**BOMBSHELL: Fewer Than 600 People "Officially" Tested For Coronavirus in Entire U.S.; Massive Cover-Up Underway as 47 States Tested ZERO People CDC keeping the public in the dark about outbreaks already occurring in America**  
With each passing day of the coronavirus pandemic, it's becoming more and more clear that the United States is following the "Wuhan plan" for how to contain coronavirus infections: Avoiding testing people, and you can then avoid reporting any "confirmed infections."

Given the tens of thousands of Chinese nationals entering the United States of America every month, the thousands of Chinese students and the many thousands of residents who are under "observation" by state health authorities in places like Washington and California, a reasonable person might expect that the CDC has so far tested at least 10,000 people for the CoVid-19 coronavirus. But guess how many the CDC has actually tested?

To the great shock of anyone paying attention, [the CDC's own website](#) admits the agency has tested only 414 people in the entire country.

# Coronavirus Disease 2019 (COVID-19) in the U.S.

Updated February 21, 2020

CDC is closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus. The outbreak first started in Wuhan, China, but cases have been identified in a growing number of other [international locations](#), including the United States. This page will be updated regularly on Mondays, Wednesdays, and Fridays.

## Italy Locks Down 50,000 People Across 10 Towns as Coronavirus Outbreak Leapfrogs Across Europe

Saturday, February 22, 2020 By: [Mike Adams](#) / ([Natural News](#)) As the coronavirus outbreak explodes across Asia, spreading to the Middle East and Europe, a rash of new infections in Italy has caused the Italian government to order 50,000 people into lockdown status while closing schools, bars and public spaces across 10 towns. We wonder, will Italy weld shut the steel doors of entire apartment complexes like China did? Or will we see a less draconian approach in Europe?

Either way, it doesn't seem to matter. The virus escaped the strict quarantine measures in China, killing so many people there that [the Chinese government had to bring in 40 mobile incineration ovens](#) just to deal with all the corpses. The number of coronavirus infections *outside* China

has doubled in less than a week.

Meanwhile, [coronavirus infections have exploded in South Korea](#), literally doubling overnight as a “super spreader” was believed to have infected hundreds of other attendees at her local church.

The CDC is now [warning U.S. hospitals to prepare for a “surge” in coronavirus patients](#) in the United States.

## FYI: Not Verified, I don't like date setting, but: URGENT COVERT INTEL. . . Be Prepped BEFORE THURSDAY

[Nation News Desk](#) 20 February 2020 Hits: 1233

Ok, folks, I just got told by multiple sources inside government, "In the USA, the s\*\*\* is going to hit the fan on . . . ."

I was also told "keep your kids home from school that day and everyone had better have all their preps and all their bugout plans ready by the day before."

Next Thursday. **February 27** is the date I was told the s\*\*\* is going to hit the fan.

I was \_\_not\_\_ told if this is related to the Coronavirus - although I personally **believe** it is.

It may also involve war in the Middle East, but that does not fit with the advice to "keep your kids home from school that day and have your preps ready by the day before."

The coronavirus being "un-containable" however, DOES fit that advice.

Anyway, I'm passing along what I've been told because it came -UNSOLICITED - from several Intel colleagues, some still in government, and there was a discernible urgency in their voices.

Whatever it's going to be, it sounds bad.

To reiterate: Have all your preps ready by next Wednesday, February 26 because its going down on Thursday, February 27.

More info if and when I get it.

One expert privately stated the following:

*"it is like shooting at a moving target and the continually changing of the of the projections, transmission rate, incubation period and expressed symptomology are so variable that only human manipulation could explain the variance in these variables if preceding reports are accurate. Are we dealing with five separate viruses or one that is mutating in an unprecedented fashion? In short, we are clearly dealing with a bioweapon and what adds fuel to the fire is there seems to be a near media blackout on the topic. I have covered 5 various outbreaks and I can tell you that this level of media repression does not happen if the pathogen is going to be controllable in the short-term which is usually 90 days or less. Therefore, I must conclude that for those that are processing and analyzing the data, they do not see any end in sight."*

[AMERICA: This is Why YOU need to prepare, RIGHT NOW, over Coronavirus: Quarantine=No Trucking](#)

Most Americans remain grossly uninformed about the coming MEDICAL QUARANTINES over the continuing - and worsening - Coronavirus outbreak. Those who are keeping up to date, think they still have time to prepare "if things get bad." They're wrong. Your time is almost up. You have only DAYS left. Here's why . . .

**When the government finally cannot hide the spread here in the United States, they will be forced to utterly lock down the country.** There simply won't be any other choice because this virus -- which is actually a military Bio-Weapon that escaped China's only Level 4 Bio-Lab ([Story Here](#)) -- is so contagious. It spreads by AIR, Coughing, Sneezing, Urination, Bowel movements.

The virus can live on surfaces for up to 28 days, which means door handles, public toilets, cashier counters in stores and supermarkets, computer keyboards and most everything else. It flows through public sewer lines from toilet flushes, then can evaporate up out of manhole covers.

The virus has an eighty-three percent (83%) Infection rate. That means if 100 people get EXPOSED to it, 83 of them will get sick.

About **half** of those who get sick, develop serious pneumonia, requiring hospitalization.

Of those, about **half** require Intensive care, intubation and a respirator to breathe.

Of the people who get hospitalized, fifteen percent DIE. And that's \_\_\_if\_\_\_ they get top-notch hospital care.

For those who do not get hospital care, about sixty-five percent die.

Now, some quick math:

In the United States, there are about 2.4 hospital beds for every 1,000 population. Yes, you read that correctly: 2.4 hospital beds for every 1,000 people.

Here's the math:

If 1,000 people get exposed, 830 will get sick (83%). About half will need hospitalization. So about 400 people will need a hospital bed. But there are only 2.4 hospital beds for them . . . .

So the rest will NOT be able to get care. Certainly not "top-notch" care. 15% of those 2.4 people will die. 65% of the 398 remaining sick people, will die. That converts to 258 people DEAD out of every 1,000 INFECTED.

Those are the real world statistics for this virus. The numbers claiming otherwise from inside China are completely false. They are intentionally lying about the number of deaths to make it APPEAR the Communist regime is still in control. It is not.

That's why, as of today, 17 February, 2020, a total of **seven-hundred-sixty MILLION people in 70 cities in China, are under Quarantine.**

Health officials here in the USA are already concealing the number of confirmed infections. From officials at the Centers for Disease Control (CDC) in Atlanta, who are concealing "over 1,000 cases" as of two weeks ago ([Story Here](#)), to the local county Health Commissioner in Erie County, New York (Near Buffalo, Rochester and Watertown) who issued a GAG ORDER preventing police, fire and EMS from talking to anyone about Coronavirus cases, ([Story Here](#)), **the people in the USA are NOT being told the truth. Officials fear mass-panic will occur if people find out, so they are INTENTIONALLY keeping the whole thing "hush-hush."**

**Now, here's the uglier part . . .**

Quarantines mean no one in, and no one out.

That means no trucks for deliveries.

According to an analysis of the United States transportation network, performed by the American Trucking Association, here's what "No trucks" turns into:

### **When Trucks Stop, America Stops**

| <b>Within two weeks</b>         | <ul style="list-style-type: none"><li>• The nation's clean water supply will begin to run dry.</li></ul>  |
| <b>Within four weeks</b>        | <ul style="list-style-type: none"><li>• The nation will exhaust its clean water supply and water will be safe for drinking only after boiling. As a result gastrointestinal illnesses will increase, further taxing an already weakened health care system.</li></ul>   |

This timeline presents only the primary effects of a freeze on truck travel. Secondary effects must be considered as well, such as inability to maintain telecommunications service, reduced law enforcement, increased crime, increased illness and injury, higher death rates, and likely, civil unrest.

Subject: Contending for Truth **Listener Comment: "Abuse after using Thieves spray while travelling nationally by airplane in NZ"**

Hi Scott,

Just a quick heads up that I received a 1-2 minutes of loud abuse after I used the thieves spray to spray the seats that my family and I sat in. I tried to explain that it was an essential oil blend while he swore and yelled at me and told the air hostess that I should be thrown off the plane.

I will continue to use spray but , if appropriate, ask those around me if they are O.K with this.

Thanks for all that you are doing to warn your listeners of the perilous times that we live in and offer good advice and encouragement to stand strong in our Lord Jesus.

With kind regards,

Rachel.

Ok sorry you ran into that devil (sounds like he was the one that needed to be thrown off the plane) but what you could do from now on is pretreat some wet wipes with the Thieves and use those so you are not spraying anything. I will cover specifically how to do this in my next teaching. Thank you for you feedback. God bless you!

### **Recommend Protocol For The Corona Virus**

Corona Virus or SARS: (Severe Acute Respiratory Syndrome):

Invive 5000ppm (or preferably 10,000 ppm if you can afford it) - 15 cc (= "measuring" TABLEspoon), every 4 hours till asymptomatic.

++Invive 5000ppm Mild Silver Protein ++ When combating an advancing presentation of Corona Virus or SARS within the subject individual, it is "MANDATORY" to maintain a "STEADY STATE" of Silver in your bloodstream every 4 hours = 6 times per day for adults of 120 lbs and up, (but reduced for children via percentage of their bodyweight in relation to 120 lbs.).

++ For More Information or to purchase the Invive Silver go to: <http://www.dr-johnson.com/>

*NB: Re Dosage= we used the 10,000 ppm: The above dosage "is" the dosage that saved our patient in Beijing, but whose Doctor died, and 16 of 16 of the Hospital nurses also died, but our patient survived.*

Then the Premier of China wanted to know “why” our patient was alive and the 16 nurses were dead.

The Premier sent their Chinese representative Mr. Djueng and a Diplomatic Courier to our Doctor’s Office in Los Angeles, and our silver was flown DIRECTLY to the Premier of China’s office, in a diplomatic pouch bypassing Customs for them to “inspect” and “examine” our cure.

BTW:

We didn’t get a penny, as they just copy catted our formula.

But they couldn’t discover the molar ratios of certain ingredients, so they could not stabilize if for longer than 6 months.

Scott,

1.) The Chinese will just cheat you, will copycat our formula again, because that is their proven nature and TRACK RECORD with all products they find.

2.) Plus the USA government wants to kill off the Chinese, just like

3.) they are killing off the Africans with AIDS.

So the USA government will STOP you from shipping anything to China to save the Chinese.

The USA government STOPPED US before and turned back our shipments to save Africa.

Welcome to the real world/Satan’s World.

(Note 5000ppm is mentioned here but in an advanced case 10,000ppm can be used)

**Invest in a "personal nebulizer"** as the M.S.P. can be put into this device and atomized into the lungs and nasal passages. Use **100ppm** InVive Mild Silver Protein strength for nebulizer use.

**Gas Mask Recommendations:** Invest in gas masks for each member of your household. But remember the gas mask is only as good as the seal to your skin, so don't put all your eggs in this basket. ## **Calcium & Vitamin D-3 Is Vital For Your Immune System**

Most people are not aware of the role that **calcium** plays in our immune system. It is actually one of the chief fuels upon which our immune system runs on. White blood cells are the main tool our immune systems use to destroy foreign infectious invaders. **White blood cells use calcium as the main fuel to propel themselves and destroy these invaders through a process called Phagocytosis.** If we don't have enough usable calcium in our body, our immune system cannot ramp up, get to and kill these foreign infectious invaders. It's like having a guided missile, with no way of getting it off the ground. Consequently, if you have a low amount of usable calcium in your system, forget about having a strong immune system. It won't happen because it can't happen. And calcium is not something that can be manufactured in the body unless we leach it from our own bones, which over time would lead to osteoporosis. **One of the main signs we are deficient in Calcium during the throws of an infection, is a high body temperature or fever.** One of the things that got me into the alternative health field

was a poorly functioning immune system. I have found one of the main components in building a strong immune system is keeping calcium reserves high in the body. The best product to accomplish this is [Davinci Labs CAL MAG 180 tablets](#) or [Davinci Labs CAL-MAG CITRATE POWDER 30 Servings 4.9 oz. \(139.2 grams\)](#). As sufficient stomach acid is essential for the breakdown of not only calcium but protein, iron and several other trace minerals. If low stomach acid is a factor, [Hydro-Zyme \(90 T\)](#) or [Hydro-Zyme \(250 T\)](#) should be taken with the Calcium and with food. Or as an alternative taking 1-2 tsp. with the calcium should do the trick. One other thing that is important when talking about calcium is the Omega-3 fatty acids which are high in flaxseed oil. You see the omega-3 fatty acids in flaxseed oil are necessary for healthy cell membranes and to transport calcium into the white blood cells, where the calcium is used to support cell motility (movement) and phagocytosis (killing the foreign infectious invaders). Of the Omega 3 good fats, flax seed oil is very important. For this I recommend [Genestra Organic Flax Oil Capsules 90 Softgels](#), as flax is a very volatile oil and spoils very easily. It is a risky proposition buying flax oil off the shelf as usually there is no way to verify quality. This is also an excellent protocol for skin protection as Calcium and Omega 3 fatty acids are essential in preserving and protecting the skin. Now if I feel I may be getting run down, I will increase my dosage of these two products until my system is back in balance. If these products are taken in conjunction with a good whole food multi-vitamin mineral product like [Intramax or the Innate Once Daily formulas](#) you should be in pretty good shape.
