**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive the very elect."

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we are not ignorant of his devices."

**II Chronicles 7:14:** "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Saturday, September 23, 2017 14:32 **If you haven't seen this yet you've GOT to. This guy was on the ground in Texas helping with the disaster relief and what he has to say here is just WOW.... It made me cry. I mean I know FEMA is killing ppl. But to have it relayed first-hand like this makes it so much more real. The govt is shutting down roads, locking rescuers out and then blowing up dams to kill whole towns of ppl which they've locked in. They're also doing this to wash all of the bullet riddled bodies out to sea. There are THOUSANDS of them according to eyes on the ground.**

He says that the ppl who are getting on the FEMA prison ship/barges are being turned into fish food. **Notice how we haven't seen one single social media post from ANYONE in these FEMA "relief camps"? Why is that you think?**

**This man is a straight hero. You can see how emotional he gets during certain parts of this story... You can tell he's re-living these moments as he's telling them...and it's obvious he witnessed and knows much more than he's telling... The look of**

**disbelief and sickness on his face...as if he can hardly believe what it is he saw and what he now knows... You can tell he's having a really hard time processing it all.**

**These govt officials and private contractors were out hunting people and still are. All of this is probably going on in FL right now also. Just like Katrina. They were also going into the wealthy neighborhoods and doing their own "govt looting".**

**This man's story is a MUST hear.**

**Texas carpet bombs its own hurricane-traumatized victims with neurological poisons sprayed from military planes**

Monday, September 18, 2017 This article was printed from: <https://www.naturalnews.com/2017-09-18-texas-carpet-bombs-its-own-hurricane-traumatized-victims-with-neurological-poisons-sprayed-from-military-planes.html>

**(Natural News) The war on humanity continues unabated in Texas, where over one million acres of land are being carpet-bombed with the aerial spraying of neurotoxic chemicals in an effort to kill mosquitoes. Texas authorities are openly lying to citizens, claiming these poisons are magically not poisons at all when they come into contact with humans. Even more alarmingly, Texas authorities are urging their citizens to use other toxic chemicals on their skin — chemicals that are part of a **binary weapon system** that causes Alzheimer's and dementia by incurring permanent brain damage (see the science, below).**

**"U.S. Air Force C-130 cargo planes began spraying insecticides over three eastern Texas counties over the weekend and will expand to other areas over the next two weeks, officials from the Texas Department of State Health Services (DSHS) said," [reports Reuters](#). "About 1.85 million acres have been treated as of Tuesday, according to the department."**

**In effect, the State of Texas is unleashing **weapons of mass destruction** against its own citizens, generating trillions of dollars in long-term health care costs that financially benefit the drug makers who sell prescription "treatments" for Alzheimer's, dementia, cancer and other diseases caused by chemical exposure. The aerial bombardment of high-density population centers, it turns out, is a**

**revenue generating activity** for the for-profit “sick care” industry that has infiltrated the entire Texas legislature.

“DSHS is working with counties that have requested assistance with mosquito control to coordinate spraying by two state contractors and federal support through FEMA and the U.S. Air Force Reserve,” [reports the official DSHS website](#). “A total of approximately 4.36 million acres has been sprayed across all areas.”

**++ State of Play** is a 2009 British-French-American political thriller film. The film tells of a journalist's (Russell Crowe) probe into the suspicious death of a congressman's (Ben Affleck) mistress. Macdonald said that State of Play explores the topical subject of privatization of American Homeland Security along with the relationship between politicians and the press. It was released in North America on April 17, 2009. The film received generally positive reviews. Congressman Stephen Collins, who has military experience, is leading an investigation into PointCorp, a private defense contractor with controversial operations involving mercenaries. It is later revealed that PointCorp stands to gain 36.95€ billion (over \$24.3 billion U.S. in 2009) annually from its mercenary activities in the Middle East and domestically. Cal speaks with Congressman Stephen Collins, who shares his research findings—PointCorp is cooperating with other defense contractors to create a monopoly on purchasing government surveillance and defense contracts, essentially privatizing United States security from the government.

After hearing this man’s story it makes you realize that that homeless man on the news WAS telling the truth. I’m assuming you guys saw the video of the homeless man? On live news?...A newscaster was in TX a couple weeks ago....interviewing a man who was weathering the storm on his own outside, taking shelter under some awnings. **The newscaster walked up to him and asked why he was outside. The man said because Red Cross and another FEMA shelter were caught killing everyone inside. On live TV he said this!! The newscaster changed the subject very abruptly....the man then started saying how he was a police officer....he was cut off again. Here’s that video if you missed it.**

As chilling as it sounds this isn’t the first time FEMA has been accused of killing ppl in their care. Josh Coy, the talk show host of the largest FM radio station in Alabama started **investigating the claims that FEMA was killing homeless ppl. He discovered that FEMA was picking up homeless ppl in blue vans and they’d never be seen again. He says it has to do with organ harvesting.**

They tried to kill Josh Coy recently when he went in for a medical procedure. In the **middle of the night multiple fake doctors came into his hospital room and tried to force him to take an injection. He was able to hold them off and survived the assassination attempt.**

His investigation into disappearing homeless ppl is also detailed in above link ^^

So it’s extremely disturbing when we see the homeless being openly separated from the general population and forced onto buses during these hurricanes.

Posted by a friend in a private group I'm in. She said this:

"This was posted by (name omitted), she is in one of my FB groups. She is a first hand witness to this. It is disturbing!!!"

This alternative newsflash has come in to me today (9 SEPT '17) from Central Florida....

**Homeless in Florida are segregated, deported to unknown locations as Hurricane Irma approaches... Poor and homeless people who were standing in line to register at community shelters today have been systematically separated out from the lineups by police and transported to unknown locations. An eyewitness at a school shelter in Flagler County reported this morning,:**

**"There were a dozen or so of these guys in line, mostly men and a few women, some of them in wheel chairs. The cops got on the blower and read out a bunch of names and told them they all had to get on the bus that just pulled up, it was a local school bus. One of the guys whose name was called objected and asked why it was only the homeless being put on the bus. Two cops immediately grabbed him and forced him on. A lady in a wheel chair started screaming and demanding to know where they were going. I asked one of the cops and he said to the local Salvation Army. But after they forced them on the bus and it left I called my auntie on my cell and she drove by the only Salvation Army in the area and there was no school bus there, the place was all locked up and boarded up against the storm."**

**A staff member at a community center shelter in Volusia County confirmed today that an "arrangement" had been made to have anyone either homeless or on social assistance sheltered in "separate facilities". But the staff member gave no indication where those facilities were or why the transportees had no choice in the matter and were forcibly pulled out of the lines by police."**

Now watch this video of these homeless people being forced onto separate buses.

Watching that video is absolutely CHILLING. Esp when the officer says "I'm sorry, we got the information after you got dropped off that there was a separate shelter for homeless." **Can watch the video at this link:** <http://beforeitsnews.com/alternative/2017/09/proof-fema-is-killing-people-who-come-to-them-for-disaster-relief-3555837.html?currentSplittedPage=0>

**It's heartbreaking watching these homeless ppl standing in line...looking back at that bus...perplexed about it. Then their heads kind of hung they file off onto the bus with all their belongings. Makes me sad...esp knowing they're prob driving to their fate. I can almost guarantee you those people we see here in that video probably aren't breathing anymore.**

And here is an article written yesterday about **how puzzled the police are in Salt Lake City about where all the homeless people went.** **[Mystery In Salt Lake City: Where Have Hundreds of Homeless People Gone?](#)**

Excerpt from the article:

**"The streets around Salt Lake City's downtown emergency shelter have long been home to hundreds of homeless people. In recent weeks, though, nearly all seem to have vanished following a police operation. Local residents are mystified as to where they've gone."**

The Salt Lake City police chief, Mike Brown, said he had visited parks and the Jordan river, which threads its way to the Great Salt Lake and has

**homeless camps dotted along its banks, but he hadn't seen an influx from downtown. Sgt Brandon Shearer has been up in a police helicopter looking for camps and seemed equally perplexed when asked where the people had gone. "I don't know," he said. "That's a good question."**

**Advocates, for their part, fear a humanitarian crisis is brewing.**

While observers **continue to wonder what has become of the population who lived around the Road Home until only last month, the state is transforming the physical landscape there, even though it plans eventually shutter the shelter and open three smaller ones in the region.**

Any homeless people who want to return are welcomed back – **but there are now 10ft high chain link fences and floodlights that at night render the shelter akin to a high-security border crossing. Or perhaps a prison.** While officials describe part of a recently blocked off street in front of the shelter as a “safe space” where vulnerable, drug-free people can get help, social workers have taken to calling it “the yard”.

OK everybody here is an update from Texas do not ever I repeat ever donate any money to the Humane Society or the ASPCA. They showed up here today with government officials and shut down our rescue mission. There confiscating the animals that we rescued and have decided that every pit needs to be put down and any animal they think needs to be put down they are euthanizing! They are not even given these owners a chance to come and claim their animals I am so pissed we are superstar who rescue crew and everybody here we are pulling out and we are moving and relocating to another area so we can continue our rescue mission and we are not gonna let them keep our dogs and our horses and our animals so we can get them back to their owners. It is a disgrace they get millions of dollars donated to them so they can fix the problem by just euthanizing them. I haven't slept in two days and I am beyond pissed off I want to punch somebody in the face

<<And of course during these hurricanes in Texas its extremely disturbing to hear the leaks that they were killing animals....of course they completely denied it when word got out to the public.

A friend of mine on Facebook posted this on my page today:

**“My girlfriend of 18 years went missing two days after the hurricane.** She is disabled and needs her meds. She would have made attempts to call me but hasn't; it's been 10 days now & no word. She's in Jacksonville. I filled out a Missing Person report, posted flyers, drove up & down streets, emailed the news station 3 times with no response; I'm very worried. She did not take her purse, extra clothes, ID... nothing. No one knows anything... (?) **I don't know how or if she's eating & if she doesn't do her meds soon, she will go full blown**

**manic.** I had stayed with her during the storm & she was stable. We were without power for 2 1/2 days but I had propane stove, lanterns, flash lights, etc... Then I had to go to work Wed.; she didn't call Thur or Fri, so when I went to her house again on Fri. afternoon, all her lights, a/c, tv... were on & **the front door was ajar.** The little puppy I bought for her birthday came out front to greet me which was unusual as she is always with him. I searched the house, yard, called some neighbors but no one saw her. I stayed at her house Fri, Sat, & Sun. I called police. Officer came out & told me to wait a few **more days, so I did. I called them again on Tues. & then I filled out the MP Report. Don't know if FEMA was here but probably, as we were hit pretty bad here; lots of damage, downed trees, & flooding.** If you want to go to my page & scroll down, you'll see the MP Report on it; yes, please share. I'm going to stay at her house again this weekend, post some more flyers, & drive around.”

**Update: FEMA DID go through her neighborhood he found out.**

Here is her picture.

**She is just one of the thousands of missing people after the hurricanes in TX and FL.**

**And don't forget the fact that Red Cross is absolutely NOWHERE to be found anywhere in the midst of these “disasters”. Yet they're raising money nonstop from gullible Americans**

Hi Dr. Johnson... **I wanted to tell you about the OneAmericaAppeal.org heist that is taking more money from the public to pay for the untold weaponized weather damage they caused. I am sending in another email the pictures of the past 5 former presidents urging people to donate to this "charity". Also, the logo for OneAmericaAppeal.org which LOOKS EERILY SIMILAR TO THE US NAVY MAP WHICH SHOWS THE NEW MADRID QUAKE THAT SPLITS THE COUNTRY IN HALF WITH A NEW WATER WAY GOING ALL THE WAY TO CANADA. Talk about predictive programming.**

FYI, after the Haiti quake, 3 presidents got together to urge people to donate to that cause too. All the money was given to the Clinton Foundation which in turn was NOT used to help Haiti.

---

So taking into account the above... **we already know that during Katrina it's been admitted by many that they were killing ppl instead of saving them. Here is my article from a couple months ago: [BlackWater Snipers Killed Many Of the Katrina Victims!](#)**

The truth now emerging about the cold blooded slaughter of Americans during the Katrina disaster is very disturbing to say the least. I ran across the following testimony on [Steve Quayle's site](#) this morning. After doing a bit of research I found corroborating testimony of this story from none other than Kyle Bass himself.

**Aloha Again Steve,**

*I learned some very disturbing details from about a nearly decade old event that has been kept a secret from me by a member of my own family.*

*Hurricane Katrina.*

**My sister is a nurse and back then when she renewed her nursing license she checked a box on the form stating that she would be willing to help in disaster relief if needed. Well she got the call when Katrina hit New Orleans and went down there to help.**

*She said that when she got there the first couple of days it was pretty normal. Treating persons with broken bones, cuts, stitching people up and other minor injuries but then came the body clean-up.*

**She was in the Super Dome and every day they gave her a small tin of Vicks to smear under her nose and a big pack of gum to chew all to help with the smell of the dead. She said that she has a strong stomach but she never dealt with anything like this before.**

**She went on to say that there were THOUSANDS of bodies and most all of them were shot. The first ones they put in the body bags would be labeled as drowned or something else and she said, "Hey these have bullet holes in them." But she was told very firmly that they drowned. Nobody else saw the bodies because they were all bagged and disposed of. Thousands of them! Killed by the "contractors".**

**Her husband also told us that he was stationed in Gulf Port Mississippi at the same time and that there were bodies everywhere.**

**I always thought that Katrina was some kind of social experiment but I was wrong. It was genocide.**

**The official death toll is greatly under stated and the real count is easily ten times that number.**

**I just want to say.... beware the next disaster. "**

**— (Posted on SQ, Jul 9, 2014)**

**Someone who read the above post added the following...**

*Steve, I'm a former US Army helicopter pilot that was flying in the gulf of Mexico for the oil industry. I got to know a former Army Blackhawk pilot there who swore he dropped sniper teams on rooftops in downtown New Orleans during Katrina. He told me this years ago but thought I would say this now to give credence to the other intel. This pilot was a standup guy, not given to boasting. I believe every word he said.*

**-Matt (Posted on SQ, Jul 10, 2014)**

**Here is the Kyle Bass corroboration...[from this link](#)**

**"In early 2012, I had an unexpected conversation with my friend [Chris Kyle](#) (author of [American Sniper](#)) about the Katrina debacle. I had heard rumblings about Special Operations (mainly SEALs) snipers being deployed to New Orleans to support the effort to restore order. He confirmed the rumors and shared his own intimate knowledge that close contacts of his, many who were apparently still serving on active duty, took leave to work for the controversial PMC (Private Military Company), [Blackwater](#).**

**Chris went on to tell me that the bulk of the guys he knew directly had racked up over thirty kills between**

**them near and around the Super Dome. I asked him about Rules of Engagement, and asked, "Who were they shooting at," and he just gave me a big Texas shrug and smile. I figured out really quick that it was 180 grains of lead (usually to the head at 200M)."**

**"Coming from such a source, these accusations have to be taken seriously – accusations that US military snipers killed US citizens inside the US with no due process of law whatsoever, acting as judge jury and executioner. The Bush administration would have to have signed off on the whole thing.**

**This is why the recent debate on Obama's signature killing program has focused too much on the method of killing – drones – and too little on the lack of constitutional justification. You don't need a drone to perform extrajudicial killings, not even of US citizens. If this story is true, then yet again Obama is only following Bush's lead.**

**Webb writes that he is bothered by what Kyle told him. I'll go further. I'm horrified and angered. Those who set up this program are criminals of the highest order – but so too are the supposed heroes of special forces who participated. Even if they were ordered to do this, they should have refused."**

**It is also important to remember that nursing home patients were euthanized for the convenience of medical personnel:**

**"Dr. Ewing Cook said that as staff at Memorial Medical Center in New Orleans were struggling to evacuate patients from the flooded building, he gave the order to give Jannie Burgess, 79, who was dying of uterine cancer and kidney failure, a dose of morphine that he knew would kill her."**

**"Cook also described another area of the hospital that was crowded with patients on cots and stretchers where he considered**

**euthanizing the ones that had "do not resuscitate (DNR)" on their charts. "We didn't do it because we had too many witnesses," he told ProPublica. "That's the honest-to-God truth." 'Thirty-four patients died in Memorial Medical Center following the Katrina disaster, more than in any comparable-sized hospital in the drowned city.**

**A coroner's report stated that more than half of the bodies taken from Memorial tested positive for morphine or midazolam, or both. Robert Middleberg, the director of the toxicology laboratory where the autopsy samples were tested, said the high drug concentrations found in many of the patients stuck out "like a sore thumb." –[article link](#)**

**I saw a video on ..I think A&E.... about Blackwater, and they mentioned the places they had been deployed to. One of those locations was North America which stunned even the interviewer. When he asked where in North America he was told New Orleans during Hurricane Katrina. They even show pictures of men on the streets there. I remember watching a live TV report out of New Orleans in which they were showing people being offloaded from a military truck. The reporter was saying how these people were rescued, etc., etc., and the camera swung to the right a little and a soldier could be seen with a rifle at the ready pointed in the direction of those being "rescued". The camera swung back to the left quickly, as if they weren't supposed to be showing this. The "elitist" mentality isn't limited to those at the top of the pyramid. Its evident in the attitude of many in this nation. – Comment on article**

**A soldier told me he had barge trash duty (one day during Katrina) & when he reported there were 2,000 black men that had been shot in the head. He said they dumped them deep in the swamps for alligator food.**

**The soldiers all should have reported this. Saying they were following orders is pure BS. When they are no longer needed the government will get rid of them too."**

**–Comment on article**

---

**So IF you end up in the storm....DO NOT TAKE SHELTER with Red Cross or FEMA. They've used it as a front for many years. Doing good on the outside in order to cover for their activities on the inside. And of course NEVER donate to either of them.**

**It's been reported that many TX hurricane victims were taken to Wal-Marts which were set up as FEMA relief shelters. But it's also being noticed that not one person has posted anything about it on social media...no pictures...nothing...Are these ppl okay?** This reminded me...last Christmas Eve...my son's dad and I arranged to meet at a local Walmart Supercenter in Roseville, CA (the one off Pleasant Grove) so I could pick up our son from him. He was doing some last minute shopping and so when I got there in the parking I txted him I was there and where was he. No response. I waited and waited. I started getting upset because I thought he was just ignoring my texts/calls. So finally I just said "\*\*\*\* it...I'm gonna go inside walmart and get a couple things. Maybe he'll reply while I'm shopping." So I go into the Wal-mart and as I'm in there I tried to call him again. My phone had absolutely ZERO service. No internet, texting, calls, nothing....I couldn't use my phone at ALL. So I walked back outside the wal-mart and did a little bit of testing....**and I realized that they were using some kind of technology that completely blocked any cell service within about 20 feet of the wal-mart entrance doors. I had to walk pretty far out into the parking lot just to be able to use my phone.** I finally found my ex inside the store. He'd had no idea I was calling because his phone didn't work at all inside the store. I asked some of the employees there what was up with that?? They just shrugged and looked apathetic. **But it was a really creepy feeling. Just a few days ago I was inside that same Wal-mart and again I noticed my phone was useless inside the store. I wonder...is this even legal? For them to block you from using your phone like that?**

**So this is probably the reason we havent seen one social media post from the ppl that have been taken to Wal-mart relief centers (aka FEMA camps). Are these ppl okay? Are they still alive? The question must be asked.**

Just the other day, someone by the name of "Sharon" left this comment on my website on my blog post **I linked above (BlackWater Snipers Killed Many Of the Katrina Victims!) Here's what she said :**

**Sharon**

September 5, 2017 at 4:04 pm

*"I was living and employed in a local government 40 miles above NOLA when Katrina hit. I was a member of a group who was undergoing 'leadership training' for future government organizations. We were the 'up and coming leaders' for that area of S. Louisiana. After Katrina, we were unable to meet for a while but eventually did. In our first group meeting, we were allowed to just talk with each other – without supervision – and try to decompress from the madness our lives had become. **During that time, one of the group who had been in charge of a local airport told us about the 10,000 body bags that had been delivered and then the U.S. General who told him that those would not be enough and more were going to another location for distribution. A second member of our group then shared that her husband – a coroner – had not been home in weeks because he had been conscripted to handle the dead bodies that had been shipped to another parish approx, 150 miles away. Her husband stated there were 'many thousands' of bodies that were still unprocessed at that time. Nothing like this information was EVER made public but none of this group would have lied....** they were all too raw and wounded from the whole Katrina debacle themselves. A week after that meeting I left S. Louisiana and moved 2,000 miles away."*

### Lessons learned from his experiences as far as I see it.

1) Get out of areas that can be flooded by nature or man! They are easy ways for evil people to kill and trap millions of people. I will never live anywhere that can be flooded!

2) Never let yourself be taken to federal FEMA shelters etc. Have family and friends and make pacts that you will take care of each other in emergencies.

3) You better have guns and supplies at all times to protect your family. Never let your guns be taken away. If you don't have water and food for at least 7 days at all times you're a fool.

4) We are lied to about EVERYTHING! Don't believe anything they tell you on the fake news.

Be independent and stop thinking the government is going to take care of you. Our government is mostly evil filled with many evil people. Get the truth out now while you can.
