Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive the very elect."

I Corinthians 2:11: "Lest Satan should get an advantage of us: for we are not ignorant of his devices."

II Chronicles 7:14: "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

I Thessalonians 5:6: "Therefore let us not sleep, as do others; but let us watch and be sober."

Psalm 97:10: "Ye that love the LORD, hate evil..."

++ SOON: AI to Create Indistinguishable "False Reality"--Humanity soon won't distinguish reality from simulation

Kit Daniels | - December 5, 2017

Input winter image

AI-generated summer image

Artificial intelligence can soon create a false reality indistinguishable from the real one, suggests new advancements in graphics manipulation which serves as a warning to humanity.

Graphics firm Nvidia recently released results of its "image-to-image translation" which can take an outdoors photo taken in the winter and transform it into the same scene, but in the summer – with indistinguishable results.

Matthew 24:24: "For there shall arise false Christs, and false prophets, and shall shew great signs and wonders; insomuch that, if it were possible, they shall deceive the very elect."

Mark 13:22: "For false Christs and false prophets shall rise, and shall shew signs and wonders, to seduce, if it were possible, even the elect."

Input winter image

AI-generated summer image

Input sunny image

AI-generated rainy image

“We... present high-quality image translation results on various challenging unsupervised image translation tasks, including street scene image translation, animal image translation, and face image translation,” Nvidia revealed. The ramifications of this technology are enormous: the politically persecuted could soon be victims of fabricated “video evidence” presented by the mainstream media as “undeniable proof” of wrong-doing, which will be accepted without question by the general public which takes everything at face value. It’s basic human psychology: people desire comfort in a universe wrapped by mystery, and they achieve it by instinctively accepting what’s in front of them. To question too much would bewilder them. And why would they question an AI-generated deception that cannot be deciphered from reality? In short, the mirroring of reality presents endless pathways of deception to the elites. “People lose the ability to distinguish between reality and fantasy,” Jean Baudrillard wrote in his book *Simulacra and Simulation*. “They also begin to engage with the fantasy without realizing what it really is.” Humanity is heading toward hyperreality, the point where consciousness is unable to distinguish what we know as reality from a mere simulation.

Zuckerberg's Cave – Photo released by Facebook

And it's ironically fitting that the power elites, who've nearly exhausted all the methods of control they've used on the population for thousands of years, would come full circle by creating Plato's Cave to imprison humanity in a false realm which they control.

Deuteronomy 11:16-18a: "Take heed to yourselves, **that your heart be not deceived**, and ye turn aside, and serve other gods, and worship them; And then the LORD'S wrath be kindled against you, **and he shut up the heaven, that there be no rain, and that the land yield not her fruit; and lest ye perish quickly from off the good land** which the LORD giveth you. Therefore shall ye **lay up these my words in your heart and in your soul...**"

I Corinthians 14:33 "For **God is not the author of confusion**, but of peace, as in all churches of the saints."

They Are Teaching Us To Worship AI ELECTRIC GODS

Play to 10:20: <https://www.youtube.com/watch?v=j6BbfdPYUE>

Ex-Google Engineer Is Making An AI God And People Will Worship It

Anthony Levandowski, the former Google and Uber executive has filed paperwork with the IRS to officially register a religion centered around super-smart artificial intelligence (AI).

According to IRS documents, the new church of AI will aim “to develop and promote the realization of a Godhead based on artificial intelligence and through understanding and worship of the Godhead [to] contribute to the betterment of society.” Levandowski would be the leader – in this case “dean” – of the religion. The robot god will head a non-profit religious organization called “Way Of The Future” (WOTF). According to the website (wayofthefuture.church), the movement is “about creating a peaceful and respectful transition of who is in charge of the planet from people to people + ‘machines.’”

Galatians 1:6-10: "I marvel that ye are so soon removed from him that called you into the grace of Christ **unto another gospel: Which is not another; but there be some that trouble you, and would pervert the gospel of Christ. But though we, or an angel from heaven, preach any other gospel unto you than that which we have preached unto you, let him be accursed. As we said before, so say I now again, If any man preach any other gospel unto you than that ye have received, let him be accursed. For do I now persuade men, or God? or do I seek to please men? for if I yet pleased men, I should not be the servant of Christ."**

Isaiah 66:3-4: "...Yea, they have **chosen their own ways, and their soul delighteth in their abominations. I also will choose their delusions, and will bring their fears upon them; because when I called, none did answer; when I spake, they did not hear: but they did evil before mine eyes, and chose that in which I delighted not.** The basis of this new religion is that Levandowski's believes that AI will one day grow to such efficiency that it surpass and overpower humans.

“Given that technology will ‘relatively soon’ be able to surpass human abilities, we want to help educate people about this exciting future and prepare a smooth transition,” the site explains. “In ‘recent’ years, we have expanded our concept of rights to both sexes, minority groups and even animals, **let’s make sure we find a way for ‘machines’ to get rights too.**”

In a rare [interview with WIRED](#), Levandowski shed more light on his new church WOTF. **The gospel of the religion would be called “The Manual, and will have rituals and even a physical place of worship.**

According to WIRED, the religion’s activities will concentrate on “the realization, acceptance, and worship of a Godhead based on Artificial Intelligence (AI) developed through computer hardware and software.”

The church will perform outreach to AI industry leaders and professionals to network with those “who are interested in the worship of a Godhead based on AI.”

“What is going to be created will effectively be a god,” he said. “It’s not a god in the sense that it makes lightning or causes hurricanes. But if there is something a billion times smarter than the smartest human, what else are you going to call it?”

In the latter part of the interview, **Levandowski compared the religion to other major religions of the world.**

“There are many ways people think of God, and thousands of flavors of Christianity, Judaism, Islam,” he explained. “But they’re always looking at something that’s not measurable or you can’t really see or control. This time it’s different. This time you will be able to talk to God, literally, and know that it’s listening.”

Hi Dr. Johnson,

I'm a long-time listener of yours, and I count on your audio studies to get a lot of my news.

Since you often deal w/tech + prophecy, I just published a lengthy article on the subject of Artificial Intelligence that I thought you might find interesting.

You can find it here: <http://shawnplep.com/2017/12/14/the-coming-ai-gods/>

AI news is CONSTANTLY changing - so there will be new developments today and next week, etc. But my point is that AI & robotics = beast tech, and we can see it happening NOW.

Anyway: I hope you enjoy it, and if you find it worthy of linking I MUCH appreciate it - but I'm not sure if it's up to the caliber of other articles you feature.

God bless you!

-Shawn Plep
