++ In 1981 William Casey (CIA Director) Told the Newly Elected President Ronald Reagan:

Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive the very elect."

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we are not ignorant of his devices."

II Chronicles 7:14: "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

The Chinese Slave Labor Response to the Coronavirus Is Already Part of American Law-It's Coming Here!!!

Sunday, March 8, 2020

The Chinese are enslaving their political prisoners to work in supply-chain factories. That will soon be coming here as well as this article will conclusively document.

One should take note that the movement of political prisoners in China to factories for training began in June of 2019, 5 months in advance of the release of the Coronavirus bioweapon. The documentation is irrefutable that all of this was a planned event.

Since 2017, more than a million Uyghurs and members of other Turkic Muslim minorities have disappeared into a vast network of 're-education camps' in the far west region of Xinjiang. Now that the Coronavirus has decimated the Chinese factory force, the CHICOMS have turned to slave labor. They are simply converting their political prisoners (eg Uyghurs) to slave labor as evidenced in the following paragraphs.

American Slave Labor Is Already the Law

Thanks to Obama, American slave labor, CHICOM style, is already the law. If and when the Coronavirus goes viral and there are critical labor shortages, slavery will follow. Families will be separated and the weak and unhealthy will perish if the virus doesn't kill them first.

According to Obama's EO 13603, the President, or the head of any federal agency that he shall designate, can conscript "persons of outstanding experience and

ability without compensation,” in both “peacetime and times of national emergency.” I can hear the Democratic Party supporters now as they will write to me and say, “Obama would never do that, you are drinking from the Kool-Aid, and just go read Snopes, everything will be OK”. Well, here it is, you can read it for yourself.

Sec. 502. Consultants. The head of each agency otherwise delegated functions under this order is delegated the authority of the President under sections 710(b) and (c) of the Act, 50 U.S.C. App. 2160(b), (c), to employ persons of outstanding experience and ability without compensation and to employ experts, consultants, or organizations. The authority delegated by this section may not be redelegated. This means that Obama, and possibly any Democrat, if elected, his fellow communists, can seize any resource, property, or person at any time for any reason, including being able to force that person to perform assigned labor without being paid. There is only ONE word for forced, “uncompensated employment”. That would be slavery.

Combine this with Medical martial law inside of FEMA camps, we will have quite the enslaved nation. I do not see President Trump doing this to the American people. Therefore, there will have to be a regime change!

I would suggest absolute and mass noncompliance. I never advocate for a civil war, but this would be an exception to my objections. I will not submit, will you?

US hospitals are preparing for 96 MILLION coronavirus infections and nearly HALF A MILLION deaths, leaked documents reveal

- Almost half a million (480,000) Americans are expected to die from coronavirus
- 4.8 million will be hospitalized and 96 million infected
- Figures come from leaked slides from a presentation by Dr. James Lawler, a University of Nebraska Medical Center professor and hosted by AHA
- They show the spread of the deadly disease could be far worse than officials claim, with the crisis 10 times greater than a severe flu season
- The shock figures fly in the face of claims made by President Trump who has maintained on many occasions that the risk to Americans is 'low'
- Lawler estimated people with heart conditions have a one in 10 chance of dying from the disease, compared to less than one in a 100 among healthy individuals
- Trump signed a spending bill to allocate \$8.3 billion to tackle the crisis Friday

ALERT: Pandemic projection model shows 2.16 million deaths in USA by July 4th if nothing done to halt nearly all domestic travel (air, rail and roads)

RUMORS: NYC Discussing QUARANTINE; Allegedly Ordered 2 Million Body Bags!

08 March 2020--In the USA, Coronavirus is also spreading ferociously. New York Governor Andrew Cuomo revealed Sunday that the total count of confirmed cases in New York State has risen to 105.

RUMORS out of New York City this morning claim the Mayor, Bill DeBlasio, was in an all night meeting with MTA officials, NJ and NY national guard brass, CDC as well as Gov Cuomo in live feed from Albany.

According to those RUMORS, the QUARANTINE" word was being spoken aloud, frequently. There was ALLEGEDLY discussion of how to close all the bridges and tunnels to prevent people from entering or leaving the city. THESE ARE RUMORS, not established as facts.

Those RUMORS also claim the city has placed an order for TWO MILLION BODY BAGS from a manufacturer - Medicalproducts LTD - and the order is to begin delivering on April 2.

Strangely, word from the Mayor's meeting claimed "Diblasio stormed out of the meeting and got into his limo fast." Not sure why.

As of 3:00 PM EDT in New York, the number of confirmed coronavirus cases is now 105 — or 16 more than the day before, Gov. Andrew Cuomo said Sunday. "Sixteen overnight," said the governor, who declared a state of emergency over the deadly virus Saturday. "We did more tests overnight. ... The state now has 105 people who tested positive."

He suggested that local governments and private businesses have their employees work in shifts, to limit potential exposure at various times.

[Beijing Doctor says Wuhan is like "hell on Earth," outbreak far worse than officially reported](#)

Saturday, March 07, 2020

([Natural News](#)) An underground media outlet based in the U.S., with sources in China, [interviewed an anonymous Beijing doctor](#). The doctor, going by the alias Hou Yong, is a director of internal medicine at a Beijing hospital. He has witnessed firsthand how the Chinese Communist Party (CCP) has mishandled the coronavirus outbreak. He describes the city of Wuhan as "hell on Earth" where sick people have been rounded up and crowded together, instead of being properly quarantined, monitored and treated.

Chinese Communist Party has doctors scared to speak out about what's really going on

The World Health Organization has repeatedly [praised the Chinese response](#), even though the outbreak originated in that country, they maintained a [higher-than-average death rate](#), and it spread to countless other countries rather quickly.

Hou Yong says the corruption and incompetence of the Chinese Communist Party has [exacerbated the outbreak](#). He testifies that recently confirmed coronavirus cases at a local hospital are "very serious."

When these local hospitals were contacted, most of the doctors did not want to talk about the outbreak, fearing that there will be consequences for speaking out.

The CCP has a [stranglehold over the doctors](#). Medical professionals are forced to report "official" statistics and stick with the government's script.

[China's coronavirus recovery is 'all fake,' whistleblowers and residents claim](#)

China's claims of how it's handling coronavirus recovery should be taken with more than a few grains of salt.

By now, anyone seriously following the outbreak of the Wuhan coronavirus (COVID-19) and the Chinese government's response to it [knows that Beijing's communist leaders have been less than truthful about how serious things are](#). We know, for instance, that Chinese authoritarians are [censoring any and all citizen journalists](#) who are trying to get the *real* word out about the scope and magnitude of the outbreak.

We know that mostly empty Chinese factories, on the government's order, are ramping up electricity use to make it seem like the worst of the outbreak is over and production levels are returning to normal.

We also know that Chinese government authorities are purposely undercounting infection rates, which in some cases are 52 times higher than 'official' numbers.

Even before COVID-19 became a global crisis, Chinese leaders had been criticized for their handling of the situation and lack of transparency about the disease's progression. Things now look like they're on the upswing, and businesses even appear to be headed back to work — but whistleblowers and local officials tell *Caixan* that's just a carefully crafted ruse.

Beijing has spent much of the outbreak pushing districts to carry on business as usual, with some local governments subsidizing electricity costs and even installing mandatory productivity quotas. Zhejiang, a province east of the epicenter city of Wuhan, claimed as of Feb. 24 it had restored 98.6 percent of its pre-coronavirus work capacity.

But civil servants tell *Caixan* that businesses are actually faking these numbers. Beijing had started checking Zhejiang businesses' electricity consumption levels, so district officials ordered the companies to start leaving their lights and machinery on all day to drive the numbers up, one civil servant said. Businesses have reportedly falsified staff attendance logs as well — they "would rather waste a small amount of money on power than irritate local officials," *Caixan* writes. In Wuhan, officials have tried to make it appear that recovery efforts are going smoothly. But when "central leaders" personally survey disinfecting regimens and food delivery, local officials "make a special effort" for them and them alone, one resident told *Caixan*. And in a video circulating on social media, residents can be seen shouting at visiting leaders from the apartments where they're being quarantined — "Fake, it's all fake." Community Message - 3.4.20

Dear Community,

Our goal in all of our communications is to help ensure you, our staff, providers and community, are informed with the most up to date information available. As you can imagine, circumstances, processes and protocols are developing and evolving rapidly, as we work with collective agility to provide the highest quality of care in an environment of absolute safety for our COVID-19 patients, and all patients in our care.

Working in close collaboration with the Centers for Disease Control & Prevention (CDC), as well as the Washington State Department of Health and Seattle—King County Public Health Department, we anticipate on-going and multiple updates regularly—striving to make sure messaging is as timely and thoughtful as possible.

We continue to learn from, and respond swiftly to, these changing circumstances by creating new guidelines that will create and inform best practice models, to help ensure all COVID-19 patients are receiving the best, safest care possible, and that our staff and community are kept safe.

What's New?

- Screening Protocols
- The CDC has now categorized COVID-19 as endemic – learn what this means

New Screening Protocols

In partnership with the CDC, we have updated our screening guidelines for COVID-19.

As of March 3, 2020, we have halted performing nasopharyngeal testing in our outpatient clinics, including all five urgent care locations.

Here's why:

- The CDC has determined that COVID-19 is now endemic, meaning that the virus is now considered to be regularly found in our region amongst our population. Previously, only individuals who had previously known risk factors (including history of travel, exposure to a confirmed case), were considered high risk for acquiring the disease.
- There is increased risk of transmission when performing any nasopharyngeal testing.

Screening

- Patients will continue to be seen in our clinics. The risk of transmission is low when the patient and clinician are masked, similar to influenza. Patients will be treated based on clinical presentation, just without nasopharyngeal testing.
- Patients who are asymptomatic (not experiencing symptoms consistent with COVID-19) will be seen as usual.

It's now an endemic

The CDC has now categorized COVID-19 as endemic - What does this mean?

As of March 3, the CDC has determined COVID-19 is now endemic, meaning that the virus is now considered to be regularly found in our region amongst our population. Previously, only individuals who had existing and known risk factors (including history of travel, exposure to a confirmed case), were considered high risk for acquiring the disease. We hope this update will provide more context and reassurance as it pertains to understanding your safety risk, which is similar to the risk of exposure we experience every cold and flu season in our communities.

Basic FAQ's

What is a novel coronavirus?

(from the CDC) A novel coronavirus is a new coronavirus that has not been previously identified. The virus causing coronavirus disease 2019 (COVID-19), is not the same as the coronaviruses that commonly circulate among humans and cause mild illness, like the common cold.

How do I protect myself and my family?

For current information about COVID-19 and recommendations for keeping yourself and your family healthy, we recommend these resources:

- Centers for Disease Control (CDC)
- Washington State Department of Health
- Seattle & King County Public Health
- Snohomish Health District

If you have overseas travel plans, we encourage you to visit the [CDC travel site](#).

Our 24-Hour Nurse Navigators – Healthline is a free service available any time of day and night. Our consulting nurse service provides home care information, and can help determine if urgent care or emergency care are called for. Call 425.869.3555 with specific questions about COVID-19.

I've recently visited the EvergreenHealth Kirkland campus. How do I know if I've been exposed to COVID-19?

The likelihood of exposure from visiting the Kirkland campus for an appointment or to see a patient is a similar risk of exposure we experience every cold and flu season in our communities.

As always, it is important to remain vigilant in recognizing any symptoms and seek care according to current recommendations.

Who is most at risk for being significantly impacted by COVID-19?

Children, seniors and those with existing health conditions or compromised immunity should take extra precautions in remaining vigilant of symptoms and taking preventive measures.

For your protection and safety, please continue to follow everyday best practices to help prevent and slow the spread of respiratory diseases, including:

- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.
- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.

Visiting EvergreenHealth & Your Scheduled Appointments

I have an appointment or services scheduled at the EvergreenHealth Kirkland campus. Should I cancel it?

At this time, appointments will continue as scheduled. Should there be any changes to your appointment or a different recommendation from your physician, we will notify you as soon as possible.

Is it safe for me to deliver my baby at EvergreenHealth?

While COVID-19 is new, our response is not. EvergreenHealth treats patients with a variety of infectious diseases on a daily basis. These patients are isolated and treated in appropriate spaces by trained staff using specialized equipment. We are trained and equipped to safely care for these patients and to protect the health of other patients and our staff.

According to the CDC, the most susceptible patients to date are more senior members of our community and primarily those with compromised immunity.

We encourage you to talk to your personal OB about your concerns and options.

I have a loved one currently in EvergreenHealth's care on the Kirkland campus. Is it safe to visit them?

We continue to welcome visitors. However, if you have a fever or a cough, please return home and visit us when you are well. Children and those with existing health conditions or compromised immunity should take extra caution and consideration for visiting any areas in the community linked to confirmed cases of COVID-19.

As always, it is important to remain vigilant in recognizing any symptoms and seeking care when appropriate. Please visit [www.cdc.gov](#) to learn more about symptoms and when to seek care.

We encourage you to continue to visit our dedicated webpage for information, FAQs and on-going updates: [www.evergreenhealth.com/coronavirus](#)

It is important to keep in mind that the Centers for Disease Control & Prevention (CDC), the Washington State Department of Health, the King County Health Department and Snohomish Health District remain the expert sources for updates and information.

CDC ORDERS NO MORE CORONAVIRUS TESTS IN CERTAIN REGION(S) of US

07 March 2020

The Centers for Disease Control (CDC) have declared the Coronavirus outbreak in the Seattle, Washington Area, to be "Endemic." This means the CDC considers the disease to be "regularly found in the region among the population."

As such, testing for this new, deadly disease . . . which has never been seen before on the planet, never mind the fact it has NEVER been "regularly found" among __any__ population -- will NO LONGER

BE TESTED FOR in Seattle.

Here is the official announcement from Evergreen Health in Seattle:

This is a stunning development. Think about what this means: No test=No Epidemic! No test=No Tell. Can't cause the stock markets to plunge if there is no outbreak to worry about!

For those who are paying close attention, this says the opposite: CDC is throwing in the towel because they know it's out of control and can't stop it because they dropped the ball (repeatedly) and didn't halt travel from infected areas.

It also tells people markets are going to suddenly and completely collapse, when workers are too sick to work (or dead) and production must shut down financially wiping out millions of people. But no one will get to see the run-up to that collapse because no testing to prove it.

Extreme and viciously cunning malevolence behind all of this.

GET OUT OF THE STOCK MARKET FIRST THING MONDAY

I am not a licensed financial expert and cannot give financial advice. You should contact a licensed financial expert before making any investment decisions.

That said, if I had any investments in the stock market (I don't), I would pull every cent of it out as fast as possible. Let the "Plunge Protection Team" eat the losses with their phony fiat money-printing. Sadly, the coming financial Armageddon will apparently be kept secret until it actually happens.

If this appears to you that this decision is intentional dereliction of duty by the CDC, you're not alone. Some experts in the medical field have already described this CDC decision as a "crime against humanity."

Without China Manufacturing, U.S. Has Only 45 Day Supplies of most Pharmaceutical Medicines; Dozens already listed as "Shortage"

Approximately eighty percent of the raw materials used to manufacture medicines, come from China. The outbreak of coronavirus caused China to shut down almost ALL of its manufacturing for about the past 6 weeks. NOTHING is being shipped from China. The United States of America now has forty-five (45) days of most prescription medicines in inventory.

After 45 days, if China does not resume shipping, most (not all) medicines in the USA will run out. If you are taking medicines TO LIVE, you had better get a supply renewed immediately so you have some before they run out nationwide.

Big Pharma supply lines are collapsing, so if you want to survive you need to start turning to natural medicine

Perhaps you've noticed that the Trump administration is still telling the American people that all is well, and not to worry or really do *anything* in response to the Wuhan coronavirus (CoVid-19) crisis other than to just wait for spring when the president believes that the novel disease will somehow vanish on its own. But is this really the wisest approach to an ever-evolving situation with global economic and public health ramifications?

In this age of economic interdependence and just-in-time supply chains, our answer to that question is a resounding *no*. Dare we say that it would be patently *foolish* to just sit around and hope for the best, especially as big-box stores in certain areas of the country are already experiencing panic buying and associated supply shortages.

Corona Virus or SARS: (Severe Acute Respiratory Syndrome):

Invive 5000ppm (or preferably 10,000 ppm if you can afford it) - 15 cc (= "measuring" TABLEspoon), every 4 hours till asymptomatic.

++Invive 5000ppm Mild Silver Protein ++ When combating an advancing presentation of Corona Virus or SARS within the subject individual, it is "MANDATORY" to maintain a "STEADY STATE" of Silver in your bloodstream every 4 hours = 6 times per day for adults of 120 lbs and up, (but reduced for children via percentage of their bodyweight in relation to 120 lbs.).

++ For More Information or to purchase the Invive Silver go to: <http://www.dr-johnson.com/>

Proactive Measures In the Event of a Pandemic

5000 Mild Silver Protein (M.S.P.) Suggested Therapeutic Dosing Guidelines

1tsp.-1tbsp. for every 30 lbs. of bodyweight per day; if you have been exposed or if you have a virulent virus/Pandemic. The 1 tbsp. dosage would be used for life threatening situations. This dosage should be equally broken up and taken in 3 hour intervals. Stay at home and avoid contact with the populace till the outbreak passes. If taking the M.S.P. drink at least 8, eight ounce glasses of purified water per day. M.S.P. can be used topically over an infectious site. **Because the 5000 PPM M.S.P. is only available in 4 ounce bottles it would be wise to keep at least a few bottles for each adult family member and 1-2 for each child in your household. View this like an insurance policy that hopefully you will never have to use.** Even if you don't use this product in the event of a pandemic, it can be diluted and taken on an everyday basis to keep the immune system strong.

++ Because Invive Silver is so stable it has a 25 year minimum shelf life. There is no colloidal silver in any form that can even come close to their shelf life or potency; nor has there been one case of Argyria (turning gray) reported from taking Invive Silver.

++ For More Information or to purchase the Invive Silver go to: <http://www.dr-johnson.com/>

++ Note: Selenium, Vitamin C, Zinc, Calcium and Vitamin D-3 can easily become depleted from aggressive viruses

Invest in a "personal nebulizer" as the M.S.P. can be put into this device and atomized into the lungs and nasal passages. Use **100ppm** Invive Mild Silver Protein strength for nebulizer use.

Gas Mask Recommendations: Invest in gas masks for each member of your household. But remember the gas mask is only as good as the seal to your skin, so don't put all your eggs in this basket. SGE 150 Protective Mask at: 1-877-AGM-1010 www.approvedgasmasks.com/sge150.htm

Calcium & Vitamin D-3 Is Vital For Your Immune System

Most people are not aware of the role that **calcium** plays in our immune system. It is actually one of the chief fuels upon which our immune system runs on. White blood cells are the main tool our immune systems use to destroy foreign infectious invaders. **White blood cells use calcium as the main fuel to propel themselves and destroy these invaders through a process called Phagocytosis.** If we don't have enough usable calcium in our body, our immune system cannot ramp up, get to and kill these foreign infectious invaders. It's like having a guided missile, with no way of getting it off the ground. Consequently, if you have a low amount of usable calcium in your system, forget about having a strong immune system. It won't happen because it can't happen. And calcium is not something that can be manufactured in the body unless we leach it from our own bones, which over time would lead to osteoporosis. **One of the main signs we are deficient in Calcium during the throws of an infection, is a high body temperature or fever.** One of the things that got me into the alternative health field was a poorly functioning immune system. I have found one of the main components in building a strong immune system is keeping calcium reserves high in the body. The

best product to accomplish this is [Davinci Labs CAL MAG 180 tablets](#) or [Davinci Labs CAL-MAG CITRATE POWDER 30 Servings 4.9 oz. \(139.2 grams\)](#). As sufficient stomach acid is essential for the breakdown of not only calcium but protein, iron and several other trace minerals. If low stomach acid is a factor, [Hydro-Zyme \(90 T\)](#) or [Hydro-Zyme \(250 T\)](#) should be taken with the Calcium and with food. Or as an alternative taking 1-2 tsp. with the calcium should do the trick. One other thing that is important when talking about calcium is the Omega-3 fatty acids which are high in flaxseed oil. You see the omega-3 fatty acids in flaxseed oil are necessary for healthy cell membranes and to transport calcium into the white blood cells, where the calcium is used to support cell motility (movement) and phagocytosis (killing the foreign infectious invaders). Of the Omega 3 good fats, flax seed oil is very important. For this I recommend [Genestra Organic Flax Oil Capsules 90 Softgels](#), as flax is a very volatile oil and spoils very easily. It is a risky proposition buying flax oil off the shelf as usually there is no way to verify quality. This is also an excellent protocol for skin protection as Calcium and Omega 3 fatty acids are essential in preserving and protecting the skin. Now if I feel I may be getting run down, I will increase my dosage of these two products until my system is back in balance. If these products are taken in conjunction with a good whole food multi-vitamin mineral product like [Intramax](#) or the [Innate Once Daily formulas](#) you should be in pretty good shape.
