**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. **But all things that are reprov'd are made manifest by the light:** for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest,** and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly,** not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive **the very elect.**"

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we **are not** ignorant of his devices."

**II Chronicles 7:14:** "If **my people,** which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

**I John 4:18:** "There is **no fear** in love; but **perfect love** casteth out fear: because fear hath torment. He that feareth is not made perfect in love."

**Heb 13:6:** "So that we may boldly say, The Lord *is* my helper, and I **will not fear** what man shall do unto me."

**II Timothy 1:7:** "For God **hath not** given us the spirit of fear; but of power, and of love, and of a sound mind."

## [The Heart](#)

**Deuteronomy 10:16-18a:** "Take heed to yourselves, **that your heart be not deceived,** and ye turn aside, and serve other gods, and worship them; And then the LORD'S wrath be kindled against you, **and he shut up the heaven, that there be no rain, and that the land yield not her fruit; and lest ye perish quickly from off the good land** which the LORD giveth you. Therefore shall ye **lay up these my words in your heart and in your soul...**"

**Proverbs 18:13:** "He that answereth a matter **before he heareth it**, it is folly and shame unto him."

**Proverbs 14:12 & 16:25:** "There is a way which **seemeth right unto a man, but** the end thereof are the ways of death."

**Proverbs 28:26:** "**He that trusteth in his own heart is a fool:** but whoso walketh wisely, he shall be delivered."

**Jeremiah 17: 9 &10:** "**The heart is deceitful above all things**, and desperately wicked: who can know it? I the LORD search the heart, I try the reins, even to give every man according to his ways, and according to the fruit of his doings.

**Proverbs 18:2:** "**A fool** hath no delight in understanding, **but that his heart may discover itself.**"

**Proverbs 18:2:** "**All the ways of a man are clean in his own eyes;** but the LORD weigheth the spirits."

**Mark 7:13** "Making the word of God of none effect **through your tradition...**"

**I Corinthians 14:33** "For **God is not the author of confusion**, but of peace, as in all churches of the saints."

**Romans 3:4:** "Yea, let God be true, **but every man a liar**"

**Jeremiah 17:5:** "Thus saith the LORD; **Cursed be the man that trusteth in man, and maketh flesh his arm, and whose heart departeth from the LORD.**"

### **Military Patrols Beach in Panama City**

Kurt Nimmo | Now citizens are reporting the presence of soldiers on Florida's beaches. In the video below, several soldiers in combat fatigues were photographed driving vehicles on the beach in Panama City, Florida.

On May 4, up to 17,500 U.S. Army National Guard troops were mobilized by the Pentagon "to help various states with the oil spill," according to the Associated Press. "Defense Secretary Robert Gates has granted requests to send troops of up to 6,000 by Louisiana, 3,000 by Alabama, 2,500 by Florida and 6,000 by Mississippi."

The military pictured in the video do not appear to be engaged in clean-up activities. It appears their presence on a crowded beach during a holiday weekend has but one purpose — to acclimate citizens to the prospect of troops patrolling public spaces.

**2400 Canadian Soldiers on a 72 Hour notice for deployment to the U.S. Gulf Coast**

Contributed by CanadaFirst (Reporter)--Wednesday, July 07, 2010-- 2400 Canadian Soldiers and the 1 Combat Engineer Regiment based in Edmonton Alberta are on a 72 Hour notice for deployment to the U.S. Gulf Coast. The 1st Canadian Mechanized Brigade Group frequently train with U.S. Army units. The Canadian Engineer Regiment is often associated with the British SAS and their role in recent conflicts such as Bosnia and Afghanistan has seen them doing less reconstruction work and **more urban pacification** and counter insurgency operations.

Canada and the U.S. have signed an agreement that paves the way for the militaries from either nation to send troops across each other's borders during an emergency, but some are questioning why the Canadian government has kept silent on the deal as neither the Canadian government nor the Canadian Forces announced the new agreement, which was signed Feb. 14 in Texas.

Gen. Gene Renuart, and Canadian Lt.-Gen. Marc Dumais, head of Canada Command, signed the plan, which allows the military from one nation to support the armed forces of the other nation in a civil emergency.

[http://beforeitsnews.com/story/95/332/2400\\_Canadian\\_Soldiers\\_deployed\\_to\\_Gulf\\_Coast.html](http://beforeitsnews.com/story/95/332/2400_Canadian_Soldiers_deployed_to_Gulf_Coast.html)

**US: Felony charges, big fines for reporting within Gulf oil spill zone**

03 Jul

2010 **Anderson Cooper 360** - The Spill and Transparency - Aired July 1, 2010 (Transcript) **COOPER: We're talking about the government, a new a rule announced today backed by the force of law and the threat of fines and felony charges, a rule that will prevent reporters and photographers and anyone else from getting anywhere close to booms and oil-soaked wildlife and just about any place we need to be.** By now, you're probably familiar with cleanup crews stiff-arming the media, private security blocking cameras, ordinary workers clamming up, some not even saying who they're working for because they're afraid of losing their jobs... Well, the Coast Guard today announced new rules keeping photographers and reporters and anyone else from coming within 65 feet of any response vessel or booms out on the water or on beaches -- 65 feet... Violators could face a fine of \$40,000 and Class D felony charges.

<http://www.legitgov.org/US-Felony-charges-big-fines-reporting-within-Gulf-oil-spill-zone> & [http://www.naturalnews.com/029130\\_Gulf\\_of\\_Mexico\\_censorship.html](http://www.naturalnews.com/029130_Gulf_of_Mexico_censorship.html)

**Gulf state emergency preparedness agencies confirm mass evacuation plans**

Wayne Madsen

Report--June 28, 2010--A well-placed source in California told WMR that the California Emergency Management Agency (CEMA) has been briefed by its counterpart agencies in the Gulf coast states that there are plans to conduct a mass evacuation of millions of Gulf coast residents due to the catastrophic environmental and public health effects of the BP oil disaster.

CEMA officials have been briefed on the planned evacuations by counterparts in the Louisiana Governor's Office of Homeland Security and Emergency Preparedness, the Alabama Emergency Management Agency, the Mississippi Emergency Management Agency, and the Florida Division of Emergency Management.

The Gulf states' emergency planners stressed to their California counterparts that they are dealing with a **disaster of unprecedented proportions** and that contingency plans are being constantly updated and revised on ways to deal with the transformation of the Gulf of Mexico into a deadly "toxic soup" of oil and Corexit 9500 oil dispersants and the atmosphere into a dangerous mixture of hydrocarbon gases.

CEMA was briefed on the impending mass evacuation since California would be expected to absorb a large number of evacuees from the Gulf states. CEMA officials did not say how the state of California, which is virtually bankrupt, would pay for the influx of hundreds of thousands and perhaps greater numbers of evacuees from the Gulf coastal region.

**Censored Gulf evacuation news: Aid for Americans fleeing chemical catastrophe**

July 7, 2010 by [Alex](#)--Human Rights Examiner--Gulf Coast residents attempting to flee today's lethal "chemical rape" and further [non-consensual human experimentation](#) before forced evacuations begin need compassionate Americans' help. A group of women have launched an aid program to connect the new American refugees with helping hands of Individuals, businesses and charities across the nation.

The new non-government organization, [Help the Gulf People!](#), has launched its

website, [helpthegulf.lefora.com](http://helpthegulf.lefora.com), a portal to match incoming 'refugee' needs with incoming resources.

On June 25, Ashiya Austin created a Facebook Group in hopes of assisting people needing to leave the Gulf Coast due to the [lethal toxic chemical crisis](#), the ["BP Gulf War Syndrome."](#) Now, Louann Edwards of Louisiana, Faith Dyson, Jhenya Lovering and Angelique Collins have joined forces with Austin to help fill the widening gap of survival needs that people fleeing the Deep South have.,,,,,,

Most people find that US military and private army supported companies are using lethal chemicals to gas Americans too horrid to face. They cannot plan to leave. These are among reasons that [Intel Hub Radio's Shepard Ambellas](#) interviewed Matt Smith of [Project Gulf Impact](#) and Dr. Mark Sircus of [IMVA](#) on July 7.

[Read Entire Article, which includes a breakdown of our interview with Matt Smith from Project Gulf Impact.](#)

[Methane dead zone found just offshore "linked to oil"; Stetches entire 1500 sq. miles of sample area](#)

By oilflorida, on July 11th, 2010--Dead Zone in Gulf Linked to Oil, Discovery.com, July 9, 2010: An unusual low oxygen zone in Gulf of Mexico waters off the Alabama shore has persisted for more than a month, and evidence points to the

ongoing Deepwater Horizon oil spill as the cause. The researchers measured low oxygen levels along the entire 40-mile stretch they sampled around Dauphin Island, Ala., from about 40 miles offshore to within a mile or two of the shoreline. It's not little local pockets," said Monty Graham of the Dauphin Island Sea Lab, who is tracking the zone. "It's over a regional scale. "The low oxygen was pushing up very close to the shore," he added. ...

[T]he low-oxygen waters seem to be arriving via a tongue of cold water that has pushed up from offshore carrying elevated levels of methane, Graham said. ...

"The effects off the shelf might be longer," Graham said. "If you drive the oxygen down at 1200 meters (3600 feet), there is nothing to replace that oxygen rapidly. You might see a low oxygen signature for years, maybe even decades."

**Blowout Engineer: Relief well risks “the same type of explosion that destroyed the rig”; May drill “directly into the oil producing formation”**

“It's very unpredictable because the current condition of the well down there is unknown,” said Satish Nagarajaiah, a Rice University engineering professor who focuses on offshore structures. ...

[T]here's potential peril if BP misses its target and decides to drill deeper directly into the oil producing formation.

George Hirasaki, a Rice University professor in chemical and biomolecular engineering who was involved in the Bay Marchand oil containment effort for Shell, said engineers have to be very careful when drilling into any formation that has hydrocarbons, which poses the risk of the same type of explosion that destroyed the rig.

### [Warning To Gulf Volunteers: Almost Every Cleanup Worker From The 1989 Exxon Valdez Disaster Is Now Dead](#)

(*Business Insider*; June 30, 2010) Are you sure that you want to help clean up the oil spill in the Gulf of Mexico? [In a previous article](#) we documented a number of the health dangers from this oil spill that many scientists are warning us of, and now it has been reported on CNN that the vast majority of those who worked to clean up the 1989 Exxon Valdez oil spill in Alaska are now dead. Yes, you read that correctly. Almost all of them are dead.

In fact, the expert that CNN had on said that the life expectancy for those who worked to clean up the Exxon Valdez oil spill is only about 51 years. Considering the fact that the oil spill in the Gulf of Mexico is now many times worse than the Exxon Valdez disaster, are you sure you want to volunteer to be on a cleanup crew down there? After all, the American Dream is not to make big bucks for a few months helping BP clean up their mess and then drop dead 20 or 30 years early.

<http://www.businessinsider.com/warning-to-gulf-cleanup-workers-almost-every-crew-member-from-the-1989-exxon-valdez-disaster-is-now-dead-2010-6>

---

[Potential Health Effects of Oil Spill, KRIV Channel 26 Houston \(Fox\)](#), June 22, 2010: Dr. Harish Seethamraju is a pulmonary specialist at Methodist Hospital in Houston. He says potential problems include wheezing and asthma, but that's not all. "If they take a swim in these waters, the toxic chemicals can cause pneumonia and respiratory failure." ... "We have never seen such enormous amounts of exposure."

---

### [Toxicologists Say Corexit Invades Cells and Allows Oil to Penetrate Cells and Organ Systems](#)

Washington's Blog--July 10, 2010--As I have previously [noted](#), Corexit is toxic, is less effective than other dispersants, and is actually worsening the damage caused by the oil spill.

Now, two toxicologists are saying that Corexit is much more harmful to human health and marine life than we've been told.

Specifically Gulf toxicologist Dr. Susan Shaw – Founder and Director of the Marine Environmental Research Institute – [dove into the oil spill](#) to examine the chemicals present.

Dr. Shaw told CNN:

If I can tell you what happens — because I was in the oil — to people...

Shrimpers throwing their nets into water... [then] water from the nets splashed on his skin. ...

[He experienced a] headache that lasted 3 weeks... heart palpitations... muscle spasms... bleeding from the rectum...

And that's what that Corexit does, it ruptures red blood cells, causes internal bleeding, and liver and kidney damage. ...

This stuff is so toxic combined... not the oil or dispersants alone. ...

Very, very toxic and goes right through skin.

The reason this is so toxic is because of these solvents [from dispersant] that penetrate the skin of anything that's going through the dispersed oil takes the oil into the cells — takes the oil into the organs... and this stuff is toxic to every organ system in the body. ...

Similarly, marine biologist and toxicologist Dr. Chris Pincetich – who has an extensive background in testing the affects of chemicals on fish – says that Corexit disrupts cell membranes.

He also explains that EPA toxicity testing for Corexit is woefully inadequate, since EPA testing for mortality usually only requires a 96-hour time frame. His doctoral research found that fish that were alive at 96 hours after exposure to pesticide were dead at two weeks, so the chemicals were considered non-lethal for the purposes of the test.

Drs. Shaw and Pincetich are wildlife conservationists. But even industry scientists working for [Exxon](#) and the [manufacturer](#) of Corexit itself admit that the stuff is toxic.

[BP now using EIGHT types of chemical dispersants in Gulf](#)

**Turkey is most definitely marching down the road to complete diplomatic disengagement from Israel.**

This event is one of the most important recent indications that the final nation foretold to be marching with Russia and Iran against Israel is falling in to her prophetic positions. Turkey is continuing her anti-Israel tirade.

NEWS BRIEF: "[Turkey closes airspace to Israel](#): Threatens to cut diplomatic ties over Gaza raid", Fox News, July 5, 2010

"Turkey will sever diplomatic ties with Israel unless it apologizes over the commando raid on an aid convoy to Gaza in which nine Turks died, Foreign Minister Ahmet Davutoglu was quoted as saying Monday. 'Relations will be broken' unless Israel apologizes or accepts the conclusions of an international inquiry into the May 31 attack on the aid convoy bound for Gaza..."

We have long believed that Turkey's civilian leadership orchestrated the flotilla incident because they wanted an excuse to rile up their own people so they could complete their planned break with Israel. They needed an incident which would inflame the hearts and minds of Turkey's citizens so that the pro-west Turkish generals would not be tempted to overthrow the current radical Islamic government.

FM Davutoglu then dropped another bombshell: Turkey has closed her airspace to all Israeli military aircraft and has threatened to close her airspace to all civilian aircraft as well.

Turkey is the only nation foretold to march with Russia and Ancient Persia (Iran) against Israel in the Gog-Magog War in Ezekiel 38-39 that has not aligned herself to Russia and Iran yet. Now that Turkey is consistently moving toward a complete break with Israel, she will most likely move strongly and irretrievably into the Russian alliance.

This development means that another major prophecy is falling into place, making it quite clear that the appearance of Antichrist is drawing ever closer. Watch the development of the final 10 Kings ([NEWS2363](#)) and you can accurately gauge the nearness of the World War III designed to produce the Anti-Christ on the world scene. <http://www.cuttingedge.org/newsletters/newsalert.htm>

### **The Obama Administration continues to flash its decreasing support for Israel**

End of the Age prophecy declares that Israel will stand virtually alone in the world against her enemies. Her predicament will become so severe that the Archangel Michael will have to come to Israel's defense. (Daniel 12:1)

**NEWS BRIEF: "[US questions its unwavering support for Israel](#)", The Guardian, July 5, 2010**

This article lists several areas of extreme dispute between President Obama and PM Netanyahu:

- 1) Israel's "insistence on building Jewish settlements in East Jerusalem, which is causing a deep rift with Washington, is seen as evidence of a lack of serious interest in the establishment of a viable Palestinian state."
- 2) Israel's policies are thus seen as "fueling hostility towards the US in other parts of the Middle East and beyond, because America is perceived as Israel's shield".
- 3) "Israel's conflict & boarding of ships attempting to break the Gaza blockade has compromised relations with Turkey, an important American strategic ally."
- 4) "A former director of intelligence assessment for the US defence secretary, last month caused waves with a paper called "Israel as a 'Strategic Liability' ".
- 5) Israel's continued hold over Jerusalem is seen as jeopardizing American troops. <http://www.cuttingedge.org/newsletters/newsalert.htm>

Pope slams cardinal who exposed abuse cover-up  
June 29, 2010, *San Francisco Chronicle/Associated Press*  
<http://www.sfgate.com/cgi-bin/article.cgi?f=/c/a/2010/06/28/MNRF1E68UI.DTL>

The Vatican on [June 28] issued an **unprecedented rebuke of a top cardinal who had accused the retired Vatican second in command of blocking clerical sex abuse investigations**, publicly attacking a man who had been praised for his criticism of church abuse cover-ups. The silencing of Cardinal Christoph Schoenborn, the archbishop of Vienna and long considered a papal contender, drew heated criticism from clerical abuse victims. They said the Vatican should be honoring Schoenborn, not publicly humiliating him, for his calls for greater transparency and demands for a crackdown on priests who rape and sodomize children. Schoenborn had accused the former Vatican secretary of state, Cardinal Angelo Sodano, in April of blocking a church investigation into the late Austrian Cardinal Hans Hermann Groer, who was accused by victims in 1995 of abusing boys at a seminary. "With his words, Benedict professes concern for victims. But by his actions, Benedict shows concern for his colleagues," said David Clohessy, executive director of SNAP, the [Survivors Network of those Abused by Priests](#).

The Catholic Church faces another scandal  
June 28, 2010, *The Independent* (One of the UK's leading newspapers)  
<http://www.independent.co.uk/opinion/faith/made-in-his-own-image...>

It emerged in April that Cardinal Dario Hoyos, a Colombian who for 10 years was in charge of the Vatican department that supervises the clergy, wrote in 2001 with gushing approval to the Bishop of Bayeux, **who went to jail rather than give French authorities information about a priest who had raped a minor**. "I congratulate you for not turning in a priest to the civil administration," he wrote. I am delighted to have a colleague ... who ... has preferred prison to turning in a fellow priest. The Vatican confirmed the authenticity of the letter, which had been posted on a French website. For more on sex crimes and the Vatican, [click here](#).

[Isa 5:20](#) Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness; that put bitter for sweet, and sweet for bitter!

Top Catholic Priest Accused of Sexually Abusing His Own Sons  
June 21, 2010, ABC News  
<http://abcnews.go.com/Blotter/top-vatican-priest-accused-sexually-abusing-sons/story?id=10968647>

A prominent Catholic priest, **praised by Pope John Paul II as "an efficacious guide to youth,"** Father Marcial Maciel, **sexually abused not only young seminarians under his control but also abused his own children,** according to a lawsuit filed today in Connecticut by a man who claims to be Maciel's son. The priest's son, Raul Gonzalez, 30, says he thought his father worked for the CIA or an international oil company, until he saw the priest's picture in a 1997 magazine article detailing allegations of sexual abuse. Under Father Maciel, the Legion of Christ became one of the Roman Catholic Church's **most prominent, conservative and financially successful orders.** Among its many supporters is Mexican billionaire Carlos Slim. **[The] Vatican ignored reports of sexual abuse by Maciel since the 1950s, until he was forced out of the Legion by Pope Benedict XVI in 2006.** Citing his age, the Vatican Congregation for the Doctrine of the Faith declined to put Maciel on trial **but he was ordered to a "life of prayer and penitence."** [A] lawsuit filed by Maciel's alleged son claims the Vatican and the presiding Pope from the 1950's until 2002 "engaged in a conspiracy to conceal their knowledge of Maciel's serial crimes, including the repeated sexual abuse of children." **The lawsuit claims Maciel "gained influence and protection from the Vatican through giving substantial monies to Vatican officials" and providing other benefits and gifts.**

### **[CFL's Soon, You Won't Have A Choice](#)**

By J. Speer-Williams--7-5-10--The US government's "Green Revolution" is another covert attack on our collective health, wealth, and environment, largely using their mythical peak oil and man-made global warming hoaxes to do so.

The Dairy Queen ice cream cone looking Compact Fluorescent Light (CFL) bulbs are a perfect example of this kind of subterfuge. These CFL have become the symbol of the government's Green Movement, but they should be using the skull and crossbones symbol instead.

These new light bulbs are not a bright idea

While claiming these new CFL bulbs will reduce carbon emissions, "our" Congress passed legislation stating these new light bulbs must completely replace our everyday incandescent light bulbs by 2014, without telling us of the serious dangers to health and environment, that these mandated bulbs pose.

These new CFLs will make many people sick, by emitting radio frequency radiation that contributes to dirty electricity, that can cause migraines, dizziness, nausea, confusion, fatigue, skin irritations, and eye strain.

Dirty electricity consists of surges of high frequency voltage and electromagnetic radiation that grossly contaminates our otherwise relatively safe 60 Hz-frequencies, and can even cause numerous serious illnesses, including autism, asthma, diabetes, chronic fatigue syndrome, and other neurological disorders.

And with 25 to 50 of these CFLs through out your home and office, you'd be exposed to dirty electricity for almost your every waking hour.

But far more importantly, CFLs are loaded with deadly mercury, one of the most toxic elements on Earth. In fact, all CFL bulbs contain - at least - four to five milligrams of mercury, about 200 times the amount of mercury in a flu vaccine shot. There is enough mercury in each CFL bulb to contaminate 6,000 gallons of clean water. To break one of these CFL bulbs is to risk ruining the health of one's entire family, or office staff, with enough released atmospheric mercury to best require the expensive, professional services of a Haz/Mat Removal Team.

## [11 Ways We Are Being Tracked, Traced, and Databased](#)

[Activist Post](#)--July 10, 2010--The war on terror is a worldwide endeavor that has spurred massive investment into the global surveillance industry – which now seems to becoming a war on “liberty and privacy.” Given all of the new monitoring technology being implemented, the uproar over warrantless wiretaps now seems moot. High-tech, first-world countries are being [tracked, traced, and databased](#), literally around every corner. Governments, aided by private companies, are gathering a mountain of information on average citizens who so far seem willing to trade liberty for supposed security. Here are just some of the ways the matrix of data is being collected:

### GPS

Global positioning chips are now appearing in everything from [U.S. passports](#), cell phones, to cars. More common uses include [tracking employees](#), and for all forms of [private investigation](#). Apple recently announced they are collecting the [precise location](#) of iPhone users via GPS for public viewing in addition to [spying on users](#) in other ways.

## Internet

Internet browsers are recording your every move forming detailed cookies on your activities. The NSA has been exposed as having cookies on their site that don't expire until 2035. Major search engines know where you surfed last summer, and online purchases are databased, supposedly for advertising and customer service uses. IP addresses are collected and even made public. Controversial websites can be flagged internally by government sites, as well as re-routing all traffic to block sites the government wants to censor. It has now been fully admitted that social networks provide NO privacy to users while technologies advance for real-time social network monitoring. The Cybersecurity Act attempts to legalize the collection and exploitation of your personal information. Apple's iPhone also has browsing data recorded and stored. All of this despite the overwhelming opposition to cybersurveillance by citizens.

*Ixquick is the world's most powerful search engine employing the most advanced metasearch technology.*

*Ixquick search results are more comprehensive and more accurate than other search engines. Ixquick's unique capabilities include a Universal Power Search, a global search and power refinement.*

*Ixquick search engine protects your Privacy! Ixquick does NOT record your IP address!*

*Read more on our Privacy position or go directly to Ixquick's Privacy policy.*

## RFID

Forget your credit cards which are meticulously tracked, or the membership cards for things so insignificant as movie rentals which require your SSN. Everyone has Costco, CVS, grocery-chain cards, and a wallet or purse full of many more. RFID "proximity cards" take tracking to a new level in uses ranging from loyalty cards, student ID, physical access, and computer network access. Latest developments include an RFID powder developed by Hitachi, for which the multitude of uses are endless — perhaps including tracking hard currency so we can't even keep cash undetected.

## Traffic cameras

License plate recognition has been used to remotely automate duties of the traffic police in the United States, but have been proven to have dual use in England such as to mark activists under the Terrorism Act. Perhaps the most common

use will be to raise money and shore up budget deficits via traffic violations, but uses may descend to such “Big Brother” tactics as monitors telling pedestrians not to litter.

*Partial Solution:* <http://phantomplate.com/>

## Computer cameras and microphones

The fact that laptops — contributed by taxpayers — spied on public school children (at home) is outrageous. Years ago Google began officially to use computer “audio fingerprinting” for advertising uses. They have admitted to working with the NSA, the premier surveillance network in the world. Private communications companies already have been exposed routing communications to the NSA. Now, keyword tools — typed and spoken — link to the global security matrix.

## Public sound surveillance

This technology has come a long way from only being able to detect gunshots in public areas, to now listening in to whispers for dangerous “keywords.” This technology has been launched in Europe to “monitor conversations” to detect “verbal aggression” in public places. Sound Intelligence is the manufacturer of technology to analyze speech, and their website touts how it can easily be integrated into other systems.

## Biometrics

The most popular biometric authentication scheme employed for the last few years has been Iris Recognition. The main applications are entry control, ATMs and Government programs. Recently, network companies and governments have utilized biometric authentication including fingerprint analysis, iris recognition, voice recognition, or combinations of these for use in National identification cards.

## DNA

Blood from babies has been taken for all people under the age of 38. In England, DNA was sent to secret databases from routine heel prick tests. Several reports have revealed covert Pentagon databases of DNA for “terrorists” and now DNA from all American citizens is databased. Digital DNA is now being used as well to combat hackers.

## Microchips

Microsoft's HealthVault and [VeriMed](#) partnership is to create RFID implantable microchips. Microchips for [tracking our pets](#) is becoming commonplace and serves to condition us to accept putting them in our children in the future. The [FDA has already approved](#) this technology for humans and is marketing it as a medical miracle, again for our safety.

### Facial recognition

Anonymity in public is over. Admittedly used at Obama's campaign events, [sporting events](#), and most recently at the [G8/G20 protests](#) in Canada. This technology is also harvesting data from [Facebook](#) images and surely will be tied into the street "traffic" cameras.

### Cell phones

Through cell phone towers your phone position can be triangulated to within mere yards of your location. Plus your microphone can be turned on to spy on your conversation, not to mention your camera (if your phone is so equipped).

**Partial Solution:** <http://www.idstronghold.com/Cell-Phone-Shielded-Bags/products/8/>

All of this is leading to *Predictive Behavior Technology* — It is not enough to have logged and charted where we have been; the surveillance state wants to know where we are going through psychological profiling. It's been marketed for such uses as [blocking hackers](#). Things seem to have advanced to a point where a truly [scientific Orwellian world](#) is at hand. It is estimated that computers know to a 93% accuracy where you will be, before you make your first move. Nanotech is slated to play a big role in going even further as scientists are using nanoparticles to directly [influence behavior and decision making](#).

Many of us are asking: What would someone do with all of this information to keep us tracked, traced, and databased? It seems the designers have no regard for the right to privacy and desire to become the [Controllers of us all](#).
