Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive the very elect."

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we are not ignorant of his devices."

II Chronicles 7:14: "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

John 3:19-20: And this is the condemnation, that light is come into the world, and men loved darkness rather than light, because their deeds were evil. For every one that doeth evil hateth the light, neither cometh to the light, lest his deeds should be reproved.

++ WeatherWar101 posts new analysis video of Hurricane Harvey, appearing to show artificial augmentation of the storm's intensity and movements

Thursday, August 31, 2017 by: Mike Adams

([Natural News](#)) Earlier this week, we posted one of the most intriguing articles the internet has seen all week. **Entitled “Weather wars” theorists claim Hurricane Harvey was engineered, “steered” toward Houston as a “weather terrorism”**

weapon, the article has already garnered over 400,000 views (and rising).

The article covered the rising interest in a concept called “weather wars,” which asserts that Hurricane Harvey and other storms are in essence “weaponized” through artificial augmentation, direction control and other factors. The article documented two key U.S. patents which describe advanced weather control technologies. It also shared several videos, including one from [WeatherWar101](#), a website that’s gaining popularity among weather war analysts who say that Harvey was weaponized and directed as a kind of weapon of mass destruction.

WeatherWar101 took issue with some of the statements in an effort to get some statements corrected. We are now in the process of inviting WeatherWar101 for a full interview to cover everything they want to cover. This interview can be a written interview, an audio interview or a video interview (their choice), and if they agree to this interview, we hope to ask them lots of questions that readers have also been asking us.

As I said in the previous story, I’m no expert in weather modification, so my entire approach to this is with an open (but skeptical) mind. If I made any factual errors in the previous story, those errors were entirely accidental. I’d love to get the record corrected and let WeatherWar101 explain their theories about what’s happening. At the same time, as an active laboratory scientist, I will of course ask lots of skeptical questions.

There does seem to be compelling visual evidence that something very strange is happening with these storms. For example, look at the artificial cloud creation happening at the 5:40 mark in this new video that was just posted by WeatherWar101:

As this video clearly depicts, something is obviously adding a tremendous volume of vapor / clouds to the Harvey storm as it’s strengthening: [Hurricane Harvey: Refueled Three Times = 50 Inches](#)

There are countless ways to see Harvey is not “Mother Nature,” but watching it disappear and refuel with massive Water Vapor Bursts three days in a row (at exactly the same time of day and from exactly the same areas), proves beyond any reasonable doubt, that this catastrophe is entirely manmade. I knew that I would be able to show four days of exactly the same refueling process (if I waited until this morning), but after 16 straight hours of work on this video (and 6 hours to render it) I was simply too exhausted to wait, and needed to get this video

posted. More than that, it irrefutably illustrates that not only is it manmade, the inflicted misery is far beyond intentional. Even after the first night of Harvey's landfall, the complete destruction of Rockport, and two feet of flooding in Houston, the perpetrators were far from satisfied with the devastation they caused. If the perpetrators had any semblance of mercy or human decency, they simply would have allowed Harvey to dissipate as it was already doing (illustrated in the first satellite series in this video), and allowed the victims of this disaster to begin trying to recover their lives. Instead, they deliberately refueled this storm system with massive On-Land Water Vapor Generation (illustrated and proven by the tell-tale Rapid Evaporation Bursts which are uncontestably manmade), causing the worst night of flooding in Houston for the entire event. If the perpetrators had any semblance of mercy or human decency, they simply would have allowed Harvey to dissipate on the second night as it was already doing (illustrated in the second satellite series in this video), and allowed the twice victimized community some relief from their nightmare. Instead, they deliberately refueled this storm system for a second time with massive On-Land Water Vapor Generation, as well as Massive Water Vapor Generation streaming from the Rapid Evaporation "Firehose" in the Gulf. As is always the case, the streaming water vapor made pushing it past saturation (for the third round of torrential downpour) easy, which you can plainly see by the explosion of deluge, as soon as it hit the On-Land Water Vapor Generators. If the perpetrators had any semblance of mercy or human decency, they simply would have allowed Harvey to dissipate on the third night as it was already doing, but not only did they not want it to end, they wanted to re-strengthen it. Although I didn't have time to include it (and I certainly have the satellite imagery to prove it), they "gently" pushed Harvey BACK out to the Gulf using a series of Generated Gravity Waves – giving the all but collapsed rotation an opportunity to survive and strengthen. Unsurprisingly (hopefully you are beginning to see the pattern) they once again simultaneously refueled this storm with Massive On-Land and Gulf "Firehose" Water Vapor Generation (Tell-Tale Rapid Evaporation), for the fourth straight night of unimaginable suffering for the people of Houston and Eastern Texas. On and on it goes. Exactly the same refueling process happened last night, and exactly the same refueling process will happen tonight. As Harvey is now making its THIRD landfall – this time in Louisiana (uncoincidentally on the Anniversary of Katrina landfall) the perpetrators still intend to cause as much death, destruction, and suffering to the people of this country – as they possible can. Know for a fact – they will not stop fueling this system, until conditions make it no longer possible. If human suffering is a factor at all, it can only be interpreted as a desired outcome.

The video says that without this augmentation, Hurricane Harvey would have fallen apart on its own. It was the augmentation, we're told, that added strength to the hurricane and turned it into a weapon.

The video does appear to show many examples of "rapid evaporation" that seem to be adding significant water vapor to the storm system. According to WeatherWar101, the 50 inches of rain that devastated the region were at least partially augmented in a deliberate effort to worsen and "weaponize" the storm.

We already know that in the 1940s, scientists harnessed the power of the atom to turn high-density elements into weapons of mass destruction. It's called the "atomic bomb." **We also know that weather control and modification technology does exist; that's been widely documented and even covered in media reports (such as the rain generating technology near Dubai).**

We also know that Hurricane Harvey exhibited some highly unusual tracking behavior, such as heading inland at high speed, stalling, reversing course, then hanging out at precisely the worse location to allow a catastrophic downpour to hover over Houston for days on end.

People like WeatherWar101 and Dane Wigington at [Geoengineering Watch](#) seem to be offering increasingly compelling pieces of evidence that support their claims.

So we're inviting WeatherWar101 for an interview to tell his story and share what he knows. We'll share the interview with you so that you can decide whether you think his theories have merit or not. In the mean time, here's another new video from Dane Wigington from Geoengineering Watch called "Engineered Climate Cataclysm." We're also open to interviewing Wigington if he wants to join us for a chat. This issue of weather weaponization needs to be thoroughly discussed in a more open forum, I believe.

[++ The WeatherWar101 Interview](#)

[WeatherWar101](#)

Published on Aug 19, 2017

For ten years, I have been proving the irrefutable reality of daily manufactured flash flood deluge and severe weather – every single day. Denying the reality of these daily manmade weather events is akin to denying the existence of the combustion engine, and it is just as easy to prove. If you can understand boiling water, you can understand where trillions of gallons of water vapor come from that create and fuel the daily trillion-gallon floods we see washing a different community away, somewhere in the world. **This isn't debatable, and it is as easy to observe as sunrise. Yet for ten years, my work has been completely denied, discredited, defamed, suppressed and deprived and any funding or support at all, I personally have been slandered, threatened, and falsely identified by the so-called 'leaders' of the coopted "Truth Community," and I have been mocked, ridiculed, and dismissed by the so-called "meteorologists" in MSM news and the "Climate Change" community. The simple reality I discovered during 20 years of research and reverse-engineering that erases all 'mystery' about Severe Weather Events that materialize out of nowhere, has proven time and again to be the most threatening information there is to the establishment grand delusion perpetrated on the population of this planet. That is why after ten years, still only a handful of people know about this daily observable world-perspective-altering reality. It is time for all of that to change. Here is everyone's opportunity to understand in full exactly what I'm about, exactly how this**

irrefutable body of work was created, and exactly why it is the most important foundational knowledge any human being can have about the planet we live on. While the Weather Channel and MSM Meteorologists lie to our faces on a daily basis, this interview should show everyone just how real I am, and just how true this is. I've devoted the better part of two decades putting this knowledge together and providing it to anyone wants to understand to truth state of Climate Collapse, the true state of the Collapsed Water Cycle, and truth about 200 years of industrialization that is not only at the root of these disasters, it is at the root of the global effort to cover them up as well. I provide this knowledge freely, because every human should have it. That doesn't by any stretch of the imagination mean that producing this work is any less of a full-time job or any less exhausting than anything anyone is doing at the Weather Channel – to keep the population stupefied. In fact, it is exponentially more so since there is just one of me, and I don't have 3.5 billion dollars like the Weather Channel does to perpetuate their global delusion. Needless to say, I haven't been doing this for the last ten years, to get rich. I've been doing this, because I know it's the most important information anyone can have, and (for a thousand different reasons) being in unique position to deliver this awareness, it is the highest purpose I can serve. who care about this planet, and who don't want to be kept in the dark – anymore.

Hello Scott, I was leaving Chili's at 7:45PM this evening and just happen to look up looking east.

**There was 6 Chemtrails side by side.
The below photo was taken looking West.**

**In my opinion this storm is being prevented from moving north.

The Hidden Agenda Behind Weather Warfare and Environmental Terrorism

It should come as no surprise that such blatant acts of weather warfare and environmental terrorism have multiple goals for the NWO cabal. In the case of **HARVEYGEDDON** there are so many globalist objectives being accomplished at once it boggles the mind. For example:

- **Texas has resisted every attempt by the United Nations to diminish its sovereignty. Every UN scheme to exert any supranational power over the state of Texas has met stiff resistance.** This is especially true where it concerns illegal immigration. The UN has become so determined to foist illegal aliens on the state of Texas that they are now going after the Trump administration. UN Threatens Trump: Stop Detaining Illegal Aliens or Else! In this particular instance, **HARVEYGEDDON** has served as a monstrous weather threat, which hangs over the state like the *Sword of Damocles* (SOD).
- The secessionist movement in Texas gained a lot of steam under Obama's tyranny. While that has lessened under Trump's presidency, **the state has not relented in taking several initiatives to firm up its financial independence.** Not only has Governor Greg Abbott demanded their gold from the New York Federal Reserve Bank, Austin is now the home to the new gold vault. It's Official: Texas Builds The Nation's First State Gold Bullion Depository Nothing irks the globalists more than the prospect of a gold-backed currency, especially one that could be used by a newly declared sovereign "nation-state". Again, the SOD hangs

precariously over Austin to cease and desist such defiance via an all-out weather war.

- Nothing is more critical to the strength of the Texas economy than the health of the Oil & Gas Industry. The quickest way to send a message to Austin is to first send it to Houston and Galveston, home to so many oil and gas refineries, pipelines, coastal and land-based oil rigs and other infrastructure. Houston, in particular, is home to the greatest concentration of oil and gas exploration and development companies in the world. Hence, it's very easy for the globalists to aim a superstorm right at the nation's largest energy-producing capacity. And so they have! [Energy stocks slammed after hurricane Harvey strikes heart of U.S. oil industry](#)

- Then there is the UN's overarching agenda to bring Texas in line with California with respect to their global action plan to supposedly save the planetary environment. This is where the NWO controllers will not hesitate to wreck and ruin the environment in order to save it. In other words: to destroy East Texas so that Austin will bend to the will of the globalists who want to implement *Agenda 21* everywhere on the planet—24/7. The same Hurricane Harvey perps also want to carry out their *2030 Agenda for Sustainable Development* worldwide, which is lagging way behind schedule because of steadfast states like Texas who obstruct it.

- Of course, it is strict compliance with the Paris Climate Accord that the globalists really want, and the Texas oil and gas establishment represents the biggest opposition. For the globalists, the "United Nations Framework Convention on Climate Change" is the essential component of the *New World Order* as it is the precursor to a **One World Government**.^[1] They are even using the liberal states of New York and Massachusetts to extract consent from ExxonMobil via blatant political prosecution. [Globalists use ultra-liberal New York and Massachusetts to prosecute global climate case against ExxonMobil](#)

There are several other reasons for the now infamous **HARVEYGEDDON** which are way beyond the scope of this article. However, each of those is vital to fully comprehend the depth and breadth of this incomparable psyop perpetrated by the Illuminati. Weather warfare on this scale has simply never been seen before on the U.S. mainland; nor has such overwhelming environmental terrorism. Hence, those other globalist purposes will be discussed in a future exposé.

Conclusion

Letters have been written and sent directly to President Trump and his key staff regarding the dire consequences of geoengineering (see links below). These requests to stop the chemtrails have not been addressed or even acknowledged.

[Mr. President: Please, PLEASE Shut Down The Chemtrails On January 20th!](#)

[Here's another missive sent to the Prez:](#)

[President Trump, Please Shut Down The Chemtrails...](#)

[...Before It's Too Late!](#)

Quite unfortunately for the residents of Texas, our warnings were not heeded.

Perhaps there needed to be a geoengineering crime so deadly and destructive that the people themselves would rise up and demand — ONCE AND FOR ALL — a stop to the:

CHEMTRAILS

**The Chemtrails Must STOP!
Geoengineering Must Be Terminated!**

**++ First HARVEY, Then IRMA — What's really going on with these superstorms?
NWO Cabal Uses HARVEY & IRMA to Promote Global Climate Change Scam**

Hurricane Irma's current track

Hurricane Harvey's project path showed it hitting southern Mexico; the geoengeers steered it to the central Texas coastline.

Special Note:

Given the state of the art of weather modification, climate engineering and weather weaponization, it's now quite simple for the geoengeers to hijack a fledgling storm brewing in the Atlantic Ocean or Gulf of Mexico and methodically intensify it into a massive powerful superstorm. This is exactly what the geoengeers did during the hurricane season of 2005 with Hurricanes Katrina, Rita and Wilma. That's not to say that all hurricanes are geoengeered; however, those that possess the telltale signatures of artificial manipulation are very easy to spot. This link contains incriminating satellite imagery that conclusively demonstrates the fabrication of a 2015 superstorm in Texas:

[TEXAS FLOODS: A Geoengeered Weather Event Using Chemtrails And HAARP](#)

Global Climate Change & the Paris Climate Agreement

President Donald Trump has made many moves which have irked the NWO globalist cabal.

Of all the presidential decisions that Trump has made this year, pulling the United States out of the Paris Agreement is by far the most consequential. It's also the one that has triggered the countless agents of Deep State. From the East Coast intelligentsia to lawyer-lobbyists inside the Beltway, from the Sultans of Silicon Valley to the Hollywood moguls, wealthy elites everywhere are up in arms. The UN and EU bureaucrats who concocted the agreement under the United Nations Framework Convention on Climate Change are especially riled up.

The fraudulently obtained Paris Agreement had been fastidiously pieced together after decades of political corruption and governmental coercion at the highest levels. Because this international accord uses the "Global Climate Change due to

Human-generated CO2" argument as the basis for its existence, the degree of scientific fraud necessary to support this bogus claim is unparalleled.

KEY POINT: The planetary boogeyman now known as **Global Climate Change** (GCC) was quite purposefully planned over many decades by the globalists. *Global Climate Change* does have a human activity component, mind you; but it's not human CO2 production. **The primary anthropogenic component of the most recent stretch of Global Warming is unequivocally worldwide geoengineering. Geoengineering Is The Primary Cause Of Global Climate Change, Not CO2**

The preceding link clearly spells out **the direct causation between the pervasive utilization of both chemical geoengineering and HAARP technology, and Global Climate Change. Not only is GCC mostly manmade, it's being systematically manufactured as an integral piece of the control mechanism (i.e. One World Government) to be imposed on the entire planetary civilization. One World Government Initially Emerging As Global CO2 'Management' Regime**

By formally submitting the U.S. intent to withdraw from the Paris Climate Accord, Trump has essentially blown up the whole NWO agenda, and particularly the One World Government project. Of course, the patriot movement absolutely loved this executive decision as it truly protected the nation and its citizenry.

It is the establishment of a **One World Government (OWG)** that is the centerpiece of the globalist enterprise to create a global totalitarian superstate that is all-powerful and all-controlling. **And it was the bogus GCC scheme that was conceived so the ruling cabal could foist this new autocratic regime on the world community of nations.** The tyrannical European Union provides a very good model of where the **OWG initiative is going.**

Only in this way can the globalists effectively own, and operate on, every square inch of planet Earth. By unlawfully arrogating extraordinary powers to their future One World Government, the controllers hope to exercise complete authority over the weather and natural resources of the whole world. As follows: [NWO Cabal Pursues Total Dominion Over The Earth's Weather And Natural Resources](#) **While this power-grabbing maneuver will permit the NWO cabal to dictate to every nation, it cannot be completed without the full support of the U.S. government. Because the USA is the de facto global policeman, this plot for total world domination cannot proceed without the total cooperation from the Trump administration.** That's because: [The USA is the Military Arm of the New World Order](#) **Now that Trump is the skunk at the GCC picnic, the ruling cabal will do everything in their power to either remove him from office, or, rain on his parade like never before.**

TPTB just did that with HARVEY. It appears they will do it again with Irma. For all anyone knows, the geoengineers may have an assembly line of superstorms on their order sheet from the shadow government. In view of the extreme measures the cabal has taken thus far, it's quite likely there will be multiple storms targeting the mainland throughout this hurricane season.

[HURRICANE HARVEY: The Most Transparently Manipulated Superstorm in U.S. History](#)

There's nothing more compelling than the "shock and awe" of a string of superstorms hitting major cities or key states. An unaware populace will gladly cede powers, surrender rights and obey new draconian laws in the wake of such a catastrophic deluge like HARVEY.

This is where the globalist really excels at manufacturing consent. They know that 2 or 3 cataclysmic superstorms will sufficiently frighten and soften up enough Americans that they can be stampeded like sheep into a pen of compliance.

KEY POINT: Many of these folks are already totally brainwashed Obamabots, Clintonistas and/or Berniacs. Others are ultra-liberals and leftwing extremists who literally go to CNN for their news. Still others are fake progressives or radical Democrats, dyed-in-the-wool socialists or communist Bolsheviks who go with whatever program they have subscribed to. Then there are the *AntiFa* terrorists, Black Lives Matter rioters and LGBT mercenaries who strictly follow orders from their George Soros paid handlers. Soros & Company sponsor all the main global warming advocacy groups.

Because there are now so many American sheeple being herded through fear-based social engineering, getting them to demand that the POTUS re-engage the Paris Agreement is a natural byproduct of a one-two punch like HARVEY and IRMA. Even if IRMA does not make landfall in the USA, there will most likely be other major storms coming this season.

Once HARVEY completed its mission of totally terrorizing the Texas coast and surrounding environs, it has conditioned the rest of the country to be fearful of monster storms. Even those who do not live near the coastlines have to be wary of the frankenstorms now being fabricated by the geoengineers. [HARVEY WAS HOUSTON'S KATRINA & 9/11](#)

In fact, many states throughout the country have experienced devastating mega-thunderstorms and tornadoes (and tornado swarms). With each successive frankenstorm, the victims, as well as their families and friends, develop their own type of PTSD. Why wouldn't they? Entire communities have been destroyed in the blink of an eye by some of these manufactured storm systems.

The critical point here is that the American people as a whole have become regularly terrorized by this weather warfare. If they themselves have not been victimized, many live the horrific experience vicariously through family and friends. In this way, the body politic can be easily maneuvered into making very bad collective demands of their government.

With this crucial background, it ought to be clear how and why the geoengineers slammed HARVEY into the Texas coast. It will be interesting to see what they ultimately do with IRMA. Even if it fizzles out, the mere threat is serving its purpose for the cabal. Collective PTSD can be a very powerful phenomenon indeed.

HARVEY & IRMA: The Fric & Frac of the Global Climate Change Crowd

By assaulting the U.S. mainland with these highly destructive and deadly frankenstorms, the power elite send a message to the POTUS that is loud and clear. The U.S. will re-enter the Paris Agreement, or else!

That farcical and coerced international agreement is the very basis of a **One World Government** that will not be denied the NWO cabal, unless Trump somehow eliminates the prospect for good..

Editor's Note

SOTN has researched and written extensively about the various reasons for the geoengineering of Hurricane Harvey. None of these explanations are mutually exclusive, and many of them mutually reinforce each other. Just like the false flag terror attacks on 9/11, the HARVEY black operation has many objectives on different levels. The accomplishment of all of them is vital to the success of NWO agenda.

This article above focused on the **Global Climate Change** angle because that perspective clearly represents one of the primary motivations for aiming HARVEY at Houston, Galveston and Port Arthur Texas. The Oil & Gas Industry has been a HUGE thorn in the side of those who have perpetrated the GCC hoax (via CO2) on the world-at-large.

Also, just like 9/11, there are those inside traders who knew in advance that energy stocks would get battered by the superstorm effects, so a lot of illegal profit-taking has occurred. Much more significantly, a struggling OPEC stood to gain considerably from this act of weather warfare. The ensuing acts of environmental terrorism in the region have likewise served their purposes.
