NEW YORK, New York, January 23, 2019 ([LifeSiteNews](http://LifeSiteNews.com)) – New York Gov. Andrew Cuomo (D) directed that the One World Trade Center's spire be lit pink overnight on Tuesday to celebrate his signing of a law allowing abortions until birth in some cases, and letting non-doctors commit abortions.

The law, the Reproductive Health Act, also erases the state's recognition of preborn babies older than 24 weeks as potential homicide victims.

**Psalms 127:3** "Lo, children are an heritage of the LORD: and the fruit of the womb is his reward."

Cuomo called the bill an "historic victory for New Yorkers and our progressive values." It was passed on the anniversary of *Roe v. Wade*, the 1973 Supreme Court decision that brought abortion on demand to every state.

In 1970, New York was the first state to legalize abortion. Cuomo said that he was directing that the 408-foot spire on the One World Trade Center, as well as the Governor Mario M. Cuomo Bridge, the Kosciuszko Bridge, and the Alfred E. Smith Building in Albany be lit in pink to "celebrate this achievement and shine a bright light

forward for the rest of the nation to follow.”

## **The Trump Train Is Dead on Arrival**

President Trump may very well have already lost the 2020 election. His indecisiveness and unwillingness to use the full force of his office to bring the American people inexcusable. This article will examine the areas of concern that are serving to alienate his base.

### **Border Security**

Despite all the attention to the subject of border security, more illegal aliens are crossing the border than during the Obama administration. Even with Trump putting the military on the border, they keep coming and coming.

As I have said many times before, I am concerned about the terrorists (Muslim Brotherhood, ISIS), the assassins (MS13), the drug dealers, the child traffickers and the habitual criminals. The reason why I loathe Pelosi and Schumer is because they don't care how many Americans are victimized by these evil doers. However, I did not expect the same indifference from Trump and that is precisely what we are seeing. Trump's failure to secure border funding is endangering every American. He just raised the white flag on declaring a national emergency (ie martial law) at the border and acting accordingly.

Trump says that he is giving the Democrats until February 15<sup>th</sup> to agree to fund the border wall or he is declaring a national emergency. Trump reminds me of an unarmed British policeman who yells at a fleeing felon “stop, or I will say stop again”. **In other words, Trump has descended into having more bark than bite. He is asleep at the wheel. The border is collapsing and Trump has turned into Nero as he fiddles away our national security.**

### **Trump's Failure to Address Social Media Censorship**

I, like many of my colleagues in the Independent Media, dedicated every resource at our disposal to get Trump elected. We were his only positive media force. The MSM denigrated and attempted to destroy Trump's candidacy at every turn.

With Roger Stone being indicted for complicity in colluding with the Russians, I want to remind everyone that I was one of 200 Independent Media (IM) journalists who the Washington Post identified as Russian spies during the 2016 campaign. If it were not for the Independent Media, Hillary Clinton gets elected. Like many in the IM, we poured our souls into Trump's campaign. We literally brought millions disaffected Americans to the fight and persuaded them to vote for Trump. If the IM was not the deciding factor, the social media giants would not be illegally censoring us. Are we the only reason he got elected? **No, however, were the main reason and Trump has turned his back on us, like Judas in the night.**

Trump has, in effect, totally abandoned the people who had the most to do with his successful campaign. As a result, he has lost the House, he has lost the border and he is alienating his base. Unfortunately, the divide between Trump and his base is in evidence in other areas as well.

### **Hillary's Continued Freedom Is Insulting to Every American**

Why is this sociopathic criminal still walking free. I recently had dinner with Shauna Cox (Bundy Ranch case) and she confirmed that Hillary was behind everything that happened on Cliven's ranch and in the Oregon incident as well.

I published documents which showed that Hillary conspired with Special Prosecutor Mueller to extract uranium from ranchers lands in the west. This event resulted in the treasonous act of uranium being sold to the Russians and the profits went to the Clinton Foundation and were funneled into Clinton's Presidential campaign. Shauna has come to discover that I was right in this assertion. The Bundy affair(s) was about treason and the Clinton Foundation.

If I can find the documentation, then why can't Trump's people? Oh, he is surrounded by Deep State you say? Well what about his latest choice for Attorney General, Burton Barr? Barr and Mueller's wives are best friends and they shop together and they play bingo together. Are you kidding me?

**Under the Deep State servant, former FBI Director, James Comey, Hillary's 33,000 national security emails that went to her private server, were gift wrapped for a Trump prosecution of Clinton. Legally speaking, this is the lowest hanging fruit I have ever witnessed. Again, crickets chirping, and I have had enough of Trump's inaction.**

### **Conclusion**

I could easily detail several more acts of depraved indifference by Trump which is alienating his base. If Trump were going to act decisively, he would have already done so. There is the REMOTE possibility that Trump will rediscover his manhood and make good on his campaign promises to drain the swamp, but don't hold your breath. America has been sucker-punched!

## Pelosi Cancels SOTUS

**PRESIDENT PELOSI? House Speaker holds public bill signings — to compete with Trump?** Pelosi is holding public bill signings in front of news cameras, an optic usually reserved for the President.

The latest example came Friday, when she publicly signed the continuing resolution to end the partial shutdown. Breitbart [notes](#) Pelosi used 8 pens to add her signature to the legislation — another move presidents use to hand out pens those legislators and supporters who help to pass a bill.

House Speaker Nancy Pelosi wants Americans to think she's the President.

*Newly-elected Speaker Nancy Pelosi (D-Calif.) said in an interview published on Thursday that the Constitution considers her equal to President Trump.*

*When Pelosi was asked whether she considers herself equal to Trump, she said, "The Constitution does," The New York Times reported.*

*Pelosi's position as Speaker makes her the second in line for the presidency should something happen to Trump, after Vice President Pence, according to the Constitution.*

## **Good Morning Madame President Pelosi..."IN SHORT, TRUMP HAS ACQUIESCED THE POWER OF THE PRESIDENCY TO A FEDERAL BUREAUCRACY"**

Trump Has Turned Into a Weak Excuse Maker

Following the arrest of Roger Stone, Trump tweeted out the following:

Donald J. Trump

@realDonaldTrump

*If Roger Stone was indicted for lying to Congress, what about the lying done by Comey, Brennan, Clapper, Lisa Page & lover, Baker and soooo many others? What about Hillary to FBI and her 33,000 deleted Emails? What about Lisa & Peter's deleted texts & Wiener's laptop? Much more!*

**Forgetting for a moment that Trump has the power of pardon and Roger Stone could immediately be placed outside the power of the DOJ, Trump could also fire Mueller. Clearly, Trump's tweet is addressing the DOJ (ie the "they" that is referenced). The last time I looked, Trump, as President is in charge of both the FBI and the DOJ. He can order the arrest and indictment of all the above-named perps in his tweet. Instead, he is conveying the message that the DOJ is in charge of him. Under the Constitution, Trump can fire any FBI or DOJ person who does not follow his orders. Eventually, Trump would find a moderately loyal Deep Stater who would to hell with this, I need my federal pension and prosecute these Deep State crooks that Trump's tweet identifies. IN SHORT, TRUMP HAS ACQUIESCED THE POWER OF THE PRESIDENCY TO A FEDERAL**

**BUREAUCRACY WHO HE'S IN CHARGE OF. AND HIS ACQUIESCENCE, OR COWARDICE DOES NOT END WITH THE DOJ AND THE FBI...**

The answer to our dilemma falls to us. What are WE THE PEOPLE GOING TO DO? We don't have long, because it won't be long until Mueller is not only arresting the Roger Stone's of the country, **he will be arresting Pence and Trump.** And since Trump is seemingly paralyzed, WE THE PEOPLE, need to decide what we are going to do about this current state of affairs?

The Russians and the Chinese have stated that Pelosi is running the country. Some other allies are stating that America is being run in two opposite camps. In other words, Trump is not really in charge. This makes it very likely that we will be attacked in a preemptive military strike and this will be the topic of the next article.

Before concluding, I want to deliver a stern warning. **IF the American people do not stand up to the Deep State we will surely be attacked and invaded.** We should look at France very carefully. They are showing us our future and France will soon experience a civil bloodbath like they have not seen since the French Revolution. I do not want to be misquoted here. **Every time Trump backs down, you and me are in more danger on a number of fronts.**

[20,000 Satellites for 5G to be Launched Sending Focused Beams of Intense Microwave Radiation Over Entire Earth](#)

by **John P. Thomas**  
**Health Impact News**

Public attention about 5G has been focused on the plans of telecom companies to install millions of small cell towers on electric utility poles, on public buildings and schools, on bus stop shelters, in public parks, and anywhere they want in national parks and on federally owned land. In local urban communities there would be a cell tower approximately

every 500 feet along every street.

As bad as these small cell towers might seem from the standpoint of constant exposure to radio frequency (RF) radiation in close proximity to the source, but an even more alarming prospect will be the beaming of millimeter length microwaves at the earth from thousands of new communication satellites.

**The FCC gave approval to SpaceX on March 29, 2018, to launch 4,425 satellites into low orbit around the Earth. [1]**

**The total number of satellites that is expected to be put into low and high orbit by several companies will be 20,000 satellites. [1]**

5G will use Phased Array Antennas to shoot Beams of Radiation at Cell Phones

These satellites will use the same type of phased array antennas as will be used by the ground-based 5G systems.

This means that they will send tightly focused beams of intense microwave radiation at each specific 5G device that is on the Earth and each device will send a beam of radiation back to the satellite. [2]

**These beams of radiation will also need to be strong enough to pass through walls and human flesh such as a hand or head to reach the intended destination. [2]**

This means that if you are in a crowded location, such as an airport or on a train, there will be hundreds if not thousands of invisible beams of radiation flying through the environment at the speed of light.

As people move in that environment, their bodies will be penetrated by numerous beams of radiation as they walk or as other people walk around them with their 5G smartphones. [2]

The effective radiated power of the 5G phased array antennas in phones will be 10 times more powerful than 4G phones.

No one will be free from exposure.

In addition, 5G beams of microwave radiation will be received and transmitted from new computer equipment, household appliances, and automobiles.

Stationary equipment such as Wi-Fi hubs in homes and offices will be permitted to use microwave beams that are 15 times stronger (300 watts) than the signals from 5G phones or 150 times stronger than 4G phones. [2]

Ground-based 5G systems are already being implemented in dozens of major cities right now. Plans are being approved by hundreds of other cities, which will allow implementation in 2019 and beyond.

**As I explained in my previous articles, cities do not have the right to “say no” to 5G. FCC regulations prevent cities from objecting on the basis of health concerns – they only can speak to issues of esthetics and the practical matter of the placement of equipment.**

**They are required to “say yes,” and they better do it quickly, or telecom companies will threaten them with legal action for obstructing their plans.**

The first two 5G test satellites were launched by SpaceX in February of 2018. Hundreds of other satellites are expected to be launched in 2019. The full set of 20,000 satellites could be put in orbit during the next two years.

To put this into perspective, as of September 2017 there were 1,738 operating satellites into orbit around the Earth. This means the number of satellites will be 11 times greater than the current number. [4]

**5G is promoted as being the next great wonder in the plan to advance technology to create smart cities where everything and everyone is instantly connected in real time with no lags or lost signals.**

**Of course there will be a few costs.**

**Everyone will be irradiated with millimeter-size, non-ionizing radiation 24 hours a day with completely unknown health effects.**

**Studies designed to investigate harm from 5G will be completed many years after the 5G systems on the ground and in space are fully implemented.**

**At that point it is very unlikely that telecom companies would dismantle their systems even if it is shown that their technology is causing cancer and other diseases. They would just deny the risks.**

**They will tell us that the science was settled decades ago. They will tell us that evidence linking 5G to cancer and other diseases is just a conspiracy theory that only a few crackpots believe.**

**Millions of people will suffer from radiation exposure with symptoms such as headaches, weakness, brain fog, impaired ability to learn and reason, chest pain, and numerous other symptoms that will baffle most conventional physicians.**

Today, it is possible to live in a location that has reduced levels of microwave exposure. This is accomplished by choosing a living space that is far away from cell phone towers. However, in the near future, it won't matter where we live, because 5G will irradiate us wherever we happen to live or work.

**FCC regulations have been structured in such a way that local municipalities cannot stop telecom companies from installing 5G. They are specifically prohibited from trying to delay or stop 5G implementation on the basis of health concerns. Based on what has been happening around the country, telecom companies are sweeping aside local resistance and gaining approval for their 5G systems in rapid succession.**

**Can 5G Implementation be Stopped?**

**As far as I can tell, at this point, the only way that 5G will be stopped will be by congressional action. If enough people raise a stink with their elected officials,**

then perhaps 5G could be put on hold while studies are done to examine the true health risks.

Telecom investment in 5G has been massive. They are planning full implementation on the ground and in space in the next couple years. The time to object is now and not after hundreds of thousands of people become sick. [7]
