[Enough Is Enough With This Swine Flu Farce](#)

Posted by JRed--We're being deceived daily and unless we're willing to peek behind the curtain we won't know what hit us when Satan and his schemers are exposed in full view and plain sight.

This is a spiritual war disguised as a carnal one, and the sooner we look at our present day world in those terms the better off we'll be. We need an eternal perspective, not an earthly one. Most importantly, we must start learning how to fight with our spiritual weapons of warfare because something tells me it's about to get a whole lot worse down here.

We know that these are the end times. We know the Antichrist is coming and that those loyal to him (those who are preparing the way for him) believe as he does -- that death and destruction is all that matters.

So, naturally, they'll want to and try to kill as many people as possible worldwide. I wholeheartedly believe the current vaccine is bad (obviously, right?) and that even though people aren't dropping dead immediately upon taking it (if at all) it will still have some kind of "delayed" effect, if not merely contain the RFID VeriChip medical device in it (or possibly both). What? [You didn't hear about how VeriChip's stock rose 184% \(it tripled!\) recently following the hush-hush announcement that the company said it had been granted an exclusive license to two patents, which will help it to develop implantable virus detection systems in humans?](#)

However, I also believe The-Powers-That-Be when they say a "*stronger wave of the flu is coming*" soon. That doesn't mean that I believe it will be a mutated strain of the H1N1/Swine Flu. No, I'm starting to think it will be a pure Bio-Chemical Weapon originally created (or perfected) in a lab somewhere. The whole H1N1/Swine Flu stuff is just the cover story.

Why do I say that? Short answer is to watch Europe closely especially this week. [We know that Ukraine is in the midst of a real genuine health crisis.](#) As of this weekend, [53 people have died of Swine Flu](#) there, **some by what's described as bleeding lungs which hark back to the 1918 Spanish Flu and Cytokine Storming** where the body's defensive mechanisms over react and attack the host body itself. Responding to the situation, the government is closing down schools, some businesses, banning large gatherings, and is [trying to buy another 700,000 doses of Tamiflu from Roche.](#)

A *cytokine storm*, or *hypercytokinemia* is a potentially fatal immune reaction consisting of a [positive feedback loop](#) between [cytokines](#) and [immune cells](#), with highly elevated levels of various cytokines.^[1]

Cause:

When the [immune system](#) is fighting [pathogens](#), cytokines signal immune cells such as [T-cells](#) and [macrophages](#) to travel to the site of infection. In addition, cytokines activate those cells, stimulating them to produce more cytokines. Normally, this feedback loop is kept in check by the body. However, in some instances, the reaction becomes uncontrolled, and too many immune cells are activated in a single place. The precise reason for this is not entirely understood but may be caused by an exaggerated response when the immune system encounters a new and highly pathogenic invader. Cytokine storms have potential to do significant damage to body tissues and organs. If a cytokine storm occurs in the [lungs](#), for example, fluids and immune cells such as macrophages may accumulate and eventually block off the airways, potentially resulting in death.

That part about "bleeding lungs" and similarities to the 1918 Spanish Flu is what concerns me. That has Bio-Weapon written all over it! The thing we probably should watch over the next few days is how the neighboring countries fare. Already, Hungary's Health Minister says the "[Ukraine Flu Epidemic To Create Emergency In Hungary](#)" as it may also do in Romanian, Moldova, Slovakia, Poland, Belarus, Russia, and anyone pulling into port from the Black Sea or the Sea of Azov.

If you still doubt that things are getting out of hand over there, then I urge you to read about how there's literally [panic in the Ukraine as authorities were forced to deny what](#)

[many citizens claim are aircraft spraying aerosols over cities as a sort of forced medication of the population!](#) In fact, Martial Law is even being expected now!

[Panic in Ukraine, Authorities deny aircraft are spraying aerosols over cities](#)

[Infowars Ireland Staff Writer](#)--*The office of Emergency Response in the district of Desniansko, Kiev, are tonight (30th Oct.) strongly denying reports that light aircraft were spraying a substance over the city intended to counter a “swine flu pandemic” in Ukraine.*

It was reported that light aircraft were seen over the Forest market area of the city (close to the Forest metro station) and they were spraying an aerosol substance intended to “counter swine flu”, this of course would constitute forced medication of the population.

The editors of local newspapers in Kiev received dozens of phone calls from concerned residents and shop owners in the Forest market area of the city reporting they had observed several light airplanes circling in the sky during the day spraying an unidentified aerosol into the atmosphere.

Retailers and local business people reported they were advised to “stay indoors” during the day by local authorities.

Reports of helicopters and light airplanes spraying aerosols over Kiev, Lviv, Ternopil, and other cities throughout Ukraine are tonight flooding online forums and websites, hundreds of people have verified the reports with their own eye-witness accounts.

[Another website](#) provided some impressive investigative reporting into this developing drama:

Tonight the nation of Ukraine is in an absolute state of panic as a mystery illness rips through that country. Some reports are claiming that this mystery illness is a more virulent form of the H1N1 swine flu. Other reports are linking the mystery illness with typhus, ebola hemorrhagic fever or even the pneumonic plague. What all the media reports do agree on is that an epidemic is devastating Ukraine tonight and that a wave of panic is sweeping over that nation.

The following is a list of many of the most recent reports that we have received regarding this outbreak. Hopefully there will be additional reports that will clarify the situation in Ukraine over the next 24 hours...

**[One report](#) says that this mystery illness begins as an ordinary bout of the flu, but after a week the symptoms get far worse. The report says that approximately 40,000 Ukrainians have contracted the disease and that about 30 people there have died of it so far.*

**Ukraine Prime Minister Yulia Tymoshenko [has ordered schools and cinemas closed and has banned public gatherings for three weeks](#) to contain the spread of the mystery virus amid growing panic over several dozen unexplained deaths in the western areas of the country.*

**The Kyiv Post is reporting that Ukraine's Health Ministry [has not yet determined whether the recent deaths are related to the H1N1 swine flu virus](#), but they have admitted to sending more than 1,200 doses of Tamiflu to western Ukraine.*

**The World Health Organization has announced that it [is sending a team of experts to the Ukraine](#) to investigate reports of severe H1N1 disease there.*

**Rumors that the mystery illness [could be connected to typhus or ebola hemorrhagic fever](#) are circulating in Ukraine.*

**One international media report claims that the Ukraine Ministry of Health has not established the exact diagnosis of the epidemic disease in the western regions of Ukraine yet, [but that pneumonic plague is suspected](#).*

Pneumonic plague is one of three main forms of [plague](#), all of which are caused by the [bacterium Yersinia pestis](#). It is more [virulent](#) and rarer than [bubonic plague](#). The difference between the versions of plague is simply the location of the [infection](#). Pneumonic plague is an infection in the [lung\(s\)](#), bubonic plague is an infection of the buboes or [lymph nodes](#), while [septicemic plague](#) is an infection in the blood stream.

Typically, pneumonic form is due to a secondary spread from advanced infection of an initial bubonic form. Primary pneumonic plague results from inhalation of fine infective droplets and can be transmitted from human to human without involvement of fleas or animals. Untreated pneumonic plague has a very high fatality rate

MARTIAL LAW IN THE UKRAINE * PRESIDENT ANNOUNCES ARRESTS OF OPPONENTS OF FORCED VACCINATION AND QUARANTINES * WHO CARRIES OUT COUP D' ETAT UNDER PANDEMIC EMERGENCY PRETEXT

Thursday, 05 November 2009--News - Highlighted News--The Ukrainian President Victor Yushchenko has issued a statement strongly suggesting that the government is preparing to carry out mass forced vaccinations with the untested swine flu jab.

In a statement posted on the government website, Yushchenko announced a crack down on political protests and orders for the arrest of public health officials who have opposed mass "swine flu" vaccinations and quarantines.

<http://www.president.gov.ua/en/news/15609.html>

Yushchenko said he had ordered key medical officials who allowed political protests against the government to continue in the city of Kiev to be arrested under the pretext

that they were jeopardising public health.

"I have addressed the Prosecutor General of Ukraine with the request to institute criminal charges of negligence committed by first of all the Chief Sanitary Inspector, Kyiv City Sanitarian and the officials," he said.

Furthermore, he strongly suggested that democracy in the Ukraine was about to be uprooted and replaced by military rule under a special "interdepartmental commission" that follows orders from WHO and the UN.

"We must change the system. We must change the entire system of government in Ukraine," Yushchenko said.

Ever heard of a man by the name of [Joseph Moshe](#)? Today, the mainstream media are not talking about this case any more. On August 13, 2009 they wanted us to believe that Joseph Moshe was a nutcase and a terrorist, arrested for threatening to bomb the White House.

Interesting detail about his arrest (the "Westwood Standoff") was that he seemed to be immune to the 5 cans of tear gas and 5 gallons of law-enforcement grade pepper spray they pumped into his face. Keep that in mind for a moment. He very calmly remained in his car, as the video footage of his arrest shows.

[Joseph Moshe Westwood Standoff 2/3](#)

[Joseph Moshe Westwood Standoff 3/3](#)

The story appears to have vanished with absolutely no follow up by the mainstream media. The story raises *many questions* such as: *Who is Joseph Moshe? How could he withstand several assaults of tear gas? Why the secrecy?* We may have a pretty simple answer to each one.

Moshe had called into a live radio show by Dr. A. True Ott, broadcast on Republic Broadcasting claiming to be a Microbiologist who wanted to supply evidence to a States Attorney regarding tainted H1N1/Swine Flu vaccines being produced by Baxter BioPharma Solutions.

The day after Moshe phoned the radio show, a swat team surrounded his Volkswagen Beetle near the Federal building near the Israeli consulate. The consulate was apparently Moshe's destination. The federal building was locked down at Noon and employees were told to stay inside.

The mainstream media spun a story that Moshe had threatened the White House with a bomb, that there were outstanding warrants (misdemeanors) against him, and that he was depressed. No mention that Moshe was a Microbiologist, or of the information he

provided on Dr. True Ott's radio show about the vaccine by Baxter. This resulted in an eight hour standoff. A large armored military vehicle with microwave weapon, a robot, and other equipment were brought in. It was reported that the electronics of the Volkswagen and Moshe's cell were disabled by a microwave weapon. Moshe sat peacefully in the car smoking for several hours before a robot broke a rear window of the car so officers could see inside and try to communicate. Police eventually fired 4 volleys of tear gas into the window of the Volkswagen, but Moshe remained inside the car and briefly wound down the passenger window to let out the fumes. Police broke the drivers side window of the Volkswagen and tasered Moshe.

How is any of this relevant to what's going on in the Ukraine today? **Moshe** claimed that the Baxter lab in the Ukraine was, in fact, preparing a Bio-Weapon disguised as a vaccine! He maintained that the vaccine contained both adjuvants designed to weaken the immune system, and replicated RNA from the virus responsible for the 1918 Spanish Flu global pandemic, and that this version was intended to cause global sickness and mass death!

Not to make light of this story, but the evidence appears to suggest that Baxter International is responsible for a new deadly outbreak of Viral Pneumonia in Ukraine. [In February of 2009](#), Bloomberg reported that Baxter "accidentally" sent vaccine material containing both live Avian bird flu and seasonal influenza to multiple laboratories worldwide. A laboratory decided to test the vaccine on it's ferrets, but the ferrets all unexpectedly died. It must be noted that Baxter has made a "mistake" like this before. [Blood products produced by Baxter once contained HIV](#). Thousands of haemophiliacs died due to this, and many went on to infect their spouses.

As David Rothscum astutely notes:

[It must also be noted that massive numbers of microbiologists have been dying bizarre deaths.](#) This case of what appears to be a brave man who sacrificed it all to bring us this message may explain why so many microbiologists have been murdered. The fact that this man managed to predict an outbreak of highly lethal influenza in a place where we would least expect it, 2 months before it actually occurred, lends credence to his claim that Baxter International is responsible for the outbreak and shows that top microbiologists can pose a problem to the people responsible for this ongoing disaster.

Can you really say that you'd be surprised if it turns out that all we are reporting is legitimate? Look, we know that this is a spiritual war. We know who our real enemy is.

Don't let this force you into the fetal position. Let this force you to your knees in fierce prayer! Our Lord is our defender and deliverer! He will protect and avenge us! Let's cry to Him by using Psalm 91 as our model prayer for these turbulent times:

Psalm 91 (KJV)

-- emphasis mine --

1 He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty.

2 I will say of the LORD, He is my refuge and my fortress: my God; in him will I trust.

3 Surely *he shall deliver thee from the snare of the fowler, and from the noisome pestilence.*

4 He shall cover thee with his feathers, and under his wings shalt thou trust: his truth shall be thy shield and buckler.

5 Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day;

6 *Nor for the pestilence that walketh in darkness; nor for the destruction that wasteth at noonday.*

7 *A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh thee.*

8 Only with thine eyes shalt thou behold and see the reward of the wicked.

9 Because thou hast made the LORD, which is my refuge, even the most High, thy habitation;

10 There shall no evil befall thee, *neither shall any plague come nigh thy dwelling.*

11 For he shall give his angels charge over thee, to keep thee in all thy ways.

12 They shall bear thee up in their hands, lest thou dash thy foot against a stone.

13 Thou shalt tread upon the lion and adder: the young lion and the dragon shalt thou trample under feet.

14 Because he hath set his love upon me, therefore will I deliver him: I will set him on high, because he hath known my name.

15 He shall call upon me, and I will answer him: I will be with him in trouble; I will deliver him, and honour him.

16 With long life will I satisfy him, and shew him my salvation.

In the meantime, we can pray that the darkness of deceit will be exposed by the light of truth so that the eyes and ears of millions worldwide will be opened before it's too late.

Always remember the truth:

Matthew 10:28 (KJV) *And fear not them which kill the body, but are not able to kill the soul: but rather fear him which is able to destroy both soul and body in hell.*

*****UPDATE:** *Laughter as dignitaries discuss making vaccine mandatory, and tricking public into taking it! A recording of a recent Council On Foreign Relations (CFR) symposium reveals attendees discussing ways and means of getting the public to take the H1N1 flu vaccine in spite of the mass resistance that has arisen due to questions over it's safety! The recording dates from October 16th when the CFR held a Symposium in New York entitled [Pandemic Influenza: Science, Economics, and Foreign Policy](#). During part of the discussion ([see the official transcript](#)) on whether or not the vaccine should be made mandatory for health workers and school children, Lone Simonsen, Research Professor and Research Director at the Department of Global Health, George Washington University, suggests creating an artificial scarcity in order to ramp up demand for the vaccine. "I think what would work better would be to say that there was a shortage and people tend to buy more of something that's in demand. (Laughter.) We saw that — there was one season where, really, people lined up all night to get a flu shot." Simonsen says, much to the amusement of the other attendees at the symposium. The entire recording is on the CFR website [here](#), but an edited version appears in the following short video:*

11/4/2009 478,456 reported infected.

as of today 11/6: 871,037 reported infected.

I would like to add – the Official WHO numbers for the H1N1 of people affected are just over 400000 – that is world wide combined numbers. **Yet in the Ukraine that many are being affected almost over night!**

At some point the officials will Have to admit, they have the Pneumonic Plague spreading.

They are going to need to be honest about the deaths also. Their numbers are not matching what sources have said inside hospitals.

At what point will their medical system break down, due to overload of people sick, besides the medical personnel becoming sick?

WHO Continues To Deceive: Assumes That Ukraine Plague Is H1N1 Swine Flu

The World Health Organization (WHO) is continuing to deceive the world by stating sweeping assumptions about the Ukraine pandemic. Despite huge differences in transmission and deaths rates, the agency stated Tuesday that it was valid to assume that most of the cases of influenza reportedly combing through the Ukraine were caused by the pandemic A(H1N1) virus.

There is very little left to be respected of the WHO. After months of using [junk science and contradictions](#) to conceal actual swine flu cases, they are now launching phase two of their deceptive operation: Convince the world that a more lethal strain of flu is still the same H1N1 virus.

Infectious disease expert Dr. Donald Lau explained that the chances of the Ukrainian pandemic being the same H1N1 virus that has infected the world are very low. "The statistical probability of this being the same H1N1 virus are infinitesimally small." Dr. Lau stated that the high viral transmission rates are extremely unusual for H1N1 and there is almost certainly some type of new virus, or a lethal recombination that has occurred.

[Update 11/6/09 2:31 pm CDC Brochure On How to Protect Yourself from the Plague](#)

I am linking the [CDC Brochure on How to Protect yourself against the Plague](#) (Also at the bottom of my original Post – at bottom of page) I have information from the government on how the Plague could be sprayed in the air as an act of terrorism. Was that done? – since people had said there were planes flying around spraying chemicals in the air, the day before this “mystery – Plague” hit the Ukraine in a big way.

The CDC brochure, basically says, keep Fleas off your pets, for protection against the Bubonic Plague (sores on the skin)

But if it is Pneumonic Plague (lungs), get to the doctor immediately.

Another site about how to [identify the symptoms of Pneumonic Plague](#)

I also researched about the Plague’s history.

I did not realize the difference between the Bubonic Plague and the Pneumonic Plague I wanted to find out how people had survived the Plague in the past epidemics of it.

First the Bubonic Plague was the skin with wounds that would turn black – thus called the Black Death. 50% of the people who got the Bubonic Plague lived. The Pneumonic Plague is of the lungs and only 10% of those people lived who got it. I could not find anything special those 10% did, besides getting emergency care, but I am going to

continue searching. The reason the Pneumonic Plague spread fast, is because it goes through the air as people breath in and out. The Bubonic Plague, people had to actually touch the wounds to get that plague. If this is the Pneumonic Plague as the doctors say it is in the Ukraine, I believe finding out everything possible to survive it is a very good idea (which I am sure everyone agrees with that).

I will insert all things I find about what people need to do, for the best chance of survival(besides of course having a rubber gas mask for yourself). Posted by Sherrie Questioning All at [2:26 PM](#) [0 comments](#) Labels: [bubonic plague](#), [CDC](#), [pneumonic plague](#)

VACCINE WARNING - PANDEMIC WARNING

Ken Welch--After researching for more than ten years I can tell you that there is indeed a long-running plan to dissolve the Federal government and remake the world into what you might call a global corporate feudalism. This plan is coming to its climax right now. Although the final moves have been postponed several times, all indications are that there can be no more delays, and a global killer pandemic is the first step in that plan.

You are getting a lot of scare stories from the media (and the Pentagon's billion dollar Internet propaganda machine) about the Swine Flu. But the swine flu is a joke, and almost everyone knows it. The real pandemic is still seven to ten weeks away.

We've recently learned the secret behind the Swine Flu Vaccine that is being pushed so strongly on the public. While the vaccine may make you sick, its real purpose is to greatly increase the fast-kill mechanism of the pandemic still to come. Worse yet, the vaccine is being used to target specific groups of people who are simply not welcome in our brave new world. I watched that year as government money financed three different expeditions to find 1918 burial sites where frozen samples of killer virus might be found and retrieved. I also learned that, although there are good indications this virus was introduced in injections given to Europe-bound U.S. troops at Ft. Riley, Kansas, the genetic origins of what was soon called Spanish Flu suggest that it's genetic source involved birds – either in the wild or in a vaccine laboratory.

It wasn't until 2004 that I understood why the "illuminati" were interested in creating a killer pandemic. That was the year I ran across an article in a magazine devoted to real estate that talked about the massive shift of wealth that would be happening in the future. The author was writing about the retirement of the Baby Boomers. Later I would learn that this would be the greatest financial threat our western governments have ever faced.

As reported in normal news channels, the 1918 killer flu was in fact rebuilt from scratch using the latest gene technology, made to match viral DNA that was brought back from the original expeditions. In a civilized world this would be a capital offense. But that is a world that mankind has yet to create.

In the meantime, governments have spent hundreds of billions of dollars preparing for the moment that the "Bird Flu" is finally released. Do you think they would do this based

on a rumor or perhaps a psychic reading? All that money has been spent in preparing for the “continuity” of government, the control of civilian populations, and the methods for dealing with millions of dead or dying civilians in the most efficient and cost effective manner. How much did they spend on protecting or saving you? Not a dime. The public is still being told that everything will be fine if they just make sure their kids wash their hands.

Now, you may be wondering how the various governments expect their countries to keep functioning in the aftermath of an engineered pandemic that could take out a huge percentage of the workforce. Actually that problem has been solved. If you will think back to 1999, you'll realize that was the time that Washington began it's open-door policy for illegal aliens. Likewise for Europe, and in both cases entirely against the wishes of their citizens. So we now have an extra 20-25 million "illegals," all of whom have a lifetime of experience in societies where you don't fight city hall. Although six or eight million may lose their lives in the Pandemic, there will be plenty left over to answer the need for labor. They will be there to take the jobs, buy the empty houses and, in return for legalization, pay the taxes. Postponements have been a nuisance for our Illuminati leaders, because each time has meant another billion dollars for the chemtrail program in North America, and a similar amount in Europe. Chemtrails and the Pandemic are two parts of the same operation. We didn't understand why until we learned that pesticide poisoning distorts hormonal functions, and reduces adrenal availability. The invisible part of chemtrails, the pesticide Ethylene Dibromide that falls to earth immediately and blows through your neighborhood, is reducing your ability to fight off the Cytokine Storm, the fast-kill mechanism of the recently recreated 1918 virus.

As I've told our newsletter readers many times, the Pandemic has nothing to do with imaginary overpopulation, Satanic goals, or any other strangeness. It's strictly about money. All the welfare states, including Russia, are going broke. In the U.S. retiring Baby Boomers are about to suck away more government funds. Unless something is done, the Illuminati-run North American Union designed to replace the current circuses in Washington and Ottawa will quickly bleed to death if it must pick up the same welfare burden. Socialism has only one answer for problems like this: mass murder. And it simply can't be put off any longer.

There is a word we are finding quite often now in reversed speech from Washington and London: DECEMBER. It's always there, like the uninvited guest lurking in the corner of the room. When we are following current plans as they appear in the reversed speech, nothing seems to go past the next six weeks or so, and the thoughts trail off as the word DECEMBER appears again. Like a dark cloud on the horizon. It seems to be something so terrible that no one wants to think about it directly. All my experience with reversed speech, and ten years of tracking the chemtrail/pandemic conspiracy, tells me that middle or late December is the current target for the release of the recreated 1918 virus.

You will be told that swine flu has made it into bird populations and magically mutated to

create a deadly, rapidly spreading form of Bird Flu. There will be no truth to this at all. The virus they will release is the recreated 1918 virus, already in many bio labs, and perhaps boosted a bit from the original 1918 variety in terms of lethality. You are being given a psychological practice run for this scenario right now, with stories from Ukraine.

It will spread slowly at first, but by mid January it will be sweeping the globe. Make no mistake. This is the one I've been warning about, and you will literally see bodies on the sidewalk if the records from 1918 are to be believed.

The secret purpose of the swine flu vaccine is not obvious until you fully understand what the vaccine does. And you must combine that information with the understanding that the real Pandemic is just around the corner.

I don't want to seem omniscient here, so I'll have to confess the real secret of the swine flu vaccine just came across my desk on Wednesday. Someone sent me a couple paragraphs attributed to [Dr. Russell Blaylock](#), the MD that produces the [Blaylock Wellness Report](#), a subscription newsletter. Here's the paragraph that says it all:

No one should take the swine flu vaccine – it is one of the most dangerous vaccines ever devised. It contains an immune adjuvant called squalene MF-59 which has been shown to cause [severe autoimmune disorders](#) such as MS, rheumatoid arthritis and Lupus. This is the vaccine adjuvant that is strongly linked to the Gulf War syndrome, which killed over 10,000 soldiers and caused a 200% increase in the fatal disease ALS (Lou Gehrig disease). This [swine flu] virus kills by causing a [cytokine storm](#), which means that it causes the body's immune system to overreact and that is why it is killing young people and is a mild disease in the elderly. (The elderly have weakened immune systems.) This vaccine is a very powerful auto-immune stimulator and carries the real possibility of making the lethality of the virus much greater.

++Remember the absolute vast majority of people that died in the 1918/1919 Spanish flu were those who were vaccinated.

What Dr. Blaylock is saying, is that the vaccine will greatly amplify the Cytokine Storm, increasing the chance that people will die from the combination of the vaccination & whatever virus they are planning to unleash.

In our newsletters I've been talking about the Cytokine Storm for almost three years. It is the quick-kill factor in the original 1918 virus that killed several hundred million people around the globe. In simple terms it is a form of rapid inflammation, similar to an allergic reaction to the toxins produced by the virus as it multiplies in your gut. If the inflammation takes place in the lungs, and if it is too strong, or lasts too long, it will kill you. Often within a single day. A popular saying in 1918 and 1919 was, "Healthy in the morning, dead by nightfall."

Populations of all western nations practicing socialized welfare systems have already

had their **ability to shut down the Cytokine Storm greatly impaired by six to ten years of chemtrail spraying**. Now, if the part of your immune system that produces the Cytokine Storm is put on hyperdrive by the swine flu shot, when the real H1N1 virus comes along in December or January, your chances of survival are going to be very poor.

No wonder Homeland Security has spent thousands of man-hours trying to locate sites for mass burials! Those folks are not stupid, and they know what is coming. You, on the other hand, are assumed to be both stupid and powerless.

Who Is Being Targeted For Death?

I've told you all along the Baby Boomers are the primary target. The financial disaster caused by their retirement has been known for twenty years or more via simple arithmetic. But the rest of the story is even uglier.

As you know, the big news on the vaccine front is that shipments have been delayed and, although every state has received some, supplies are limited. This has been beautifully orchestrated to produce a specific result. Limited supply means that specific groups can be selectively targeted for death.

Last week a man I know personally visited his doctor. This man is a good Pharma slave – he visits an MD regularly and does whatever he is told. He went for a quick check-up and his seasonal flu shot, which he got with no problem. Naturally, he also asked about getting a swine flu shot. He was told the same thing that others around the country were being told.

Because of “limited availability” the only people who could get swine flu shots at that time, whether paid or for free, were Blacks and American Indians.

I checked around and found that other people had been told the same thing.

Did I tell you this is a Welfare-driven emergency? Although grossly unfair, it appears that our masters have determined that Blacks and Indians are the “welfare classes” in our society, and their numbers must be drastically reduced.

Canada is marching to the same drummer. Benevolent Canadian functionaries have made sure to send the first batches of swine flu vaccine, along with unusually generous supplies of body bags to Canada's Indian nations. Just off the top of my head, I'd say that Canada is expecting the vaccine to produce something other than the lifesaving effect being advertised! Do you remember the stories of blankets laden with Smallpox given to Indian tribes in the 1800s? Yes, it's same thing all over again. Sure it's genocide, but in the chaos to come you are not supposed to notice.

Just in case you do notice a post-pandemic statistical strangeness, the Pentagon's domestic propaganda teams are already working on it. The same people responsible for about 80 per cent of the goofiness you see on the web have begun recirculating old stories about diseases created to attack specific ethnic groups. At least two e-mails on this topic specifically using the term "genocide" have crossed my desk this week.

This is a typical tactic. If you should discover later that deaths among the Indian Nations or African Americans are disproportionately high, then you have a wild goose story already prepared to lead you away from the fact that these people were selected for death in their own doctor's office.

There is a growing sense of resistance in this country. We certainly see it, loud and clear, in regard to the swine flu vaccine program. Guess what? I've tracked about a third of the anti-vaccine material back to known Pentagon propaganda mills.

Why would they do this? Two reasons. They are very strong right now on fostering disgust and rebellion against the Obama administration. They apparently feel this will make their job much easier down the road, when it is time to dissolve the central government in Washington, and "white hat" generals help to put in the new one. They also want to make sure there is enough anti-vaccine hysteria on the Internet that fact-based warnings like this one, or Dr. Blaylock's simply can't be heard.

Mind Control & inserting nanotechnology into vaccines

As I questioned a couple of weeks ago whether nano-bots might be in the Swine Flu vaccinations in order to control people, a health publication is boldly stating that this is entirely possible!

NEWS BRIEF: "[Nano-Microchips Inside Vaccines?](#)", Prevent Disease.com, October 5, 2009

"It's almost surreal, like something out of a sci-fi movie, but nano-microchips invisible to the naked eye are a reality that are already being hosted in wide-range of applications. The question is, how long will it take governments and big pharma to immerse nano-microchips inside of vaccines to tag and surveil global populations?"

To understand how this technology is feasible to slip into a vaccine which is delivered by a doctor's needle, we have to comprehend the tiny size of nanotechnology.

"Nanotechnology deals with structures smaller than one micrometer (less than 1/30th the width of a human hair), and involves developing materials or devices within that size. To put the size of a nanometer in perspective, it is 100,000 times smaller than the width of a human hair ... Japan's Hitachi says it has developed the world's smallest and

thinnest microchip, that can be embedded in paper to track down parcels or prove the authenticity of a document. The integrated circuit (IC) chip is as minute as a speck of dust."

This size is so small, it simply takes my breath away. Of course, Illuminati scientists interested in creating products which shall change and shape people so they can be controlled would be exceedingly interested in nanotechnology.

"More than ten years ago, simple low-cost techniques improved the design and manufacture of nano-microchips. That unlocked a multitude of methodologies for their manufacture in a wide-range of applications including optical, biological, and electronic devices. The joint use of nanoelectronics, photolithography, and new biomaterials, have enabled the required manufacturing technology towards nanorobots for common medical applications, such as surgical instrumentation, diagnosis and drug delivery."

This next segment reveals that implanting this technology in human brains is entirely possible.

"Nanoelectrodes implanted in the brain are increasingly being used to manage neurological disorders. Mohammad Reza Abidian, a post-doctoral researcher at the U-M Department of Biomedical Engineering said that polymers in nanotubes "are good candidates for biomedical applications such as neural interfaces, biosensors and drug delivery systems'."

Now, this article turns to the subject of an interest in vaccine makers in nanotechnology.

"Doug Dorst, a microbiologist and vaccine critic in South Wales, says these advances have an immense appeal to vaccine makers. 'Biotech companies and their researchers have quickly moved most funding initiatives towards nanotechnology to increase the potency of their vaccines', he said. If microorganisms inside of vaccines can be coaxed into targeting or invading specific cells, they could achieve their goal at an accelerated rate over conventional vaccines. 'Depending on which side of the vaccine debate you're on, whether pro or con, nanobots inside vaccine preparations could advance their effectiveness exponentially by either dramatically improving or **destroying immunity** depending on their design', he added."

But, suddenly, this article delivers a genuine bombshell!

"Dorst claims that present day nanobot technology could just as easily be used to advance biological weapons as they can to advance human health. 'For every fear that biotech propaganda proliferates about deadly diseases and how vaccines prevent them, it is one more lie to incrementally convince the masses that vaccines are effective'. The worry for Dorst is that one day vaccines 'will do what they've **always been intended for...control of the global populace**'."

Did you catch that bombshell revelation?

Vaccines are intended to control the global population!

Is it any wonder, then, that the Illuminati is pushing vaccinations upon everyone, for every pretense and for every corner of the globe?

The reality is that nano-microchips can be bombarded by electromagnetic waves to either track the person anywhere on earth and to make them think the thoughts or have the emotions or take the action which the Global Elite wants the population to take. This technology would make it very easy to bring about this incredible prophecy in the Book of Revelation.

"...and all the world wondered after the beast." (Revelation 13:3b; KJV)

I have often wondered how everyone on earth could suddenly be impressed with so much admiration for Antichrist that they would act in unison to worship him? People all over the world are naturally rebellious, resisting most efforts to bring them in line with other peoples, especially when those other peoples are of another religion and/or political persuasion. I have always considered this prophecy to be most difficult to fulfill.

But, if people all over the world are implanted with nano-bots smaller than a speck of dust, they might all receive an electromagnetic pulse which activates their nano-bot microchip, which then orders the person to take the action of greatly admiring Antichrist. At this point in history, all peoples of the world will turn on a dime, in unison, to fulfill this prophecy!

NOTE: We encourage you to read this lengthy article all the way through, as it fleshes out the facts we present to you about this technology.

++ Because Invive Silver is so stable it has a 15 year minimum shelf life. The company started in 1993 and they still have perfectly good bottles of silver from 1993. There is a 'Retest Date' on the bottle for the year 2014, but that is purely there for FDA purposes. There is no colloidal silver in any form that can even come close to their shelf life or potency; nor has there been one case of Argyria (turning gray) reported from taking Invive Silver.

Dr. Johnson's Comment: Invive Mild Silver Protein is made under Pharmaceutical GMP (Good Manufacturing Practices) with double check off lists. The silver that is used is the finest available and is the same silver used in the 1938 Edition, 12th Volume of the British Encyclopedia of Medical Practice: Royal College of Physicians and Surgeons. The Compounds used to make this silver are identical as the silver compounds used in burn wards across America. As a result they can achieve uniform particle size between (.005 and .015 microns) which is something most companies have a very hard time doing. Now this particle size is much smaller than a bacterium which are approximatley .5 microns. Therefore Invive silver particles can go wherever the bacteria are "because" the Invive particles are 100 times "smaller" than a bacteria, as Invive's smallest particles start at 005.

Today's modern antibiotics kill over 100,000 Americans per year, and cause horrendous liver and kidney damage, failure, and death, whereas the pre-1938 Mild Silver Protein formulation that has never caused one death.
