Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reproved are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive the very elect."

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we are not ignorant of his devices."

II Chronicles 7:14: "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

What Are They Hiding In Florida? Journalists Threatened With Arrest, Fake Ballots & Court Rules Election Supervisor Violated Florida Constitution - Florida Democrats Trying To Steal The Elections?

We'll begin with Broward County, where Supervisor of Elections Brenda Snipes, who has a "[long history of trouble](#)" as detailed by the Sun Sentinel, including [a court ruling that she broke election law by destroying ballots](#), leaving major amendments off ballots in 2016, and suddenly discovering almost 1,000 ballots in 2012, a week after the election, is once again in the spotlight for incompetence at best and utter corruption at worst, possibly even a mixture of the two.

In the days since Tuesday's midterm elections across the country, Broward County mysteriously "discovered" nearly 80,000 additional votes, affecting the Florida Senate race between the current Florida Republican Governor Rick Scott, and incumbent Democratic Senator Bill Nelson as well as the Governors race between Ron DeSantis and Andrew Gillum.

On November 7th, the day after the midterm election, Governor Scott was leading Senator Nelson in the Senate race by 38, 717 votes, according to [Florida Today](#), and with the newly "discovered" ballots, that lead is now down 12,500+ votes, showing the extreme difference the extra ballots and election antics on the part of Snipes has made in favor of Nelson.

Those antics include refusing to report vote tallies according to Florida law, forcing Governor Scott to file a lawsuit for an emergency hearing to force Snipes to provide the information to Republicans that she was already required by law to provide but wasn't doing.

Broward County Employee Affidavit Admits Elections Staff Filling-Out Blank Ballots! FIRED FROM JOB Former Florida Lieutenant Governor Jeff Kottkamp tweeted that there is an affidavit from a Florida campaign worker stating that he/she saw Broward County Elections staff filling out blank ballots! When the Florida Broward County Elections staff member reported that he/she saw elections staff committing crimes by filling out of blank ballots, he/she was fired and told not to come back!

MANUFACTURED VOTES: Broward +83,000 Palm Beach +15,000 Claims of overt election fraud continue to flow out of both Broward and Palm Beach Counties in south Florida Saturday morning as documented evidence of "manufactured votes" pours out. On election night, Borward county telephoned in to the Secretary of State's office reporting about 634,000 votes had been cast. But last night, Broward reported 717,000 ballots! That's a difference of 83,000 votes!

ELECTION FRAUD ANGER: "Firebomb their houses late at night, and when they run out to flee, shotgun them to death"

Such is the sentiment of one south Florida resident when he was asked what should be done about the rampant election fraud taking place once again in Broward County, Florida.

Michael Smensky stood outside the Broward Election Commission Headquarters today, protesting with dozens of other Floridians, after word leaked out that tens-of-thousands of "uncounted" ballots have magically appeared in that county since the end of Tuesday's election. That's enough ballots to change the election results statewide and for the US Senate.

While Escambia County, Florida Sheriff David Morgan recently sent a facebook message to Broward County, Florida following the massive mid-term election voting fraud that is taking place there: "[If you were in my county, the National News would be watching a 'perp walk'](#)", if Brenda Snipes were trying to pull the kind of shenanigans she's trying to pull now in, say, 18th century France, the 'perp walk' would be a 'do not pass go, do not collect \$200' walk straight to the guillotine and 'off with her head' for attempting to steal an election.

Cars Filled With Dead Bodies; Burned to their Skeletons in California Wildfires

Wildfires in California have killed many people and the fires still rage out of control.

Photos and VIDEO below show the remains; four carloads of dead bodies, literally burned to their skeletons, still sitting in car seats.

WARNING: EXTREMELY GRAPHIC IMAGES OF DEAD BODIES, BURNT BEYOND RECOGNITION DOWN TO SKELETAL REMAINS

One who tried to get out and run, didn't make it, burned to death in the road as walls of fire crossed the road and consumed everything in its path.

Tried to Run; Fire was Faster

The people in this car were overcome so fast, they simply sat there and burned to death in their seats.

VIDEO

Sadly, this type of scene is repeating itself over and over again in California today -- right now as you read this -- as wildfires tear through the region.

The fires are so big, the Carbon Monoxide being given off is actually being registered by Satellites in space.

This model image from the GOES-5 satellite, shows Carbon Monoxide levels in the atmosphere at 23,372 ppb -- a staggering amount given the wide area involved,

Typical Carbon Monoxide levels are usually around 30ppb but as seen in the image below, CO levels are at 23,372:

It should be pointed out that the reason (in part) California is having so many wildfires, that destroy so many homes, is because ENVIRONMENTALISTS and ENDANGERED SPECIES FANATICS complained so loudly and for so long about "animal habitats being destroyed" when old weeds and brush were bulldozed away to create fire-breaks, that the State of California HALTED such bulldozing years ago.

As a directly consequence of these whack-job ENVIRONMENTALISTS, old dried out brush and dead trees built-up for years and when a source of ignition took place, there was not only tremendous amounts of dead brush to fuel the fires, **there were no "breaks" in that fuel supply to contain the fires.**

These fires are a direct result of nutty humans, changing government policy to end clearing of dead brush and trees, which ended up costing many people's lives and destroying countless homes and buildings.

Bizarre Coincidence Or Traitorous Manipulation And 'In Your Face' Buffoonery? 50 To 60 Las Vegas Shooting Survivors Were Also At Mass Shooting At The Borderline Bar And Grill

While this Friday story over at the Daily Mail reports that according to newly released numbers from the FBI, there are an average of two mass shootings happening in America every month, with 30 mass shootings in the US in 2017 following 20 mass shootings in 2016, **their story didn't touch upon the bizarre 'coincidences' springing up around the latest mass shooting event at the Borderline Bar in Thousand Oaks, California, allegedly carried out by ex-Marine Ian Michael Long.** Killing 11 before killing himself, **this new Daily Mail story reports that one survivor of the attack was among a group of 50 to 60 people who, amazingly, had also been at the October 1st of 2017 mass shooting event at the Mandalay Bay hotel in Las Vegas just over a year ago and in fact, one 'survivor' had been interviewed following the mass shooting in Vegas as this October 2017 story at Billboard reports, just as he is interviewed by the media in the first video at the bottom of this story following the Borderline Bar shooting.**

We'll take a look below at a few more bizarre 'coincidences' following this latest 'mass shooting event' as well as a look at a theory held by some that these are 'engineered shootings' and are part of the globalists 'end game' to complete their take down of America with those who hate America and freedom having no way to do it with the 2nd Amendment still intact.

As several different commenters on the video point out, what are the odds of being at two different mass shooting events within just over a year in locations separated by more than 300 miles and a four-and-a-half hour drive? And the fact that there were 50 to 60 people at both events seemed just a tad tough to believe to many though we're certainly not in the position to prove at this moment the points argued by some that we're witnessing 'crisis actors'.

And as we see here, that rather bizarre occurrence of so many different people at both mass shootings is just one of several surrounding this latest event with the Thousand Oaks area is also close to ground zero with the fires that are now hitting California. As one resident of the area pointed out, "[It really can't get much worse](#)" with a one-two punch striking the area.

And while the entire left immediately jumped on the gun control bandwagon without missing a beat as if a perfectly choreographed play is being acted out before our eyes, [the Guns in the News story concluded](#) with a reference to government mind control

while [linking to this section on MKUltra at the Washington Standard](#).

One more thing, and no I'm not crazy, but since we know the US government has been involved in mind control for some time and questions have surrounded several shooters in the past, it makes you wonder if Mr. Long was not being controlled by such methods.

As we have warned over and over again on ANP, should the corrupted faction of the deep state be about to FINALLY be 'taken down', and that specifically includes the 'Clinton crime family', we'd expect a massive series of false flag events to be carried out upon the American people using not only professional black ops shooters and assassins but mind control patsies who've been put into place and 'trained' for this moment long ago.

And as we've seen this past election season and dating back to the Justice Kavanaugh confirmation hearings and even further back to the 2016 election itself, if the Democrats can't win legally at the ballot box or in the Senate Confirmation hearings, they'll resort to every last dirty trick in their bag to accomplish their goals, legal or not.

So with the Guns in the News story dabbling in the mind controlled patsy 'conspiracy theories' surrounding the California bar shooting and MKUltra, we thought we'd take another look at the [legendary if controversial book by Milton William Cooper written back in 1991 titled "Behold! A Pale Horse"](#) and his warning within it that the 'secret government' would use mind controlled patsies to carry out mass shootings that would leave the middle class begging for the government to do away with the 2nd Amendment.

Claiming that they'd use drugs and hypnosis on mental patients in a process called 'Orion', with the CIA inculcating the desire in the unstable to shoot up schoolyards and further enflame the left and the antigun lobby in America, we've seen just that over and over and over again over the past 25+ years since Cooper wrote his book. And as he mentioned in an author's note he left on the book back then, those kinds of events had

indeed begun to happen all across the country in 1991 though nowhere near as widespread as they are in 2018. By the way, Cooper wasn't some '*tinfoil hat wearing conspiracy theorist*' but a retired US Navy Intelligence officer.

Is the 'absolutely and completely corrupted' faction of the deep state arranging these kinds of shootings, using 'crisis actors' in the audience as so many of the watchers/commenters of this first video suggest? Interestingly, several times this person mentions *going back to the 'staging area'* and as other watchers of this video pointed out, there are several 'tells' that this person is lying, including touching his face at the 1:45 mark, a classic indicator of deception.

And with the anti-gun lobby going mad again following this latest mass shooting, calling for strict gun control and Democrats in Congress apparently prepared to follow their lead and go after the 2nd Amendment with the most aggressive gun control legislation in decades as this new Wall Street Journal story reports, we should be on the lookout for more and more of these 'events' in the months and years ahead as the globalists attempt to take back America by any means necessary, even massive false flag events designed to further GUT the US Constitution, carried out by the deep states trained terrorists.
