**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive the very elect."

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we are not ignorant of his devices."

**II Chronicles 7:14:** "If my people, which are called by my name, shall humble

themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Psa 103:8: The LORD is merciful and gracious, slow to anger, and plenteous in mercy.

Psa 103:9: He will not always chide: neither will he keep his anger for ever.

Psa 103:10: He hath not dealt with us after our sins; nor rewarded us according to our iniquities.

Psa 103:11: For as the heaven is high above the earth, **so great is his mercy toward them that fear him.**

Psa 103:12: As far as the east is from the west, so far hath he removed our transgressions from us.

Psa 103:13: Like as a father pitieth his children, **so the LORD pitieth them that fear him.**

Psa 103:14: For he knoweth our frame; he remembereth that we are dust.

Psa 103:17: **But the mercy of the LORD is from everlasting to everlasting upon them that fear him, and his righteousness unto children's children;**

**See Scott Johnson's Teaching:**

**Bohemian Grove is a 2,700-acre campground located at 20601 Bohemian Avenue, in Monte Rio, California, belonging to a private San Francisco-based men's club known as the Bohemian Club. In mid-July each year, Bohemian Grove hosts a 2-3 week encampment of some of the most powerful men in the world. Each year, up to 2900 of the world's most influential CEO's, government officials, financiers, industrialists, and media moguls gather to hear speeches, network, and share common agendas. Jesus said "in secret have I done nothing" ([John 18:20](#)), because He had nothing to hide. Why the secrecy from our nation's top leaders? A bizarre pagan ritual of the Bohemian Grove, the Cremation of Care ceremony, is practiced by its members (all men), including both Presidents Bush, Ronald Reagan, Richard Nixon, Jimmy Carter, Colin Powell, Walter Cronkite and Henry Kissinger to name but a few. Each Year at Bohemian Grove, Members of This All-Male "Club" don red, black and silver robes to conduct an occult ritual wherein they worship a giant 40 ft. stone owl while sacrificing a mock human being (in effigy) to what they call the "Great Owl of Bohemia." To which [Romans 1:22,23](#) comes to mind: "Professing themselves to be wise, they became fools, And changed the glory of the uncorruptible God into an image made like to corruptible man, and to birds, and fourfooted beasts, and creeping things." We will be**

looking at many aspects of this topic as well as how Molech, Lilith, Athena, Minerva could play a part in this debauchery.

### **Tensions build as Supreme Court readies blockbuster rulings**

By Lawrence Hurley | Reuters/Reuters - Gay marriage supporters hold a gay rights flag in front of the Supreme Court before a hearing about gay marriage in Washington

WASHINGTON (Reuters) - Tensions are building inside and outside the white marble facade of the U.S. Supreme Court building as the nine justices prepare to issue major rulings on gay marriage and President Barack Obama's healthcare law by the end of the month.

Of the 11 cases left to decide, the biggest are a challenge by gay couples to state laws banning same-sex marriage and a conservative challenge to subsidies

provided under the Obamacare law to help low- and middle-income people buy health insurance that could lead to millions of people losing medical coverage.

Many legal experts predict the court will legalize gay marriage nationwide by finding that the U.S. Constitution's guarantees of equal treatment under the law and due process prohibit states from banning same-sex nuptials.

The four liberal justices are expected to support same-sex marriage, and conservative Justice Anthony Kennedy, the expected swing vote, has a history of backing gay rights. In three key decisions since 1996, Kennedy has broadened the court's view of equality for gays. The most recent was a 2013 case in which the court struck down a federal law denying benefits to married same-sex couples.

### **Christians in Charleston Comes Together After Tragic Shooting**

Christians in Charleston, South Carolina, are demonstrating unity and forgiveness in the wake of the horrible shooting tragedy that shook the nation earlier this week.

Reporters are on the ground documenting the emotional aftermath of the event that claimed the lives of nine church followers.

Contrary to the unrest witnessed recently in Ferguson and Baltimore – which was agitated with the help of billionaire George Soros-backed organizations – and the predicted violence in the form of “Summer of Rage” riots, suspected shooter Dylann Storm Roof's actions seem to have instead strengthened the Christian community, suppressing the “race war” the suspect admittedly wished to foment.

### SUBOXONE: The Psych Drug Behind The Charleston Church Shooting

June 21, 2015 Suboxone is a powerful psychoactive drug which is **supposedly** utilized in breaking heroin and narcotic pain reliever addictions. **Just like methadone, suboxone has huge downside risks and adverse side effects.**

*\*Methodone is such a dangerous drug that dedicated clinics were set up around the country because patients could not be trusted with more than one day's dose at a time; hence, the daily visit to the methadone clinic. Methadone is actually more dangerous than all prescribed narcotic painkillers and can threaten a patient's life with each dose. As a matter of fact, a methadone user doesn't have to be addicted to methadone to die from it—the very first dose can kill, unlike both heroin and morphine.*

**As for adverse side effects of Suboxone, there are many and they can be severe. It has been reported that violent outbursts and aggressive acts of rage can be experienced while under the influence of Suboxone. There are other extreme and significant behavioral outcomes which can be exhibited by those who are under the influence of Suboxone which fit with the violent acts of the Charleston shooter.**

Charleston church shooter Dylann Roof was a known drug user who was caught with the powerful mind-altering narcotic Suboxone when apprehended by police during an incident on Feb. 28.[2]

The bottom line here is that powerful psychoactive and/or psychotropic drugs can push young people into all sorts of highly anti-social and destructive behavior. **The presence of these drugs is rarely, if ever, discussed in the mainstream media in the wake of events like Charleston. The focus is always on the usage of a gun(s), rather than the radically altered state of mind of the shooter.**

## Obama's Complete Disarmament Of America Plan Nears Completion - What Comes Next Is Beyond Words; YET THE MUSLIM TERRORISTS, AL QAEDA AND GANGS IN MEXICO ARE ARMED BY OUR GOVERNMENT!

[By Stefan Stanford - All News Pipeline - Live Free Or Die](#)

In the immediate aftermath of the shooting, President Obama and Charleston Mayor Joseph P. Riley Jr. both rushed to issue statements demonizing the Second Amendment over the shooter's actions. While Hillary Clinton voiced her support for stricter gun control laws in the wake of last week's shooting in South Carolina.

Speaking at the 83<sup>rd</sup> annual US Conference of Mayors Saturday, Hillary said she supported President Obama's calls to further infringe on the Second Amendment if it means it will help the victims of "gun violence."

ROVE: Only Way To Stop The Violence Is To Repeal Second Amendment...

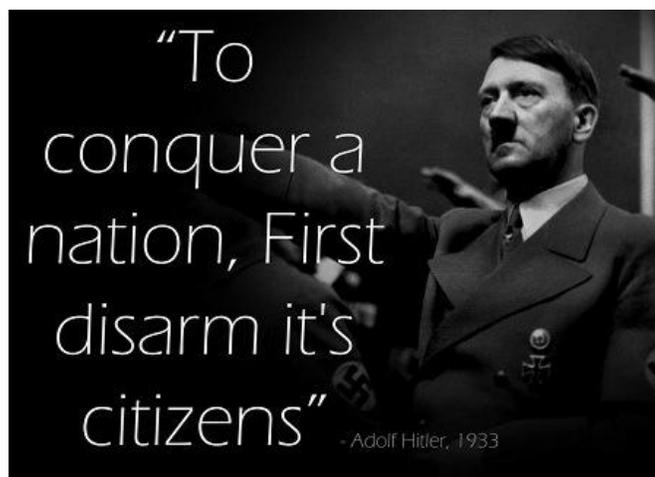

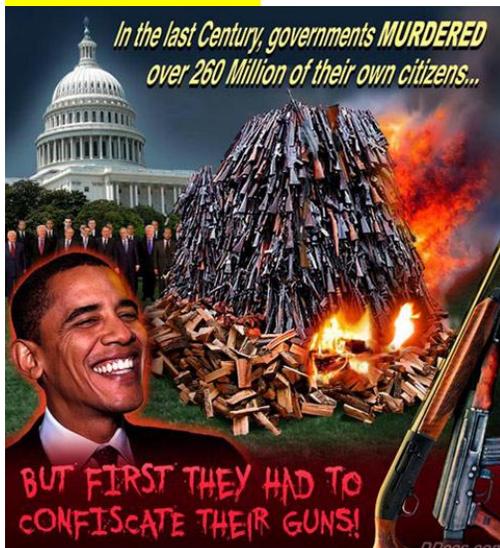

Republican strategist Karl Rove said on "Fox News Sunday" the only way to stop gun-related violence, like the Wednesday massacre at Emmanuel African Methodist Church in Charleston S.C., was to repeal American citizens' Second Amendment rights. When Chris Wallace asked Rove how we can, "stop the violence," the long-time gun-rights advocate stated that we have made great strides as a nation in empathizing with the victims of these types of shootings, but the only way to guarantee they will stop is to "remove guns from society."

Pope says weapons manufacturers can't call themselves Christian...

People who manufacture weapons or invest in weapons industries are hypocrites if they call themselves Christian, Pope Francis said on Sunday.

Francis issued his toughest condemnation to date of the weapons industry at a rally of thousands of young people at the end of the first day of his trip to the Italian city of Turin.

Comment: So we have the most wicked Satanic people on planet earth calling for your guns and giving us Christians, Pro-second amendment & Pro Freedom folks a morality lesson. Considering the source we know it is because they know a disarmed populace is very easy to slaughter pillage, molest, imprison and control. After all:

## The Experts All Agree

Hitler Castro Qaddafi Stalin Obama

Idi Amin Mao Tse-tung Pol Pot Kim Jong-Il Pelosi

## Strict Gun Control Works!

Back on March 27th, 2012, [Charles Hurt at the Washington Times](#) put out a story in which he begins: "Turns out he's not Kenyan after all. He's KGB. All this time, people were worried that President Obama was born in Africa and that his radical agenda had been crafted by the Rev. Jeremiah Wright and Saul Alinsky on the streets of Chicago's South Side. **Now we know his real radical hidden agenda is in service of the Kremlin.**" Hurt proceeded to tell us that Barack Obama had reached his 'darkest

low' as a president (he's obviously had MANY more lows since then!) while in South Korea when an unseen microphone caught him plotting with the leader of Russia to ignore the will of the American people to help the enemies of America advance their own interests. Hurt added that Obama was assisting those who longed to see the "world's last remaining beacon of freedom finally destroyed."

For those who never saw that video, go to:

<https://www.youtube.com/watch?v=J80AlqEQNoI> We're learning Hurt was correct; we may now be witnessing the final vestiges of that once shining beacon.

What exactly was Barack Obama's secret message to Russia and how does that fit in today? Obama was overheard on a microphone delivering a secret message to Russian President Dmitry Medvedev regarding the US missile defense. He basically said if you work with me now I will have "more flexibility" after my second term as president. ANP and many other alt news outlets have reported widely upon Obama's military purge. We've seen Christians, Veterans and US Constitution supporting Americans labeled terrorists and are now seeing a tremendous uptick in this since the South Carolina shooting. In this [April 15th story](#) we learn that Barack Obama admitted that he was schooled in 'white racism' by Communists in a recently emerged 1995 video. The FBI has Obama's mentor Frank Marshall Davis' 'communism file'. We know Barack Obama has bowed down before the Chinese communist government and vowed to disarm Americans; the United Nations will settle for nothing less. Authoritarian regimes for many hundreds of years have been disarming their populations...right before the slaughter. Embedded at the bottom of this story is a 1984 story called "AmerRuss" by Robert Fuller - it was about the coming joining of America and Russia as one country.

Was this part of Obama's promise to Russia?

With the horrific shooting in South Carolina that has been called out by many as a false flag event, Barack Obama now has even more ammunition to continue that destruction of freedom in America. They've long tried to legislate the 'problem' away and even the South Carolina law that prohibited guns in churches was ineffective at stopping what took place (however, they neglect to say had someone else been armed in the church, we'd likely only be looking at a dead shooter.) Obama's own statements broadcast to the world after the shooting,

specifically these lines when read carefully, should tell all of us what's coming next and help to explain Jade Helm 15 and the huge military buildup we've been witnessing all across the country. Obama's full statement on South Carolina is in the final video below.:

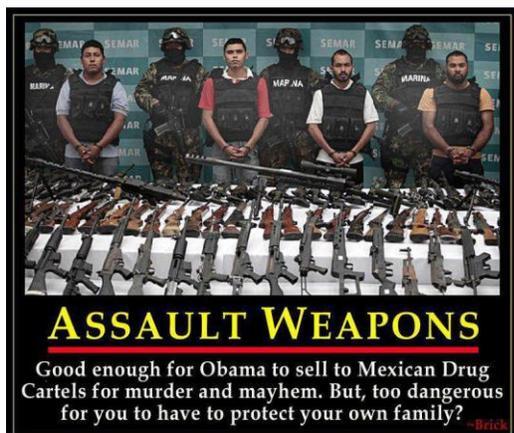

*"I've had to make statements like this too many times," Obama said. "We don't have all of the facts, but we do know that once again innocent people were killed in part because someone who wanted to inflict harm had no trouble getting their hands on a gun." The president continued, suggesting that the country has to act to prevent gun violence.*

*"Now is the time for mourning and for healing, but let's be clear at some point, we as a country, we have to reckon with the fact that this mass violence does not happen in other advanced countries," Obama said. "It doesn't happen in other places with this kind of frequency. **It is in our power to do something about it.**"*

Back on May 15th, more than a month prior to the tragic South Carolina shooting event, YouTube videographer [TheGreenvillePost](#) captured the eye-opening military convoy on Rt. 95 in South Carolina. The convoy features a long series of armored military vehicles, with soldiers, fully armed, riding along on the outside of them on one of America's biggest highways. **Every day All News Pipeline reports upon more of these convoys across the country. Two things we've noticed are, they are happening across the ENTIRE country, not just JH15 states.** We've also noticed they are not going away. There's a reason this convoy was riding down this South Carolina highway with fully armed men riding the vehicles, fully exposed, over a month ago. **The plan had already been put in motion. An ANP reader told us of a military convoy just like this on the Washington DC beltway just days ago. Fully armed men on the outside of machines of war in America. Their plan is clearly near completion.** As former president Dwight D. Eisenhower said in his farewell address: *"Only an alert and knowledgeable citizenry can compel the proper meshing of the huge industrial and military machinery of defense with our peaceful methods and goals, so that security and liberty may prosper together."* **As of this moment, Americans in general have surely failed.**

While Mr. Obama may like to think it's in his power to 'do something about it' and ban guns across America as heard in the next video below and 2nd video from X22Report, **he'd need to have dictatorial-type powers to actually do so; the ownership of firearms in America is protected by the 2nd Amendment.** The fact that Mr. Obama has TOLD us that "it IS in our power to do something about it" **leads straight into Jade Helm 15 and the massive military exercises that are taking place all across the country.** Barack Obama will attempt to use the South Carolina church shooting to ban guns. He already knows he won't be able to do it via legislation so they've got their backup plan in place. **They know they've tried before, and failed. The way they've set this up, failure is no longer an option to them this time around. They're desperate and their backs are against the wall. They've got the largest fighting machine in the world, the one that President Eisenhower warned us about, ready to face down the American people. Mr. Obama has work to do for some very evil important people. Thanks largely to his work, there will only be 60+ million people living in America in less than 10 years, 240+ million LESS than are here now, according to Deagel.com. Mr. Obama is on a mission for the NWO; if he has his way, they will not be denied.**

The X22Report discusses the Charleston shootings and the multiple agendas that it will help fulfill.

### Charleston shooting prompts gun-rights supporters to call for more concealed-carry at churches

[The Washington Times](#) On June 20, 2015 He was a young gunman bent on shooting as many worshippers as possible, but Matthew J. Murray never got as far as Dylann Roof, the suspect in Wednesday's South Carolina church massacre. Murray had already shot and killed two people in the parking lot when he burst into the New Life Church in Colorado Springs. **Before he could pull the trigger**

**again, however, the 24-year-old shooter was gunned down by Jeanne Assam, a volunteer security guard with a concealed-carry permit.**

**That was eight years ago, but even though Ms. Assam was credited for saving as many as 100 lives that day, a dozen states continue to restrict the carrying of concealed firearms in churches — including South Carolina effectively creating Gun Free Zones which coincidentally always seem to be the places these mass murders show up to kill as many as possible, which is obviously not an accident.**

The Emanuel AME Church shooting that left nine dead Wednesday prompted not just a surge in calls from the left for tighter gun-control laws, **but also pleas from the right for churches to protect themselves by allowing their parishioners to concealed carry.**

### OBAMA'S DOJ TO CIRCUMVENT CONGRESS WITH 'MORE THAN A DOZEN' NEW GUN CONTROLS

**Obama's Department of Justice is working on "more than a dozen" new gun control regulations it plans to begin implementing apart from Congress. Some of the regulations are set to be put in place by November, others simply by the end of the Obama administration.**

According to [The Hill](#), "the regulations range from new restrictions on high-powered pistols to gun storage requirements" and the issuance of "new rules expanding criteria for people who do not qualify for gun ownership."

**Part and parcel to this new "criteria" will be an ATF-implemented ban on gun ownership for anyone "convicted of a misdemeanor domestic violence." Gun Owners of America's Michael Hammond warns that under this rule the person**

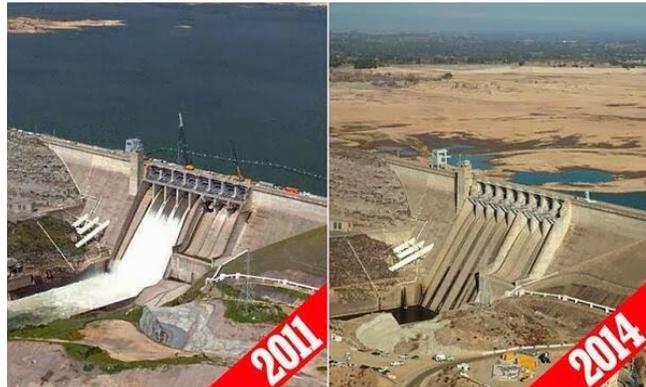

barred from gun ownership “could be [someone] who spanked his kid, or yelled at his wife, or slapped her husband.”

The new regulations will also include ATF enlargements on mental health-based gun ownership bans. Hammond summed this up by saying, “The Obama administration is trying very hard to disqualify people from owning a gun on the basis that they are seeing a psychologist.” And the NRA pointed out that because most mentally ill persons pose no threat to society, the new regulations will actually become “snares [for] masses of mostly harmless individuals.”

In March the NRA warned that then Attorney General nominee Loretta Lynch would be “[Eric Holder 2.0](#).” Yet in April, ten Republican Senators sided with Democrats and confirmed Lynch as AG. [The Hill reports](#) that those Republicans included Sens. Sen. Kelly Ayotte (R-NH), Sen. Lindsey Graham (R-SC), Sen. Jeff Flake (R-AZ), and Sen. Mitch McConnell (R-KY). **Lynch’s DOJ now has the Second Amendment in its sights.**

---

### **++ The UN Is Planning to Migrate Americans From California, Followed by the Entire Southwest**

California then.....California now....  
by Dave Hodges | June 19, 2015 3:37 am

### **CALIFORNIA TOWN HAS ONLY A FEW DAYS’ WATER LEFT**

On June 16 2015, the upscale town of Mountain House was told that within a few days they would have zero water, because the ‘government’ was cancelling the water contract to their supplier. This is more proof that the ‘government’ does not care about you.

While the water company *may* find another source of water, they may not. Just think – within a few days those people may have no water, no place to live, a house worth nothing while they still have a mortgage, have to move and maybe have no job into the bargain.

Just like that, the property values of millions of dollars worth of homes belonging to 15,000 resident’s nosedives toward zero. Even though it’s a ‘master planned’ community, it would appear that no one planned a permanent supply of water.

The United States Drought Monitor map is showing that 78% of the state is currently experiencing an “exceptional drought” stage. This represents a 22% increase from just a year ago.

Droughts can prove devastating to a community as widespread crop and pasture losses and shortages of water in reservoirs, streams and wells accompany drought conditions.

Exceptional drought, the most extreme category, indicates the most extreme conditions of drought.

Lynne Wilson, who serves on **the climate change delegation in the United Nations said: "Civilizations in the past have had to migrate out of areas of drought. We may have to migrate people out of California."**

It seems certain that at this rate of increasing drought, millions of Americans, presently living in California, might better begin packing their collective bags because it could soon be moving day. **Comment: Please pray the Lord would send rain if it be His will.**

**At this point, people are undoubtedly wondering if there isn't something that can be done to save California from this massive drought?**

**The Air Force Has the Solution to California's Drought**

Since its first publication, **"Owning the Weather 2025"**, and **"The Weather As a Force Multiplier"**, both published in 1996, the Air Force has made it clear that it has the capability to control the weather to the degree that their documents admit that **they can weaponize both weather and earthquakes** (see Exhibit 2 in the Appendix). I have published the Air Force's annotated bibliography on this subject of weather modification which is listed below in the Appendix (see Exhibit 1). **I dare any reasonable person to read the data contained in the Appendix and not be able to conclude that the California drought, now in Arizona, now in New Mexico, now in Nevada and et al, in the Southwest, is not being artificially manipulated.**

The Air Force actually maintains a separate entity in **its branch known as the "Air Force Weather Agency"**. **Its mission is weather modification.**

**<<[5] This agency has the ability to "fix" California's extreme drought conditions** (see Exhibit 3 in the Appendix).

I am going to stop short of saying this Air Force agency created the drought conditions. Although, a circumstantial case can be made that major political capital and money is at stake in the California drought. **Further, the Air Force clearly has the ability to mitigate the situation.** (see Exhibits 1,2,3 located in the Appendix). **Additionally, don't the citizens of California pay taxes to the federal government who in turn, oversees the Air Force? Then**

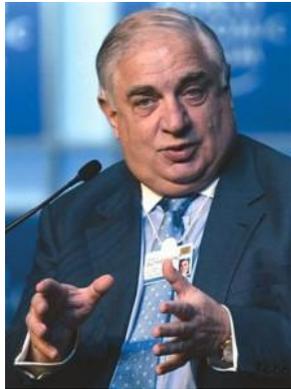

**why aren't the full resources of the Air Force Weather Agency being brought to bear in this crisis? Further, why isn't a massive cloud seeding program being implemented in California's mountains? I grew up in Colorado and when the ski season was delayed by late snowfalls, the state simply "seeded" the clouds to expedite the process. If this worked in Colorado in the 20th century, then why would it not work in California in the 21st century? The simple answer is because that is not the plan.**

Lynn Wilson from Kaplan University has stated that climate change is behind what is happening to California. **Lynn Wilson has conducted no meaningful research in the area of climate change. In fact, Kaplan University has never published a research study on climate change! Then why is Wilson speaking out on this issue? Wilson's and Kaplan's lack of meaningful credentials in this area are puzzling that any media outlet would give them the time of day, until one considers that**

Kaplan, a for-profit university is owned by the globalist propaganda mouthpiece, *The Washington Post*. Comment: This is also right on cue with Obama's and the Pope's push to give up all our liberty's & rights to appease Mother Gaia & stop global warming!!

Amazingly, Lynne Wilson serves on the climate change delegation in the United Nations. This fact makes Wilson's statement that "Civilizations in the past have had to migrate out of areas of drought. We may have to migrate people out of California", to be very suspect with regard to moving Americans out of California.

Why is Wilson promoting the mass migration of Americans from California? More

importantly, why would anyone listen to someone with no credentials to have the authority to make such a claim? Most importantly, why is Kaplan[7], which is basically an online university that does no research, being thrust into the forefront by such media outlets as CNBC[8]?

<<[9] Peter Sutherland an insider's insider & the head of the UN Migration Council. He is planning on being your next landlord.

I recently wrote about Peter Sutherland and pointed out that this Bilderberg Steering Committee member, former head of the Western Europe Trilateral Commission, the former head of the Bank of Ireland and the person I identified as the mastermind of

the conspiracy related to the Gulf oil explosion, would be in charge of any population movements inside of the United states. Most significantly, in 2006, Peter Sutherland was appointed as the special representative on the United Nations International Migration and Development. The UN's International Migration and Development would be in charge of large scale population movements. It is clear that Lynn Wilson is a convenient puppet and a bumbling mouthpiece for Sutherland.

Over the past month, I have written about Sutherland being the point man resulting in the takeover of the US by the UN. I am surprised that the propaganda aspect of these intentions is already in the mainstream media. My fear is that this plot is going to move very quickly.

A more detailed synopsis about the threat posed to the United States by Sutherland can be obtained [here](#).

Climate Change is a term which evolved out of the term "global warming" which was debunked as a scientific concept as a result of the hacked emails discovery from East Anglia University in what became known as "Climategate[11]" in which it was admitted that the scientists promoting the concept were cooking the books. Thus, "Climate Change" came into being. Now, man is responsible whenever there is a hail storm, snow storm, a tornado, etc. Any deviation in a "normal" weather pattern is due to man's use of energy, particularly fossil fuels. Thus, the concept of Cap and Trade was born which would hand over all energy to a few enlightened men so that they could save the planet.. Handing over the world's economy & land based on pseudo science is the goal. The present crisis in California helps to establish the public "legitimacy" of this goal and will serve to convince the people to give up their property, their rights and their fortunes in order to save the Earth.

^^[18] Created under UN auspices during the Nixon Presidency, this map represents the former United States broken up into regions. Certainly, KBR and Halliburton would be at the forefront of constructing new residences for “displaced Americans”.

**Where will the UN’s Lynn Wilson and Peter Sutherland send displaced Californians?**

Are the dots beginning to connect? And is there any proof of this intention? **Please consider these recently published photos sent to me by an Arizona resident who lives near Quartzite in which we see a large military presence in the town. And where is Quartzite? It is on the Colorado River located at the border**

between Arizona and California.

**Why would U.S. troops be training on the Colorado River? Are the Russians going to be rafting down the river? Or, is it more likely that these troops are going to be stationed at the Arizona/California ports of entry in order to receive refugees resulting from the mass migration of California residents due to the extreme and artificially controlled drought?**

Analysis and Conclusion

**I am in possession of 18 documents which clearly demonstrates that the Air Force has known how to control the weather to a large extent for almost 2 decades. I have published 3 of the documents which are listed below in the Appendix. The weather patterns in California, which are contributing to the drought, are anomalous to say the least and the length of time that this have been going on defies all statistical probabilities.**

**We have California coastal areas which seem to be operating outside the laws of the transpiration cycle. This can only be accomplished through the manipulation**

of the Jet Stream and the Jet Stream patterns have been unique to say the least when it comes to California weather. The technology to do this is described in the various references in the Appendix (Exhibit 1; see also Dr. Nick Begich and his book "Angels Don't Play This HAARP[23]"). Certainly, the drought in California could bring together the long-term dream of the globalists to control all energy under Cap and trade laws. Further, California provides an estimated 40-50% of certain agricultural products for the nation as a whole. A lack of water could have a devastating effect on the economy with regard to food pricing. If one's goal is the collapse of the economy as a means to destroy the United States, this would be an excellent covert plan.

## THERE WON'T BE ENOUGH RENTAL TRUCKS WHEN THE GREAT EXODUS BEGINS

There are 38.8 million people in California. There are an average 2.6 people per household. That's 10,700,000 million one-way truck rentals. In 365 days that's 29,000 a day, IF people start moving now. But since most won't move till the last, say, 3 months, that's really 116,000 truck trips a day. There will be massive truck shortages.

You've seen those videos of refugees walking out of countries in Africa. You may yet see the same thing for California.

## ALREADY THERE IS A HUGE PRICE DIFFERENCE FOR TRUCK RENTALS

**U-Haul Prices 6/18/15:**

**Denver to Los Angeles = \$985**

**Los Angeles to Denver = \$2,273**

**Difference: \$1,288**

Here's another one:

**Atlanta to Los Angeles: \$1,112**

**Los Angeles to Atlanta: \$3,582!!!**

**Difference: \$2,470**

**What will the prices be when The Exodus really gets going?**

A dried up section of the New Melones Lake reservoir is seen which is now at less than 20 percent capacity as a severe drought continues to affect California on May 26, 2015. California has recently announced sweeping statewide water restrictions for the first time in history in order to combat the region's devastating drought, the worst since records began.

However, California is just the beginning.

To establish a New World Order, the globalists have to utterly destroy the main opposition which housed in America. I submit that this process is already underway.

Please take note that Deborah Tavares will be my special guest, on *The Common Sense Show*, this Sunday evening (6/21/15), from 8pm to 11pm (Eastern) and she will be shedding light on these issues and more.

## The UN Is Conquering America Through the Control of All Water

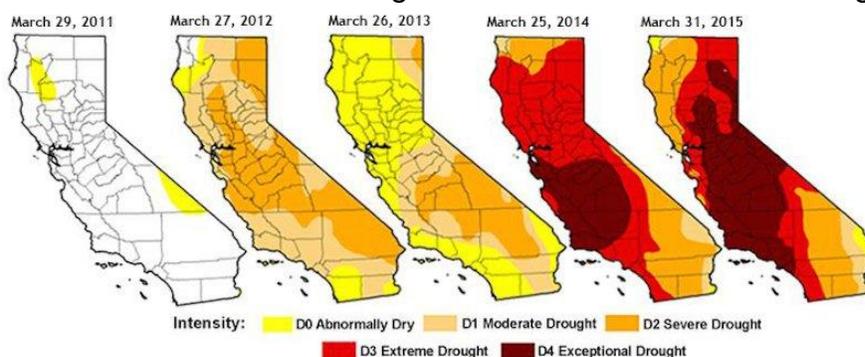

by Dave Hodges | June 20, 2015--Do you remember when Detroit went bankrupt and President Obama refused to intervene in order to help Americans in a beleaguered American city? This was both baffling and maddening to the American people. After all, this “hope and change” President promised to fundamentally transform America. Little did we realize that the Detroit bankruptcy would open the floodgates to the total foreign control of America’s most precious resource, namely water, where the UN has gained a significant foothold in Detroit and its influence is spreading across the country. When Obama refused to help Detroit’s bankruptcy and its ensuing water crisis, subsequent UN involvement was a portend of what was coming.

Today, we see California on the verge of extinction because of the profound water shortage. Not to worry America, the United Nations has promised to intervene in all of America’s coming water crises. The U.N. High Commission on Human Rights special rapporteur on safe water and sanitation: Catarina de Albuquerque[3], is in possession of a mandate which dictates that it must directly intervene with the U.S. government, first in a confidential manner and then in a public manner. This is why Obama did not help the people of Detroit, as he was helping the UN establish a foothold in the United States when it comes to the control of our water supply. It is interesting that Obama would bail out GM, but not its host city, Detroit. Now we know why. The UN is interested in water, not automobiles, at least not in the present moment. Now the UN has turned its sights on California.

Today, we see California on the verge of extinction because of the profound water shortage. Not to worry America, the United Nations has promised to intervene in all of America’s coming water crises. The U.N. High Commission on Human Rights special rapporteur on safe water and sanitation: Catarina de Albuquerque[3], is in possession of a mandate which dictates that it must directly intervene with the U.S. government, first in a confidential manner and then in a public manner. This is why Obama did not help the people of Detroit, as he was helping the UN establish a foothold in the United States when it comes to the control of our water supply. It is interesting that Obama would bail out GM, but not its host city, Detroit. Now we know why. The UN is interested in water, not automobiles, at least not in the present moment. Now the UN has turned its sights on California.

## Detroit Is History and California Is Next

In yesterday’s article, I briefly touched upon the fact that California would experience a mass population exodus due to the artificially contrived water shortage. A few of the readers had trouble believing that the water situation was as grave as I stated in the

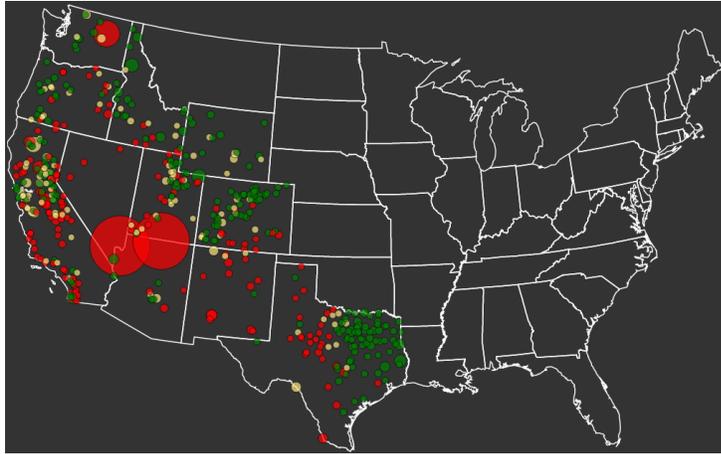

previous article. Here is a chart that counters these misguided beliefs as it depicts the severity of the California drought.

<[4] Nobody could look at this graphic and subsequently deny the

holocaust that lies in California’s immediate future.

What if California could not produce food, what impact would that have on the nation? California [5] produces a sizable majority of American fruits, vegetables and nuts; 99 percent of walnuts, 97 percent of kiwis, 97 percent of plums, 95 percent of celery, 95 percent of garlic, 89 percent of cauliflower, 71 percent of spinach, and 69 percent of carrots and the list goes on and on. A lot of this is due to California’s soil and climate.

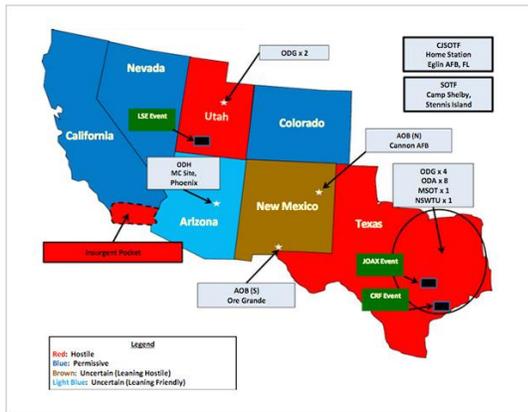

“Lemon yields, for example, are more than 50 percent higher than neighboring states. California spinach yield per acre is 60 percent higher than the national average. Without California, supply of these products in our country and abroad would dip, and in the first few years, a few might be nearly impossible to find. Orchard-based products specifically, such as nuts and some fruits, would take many years to spring back. Soon, the effect on consumer prices would become attention-grabbing. **Rising prices would force Americans to alter their diets.** Grains are locked in a complicated price-dependent relationship with fresh fruits, vegetables and meats. When the price of produce increases, people eat more grain. When the price of grain rises, people eat more fruits and vegetables. It is not just California that is in danger of having very serious life-threatening water and resulting food shortages. Please take a look at the following map

more fruits and vegetables. It is not just California that is in danger of having very serious life-threatening water and resulting food shortages. Please take a look at the following map

[6] Please note that the entire Southwest and upper Northwest are under severe and a soon-to-be life-threatening drought.

To those who have taken off of your blinders as you have come to realize that there is an elite faction

of powerful people who do engage in conspiratorial behavior to get what they want at any cost; please note the similarity between the above chart depicting widespread water shortages in the west and the original Jade Helm map featured below.

[7] The initial Jade Helm map is match for both water shortage map and the Atzlan map designed to sever the union of seven Southwestern states to the United States.

[8] Atzlan, the proposed giveaway of seven states to create the Phoenix of the old Aztec

empire. Hence, we now see a water shortage map, a Jade Helm map and now an Atzlan map that have striking similarities.

Only an avowed “coincidence theorist” could believe that there are not strong connections between Western water shortages, Jade Helm and Atzlan.

And there is more....

**The UN Has Private Partners In Its Thirst for Control Over All Water**

The infamous corporate raider and robber baron of the oil industry, **T. Boone Pickens, is leading the charge to unscrupulously enrich**

himself as he leads the globalist depopulation efforts to create a series of artificially contrived water shortages. Pickens was one of the first to rush to capitalize on the impending water shortage by his insidious acquisition of the largest underground aquifer in the US, the Ogallala Aquifer, containing a quadrillion gallons of water. **This massive underground reservoir extends from Texas to South Dakota.**

**Much of this aquifer extends into prime farm land located in America's bread basket.** T. Boone Pickens, is acquiring the ability to turn the American heartland into a dustbowl. **Pickens will soon have the political power to charge so much for water, that farmers will be forced to abandon their farms and ranches in a *Hunger Games* rendition in which government sponsored interests will eventually become the sole purveyor of the nation's food and water supply as the anti-humanist, Pickens, makes more money from water than he ever did with oil.** In order to acquire the water and expand his control over the Ogallala Aquifer, Pickens needed more political power. In 2006, **Pickens bought off the Texas State Legislature for \$1.2 billion[11].** This purchase of water-related law making power has allowed Pickens the ability to do **accomplish four goals[12]:** (1) He created an eight-acre town and an accompanying local government, **and subsequently made his tiny municipality into a powerful Water Supply District;** (2) As such, Pickens automatically acquired the right to issue tax-free bonds and thereby, **giving himself the lucrative benefit of borrowing at a tremendous discount;** (3) Now operating as a public entity, **Pickens is armed with the power of eminent domain which will allow him to expand his water acquisition potential in which he bullies local residents, along the aquifer, to sell their properties for pennies on the dollar;** (4) Pickens used his 1.2 billion dollar bribe money to get the Texas legislature to pay for a 250 foot wide water pipeline corridor all the way to Dallas where Pickens will make an estimated yearly profit of \$165 million at taxpayer expense. Pickens has become the poster child for the phrase "crony capitalism."

<<[13] The Ogallala underground aquifer will soon be controlled by one globalist, T. Boone Pickens. The monopolistic implications are self-evident.

**Pickens told Business Week [14] that he is only planning on selling surplus water, but according to the United Nations [15] research and scientific studies report, nearly two-thirds of the entire population inhabiting the planet will face severe, life-threatening water shortages by the year 2025. So, Mr. Pickens, what surplus could you be**

**talking about? And here we only thought we had to worry about Obama collapsing the economy through his socialist policies.**

**T. Boone Pickens' control over the water supplies through America's heartland is only the tip of proverbial iceberg.**

**Nestle is Depleting the Great Lakes**

[16] There is a second front which is being used to create an artificial water shortage in the United States. Perrier, a subsidiary of the multi-national Nestle corporation, has invested heavily in Michigan and the Great Lakes. Locked behind two sets of chain link fence, huge siphoning pumps are deliberately hidden from view in the forest. They are pumping the Great Lakes dry and

shipping the water overseas. Much of the Great Lakes water is headed for China, filled in massive cargo bags which are pulled across the ocean by a large supertanker.

By using a gaping loophole in the 2006 Great Lakes Compact, Obama's appointees are allowing the Nestle Company to export precious fresh water out of Lake Michigan to the tune of an estimated

\$500,000 to \$1.8 million per day profit. Obama's Federal water managers are allowing the theft and subsequent export of our Great Lakes water out of our country across thousands of miles of oceans into the Asian basin.

Nestle is not just taking water from the Great Lakes, they are contributing to the misery in California as Nestle[19] is, today, in the midst of the California water crisis, draining California aquifers, from Sacramento alone taking 80 million

gallons annually. Nestle then sells the people's water back to them at a greatly inflated price and this is being done under dozens of brand names.

Even the Defense Intelligence Agency has clearly echoed the dire warnings of the United Nations report by stating that unstable water supplies will greatly impact all and water will subsequently be used as a weapon. The DIA report evoked a reaction from former Secretary of State, Hillary Clinton, just prior to leaving office as she commented that the DIA's findings are "sobering" and that as the world's population continues to expand, the demand for water will increase but fresh water supplies will not keep pace and by the year 2025, the world will face cataclysmic and very deadly water shortages. In yesterday's article, I made the point that the technology exists to artificially create droughts as I revealed the series of Air Force documents known as "Air Force Owning the Weather 2025. Why is the year, 2025, figure so prominently into the dire forecasts of the globalists? I almost forgot that the CIA front group, Deagel,[20] forecasted America's population would slip to 65 million by the year 2025.

### Conclusion

I have written many articles about how past despots have used water and food as a weapon. If one controls water, one will control food. The United Nations, through The

**U.N. High Commission on Human Rights on safe water and sanitation, has asserted its authority under the guise of protecting human rights to assume control of an area which has severe water issues. Will Americans, one day, be forced to enter a camp to receive life-sustaining supplies?**

[23] Meanwhile **Time Magazine** reported [24] that Obama will golf Saturday on a **lush, green course** in California later today.

**Nero may have fiddled while Rome burned. And it could be said that Obama golfed while America burned but is a lot of coincidences to have been compiled inside of only one article.**

## **Huge News! NASA Scientist Issues Apocalyptic Warning For United States of America, and the Elitists Are Now Going Underground! (Videos)**

### **Revelation 6:12-17--Sixth Seal: Cosmic Disturbances--**

- TOOLS** **Rev 6:12** And I beheld when he had opened the sixth seal, and, lo, there was a great earthquake; and the sun became black as sackcloth of hair, and the moon became as blood;
- TOOLS** **Rev 6:13** And the stars of heaven fell unto the earth, even as a fig tree casteth her untimely figs, when she is shaken of a mighty wind.
- TOOLS** **Rev 6:14** And the heaven departed as a scroll when it is rolled together; **and every mountain and island were moved out of their places.**
- TOOLS** **Rev 6:15** **And the kings of the earth, and the great men, and the rich men, and the chief captains, and the mighty men, and every bondman, and every free man, hid themselves in the dens and in the rocks of the mountains;**
- TOOLS** **Rev 6:16** **And said to the mountains and rocks, Fall on us, and hide us from the face of him that sitteth on the throne, and from the wrath of the Lamb:**
- TOOLS** **Rev 6:17** **For the great day of his wrath is come; and who shall be able to stand?**

<< Photos of Underground Elitist Compound, Outside, Courtesy of Robert Vicino, CEO

**Is something terrible and tragic really going to happen soon? Brace yourselves, because the truth is becoming more evident daily, pointing to the fact that something huge is clearly going to take place on this earth, particularly in the United States of America, possibly this year!**

A government leader from NASA has recently come forward urging FEMA to take the necessary measures for a

coming apocalyptic event.

From the official government press release (Link Below In Quotes Section) "...we are about to enter a potentially catastrophic period of record earthquakes and volcanic eruptions throughout the United States." The letter was signed by SSRC President, Mr. John Casey, and delivered to FEMA headquarters in Washington, D.C. today. —Space and Science Research Corporation Official Document

And, from the official letter to FEMA: **Our research, to be published in our June 10, 2015 Global Climate Status Report (GCSR), suggests the high probability for catastrophic earthquakes or volcanic eruptions in all the major seismic and volcano regions of the United States has increased significantly. We believe the USA and the world, has now entered the most dangerous period for catastrophic earthquakes and volcanic eruptions in over two hundred years. In fact, a new trend of increased number and intensity of earthquakes and volcanoes globally, has already started and is generating serious concern in the geology field.**

**This increased threat level warning we are issuing is intimately linked to an ongoing dramatic reduction in the energy output of the Sun. These events, tracked primarily by sunspot counts, are called 'solar minimums,' or more descriptively 'solar hibernations.'**

**Analysis of past climate changes have also demonstrated that when these changes in the Sun happen, the Earth descends into a long, deep, cold climate period. These periods are universally understood within the solar physics community. Our previous research indicating the start of the next solar hibernation is now confirmed by NASA.**

**Therefore, we believe the well known high risk seismic zones and volcanically active regions in the US, especially California, South Carolina and in particular the New Madrid Seismic Zone (NMSZ) may experience major earthquakes or volcanism at any time between now and the early 2030's when the bottom of the next solar hibernation is reached.**

**In the case of the NMSZ, we show in the GCSR that in each of the last four solar hibernations, a catastrophic earthquake has struck the region. Now that a new solar hibernation has begun, we should take maximum precautions given the**

**high probability that another devastating earthquake will soon strike the NMSZ again.**

***It is understandable that this letter may be difficult to accept given the scale of this problem and the political and scientific establishment barriers that you will encounter should you take decisive action as requested. However, before you reject this message,***

***I strongly urge that you thoroughly examine our research, conclusions, and recommendations for preparing for what we expect to be a period of unparalleled geophysical lethality and destruction. I look forward to hearing of your interest on this matter.***

***Sincerely,***

***John L. Casey***

***President, Space and Science Research Corporation***

***CEO, International Earthquake and Volcano Prediction Center***

**And, if that wasn't enough, the global elitists are now preparing to move underground in what is being called, the Billionaire Bunkers...a place that only the elite can afford—lucrative bunkers designed to withstand any catastrophic event, from atomic bombs to tsunamis. [Click here to see the article on Forbes](#)**
