AMERICA TAKES IRAN'S SIDE... Most sanctions to be lifted, Iran permitted to continue aspects of nuclear program, missile development

Iran and world powers on Tuesday announced they had sealed a final nuclear deal with Tehran that will lift most economic sanctions on the country and permit it to continue many of the most controversial aspects of its nuclear program, as well as its missile development, according to initial text of the agreement and statements by diplomats.

The agreement, which was finalized in Vienna, would lift international sanctions on Iran and permit it to continue key elements of its nuclear work, as well as research and development.

Iran will be permitted to continue spinning centrifuges, which are used to enrich uranium, the key component in a nuclear weapon. Western powers will also work with Iran to help it install and operate more advanced centrifuges, according to those apprised of the deal.

This concession—as well as a range of others made by the United States—has rattled analysts and lawmakers, who have maintained that Iran should not be permitted to retain the core aspects of a nuclear program.

Sanctions also will be lifted on Iran, including those on the country's banks and financial sectors, which have long supported Iran's nuclear program as well as its sponsorship of international terrorist groups.

In one of the most controversial concessions made by the Obama administration, a United Nations embargo on arms will also be lifted within around five years as part of the deal, according to multiple reports. A similar embargo on the

construction of ballistic missiles, which could carry a nuclear payload, also will expire in around eight years under the deal.

Initial readings of the deal also indicate that Iran will be given the right to veto so-called “anywhere, anytime” inspections of Iranian nuclear sites. This concession has caused concern that Tehran will be able to continue hiding its nuclear work and potentially continue in secret along the pathway to a bomb.

Iran also will be permitted for a time to keep its military sites off limits to inspectors, who have long been unable to confirm the past dimensions and scope of Iran’s nuclear weapons work.

New resolutions by the U.N. Security Council will solidify most key aspects of the deal.

OBAMA WARNS CONGRESS: HANDS OFF NUKE DEAL...

“I will veto any legislation that prevents the successful implementation of this deal,” Obama said Tuesday. “This is not the time for politics or posturing. Tough talk from Washington does not solve problems.” It would take two-thirds of both the House and the Senate to override such a veto.

Deal Leaves Behind 3 Americans Cruelly Imprisoned in Iran

The wife of Iranian-American Pastor Saeed Abedini, who has been held in an Iranian prison since 2012, said that no deal should have been signed until Iran agreed to release the American citizens being held in Iran.

Far from the pronouncement by U.S. President Barack Obama, **that insisting on the Americans’ release would have weakened the hand of the U.S. in negotiations, making a deal contingent on their release could have easily been incorporated into any agreement.**

Three Americans who are being held on dubious and falsified charges and who are suffering severe health issues could certainly have been released in a “magnanimous” humanitarian gesture by the Islamic republic.

Abedini, 35, was arrested in Iran while setting up an orphanage for children. Although he is now an American citizen, he travelled frequently to his native country to visit family and help the country’s citizens. He was charged with undermining state security and received an eight-year prison term.

His family reports he has been beaten severely and now suffers from life-threatening injuries for which he is not receiving adequate medical treatment

NETANYAHU: 'Historic Mistake for World'...

JERUSALEM — Israeli leaders across the political spectrum condemned in stark apocalyptic language the Iranian nuclear pact announced by the United States and world powers Tuesday, calling it a historic mistake that frees Iran to sponsor global terrorism while assembling the expertise to build a nuclear bomb.

“Iran is going to receive a sure path to nuclear weapons,” Prime Minister Benjamin Netanyahu said. “Many of the restrictions that were supposed to prevent it from getting there will be lifted.”

With the removal of economic sanctions, Netanyahu warned, “Iran will get a jackpot, a cash bonanza of hundreds of billions of dollars, which will enable it to continue to pursue its aggression and terror.”

Netanyahu's hard-line coalition partner, Education Minister Naftali Bennett, added: "Today a terrorist nuclear superpower is born, and it will go down as one of the darkest days in world history."

ISRAEL 'NOT BOUND', WILL DEFEND ITSELF...

JERUSALEM (AP) -- Israeli Prime Minister Benjamin Netanyahu stepped up his criticism Wednesday of the U.S.-led nuclear deal with Iran, warning that Israel has a "great and mighty" strength to defend itself.

Netanyahu's war of words came as his political rival, Isaac Herzog, announced he would go to the U.S. to lobby for a compensation package to insure Israel's military advantage in the region.

Herzog's trip reflects the broad opposition to the deal in Israel, where most politicians fear the deal will fail to stop Iran from developing nuclear weapons while strengthening the Islamic Republic's support for Israel's staunchest enemies.

Addressing parliament, Netanyahu reiterated that Israel was not bound by the deal and said Israel would continue to oppose it.

++ "All the more so, we will reserve our right to defend ourselves against all of our enemies," he said. "We have strength, and it is great and mighty."

Despite Netanyahu's tough rhetoric, Israel's options appear limited, given the wide international support for Tuesday's agreement.

"I think you have given up everything," Dermer said. "Yesterday Iran had an illegal nuclear program and was facing a head wind of sanctions. "And during this deal, Iran will be able to continue to do research and development on advanced centrifuges and to develop their intercontinental ballistic missiles:

"Those ICBMs are for you," Dermer said.

Obama Honors Islam Before Dead Marines Killed by Islamic Terrorist; Americans Furious

President Obama issued a statement yesterday urging Americans to respect the religion of Islam before he even commented on a terror attack by an Islamic extremist in Chattanooga which killed four Marines, prompting widespread anger. The White House tweeted out a statement wishing Muslims “Eid Mubarak!” as Ramadan came to a close, adding that, “the holiday is a reminder to every American of the importance of respecting those of all faiths and beliefs.”

The statement was tweeted hours after the Chattanooga shooting and after it had been established that the culprit was 24-year-old Mohammad Youssef Abdulazeed, a Kuwaiti Muslim whose [blog revealed](#) that Islam played a central role in his ideology.

It was only after Obama had lectured Americans about respecting Islam that he paid tribute to the four dead Marines killed by an Islamic terrorist.

[Obama removes Iran and Hezbollah from terror list; crickets from Congress](#)

The mask is coming off faster and faster and you are seeing the true face of Barack Obama. It is the form of a prostrated believer who kneels before Islam, loves terrorists and bows before the Mullahs of Iran. It is also the face of hatred towards Israel. He is the two-faced visage of Evil & Chaos and he abhors America and will do all he can to bring her to her knees and render her to her enemies. He not only declared that the Taliban were not terrorists, he has now taken Iran and Hezbollah off the terrorist list. This was undoubtedly at the behest of Iran during the nuclear talks. Hezbollah is their proxy child of hate. Not only will Obama give everything to Iran that they want including nukes, he will claim they are the anointed ones, while branding America and Israel the true enemies. His preface will be death to the Great and Little Satan.

From FrontPage Mag:.

You know the country responsible for killing hundreds of marines, which provided sanctuary to Al Qaeda and whose terrorist proxies helped give Al Qaeda the skills to carry out terrorist attacks?

They're no longer terrorists. Sure their terrorist groups currently control parts of Lebanon and Yemen, but they're not terrorists. Because if Iran was a state

sponsor of terror, then Obama letting them have the bomb might look bad. This way it's fine.

An annual report delivered recently to the US Senate by James Clapper, the director of National Intelligence, removed Iran and Hezbollah from its list of terrorism threats, after years in which they featured in similar reports

In describing Iran's regional role, the report noted the Islamic Republic's "intentions to dampen sectarianism, build responsive partners, and deescalate tensions with Saudi Arabia,"....

The only time the report mentions Hezbollah is when describing it as a victim of attacks.

Marine Sergeant to Islamic State: You Will Learn Soon Enough of the Brotherhood of Marines

In the wake of Thursday's jihad attack on a military recruiting center in Chattanooga, Tennessee that left four United States Marines dead, **one Marine says he has had enough and has gone to social media to inform the Islamic State, "You wanted attention, and yesterday, you got it. "You did not get the attention of our weak President," Knauff wrote. "He tweeted his support for your medieval holiday following your cowardly attack. You did not get the attention of our useless and corrupt Congress. They were too busy lining their pockets."

“When you attacked those four Marines, you got the attention of every one of our 186,800 active duty Marines, along with every Marine who ever served,” he continued. “You just stirred up hate, discontent, and malice within a group of people who relish the idea of engaging the enemy.”

Knauff, who manages [Spartan Media](#), then wrote:

There is something you obviously don't yet know about Marines...

The brotherhood we share is stronger than the challenges we face, the weapons we master, or the enemies we destroy.

In pointing out the current Rules of Engagement per the Obama administration, which has gotten many of our military killed, Knauff says that isn't the way it will work when Islamists come to America.

“You see, we won't play by the rules you're accustomed to seeing,” he wrote.

While [authorities are still officially saying that there was no ISIS tie to this shooting](#), what we learn from Shoebat is quite different. Telling us that the shooter's real name is Mohammad Youssuf Saeed Al-Hajjaj, we also learn that it's quite common for those engaged in terrorist activities to change their names.

As was [recently reported on ANP](#), [our govt is allowing the importation of terrorists into America, potentially by the hundreds of thousands, and as we learn in this 2nd story from Shoebat, it's now been revealed that a major ISIS-style mess has infiltrated the United States.](#)

With obvious acts of grey terror taking place now across America such as the [cut fiber optic lines in California](#) and [planned power outages as Jade Helm 15 began](#), how long will it be until Hawk's warnings in the 2nd video come true? As the infographic below clearly proves, America has ALREADY been infiltrated. We pray for the safety of all Americans, particularly the men and women in uniform who serve our nation selflessly. Telling us that when it all finally comes crashing down, it will likely happen all at once,

Hawk warns we are likely now in the 'overture'. What is the 'overture'? From Russian history and Victor Suverov.:

There are explosions practically every day in... The main targets are the government districts, communication centres and military headquarters. At the same time terrible forest fires are raging.

All these operations - because of course none of these events is an accident - and others like them are known officially in the GRU as the 'preparatory period', and unofficially as the 'overture'. The overture is a series of large and small operations the purpose of which is, before actual military operations begin, to

weaken the enemy's morale, create an atmosphere of general suspicion, fear and uncertainty, and divert the attention of the enemy's armies and police forces to a huge number of different targets, each of which may be the object of the next attack.

The overture is carried out by agents of the secret services of the Soviet satellite countries and by

mercenaries recruited by intermediaries. The principal method employed at this stage is 'grey terror', that is, a kind of terror which is not conducted in the name of the Soviet Union. The Soviet secret services do not at this stage leave their visiting cards, or leave other people's cards. The terror is carried out in the name of already existing extremist groups not connected in any way with the Soviet Union, or in the name of fictitious organisations.

The GRU reckons that in this period its operations should be regarded as natural disasters, actions by forces beyond human control, mistakes committed by people, or as terrorist acts by organisations not connected with the Soviet Union. The terrorist acts carried out in the course of the 'overture' require very few people, very few weapons and little equipment. In some cases all that may be needed is one man who has as a weapon nothing more than a screwdriver, a box of matches or a glass ampoule. Some of the operations can have catastrophic consequences. For example, an epidemic of an infectious disease at seven of the most important naval bases in the West could have the effect of halving the combined naval might of the Soviet Union's enemies.

The 'overture' could last from several weeks to several months, gradually gathering force and embracing fresh regions.

CONCEALED CARRY PERMITS SKYROCKET, WHILE CRIME PLUMMETS – STUDY SHOWS MORE GUNS = LESS CRIME While the number of Americans carrying firearms has soared, murder rates have fallen by a full 25%

According to a recent study by the Crime Prevention Research Center, the election of Barack Obama may have played a significant part in reducing crime in the U.S. – but not in a way he is likely to brag about. In short, the election of Obama, a very vocal advocate of "gun control, has persuaded more and more

Americans that they should keep and bear arms themselves. And that has, in turn, led to significantly lower crime rates.

Each year from 1999 to 2007, a little under a quarter of a million new permits were issued to Americans, allowing them to legally carry concealed firearms. In the four years after that, during Obama's first term, the rate of new permits being issued *more than tripled*, and has continued to grow since then. In 2007, about 4.6 million Americans already had concealed-carry permits. Now that number is over 12.8 million, with more new permits being issued to women and minorities than to white males.

That's a lot of average citizens carrying guns, and these numbers don't even include those who live in the eight states where one can legally carry a concealed firearm without a permit.

Meanwhile, gun sales have continued to rise since Obama took office. Around 14 million guns were purchased in the U.S. between 2008 and 2011 and over 20 million were purchased between 2012 and 2013 – around five million of those being sold to first-time gun buyers.

So what has been the effect on crime? Advocates of gun control have long insisted that arming average citizens would lead to bloody mayhem and chaos in the streets. However, while the number of Americans carrying firearms has soared, murder rates have fallen by a full 25%, from 5.6 down to 4.2 per 100,000 people, according to the Crime Prevention Research Center study.

As Larry Keene, senior vice president of the National Shooting Sports Foundation, says,

“It puts the lie to the myth promulgated by anti-gun individuals that somehow more law-abiding citizens carrying guns will lead to more crime.”

by [sharia unveiled](#)

Although, more than 100,000 visas have already been granted to Muslims this year

[Christian Headlines](#)

The U.S. State Department reportedly sent a message to Assyrian Christians that their faith would not be a reason to grant them visas. [Breaking Christian News reports](#) a reverend who was trying to help a group of Assyrian Christians escape the constant danger of Iraq was told that the Christians would not be given the visa, though they had received permission to leave from their bishop.

The State Department reportedly told Rt. Rev. Julian M. Dobbs, "There is no way that Christians will be supported because of their religious affiliation."

The news is troubling to Christian leaders, as religious minorities in Iraq are at risk of persecution since ISIS took control of parts of the nation, including the city of Mosul.

Archbishop Bashar Warda of Erbil said, "Christianity in Iraq is going through one of its worst and hardest stages of its long history, which dates back to the first century. Throughout all these long centuries, we have experienced many hardships and persecutions, offering caravans of martyrs. Yet 2014 brought the worst acts of genocide against us in our history."

Faith J.H. McDonnell lamented the situation at the State Department saying, "The State Department, the wider administration, some in Congress and much of the media and other liberal elites insist that Christians cannot be given preferential treatment. Even within the churches, some Christians are so afraid of appearing

to give preferential treatment to their fellow Christians that they are reluctant to plead the case of their Iraqi and Syrian brothers and sisters."

THE OBAMA WELFARE PLAN--Why Get Married?

Some people really know how to play the system.

THE OBAMA WELFARE PLAN

For a guy and his girlfriend with two kids

Follow these proven steps:

1. Don't get married to her.
2. Always use your mom's address to get mail.
3. The guy buys a house.
4. Guy rents out house to his girlfriend who has 2 of his kids.
5. Section 8 will pay \$900 a month for a 3 bedroom home.
6. Girlfriend signs up for Obamacare so guy doesn't have to pay for family insurance.
7. Girlfriend gets to go to college for free being a single mother
8. Girlfriend gets \$600 a month for food stamps
9. Girlfriend gets free cell phone
10. Girlfriend gets free utilities.
11. Guy moves into home, but continues to use mom's house to get/have-sent mail.
12. Girlfriend claims one kid; guy claims one kid on taxes. Now you both get to claim head of household at \$1800 credit.
13. Girlfriend gets disability for being "crazy" or having a "bad back" at \$1800 a month and never has to work again.

This plan is perfectly legal and is being used now by — millions of people

Here is the bottom line regarding this scenario.....

A married couple with a stay-at-home-mom nets \$0 dollars in this scenario

But, an unmarried couple in this underhanded scenario with a stay-at-home-mom nets:

\$21,600 disability +
10,800 free housing +
6,000 free obamacare +
6,000 free food +
4,800 free utilities +
6,000 pell grant money to spend +
12,000 a year in college tuition free from pell grant +
8,800 tax benefit for being a single mother

Totaling \$75,000 a year in benefits

This may be why the country is \$18+ trillion in debt & illegal aliens are pouring over the border! Evil is encouraged and rewarded!!!

And one need not even guess how these people vote . . .

Major Red List Alert! SPEC-OP Power Center Operation To Begin - By The Time Your Power And Phone Lines Go Out It Is Too Late

By Susan Duclos - [All News PipeLine](#)

A very disturbing alert has gone out about "planned power outages" being initiated on the California- Nevada border in the "Ant Hill and Tejon Ranch" area where SPEC-OPS are conducting operations on land owned by a power company under false pretenses, from July 15 - 20th, 2015.

The original alert sent over to [Steve Quayle](#) will be shown below, followed by Quayle's

MAJOR RED LIST warning.

On the nights of **July 15 – 20 Spec ops will be conducting operations at a major power center in the mountains between California and Nevada -They will supposedly be practicing surveillance techniques, defensive operations, and even sabotage operations of power stations. This will be SPEC -OPS, conducting operations on land owned by a power company under false pretenses.** I say false pretenses because observers knows for a fact that the **military leadership has not told the power company that owns the facility that this operation is running in conjunction with a bigger overall national drill.** 'If they are doing this secretly in this one area that is not shown as Hostile in Jade Helm map, what are they doing all over the country'? One source told me when the lights go out intentionally so do we!

Via Quayle:

MAJOR RED LIST ALERT -DONT BE IN YOUR NORMAL AREAS AND ASSUME

YOU ARE ALREADY UNDER OBSERVATION AND HAVE BEEN FOR SOME TIME- THERE WILL BE NO CHANCE ENCOUNTERS! GO BACK AND READ THE GUIDELINES FOR JADE HELM, TELLING LOCAL LAW ENFORCEMENT OFFICERS NOT TO RESPOND TO 911 CALLS AT NIGHT-IF YOUR POWER AND PHONE LINES GO OUT-YOU WILL HAVE NO MORE NEED FOR ALERTS-MY PRAYER IS FOR THE LIVING GOD TO INTERVENE IN A SUPERNATURAL AND MIGHTY SHOW OF HIS ANSWER TO THE PRAYERS OF HIS PEOPLE AND CONFOUND ALL THEIR PLANS!

The original leaked Jade Helm Document, [uploaded to SCRIBD](#) and published first by [All News PipeLine on March 13, 2015](#), and embedded below, shows on Page 9, sub-category "What To Expect," as "Increased aircraft in the area at night," and warns that there will "noise complaints." It specifically mention that "Local LEOS are fully aware of the exercise."

Meaning, **they are expecting complaints and to ignore them because "it is all part of the exercise."** Read the entire document for yourself below: (Article continues below the embedded document)

[Jade Helm Martial Law WW3 Prep Document 1](#) by [All News Pipeline](#)

People on the much talked about "red list" are those that that will not comply with a nationwide lockdown or martial law, including constitutionalists, preppers, veterans, Christians, survivalists and many more, and many believe the red list is composed of those slated for elimination during the implementation of the New World Order.

After a [series of events, reported on July 8, 2015](#), including "a very strange day that saw the New York Stock Exchange, United Airlines and the Wall Street Journal all suffering what have been termed 'technical glitches' and "a power outage in DC, a SNAP EBT card snafu and a huge portion of the NY Subway system being shut down in another technical glitch," there seems to be some major preparation or what some might call "beta testing" being carried out across the country ahead of [Jade Helm 15](#), which is scheduled to begin, coincidentally, on July 15, 2015..... the same day the alert says the planned power outages are set for the power centers on the California-Nevada border.

Bottom Line here: By the time your power and phone lines go out, it is going to be too late. So prepare now, just in case.

As we say often, better to be prepared and find you do not need it, than to need it and not be prepared.

Churches using facial recognition & shares with DHS

Hi Scott, Don't know why I was shocked at this...since I already knew about FEMA pastors, but I was.

The excerpt if from this web page: <http://www.infowars.com/jade-helm-terrorist-attacks-surveillance-other-fairy-tales-for-a-gullible-nation/>

DHS is also working to infiltrate churches across the country to establish a Christian Emergency Network, carry out emergency training exercises to prevent and prepare for disasters (active shooter drills and natural disaster preparedness), and foster two-way information sharing, while at the same time instituting a media blackout of their activities. As the DHS continues to establish itself within churches, a growing number of churches are adopting facial

recognition systems to survey their congregations, identify and track who attends their events, and target individuals for financial contributions or further monitoring. As the partnership between churches and the DHS grows, their facial recognition databases may be shared with the federal government, if that is not already happening.

5th holistic doctor (age 33) died in Florida making 5 dead and 5 more missing

July 14, 2015 by [Erin Elizabeth](#)

I read about **Dr. Baron Holt DC** not long after he died less than a month ago near me here on the East Coast of Florida. Father's day June 21st. Dr. Holt was coincidentally found the very same day that Dr. Bruce Hedendal (also a DC found here on the E Coast of Florida) was found slumped over in his car. Like Holt, Dr. Hedendal was also extremely fit. Dr Hedendal been doing an athletic event earlier in the day before he died. Dr. Baron Holt's obituary says he had a 3 year old child. Again, both Fathers were found dead on Father's day. **These two chiropractors who tragically died the same day in the same state, come 2 days after the death of Dr. Bradstreet MD who was found in a river in North Carolina with a gunshot wound to his chest.** Previously

Dr. Bradstreet had lived and practiced here on the East Coast of Florida as well. I hesitated covering Dr. Holt's story as I had no information and didn't feel comfortable as there were no recent articles I could reference.

Now there is.

From this glowing [article](#) just out a mere 48 hours ago which refers to Dr. Holt as a faithful healer: His unexpected death last month while on a trip to Jacksonville, Fla. has been a blow to his family and the community he'd created through his work. Though he had been struggling with recent health issues, **none were thought to be life threatening by loved ones.** His family is awaiting the results from an autopsy report. I had searched before for any information but saw no statement from the family. Now that I see this article states **his family felt he had no health challenge that was life threatening and was a mere 33 years old.**

The article goes on to say

Holt's practice, Revolution Chiropractic, had just celebrated its fifth anniversary this year. **Highly fit at 33, he was deeply connected to his Christian faith, and his career...was booming.**

Holt took a holistic approach to treatment; he and his staff taught classes on nutrition, exercise, even aromatherapy.

In 2012, he traveled to London to work with the U.S. Olympic team, and saw about 500 patients in his practice each week, said Brigitte Spurgeon, friend and Revolution Chiropractic clinical director.

When I read that he was "highly fit" well accomplished, even traveling to London to work with the Olympic team and already emerging as a prominent natural chiropractor, I feel that it's my duty to report on his sad untimely death whatever the cause.

Again, our hearts go out to his family, friends and loved ones and we hope they get to the bottom of this whatever the cause may be. Just to give you a timeline I'm going to write it out as follows:

#1 June 19th— [Dr Bradstreet, formerly of Florida, now practicing in Georgia was found with a gunshot wound to his chest in a river.](#) **The small town locals ruled the death almost immediately as a suicide but many have their doubts. This same day in Mexico- June 19th (the only case outside the US) 3 doctors were traveling to the State Capital to deliver some papers (we don't know what they contained) They were reported missing that day. Authorities said they found the bodies, but the family says those bodies look nothing like their family members.** [A sad but riveting article was written about those details here.](#) See:

CHILPANCINGO, Mexico — When Rigoberto Hernandez stepped into the morgue, in late June, to identify his recently abducted son—he knew right away there had been a mistake. “It wasn’t him,” Hernandez told The Daily Beast during a recent demonstration outside the state capitol building to protest the government’s [handling of the case.](#) “I raised him from a baby, so I ought to know. The body presented [by the government] didn’t look anything like my boy.” The Hernandez family joined about 50 doctors and nurses at the July 2 demonstration, braving the desert heat. The protesters chanted and waved signs outside the locked gates of city hall, demanding “Due process!” and “Security for health-care workers!” “Our family said we couldn’t accept a body that wasn’t ours,” Hernandez explained. **“But the DA declared my son dead anyway.”** **His son Marvin vanished June 19 while traveling with three other medical professionals along a remote stretch of highway in Mexico’s southwest Guerrero state.** The local prosecutor’s office has since come under [intense criticism](#) for allegedly mismanaging the investigation, especially for **its insistence on claiming the victims are deceased without presenting credible evidence.** **“They told our families we couldn’t talk to the press. That we shouldn’t tell anybody about what happened at the morgue. But we can’t be silent any longer,”** Hernandez said. Guerrero is home to Mexico’s [highest murder rate](#)—and **it’s also where 43 student teachers disappeared last fall, near the small town of Iguala.** The precise motives for the killings were difficult to determine, but the students come from a school that has been training rural teachers—and activists—for the better part of a century. *Their commitment to helping small farmers and farm workers in the rugged, semi-feudal countryside often has put them at odds with the local powers that be. And when you add to that the cozy relationship that exists today between some of those powers and narcotics traffickers, the situation is explosive. In the Iguala case, the [mayor and local police chief were eventually accused of colluding with organized crime to do away with the students](#)—a scandal that [shook the nation to its core.](#) Now, in the wake of the Hernandez party’s apparent abduction—and fresh charges of skulduggery in the case—another high-profile kidnapping once again [threatens](#) the government’s credibility.*

Two other medical workers and a lawyer from Petatlán Community Hospital who were in the car with Marvin Hernandez were reported missing the same day. The four were en route to Acapulco on hospital business at the time of their disappearance. None have been seen since.

Police found their vehicle the next afternoon near the resort town of Xolapa—riddled with bullets from an AR-15 assault rifle, the tires shot out, and the car seats covered with blood.

#2 June 21st— **We have two chiropractors both in Florida, both on the East Coast both presumably healthy and both described as very fit both found dead.** We still have no cause of death in the articles we can find on either one. A few people have contacted me about Dr. Hedendal & admit that they were surprised by his death and still find it shocking he died. Interestingly Dr. Holt lived in North Carolina which is the state Dr. Bradstreet's body (see #1 story above) was found 2 days prior. Though Dr. Bradstreet now lived in Georgia and before that neighboring state Florida.

#3 June 26th, **Dr. Patrick Fitzpatrick MD goes missing.** He was traveling from North Dakota to neighboring Montana (which he did often as his son lived in Montana) and his truck and trailer were found on the side of the road. Searches have expanded, but authorities say it's like he vanished without a trace. He's 6' tall, described as Irish and details can be found on the links.

#4 June 29th— **The beloved holistic Theresa Sievers MD was found murdered** in her home. Her co worker says she was known as the "Mother Teresa of South Florida. Her husband and children were in Connecticut at a family reunion. The authorities have been investigating for two weeks "around the clock" and now say that it was targeted, not random, not a home invasion, and when the facts come out "books and movies will be written about it" it's that huge of a story. **On this very same day, June 29th, Jeffrey Whiteside MD a pulmonologist went missing, vanishing when he simply "walked away"**

Dr Whiteside, known for his successful treatment of lung cancer, disappeared in Door County Wisconsin while vacationing with family. They say he was on foot and had no vehicle and numerous reports call it "mysterious" saying he too vanished without a trace. They've been searching now 2 weeks and even colleagues have joined in (along with many bloodhounds, drones search parties and helicopters) but not a shred of evidence in 2 weeks.

#5 July 10th— **Lisa Riley DO (Doctor of Osteopathic medicine) is found in her home with a gunshot wound to her head.** Lisa Riley DO (Doctor of Osteopathic), from Lee County Georgia, was found dead with a gunshot wound to her head. She was an emergency room physician at Phoebe Putney Memorial Hospital in the state of Georgia. She was only 34. Besides being an Osteopath, I have no idea if she had any holistic or "alternative" training or beliefs - See more at: <http://www.healthnutnews.com/breaking-4th-doctor-an-md-found-dead-gunshot-wound-to-head/#sthash.cLmpXwp4.dpuf>

Who's Killing Off Our Naturopathic Doctors? I'll Let You Guess

by Dave Hodges | July 12, 2015 2:16 am

Naturopathic doctors are dropping like flies.

Death is part of life. It happens everyday, everywhere, in every manner. Multiple deaths of people associated with the same line of work is generally not enough to raise alarm bells in my book. **But when you see cluster deaths in high level professions or those in a field of work that bucks the system, challenge the status quo or threaten the fat cats of billion dollar corporations, then you may want to sit up and take notice.**

Conspiracies, coincidences? Take note of these, now **dead, prominent scientists** and some of the controversial research they were working on.

Not convinced? **Ok, let's peek at the number of bizarre deaths of high level international bankers** who seem to have a knack for *accidentally* jumping out of windows in the middle of the day. Some of them in their 20's and 30's to boot.

Well, now we have a new category of *cluster deaths* taking shape. **Dead Alternative Health Care Doctors.**

That's right! Dead health care professionals. Why Doctors you ask? Let me explain: **These are not just doctors. This new string of relatively young healthy, now dead, doctors make a living without the use of BIG PHARMA! That's right. No pharmaceuticals which means no profit for the drug companies. Makes for interesting conversation when discussing the latest trend in cluster deaths.** Keep your eyes open for healthy (after all these people specialize in optimal wellness) **holistic/naturopathic physicians dying of self inflicted gun shot wounds to the chest while taking a midnight dip in the local river. Yes! You heard that right. Or maybe just sitting in their car and suddenly just dying with little or no detail as to the death.**

But that's not the best part! **Two of the three doctors had run ins with the FDA recently.** Imagine my surprise to find this gem. The FDA. That big bad boogie man federal agency that plays school yard bully for the Big Fat Cat drug companies.

So, make sure you're following the latest cluster death trend of status quo busters like your friendly neighborhood holistic doctor, because you never know when that bottle of Vitamin C or herbal tincture might threaten the lives of tens of thousands of people each year like **these Meds do.**

The American Medical Association Seeks to Silence "Quack" MD's

Posted By Admin On July 14, 2015

<< Dr. Jack and Dr. Heather Wolfson from Arizona. "Quack" doctors? [Image from Facebook](#) ^[1].

Whether in print, on TV or radio, on the internet, or yelling on a street corner, the right to express an opinion should never be silenced.

But apparently, the American Medical Association feels differently. **They would like to restrict medical doctors from participating in "quackery."** Targets have included **DO's,**

chiropractors, and alternative physicians. The founding father of osteopathic medicine **wrote extensively on the body's inherent ability to heal itself when you removed the offending agent. Traditional doctors are against alternative medicine and they will fight tooth and nail to protect their turf.** We are talking about trillions of dollars after all.

The recent big fish was none other than Dr. Mehmet Oz. He was called before Congress to defend some of his recommendations as seen on his TV show and in print. To be candid, I disagree with plenty of Oz's endorsements, while also

recognizing his overall value. **Dr. Oz is offering viewers a choice for their medical care and opening the eyes of millions to natural therapies.** His colleagues in New York want his staff privileges to be stripped. Apparently, vitamins and nutrition are not popular in the doctor's lounge.

As a board certified cardiologist who runs a holistic practice, the ability and right to help patients outside of the guidelines must be maintained. Should all cancer patients be coerced to undergo chemotherapy or radiation if it is against their will? Should statin drugs be mandatory? Do we really want to live in a country where there is only one medical opinion and that opinion is crafted by pharmaceutical companies and doctors on its payroll? It is clear that patients deserve a choice. A recent study found cardiologists only provide full informed consent 3% of the time. When patients were fully informed, most of the time they refused the procedure. Chemotherapy is rarely beneficial for most cancer patients. Do you think the oncologists are fully informing patients?

Recently, bioethicist Art Caplan urged that any doctor who questions the safety or necessity of the U.S. vaccine program should have their license revoked. Essentially, agree with 69 doses of 16 vaccines and however many more are coming down the pike. If you don't agree, you will lose your license.

Is this the kind of country we would like to live in? What if doctors, researchers, and the public had not questioned the safety of smoking, leaded gas, or pesticides like DDT?

The word doctor comes from the Latin root meaning "to teach." As physicians, we need to provide full informed consent to patients along with the risk and benefits of all procedures and pharmaceuticals. Hundreds of healthcare providers are standing up for healthcare freedom of choice. When patients are not comfortable with conventional options, alternatives must be offered. Anything less would be un-American.

California Now Wants to be First State to Mandate Adult Vaccines With SB 792 – Criminal Penalties for those Who Refuse

In a brazen act of medical tyranny, California recently became the first state in the U.S. where lawmakers removed religious exemptions to those opposing vaccines for their children. The bill now signed into law, SB277, faces legal hurdles in court next.

Now, legislators in California want to pass the "first US adult vaccine mandate with NO personal exemptions and CRIMINAL penalties for failure to comply." SB 792, would eliminate an adult's right to exempt themselves from one, some, or all vaccines, a risk-laden medical procedure.

Will California soon become a medical police state?

URGENT ACTION ALERT Monday July 13, 2015

SB792- **The first US adult vaccine mandate with NO personal exemptions (only medical exemptions approved by a doctor and defined by the bill) and CRIMINAL penalties for failure to comply** will be heard in the California Assembly Human Services Committee this Tuesday July 14th at 1:30 in Room 437.

SB 792 would eliminate an adult's right to exempt themselves from one, some, or all vaccines, a risk-laden medical procedure. This bill would make California the first state to require mandated vaccinations for all childcare workers, including all private and public school early childhood education programs (Headstart, Private preK and preschools), family daycares, and daycare centers.

Commencing September 1, 2016, a person shall not be employed at a family day care home if he or she has not been immunized against influenza, pertussis, and measles. An employee shall receive an influenza vaccination between August 1 and December 1 of each year.

This bill eliminates medical autonomy, crushes religious freedom, undermines personal freedom, and burdens quality providers with a non-optional series of medical interventions in the form of mandated vaccines that are not even 100% effective

Senator Pan received bribes equal to twice the average American income to push mandatory vaccination law

One of the primary sponsors of recently passed legislation in California (mandating that nearly all children enrolled in public and private schools in the state be vaccinated) received some of the millions in campaign donations by Big Pharma.

Democratic Sen. Richard Pan, a physician, according to the table published below, was *the* top recipient of a share of more than \$2 million in campaign contributions by large pharmaceutical companies as the measure, SB 277, was being "debated" in the California legislature.

Dangerous new vaccine legislation pushed by the United States federal government: MEDICAL ASSASSINS! According to the "Vaccinate All Children Act of 2015" (H.R. 2232), the United States federal government wants to take away all religious and philosophical exemptions or, in other words, require every school age child to get vaccinated – whether you like it or not. **More on this below**
California Enacts Vaccine Law That Forces Parents to Choose Between Human Rights and Civil Rights

This is urgent! A former state assemblyman known for his defiant conservatism is seeking to reverse California's newly passed vaccination mandate. The day after Gov. Jerry Brown signed Senate Bill 277, an intensely controversial bill requiring all California schoolchildren to be fully vaccinated, former Assemblyman Tim Donnelly submitted paperwork to overturn the law. to collect at least 365,880 valid signatures--If signatures obtained the law is suspended until November 2016 election

The Vaccinate All Children Act of 2015: Bill Seeks to Blackmail States into Full Compliance

A Florida Congresswoman has introduced legislation that will send chills down the spine of any liberty-loving American.

On May 1, Frederica S. Wilson (D-FL-24) presented H.R.2232 – Vaccinate All Children Act of 2015.

From the bill:

REQUIREMENT.—For a State or a political subdivision or other public entity of a State to be eligible to receive a grant under this section, the applicant shall demonstrate to the Secretary's satisfaction that, subject to paragraphs (2) and (3), **the State requires each student enrolled in one of the State's public elementary schools or public secondary schools to be vaccinated in accordance with the**

recommendations of the Advisory Committee on Immunization Practices.

That's right. Wilson wants to require children who attend public schools to receive every shot on the CDC recommended vaccine schedule.

Have you seen that vaccine schedule lately?

The [Maine Coalition for Vaccine Choice](#) made a very interesting point in their article about the bill (emphasis mine):

After trying and failing this year in more than thirty state legislatures to parlay a mild measles outbreak into a massive power and cash grab, the pharmaceutical industry will now simply bypass the states and go straight to Congress to force more Americans to become their customers.

Below you will find the full current CDC recommended schedule. I have laid it out next to the vaccine schedule that we had from 1963 to 1988 (minus one dose of the small pox vaccine which was removed in 1973), so that you could see what the liability shield did to the vaccine program. I present it to you now to show you what Maine's vaccine requirements for a public or private school education will be if we do not stop this industry juggernaut now.

CDC Recommended Childhood Vaccine Schedules pre and post 1986 National Childhood Vaccine Injury Act, that gave blanket liability protection to vaccine interests for all death and injuries from FDA approved vaccines.

That's right: once Congress passed the National Childhood Vaccine Injury Act in 1986, the number of vaccines on the schedule increased dramatically. And it will continue to grow. There are currently 271 vaccines in the development pipeline.

This bill is essentially an attempt to blackmail states into abandoning any vaccination exemptions they currently have in place.

Oh, and adults aren't going to be immune from forced vaccinations for long either, if the government gets its way:

CDC has already made plans to begin to include adults in the same coercive net in which children are now becoming bound by using the Affordable Care Act and employers to vaccinate adults according to their National Adult Immunization Plan currently being drafted. This schedule adds 114 doses of vaccines to the list of an individual living the average American life span. Cradle to grave vaccination.

To emphasize, Americans born into this program, even if not one more dose is added to the schedule, will receive 184 doses of vaccine in their lifetime under this plan.

Wilson's tyrannical bill was referred to the House Committee on Energy and Commerce.

Let's be as proactive as possible and hope & pray it dies there.
