[The virus vs. humanity: ZIKA on the loose!](#)

It's become the latest mega-virus to spread to countries around the world, and like the deadly Ebola virus that was just recently declared contained – though the disease [killed someone in Sierra Leone](#) after the declaration was made – its spread has stumped medical investigators.

As reported by the *Washington Post*, a few days ago [the Centers for Disease Control and Prevention \(CDC\)](#) confirmed that a dozen cases of the Zika virus had been found in the United States, as the agency further expanded an advisory telling pregnant women to avoid traveling to countries that are experiencing additional outbreaks.

What exactly is Zika? From *The Post's* Health [section](#):

*The virus was discovered in 1947 in a feverish rhesus monkey living in the Zika Forest of Uganda, but until 2007 scientists knew of only 14 human cases of the disease. That year it arrived on the travel-brochure-perfect Yap Island in the southwestern Pacific Ocean. **Within a few months, nearly three-quarters of the island's 11,000 or so residents older than 3 had been infected.***

Initially the patients experienced fever, joint pain and eye inflammation, but eventually they also contracted a red bumpy rash; some complained of swollen hands and feet, while others threw up.

Then, in 2013:

Zika popped up again, this time in Tahiti and other parts of French Polynesia. An estimated 28,000 people (about 11 percent of the population of those islands) felt sick enough with the [virus](#) to seek medical care. By 2014 it was showing up in several other South Pacific spots: New Caledonia, east of Australia; the Cook Islands; and, early this year, Easter Island, which marked the official arrival of the disease in the Americas, since that remote island is part of Chile. Zika showed up in Brazil in May.

Indeed, the CDC initially listed 14 countries as danger zones for Zika, but added eight more in recent days – nations from the Caribbean, South America and Polynesia – indicating it is spreading rapidly.

The American agency is currently working with health officials in Brazil in search of a link between the virus – **which is spread by mosquitoes – and a rare condition known as Guillain-Barre that often leads to paralysis.**

Brazil is ground zero for the Zika outbreak, health officials have said, but now they are investigating **another twist in the puzzle: a link between the virus and a rare birth condition known as microcephaly.** Brazil has experienced almost 3,900 cases of the "rare" disease since October; babies involved have suffered serious brain damage.

In recent days, health officials in a number of countries **have begun to warn women to consider delaying pregnancy**, since they are so worried about containing the virus. Those countries include Brazil, Colombia, El Salvador and Jamaica, according to *The Post*. **An estimated 80 percent of people infected have no symptoms, making it difficult for pregnant women to know whether they have been infected.**

At present, the known U.S. cases were probably caused by people who were traveling to the affected countries and were bitten by mosquitoes. Still, there is some thought that the U.S. may be experiencing its own free-standing outbreak. Brazil is spending scarce resources to battle the disease. So far, the country has spent about \$300 million to battle it, **sending troops door-to-door to destroy places where mosquitoes may breed.**

"We never paid too much attention to this virus," Paulo Zanotto, a microbiology professor at the University of Sao Paulo and coordinator of 42 laboratories studying Zika, told *The Post*. **"I'm really worried because we have no idea of the amount of spread."**

Brazilian health officials believe that there are currently somewhere between 400,000 and 1.4 million Zika cases in the country of about 200 million.

U.S. health officials have said **that Zika may be responsible for a baby born with microcephaly in Hawaii recently**, the first such case in the U.S. Officials believe that the mother may have caught the disease while living in Brazil last spring.

Comment: Thank you Bill Gates!! The Zika Virus only started propagate after he released his genetically modified mosquitoes in Brazil

Subject: **GM mosquitoes spreading birth defect in Brazil**

Hello Dr. Johnson: Maybe the mainstream media in the US is not talking about it, but the GM mosquitoes created by Bill Gates and released here in Brazil last year is proving to be a disgrace: before these GM mosquitoes were released, we never had a single case of Zika virus. A year later now the country is facing a severe epidemic of microcephaly; a birth defect where the baby's brain does not develop. The OMS is even asking Brazilian women to not get pregnant as the risk is very high.

And guess what! Bill Gates company is planning to release the very same GM mosquito in other countries, including the US! The situation reminds me of that Scripture that says "Woe to pregnant women and nursing mothers in those days, for there will be great distress in the land."

[ZIKA COULD BECOME 'PANDEMIC'...](#)

US scientists have urged the World Health Organisation to take urgent action over the Zika virus, which they say has "explosive pandemic potential".

Writing in a US medical journal, they called on the WHO to heed lessons from the Ebola outbreak and convene an emergency committee of disease experts.

They said a vaccine might be ready for testing in two years but it could be a decade before it is publicly available.

Subject: MAKE SURE YOU HAVE KILLED IT ALL RE: Question

Mosquito-borne virii has ALWAYS been "EASILY" Treatable with INVIVE.

And the same is for Dengue and Chikungunya.

That is "WHY" the US Government would not allow Colloidal Silver to be Shipped to Africa (just Google those words).

Dosage is IMPORTANT: mosquito-borne virus has been linked to brain damage in thousands of babies in Brazil. There is no vaccine or treatment for Zika, a close cousin of dengue and chikungunya,

15 cc= (1 measuring tablespoon) every 4 hours of 10,000 ppm, till asymptomatic.

Treat for 1 month after all symptomatology, to MAKE SURE YOU HAVE KILLED IT ALL.

Deadly pandemic virus capable of wiping out humanity intentionally created by U.S. scientista

by Ethan A. Huff, staff writer (NaturalNews) **A real-life plague of this devastating magnitude is now a very real possibility thanks to the machinations of a deranged U.S. scientist out of Wisconsin, who has successfully manufactured a deadly flu strain that completely bypasses the human immune system.**

His name is Yoshihiro Kawaoka, and the University of Wisconsin-Madison (UWM) actually pays him to deconstruct viruses in order to reassemble them into highly lethal strains capable of killing off large numbers of humans. The UK's *Independent* reports that Dr. Kawaoka has now successfully manipulated the 2009 H1N1 flu strain to evade the human immune system, rendering individuals completely vulnerable to disease and death.

"Kawaoka... has genetically manipulated the 2009 strain of pandemic flu in order for it to 'escape' the control of the immune system's neutralising antibodies, effectively making the human population defenceless against its reemergence," wrote Steve Connor for *The Independent*.

Kawaoka deliberately tried to recreate deadly Spanish flu that killed millions.

Similar experiments on bird flu and the infamous 1918 Spanish flu have taken place at Dr. Kawaoka's lab in the past, which was constructed with taxpayer dollars to the tune of \$12.5 million. Known as the Institute for Influenza Virus Research, the lab was designed with Biosafety Level-3-Agriculture protection, which is one notch below the highest level for the most dangerous known pathogens, such as Ebola [virus](#).

But his latest work took place in the lower biosafety level-2 lab, **which many critics say is irresponsible and highly dangerous.** Though the stated purpose for such outrageous research is to discover how viruses mutate in order to develop more effective vaccines, the potential for this and other deadly viruses to escape the lab and spread throughout the public is a definite possibility, as demonstrated by the recent anthrax scare at a U.S. Centers for Disease Control and Prevention (CDC) lab near Atlanta.

"He took the 2009 [pandemic](#) flu virus and selected out strains that were not neutralised by human antibodies," stated one unnamed scientist who was present at a recent speech Dr. Kawaoka gave about the project. "He repeated this several times until he got a real humdinger of a virus." **"He's basically got a known pandemic strain that is now resistant to vaccination. Everything he did before was dangerous but this is even madder. This is the virus."**

http://www.naturalnews.com/z046412_pandemic_virus_US_scientist_biological_hazard.html

The March 1978 issue of Science Digest, in an article, 'Our Mightiest Germ Fighter,' reported: . . . "An antibiotic kills perhaps a half-dozen different disease organisms, but silver kills some 650. Resistant strains fail to develop." "Colloidal Silver . . . killed every virus that was tested in the lab," UCLA Medical Center

[Study: Polio vaccine campaign in India has caused 12-fold increase in deadly paralysis condition](#)

(NaturalNews) The mainstream media has been busy hailing the supposed success of India's polio vaccine campaign over the past few years, with many news outlets now claiming that the disease has been fully eradicated throughout the country. **But what these misinformation puppets are failing to disclose is the fact that cases of non-polio acute flaccid paralysis (NPAFP), a much more serious condition than that caused by polio, have skyrocketed as a result of the vaccine's widespread administration.**

A recent report published in the Indian Journal of Medical Ethics (IJME) explains that, clinically, NPAFP is indistinguishable from polio paralysis. But according to the Office of Medical & Scientific Justice (OMSJ), **NPAFP is twice as deadly as polio paralysis, and yet was not even an issue in India prior to the rollout of the massive polio vaccine campaigns.**

In 2011, for instance, the year in which India was declared to be polio-free, **there were 47,500 known cases of NPAFP, which is a shockingly high figure under the circumstances. And based on data collected from India's National Polio Surveillance Project, cases of NPAFP across India rose dramatically in direct**

proportion to the number of polio vaccines administered, which suggests that the vaccines were responsible for spurring the rapid spread of this deadly condition. Similarly, cases of vaccine-associated polio paralysis (VAPP), a condition in which paralytic symptoms similar or identical to those caused by wild-type polio manifest themselves following the administration of polio vaccines, are also on the rise. Not only are the paralysis symptoms associated with NPAFP and VAPP typically far worse than those brought about by wild-type polio, but they can also accompany other negative side effects including neurological damage.

Far from being a success, in other words, India's polio vaccine campaign appears to have induced a new epidemic of a much worse type of polio-related paralysis that is even more deadly than the first one. And based on the figures, overall rates of NPAFP in particular are now 12 times higher in India following the polio vaccine campaigns, with some areas of the country reporting rates as elevated as 35 times higher.

According to the IJME report, the entire polio vaccine scam in India was spawned from initial grants made by the Bill & Melinda Gates Foundation and various other groups that claimed the program would eventually pay off. But the overall costs once India started paying for the program quickly ballooned to more than 100 times the initial investment amount, with more than \$2.5 billion and counting still being funneled into it.

"The Indian government finally had to fund this hugely expensive program, which cost the country 100 times more than the value of the initial grant," write the authors. "From India's perspective the exercise has been extremely costly both in terms of human suffering and in monetary terms. It is tempting to speculate **what could have been achieved if the \$2.5 billion spent on attempting to eradicate polio were spent on water and sanitation and routine immunization.**"

NDF Plus: (If I could only recommend one product to my patients in regard to dealing with the aftermath of vaccinations, heavy metal exposure and/or mercury amalgam dental fillings, this would be the one) <http://www.bioray.com/ndf-plus/> Also take: <http://www.bioray.com/liver-life/>

Question--Dr. Johnson: What would be the best freeze dried food company to deal with?

Gary: Regarding your question I would recommend Legacy Freeze Dried Foods. Watch the little video here: <http://www.preparewise.com/> so for the money and the fact they are non-GMO, I don't think this company can be beat.

Why buy Legacy Premium freeze dried food?

- Freeze Dried Ready Meals
- Free and Fast Shipping
- Bigger Servings
- Lowest Price / Calorie
- Lowest Price / Pound
- 25 Year Shelf Life
- Voted Best Tasting
- Non-GMO
- Made in the USA
- Huge Meal Variety

Also another alternative would be: [100% organic, non-GMO, non-China, Freeze-Dried fruits and ...](#) but the selection is much smaller.

Subject: Re: RE:

Question: How do you take vitamins when you cannot swallow tablets or capsules? Our grandson Kyle cannot swallow pills or caps / wants to but just can't. Cynthia had same problem as a child.

Dr. Johnson' Response: Debbie: Yes this is a product line I am carrying now and they are wonderful (see below); and yes a good whole food/organic multivitamin mineral complex should be the foundation of any nutritional protocol.

Children's Lines I carry (prices are listed in the links below):

[Nature's Dynamics Garden Kids Multi Gummy: Assorted Flavor- 120 count](#)

[Nature's Dynamics Garden Kids Omega-3 Gummy 60 count](#)

[Nature's Dynamics Garden Kids Chewable Probiotics 60 count](#)

For a **excellent tasting** dedicated whole food vitamin C powder for children (and adults) I recommend: **[Innate Response C Complete Powder - 81 gm](#)**

Now to answer you're other questions if Cynthia cannot swallow pills this is by far the best product I have (see below). I finally have this product in stock. It is expensive (80.00 a bottle **but I am selling for 78.00 per bottle**) but for the money it has more than any other product I carry: **intraMAX: The Only 415 Ingredient, Liquid, Organic, ALL-IN-ONE Health Supplement ++For More Information see below**) IntraMAX® is an all-in-one, completely organic liquid vitamin and mineral supplement. IntraMAX® is derived from ultra dissolved, organically trace minerals and natural and organic plant sources. One website posted: Intramax--Reviews (194) Average

rating: (4.8/5) 91% of people would recommend this product. Now a more economical alternative (that I am bringing these into my product line) is: Nature's Dynamics BodyBoost Women's Multi Gummy 60 count & Nature's Dynamics BodyBoost Men's Multi Gummy 60 count God bless!

Natural Phyto Foods and Adaptogens - Natural Energy, Strength, and Stamina (100% organically-bound and microcomplexed):		
Immune System Strength, Development, and Response Matrix:		
Artemesia Annua Extract 4:1 (wormwood); Pau d'arco (inner bark); Nigella Sativa ((black cummin) (thymoquinone)); Caprylic Acid (octanoic acid from medium-chain triglycerides, vegetable-derived); Oregano Extract (oil 80-85% carvacrol); Horehound (leaf); Clove (flower); Thyme (leaf); Peppermint (leaf).		
Blood, Sinus, Neurological, Cellular, Circulatory, and Gastrointestinal Health Matrix:		
Barley Grass (gluten free); Burdock Root Extract 1:1; Sheep Sorrel Extract 4:1 (leaf); Slippery Elm Extract 4:1 (bark); Indian Rhubarb Extract 4:1 (root); Yellow Dock; Fenugreek (seed); Silymarin Extract 30:1 [(milk thistle, yields 75-80% silymarin) (flavonolignan)]; Chicory Extract 4:1 (root); Ginger Root; Raspberry Extract [(15-20% ellagic acid) (red)].		
Fatigue, Respiratory, Brain Development, and Neurological Health Matrix (with the essential sugars: Fucose, N-Acetylgalactosamine, and N-Acetylglucosamine):		
Aloe Vera Extract 100:1; Oat Grass (gluten free); Chlorella (broken cell pyrenoidosa with d-glucarate); Alfalfa Leaves (chlorophyll); Beta Glucan 1/3; Beta Glucan 1/6; Methylsulfonylmethane (MSM); Glucosamine Sulfate; Hyaluronic Acid [(HA) (extracellular mucopolysaccharide bacteria - no animal derivatives)]; Chondroitin Sulfate; Superoxide Dismutase [(SOD) (gliadin complex-vegetarian)]; TMG (trimethylglycine as betaine anhydrous); Garcinia Cambogia Extract 4:1; Dulce (sea vegetable - Nova Scotia); Dunaliella Salina [(algae) (chemical-free)]; Conjugated Linoleic Acid (CLA from safflower oil, Cis-9, Trans-11 Isomer and Cis-9, Trans-10 Isomer, Cis-12 Isomer); Mustard (seed); Saw Palmetto Extract [(contains 90-90% fatty acids and sterols), (berries)]; Pygeum Extract 4:1 (bark); Olive Leaf Extract (contains 17-23% oleuropein); Bee Propolis - 60+ brix grade (green bee extract); Feverfew Extract 1:1; Buchu Extract 4:1 (root and leaf, dried and wildcrafted); Suma Extract 1:1 (root); Gotu Kola Extract 4:1 (leaf); Marigold (calendula leaf); Echinacea Purpurea (stem, leaf and flower); Echinacea Angustifolia (root); Dandelion (root); Silver (organically-bound, non-collodial).		
Amino Acid Matrix - "Building Blocks of Protein" (Skin, Bone, Skeletal, Muscle, Tendon, Ligament, and Joint Health Matrix):		
Essential Aminos: L-Histidine; L-Isoleucine; L-Leucine; L-Lysine; L-Methionine; L-Phenylalanine; L-Threonine; L-Valine. Non-essential Aminos: L-Alanine; L-Arginine; L-Asparagine; L-Aspartic Acid; L-Citrulline; L-Cysteine; L-Cystine; Ellagic Acid Extract 40% (pomegranate hull); Gamma-Aminobutyric Acid (GABA); L-Glutamic Acid; L-Theanine; L-Glutamine; L-Glycine; L-Ornithine; L-Proline; L-Pyroglutamic Acid; L-Serine; L-Taurine; L-Tyrosine; N-Acetyl L-Tyrosine; N-Acetyl-L-Cysteine (NAC); DL-Phenylalanine; Creatine Monohydrate (dymatized and micronized).		
Pure Plant Digestive Enzymes, Probiotic, Prebiotic, and Intestinal Matrix (non-dairy 5.0 billion cultures human strain total count at time of bottling):		
Enzymes: Alpha Amylase; Beta Amylase; Alpha Galactosidase; Bromelain; Cellulase; Glucoamylase; Hemicellulase; Lactase; Lipase; Maltase; Marshmallow (root); Papain; Papaya (leaf); Rutin; Serrapeptase; Sucrase (invertase). Probiotics: <i>Bifidobacterium Group:</i> (<i>B. bifidum</i> , <i>B. breve</i> , <i>B. longum</i> , <i>B. lactis</i>); <i>Lactobacillus Group:</i> (<i>L. acidophilus</i> , <i>L. brevis</i> , <i>L. bulgaricus</i> , <i>L. casei</i> , <i>L. plantarum</i> ,		

L. rhamnosus, *L. salivarius*, *L. sporogenes*, *L. thermophilus*); Fructooligosaccharides (FOS).

Herbal Energy, Strength, Stamina, and Stress Management Matrix:

Alfalfa Grass (gluten free); Wheat Grass (gluten free); Cilantro Extract; Spirulina (micro blue-green algae - Hawaiian); St. John's Wort (0.3 hypericin); Bilberry Extract (20-25% anthocyanidins); White Tea Extract 4:1 (caffeine free); Cat's Claw [(contains 0.8-1.3% POA's and 100% TOA Free) (inner bark)]; Ginkgo Biloba (19-24% ginkgo flavoglycosides); Astragalus (root); Dong Quai [(with 0.2-0.25% ligustilide) (root)]; Schizandra Extract 4:1 (berry); Wild Yam (rhizomes and roots); Bee Pollen (100% pure - chloramphenicol-free 10-HDA content of 5-10%); Uva Ursi Dried Extract [(15-20% arbutin) (leaf)]; Licorice (root); Royal Jelly (3x); Hawthorn Berry Dried Extract [(13-18% oligomeric procyanidins) (leaf and flower)]; Parsley Extract (root); Ashwagandha Extract 16:1 (root); L-Huperzine A (from Chinese club moss); Vinpocetine (from vinca minor, dwarf periwinkle plant).

Antioxidant Rich Vegetable Garden, Optimum Seed, Sprout, and Fiber Matrix (with the essential sugars: Galactose and Xylose):

Vegetables: Artichoke; Asparagus; Beets (betalain); Broccoli; Brussels Sprouts; Cabbage; Carrot; Cauliflower; Celery; Eggplant; Green Beans; Green Bell Pepper; Kale; Leek; Mustard Green; Okra; Parsley; Parsnip; Peas (green); Red Bell Pepper; Spinach; Sweet Potato; Turnip; Yam; Yellow Squash; Zucchini.

Seeds, Sprouts, and Fiber: Amaranth Seed Sprout; Apple Pectin (fiber); Beet Fiber; Fennel (seed and bulb); Flax Seed Sprout; Kidney Bean Seed Sprout; Millet Seed Sprout; Pumpkin Seed Sprout; Quinoa Sprout; Rice Bran (soluble); Sesame Seed Sprout; Sunflower Seed Sprout.

Antioxidant Rich Fruit Orchard Matrix (with the essential sugars: Mannose and Glucose):

Açai; Apple; Apricot; Banana; Black Cherry; Blackberry; Blueberry; Cherry Extract (acerola); Cherry (tart); Cranberry; Elderberry; Goji (wolfberry); Grape; Grapefruit; Kiwi; Lemon; Lime; Mangosteen; Orange; Papaya; Pear; Pineapple; Pomegranate; Prune; Raisin; Raspberry; Rhubarb; Tangerine; Tomato.

71 Organically-bound Trace Mineral Matrix (full spectrum, plant-derived):

Colitis-Ulcerative Colitis-Irritable Bowel Syndrome-Diverticulitis-Leaky Gut Syndrome-Celiac Disease, Crohn's Disease & Ulcers(Stomach or Intestinal)

++ For **Colitis-Ulcerative Colitis-Irritable Bowel Syndrome-Diverticulitis-Leaky Gut Syndrome-Celiac Disease, Crohn's Disease & Ulcers (Stomach or Intestinal)** take: **Okra Pepsin E3** (by Standard Process) (1-2 at the start of meal or 5 a day), **ProSynbiotic**(by Standard Process) (1 at the start of meal or 3 a day) & **Innate Response GI Response powder 237 grams** (1 scoop with 8-10oz of water or beverage once a day). Taken at his dosage, one bottle of each of these products will last for one month. For a long standing digestive or bowel issue it would be advisable to take this for 1-3 cycles as if it took you a lifetime to get into the shape you are in, it will obviously take time to reverse these conditions.

simply heaven sent

By beebie on October 3, 2014

Verified Purchase

I have never found the need to leave reviews, but this time I think its worth it. I was very sick for 7years with very severe abdominal pain, weight gain around my abdomen, pale dark skin, red eyes, peeling lips, weak and broken unhealthy nails, i had no sex drive, infertility issues etc. I thought i was dying and without any proper diagnosis. All the tests and scans returned normal except for one that showed i had anemia...

After starting this product. ...my skin tone had a glow and my hair was looking and feeling full and strong. I was like wow, i am back! Then i realized i had a messed up mucus filled gut this whole time, no doubt!...i was feeling a lot lighter weight, no more

knee pain, no more food sensitivities and sleep was more relaxing as i was able to breath better. I slept more, cos the okra pepsin seemed to just relax me and make me sleep well. I am a happy woman once again. I have only taken this supplement for only 6days and its healed me so fast, i have 7weeks to complete the cleanse. This supplement has been a total miracle, it is simply heaven sent and whoever had the idea to make a life saver supplement like the okra pepsin is a genius. I got my healing.

Okra Pepsin E3---WORKED FOR ME --AWESOME

By William R Barney on April 10, 2011

Quick Note: This is the absolute truth:

Have had esophageal reflux/erosion with heartburn and gastritis for 30 years.

My Chiropractor told me to try Okra Pepsin E3.....& BAM!!!!

Better the first day, minutes after I took 2 capsules right after I ate!!!

I'M A BELIEVER DAYS LATER AND IT'S STILL WORKING!! AMAZING DISCOVERY FOR ME!!...:)

No more Tums, no more antacids, nor more quick fixes that dont last...this is lasting....

Okra-Pepsin saved my stomach from destruction

By Johnny K on July 22, 2011

I've had near-miraculous healings of organs from SP products. BUT: I've found you have to get the right product for you--not all of the items aimed at your symptom will work for your specific root cause of the symptom. This is why SP offer several choices for each organ. One is likely best. Speaking from much experience, if you feel your stomach/esophagus push back up on a medicine, that's a big sign your body doesn't want it!

Parasites and some other illnesses damaged my stomach. It was much worse than a simple ulcer. I tried the Zypan which is for low stomach acidity. It helped only for awhile because low acidity was not my root cause, it was just a superficial symptom of my severe stomach degeneration.

The pain got so I had to stop eating for a day at a time. My body began to waste away. I then tried the Okra-Pepsin.(I knew from experience okra is great for blood type O stomachs.) I felt relief from the first dose. Within just two weeks, it completely restored my stomach back to full strength. That was two years ago and my stomach is still 100%.

By Amazon Customer on November 21, 2015

Worked wonderfully for by IBS!

It takes its sweet time but oh sweet relief when it kicks in

By m steel on July 8, 2015

I purchased this in an attempt to clean out my small intestines. I have been suffering from extreme abdominal distention for about 5 years now. Three years ago I was 80lbs overweight and feeling really really bad. I slowly over 3 years have managed to chip off about 60lbs with 20 to go. As I have lost weight my abdomen would simple not go down at all, and was becoming more and more obvious. I cant wear any tight fitting shirt at all and I can only wear elastic waistband pants. Tender to the touch, my kids couldn't hug me without discomfort from my huge belly.

The only way I can describe it is I felt that my small intestine was clogged up with old dairy products, milk in particular. My gut instincts were telling me I was holding onto this rotten dairy. So gross and I had to rid myself of it somehow, someway. Enter okra pepsin. May 1 I began to take about 2 a day for a month, then I slowed down just due to

them being in a cabinet out of sight, but still I've taken about 3-5 **a week** consistently. So that's a little over 2 months. While taking these I've never felt any discomfort or any issues, just when I have a BM it has a different consistency. Other than that, no issues but no results either. I've been kinda disappointed I spent 50 bucks on something that isn't helping my HUGE belly. **Until this morning. All I can say is my intestines literally woke me at 5am. I could feel this stuff moving through me and OMG the sheer amount of putridness that exited me was unreal. And guess what the aroma was? Like nothing I have ever smelled. Best way to describe? PUTRID DAIRY.**

It took me about an hour to sit with my green tea after and contemplate how I was feeling physically. The stomach pain IS GONE. The distention IS GONE. The rotten of my insides IS GONE. I feel amazing. If you have my symptoms, try my elimination of milk and or coffee. And give this Pepsin time to work on your guts, it takes time to undo the clogging up of our pipes. I am a new woman right now and I just had to share it with others contemplating shelling out 50 big ones on this stuff. Its worth it. Your health is worth it. You have nothing to lose except excess intestinal build up. God Bless.

Dr. Johnson's Comment: I sell this product for 51.00 for a 150 ct bottle and 17.00 a bottle for a 40ct bottle whereas if you purchase this product off Amazon, see below:

[Innate Response GI Response powder 237 grams](#)

Product Description

GI Response is a practical, carefully crafted, **comprehensive gastrointestinal support that features clinically studied ingredients at clinically studied dosages.** This synergistic formula includes GI targeted botanicals, nutrients and amino acids is aimed at supporting and improving the integrity of both the upper and lower gastrointestinal tract. GI Response is a safe, effective method of optimizing the lining and permeability of the intestinal system. In addition to incorporating the researched dose of glutamine (5 grams), a highly stable, clinically proven amino acid combination of glutamine and alanine, called Sustamine has been included. Studies have shown this innovative ingredient as having a positive impact on electrolyte absorption and improving transport channels in the GI tract. Additional botanicals, amino acids and digestive enzymes are complementary inclusions chosen for their ability to support a healthy, well functioning digestive system. GI Response is a breakthrough formula providing an exceptional answer to the ever-increasing demand for nutritional digestive support formulas.

[Thankful to innate](#)

By fuxi305 on March 6, 2014

GI Response was recommended to me by a naturopathic doctor and it changed the quality of my life. Since started using it I do not require any medication. I am about to finish my first container of GI Response, using it only 1-2 per week when I "cheat" on my diet.

The taste is very pleasant.

Great Product!

By Alan Tan on December 4, 2013

Had loads of GI problems before I took this. IBS, indigestion, irregular and possible leaky gut. While my issues have not disappeared 100%, there have been tremendous improvements and everything is now mostly under control.

Recommend this product

By Melba Davidson on October 14, 2013

Recommend by my doctor. This is one of the few products that helps with IBS problems. Would recommend this product.

Love it

By Koko on March 31, 2013

This product works for me! I'm told this will heal my stomach ulcers, I know it feels better. You have to love a product that will do that and taste good too.

Great product for leaky gut

By Craig Mankiewicz on January 2, 2013

My ND suggested I take this supplement for leaky gut syndrome. I have been taking 1 scoopful / day and seeing excellent results. You can throw it in a smoothie, orange juice, or simply with water as it has a great raspberry taste and sweetened with stevia.

ProSynbiotic by Standard Process

Product Description

ProSynbiotic is a synergistic blend of 4 research-supported probiotic strains and 2 prebiotic fibers to support gut flora and overall intestinal health. * Contains research supported strains of lactic acid bacteria (Lactobacillus and Bifidobacteria), and Saccharomyces cerevisiae var. boulardii * Contains inulin, a non-digestible, soluble fiber from chicory root and galactooligosaccharide (GOS), a non-digestible carbohydrate, both of which are used by probiotic bacteria as food * Useful in maintaining a healthy gut microbial environment * Contributes to absorption of calcium and magnesium * Improves nutrient digestion/absorption * Supports normal bowel regularity and consistency * Supports the body's natural immune response†

4.6 out of 5 stars

Fabulous Results in just 2 days

By Angela B. Knight on February 14, 2012

In 2 days taking **ProSynbiotic** I have felt a marked improvement in my overall sense of body well being. I have experienced a significant relief and relaxation in my body on this particular probiotic that I haven't experienced with any other. Everyone is different, but for me this is an awesome product in every sense of the word. I have been tackling an ongoing candida imbalance, and this blend of probiotics and pre-biotics is hitting the

spot for me. I've tried maybe 4 other probiotics before this including ThreeLac and PB-8. Whatever is in Prosynbiotic is something my body was definitely missing. After 2 days taking this morning and evening a tension in my neck and lower back just released. I had not thought it as nutrition related, but evidently it had to do with my gut health. I recommend this product for anyone searching for a probiotic to balance gut flora, especially if you as battling candida.

ProSynbiotic--Wonderful supplement!

By E. Calvert on April 7, 2013

I've taken this supplement for more than two years and have never had any negative side effects from a heavy course of antibiotics and from pain relief drugs after several surgeries. I will never be without it and can only recommend it with the highest level of enthusiasm... It also does not need to be refrigerated!

By E. Calvert on January 5, 2014: I use both ProSymbiotic AND Saccharomyces on a daily basis for support in treatment of chronic Lyme disease. I have had NO problems in the past two years while taking strong doses of a variety of antibiotics...I swear by both these supplements. Dr. Comment: The ProSymbiotic contains Saccharomyces so it is really redundant to take both separately.

ProSynbiotic--A great body regulator - easy and pleasant to take

By Kathy on August 10, 2011

I have always had unpredictable bowel movements even though I follow a healthy diet with lots of fiber, juices and fruits.

This is like a miracle, my body is regulated - no more surprises or running to department store bathrooms. Also, no pain or straining either - just like your body should work. It also helps with digestion - I used to be a real antacid junkie and now it is rare to need one.

Highly recommend and my husband and I are real fans of Standard Process products.

ProSynbiotic--it works

By Hlsley on November 27, 2012

This product works like I expected it to, helps with my digestion. I think it's a supplement everyone should take if they are prone to IBS, have Celiac Disease or Crohn's symptoms. It also works great if you are prone to systemic Candida issues (from being on too many antibiotics). It's gentle on the gut and never makes me ill.

Great item

ByJane on November 9, 2015

Love these ProSynbiotics. I have stomach problems and these help balance it out.

The Best Probiotic I've Used

By Ali on September 7, 2015

Great product...taking one capsule at bedtime.

Five Stars

By catmom7 on April 26, 2015

best probiotic of all

I also feel like my sinuses drain better

By sandy83 on October 17, 2014

I purchased my first bottle at the recommendation of my chiropractor to help with digestive issues. I used to get headaches about every other day, but I've only had a handful of headaches in the past few months since I started taking the ProSynbiotic. I

also feel like my sinuses drain better, which is probably the reason for so fewer headaches. I take one every morning and then another with the evening meal. I definitely recommend these!

Five Stars

By MnM on July 7, 2014

Standard Process is the BEST first of all... With that being said, this product helps me digest food better!

Immunity Booster

By jennifer g on July 19, 2013

This product, when taken as directed, regulates digestion and boosts immunity. I highly recommend it for general health and well being.

will reordr

By MJon January 11, 2013

I've taken this product before and will continue to do so. It is one of the only shelf stable probiotics out there that seems to hold...potency.

Dr. Johnson's Comment: On Amazon you will pay \$57.87+ \$4.64 shipping for the: [Standard Process ProSynbiotic 90...](#) I charge 39.00 per bottle plus shipping.

Also for a full body cleanse with an emphasis on liver and gallbladder I recommend:

[Livaplex®](#) 6 a day for a month. (90ct) is 22.00

[Choline](#) 6 a day for a month. (90ct) is 13.00

[SP Cleanse®](#) 10 a day for a month. (150ct) is 24.00

All these detox products are made by Standard Process. You would need two bottles of each of these products to complete a one month cleanse.

Dr. Johnson carries the products above. For more information, pricing and ordering you can email him at: drjohnson@ix.netcom.com

From: Alicia

To: Dr. Scott Johnson

Subject: [Contending for Truth:] Stevens Johnson Syndrome

Hi my name is Alicia I had steven johnson syndrome in 2014 i was put on lamictal because i have mental health issues and they wanted to regulate my mood. From what I understand it never goes away and because i have skin issues i got hsv 1 in my eyes and have to take valtrax but my body is reacting to every chemical i take. I am on ssi because of mental health issues and working in those root issues with my pastor and asking for Healing to God. I have foul smell in my nose and know i need to get checked but I keep getting pushed to put more meds in my body and my body cant take it anymore. I wish i could find a holistic doctor but i cant afford it and they usually are into the new age i stumbled across your video about putting colodial silver in the eyes for eye infection i have discharge coming out and itchy skin everywhere and do not know what to do. is there an essential oil or treatment i can do and what should i eat cause i know it has a lot to do with my nutrition. I am tired of the medical industry i keep getting worse. I was taking vyvanse but i stoped it because i got scared it was activating the sjs

to come up in my skin & do not know what to do. Trying to trust God, about to do a study on fear to help me right now.

Dr. Johnson's Response: Alicia: **Ok this is a new one to me but based on what you said & this:** *Stevens–Johnson syndrome, a form of toxic epidermal necrolysis, is a life-threatening skin condition, in which cell death causes the epidermis to separate from the dermis. The syndrome is thought to be a hypersensitivity complex that affects the skin and the mucoous membranes. The most well-known causes are certain medications (such as lamotrigine), but it can also be due to infections, or more rarely, cancers.^[1]*

Yes based on past experiences with patients I feel the supplement protocol below could only help immensely, but I would give this at least two months:

Dermatrophin PMG® by Standard Process 6 a day split up dosage with food

Antronex® by Standard Process 6 a day split up dosage with food

I would also heavily recommend a full body cleanse with a emphasis on liver and gallbladder I recommend:

Livaplex® 6 a day for a month

Choline 6 a day for a month

SP Cleanse® 10 a day for a month

These detox supplments are from Standard Process. You would need two bottles of each of these products to complete a one month cleanse.

I will pray for you. God bless you!

Dr. Johnson
