++ In 1981 William Casey (CIA Director) Told the Newly Elected President Ronald Reagan:

**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Trump insists America "very, very ready" for any coronavirus pandemic, fails to mention virtually NO ONE being tested in America... the "Trump TRAP" is now set by the CDC**

In a coronavirus press briefing at the White House earlier today, President Trump declared America was ready for the coronavirus, saying, "We're very, very ready for this, for anything, whether it's going to be a breakout of larger proportions or whether we're at that very low level, and we want to keep it that way."

**This statement appears to be absurd, given that virtually no tests for the coronavirus are being conducted in the United States, and the CDC's diagnostic test kits sent to state labs on Feb. 5th turned out to be faulty... and the CDC still hasn't figure out how to replace the faulty kits with anything that functions.**

**While the rest of the world is rapidly testing thousands of people for the coronavirus — Italy, South Korea, Iran, Japan, Singapore and even Thailand — the United States has so far tested only 445 people in total, since day one.**

**The Trump administration is being advised on all this by Dr. Anthony Fauci of the NIH, an individual whose department oversees both vaccine research and U.S. biological weapons research being funded by the NIH. In effect, President Trump is being advised by the very person who helped funnel taxpayer funds to the bioengineered weapon — covid-19 coronavirus — which was bought from a U.S. university and taken to a lab in China, then released into the public where it quickly spread into a global pandemic, as Prof. Frances Boyle has recently explained in several bombshell interviews.**

**The NIH funded this bioweapons research from the very beginning, and it's Dr. Fauci who oversees much of that funding. Why is the same person who helped create this biological weapons monster now advising President Trump on how to stop it with vaccines? Refer to the many interviews with Prof. Frances Boyle for more details on this crucial point for humanity. **Dr. Fauci is the fox in the hen house, and he's now converted Trump to a pro-vaccine president.****

**President Trump who is now touting vaccines as the answer, fails to realize the vaccines will be more dangerous than the coronavirus**

**"The vaccine is coming along well and we think this is something we can develop fairly rapidly, a vaccine for the future," Trump said today, echoing the propaganda of Fauci, the NIH and the very same vaccine industry that served as a cover for the bioweapons research that led to this entire fiasco in the first place. So now President Trump is essentially providing cover (and funding) for the very same "death science" researchers who got us into this mess. They promise to**

save us with a vaccine, but we wouldn't be threatened at all if they never genetically engineered this biological weapon in the first place.

As things look right now, millions of human beings will be killed by this virus over the next year or two... possibly a whole lot more. But the greed of the NIH and the "death science" researchers knows no bounds. Even if hundreds of millions of human beings are killed, the NIH will keep funneling money into bioweapons research. So far, the NIH has provided nearly \$700 million into coronavirus research, both for vaccines and bioweapons (which are actually the same thing, as one provides political cover for the other).

Trump is now repeating the same propaganda Fauci has been spouting, insisting that the flu kills more people than the coronavirus, so the coronavirus pandemic is no big deal. This claim is, of course, a fallacy. The only reason the coronavirus hasn't yet killed more people than the flu is because it has only begun to spread around the world. The infections and deaths we've seen so far from the coronavirus are only a hint of the global pandemic fallout that's yet to come (which may take *years* to fully play out).

Trump says, "We've stopped non US citizens from China," but the USA hasn't stopped flights from South Korea, Italy or Japan.

Trump says, "We're screening people at a very high level," but fails to realize that the coronavirus spreads in stealth mode, during its asymptomatic incubation period that can't be detected by any airport screening whatsoever.

Trump says, "The USA is rated No. 1 at being prepared," but fails to realize the USA is currently *last place* in the world when it comes to having functioning diagnostic test kits. The USA, in fact, is the only country in the world (other than North Korea) that appears to be conducting virtually zero testing for the coronavirus.

Any person claiming the USA is prepared for an outbreak for a virus that U.S. CDC officials can't even detect on any large scale is kidding themselves. You can't stop a virus if you aren't testing for it, and yet somehow, both President Trump and Rush Limbaugh seem to be oblivious to the fact that the CDC is testing virtually no one.

My best estimate is that right now, there are thousands of coronavirus-infected people in the United States, and almost none of them are being tested.

A DHS source told me there were 989 confirmed infections over one week ago, mostly along the West Coast. Doubling every 3.5 days, that number is already over 4,000.

[CDC's Dr. Nancy Messonnier says the coronavirus pandemic will spread in the USA, a matter of "when" not "if" ... while Trump urges everybody to keep buying \(overbought\) stocks](#)

When listening to the CDC's Dr. Nancy Messonnier warn about the coming pandemic outbreaks across America, you no longer have to read between the lines.

She's just flat out saying it now: It's coming. Get prepared. If you aren't prepared, you're a fool.

"Now is the time for businesses, hospitals, communities, schools and everyday people to begin preparing," Dr. Messonnier recently told reporters on a conference call, according to CNBC. "We are asking the American public to work with us to prepare for the expectation that this could be bad."

The Wall Street Journal adds this unambiguous statement that needs no interpretation:

*"We expect we will see community spread in this country," meaning the virus circulating within local communities, said Dr. Messonnier. She added that the question isn't if the virus will expand in the U.S., but when.*

Both President Trump and Rush Limbaugh are working overtime to downplay the severity of this global pandemic. Rush says it's no worse than the flu, while President Trump has scheduled a press conference this evening at 6pm Eastern to tell America that there's no reason to panic and everybody should buy more (overpriced) stocks.

Rush and Trump, it seems, are all-in with the "everything's awesome" bandwagon, while the independent media are doing the math and warning that this pandemic could be devastating to the U.S. economy and the health of its citizens.

## COVID-19" What you're NOT Being Told by Officials or Media

This new disease is an absolute NIGHTMARE in its ability to spread. It's horrifying.

It spreads the way other diseases can, through coughing, sneezing, and the like.

So if you are walking down the street, and an infected person a block away sneezes or coughs, the wind can carry that virus right to . . . YOU.

Similarly, if you're in a store shopping, and an infected person coughed or sneezed minutes earlier, and several store aisles away, the heating and air conditioning system can blow that virus all over the store, and as you are minding your business, it blow onto YOU.

This virus can live OUTSIDE A PERSON, in the air or on surfaces, for many days!!!!

That means the counter at a store cashier, or in a restaurant, or at a bank teller, or at an ATM can be contaminated as well. Worse still, door handles. You're out doing business and pull open the door to a company or store, and you have no way on knowing that an infected person grabbed that same handle a day earlier. Now, his virus is on YOUR hand. When you touch your face, blow your nose, grab a hamburger, hot dog or sandwich and eat it without washing your hands, you're infected.

A number of people who contract this virus start shedding it to others BEFORE THEY GET SYMPTOMS. So the infected person DOES NOT KNOW he's sick, but begins spreading it to other people!!!

Doctors measure how many people are typically infected by one sick person, and they record that as  $R_0$  (pronounced "R naught"). The R naught for this virus is

between R4 and R6. So one infected person can be expected to infect between four and six other people!!! That is a catastrophic level of contagiousness.

Here's where things get absolutely nuts:

THIS disease also "sheds" from infected people via urine and feces. So, when an infected person goes to the bathroom and flushes, the swirling toilet water thrusts a small torrent of tiny mist all over the place and in that mist . . . is virus! You walk into the bathroom and smell another person's "poo", you are at risk of becoming infected.

As the toilet contents go down into the sewers and head out to the sewer treatment plant, some of the water evaporates and comes out the holes in manhole covers across town. In that water vapor . . . is potentially the virus. So people on ONE side of town, can get a blast of virus because another person on the OTHER side of town, went to the bathroom while infected, and flushed, and the virus comes out of the sewer!

In one apartment building in Hong Kong, a sewer vent pipe in a wall had a crack in it. Virus went up that vent pipe, got out a crack, and infected people in apartments several floors away from an infected family! ([STORY HERE](#))

Since the outbreak began, scientists have studied this virus like no other, and what they're finding is that the virus appears to be "bi-phasic." It happens in TWO phases, similar to the way ANTHRAX happens. ([STORY](#))

The first phase causes fever, cough, congestion in the lungs, and myalgia (muscle twitches and pain). Then, it \*\*\*\* seems \*\*\*\* to go away. But it doesn't go away.

People who have been released from hospitals, showing NO TRACE of active virus, suddenly drop dead on the streets from heart failure. That's the SECOND phase of the virus. It attacks the vital organs, kidneys mostly. The person feels achy again, feels tired again, figures it will pass and keeps on about their daily life. But what's actually taking place inside them is the disease is sending them into Sepsis, and they drop dead from Septic Shock and organ failure.

01 March 2020--Banks need 10% in cash reserves by law. They invest those reserves in stock (allowed by the Dodd-Frank Act).

Those stocks have lost over \$8 trillion in value, worldwide, in the last 4 days alone. Banks suddenly find themselves not meeting the required 10% cash reserves, so they are selling. They are selling commodities (Gold). They are selling stock to raise capitol. It is not nearly enough.

At least one branch of First National bank in Munster, Indiana allowed no withdraws on 2/29/2020.

Many many more will follow. They need the capitol to meet legal requirements. Probably half of all banks have already dropped below this limit; it is likely many will fail altogether.

KIRO-TV CHANNEL 7 found out Saturday evening that a local U.S. Postal Service employee tested positive for the coronavirus. That means any mail this employee touched, sneezed- or coughed-on, can have coronavirus on it.

How many other US Postal employees have been sick with this virus but don't know it yet? How many pieces of mail have they contaminated? How many mail carriers may have become infected by those other Postal employees? How many citizens have become infected simply by going to their mailbox and retrieving their mail? No one has any way of knowing yet. This is a disease disaster the likes of which this planet has never seen in recorded history.

[AT SOME POINT MAIL DELIVERY COULD BE SUSPENDED -PREPARE ACCORDINGLY AND PREPARE TO OVERCOME](#)

From Steve Quayle's Alert section: I am a letter carrier in Spokane. Yesterday I delivered a small package that had to be signed for to a guy who had recently moved in to a rental. He was very nervous and jittery, asked me to put the package and form on the porch and he would sign for it, but wanted me to keep back, acting like he did not want to be anywhere near me, as if he thought I might be carrying something other than letters. In passing he mentioned that he has been doing twelve hour shifts with the DOD, had witnessed the first death from C-virus in the state. I told him that I had been hearing both extremes on the matter

and was trying to discern where the truth really was. His only comment with a head shaking was, "It's all over," meaning, I thought, that it was much more widespread than reported. I am still taking a middle of the road view on this, but thought that might be useful to you. **NAME PROTECTED**

**Comment by Patricia Davis**--*I watched the press conference (just ended) with Bruce Aylward (from WHO) who spent time in China studying their handling of the virus. It was interesting. He stuttered more than anyone I've ever heard with a stutter. At one point someone asked about how the virus affects young people. He told a story about one woman and her baby. Then he said "there are millions of cases like this" and quickly realized what he had said, then corrected himself. I forget the exact words but something to the effect of "many such cases". If you want to listen, it's here:*

This is the area widely believed to be the secret entrance to a vast underground government complex, designed for use in Continuity of Government (CoG) operations. The sources also state that there has been ". . . a lot of activity the past two weeks, lots of black suvs, in and out, buses, on and on" and further told me "in the past they ONLY enter and exit at night. Between 2 and 3 am. Something serious is a happening if they rolled in during daylight!" Clearly, folks in the federal government are preparing for something very big. The most obvious situation is Coronavirus; but it could also be war. Just more pieces to the puzzle for you to consider regarding what is actually taking place in the world, and gauge how you can prepare as best you can, to deal with it.*

### Coronavirus, 5G, ACE2 Gene and Pollution Combine to Destroy in Wuhan

**Comment on this statement--Dr. Mark Sircus--The masks don't work, if you want to protect yourself and your loved ones from getting infected put some iodine around the opening to your nasal passages and gargle frequent with iodine. Don't forget to swallow!**

Wuhan City, the capital of Hubei, was expected to have 10,000 5G base stations by the end of 2019.

Things were already extreme in terms of pollution in Wuhan (see below). Now combine the health destroying pollution with 5G, and its effect on oxygen utilization. There are many people who are becoming scared about what's coming next in the world without one study to say 5G is safe. 5G is coming whether we like it or not, which means that our cells are going to be blasted with increasing EMF radiation.

**Comment and remember Trump is on the spear tip of this 5G (ram it down American's throat) movement, just like he is (and has been, and will be) touting (and God forbid MANDATING) the vaccines to save us!!**

Most of us already put up with Wi-Fi but I turn mine off at night to give my cells, and my wife and children's cells a rest so they can better detoxify and rejuvenate, which is exactly what they are supposed to be doing at night.

The promotional materials from Telecom companies brag that 5G messes with oxygen molecules. Oxygen is in the air we breathe, it comes from trees. Trees make it out of carbon dioxide. It's two oxygen molecules and they share electrons. When you hit oxygen molecules with 60 GHz millimeter wave emissions it affects the orbital properties of the electrons of the oxygen molecules. The 60 GHz range is known as the Oxygen Absorption Band. At 60GHz, 98% of electromagnetic energy is absorbed by O2. When 5G reaches the frequency band of 60 GHz, the ability for a person's blood hemoglobin to bind with oxygen is hindered and this might explain, in part, why people in Wuhan just fall down dead in the streets, which is not a normal thing we see with viral infections.

5G uses high frequency waves and is supposed to be 100 times faster than the current cell phone service. However, the 5G waves don't travel as far as current wireless frequencies so instead of large cell phone tower equipment spread far apart, the 5G requires small cell sites closer together." Meaning you will need one right in front of your house.

**"Firefighters in San Francisco have reported memory problems and confusion after the 5G equipment was installed outside of fire stations. The firefighters**

claim the symptoms stopped when they relocated to stations without equipment nearby.”

A 2002 Russian study that set out to explore the effects of 42 GHz frequencies determined that when healthy mice were exposed to them, they had a drastic reduction of activity with cells involved with immunity: about 50%. In other words, 42 GHz frequencies, close to the middle of the 5G spectrum, cause mice to suffer from immune system problems.

China has the world’s most dangerous outdoor air pollution. The country emits about a third of all the human-made sulphur dioxide (SO<sub>2</sub>), nitrogen oxides (NO<sub>x</sub>), and particulates that are poured into the air around the world. The Global Burden of Disease Study, an international collaboration, estimates that 1.1 million Chinese die from the effects of this air pollution each year, roughly a third of the global death toll.

The kinds of gasses that are being mixed in China have so far largely evaded the attention of air pollution researchers, toxicologists, epidemiologists, and regulators, says the American coauthor of the study, Steward Pickett of the Cary Institute of Ecosystem Studies in Millbrook, New York. “The vast majority of research focuses on single contaminants. That is obviously not how pollution actually exists in the atmosphere,” he says.

The mismatch appears to have caused researchers to miss the potentially deadly consequences. The chemistry of China’s polluted urban air is unprecedented; we do not know and cannot predict which harmful compounds are being formed.

**Trump administration officials: DO NOT get prepared, don't buy masks, food, cleaning supplies or anything... just wait for a vaccine and do what you're told**

Saturday, February 29, 2020 by: [Mike Adams](#)

[\(Natural News\)](#) We have now reached the stage of this coronavirus pandemic where the advice from Trump administration officials is almost indistinguishable from that of communist China.

Earlier today, the U.S. Surgeon General Jerome M. Adams told America to “stop buying masks!” He said that if consumers buy masks, then the hospitals will run out, accidentally admitting that hospitals are facing a severe mask shortage because they didn’t prepare in advance.

While every nation in China is strongly *encouraging* people to buy masks and stop the spread of the coronavirus, in the United States, our own (brain damaged?) Surgeon General says exactly the opposite.

So because the hospitals didn’t prepare, you shouldn’t prepare either, says Adams.

Don’t buy any food, cleaning supplies or anything else, either... be an obedient American and stop “spreading fear”

Surgeon General Adams was also grilled by members of Congress earlier in the week about whether Americans should prepare with extra food or cleaning supplies. His answer to both questions was, “No” or “Not at this time,” indicating that at least this one branch of the Trump administration has become the “anti-preparedness” Ministry of Stupid that actively urges people to NOT get prepared. Instead of purchasing preparedness supplies that might help prevent the spread of the coronavirus, Americans are apparently supposed to wait around for a vaccine that might take two years.

Once the vaccine is available, it might kill you, by the way, as the SARS vaccine experiments ended up causing rapid death in all animal test subjects when they were exposed to *secondary* infections.

So while people in other countries where the coronavirus has already exploded are rapidly getting prepped for long-term self-quarantine — arguable the most effective way to stop the spread of the virus — Americans are being actively *discouraged* from preparing for such a scenario.

The anti-shopping list: Here’s what you are supposed to NOT be buying, according to the Trump administration

In case you’re keeping track, here’s the summary of advice so far from the Trump administration:

- Do NOT buy masks, because the hospitals are running out of supplies since they didn’t prepare for an outbreak (which seems incredibly stupid on their part).
- Do NOT buy extra food, because V.P. Pence went on Rush Limbaugh’s show, and even though neither one of them is a scientist or a virologist, they both want you to feel warm and fuzzy that everything is fine, and they want you to believe the virus that’s sweeping through nearly 60 nations around the world will somehow stop at America’s totally unprotected borders.
- Do NOT buy extra prescription medications, even though 97% of Big Pharma’s drugs are made in China (or use ingredients manufactured there), the U.S. pharmacies will be just fine because supply lines are magic and can be repaired by *wishing*. (It helps to be slightly high when wishing, we’re told.)

– Do NOT buy hand sanitizers, cleaning supplies or colloidal silver, since there's no need to clean anything because Trump will invoke magical miracles to halt the virus, causing it to vanish and be gone virtually overnight.

– But DO buy stocks, no matter how overvalued, because the Fed promises to make them even more overvalued. Do this to pump up the stock market and at least create the appearance of a thriving economy even as the global supply chain is rapidly collapsing.

Meanwhile, at a Costco in Brooklyn, the following jaw-dropping scene just took place this morning as the masses are finally coming to their senses about the pandemic scenario which is unfolding:

Plus, there's already "panic buying" at a Costco in Hawaii, where the mad rush on toilet paper just got real:

Just remember: When the day comes that you have no food, no masks, no gloves, no antibiotics, no vaccine, no toilet paper and no chance of survival, the Surgeon General wanted it that way.

As you starve to death and are eaten alive by the coronavirus from the inside out, you can find hope in the fact that you were an obedient American who didn't "cause a panic."

Israeli scientists are on the cusp of developing the first vaccine against the novel coronavirus, according to Science and Technology Minister Ofir Akunis. If all goes as planned, the vaccine could be ready within a few weeks and available in 90 days, according to a release.

"Congratulations to MIGAL [The Galilee Research Institute] on this exciting breakthrough," Akunis said. "I am confident there will be further rapid progress, enabling us to provide a needed response to the grave global COVID-19 threat"

**Recommend Protocol For The Corona Virus**

**Corona Virus or SARS: (Severe Acute Respiratory Syndrome):**

Invive 5000ppm (or preferably 10,000 ppm if you can afford it) - 15 cc (= "measuring" TABLEspoon), every 4 hours till asymptomatic.

++Invive 5000ppm Mild Silver Protein ++ When combating an advancing presentation of Corona Virus or SARS within the subject individual, it is "MANDATORY" to maintain a "STEADY STATE" of Silver in your bloodstream every 4 hours = 6 times per day for adults of 120 lbs and up, (but reduced for children via percentage of their bodyweight in relation to 120 lbs.).

++ For More Information or to purchase the Invive Silver go to: <http://www.dr-johnson.com/>

**Proactive Measures In the Event of a Pandemic**

**5000 Mild Silver Protein (M.S.P.) Suggested Therapeutic Dosing Guidelines**

1tsp.-1tbsp. for every 30 lbs. of bodyweight per day; if you have been exposed or if you have a virulent virus/Pandemic. The 1 tbsp. dosage would be used for life threatening situations. This dosage should be equally broken up and taken in 3 hour intervals. Stay at home and avoid contact with the populace till the outbreak passes. If taking the M.S.P. drink at least 8, eight ounce glasses of purified water per day. M.S.P. can be used topically over an infectious site. **Because the 5000 PPM M.S.P. is only available in 4 ounce bottles it would be wise to keep at least a few bottles for each adult family member and 1-2 for each child in your household. View this like an insurance policy that hopefully you will never have to use.** Even if you don't use this product in the event of a pandemic, it can be diluted and taken on an everyday basis to keep the immune system strong.

**++ Because Invive Silver is so stable it has a 25 year minimum shelf life. There is no colloidal silver in any form that can even come close to their shelf life or potency; nor has there been one case of Argyria (turning gray) reported from taking Invive Silver.**

## Calcium & Vitamin D-3 Is Vital For Your Immune System

Most people are not aware of the role that calcium plays in our immune system. It is actually one of the chief fuels upon which our immune system runs on. White blood cells are the main tool our immune systems use to destroy foreign infectious invaders. White blood cells use calcium as the main fuel to propel themselves and destroy these invaders through a process called Phagocytosis. If we don't have enough usable calcium in our body, our immune system cannot ramp up, get to and kill these foreign infectious invaders. It's like having a guided missile, with no way of getting it off the ground. Consequently, if you have a low amount of usable calcium in your system, forget about having a strong immune system. It won't happen because it can't happen. And calcium is not something that can be manufactured in the body unless we leach it from our own bones, which over time would lead to osteoporosis. One of the main signs we are deficient in Calcium during the throws of an infection, is a high body temperature or fever. One of the things that got me into the alternative health field was a poorly functioning immune system. I have found one of the main components in building a strong immune system is keeping calcium reserves high in the body. The best product to accomplish this is [Davinci Labs CAL MAG 180 tablets](#) or [Davinci Labs CAL-MAG CITRATE POWDER 30 Servings 4.9 oz. \(139.2 grams\)](#). As sufficient stomach acid is essential for the breakdown of not only calcium but protein,

iron and several other trace minerals. If low stomach acid is a factor, [Hydro-Zyme \(90 T\)](#) or [Hydro-Zyme \(250 T\)](#) should be taken with the Calcium and with food. Or as an alternative taking 1-2 tsp. with the calcium should do the trick. One other thing that is important when talking about calcium is the Omega-3 fatty acids which are high in flaxseed oil. You see the omega-3 fatty acids in flaxseed oil are necessary for healthy cell membranes and to transport calcium into the white blood cells, where the calcium is used to support cell motility (movement) and phagocytosis (killing the foreign infectious invaders). Of the Omega 3 good fats, flax seed oil is very important. For this I recommend [Genestra Organic Flax Oil Capsules 90 Softgels](#), as flax is a very volatile oil and spoils very easily. It is a risky proposition buying flax oil off the shelf as usually there is no way to verify quality. This is also an excellent protocol for skin protection as Calcium and Omega 3 fatty acids are essential in preserving and protecting the skin. Now if I feel I may be getting run down, I will increase my dosage of these two products until my system is back in balance. If these products are taken in conjunction with a good whole food multi-vitamin mineral product like [Intramax or the Innate Once Daily formulas](#) you should be in pretty good shape.
