Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. But all things that are reproved are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. See then that ye walk **circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive **the very elect.**"

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we **are not ignorant** of his devices."

II Chronicles 7:14: "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Obama Talks 'Martial Law' And 'Conspiracy Theory' As US Army Insider Warns Globalists Using Chaos To Bring Down America

By Stefan Stanford - All News Pipeline - Live Free Or Die

In a story from Breitbart on Saturday we learn that current US president **Barack Obama is complaining about conservative media 'pumping out all kinds of crazy toxic stuff' such as the possibility of martial law in our futures, a government round up of guns in the middle of the night and even Obama himself 'creating hurricanes'.**

"They'll warn that tyranny is always lurking just around the corner. You should reject those voices."

Meanwhile, I'll:

- Wiretap the press
- Use the IRS to target my enemies
- Fight for the use of drones on my own people
- Deny access to unfriendly reporters
- Leave inconvenient diplomats to die at the hands of terrorists
- Fight endlessly to take your guns
- Take over your health care system, which will be run by the same people that are targeting problematic Americans
- Regulate your business out of existence
- Force dependency on the state by destroying the economy

Is there a problem?

While millions of unaware Americans who have never studied government weather modification documents, or read Steve Quayle's book on weather warfare or read the actual weather modification patents, might actually BELIEVE the 'conspiracy theories' **Obama is spewing**; anybody who has been paying

attention to events across America and around the world, knows better. **As we hear in all 3 of the new videos below, we are closing in on very difficult times here in America due to decisions made by those who'd like nothing better than to 'lord over' all of humanity for eternity.**

Like a boot stamping upon a human face forever, only the completely ignorant or naive still believe what we're being told by those who have long been attempting to bring down our current system and destroy our country. As we hear in the 1st video below featuring Lt. Colonel Anthony Shaffer and [Alex Jones from Infowars](#), **we're getting more and more proof that Hillary Clinton, Obama and the globalists working to complete their overthrow of America, & will be using massive chaos in our country to do so.** And as we see and hear in the 2nd video below, massive preparation is still taking place, right now in Boston, Massachusetts and elsewhere throughout America, for something absolutely huge in our futures.

++ SHOCK FOOTAGE: Clinton Foundation Devastation Of Haiti Revealed

You know Gary Heavin best as the producer of Amerigedon, the hit movie from this past summer in which UN led forces taken over the American military and launched an EMP against the American people.

Gary is also fighting another battle, a life-saving battle in which he has already spent millions of dollars of his own money while he is risking his life trying to save the lives of 1.4 million Haitians who have been victimized twice. Haitians have been victimized by the weather, in Hurricane Matthew, **and most of all the people of Haiti have been victimized by the Clinton Foundation and UN. The UN is nowhere to be found with regard to providing relief efforts despite the rampant starvation and outbreak of water borne diseases (e.g. cholera).**

Mostly complicit in the victimization of the Haitian people **is the Clinton Foundation who has received \$2 billion to provide relief efforts and they are nowhere to be found. And why isn't the media covering this? Simple, they don't want Haitians saying on camera that the Clintons are thieves and their actions have and will cause a large loss of life.** Subsequently, America sits in blissful ignorance as incredibly brave people like Gary Heavin who risks his life while spending millions of his own money. Meanwhile, the Clinton Foundation absconds with relief effort monies and uses that money to help Hillary get elected.

In a recent interview Gary stressed that he is finding out, first hand **what it is like to live through the aftermath of an EMP event. The stories that he tells about the emerging humanitarian crisis, the rampant violence and criminality, as well as the sheer desperation of the people in Haiti is frightening beyond belief. These events could soon be visited upon America if we were to be attacked by an EMP.**

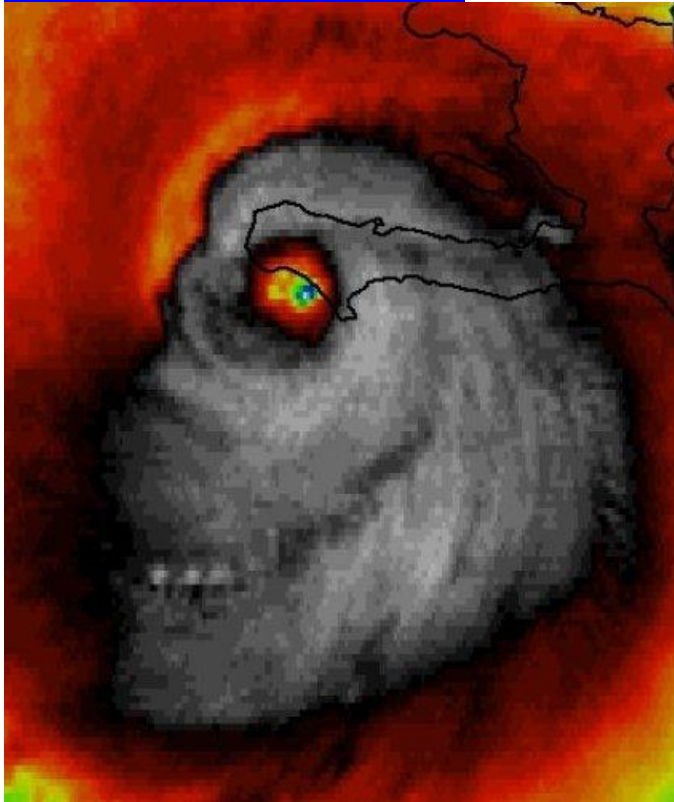

Gary Heavin has a relief effort set up that all of us can contribute to. Your contribution will save lives. Please donate to: www.ferha.org

SCARY SATELLITE IMAGE SKULL OF MATTHEW

President Obama issues executive order to prepare for severe space weather
Extreme weather on earth can cause major devastation. But scientists said it would pale in comparison to what a major solar storm could do.

"If we get a direct hit here on earth, it can cause our power grids to go down. It can damage our satellites," said Dr. Valerie Rapson an astrophysicist for the Dudley Observatory at miSci in Schenectady.

Dr. Rapson said depending on the severity of the hit, it could even threaten life here on earth. Here's how it could happen. Solar flares originate from explosions on the surface of the sun. They're like a million nuclear bombs exploding at the same time, according to scientists.

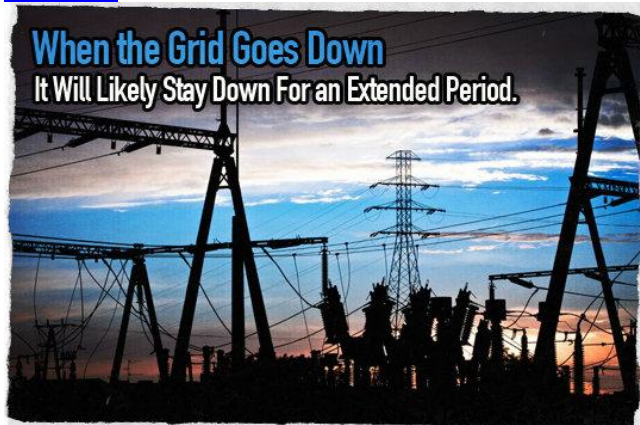

"The explosions are very strong. This high energy radiation like x-rays and gamma-rays, they can be very dangerous," Dr. Rapson said.

The dangerous rays travel through space. Earth has been hit a few times in history. The last big one was in the mid 1800's. But today with technology so vital to everyday life, a direct hit could be devastating.

"Our biggest danger is really kind of frying the satellites or sending a power surge through our power grids and knocking out power for a majority of the country or even the world," she added.

Play the first video here: <http://wnyt.com/news/solar-flares-earth-sun-storm/4290555/>

Fox News—If The US Grid Goes Down, Most Americans Will Be Dead Within 60 Months

We are not ready for either the hand of God or the hand of man when it comes to protecting our sensitive electrical power grid. A bad solar flare or an electro-magnetic pulse attack by America's enemies would result in the death of most of our citizens within five years.

Powerful solar flares can damage integrated circuits and our electrical transmission systems. The chance of a devastating event is much higher than

most people assume. In fact, NASA estimates a 12 percent chance of a really bad solar flare within the next decade. The scariest part of this scenario is that we already came within a week of this nightmare happening in 2012. A train of "coronal mass ejections" created a stream of high energy particles strong enough to melt our electrical grid. The storm only missed Earth by an astronomical whisker.

As it stands right now, when this eventually happens (and it will) high energy particles will penetrate our "planetary shield"—the magnetosphere—literally melting hundreds of massive transformers. It would take years to manufacture, transport and replace these essential transformers. In the meantime, water treatment pumping stations, as well as every other modern convenience, would cease to function.

If a trip back to 1800's sounds romantic, think again. Without clean water, millions would die within weeks. Without working transportation or refrigeration our food supply and distribution system would collapse and antibiotics would begin degrading. Those without refrigerated insulin would die first, followed by the deaths of millions more from cholera and dysentery (from drinking unclean water) and from starvation.

Forget the zombie apocalypse. This is a real world disaster. Good neighbors would soon become desperate and social order would break down as parents did anything they had to do to feed their children. Bad people would be free to pillage because experts predict law enforcement would be crippled as any kind of electrical communications would die and officers would rush home to protect their own families.

When we were last hit with a super energetic solar storm in 1859 the "high-tech" infrastructure of the day consisted only of telegraph lines and stations. The lines melted and papers caught on fire on telegrapher's desks. But 1859 gravity-fed water systems and local farms meant that life continued without interruption. Our complete dependence on the technology we take for granted means we would not be so fortunate today.

Unlike the "Carrington Event" in 1859, we now also face the wrath of man when it comes to damage to the electrical system modern civilization so depends upon.

The effects of an EMP attack on our technology are nearly identical to those caused by a severe coronal mass ejection. An EMP could be triggered by a high altitude detonation of a nuclear weapon over America. From the ground it would likely not be

seen, heard or felt but even without blast damage the consequences for our electrical system would be nothing short of devastating.

Our government has recently awoken to the warnings of the National Oceanic and Atmospheric Administration (NOAA), NASA and various other government studies and even a dire assessment by Lloyd's of London. Recent announcements have been issued that promise our government officials will gather together scientists and agency officials to examine the clear and present danger that could turn America into a third-world nation in a blink of an eye.

In the event this happens the focus of government will be to save government.

“Continuity of Government” is the term for sheltering favored officials and their families from nuclear attacks in well-fortified and provisioned facilities while citizens are left to wait to fend for themselves. In the case of either an EMP attack or a severe coronal mass ejection, that help could come according to some studies, only after as many as 80-90 percent of us had died.

“Hardening” the grid is possible to protect our systems from a meltdown. This is an infrastructure project that should have started years ago. Pre-placement of emergency food and medicine and distribution plans aimed at average citizens should be developed right now in case hardening comes too late.

Here is national infrastructure spending that should have the support of every citizen and every politician...before it really is too late.

The United Nations Just Officially Announced a Global Communist Takeover, The New World Order Reconvenes

09/25/2016 -- A long-held conspiracy theory yet again gets proven true. **The UN at the seventy-first regular session has aggregated the role of the United Nations in promoting a new global human order into their agenda.** In addition to the aforementioned under section A. titled, *"Promotion of sustained economic growth and sustainable development in accordance with the relevant resolutions of the General Assembly and recent United Nations conferences,"* **is also the plan for total Globalization and interdependence.**

Under the allocation of Agenda items resides **the declaration of a formation of a new global human order.** Adopted by the General Assembly at its 2nd plenary meeting, on September 16, 2016. **The official adoption of such ideology brings to light the global conspiracy against humanity to form a New World Order, as mentioned by world leaders and select governmental officials.**

[Download](#)

Contained within the Global Sustainable Development goals, or Global Goals is **the practical declaration of war against the common man.** Conceived originally on November 29th, 2000 and adopted by the General Assembly at the 74th plenary meeting **is "The role of the United Nations in promoting a new global human order."**

[Download](#)

Tied **directly to the Sustainable Development goals is the plan for a New World Order meaning that in September 2015 when the Global Goals were adopted, so was the official declaration and adaption of the agenda for a New World Order.**

(To download the following PDFs just click the link)

Secondly, **in addition to the adoption of a new global human order to their agenda for the 2016 year, is the plan to revoke the need for national borders and national sovereignty.** Under section 21 is the further adoption of interdependency and globalization.

- [-A/res/69/227](#) — [Download](#)

(A) – Role of the United Nations in promoting development in the context of globalization and interdependence

- [-A/res/62/199](#) — [Download](#)
- [-A/res/70/549](#)

(B) – International migration and development

- [-A/res/48/113](#) — [Download](#)

- [-A/res/69/229](#) — [Download](#)

In conclusion, and with undeniable evidence provided, the end goal of the United Nations is total control under a communist style central government. The ideology of communism is actively fueling the “revolution” called Sustainable Development. Every action taken by the UN is in itself a move towards the Communist New World Order.
