The window of "allowable speech" is collapsing, and the Dark Age of internet censorship has arrived

The evil, authoritarian tech giants are obliterating any remaining shred of free speech, a universal human right. At first, they targeted Trump supporters and conservatives. Then the censorship targeted Christians and people quoting Bible scripture. Now, they're censoring all speech about vaccines, GMOs and natural cancer cures.

If this isn't stopped, internet users will soon be:

- Banned for talking about nutrition, including natural food cures for diabetes, cancer and heart disease.
- Banned for criticizing LGBTP pedophilia indoctrination of children, or the organized rape of children by transgender perverts who are now apparently an "untouchable" class of child predators.
- Banned for criticizing any Democrat who isn't a white male, regardless of how insane their failed ideas might be.
- Banned for pointing out that "climate change" is a grand hoax perpetrated by dishonest science quacks who faked the data.
- Banned for loving America or calling for defending America's borders.
- Banned for citing history, using quotes from America's Founding Fathers.
- Banned for saying that men and women are not identical, since the deranged, delusional Left now insists they are exactly the same and have no physiological or biological differences.
- Banned for exposing the crimes or corruption of any Democrat, such as the #ClintonBodyCount fiasco surrounding the Clintons.
- Banned for sharing any meme that makes progressives look stupid (which isn't difficult to do).

This is why moving to alternative platforms is so crucial. Get off Facebook. Stop using Google. Walk away from Twitter. Find and explore alternative services such as Gab, DuckDuckGo, [Censored.news](#) or [Brighteon.com](#), the free speech alternative to YouTube.

Trump Continues to Deceive His Base and Accomplish the Plan of Satan!!!

Trump has not built a single mile of NEW border fence after 30 months in office!!!

The Trump administration has not installed a single mile of new wall in a previously fenceless part of the U.S.-Mexico border in the 30 months since President Trump assumed office, despite his campaign promise to construct a "big beautiful wall."

In a statement last week, U.S. Customs and Border Protection, the federal agency overseeing border barrier construction, confirmed that all the fencing completed since Trump took office is "in place of dilapidated designs" because the existing fence was in need of replacement.

The agency said that it had built 51 miles of steel bollard fence with funding that was set aside during fiscal 2017 and 2018. But while the funding was meant both to replace outdated walls and to place barriers where there previously had been

none, the government has only completed the replacement projects. The projects to secure areas with no fence are still in the works.

The 50 miles of completed replacement barrier is a 10-mile gain since early April. In Trump's two and a half years in office, his administration has installed an average 1.7 miles of barrier per month, and none of it in areas that did not previously have some sort of barrier. A total 205 miles of new and replacement barrier has been funded in the two and a half years since Trump took office.

50 miles? The US-Mexico border is 2,000 miles long...50 miles in 2.5 years. At that rate Trump will finish the border wall in exactly 100 years. We've been had, people.

Trump Delivers Again!!: Trump vowed millions of immigration arrests in dramatic raids—but ICE only caught 18 family members.... While thousands continue to pour over the southern border every day

When President Donald Trump vowed to deport "millions" of immigrants from the United States, he was telegraphing an Immigration and Customs Enforcement operation that targeted migrants with final deportation orders. The real list had about 2,100 families on it, with the goal of deterring Central American migrants from trying to cross the southern border.

The final tally from the operation, according to federal officials: 18 family members were arrested, not enough to fit into a school bus. Immigration officials arrested another 17 undocumented immigrants they encountered in their searches, what are known as collateral arrests.

ICE announced the data Tuesday morning, tucking it into a news conference that included information about worksite enforcement and routine criminal arrests

Illegal Immigrants Are the Driving Force Behind Child Sex Crime Charges in North Carolina & Elsewhere

In North Carolina, during the past 18 months, more than 331 illegal aliens have been charged with 1,172 child rapes and child sexual assaults, according to data collected by an independent researcher.

James Johnson, who tracks the data on his website NCFIRE.info (North Carolinians For Immigration Reform and Enforcement), says he is only able to gather data from 30 of the state's 100 counties, which means it's likely the statewide count is significantly higher.

Johnson has tracked rapes and sexual assaults on children by illegal aliens since 2013, using original police reports and calling arresting agencies to verify immigration status. His data doesn't cover every month, but for the 54 months he has recorded, an average of 34 illegal aliens per month were charged with 151 counts of raping or sexually assaulting a child in North Carolina. Further, a study shows that only 12 percent of child rapes are reported, according to the National Sexual Violence Resource Center—meaning the total number could be almost 10 times higher.

Will Trump Let the US Army Stand by While 100,000 Christians Are Killed?

U.S. troops and approximately 100,000 Christians are endangered by a pending Turkish attack on northeastern Syria. The situation has prompted a Christian self-defense force to beg the American army for protection.

A partner of the Christian force, the Syriac Military Council, sent a message to *Clarion Project* asking for help. The SMC's public statement says:

"We urge the Christians in the U.S. to ask that the U.S. Army that is present in North-East Syria will not allow the Turkish army and jihadists to invade North-East Syria. Will the U.S. Army stand by idly while we are killed?"

Aram Hanna, the commander of the Syriac Military Council, told the *Clarion Project* that the SMC is 3,000-strong. It also includes a Christian female unit as well as Christians identifying as Syriacs, Assyrians, Chaldeans and Armenians.

The Christians fought in the campaign against ISIS, including the Battle of Raqqa.

The force expects to be targeted for destruction by the Turkish military and its jihadist proxies, putting the entire Christian population in the area “under direct threat.”

Pennsylvania school district informs over 1000 families their children will be taken if parents fall behind on paying for school lunch

Incrementalism is the steady progression of state tyranny in the absence of people pushing back against it. Here's a CLASSIC case, and it is not rumor:

Pennsylvania school district informs over 1000 families their children will be taken if parents fall behind on paying for school lunch...

You know, sort of like tranny story time, and landing in jail if you so much as dare to go into the schools un-announced to see what they are brainwashing your kids with.

"KINGSTON, PA. (AP) - A Pennsylvania school district is warning that children could end up in foster care if their parents do not pay overdue school lunch bills. The letters sent recently to about 1,000 parents in Wyoming Valley West School District have led to complaints from parents and a stern rebuke from Luzerne County child welfare authorities.

The district says that it is trying to collect more than \$20,000, and that other methods to get parents to pay have not been successful. Four parents owe at least \$450 apiece."

OK, LET ME DO THE MATH - FOUR parents owe \$450 apiece. Now THAT is a GREAT reason to take their kids, RIGHT? Oh, but I have an even BETTER

REASON - there are "about 1000" other parents who owe the balance - which would come out to \$18,200 total.

THAT MEANS THAT THE OTHER PARENTS, ON AVERAGE, ARE BEHIND BY LESS THAN \$18.50 EACH. And they'll take your kids for it.

They should be dragged through the streets and lynched ALREADY for sending out such a notice. Pitch fork time.

Ahh, yes, but if you are depressed after the state steals your kids, you must have a "CHEMICAL IMBALANCE", So POP A ZOLOFT AND GET OVER IT!!!

Trust me, the police are all in place making sure justice is served, and the kids really do get taken over \$18.50. You see, in the United States they are NOT "corrupt", THEY FOLLOW ORDERS.

Child trafficking CPS agencies now using "predictive analytics" to decide which children to kidnap

In case you haven't noticed, **Child Protective Services (CPS) agencies all across the country continue to be exposed** for kidnapping children and separating them from their parents based on bogus accusations. And one of the ways they're doing this is with "predictive analytics" software, according to new reports, from which CPS utilizes computer-generated assessments to determine which parents "deserve" to have their children stolen from them by the state.

During a recent episode of *The Campaign Show with Patrick Howley*, a father from Ohio named Aaron whose daughter was abducted by CPS thugs several years back explained how these state-sanctioned child abductors used predictive analytics against him and his family as justification to steal their child and place her in foster care for three long years.

Like many other American parents, Aaron was targeted by CPS for illegitimate reasons, and his daughter needlessly victimized as a result. And as is always the case, CPS was never held accountable for these crimes against humanity, which appear to be one the rise.

"Social workers have literally written in their reports to the courts that a parent has characteristics that might indicate that they may abuse or neglect their child in the future, even though there is no evidence that they have harmed their child in the past," Health Impact News' Terri LaPoint writes about how CPS is now punishing people for "pre-crimes," much like what was depicted in the dystopian film *Minority Report*.

"Instead of being presumed innocent until proven guilty, everyone involved with CPS assumes guilt, even in the face of no evidence of guilt," LaPoint adds.

"Some jurisdictions are taking this presumption of guilt without evidence a frightening step further: they are using 'predictive analytics' to see which parents MIGHT abuse or neglect their children in the future."

Other reports have found that predictive analytics is grossly inaccurate regardless of the targeted party's ethnicity, wrongly identifying "child abuse" more than 50 percent of the time. In some areas, such as Los Angeles, California, predictive analytics is wrong *more than 95 percent of the time*.

Because of this, parents need to be extra careful when reaching out to state officials for anything involving their children, as one wrong move could land them

on the “pre-criminal” list, making them ripe targets for illicit child abduction by CPS agents.

+3+ ALBANY OREGON: Mom, it's happening. U were right. Just left Walmart. They have bare spots all over the shelves. Lots of them. Limited choices on random other non food items too.

Hi, Steve, I thought I'd pass along a text I just received from my daughter. She and her husband and son live in Albany, Oregon, which is about in the middle of the Willamette Valley. “Mom, it's happening. U were right. Just left Walmart. They have bare spots all over the shelves. Lots of them. Limited choices on random other non food items too. They rearranged, I think, to make it look full but it wasn't. I've been going there a long time. I can see the difference. I pointed it out to Chris, who must've had tunnel vision. He stopped to look around & finally noticed how low in stock the shelves are. Plus I noticed an odd thing, mom. The majority of the regular sized stuff, food or not, wasn't available. It's been jumbo/super sized. From t.p to grapes. Even though we might've not been able to afford the extra food we got today. I bought stuff like rice & beans etc. What I saw today gave me a lump in my throat & an invisible weighted feeling that hasn't left yet.”

FOOD SHORTAGES SHOWING UP-SENT FROM A FRIEND OF HAWKS TO ME FROM THE NORTH CAROLINA AREA

Hawk...Yesterday I stopped at Harris Teeter they had no French cut beans and some green beans, some peas I did not see any can carrots they had corn and cream corn not as much as usual I am starting to see spaces on many items but you really have to look because they pull the cans forward and you cannot see behind them. I noticed a few weeks ago in Food Country when I was looking for canned beets I had to get on my hands and knees to look towards the back of the bottom shelf to get 2 cans. When I shop it looks like a store does when people are getting ready for a snow storm or blizzard. The more expensive items are available though, just not like it used to be. I have spoken with Mary who runs the local Dollar General she told me she is not getting the food in like she use to; she said she puts orders in but has no control of what is being delivered. Also in Food Lion they have the policy of putting the extra stock on the top of the shelf there & is not much stocked there anymore. When I go food shopping I try to pay attention as you say eyes to see, it surprises me how many folks do not. I do not think they realize a storm is coming...Joy

Steve Quayle Says: CELESTE, IS ONE OF THE MOST INFORMED PEOPLE ON THE PLANET DUE TO HER BACKGROUND-YOU CAN TAKE THIS INFO TO THE BANK! NOT FLATTERY BUT THE TRUTH!

After going through 1000 pages of documents released from the UN last week on food control, the bottom line on food is this:

They are going to break food down a caloric level, but not calories as you and I know. It will be: Dietary energy supply (DES) will be defined as food available for human consumption, expressed in kilocalories per person, per day that will be one thousandth of the current caloric guidelines minus what is stated below:

At the country level, it is calculated as the food remaining for human use after deduction of all non-food utilization's:

production costs, imports, stock withdrawals, exports, industrial use, animal feed, seeds & wastage. This includes loss of usable products occurring along distribution chains from farm gate (or port of import) up to retail level.

I did an article several years ago where the UN floated that a person would get 30 grams of food which included all your protein, carbs, sugars once every three weeks. It was the equivalent of 3/4 of an energy bar once every three weeks. The rest of your food energy would be veg and insects, but since there will be no production of veg due to climate chaos, that leaves insects and lab food (or synthetic biology-frankenfood/meat) for all ones food. This is the state of our food situation.

Subject: Listener Feedback: Water Nasties--Brain Eating Amoeba

I saw an article today where in Fayetteville, NC, at Fantasy Lake water park, a man died of brain eating amoeba. I was told it is uncommon but this is all over. We ALL use to love swimming there!! Large Tarzan swings, zip lines, water slides, and high dives. I NEVER heard of that before. Also you have all the flesh eating bacteria from the gulf coast all the way up to Delaware (was the furthest north I have heard of it).

I wonder if it is the decade of corexit being dumped in the gulf, or just mutations of who I knows what? But in my 44 years, it seems the past few years the nasty bacteria in water is now killing more and more people. Never was flesh eating bacteria in the beaches!! Now "uncommon" brain eating amoeba?? I guess it could just be part of our judgment for letting the devils in charge destroy the earth while we sit back and do little to nothing about it.

What do you think? Take care!

Scott Johnson's Response

Greg: Yes I agree. That is why I covered this flesh eating bacteria in the teaching before last. It will most likely only get worse and worse as wickedness increases.

Collodial Silver Protocols For Lung, Sinus, Ear and Eye Infections

Invive Mild Silver go to: www.dr-johnson.com

For **lung infections** nebulize 100ppm Invive Mild Silver Protien directly into the lung fields for 3-4 minute intervals several times per day. If you want to make a 100ppm solution (and you have a 5000ppm bottle) just divide 5000 by 100 to get: 50. So you would add 50 parts distilled water to 1 part 5000ppm to make a 100ppm solution.

Now with a **sinus infection** the best way to directly go after this is to get any nasal spray atomizer bottle (**Like this one:** <http://sparknaturals.com/index.php/accessories/1oz-blue-glass-nasal-sprayer.html>) and add 500ppm silver to the bottle. Now to make the 500ppm just add 10 parts distilled water to one part 5000ppm. This will be the strength you use in a nasal spray bottle. One drop of eucalyptus oil to this 500ppm solution is also very good for nasal use. When you use the 500ppm in the nasal spray bottle make sure you tip your head back and spray 3-5 times per nasal passage. You can do this several times per day. You

would also want to take 1/4 tsp. of the 5000ppm held under the tongue 3 times a day until you are doing better.

For Otitis Media (ear infections) (if your ear drops are not ruptured) you need to dilute the Invive Silver to 500ppm for the ear drops. To make this strength from 5000ppm just add 10 drops of distilled water to every one drop of 5000ppm. Use 3-4 drops in each ear 2-3 times per day till better. In reality I really like just plain old 3% Hydrogen Peroxide for ear infections 2-3 drops in each ear. Tilt the head and hold this dose in each ear for 1-2 minutes before tilting your head back. It will bubble and be quite loud and may burn a little so sometimes children are afraid of the Hydrogen Peroxide whereas the silver should not bubble or hurt at all.

For an 8 year old I would administer the 5000ppm silver under the tongue 15-20 drops 3 times a day (hold for 2-3 minutes then swallow) to treat the ear infection internally as well.

For an **eye infection like Pink Eye** only use the 50ppm Invive Mild Silver Protein Strength. One drop in each eye 3-4 times a day typically works wonders.

To make the **AG Cream** (AKA Silver Cream) get some Aloe Vera gel and add drops of the 5,000 ppm silver to the gel to the point just before it starts to liquefy.

Necrotizing Fasciitis/FLESH EATING BACTERIA & MRSA Protocol

Invive Mild Silver Protein Protocol for: MRSA STAPH INFECTIONS AND Necrotizing Fasciitis/FLESH EATING BACTERIA:

Adult Dosage: 1-2 tsp of **10700ESppm** Invive Mild Silver Protein every 4 hours until asymptomatic. Hold each dose in the mouth 3-4 minutes before swallowing. The 10700ESppm silver should also be applied every 2-4 hours topically over the staph infection alternated with Lugols Iodine. **Oregano Oil can also be used topically and internally.**

Dr. Johnson Comment: MRSA is the strongest super stain I know of so it requires 10700ES ppm.

Invive stated: Give them the 10,700 to put full strength on any severe infected wounds and cuts. They will be "AMAZED".

The 10,700 "IS" remarkable/"AMAZING" when applied T.I.D. directly on the wound, and applied directly on the bandage also, using a knife to cut every 1/8" into the bandage pad, so that the bandage pad is full of silver.

The March 1978 issue of Science Digest, in an article, 'Our Mightiest Germ Fighter,' reported: . . . "An antibiotic kills perhaps a half-dozen different disease organisms, but silver kills some 650. Resistant strains fail to develop." "Colloidal Silver . . . killed every virus that was tested in the lab,"

SAFETY DEPOSIT BOX-WARNING FROM FORMER VP AT A VERY LARGE BANK IN CHARGE OF SAFETY DEPOSIT BOXES

Steve: I was reading this link on your site this morning:

<https://www.nytimes.com/2019/07/19/business/safe-deposit-box-theft.html> **Please let your readers know that they should never put their metals or cash in a safety deposit box! Ever!!**

I used to be a VP at very large bank and managed pieces of the SDB program and since the Patriot Act was put in place it is illegal to keep such items in there because it violates the anti-money laundering laws. The banks have the right to drill and confiscate the contents if they suspect such items are in the SDB. Moreover, they may also submit a Suspicious Activity Report to the Feds which will potentially get you a generous cavity check. Blessings, Clark

Confessions of an Rx Drug Pusher: Gwen Olsen

Gwen Olsen was a top ranked pharmaceutical rep and was very good at her job. She was told how to influence the doctors to start prescribing new drugs. She never once exceeded her marketing budget. She would buy doctors gifts, pay for meals, happy hours, buy 500 boxes of Girl Scout cookies and slap her drug stickers on it and still couldn't come close to spending her monthly budget! She tried her best to exhaust her monthly expense account but never could!

She was a beautiful woman and admitted they used sex to sell. Good looking women and in some cases men. She was told she must dress in designer outfits, live in the exclusive part of town, drive a certain car to maintain her image. The Pharmaceutical companies get you into the lifestyle to put you into debt so if you do wake up to the evil, you can't leave because you're stuck in the lifestyle or you go bankrupt when you quit your job! They have very detailed files on doctors so they know what they like, their personality, their sports teams and how to get them to agree to push their drugs! It's all about manipulation and mind control. She convinced a hard to sell doctor to try one of her drugs on his “most challenging” patient – who later died! It was the doctor's mother! This is the event that started getting her out of the business! When she started asking the hard questions, she was repeatedly told, “That information is above your pay grade!”

She details how all the drug studies are basically fake! They tell third world country labs who do the "drug tests" the results they want and pay them hundreds of millions! Of course with all this money they always get the results they are looking for which are then given to the FDA. All the studies that fail and show problems are thrown into the trash and nobody ever knows about them! It's a huge scam and she tells how they do it all.

Eventually Gwen got into natural health and became a big whistleblower against the scams of Big Pharma! She tells the inside scoop and scams in this interview. It tells you exactly how the Big Pharma reps are just high paid whores taught to manipulate the doctors into pushing the drugs! Send this information EVERYWHERE! Let's cost these liars billions by waking up as many as we can to their frauds.

Drug companies have deluged the US population with billions of opioid pills-DEA tracked every opioid pill sold in the US and the results are horrific.

Between 2006 and 2012, 3 opioid drug makers and 6 distributors flooded the country with 76 billion pills of oxycodone and hydrocodone.

These highly addictive opioid pain medications that sparked the epidemic of abuse and overdoses that killed nearly 100,000 people in that time period.

As the epidemic surged over the seven-year period, so did the supply. The companies increased distribution from 8.4 billion in 2006 to 12.6 billion in 2012, a jump of roughly 50%.

In all, the deluge of pills was enough to supply every adult and child in the country with around 36 opioid pills per year.

Just a 10-day supply can hook 1 in 5 people into being long-term users, researchers have determined.

The stunning supply figures were first reported by the Washington Post and come from part of a database compiled by the Drug Enforcement Administration that tracked the fate of every opioid pill sold in America, from manufacturers to individual pharmacies.

A federal court in Ohio released the data this week as part of a massive consolidated court case against nearly two-dozen opioid makers and distributors, brought by nearly 2,000 cities, towns, and counties. The local governments allege that the opioid companies conspired to saturate the country with the potent painkillers to soak up billions in profits. The companies deny the allegations, arguing generally that they were serving the needs of patients.

+4+ Kinsey Agenda: UnMasking The Sexual Revolution & Exploitation of Children

With people like Oren Amitay singing the praises of Alfred Kinsey, we need to know more about who this man was and what it says about Amitay and his ilk. Amitay and James Cantor (who has suggested that giving pedophiles lifelike child sex dolls might be good) both promote the idea that pedophiles are "born that way", and that somehow there is a switch in the brain that makes people sexually attracted to children, and that we must thus be kind to the poor helpless pedophiles and maybe even get them lifelike child sex dolls to have sex with. Judith Reisman has spent a large portion of her life fighting the Kinsey plague that is now consuming much of the planet like an out of control STD.

They are out in the open. Be careful on July 21st. I will be praying. Only God can protect us and our loved ones from this evil. No fear of God in the land. These Luciferians know Jesus Christ is Lord and the book of Revelation in the Bible is true; but have chosen to reject Jesus and serve Lucifer aka Satan. This is just the tip of the iceberg of evil about to be openly practiced without any fear of reprisals in the eyes of the world. What was once kept and done in secret, is now going to

be openly done in public. Woe unto the inhabitants of earth. Lord Jesus, please guide and rescue your people soon All praise and glory to My King and Lord and Saviour and Creator God Almighty come in the flesh Jesus Christ of Nazareth.

With much prayer, Sister Karen

Scott Johnson's Comment: **TY! Boy they are really insane when the Luciferians say: "And we are here to fulfill the Prophecies of Revelations"**

As the end of these Luciferians is laid our very clearly in Revelation:

Rev 19:20 *And the beast was taken, and with him the false prophet that wrought miracles before him, with which he deceived them that had received the mark of the beast, and them that worshipped his image. These both were cast alive into a lake of fire burning with brimstone.*

Rev 20:15 *And whosoever was not found written in the book of life was cast into the lake of fire.*

Now I tried to look this up online to see it is was being promoted anywhere else and I was shocked as this is going on all over the United States at SUN, JUL 21 AT 2:00 PM:

'Her eyes were completely black': Va. family fends off naked woman who claimed to be the devil

CHESTERFIELD COUNTY, Va. (WRIC) — A Chesterfield family spoke with 8News on Friday after fending off a naked intruder who broke into their home on South Twilight Lane the night before. The intruder claimed to be the devil and attacked the family, prompting the homeowner to fire 39 rounds.

The incident was a traumatic experience for the Lewis family's first night in their brand new home.

"She was in to kill us," Melissa Lewis said, "that was her almighty, to kill us. She attacked us and I held her down & just kept on punching her and punching her as hard as I possibly could."

The Lewis' dream home now looks like a war zone, with blood soaked into the carpet, the walls and windows riddled with bullets and shell casings scattered all over.

"I said 'who are you?' Lewis' husband, who did not wish to go on camera, explained. "She said 'I need your help, please help me.' I said 'get out of my house,' and she goes 'I'm the devil.'"

The homeowner says the woman, who had a blue ponytail, broke into the basement around 10:30 p.m. on July 4. The family said she was laughing menacingly and refused to leave.

"She looked possessed, her eyes were completely black, like saucers, and she was laughing like it was a joke," Lewis's husband told 8News.

Fearing for his life, the father of three grabbed his pistol and gave a verbal

warning to the woman. With his family sleeping upstairs, he opened fire on the intruder. Lewis said the woman aggressively charged at him with superhuman strength.

"She was not stopping," he said. "She had the strength of four

grown men."

When he ran out of bullets, Lewis began throwing furniture at her. His wife and children eventually jumped in and attempted to stop the woman. The intruder

didn't stop until one of the children, the Lewis' 12-year-old son Logan, shoved a wrench into her neck.

Police arrested the intruder and she is being treated and evaluated at the hospital. The Lewis family left with bruises and bite marks.

"I'm scared to go in there, I won't even go into any room by myself, I'm terrified," M. Lewis said.

Detectives told the family that the suspect lives nearby and will eventually be charged robbery, breaking and entering and attempted murder. She is currently in the ICU with severe head trauma. 'Her eyes were completely black'

Actual demonic energy now channeling out of drag queens as humans act like creatures from hell right in front of children

Tuesday, July 02, 2019 by: [Ethan Huff \(Natural News\)](#) Renton Public Library in Renton, Washington, recently held a so-called "teen pride" event that featured a deranged, gender-dysphoric young man dressed as a woman who actually got down on all fours and started roaring incoherently like a demon from hell, this being the latest installment of satanic LGBTQ propaganda aimed at America's impressionable youth.

This bizarre drag show was part of a "pride celebration designed by teens for teens" which, according to an advertisement that appeared on the Renton Public Library website, also featured "Safer sex presentations! A drag show! Free swag! and a Free binder raffle!"

In case you're unfamiliar with what a "binder" is, it's a device that a transgender "man," meaning a woman pretending to be a man, can use to flatten "his" breasts in order to look more "masculine." At the Renton Public Library "teen pride" event, chest binders were handed out "to help eight self-hating girls mutilate their bodies," according to activist Kaeley Triller Harms, who spoke out against the horrors that she witnessed. Breast binding is associated with no less than 28 serious physical adverse side effects, and 97 percent of young women report experiencing these side effects, and yet continue to bind. A few of the harmful effects of breast binding are fractured ribs, collapsed lungs, and permanent breast and rib deformities.

On her Twitter page, Harms posted a video clip of the drag portion of the event, which depicts the young man in drag quite literally morphing into what would appear to be some kind of creature from hell. One can only imagine the demonic energy that was released into the room during this stunt.

"This is what demonic possession looks like," Harms commented below the clip she shared, encouraging viewers to watch it all the way to the end. "I know a lot of y'all don't believe in the spiritual realm, but thanks for bearing with me anyway. In my opinion, this is it. On all fours. Growling. At the teen pride event at the public library."

In addition to handing out chest binders and exposing young and innocent children to this demonic drag queen demon, the teen pride event organizers also handed out flyers about pre-exposure prophylaxis, or PreEP, a pharmaceutical that, when taken daily, is supposed to reduce one's risk of getting AIDS when having sex with HIV-positive people.

Activists from the so-called “Lifelong Alliance for AIDS” were on-site to push PreEP on young children – the Lifelong Alliance raking in about \$22 million annually from “government grants and fees” in order to do so. Representatives from abortion giant Planned Parenthood were also in attendance at Renton Public Library’s teen pride event, during which they handed out personal lubrication and flavored condoms to children. Meanwhile, adults who were not accompanying teenagers were reportedly told by library personnel that they had to leave the premises before the teen pride event began. One woman by the name of Lynn Meagher says she was “physically removed” by police after refusing to leave. “Welcome to 2019, when protecting kids from being prematurely sexualized can get you potentially arrested,” Harms commented about how Meagher was treated. “Maybe she should have claimed to identify as 14,” Harms further joked. To help support efforts nationwide to stop this LGBTQ indoctrination of society’s most vulnerable, be sure to sign the *LifeSiteNews* [Life Petition](#) to end all “Drag Queen Story Hour” and “teen pride” events at America’s public libraries. “Believe it or not, there is a well-orchestrated, subversive plan being promoted by the American Library Association, to promote a phenomenon known as ‘Drag Queen Story Hour’ (DQSH) to small-town American libraries, in order to ‘capture the imagination and play of the gender fluidity of childhood and give kids glamorous, positive, and unabashedly queer role models,’” the petition explains. [As The 'Gay Mafia' Uses Their 'Legal Club' To Beat Christian Universities Into](#)

Submission, Colleges Nationwide Are Throwing In The White Flag Of Surrender To Progressive Tyranny - Christian colleges made a Faustian bargain and now is time to pay the devil his due

Yes, Liberalism IS A Mental Disorder!!!

You don't win battles when there is an abundance of white flags in your arsenal but Christian universities haven't grasped that concept. One after the other, Christian schools have hoisted the white flag of surrender regarding their practices, policies, and precepts. That's called apostasy.

Last month, California passed a resolution calling on religious leaders to affirm homosexuality and

“transgenderism” and to accept that Christian efforts to help people with unwanted same-sex attraction or gender confusion are **“ineffective, unethical and harmful.”** Eager to please, Dr. Kevin Mannoia, Azusa Pacific University (APU) chaplain and the former head of the National Association of Evangelicals, kissed the LGBTQ ring and genuflected under the rainbow flag by “directing pastors and counselors to reject biblical views of sexuality and deny counseling for those struggling with unwanted same-sex attraction or gender confusion.”

And another white flag went up.

Earlier, Azusa had shamefully and cowardly lowered the banner of Calvary and raised another white flag of surrender after figuratively hoisting the rainbow flag of perversion. (Last week I did a national radio show dealing with homosexuality and perversion and the host said, “It’s been 30 years since I’ve heard perversion and homosexual used in the same sentence.”)

Azusa Pacific University “specifically removed language that barred LGBTQ relationships as part of a standing ban on pre-marital sex” from its student handbook, according to media reports. That is the third time the Christian university changed its position on “gay” relationships.

Moreover, the Christian school with Christian professors, Christian staff, and meeting in buildings build by Christian donors will now accept non-Christian students. Most Christian schools require potential students to sign a clear statement that they are born again Christians.

The school promises to treat everyone *“with Christ-like care and civility. Our values are unchanged.”* Well, not exactly. Of course, their values have changed at least three times. **First they were against perversion since the school’s inception in 1899. Then they weren’t against perversion. After further thought and donor pressure, they were against it. Finally, they voted to satisfy the LGBTQ crowd and make everyone welcome—as long as they don’t sodomize each other in the restrooms and don’t carry the multicolored LGBTQ flag through the dining hall naked as a jay bird.**

The school’s position is shocking especially since APU has a Wesleyan tradition that has always put an emphasis on holy living. **But hey, that’s as old fashioned as other**

Bible values such as not fornicating, lying, stealing, or sodomizing.

About two hundred students gathered on campus *“in support of LGBTQ students who may have been hurting as a result of the reinstatement of the ban.”* Been hurting, seems to be an overstatement. They were simply told that perversion was not permitted on campus just as fornication was not permitted. Even two professors met with the students and *“prayed”* with them. They, along with the students, should have been sent packing.

The school also declared that the *“APU community remains unequivocally biblical in our Christian evangelical identity.”* That is beyond dishonest double talk since they have clearly departed from a biblical position.

Of course, the schools are trying to stop the plunge in enrollment and the bleeding of school bank accounts, so they give a little here and there & soon they have a secular school whose biblical past then embarrasses their progressive leaders.

APU and more than 170 other Christian schools are members of the [Council for Christian Colleges & Universities \(CCCCU\)](#). President Shirley Hoogstra **is dealing with a simmering insurgency of its members because the group did not take action against two member schools who went on record to permit same-sex “marriage” couples on faculty and staff—Goshen College and Eastern Mennonite University.** Schools have bailed out of the CCCCU because of the biblical apostasy of permitting schools to go soft on sodomy. Other schools are ready to pack up and move out of the CCCCU unless changes are made by this August.

Of course, the nightmare position for the universities is that the LGBTQ crowd will use their legal clubs to beat them into submission—they will lose their tax exempt status, student aid, property tax exemption and other goodies from the state and Federal Government. Maybe then, they will only have God upon whom they can depend.

[Cedarville University’s President Thomas White said](#) that Cedarville *“will not compromise on the biblical view of marriage.”* Good for them but we will see what Cedarville, Liberty, Biola, and scores of other Christian universities do if the court says, *“accept homosexuality or close your doors.”*

All these Christian universities have walked the same path, a path of compromise that promised more students, more acceptance, more prestige, and government money. Originally colleges such as Harvard, Yale, Princeton, etc., were highly motivated but lost sight of their commitment to a high view of Scripture. One of their first and biggest mistakes was to seek secular accreditation. At least the Council for Christian Colleges & Universities were supposed to be biblical. Even the long time hold-out [Bob Jones University has caved](#) and has joined the rush for the Good House Keeping Seal of Acceptance in the field of Education. About 90% of the CCCCU’s member-schools hold secular regional accreditation.

It is wrong for a Christian institution to surrender some of its autonomy to get a little reward. Christian colleges made a Faustian bargain to give a little autonomy for the grand prize and now it is time to pay the devil his due—capitulate to federal demands or close your doors. It is my opinion the schools will collapse like a house of cards to retain their tax advantages and regional accreditation. No, none of the schools would fall down and worship the golden calf—but they will

worship the gold of the calf. If Christian institutions surrender their tax exempt status, there will be no more federal handouts, Satan forbid!!!!

There is open rebellion on the Christian university campuses causing rejoicing by the LGBTQ crowd but resulting in revulsion, repudiation, and rejection by a Holy God!
