250,000. If structuring involves more than \$100,000 in a twelve month period or is performed while violating another law of the federal government, the penalty is doubled.

Start--Withdrawing Your Money From the Bank

The best way to avoid getting your money caught in the bank in the midst of a bank run would be to not let the lion's share of your money ever cross the bank. The simplest way to accomplish this is to prevent any form of deposit from going automatically into your account, as much as it is possible.

Secondly, you need to begin to *pay cash for everything*. Let's say that every 30 days, Bob cashes his check at the bank from his work worth \$5,000 net pay. Bob leaves just enough in the bank to be able to conduct normal banking business. Bob walks out of the bank every month with the majority of the cash from his check. Bob should begin to pay cash for as much as he can, such as eating out, paying the electric bill (pay the bill in person), buying groceries, etc. When it becomes necessary to make a "big ticket" purchase, Bob could temporarily leave more in the bank to cover the writing of a check. I cannot promise you that if you become the target of federal investigators that you will not have your every financial move scrutinized and the feds will eventually discover the aggregate patterns of withdrawal. People who I interviewed told me that the federal government has the banking computers "talking" to each other in a way that would reveal structuring.

If you ever become the target of a federal investigation, do not, under any circumstances, allow yourself to be interviewed by federal officials without an attorney present. In many cases, people go to jail and pay huge fines, not

because they have committed a federal crime, but because federal officials state that they have lied or misled them. And if you do not have an attorney present, it is your word versus the federal government.

Where to Put the Money You Are Able to Withdraw From the Bank

There is some wisdom in putting your money where the elite do. Goldman Sachs shorting gold in April of 2013 (described earlier in this article), should be motivation enough the average person to convert their dollars into gold.

The fact that the Federal Reserve spent several months purchasing mortgage backed securities should provide another clue as to where the elite think which assets will hold their value in a post-collapse economy. **Start with paying down your mortgage. In a post-collapse nation, as long as you can pay your property taxes, you will hang on to your home.**

Please keep in mind that this is a post collapse strategy, there is no prevention for what is coming.

Certainly, you should purchase supplies that will sustain life (e.g. food, water, guns) with cash only. You do not want to leave a trail of what survival assets you have accumulated.

Conclusion

The time to have acted to protect your earnings was two years ago when the elite began buying gold in earnest.

The forces of Jade Helm are engaged in massive and monumental preparations. Although not guaranteed, there is a danger that this summer will see a collapse of the dollar. Once Jade Helm 15, or something that follows on its heels, is in place and martial law is in effect, you will not have this opportunity again.

Red Flags Everywhere As NWO Prepares To Kill 240+ Million Americans In The Next 10 Years!

By Stefan Stanford - All News Pipeline - Live Free Or Die

As each new day brings us one day closer to complete economic collapse in America as the dollar loses its' status as the world's reserve currency, we see new red flags flying everywhere (such as the DHS purchase of bulk riot control gear!) each morning we read the latest news. With Jade Helm 15 now huge news, we've decided it's an important time to revisit the Deagel.com website which shows a population reduction of

more than 240 million Americans by the year 2025, less than 10 years from now, and ask the questions that need to be asked: why would Deagel.com think that the population of the US in 2025 will be reduced by 240+ million Americans and how will the NWO go about accomplishing a magic trick like that?

While we expect nwo and govt shills and trolls to immediately pounce on this

story with comments such as 'why should we trust Deagel' and 'they don't know anything' and 'the govt is here to protect us', **it's wise to remember who Deagel.com gets their numbers from and WHO exactly they are tied to. Would Deagel's source groups below know anything about the US population being ONLY 69 million people in 10 years? After visiting Deagel's full directory of source organizations, we dare you to tell us that Deagel is simply 'out of touch'.**

While a recent story on All News Pipeline warned that between 80 and 100 million Americans were now on the NWO's 'red list' of US patriots, supporters of the Constitution and the 2nd Amendment to be 'eliminated' for opposing global government and a 'new world order', does the screenshot from Deagel.com below of projections for the US for 2025 tell us the true tale? Why the huge drop in population, from 316 million to 69 million in less than 10 years? Is this what Jade Helm 15 taking place in mere months and the various martial law drills are preparing for?

Comment: Hold on let's look at some of these other statistics:

DEFINITION of 'Per Capita GDP'

A measure of the total output of a country that takes the gross domestic product (GDP) and divides it by the number of people in the country. The per capita GDP

is especially useful when comparing one country to another because it shows the relative performance of the countries. A rise in per capita GDP signals growth in the economy and tends to translate as an increase in productivity.

INVESTOPEDIA EXPLAINS 'Per Capita GDP '

The gross domestic product (GDP) is one of the primary indicators of a country's economic performance. Per capita GDP is sometimes used as an indicator of standard of living as well, with higher per capita GDP being interpreted as having a higher standard of living.

Just exactly WHO is Deagel.com? We learn [here](#) that Deagel is tied to some of the most shady characters and activities around and if these groups are telling us that America will only have 69 million residents in 10 years, it's time we all paid very close attention to what they are telling us in their 2025 forecast seen above.

The power and influence of the corporation that you never heard of is staggering. This is the modern day Zapata Oil, which was a CIA front corporation run by George H. W. Bush which in turn facilitated much of the Air America “drugs for guns” program in Latin America in the 1980’s.

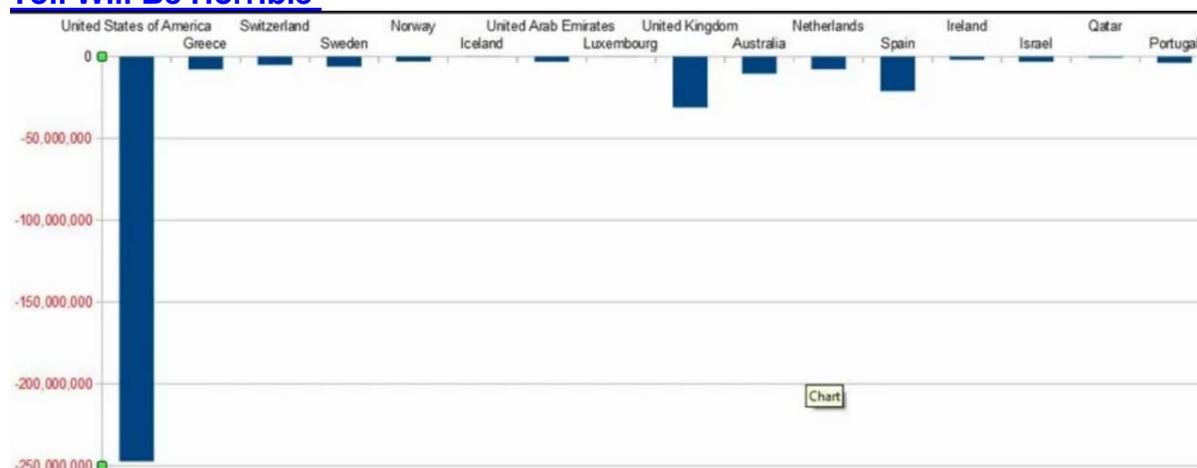

[My \(Dave Hodges\) sources tell me](#) that Deagel is the same exact kind of organization as Zapata Oil. Deagel ran guns through the Ambassador Chris Stevens and subsequently delivered them to al-Qaeda in Libya and in Syria at the time of Stevens death. Deagel was intimately involved in Benghazi in ways that will be revealed in a later article. Deagel is not just a gun running/drug running/child sex trafficking organization, they are also intimately connected with the business as “Open source intelligence links”. This means that Deagel and their partners serve as marketing companies for the CIA and sell intelligence information to the highest bidder. Stratfor and Deagel provide the CIA with a minimum of two degrees of separation from nefarious operations which could taint the U.S. government and in particular, the CIA. These activities will be the topic of a future article. The focus of the remainder of this is article is the destruction and depopulation of the United States.

Deagel is a group that gets their hands dirty and they play both sides of the fence. They do business with the Russian Defense Procurement Agency, but they are largely an American contractor with ties into the U.S. Navy, the NSA and the CIA, through Stratfor.

Toll Will Be Horrible'

By Stefan Stanford - All News Pipeline - Live Free Or Die

The brand new video below from [Ya OughtaLearn](#) breaks down Deagel.com's 2025 forecast for America and the world in a way that no one has seen before and with a message left by Deagel on their website explaining part of the reason why the US will have 240+ million LESS people living here in 2025 than 2015, a 78% population drop, we also see that this depopulation event isn't FOR the whole world but mainly Western nations, and 'the death toll will be horrible' according to the statement released by Deagel.

To watch go to: <https://youtu.be/qMIYHqiC5Ls>

While Deagel whitewashes their explanation for this depopulation event as seen in their statement in it's' entirety below video, we can read between the lines of what they tell us and what they don't to get the whole picture and it confirms our worst theories. **In this day and age of still unlimited immigration INTO America by illegals at the invitation of Barack Obama, simply imagine what kind of an event it will take here so that MILLIONS of people who are here now WANT to flood OUT of America!** It's about to get real.

Even though [Deagel whitewashes their explanation](#) for why America will have 240+ million LESS living here in 2025 than now, **leaving potential nuclear war and pandemic out of the picture, what they do tell us helps to confirm what preppers and 'conspiracy theorists' have been warning about for many years. America is about to suffer a devastating financial collapse leading to a 'horrible death toll'.**

From Deagel:

*The key element to understand the process that the USA will enter in the upcoming decade is migration. In the past, specially in the 20th century, the key factor that allowed the USA to rise to its colossus status was immigration with the benefits of a demographic expansion supporting the credit expansion and the brain drain from the rest of the world benefiting the States. **The collapse of the Western financial system will wipe out the standard of living of its population while ending ponzi schemes such as the stock exchange and the pension funds. The population will be hit so badly by a full array of bubbles and ponzi schemes that the migration engine will start to work in reverse accelerating itself due to ripple effects thus leading to the demise of the States. This unseen situation for the States will develop itself in a cascade pattern with unprecedented and***

devastating effects for the economy... **Nevertheless the death toll will be horrible...** **The American standard of living is one of the highest, far more than double of the Soviets while having added a services economy that will be gone along with the financial system.** **When pensioners see their retirement disappear in front of their eyes and there are no servicing jobs you can imagine what is going to happen next.** **At least younger people can migrate. Never in human history were so many elders among the population. In past centuries people were lucky to get to their 30s or 40s.** **The American downfall is set to be far worse than the Soviet Union's one. A confluence of crisis with a devastating result.**
