Coronavirus in China: 46 Million QUARANTINED, 2.8 Million Infected; 112,000 DEAD

The outbreak of an alleged new coronavirus in China is completely out of control, and is killing THOUSANDS every day.

As of 6:00 PM eastern US time on 23 January, Covert Intelligence sources inside China confirm over 2.8 MILLION infected people with one-hundred-twelve-thousand (112,000) DEAD so far. Chief cause of death: Multiple Organ Failure.

This deviates wildly from the PUBLICLY reported number of 830 Infected and 25 deaths because . . . ready for this . . . A message from a frontline doc in Wuhan has confirmed the reason for the slowing of the growing number of infected, is because the hospitals have run out

The thousands of dead are being taken directly to incinerators. No funeral. No burial. Just burned.

Intel is getting its actual Death counts directly from the incinerator operators!!!!!!
People are literally "Dropping-Dead."

On the streets:

The new virus is different from SARS, in that it causes rapid kidney failure.
As of Thursday, 23 January, the government of China has QUARANTINED a total of EIGHT cities: Wuhan, Huanggang, Ezhou, Chibi, Xiantao, Qianjiang, Zhijiang and Lichuan

20,000,000+ citizens in total.

The Chinese Military is now assisting with the lockdown of multiple Chinese cities. They're all wearing bio-protective suits.

CCP Central Military Commission has ordered Central Command to assist the Wuhan lockdown in response to social instability due to panic emotions.

The soldiers were equipped with biological protective gear and they vowed to win the campaign.

Motorized equipment will be put to use. Dongfeng EQ2050 armored vehicle, armored personnel carriers and light tanks were all put to use to defend the roadblocks.

Even more astonishing, Chinese in the entire province Zhejiang have been told to stay in their homes. 60 million people are told to stay where they are. It's not an official Quarantine (yet) but rather strongly worded advice.

The systemic failure of Chinese society has already started. By THIS Sunday, full panic will be unavoidable as people realize food, medicine, and doctors, are finite resources and triage is in effect.

Stores are already OUT of food: There is literally NO FOOD LEFT in the cities under

Quarantine because no trucks are allowed in to deliver!

When China collapses -- and it looks very much as though it will -- China's collapse will set in-motion a global economic shockwave from which the planet will be unable to recover for decades.

Chinese Army troops boarded trains last night in the city, and shut down the entire transportation system:

Buses, trains, ferries, and planes are all shut down.

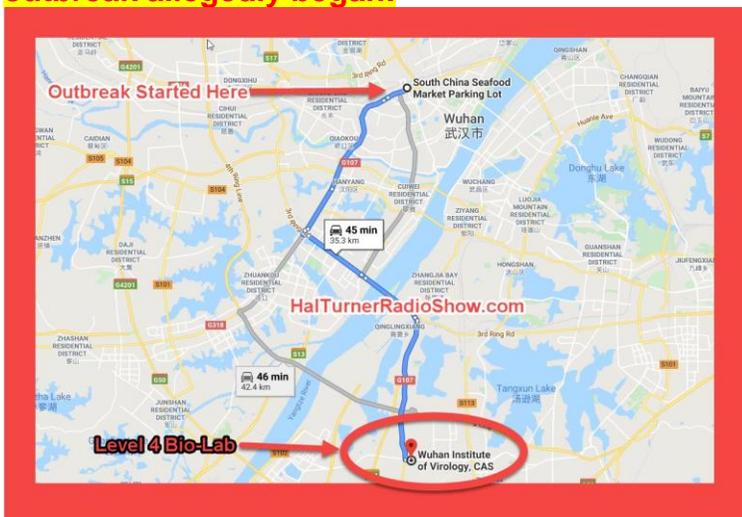

Police road blocks sprang-up on EVERY major roadway, preventing anyone from driving in to the city -- and preventing everyone from leaving. Even foreign tourists cannot leave!

This is very likely NOT a natural incident, but more likely related to a new, Level Four Bio Lab Built by China beginning in 2015, and made operational in January, 2018. Where did they build it? WUHAN!

The Wuhan Virology Lab is just two miles or so from the Fish Market where the outbreak allegedly began:

Prior to the beginning of lab operations, Doctors and other experts from around the world expressed fears the equipment and procedures being set up at the facility, "would not prevent escape of dangerous pathogens." Those warnings were ignored, and the lab was made active anyway.

ELSEWHERE

In Australia:

Health authorities have confirmed a person in Sydney is in quarantine as of this morning after possibly contracting the potentially deadly coronavirus disease. Suspected case now in Brisbane.

In Canada:

MONTREAL -- Five people in Quebec who had recently traveled to China and displayed symptoms of a respiratory virus are currently being tested for coronavirus.

In Colombia (South America):

Colombia is on alert for a possible case of a patient suspected of presenting the symptoms of coronavirus originating in China.

As reported by various Colombian media, it is a Chinese citizen who arrived in the city of Cali after traveling from Turkey. The man was isolated to undergo the respective exams.

In England (UK)

FIFTH SUSPECTED CASE OF CORONAVIRUS FEARED IN UK AS PATIENT RUSHED TO HOSPITAL

In Italy:

In ITALY, Chinese woman who was in Wuhan has been hospitalized

In Malaysia:

Two suspected cases now in Quarantine, awaiting test results.

In Mexico:

Three new suspected cases of coronavirus reported in Jalisco, Mexico

In Northern Ireland:

1 suspect case in Belfast, Northern Ireland

In The Philippines:

Five suspected cases

In Saudi Arabia:

Several confirmed cases

In Scotland:

The Scottish Government says three people are being tested, as a precaution, for coronavirus but says there are no confirmed cases.

In the United States:

LOS ANGELES - A passenger arriving on an American Airlines flight to Los Angeles International Airport from Mexico City was hospitalized and quarantined after showing what health officials called "disturbing" symptoms, that indicate the patient may have been exposed to the deadly coronavirus, it was announced Thursday.

American Airlines flight 2546 arrived around 6:45 p.m. Wednesday and was met by Los Angeles firefighters and police.

The Los Angeles Fire Department conducted a deep contamination process after the patient was transported to a local hospital Wednesday night.

This development comes a day after Los Angeles County public health officials said it was "very possible" the area will see at least one patient, given the number of people traveling between the Southland and China.

Health screenings continue at LAX for passengers arriving from China amid the coronavirus outbreak. The U.S. Centers for Disease Control and Prevention began conducting health screenings of passengers arriving at Los Angeles International Airport from China on Saturday.

TEXAS - Possible case of coronavirus in Brazos County, Texas- person being tested. the Brazos County case is in **College Station**.

There is also a SECOND suspected case at Baylor ICU per insiders.

UPDATE TEXAS: **BrazosCoHD has confirmed it is a Texas A&M University student who is the patient health officials suspect may have the Coronavirus**

In Vietnam:

QUARANTINES COULD COME HERE, TOO!

For people in the USA, One confirmed case is already in Seattle, WA, and a new REPORTED CASE is in Brooklyn, NY. . . . When a biological Quarantine is enacted, Health Authorities cannot lift that Quarantine until TWO FULL INCUBATION PERIODS have elapsed. There are still varying reports about the actual incubation period of THIS virus; some say four days, others say two weeks.

IF IT IS TWO WEEKS, then you have the initial Quarantine of two weeks, followed by another FOUR WEEKS where (hopefully) there are no new cases.

If YOU could not go out for a total of 6 weeks, do YOU have enough food in your house to feed yourself and your family? If not, what do you think you would do? You can't go out under penalty of arrest. No one can come deliver to you because stores are all closed. So what do you do?

Those of you with means, should arrange to get supplied with EMERGENCY FOOD. Outlets specializing in that are shown below. Get something so you can survive.

UPDATE 10:55 PM EST --

China's Hubei and Guangdong provinces declare first-level public health emergency. All major hospitals in Wuhan have fallen. On the first floor of the neurosurgery, all the doctors and patients were infected, and all the wards were closed.

The director of the Department of Infectious Diseases of the Union Hospital and the director of the department of nail and breast surgery of the Central Hospital, all the recruits have been on the ventilator! Cai Xin, executive deputy editor-in-chief, said in a message:

Well over 10,000 people have become ill, and the remaining 10 million people in Wuhan are also in danger.

Chinese Government Official Proudly Boasts: "80000 respirators donated by Chinese members of the public that live abroad, have arrived in Wuhan. Another 160000 respirators and 15000 sets of protective coverall are on its way to Wuhan, China"

REMARK: *(Gee, if they only have 830 sick people and only 25 deaths, why this much gear? Oh, wait, could it be because the numbers they've given out publicly are FALSE*

***** BULLETIN *****

COVERT INTEL

URGENT 11:39 PM EST--

Additional public updates to appear below this area . . .

Chinese Officials have decided to "Close the city" of Wuhan. No additional resources can be sent because to do so would leave too many other areas of China with inadequate resources. They have to choose between saving Wuhan and saving the whole country. Wuhan loses.

Patients coming into Hospitals are now being told to "go home and stay inside until it's over." **Meaning go home to DIE!**

MORE:

The US Senate Health Committee and the Senate Foreign Relations Committee will host a briefing for all senators with top administration health officials regarding the novel coronavirus outbreak.

Senate insiders tell me this is taking place "because the NIH and WHO have not been candid about what's taking place in China." (NIH is the National Institutes of Health and WHO is the World Health Organization.)

The Senate insider also told me "That means it is more serious than the NIH And WHO led us to believe. They are moving into crisis mode. Continuity of Government"

UPDATE 11:55 PM EST --

"Several people who have died from a new virus in China did not display symptoms of fever, potentially complicating global efforts to check for infected travelers as they arrive at airports and other travel hubs."

UPDATE 12:58 AM EST FRIDAY 24 JAN. --

We have confirmed NEW lockdowns:

- Huangshi (2.5 million people)
- Daye (1 million people)
- Yangxin County (1 million people)

Confirmed lockdown measures in 10 cities and 1 county in the Wuhan area, which is nearly 29 million people. Another city (1 million) is on partial lockdown.

List of locked down cities due to coronavirus:

- Wuhan (11 million people)
- Huanggang (7M)
- Xianning (2.5M)
- Huangshi (2.5M)
- Xiantao (1.2M)
- Daye (1M)
- Yangxin County (1M)
- Qianjiang (1M)
- Chibi (500K)
- Zhijiang (500K)
- Enshi City (750k)

Total: 29M

UPDATE 1:29 AM EST --

Health Commission in Anhui Province, China, says it is mobilizing 450,000 workers to build a "solid line of defense" against the epidemic, urges everyone to assume a state of emergency

Source in Wuhan reports the following:

>Parents turned away by hospital, both his mother and father were taken by PRC military and loaded onto trucks, not told where they were being taken.

>When he asked too many questions the police were involved by the men escorting patients to the truck loading area, told to leave things alone, go home and stop asking questions

>People in the building opposite him are complaining of bad smells, they believe many families who were told to self-quarantine are now possibly dead in their apartments

>All landlines have no dial tone, his aussie cell phone works with roaming enabled but cannot get even 3g data now.

>5pm-9pm yesterday the city was doused in powder by PRC air force, disinfectant - used also in shanghai

>He has been watching people from his window, panic has set in because even relatively young are now dropping over even in his street.

If you see China quarantining any of these cities, know that things are ramping up further:

> Shanghai

> Shenzhen

> Ningbo-Zhoushan

These are their three largest container ports. They are necessary for world commerce, and closing any of these three would result in a rapid collapse of their economy.

If they quarantine any of these cities, the situation is out of hand.

Gov't statement

- Effective immediately, train services are shut down

- At 5 p.m., all other forms of transportation are shut down

- All public venues are closed

- Public & religious events canceled

People in locked down cities: 35 million Told it is now 50 million!

Antibiotics don't work on the Corona Virus...

Leo Poon, the virologist who first 'decoded' the infection, told [CNN](#) : "What we know is it causes pneumonia and then doesn't respond to antibiotic treatment, which is not surprising..." Early symptoms of the infection include coughing, fever and shortness of breath, although it can eventually lead to pneumonia, kidney failure and death. People with weakened immune systems, babies and the elderly are particularly susceptible to the virus.

Recommend Protocol For The Corona Virus

Corona Virus or SARS: (Severe Acute Respiratory Syndrome):

Invive 5000ppm (or preferably 10,000 ppm if you can afford it) - 15 cc (= 1 "measuring" TABLEspoon), every 4 hours till asymptomatic.

++Invive 5000ppm Mild Silver Protein ++ When combating an advancing presentation of Corona Virus or SARS within the subject individual, it is "MANDATORY" to maintain a "STEADY STATE" of Silver in your bloodstream every 4 hours = 6 times per day for adults of 120 lbs and up, (but reduced for children via percentage of their bodyweight in relation to 120 lbs.).

NB: Re Dosage= we used the 10,000 ppm: The above dosage "is" the dosage that saved our patient in Beijing, but whose Doctor died, and 16 of 16 of the Hospital nurses also died, but our patient survived.

Then the Premier of China wanted to know "why" our patient was alive and the 16 nurses were dead.

The Premier sent their Chinese representative Mr. Djueng and a Diplomatic Courier to our Doctor's Office in Los Angeles, and our silver was flown DIRECTLY to the Premier of China's office, in a diplomatic pouch bypassing Customs for them to "inspect" and "examine" our cure.

BTW:

**We didn't get a penny, as they just copy catted our formula.
But they couldn't discover the molar ratios of certain ingredients, so they could not stabilize if for longer than 6 months.**

Scott,

1.) The Chinese will just cheat you, will copycat our formula again, because that is their proven nature and TRACK RECORD with all products they find.

2.) Plus the USA government wants to kill off the Chinese, just like

3.) they are killing off the Africans with AIDS.

So the USA government will STOP you from shipping anything to China to save the Chinese.

The USA government STOPPED US before and turned back our shipments to save Africa.

Welcome to the real world/Satan's World.

Expert says coronavirus is spread through eyes as killer disease 'shuts down China'--Wang Guangfa, who contracted Coronavirus but since recovered, says protective eye wear as well as mouth masks are a must

24 JAN 2020--A top medic who contracted Coronavirus says the deadly respiratory disease is so contagious it can be transmitted through the eyes. Wang Guangfa, who was a leading figure in helping China fight Sars in 2003, himself caught the virus but has since recovered.

Mr Wang says he believes he became infected because he did not have protective eyewear.

The respiratory specialist at Beijing's Peking University First Hospital had reportedly been ridiculed in some parts of the media after he contracted the disease despite saying it was "preventable and controllable" two weeks ago.

The expert has now claimed that he may have contracted the disease because of a lack of eye protection when visiting fever clinics and isolation wards in Wuhan, in Hubei province, where the outbreak emerged.

Bleach is friend in this Corona Virus fight

As for the pressure washer/sprayer, if they are using 5.25% Household bleach at a rate of 1:10 for 10 minutes of exposure; that would effectively kill the virus. -- Making a mixture of bleach and water will provide only the disinfectant, not the detergent base. Therefore, a two-step process may be needed if cleaning is to be performed prior to disinfection.

-- If a bleach and water mixture is made, use only chlorine bleach without the scent additive, as this reduces the resultant parts per million (ppm) of available chlorine.

-- There is a difference between a germicidal bleach (6.15 percent hypochlorite), a laundry bleach (6.0 percent hypochlorite), and a discounted bleach (5.25 percent or less hypochlorite).

-- A contact time of one minute for the hypochlorite (bleach and water) solution should provide adequate disinfection for non-porous surfaces. This is accomplished by a thorough wetting of the surface with the hypochlorite solution, then allowing it to air dry.

Providing for the appropriate disinfectant contact time, which refers to the amount of time necessary for the germicide to come into contact with the organism and result in a significant reduction in the number of microorganisms, is a critical step in the disinfection protocol.

Shield – Essential Oil Protective Blend--How to make natural Hand Sanitizer Spray

Spark Naturals is pleased to present this ancient blend based upon legend. The legend has its roots in 15th century England during the time of the great plague. Grave robbers thieves developed their own blend of Clove, Cinnamon Bark, Lemon, Eucalyptus, and Rosemary to protect them while robbing the plague victims. This potent blend only contains the essential oils and no carrier oil.

BREAKING: Coronavirus a stealth strain that can be carried by people who show NO fever or coughing symptoms... detection almost impossible under current government guidelines

Friday, January 24, 2020 by: [Mike Adams](#)

(Natural News) Coronavirus is spreading among people who show non-respiratory symptoms. This means detection of the carriers of the virus is going to be extremely difficult, given that nearly all health officials around the world are looking for respiratory symptoms such as coughing, sneezing and breathing difficulties.

Some carriers of this rapidly spreading strain of coronavirus show no fever and no coughing, but instead are exhibiting symptoms of diarrhea, vomiting and chest pains.

“Thus far, official guidance on the symptoms of the Wuhan virus has been limited to fever and symptoms of respiratory illness, such as coughing, difficulty breathing or shortness of breath,” reports [The Epoch Times](#):

However, according to local media a report by doctors and experts from Renmin Hospital of Wuhan University on Friday noted the appearance of initial symptoms not related to the respiratory system.

It said that many patients who contracted the virus did not have a fever. Therefore simply taking the temperatures of passengers at transport hubs is not enough to screen for the virus.

Human-to-human transmission of this novel coronavirus has already been confirmed, and according to multiple sources, there are now three confirmed cases in the United States.

As we expected, the CDC and local health officials are refusing to release the names of the hospitals in which these coronavirus-infected patients are being treated and quarantined.

The secrecy has begun.

Meanwhile, the World Health Organization so far refuses to declare this a global pandemic.

What Americans need to know is that this coronavirus situation is far worse than what's being reported by the controlled media, and that carriers are going to slip past even the best detection methods, because those methods are all based on looking for fevers and respiratory problems.

Chinese Lab That Studies “World’s Most Dangerous Pathogens” is Based in Wuhan Where This Outbreak Started

A biosafety level 4 laboratory that studies the “world’s most dangerous pathogens” is based in Wuhan, the epicenter of the coronavirus outbreak in China.

The purpose of the lab included a plan to study “the pathogen that causes SARS,” prompting Nature to cite worries about preventing viruses from escaping the lab.

“The SARS virus has escaped from high-level containment facilities in Beijing multiple times,” notes the article, referencing Richard Ebright, a molecular biologist at Rutgers University.

Zero Hedge [questioned](#) whether the lab in Wuhan may be “China’s version of Umbrella Corp,” a reference to the pharmaceutical company in the Resident Evil universe which secretly developed bio-weapons.

According to their article, the location of the research center in Wuhan “prompts the immediate question whether the coronavirus epidemic isn’t a weaponized virus that just happened to escape the lab.”

The official explanation is that the coronavirus originated from an illegal seafood market in Wuhan that “conducted illegal transactions of wild animals.”

Bill and Melinda Gates Foundation & Others Predicted Up To 65 Million Deaths Via Coronavirus – In Simulation Ran 3 Months Ago!--Foundation also funded group who owns virus patent and is funding research for a vaccine to supposedly stop it from spreading

[Kelen McBreen](#) | Infowars.com - January 23, 2020

The Bill and Melinda Gates Foundation co-hosted a pandemic exercise in late 2019 that simulated a global coronavirus outbreak.

They also just happen to fund the group who owns the patent to the deadly virus and are working on a vaccine to solve the crisis.

On June 19, 2015, the UK government-funded Pirbright Institute filed an application for a patent for the live coronavirus, which was approved on Nov 20, 2018.

Suspiciously, a Pirbright Institute “primary funder” is the Bill and Melinda Gates Foundation.

The Pirbright Institute has been in existence for over 100 years and in 2014 celebrated its Centenary. It was first established as a cattle testing station for tuberculosis in 1914 and has developed over the years to become one of the UK's leading virus diagnostics and surveillance centres and is now also at the forefront of virus research. The recent development of the site to incorporate a state-of-the-art high containment (SAPO 4) laboratory – the BBSRC National Virology Centre: The Plowright Building has enabled a unique combination of fundamental and applied research into pathogenic diseases with potentially devastating impact.

The Institute's achievements over the past century have been many and varied but

PRIMARY FUNDERS

Bill & Melinda Gates Foundation (B&MGF)

Meanwhile, on Oct. 18, 2019, also before the outbreak, the Bill and Melinda Gates Foundation, the Johns Hopkins Bloomberg School of Public Health and the World Economic Forum co-hosted an event in NYC where “policymakers, business leaders, and health officials” worked together on a simulated coronavirus outbreak.

Titled the “[Event 201](#)” pandemic, the high-level pandemic exercise “dropped participants right in the midst of an uncontrolled coronavirus outbreak that was spreading like wildfire out of South America to wreak worldwide havoc.”

“In the simulation, CAPS (the coronavirus) resulted in a death toll of 65 million people within 18 months,” [according to John Hopkins University](#).

A video highlight reel from the event shows fictional newscasters from “GNN” discuss how the hypothetical immune-resistant virus (nicknamed CAPS) was crippling trade and travel, sending the global economy into freefall.

It just so happens that a professor from Imperial College London recently warned the coronavirus has the same kill rate as the Spanish flu, which claimed the lives of 20-50 million people in 1918.

Event 201 Promotes Globalism As Solution To Pandemic

In the video, Tom Inglesby of the John Hopkins Center For Health Security promoted globalism as a solution, saying, “there are problems emerging that can only be solved by global business and governments working together.”

But don't worry, the same globalists who own the patent to the virus and predicted its rise are “scrambling to develop vaccines for the deadly Wuhan coronavirus.”

[According to Business Insider](#), “A coalition backed by Bill Gates is funding biotechs” who are attempting to develop a coronavirus vaccine.

Is this illness being intentionally spread so governments worldwide can join forces in the name of stopping the virus, or so groups like the Bill and Melinda Gates Foundation can step in and become saviors, or is it all just a massive coincidence?

Event 201 Pandemic Exercise Pandemic Tabletop exercise hosted by The Johns Hopkins Center for Health Security in partnership with the World Economic Forum and the Bill and Melinda Gates Foundation on October 18, 2019, in New York, NY.

The Description Reads: *Event 201 simulates an outbreak of a novel zoonotic coronavirus transmitted from bats to pigs to people that eventually becomes efficiently transmissible from person to person, leading to a severe pandemic. The pathogen and the disease it causes are modeled largely on SARS, but it is more transmissible in the community setting by people with mild symptoms. Selected moments from the Event 201 The exercise illustrated the pandemic preparedness efforts needed to diminish the large-scale economic and societal consequences of a severe pandemic. Drawing from actual events, Event 201 identifies important policy issues and preparedness challenges that could be solved with sufficient political will and attention.*

Subject: Should we be surprised!?!?!

Check this out. It was on Curt Linderman Sr's FB post today...

His comment...

So let me get this straight about this virus

It's "new", yet it was lab created and patented in 2015

The patent expired (today) on the day the first case is announced in the US

The patent also tells us the CDC helped make this! "This invention was made by the Centers for Disease Control and Prevention, an agency of the United States Government. Therefore, the U.S. Government has certain rights in this invention."

And now magically a vaccine is in the works for it already? Yet the patent in 2015 already references a vaccine for it.

But what do I know I'm just a conspiracy theorist.
