PRESIDENT BUSH DECEIVING GENUINE CHRISTIANS AGAIN -- THIS TIME, HE IS PUSHING FOR THE TEACHING OF "INTELLIGENT DESIGN" ALONGSIDE EVOLUTION IN PUBLIC SCHOOLS - "**Intelligent Design**" is **NOT Biblical, but has its original roots in 19th Century Deism; in the New Age Movement; and currently in pseudo science and mathematics which disbelieves both Darwinism and Biblical Creationism.** Yet, **most Christians are believing that "Intelligent Design" is Christian!**

Proverbs 18:13: "He that answereth a matter before he heareth it, it is folly and shame unto him."

Dr. Johnson's Comment: Deism is a system of religious opinions of those who acknowledge the existence of one god, but deny any revelation from that god. It is a religion whose doctrine and practice are discovered by man, through the process of reason, independent and exclusive of any revelation from God. Deism beckons man to trust in his own heart for life's answers.

All Bible verses are quoted from the Authorized King James Version.

Proverbs 14:12, 16:25 : "There is a way which seemeth right unto a man, but the end thereof are the ways of death."

Jeremiah 17:9 : "The heart is deceitful above all things, and desperately wicked: who can know it?"

Proverbs 28:26 : "He that trusteth in his own heart is a fool..."

II Tim.3:5 : Having a form of godliness, but denying the power thereof: from such turn away.

Patrick Henry said: "The view which the rising greatness of our country presents to my eyes, is greatly tarnished by the general prevalence of deism, which, with me, is but another name for vice and depravity." (Noah Websters 1828 American Dictionary)

Satan is an incredible deceiver of mankind. He deceived Eve in the Garden of Eden, convincing her that she would be like the gods, knowing good and evil if she would just partake of the

forbidden fruit, and convincing her that God really did not mean what He said when He told her she would die if she ate of the fruit.

Satan is telling these two lies on a grand scale today in the New Age Movement, as tens of millions of people are striving mightily to "achieve their godhood" through prescribed daily rituals and meditations. The New Age Movement also teaches Reincarnation, which is the Deceiver's slick attempt to persuade people that they really never die, but come back in a different human body almost endlessly.

[Hebrews 9:27](#) And as it is appointed unto men once to die, but after this the judgment:

The New Age Movement also spawned a very big lie in the mid-1990's when her authors suddenly began teaching a new version of creation. Instead of teaching Evolution, their authors suddenly began to acknowledge that a "design" was too evident in science and Nature to be ignored; therefore, since a design presupposes a "designer".

[Gen 3:1](#) Now the serpent was more subtil than any beast of the field which the LORD God had made. And he said unto the woman, Yea, hath God said, Ye shall not eat of every tree of the garden?

According to Webster's 1828 Dictionary the word subtil in the context of this verse means: "sly, crafty, deceitful, insinuating"

New Age authors began to teach an "Interventionist Creation", where Aliens came to Earth many millions of years ago, created Earth as we see it here, including humans, and then left. The natural processes of Evolution and Natural Selection then completed the task of creating the world as we see it today, operating according to the scientific laws which the Aliens had originally set in motion.

Today, that New Age theory that super-intelligent Aliens intervened in world history at just the right time to create the world as we know it today has emerged with a new name and with pseudo-science and mathematics to make the concept believable; the term for this "new" theory is "*Intelligent Design*". So in other words mankind descended from aliens claiming to be gods, which leads to the next Satanic lie:

[Gen 3:2-5](#) "And the woman said unto the serpent, We may eat of the fruit of the trees of the garden: But of the fruit of the tree which is in the midst of the garden, God hath said, Ye shall not eat of it, neither shall ye touch it, lest ye die. And the serpent said unto the woman, Ye shall not surely die: For God doth know that in the day ye eat thereof, then your eyes shall be opened, and ye shall be as gods, knowing good and evil."

Furthermore, political pressure from key leaders across this land has begun promoting "Intelligent Design" as curricula to be taught along with Evolution in Public Schools. Recently, President Bush joined this political chorus. Let us begin our study at this point.

NEWS BRIEF: ["Bush: Schools Should Teach 'Intelligent Design' Alongside Evolution"](#), Fox News, August 01, 2005

"WASHINGTON — President Bush said Monday he believes schools should discuss "intelligent design" alongside evolution when teaching students about the creation of life ... Bush declined to go into detail on his personal views of the origin of life. But he said students should learn about both ideas .. 'I think that part of education is to expose people to different schools of thought'...."

[James 1:8](#): "A double minded man is unstable in all his ways."

"The theory of intelligent design says life on earth is too complex to have developed through evolution, implying that a higher power must have had a hand in creation. Christian conservatives — a substantial part of Bush's voting base — have been pushing for the teaching of intelligent design in public schools." This is beyond a compromise!

[Gal 5:9](#): "A little leaven leaveneth the whole lump."

If Christian conservatives are backing President Bush on the teaching of "Intelligent Design", does that mean this concept is Biblical?

If political figures -- which have heretofore pushed Evolution in Public Schools -- are now willing to teach that the universe was created by a "*higher power*", does that mean this concept is Biblical?

Since the 1980s advances in biology have convinced a new generation of scholars that Darwin's theory was inadequate to account for the sheer complexity of living things. These scholars began to reconsider design theory. They formulated a new view of design that avoids the pitfalls of previous versions. Called intelligent design (ID) ... this new approach is more modest (**subtil**) than its predecessors. **Rather** than trying to infer God's existence or character from the natural world, it simply claims "that intelligent causes are necessary to explain the complex, information-rich structures of biology and that these causes are empirically detectable." Note that the creators of Intelligent Design did not attempt to "infer God's existence or character" from their observations regarding an incredibly complex world -- a world which they acknowledge could not have possibly come into existence on its own, through limitless accidents over billions of years.

[Psalm 14:1 & 53:1](#): "The fool hath said in his heart, There is no God. They are corrupt, they have done abominable works, there is none that doeth good."

[Rom 1:20-22](#): "For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead; so that they are without excuse: Because that, when they knew God, they glorified him not as God, neither were thankful; but became vain in their imaginations, and their foolish heart was darkened. Professing themselves to be wise, they became fools..."

Among other things, The God of the Bible intended that man would come to a knowledge of Him, His Son, and His Gospel through observations they made in Nature. Therefore, it is unbiblical to the highest degree to recognize that a super-intelligent creator had to have designed this world, but stop short of identifying Him as Jesus Christ (John 1:1-14 and Romans 1:18-25).

On this point alone, Intelligent Design is shown to be unbiblical and, therefore, unworthy to be supported by genuine Christians.

I.D. supporters admit that "super intelligent aliens" could have created this world:

"God could have designed the universe to produce life by random events following laws of nature. God could have created super intelligent aliens who are experimenting with natural selection. Super intelligent aliens could have evolved by natural selection and then introduced the process on our planet." (Ibid.)

Unlike earlier generations of creationists ... proponents of intelligent design do not believe that the universe was created in six days, (Indeed, they shun the label "creationism" altogether.)
(Emphasis added)

This reality should be enough to persuade any Fundamental, Bible-believing Christian that Intelligent Design is not Scriptural and should, therefore, not be supported by any Christians. Yet, the Fox News article, quoted above, clearly states that Conservative Christians are pushing President Bush hard to support Intelligent Design, which he clearly has now done. Furthermore, in searching for information on this theory, I noted that a number of Christian organizations are supporting I.D.

Intelligent Design. is generally silent about the identity of the creator – But No Bible-believing Christian should remain silent about the identity of the Creator -- His Name is Jesus Christ --

John 1:1-5: "In the beginning was the Word, and the Word was with God, and the Word was God. The same was in the beginning with God. All things were made by him; and without him was not any thing made that was made. In him was life; and the life was the light of men. And the light shineth in darkness; and the darkness comprehended it not."

Then, just to make sure that the reader understood that the Word was Jesus Christ, the Holy Spirit inspired John to write, in verse 14: "**And the Word was made flesh, and dwelt among us...**"

"The concept of the ID movement has attracted a number of Christians, including believers in literal Genesis Creationism, who see it as a helpful new strategy to crack the foundation of evolution, which under girds most of the world's cultures and schools ... Many Biblical creationists realize that the Intelligent Design 'doesn't go as far as we like', but think that this is a reasonable compromise for what they see as a potentially effective strategy. They reason, 'Let's just get the camel's nose inside the tent, then we can concentrate on these other issues. Let's win one battle at a time.' " (Ibid.)

This sounds like the old adage that "any enemy of my enemy, is my friend". While that adage may hold some attractiveness in human philosophy, it is totally unbiblical. However, Christians during this era have taken a number of positions based upon pragmatism (OR INTERMEDDLING WITH THE WORLD) rather than the Word of God.

II Cor. 6:14-17: "Be ye not unequally yoked together with unbelievers: for what fellowship hath righteousness with unrighteousness? and what communion hath light with darkness? And what concord hath Christ with Belial? or what part hath he that believeth with an infidel? And what agreement hath the temple of God with idols? for ye are the temple of the living God; as God hath said, I will dwell in them, and walk in them; and I will be their God, and they shall be my people. Wherefore come out from among them, and be ye separate, saith the Lord, and touch not the unclean thing; and I will receive you..."
