Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive **the very elect**."

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we **are not ignorant** of his devices."

II Chronicles 7:14: "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

[George Soros letter reveals globalist plan to destroy the First World by eliminating national borders with global migrant blitzkrieg invasion](#)

(NaturalNews) As the Left continues to battle for America's soul, **its greatest champions are going full-out in an attempt to turn the tide any way they can – even if it means destroying the country.**

One of the vilest among them is billionaire George Soros, who now seeks to demolish the country that gave him his riches along with its allies.

As reported by *Breitbart London*, Soros recently publicly confirmed that, **yes, he seeks to essentially wipe out all European borders following an accusation made last week by the prime minister of his birth country Hungary, Viktor Orban (who, unlike Soros, actually has to deal with the tens of thousands of second- and third-world migrants streaming into his country and other European nations – while Soros lives free of such inconveniences [in his \\$10 million mansion/castle outside of New York City](#)).**

In recent days, Orban has accused Soros of deliberately encouraging the migrant crisis now engulfing the continent.

"This invasion is driven, on the one hand, by people smugglers, and on the other by those (human rights) activists who support everything that weakens the nation-state," Orban said. "This Western mindset and this activist network is perhaps best represented by George Soros."

Following Orban's statement, [Soros sent an email](#) to *Bloomberg Business*, in which he claimed that his foundations actually help "uphold European values," while Orban's actions in bolstering the Hungarian border and thus impeding a huge influx of migrants "undermine those values."

"His plan treats the protection of national borders as the objective and the refugees as an obstacle," Soros added. "Our plan treats the protection of refugees as the objective and national borders as the obstacle."

In October, Orban accused **pro-immigration non-governmental organizations (NGOs)** of "drawing a living from the immigration crisis." He singled out those funded by Soros, who is a strong supporter of transnational bodies like the **European Union and the United Nations**. Also, his Open Society Foundation (OSF) provides assistance for pro-immigration activists, and he is well-known in the U.S. and internationally for supporting "progressive" (read *far-Left*) causes like the Bill and Hillary Clinton Foundation and the Center for American Progress. In a [recent interview](#), Orban said that **immigration and multiculturalism were working in tandem to change the face and traditions of Europe, it's "Christian roots" in particular, all while creating "parallel societies" (just like mass immigration in the U.S. – and isn't it peculiar that President Obama and Lefty Soros have the same view on mass immigration?)**.

As reported by *Breitbart London*, Orban said that Europeans should "stick to our Christian values" and "Europe can be saved," but only if citizens "take seriously the traditions, the Christian roots and all the values that are the basis of the civilisation of Europe."

"What sort of Europe do we want to have? Parallel societies? **Muslim communities living together with the Christian community?**" he asked, adding

that there is also an anti-democratic aspect to what's taking place.

"Nobody has voted for what is going on, so the quality of European democracy is in question."

"Millions of migrants are coming to the European Union," he said, noting that European countries are neglecting various treaties that respect national boundaries. **Comment: Mass illegal immigration with no consequences to the invaders and in fact they are only being rewarded for this wickedness!!!**

In recent days, RT.com has reported that the migration policies of Germany were so upsetting the country's population **that some analysts are predicting widespread anarchy or even civil war.**

Hansjoerg Mueller of the Alternative for Germany party also said the country may be on its way to becoming a "banana republic without any government."

Demonstrations against Islamic law led to arrests, tense confrontations and physical fights in some U.S. cities Saturday **amid several rallies sponsored by ACT for America, which the Southern Poverty Law Center designates as an anti-Muslim hate group.**

The "March Against Sharia" was scheduled to take place in more than 28 cities in 19 states, including New York, Dallas and Atlanta, and was projected to be ACT for America's largest protest against Islam. ACT for America says that Sharia law — or Islamic law — is incompatible with Western democracy, and that the marches "are in support of basic human rights for all."

ISIS CALLS FOR RAMADAN ATTACKS IN USA, EUROPE...

The Islamic State group is calling on supporters to carry out attacks in the United States and Europe during the Muslim unholly month of Ramadan that began two weeks ago.

Islamic Sharia Law - List of its Key Wicked Rules

Sharia law is the law of Islam. The Sharia (also spelled Shariah or Shari'a) law is cast from the actions and words of the murdering, thief, lying, pedophile, pervert Muhammad, which are called "Sunnah," and the Quran, which he dictated. Sharia law itself cannot be altered but the interpretation of Sharia law, called "fiqh," by imams is given some latitude.

As a legal system, Sharia law is exceptionally broad. While other legal codes regulate public behavior, Sharia law regulates public behavior, private behavior, and even private beliefs. Of all legal systems in the world today, Sharia law is the most intrusive and restrictive, especially against women.

According to Sharia law:

- Theft is punishable by amputation of the right hand (evidence: graphic).
- Criticizing or denying any part of the Quran is punishable by death.
- Criticizing Muhammad or denying that he is a prophet is punishable by death.
- Criticizing or denying Allah is punishable by death (see Allah moon god).
- A Muslim who becomes a non-Muslim is punishable by death (compulsion in religion).
- A non-Muslim who leads a Muslim away from Islam is punishable by death.
- A non-Muslim man who marries a Muslim woman is punishable by death.
- A man can marry an infant girl and consummate the marriage when she is 9 years old.
- All girls' clitoris' should be cut/mutilated (Muhammad's words, Book 41, Kitab Al-Adab, Hadith 5251).
- A woman can have 1 husband, who can have up to 4 wives; Muhammad can

have more.

- A man can beat his wife for insubordination (see [Religion of Peace](#)).
- A man can unilaterally divorce his wife; a woman needs her husband's consent to divorce.
- A divorced wife loses custody of all children over 6 years of age or when they exceed it.
- Testimonies of four male witnesses are required to prove rape against a woman.
- A woman who has been raped cannot testify in court against her rapist(s).
- A woman's testimony in court, allowed in property cases, carries ½ the weight of a man's.
- A female heir inherits half of what a male heir inherits (see [Errors in Quran](#)).
- A woman cannot drive a car, as it leads to fitnah (upheaval).
- A woman cannot speak alone to a man who is not her husband or relative.
- Meat to eat must come from animals that have been sacrificed to Allah - i.e., be "Halal".
- Muslims should engage in [Taqiyya](#) and lie to non-Muslims to advance Islam.
- [The list goes on and on \(see Sharia law in America, Canada, UK, Europe & Saudi Arabia\)](#).

Al Gore confuses TIDES with global warming ocean rise apocalypse, claims fish are "swimming in the streets" of Miami due to climate change

Wednesday, June 07, 2017

([Natural News](#)) The sheer idiocy of Al Gore and the [climate change cultists](#) never ceases to amaze me. Now, according to Al Gore, every time the moon's gravity causes tides to roll in, it's a "global warming" apocalypse and proof that the oceans are catastrophically rising at the rate of nearly **one foot per hour**.

Seriously, this is the science bunk Al Gore is now pushing in the media.

In an interview with Fox News on the subject of climate change, Al Gore said, "I went down to Miami and saw fish from the ocean swimming in the streets on a sunny day... the same thing was true in Honolulu just two days [ago], just from high tides because of the sea level rise now. We are going to suffer some of these consequences..."

HUH? In the twisted mind of Al Gore, **tides are proof that the sea level is rising**.

Gosh, does that also mean that every time the tide rolls out and the water level drops, climate change is solved? Does Al Gore really think global warming causes sea levels to rise by almost a foot every hour?

What was the real explanation for fish "swimming in the streets" of Miami? [WSVN.com](#) in South Florida originally reported, "South Florida has been under a coastal flood advisory since Monday because of 'high astronomical tides due to the lunar cycle,' according to the National Weather Service, and neighborhoods have been dealing with rising and falling waters ever since." But that link was memory holed from the internet because the facts contradicted Al Gore's climate change lunacy. You can still read the quotes, however, at [TheRightScoop.com](#) which also reports:

The National Weather Service issued a coastal hazard message early Monday morning for areas from Palm Beach County to Miami Dade, and in Collier County on the southwest coast.

Brad Diehl, a meteorologist with the NWS in Miami, said high tides could cause minor flooding through Thursday and then slowly withdraw **as the moon enters its waning gibbous phase.**

But it's not just the moon causing streets to turn runny, Diehl said. Easterly winds pushing water onshore, normal seasonal changes, sea level rise and a slower Gulf Stream also are to blame.

"There are all kinds of subtle things that contribute to the higher tides," Diehl said. "This kind of thing can be hard to predict."

Al Gore and other climate change cultists suffer from "mass psychosis"

When ocean waters are rolling in due to tidal forces, Al Gore doesn't see tides or wind or moon gravity effects. Instead, just like all the other climate change cultists who mass hallucinate everything, **he sees "climate change" causing waters to rise several FEET** in just a few hours.

For the record, even the most alarmist climate change advocates only claim oceans will rise a few feet **in a hundred years or so.** Yet Al Gore stupidly thinks it all happened Saturday night in Miami, right before his very eyes. As TheRightScoop.com points out, "Of course Al Gore would lie about this, taking the result of a natural phenomenon of wind and lunar cycles and blaming it on Climate Change, all to keep up the myth by which he has become filthy rich."

You really have to stand back in awe at the ability of these climate change hustlers to spin total science bunk with a straight face. If the incoming tide on Saturday is proof of sea levels are suddenly rising several FEET from global warming, then the sun rising in the morning must also be proof that we're all going to fry in a solar apocalypse by Friday. It takes a true lunatic to observe every weather event and leap to the outrageous conclusion that it's all caused by "climate change."
