Teaching Overview: After enduring eight years and over 11,000 missile attacks from Gaza's Arabs, Israelis in range of the Islamic rockets voiced relief as the Olmert government finally gave the Israel Defense Forces the green light to stop the "Palestinians" from terrorizing them. Palestinian cleric Muhsen Abu 'Ita in a televised interview said; 'The annihilation of the Jews here in Palestine is one of the most splendid blessings for Palestine'." This statement should wake anyone who is still under the assumption that peace can be realized between Israel and the Palestinians if Israel just makes enough concessions; the slate of concessions starts with carving Biblical land out of the Jewish state so the Palestinians can have their state. Just as Yassir Arafat used to say, his goal was to make the Jews drink the water from the Mediterranean Sea, a euphemism which meant that his goal was to annihilate all Jews and take all Israel for the cause of Islam. Hamas is rock-solid in its opposition to the Palestinian President Abbas (a freemason), knowing that his intention is to deliver the Palestinian people to support the creation of the Palestinian State, working in

cooperation with Western Freemasonry. We will be looking at how Jerusalem plays into this debate, while also taking another look at the hypocrisy of the Islamic religion. Also how these events could ultimately play into the formation of the coming one world religion under the Antichrist.

As Israel continued her heavy aerial bombardment of Hamas targets in The Gaza Strip, her leadership became more bold in stating that their real goal is to overthrow Hamas.

NEWS BRIEF: "[Israel vows to sweep Hamas from power](#)", Times Online (London), December 30, 2008

"Israel vowed yesterday to sweep Hamas from power in Gaza, pledging 'all-out' war and promising to smash every building linked to the Islamist movement."

This is quite the declaration, don't you think? Just hours after the aerial bombardment began five days ago, Israeli leadership sought to play down the possibility that Israel might launch a ground assault so it could sweep Hamas from power. Oh, no, cooed Israeli leadership, the only objective is to stop the terror rocket attacks against Israeli civilian targets across the border from Gaza.

In our Monday News Alert (12/29), we noted that Israeli leaders had used the term, 'all-out war' and reported that the normal meaning of that term is a complete destruction and/or overthrowing of the enemy. Now, Israeli leaders are more boldly stating their true intentions.

This next news segment makes this agenda crystal clear.

" 'The goal of the operation is to topple Hamas', Haim Ramon, the deputy to Ehud Olmert, the Prime Minister, said. It was the first time since it launched its blistering offensive that Israel has openly stated that regime change is its ultimate goal. 'We will stop firing immediately if someone takes the responsibility of this government, anyone but Hamas', Mr Ramon said. 'We are favourable to any other government to take the place of Hamas.'

As we have stated in the past, Hamas is rock-solid in its opposition to the Palestinian President, Abbas, knowing that his intention is to deliver the Palestinian people to support the creation of the Palestinian State, working in cooperation with Western Freemasonry. We have also shown that at least some of the Palestinian leadership knows that the ultimate goal of the Palestinian State is the complete annihilation of the Palestinian people (Read [NEWS1625](#), where a Jewish professor stated that "ethnic cleansing" of all Arabs within Israel was Jewish State's ultimate goal).

Hamas, in the meantime, made it quite clear that they are such a danger to Israel that they invite the IDF to topple them!

NEWS BRIEF: "[Hamas Knows One Big Thing](#): 'The annihilation of the Jews here in Palestine' ", by Bret Stephens, The Wall Street Journal, December 30, 2008

"If only it were a parable, the endless confrontation between Israel and its enemies would be the case of the hedgehog and the fox. The fox, said the Greek poet Archilochus, knows many things, while the hedgehog knows one big thing ... Today, however, it is Israel that has assumed the role of the fox ..."

"By contrast, it is Israel's enemies who have become the hedgehog, none more so than Hamas ... Hamas knows one big thing, which it labels 'resistance' or, for Western audiences, 'ending the occupation'. Just what that means was made clear by Palestinian cleric Muhsen Abu 'Ita in a televised interview. 'The annihilation of the Jews here in Palestine', he said, 'is one of the most splendid blessings for Palestine'."

This statement should wake anyone who is still under the assumption that peace can be realized between Israel and the Palestinians if Israel just makes enough concessions; the slate of concessions starts with carving Biblical land out of the Jewish state so the Palestinians can have their state.

Just as Yassir Arafat used to say, his goal was to make the Jews drink the water from the Mediterranean Sea, a euphemism which meant that his goal was to annihilate all Jews and take all Israel for the cause of Islam.

Now you know that Israel is facing an implacable foe, one that will always be striving to destroy her. For this reason, the decision was taken in 1990 at the highest levels of the Israeli government -- by both civilian and military leadership -- to annihilate Arab states during the next Arab-Israeli war. Please take a moment to read this incredible story in [NEWS1422!](#)

The [Oslo Peace Accord](#) is nothing more, nor less, than the most sophisticated trap for the Palestinians the world has ever seen. Once the Palestinians possess their own nation, Israel will probably authorize the controversial "right of return", allowing Palestinians throughout the Middle East to come to the new Palestinian State. Once this concentration of Palestinians is achieved, then Israel can wipe them out with "fire" as the Obadiah 15-18 prophecy declares. At this point, Israel will have also won tremendous victories over the armies of Lebanon, Syria, Jordan and Egypt, and will be expanding her control outward to "Greater Israel". To understand the "Greater Israel" prophecy, please read the book, above, ["Isralestine"](#), and you will learn that fulfillment of key prophecies is going to glorify the name of God wonderfully throughout the whole world.

You will also realize that, despite the venomous statement by Hamas leadership, above, God's people will survive and prosper as God delivers all Israel's enemies into her hand. These are glorious times in which to live as we are about to see God's power and authority as never before, as His 2,000 - 2,600 year prophecies begin to be fulfilled! <http://cuttingedge.org/newsletters/>

IDF finally acts to defend Israelis in the south

After enduring eight years and thousands of missile attacks from Gaza's Arabs, Israelis in range of the Kassam and Grad rockets at the weekend voiced relief as the Olmert government gave the Israel Defense Forces the green light to stop the "Palestinians" from terrorizing them.

Finally unleashed, in "Operation Cast Lead," the IDF used its pilotless drones to target Hamas sites across Gaza which were then devastated by missiles fired from IAF warplanes high above the strip.

In what was described as the most intensive Israeli military action in Gaza since the 1967 Six Day War, air force pilots flew at least 140 sorties in two days, sending fireballs and plumes of smoke shooting up from targets across the area, while international reporters stood behind the fence on the "Israeli side," flinching at the detonations shaking the ground.

Most the world seethes as Israel defends itself

The international community was in uproar at the weekend following Israel's decision to finally act against the relentless rain of rockets on Jewish communities in the south of the country. Only the United States and Great Britain indicated an understanding ...

Arab world reacts to, vacillates over, Israel's strike on Gaza

The Arab and Islamic world, which has rejected Israel's right to exist in "their" Muslim Middle East, which has leveled both passive and active aggression against the Jewish state for decades and which has supported the establishment in Gaza of a base for anti-Israeli terrorism fumed Sunday at Israel's successful smashing of Hamas' terrorist infrastructure in the strip.

According to international media reports, these nations reacted with shock to Israel's attacks, with protests around the region and calls for retaliation against Israel.

They also appeared to have been caught flat-footed by the speed and ferocity of the Israeli attack, and were unprepared to respond in a united way.
