Building Up to WWII-- Trump says US 'locked and loaded pending on verification' of attack on Saudi oil field--Saudi Shuts Half Oil Output After Drone Strikes... Attack knocked out 5% of global supply...Iran says ready for war after

accusations...Spectre of oil at \$100/barrel...WSJ: This Is The Big One...

President Donald Trump on Sunday evening tweeted that the US has "reason to believe" that the United States knows who is responsible for an attack on a Saudi Arabian oil field and is waiting on verification following the crippling strike. Specifically Trump said:

"Saudi Arabia oil supply was attacked. There is reason to believe that we know the culprit, are locked and loaded depending on verification, but are waiting to hear from the Kingdom as to who they believe was the cause of this attack, and under what terms we would proceed!"

Iran has dismissed US accusations it was behind drone attacks on Saudi Arabia's oil plants, and warned it is ready for a "full-fledged" war.

Iranian foreign ministry spokesman Abbas Mousavi said Washington had adopted a "maximum pressure" strategy against Iran, but because of "its failure [the US] is leaning toward maximum lies".

His remarks came as a senior commander in Iran's Revolutionary Guards said America's military bases and aircraft carriers, which are stationed up to 1,243 miles around Iran, were within range of Iranian missiles.

Saturday's drone attacks - which Yemen's Iranian-backed Houthi rebels claim they carried out - have halted around half of Saudi oil supplies after hitting the kingdom's biggest processing facility and a major oil field.

Iran says they didn't attack the Saudi oil refinery. The US says they did. So who do we believe? The honest US government that never misleads us or tricks us into going to war, or those lying Iranians?

Pastor Boyd: *The first phase of World War Three, the Psalm 83 War, has begun as Israel has been trading fire with Syria for a while now, this brings to mind the scripture in Isaiah 17:1 that Damascus will be destroyed, looks like as well this could be straight ahead. May I remind you that Isaiah 17:1 states, A prophecy against Damascus: "See, Damascus will no longer be a city but will become a heap of ruins." This has not happened yet in 3,000 years, but will soon come into play. This Ancient Prophecy foretelling the destruction of Damascus and all-out war In the Middle East is upon us NOW!*

Hmmm. Let me see.

BeBe struggling for political position.

Low demand for crude oil due to world economic slowdown / low oil prices.

Need an excuse to attack Iran, ANY excuse will do but many little problems that pile up over time is a good talking point when the decision is made to attack.

('They did this, and this, and this and finally this so we just have to do something to stop them. Any reasonable person would agree')

Quick blame given for the "attack" before any time is given for a clear and unbiased investigation. (as is usual in a false flag)

The supposed claim that an Iran backed (therefore Iran responsible) party is to blame, is easy to fake or claim in the age of fake blogs, fake video tech and fake news.

Who benefits? 1)...BeBe (see...his war mongering posture is justified. You need him to protect you) BeBe will fight to the last American soldier!! Isn't that great?

2)...Oil companies and countries that produce or gain from oil production and sales.

3)...The war machine needing a new excuse to move even closer to Russia and China. Iran, being a close ally to Russia will be involved. The countries with oil

contracts and investments with Iran will be effected negatively. But hey! It's only business.

Americans Are Arming Up In Huge Numbers, Driven By Self-Protection & Politicians Pushing 'Gun Grabs', With Communist-Socialist Government's The Biggest Mass Murderers In History

By Stefan Stanford - All News Pipeline - Live Free Or Die

According to this study on 'Democide', 'death by government' is one of the leading causes of death in world history.

With Sheriff's all across America claiming they won't enforce any new un-Constitutional gun grab laws enacted in our country or within their states with at least 20 county sheriff's in the far-left state of Washington leading the way after Washington state voters passed several new gun laws that went against the US Constitution, the Democrat debate on Thursday night quickly showed America the way things will go should 'Robert Francis O'Rourke' (or possibly any Democrat win the presidency in 2020) with O'Rourke insanely spouting words that some Law Enforcement officials have warned could lead to a bloodbath in America: "H* yes, we're gonna take your AR-15".**

With O'Rourke quite possibly inciting people to commit violence with that totalitarian claim, what one commenter on this Daily Mail story compared to "Yelling fire in a crowded movie theatre", Texas state Congressman Brisco Cain was hearing nothing of 'Beto's' remarks, firing back at the obvious 'beta-male' on twitter: "My AR is ready for you, Robert Francis."

And while 'Beto' soon thereafter reported Cain's remarks to the FBI, insanely claiming that Cain had levied a death threat against him by his twitter remarks that were nowhere near a threat, many pointed out that it was indeed 'Beto' who threatened all of America with his remarks, especially with 'death by government' one of the biggest killers of all upon this planet. The more than a hundred million

murdered by socialist government's alone (through history) prove the points made by Cambodian-American GOP rising star Elizabeth Heng, the Founder of New Faces GOP, in her viral ad (run during the Democratic debate) exposing socialism for what it almost always leads to - horrific deaths by government by the millions.

Remembering 9/11 and the criminal neocons who engineered it to destroy evidence of deep state criminality and the theft of trillions of dollars

Wednesday, September 11, 2019 ([Natural News](#)) **Here we are at 9/11 again, and most Americans still don't know the truth about 9/11 for the simple reason that the deep state swamp helped carry out it, while the dishonest fake news media covered it up.**

What we can say with confidence now, 18 years after this horrifying event, is that 9/11 was allowed to happen in order to create a national security panic that would allow easy passage of deep state surveillance laws.

Here are some additional facts about 9/11 that have slowly come to light over the last 18 years. The lying mainstream media — including Fox News — continues to deny the truth about all these things:

#1) The third building to fall on 9/11 — WTC 7 — was brought down via controlled demolition. It's painfully obvious to anyone who understands structural engineering that WTC 7, which no airplane hit, was brought down with carefully placed demolition charges (obviously far ahead of time) that caused a simultaneous failure of all the building's structural support columns. In fact, this is the conclusion of a new study on the topic that was just recently released. As reported by [The Free Thought Project](#). You can sign up to receive a copy of the full report [at this link](#). Read more facts about 9/11 from architects and engineers at the [AE911truth.org](#) website.

#2) The wreckage of the attack was rapidly removed as a way to destroy the physical evidence of how the buildings were actually brought down. This was the greatest criminal cover-up in America's history. After staging the event and using controlled explosives to bring down WTC 7, the powers that be waltzed right in and destroyed all the physical evidence while America watched, still in shock at the audacity and violence of the attack.

This just goes to show you that the deep state can do almost anything it wants — including committing mass murder against Americans — as long as it controls the narrative. The sheeple will believe absolutely anything.

Now we all realize that the very same FBI that was operating in 2001 was run by the same kind of treasonous swamp creatures who ran it under Obama (and who still run it under Trump, since the swamp hasn't been drained one bit by swapping out Comey with Wray).

#3) The Pentagon wasn't hit by a commercial jet plane. This is why the FBI — the same corrupt, deep state criminal cartel — confiscated all the video security tapes in the vicinity of the Pentagon and has since refused to release them. To date, there isn't a single snippet of video that shows an airplane hitting the

Pentagon. Yes, the very same establishment that played the twin towers video millions of times, to burn it into the psyche of the American people, told us they couldn't show us the Pentagon strike video due to "national security" reasons. In other words, the official story is complete bulls##t, just like it always is.

#4) The shockingly toxic cocktail of heavy metals, asbestos and construction dust that caused widespread cancer and death among First Responders continues to be covered up, even to this day. The very men and women who risked their lives to try to save innocent victims in the aftermath of the attack, in other words, were sacrificed by the State in order to maintain the false narrative that nobody was harmed by toxic materials released by the engineered collapse of the buildings.

That's how much the U.S. government really loves the citizens, by the way. You're nothing but an expendable nuisance to the powers that be, and they don't flinch one bit about causing thousands of cases of cancer and death as long as they get the surveillance powers they want so they can spy on (and control) every U.S. Senator, Attorney General and U.S. Supreme Court justice they want.

Have you figured out yet that the deep state swamp already collected dirt on Chief Justice Roberts as well as former AG Jeff Sessions? How do you think controlled these individuals and forced them to abandon their principles?

#5) The official government explanation of what happened in 9/11 now reads almost exactly like the Mueller Report — a desperate amalgam of fictions, lies and wishful theories that make no sense in the real world. The greater truth about 9/11 was covered up just like the truth about the assassination of JFK. The deep state has been running all this for decades, and they've controlled the narratives by controlling the media (while banning all independent media over the last three years to silence dissenting voices).

Oh, by the way, the FBI was also complicit in the assassination of Sen. Robert F. Kennedy and Dr. Martin Luther King, Jr. It's not just JFK and 9/11... the rogue deep state has been murdering people and covering it up for generations. Read [FBIcorruption.news](#) for more coverage.

#6) To the surprise of no one, trillions of dollars and millions of pages of secret government documents all disappeared on 9/11 and were said to have been destroyed in the wreckage. In many ways, the 9/11 false flag event was staged to destroy evidence, erase traces of money laundering and create an excuse for the deep state's "disappearing" of incriminating documents and money trails.

As [reported by Big League Politics](#):

On Sept. 10, 2001, then-Defense Secretary Donald Rumsfeld announced that \$2.3 trillion had gone missing at the Pentagon. He made a statement blaming the corrupt and inefficient bureaucracy for these funds vanishing essentially into thin air.

CBS News issued a report as part of their "Eye on America" series about the loss of funds, and how that scandal was conveniently lost in the shuffle only a day after it was made public...

What an amazing coincidence.

A criminal deep state that would kill thousands of Americans to enact surveillance legislation would not hesitate to kill thousands more to pass gun control measures.

Church vandalized after opposing 'drag queen' event -- 'King of hell' spray-painted on walls just before Sunday service

A California church was vandalized after its pastor and members publicly opposed the presentation of a “Drag Queen Story Hour” in a local public library.

The pro-family group MassResistance documented the satanic messages painted on the walls of the church

before Sunday services last weekend.

The messages include a star in a circle with the word “satan,” “lucifer,” “king of hell” and the obscene “s— m- —.”

Last month, MassResistance activists in the San Diego suburb of Chula Vista began alerting the community about the “Drag Queen Story Hour” coming to their local library.

MassResistance recruited churches, including Pastor Amado Huizar of the South Bay Pentecostal Church in Chula Vista.

“Pastor Luziar was very enthusiastic. He participated in our conference calls,” MassResistance said. “He reached out to the press and referenced MassResistance. He brought our leaflets – in both English and Spanish – **about the Drag Queen event into his church and encouraged the parishioners to take them and pass them out in the community. He is the kind of church leader we need everywhere!”**

However, there was a price to pay.

“As we’ve all seen, the rabid and unhinged pro-LGBT activists believe that no laws or rules of decorum prevent them from harassing, intimidating, and destroying anyone who disagrees with their agenda. And so, the church was soon on their radar screen,”

MassResistance said.

First there were personal attacks, including hate-filled messages on social media.

One attack came from a city council member, the report said.

“City Councilor Steven Padilla, who is openly ‘gay’ himself, wrote a vicious social media rant saying that the pro-family Chula Vista citizens are part of a group (i.e., MassResistance) that ‘promotes anti-immigrant and white-supremacist beliefs.’ He

offered no proof or evidence of this, and has refused to answer questions from the press about it," MassResistance said.

Then early on Sunday, Sept. 8, parishioners at Pastor Huizar's church who arrived early were met by satanic messages painted on all four outside walls. "They were quickly covered up, but it was clearly meant to terrorize both the pastor and the churchgoers because of their stand against the 'Drag Queen' event," the group said.

The organization said the satanic symbols were not a surprise, since it has found "a very disturbing amount of satanic imagery and 'church of satan' depiction[s]' embedded in the LGBT movement."

WND reported this week the New York Times ran a feature on the emergence of preteen "drag stars."

The Media Research Center blog [Newsbusters commented](#) that in its "eagerness to ingratiate itself to the LGBT left," the Times "didn't spot any sexual content in the 'drag kid' movement."

Reporter Alice Hines acknowledged that "as recently as the 1970s, when dressing as another gender could lead to arrest on charges of vagrancy or 'perversion' in many jurisdictions, drag was an adults-only affair, relegated to underground spaces and rich in sexual innuendo."

But now, she said, with the growing mainstream acceptance of gay culture, public libraries are hosting "Drag Queen Story Hour" and its defenders insist it isn't inherently sexual.

However, Newsbusters pointed out the Times ignored the stripper routine by an 11-year-old "drag kid" in a Brooklyn gay bar that was cheered on by adults.

The "Drag Queen Story Hour" movement gained momentum recently, with events in a number of states.

In Texas, however, a number of "drag queens" who made presentations in libraries were found to be convicted sex offenders.

David Lee Richardson, known as "Miss Kitty Litter," has participated in the "Drag Storytime for Children" at a public library in Austin, Texas, during the past year. He was arrested and convicted of offering sex for money in 1996.

Earlier this year, [MassResistance exposed two other convicted sex offenders who read to children at a Houston public library.](#)

On Aug. 8, after uncovering numerous social media posts by Richardson alluding to homosexual and sado-masochistic acts, members of MassResistance's Austin chapter testified before the Austin City Council, joining local citizens demanding that the "Drag Queen Story Hour" event be stopped.

WND reported one of the first "story hour" events (to draw attention nationally) was held in 2017 at the Michelle Obama public library in Long Beach, California. A drag queen named "Sparkle Leigh" even read to children in a Presbyterian church in Cincinnati, [reported Cincinnati.com.](#)

[**Bold Christians Mocked and Scorned While Protesting Exploitative "Drag Syndrome" Show**](#)

While they couldn't stop the show from happening, dozens of people from various Christian denominations in Michigan recently gathered to peacefully protest "Drag Syndrome," the sick show that exploits people with Down syndrome for hyper-sexualized entertainment, according to an on-location report from [LifeSite News](#).

If you've been following our reporting of "Drag Syndrome," you'll know that, while the show was initially dropped by its original venue amid concerns of exploitation, the show found a new home at the Wealthy Theatre in Grand Rapids.

Lifesite also reported that the ACLU has filed a civil rights complaint against the owner of the original venue, Republican congressional candidate Peter Meijer. In spite of retaliation, Meijer stands firm in his objections as to "whether the individuals performing for Drag Syndrome are giving, or are in a position to give their full and informed consent" and says he will not apologize for "doing what's right."

Protesters of the event have matched Meijer's boldness in defending the blatant abuse of the Drag Syndrome "performers." Even Tom Norton, a local politician running for Congress against Meijer, attended the protest on Sunday night and engaged in a debate with an attendee.

While some opted to remain silent and allow their presence and their signage speak for them, many others present lovingly and calmly spoke to anyone who would listen about our mighty God's design for marriage, sexuality, and his call to

protect the vulnerable among us.

LifeSite continues:

Wealthy Street Theatre is located near Grand Rapids' bohemian "Eastown" neighborhood and hosted a Saturday night performance at 7:00 p.m. and a 6:00 p.m. show on Sunday night. While free tickets for both shows were all reserved, **only the Saturday night gathering saw the theatre fill its 400-seat capacity. Approximately 15 attendees were themselves dressed in "drag."**

Naturally, the protestors were subject to verbal abuse, being called "Jesus freaks," told to "f*** off," or simply being flipped the middle finger by multiple Drag Syndrome supporters.

Protesters were frequently asked if they actually knew anyone with Down syndrome and how they could possibly oppose the performers' rights to "express themselves," yet nearly every single protester told LifeSite that they did in fact

have an immediate or extended family member with Down syndrome.

A woman loitering around the entryway of the theatre shouted “Hail Satan!” on one occasion, LifeSite says, and also “danced in a vulgar manner” while street preacher [Stephen Nylan](#) and others from Frontline Apologetics preached the Gospel near the ticket line.

We all know that the progressive left often sees no problem in *physically abusing* those with whom they disagree in these *sidewalk encounters*, so praise God that no one was harmed!

Child Molestation Being Taught As “Sexual Orientation” in California Schools!!!

Government school officials in California think it is “really important” to teach children about pedophilia and pederasty in the classroom because it is a “sexual orientation.” That is according to a top official for California’s Brea Olinda School District, who admitted to parents that it was being done — and that it would continue, despite the outrage. The implications are mind-blowing. | Full Story:

New Satanic Sexual Fetish--Couples Getting Pregnant and Having Multiple Abortions On Purpose

Deu 18:9 When thou art come into the land which the LORD thy God giveth thee, thou shalt not learn to do after the abominations of those nations.

Deu 18:10 There shall not be found among you any one that maketh his son or his daughter to pass through the fire...

Eph 2:10 For we are his workmanship, created in Christ Jesus unto good works, which God hath before ordained that we should walk in them.

Psa 22:9 But thou art he that took me out of the womb: thou didst make me hope when I was upon my mother's breasts.

Psa 22:10 I was cast upon thee from the womb: thou art my God from my mother's belly.

Psa 139:13 For thou hast possessed my reins: thou hast covered me in my mother's womb.

Psa 139:14 I will praise thee; for I am fearfully and wonderfully made: marvellous are thy works; and that my soul knoweth right well.

Every day society strays further from God’s light.

In a Reddit post entitled ‘Question regarding abortion and breeding fetish’, one user reveals how she has “a female friend who has a really powerful fetish for breeding” and never used birth control.

“She is with a male partner currently who is just like her, into breeding and they have been practicing their fetish for quite a few abortions,” the post reads.

Another male respondent then shared details of his own abortion fetish lifestyle.

“I know this fetish. My girlfriend and me have the same fetish. My girlfriend enjoys her pregnancies and she enjoys the abortion. Her preferred date to abort

is between 20 and 24 weeks of gestation. I enjoy making her pregnant. And I enjoy the time of her pregnancy.” he writes.

“In the last ten years in our relationship we have done seven abortions and my girlfriend is pregnant again with a little girl,” he adds.

Another respondent then praises him for sharing his fetish, writing, “It is good (and rare) to hear of a couple (both man and woman) where both members are into abortion and pregnancy. This is a wonderful and potent example of personal power, where sex meets violence and creation combines with destruction.”

Truly sick.

Given that the left has turned abortion from something that used to be a shameful last resort into a celebrated virtue, it becoming a sexual fetish was always the next (il)logical step.

800K Children in the U.S. Missing Each Year – International Tribunal Exposes Pedophilia Problem – Victims Testify of Child Sex Trafficking and Satanic Ritual Abuse

Warning Mature Content

800,000 children a year in the United States go missing, many of them being sexually trafficked through pedophilia networks where the children suffer unimaginable horrors such as Satanic ritual abuse.

This number is comprised of documented cases of children gone missing, and does not include children who are born and bred into pedophilia networks and have no birth certificates, or undocumented immigrant children who come across the borders.

Worldwide, the number is close to 8 million children missing and being sexually trafficked.

Such is the scope of the problem that was reported earlier this year (2018) in Westminster, London by *The International Tribunal for Natural Justice* (ITNJ), as the court convened over a 3-day period to launch their *Judicial Commission of Inquiry into Human Trafficking and Child Sex Abuse*.

The Judicial Commission is comprised of world leaders who have been involved in fighting child sex trafficking for years, and includes intelligence officers, politicians, legal scholars, and many others.

(Website: <https://commission.itnj.org>)

The International Tribunal was formed because most of the world's

government bodies today have been corrupted and no longer represent the people, but instead serve the interest of private corporations, and as such, justice is seldom found in most government judicial courts around the world today to stop such a heinous crime as child sex trafficking.

In fact, the child sex trafficking network today is actually facilitated by the rich and powerful, whose influence reaches into the political and judicial branches of society.

One of the most revealing and compelling testimonies given to the Commission was from former Scotland Yard Police detective Jon Wedger who specialized in child abuse investigations.

As a CID officer he discovered child sex trafficking networks reaching to highest levels of the police department, local government, and even the BBC, which led to an independent Police Complaints Commission delving into the depths of police involvement.

Attempts to silence him failed, even after he was threatened by his superiors that he would lose his job, his children, and his home if he did not shut up.

When asked by Chief Counsel Robert David Steele why he hadn't been killed, he replied:

Jesus loves me. Hopefully I've got a few more years. I've got a job to do.

It appears that pedopredation – including the attendant torture and murder of infants to produce adrenalized blood via ritual Satanic abuse – is in some cases considered an elite 'privilege' whereupon these echelons are permitted to practice such perversity with impunity.

There are two additional causes for alarm.

First, there appears to be a deliberate campaign by the elite to infect local, state (province) and national police, prosecutors, and judges – from Australia to Zimbabwe – with a 'taste' for pedosexuality.

It is used as both an initiation rite into the Deep State and Shadow Government, and as a basis for blackmail.

Worse, we are now seeing two terrible trends: one toward abusing and murdering children before they learn to speak (they cannot bear witness); and the other, perhaps brought back by US forces from Afghanistan, the combination of war dogs and toddlers in a devastating combination of child rape and bestiality – dogs raping children for videos to be sold.

Add to this the growing market in fetuses, the most prized being those delivered on the floor as part of a Satanic ritual, and one has an inkling of the greatest evil on the planet.

Second, it has become clear from our early inquiries with ample documentation, that both the family courts and the insolvency courts are being used to strip children from families to convert the children into a commodity that can be sold for cash, and are also being used to strip assets from wealthy individuals who are not part of the Deep State network.

Governments are complicit in child and asset stripping, which would not occur if registrars, lawyers (barristers), and judges were held accountable. False claims and documents abound, and in their tolerated existence, challenge the legitimacy of the government.

ENOUGH! The purpose of the Commission is to do what has not been done before: to document the actual totality of missing children each year (preliminary estimates yet to be documented are eight million a year, or 22,000 a day); and

also to document what happens to these children once they are ingested into the local to global pedopredation network of networks.

The average lifespan of a child once in the pedopredation (pedophilia or paedophilia) system is estimated by some to be two years — those being groomed for 'leadership' roles that perpetuate pedosexuality at all levels live much longer.

One of the most amazing victim testimonies given at the Judicial Commission was that of former Dutch Banker Ronald Bernard, who suffered through horrible sexual abuse as a child, and then became an abuser himself while working his way up into the elite sections of the global banking industry. Bernard claims that there are about 8000 to 8500 leaders in the banking industry that control most of the affairs of this world. He was on his way to becoming one of them, until they asked him to sacrifice a live baby.

His testimony, like other survivor testimonies, will disturb you.

Jay Parker grew up in a multi-generational family involved in the Illuminati secret society, dating back to the 1700s. As a child he was a victim of Satanic ritual abuse. His mother taught him that 12% of America is generational satanic. When my mother in 63 told me that 12% of America is generational satanic, I really found it hard to believe.

We went to regular church, and then of course in the afternoon we went to Church of the Marquee of Hell.

But when you have a society where 800,000 children are disappearing a year, like here in America, and its not even in the media, its not discussed at all except among people who are researching the child trafficking and the horrific abuse that's going on from these dark occult..... Can I say that we are in an insane position here?

I mean, this is insanity. 17 and a half million people dying of cancer because the cure is banned by the corruption of the pharmaceutical companies controlling the governments.

This is genocide, and yet we're putting up with it.

Vaping has killed FOUR people and left 450 sick because of a deadly 'new lung disease': Health crisis linked to e-cigarettes has now spread to 33 states and the CDC has urged all people to STOP the habit

- **Indiana and Minnesota health officials each confirmed one death from a mysterious lung illness in each of their respective states on Friday**
- **On Friday, the CDC said that there are now 450 cases of lung illnesses being investigated under suspicion they may be caused by vaping**
- **Harvard University scientists called these illnesses a 'worrisome new disease' in a study published Friday**
- **215 cases have been confirmed, and three people have died after vaping and displaying symptoms of the mysterious lung disease**
- **Many but not all cases involve vaping THC and nicotine**
- **Thursday state health officials told the Washington Post that the FDA has warned cannabis-vaping-related deaths may be caused by a vitamin E-derived oil**
- **It's unclear what any of the three left dead after vaping used in their e-cigarettes**

Chemicals Used in E-Cig Flavors Are Toxic and We've Known for Decades

"From the beginning the e-cigarette industry has been trying to peddle that their products are safe, that they don't contain the nasty chemicals that you find in cigarettes," Erika Sward, assistant vice president of national advocacy for the American Lung Association told Healthline. **"As more and more research comes out, I think that**

we're not surprised to find that the e-cigarette industry has not been truthful and forthcoming about the chemicals that their products do contain." Sward is referring to a growing body of evidence that the supposedly safe chemicals used regularly to make e-liquids are likely unhealthy. New research further suggests the chemical components in e-liquids are toxic and harmful to the body. Also, it's unlikely that manufacturers of these products are even fully aware of their chemical properties and their potential for harm.

The selling points of the "safety" of e-liquids have been that the products contain relatively few ingredients and, of the ingredients used, many are on the [FDA's Generally Recognized As Safe \(GRAS\) list](#) [Trusted Source](#).

E-liquids are generally made from a combination of propylene glycol and vegetable glycerin. This forms the liquid base to which additional additives such as flavorings and nicotine are added.

And the proof is in the pudding, or in this case, the pudding-flavored vape juice. Aldehydes, organic components often associated with aromas (such as those of berries), and other additives used for flavoring on the GRAS list are understood to be safe for food — not smoking or vaping.

Yet e-liquids are rife with them. Previous studies have looked at the effects of these ingredients when subjected to heat or vaporization and found that they can cause the formation of formaldehyde and other cancer-causing chemicals, in addition to causing irritation and inflammation of the lungs.

Now new research says that the chemicals could begin to react, forming unknown byproducts as soon as the e-liquid is mixed.

"It's entirely possible that there may be tens or even potentially hundreds of compounds forming and we just don't know much about them," Sven-Eric Jordt, PhD, professor of anesthesiology, pharmacology, and cancer biology at Duke University School of Medicine.

Student shares shocking images of collapsed lungs after vaping

Costly cartridges and an addiction to nicotine aren't the only things vapers need to worry about.

Chance Ammirata, 18, said it only took him a couple of days to go through one Juul pod. Now, he's going viral for sharing images of his lungs on social media.

When he began vaping about a year and a half ago, he thought the trendy devices were a "safe" alternative to smoking — though the teen says he's never smoked. But, last week, the Florida-based student learned vaporizers come with risks of their own, after he was rushed to the emergency room to treat a collapsed lung, which he believes was caused by the pod's toxic chemicals.

It began last Monday with a pain in his side. He recalled having trouble sleeping, but wrote the discomfort off as a pulled muscle. The following day, he could barely carry on a normal day.

"I remember [my friend] made me laugh," Ammirata [told the Daily Mail](#), "and it felt like my chest was collapsing, like I was having a heart attack."

That's when he decided to go to the hospital, and within a few hours he was surrounded by surgeons who had to insert a tube into his lung to keep it inflated. Ammirata said the diagnosis was "completely abrupt" as he hadn't suffered any symptoms such as coughing or wheezing prior to the collapse.

"When they did the actual major surgery to reinflate my lungs, the surgeon said, 'Whatever you've been smoking has been leaving these black dots on your lungs,' " he added.

Although surgeons successfully repaired the hole in his lung, they told Ammirata that those black dots would take years to heal, if they ever do. He'd also no longer be able to do a lot of the active pastimes he enjoys, such as cross-country running and scuba diving, nor can he travel by plane for some time.

Now, the former vaper is sounding the alarm, and pleading with others to break the habit.

"You thought Juuls were safe. So did I," he wrote in a viral post on his social media feed, sharing an image of his spotted, collapsed lungs.

PLEASE RETWEET THIS IS EFFECTING THE WORLD AND WE ARE THE ONES WHO CAN EFFECT CHANGE. DO NOT STOP SHARING, SAVE LIVES. I WILL BE THE EXAMPLE IF IT MEANS NO ONE ELSE NEEDS TO BE !

pic.twitter.com/AeYBPT9fUS

— Chance Ammirata (@Chanceammirata) [August 5, 2019](#)

Ammirata continued, "I know how hard it is to change anyone's mind who's addicted because I was, too. And I don't think anyone could have said anything to make me stop. But your lungs most likely look like this too if you've been smoking."

He concluded, "Don't let it get worse — please stop — like really please.

[Teenager Tryston Zohfeld Finds Out The Hard Way That Vaping Can Kill You As His Lungs Become So Blocked He's Put In A Medical Coma To Save His Life](#)

Texas teen Tryston Zohfeld was fighting to stay alive when his seemingly healthy and athletic lungs suddenly failed on July 26. It was later discovered that his lungs failed due to vaping.

Let me just say at the outset that if you think vaping is the "healthy alternative" to smoking you're wrong, and quite possibly

dead wrong. 17-year old Tryston Zohfeld found that after when, after vaping since 8th grade and hiding it from his parents, his lungs completely failed and he was brought to the doorstep of death in a medical coma. Vaping will kill you.

"We looked for peace, but no good *came*; and for a time of health, and behold trouble!"
Jeremiah 8:15 (KJV)

Take a real good look at the photo in the top of this article, and take a real good look at your child, or perhaps in the mirror. If you want them (or you) to wind up like that, then by all means please keep vaping. Because that's where you might wind up. Please pray for Tryston to make a full recovery, and please, throw your vapes in the garbage where they belong.

"I woke up just throwing up everywhere, and my heart was beating out of my chest going 100 miles an hour," Zohfeld said. His family rushed him to the Cook Children's Hospital in Fort Worth, Texas, where doctors admitted him to the ICU and put him in a medically induced coma as his condition rapidly deteriorated. There he was hooked up to an oscillatory ventilator, which kept him alive for 10 days.

- **RELATED:** [Vaping, E-cigarettes, and JUULing: What Parents of Teens Need to Know](#)

"The day they intubated him was the worst day of my life," Matt Zohfeld, Tryston's father, told the outlet. "We walked into this hospital very naive about what we were dealing with."

"We had no idea if he was going to make it through or not," his father added. "That was very difficult to come to terms with." X-rays of his lungs showed a complete blockage. Doctors ran multiple tests for a number of diseases, even pneumonia, but everything came back negative.

"We eliminated everything that we could possibly think of that could have caused it," Dr. Karen Schultz, a specialist in pediatrics and pulmonology, told WFAA. It wasn't until another family member revealed that Tryston had been regularly vaping since he was in 8th grade, a habit his parents reportedly didn't know about, that doctors came to a diagnosis.

"The lightbulb started coming on," his father recalled. "It started making sense why we weren't finding anything else."

Shultz said she believes the chemicals Tryston was inhaling from the vape pen caused his lungs to inflame to a point where they couldn't exchange oxygen and carbon dioxide anymore. She added that his habit had done enough damage to scar his lungs.

On Wednesday, the U.S. Centers for Disease Control and Prevention announced that they are investigating 153 cases of severe lung disease that they think may be linked to vaping. Earlier this month, the U.S. Food and Drug Administration revealed they were investigating 127 cases of seizures and other "neurological symptoms" for a potential link to the e-cigarettes.

Tryston was released from the hospital after an 18-day stay and told WFAA that he and all of his friends have thrown out their vape pens and e-cigarettes.

"I was definitely given a second chance, and as soon as I woke up from that coma I knew what I wanted to do," he explained. "This is really what could happen and it's not something to look over."

Vaping health alert--Utah teenager put in coma after vaping every day for three years

Monday, 2 September 2019 7:12 pm--**A teenager who vaped every day for three years was put into a medically-induced coma after her lungs started to deteriorate.**

Maddie Nelson, 18, from Nephi, in the US state of Utah, was taken to hospital in late July with a high fever and intense kidney pain.

She was also struggling to breathe. "The nurses tried giving her oxygen hoping it would help, but it wasn't enough," Nelson's sister Andrea Fullmer wrote on a [GoFundMe](#) page.

Days later, the 18-year-old, who is the youngest sibling in the family, was rushed to intensive care where she could barely draw a breath.

After an X-ray of her chest showed her condition was severe, Nelson's family and doctors decided to put her in a coma.

"This was a hard decision for us to make, her condition seemed to be getting worse fast and we were scared we may never be able to talk to our sister again," Fullmer wrote.

It was while she in a coma that doctors diagnosed the teenager with acute Eosinophilic Pneumonia, caused by vaping.

Nelson told [FOX13](#) she had vaped every day for three years.

"I thought vaping was fine," she said.

"I did all the tricks, all the time."

More on [7NEWS.com.au](#)

- [City of Milwaukee urges everyone who lives there to stop vaping immediately](#)
- [US probe of lung cases linked to 'vaping'](#)

But it was only after she woke up from her coma that she learnt of the real damage the habit had caused.

"I had fat particles growing inside my lungs that were related to the glycerin in vape juice," Nelson said.

"So then my lungs were full of fluid. They said that my chest X-rays were one of the worst they've ever seen."

Her family had feared the worst.

But Nelson, who was in the coma for three days, made a massive improvement after being given steroids to combat the inflammation.

Although the teenager initially recovered, she still needs to use oxygen at night and continues to be monitored.

"It's very scary, because the doctors don't know the long term effects of this," Nelson said.

"So they don't know what the healing process is even supposed to be like."

Only One Safety Study Ever Done on Thimerosal Used in Vaccines

Thimerosal was patented by Eli Lilly scientists in 1927. Eli Lilly, a corporation based in Indianapolis, Indiana, took the opportunity to perform an experiment on humans during a local epidemic. 144 people in Indianapolis had come down with bacterial meningitis infections of the brain. **Eli Lilly**

took 22 of those people and exposed them to extremely high doses of thimerosal, a 1% solution.

The thimerosal doses they gave to these 22 people were killing animals in the laboratory. Yet Eli Lilly gave it to the subjects intravenously, and all 22 people died — most of them within a day. Based on this experiment, Eli Lilly stated that thimerosal had a very low order of toxicity for man.

This remains the only safety study ever done on thimerosal.

+4+ OPEN LETTER FROM A MEDICAL DOCTOR TO LEGISLATORS REGARDING ABORTED FETAL CELL DNA IN VACCINES

April 8, 2019--My name is Dr. Theresa Deisher. I am Founder and Lead Scientist at Sound Choice Pharmaceutical Institute, whose mission is to educate the public about vaccine safety, as well as to pressure manufacturers to provide better and safer vaccines for the public. I obtained my doctorate from Stanford University in Molecular and Cellular Physiology in 1990 and completed my post-doctoral work at the University of Washington. My career has been spent in the commercial biotechnology industry, and I have done work from basic biological and drug discovery through clinical development.

I am writing regarding unrefuted scientific facts about ABORTED fetal DNA contaminants in the Measles-Mumps-Rubella vaccine, which must be made known to lawmakers and the public.

Merck's MMR II vaccine (as well as the chickenpox, Pentacel, and all Hep-A containing vaccines) ARE manufactured using human fetal cell lines and are heavily contaminated with human fetal DNA from the production process. Levels in our children can reach up to 5 ng/ml after vaccination, depending on the age, weight and blood volume of the child. That level is known to activate Toll-like receptor 9 (TLR9), which can cause autoimmune attacks.

To illustrate the autoimmune capability of very small amounts of fetal DNA, consider this: labor is triggered by fetal DNA from the baby that builds up in the mother's bloodstream, **triggering a massive immune rejection of the baby. This is labor.** It works like this: fetal DNA fragments from a baby with about 300 base pairs in length are found in a pregnant mother's serum. **When they reach between 0.46– 5.08 ng/mL in serum, triggering labor via the TLR9 mechanism.**

The fetal DNA levels in a child after being injected with fetal-manufactured vaccines reach the same level that triggers autoimmune rejection of baby by mother.

Anyone who says that the fetal DNA contaminating our vaccines is harmless either does not know anything about immunity and Toll- like receptors or they are not telling the truth.

If fetal DNA can trigger labor (a naturally desired autoimmune reaction), then those same levels in vaccines can trigger autoimmunity in a child.

This is direct biological evidence that fetal DNA contaminants in vaccines are not in low innocuous amounts. They are a very strong proinflammatory trigger.

Administration of fragments of (human fetal non-self DNA) to a child could generate an immune response that would also cross-react with the child's own DNA.

Children with autistic disorder have antibodies against human DNA in their circulation that non-autistic children do not have. These antibodies may be involved in autoimmune attacks in autistic children.

Duke University demonstrated in a recently conducted study that significant improvements in behavior were observed when children with autism spectrum disorder were treated with their own banked autologous cord blood. **This treatment clearly shows that most children with autism are not born with it since genetic diseases like Down syndrome or muscular fibrosis cannot be treated with autologous stem cells. Therefore, an environmental trigger, or triggers, introduced to the world**

around 1980 when autism first began to rise, must be identified and eliminated or reduced in the environment.

- Strong change-point correlation exists between rising autism rates and the US vaccine manufacturing switch from animal-derived cell lines for rubella vaccine to human aborted cell lines in the late 70s.

- The earliest change point for Autistic Disorder (AD) birth year was identified for 1981 for California and U.S. data, preceded by a switch in the manufacturing process: In January 1979, the FDA approved the manufacturing switch for the rubella virus from animal based to the aborted human fetal cell line WI-38 using the RA27/3 virus strain. Both the newly approved monovalent rubella vaccine and a trivalent mumps, measles and rubella vaccine utilize the WI-38 aborted fetal cell line for manufacturing of the rubella vaccine portion.

- **Prior to 1980, autism spectrum disorder was a very rare, almost unknown disease.** According to the figures of the CDC, the rate of autism in 2014 was 1 in 59 children, a very steep increase since just 2000, when it was 1 in 150. CDC: "The total costs per year for children with ASD in the United States were estimated to be between \$11.5 billion – \$60.9 billion (2011 US dollars)viii."

In the following video you'll learn about how the crooked UK government prosecuted David Noakes who was helping people through distributing GcMAF which cured people!

As stated in the video the UK government has now killed over 2 million people in the UK alone by concealing GcMAF from the people! **Spread the word patriots and tell Trump @potus and @realdonaldtrump we hold him responsible for the FDA stopping GcMAF in the USA!**

Our entire government and medical system is a total fraud! Spread the word patriots so everybody knows how many people they are killing! They are killing our families and friends! Tell Trump we hold him responsible for what the FDA did to GcMAF and other cancer treatments they outlawed. We're still waiting for Hillary to go to prison and for him to bust down the doors at Google, Twitter and Facebook for censoring patriots! We're not happy by what we see so far! It's all talk and no action and it's unacceptable!

Regardless of Health Conditions and Religious Exceptions, ALL California Children Must Be Vaccinated!

September 6, 2019--If your California child wants to go to school, they must get their vaccines. The religious beliefs do not matter. Parental authority does not matter. And the child's health does not matter, ever. No excuses. Oh, but the 73 vaccines are equally safe. All research to the contrary cannot be used as an excuse to avoid the vaccines. Welcome to Communist China. One more thing, this insanity only applies to citizens! Here is the rest of this insanity.

California Passes Law Severely Restricting Medical Vaccine Exemptions

The parents of California have just suffered another devastating blow to their right to decide what is best for their children.

On Monday, Gov. Gavin Newsom (D) signed Senate Bill 276, a fiercely debated bill that will make it even more difficult for children to attend school without receiving the state's mandatory vaccinations—even if their doctor has decided that some or all shots could be detrimental to their health.

The reasons for medical exemptions vary widely but may include factors such as a history of comas, chemotherapy, or life-threatening allergies, according to the CDC.

SB276 requires public health officials to review exemptions at schools with less than a 95% vaccination rate. The law also requires that any doctor who grants more than five medical exemptions in a calendar year be placed under review by public health officials.

Worst of all, the law now gives the state the authority to revoke any exemptions it deems fraudulent or medically inaccurate. Because the government knows children better than their parents and even their doctors, apparently.

So the reality is SB 276 makes it nearly impossible for medical doctors to write exemptions for childhood vaccines for medical reasons.

California **Dr. Robert J. Rowen** did not hold back when describing his feelings for the California Senate.

Despicable, Dishonest, Double Standard and Lying Politicians.

by [Dr. Robert J. Rowen](#)

Now I am compelled to speak my mind.

I have just learned that Senator Pan's bill, SB 276, has passed the Senate and was signed off by the governor.

I now consider Senator Pan absolutely malevolent and evil, as I do Senator Allen, both of whom were sponsors of SB 277 which started this shakedown of family rights. I am very cautious of using these terms in my dealings with my fellow man.

I don't walk in their shoes. **But deliberate lying, deception, and a double standard (to achieve a questionable goal) is beyond my acceptance.**

Both of these men stated that the medical exemption was sacrosanct. It would never be touched. These were their promises to get SB 277 passed.

Pan, a doctor himself, said he honored the doctor patient relationship.

But just a few years later, he pushes this draconian bill destroying the doctor patient relationship and placing a child's fate in the hands of state bureaucrats hundreds of miles away.

Pan says SB 276 closes a "loophole" families and doctors found in the medical exemption process. **It builds on a 2015 law Pan also wrote to eliminate personal beliefs as a valid reason to skip vaccines when enrolling kids in school.**

Pan said there are "unscrupulous physicians" who sell the exemptions to families of school children who should get vaccinated, which compromises the health and safety of their classmates who are too sick to get the shots.

"The purpose of the bill is to keep people safe," Pan said. "You don't have the right, you don't have the privilege of injuring someone else's child. That's what this bill is about."

[Senator Pan, you double standard hypocrite. Have you the privilege to compel potential injury on one child to allegedly protect "someone else's child who is too sick to get shots"?

I consider you absolutely evil now with your statement. You have formally assumed the privilege/right/power to harm family A's child (who may have genetic or family risks of vaccines) to "protect" child B who cannot get a vaccine.

You appear as a double standard mongering politician who will lie, cheat, and steal (another child's health) to accomplish your agenda. I consider this EVIL.

To me, it is no different than a Nazi officer deciding which child lives, and which child dies, just a matter of degree. In this case, you are choosing or risking injury on one child for another]

New York Parents Fight Back After Religious Vaccine Exemptions Repealed

A draconian move by the New York State legislature to remove religious exemptions to vaccination for school children back in June has sparked a massive backlash from parents and faith-based groups in the state.

As we have previously reported, lawsuits from Children's Health Defense (CHD) and others swiftly followed New York's decision to become the fifth state to end exemptions for its residents who object to vaccinating their children due to religious beliefs.

While vaccinations are only required by law for children who attend public and private schools, as well as some daycares and learning centers, parents who sincerely object to some or all vaccinations are now compelled by the state to either homeschool or move.
