**++ List of Current Event Prayer Points:**

**For the Lord to neutralize and destroy the coronavirus worldwide.  
For Gods intervention regarding 2<sup>nd</sup> Amendment and disarmament/gun confiscation situation developing in Virginia and other parts of the USA, Against all the UN troops already in America and coming here, Against the coming created Ebola pandemic caused by the GMO Ebola vaccines and all the infected Congolese migrants on US soil, For Gods intervention regarding all the weather warfare to destroy crop yields for 2020, For Gods intervention with the CA wildfires & Directed Energy Weapon attacks and all the wicked plans surrounding this to be destroyed, For the Defense, Protection and Victory of all Christians worldwide (especially the persecuted) & also all the Targeted Individuals (TI's) Worldwide, Against Project Pogo & Project Zyphr that would result in the "extermination" of tens of millions of awake Americans, That President Trump Would NOT approve the Equality Act or any evil law, Against All Planned Pandemics Plagues, Against the Exploding GMO Weaponized Tick & Mosquito Populations, Against the Forced Vaccination Mandates, Against The Illegal Alien/Terrorist/Embedded Solider Caravans Coming up through the US southern border & already on America Soil, Against the 5G & 6G Rollout & the 42,000 Satellites Being Launched Sending Intense Microwave Radiation Over Entire Earth—2020 is when this really gets cranked up, For All Christians to wake up and spread the gospel and push back against all their freedoms being taken away, Against the slaughter of Christians worldwide, Against all the witchcraft being done worldwide to perpetuate and bring in more evil, death and destruction, Against the ‘Internet Kill Switch’ implementation, against the plans & wickedness of high level politicians, For President Trump to do the right thing and enact righteous laws and appoint righteous people, Against mandatory**

vaccinations being implemented and that the truth would come out about them, for the masses to get saved and have eyes to see, ears to hear and hearts to receive the truth, Against The Full Implementation of Real ID in 2020, Against the South African Genocide of Whites, For God to neutralize & stop the Fukushima Nuclear Radiation Contamination & Nuclear Radiation Reactors Breaking Down Worldwide, Against the Big Brother Draconian Changes Taking Place Worldwide, Against Further Vote Rigging, For Stoppage and Exposure of the Latin American, Chinese, Russian and Muslim 5<sup>th</sup> Column Sleeper Cell Solders imbedded in America, For Stoppage and Exposure of the Muslim Invasion of Europe, America and Canada, For the eradication of CERN and all the other 30,000+ particle colliders worldwide & the eradication of the D-Wave Quantum Computers, The eradication and exposure of all Pedovore, Pedo-predator & all Child Sex trafficking networks worldwide, Against LGBTQ movement and against the normalization of all child molestation and sexualization of teens, children & babies, For the protection of all infants, children, teenager and adults caught in

all evil networks, For the eradication of all adult and child pornography, bestiality pornography and snuff film sources and businesses, For the Supreme Court to overturn Roe v. Wade, For the eradication of all abortion clinics & Planned Parenthood centers worldwide & the stripping of all the powers of witchcraft from their owners and employees, For the eradication worldwide of all Chemtrail programs, Nexrad Doppler Ultrasound weather manipulation, NASA's Blastwave Accelerators & all DEW's (Directed Energy Weapons) causing the fires worldwide, For the eradication worldwide of all planned deep state & Muslim false flag events—Against the wickedness being openly promoted by the Democrat party and ALL Democrats running for president—Against the wickedness being perpetuated by Hollywood, Netflix, Amazon, Google, Facebook, Twitter, Instagram, YouTube and all the tech giants and the dominant streaming content producers—Against the pop

culture rock and rap music industry—Against the wicked factions of Modern medicine & the pharmaceutical & vaccine industry—Against the Vatican, Pope and Catholicism—Every level of government that has by hijacked by wickedness—Against the global banking cartels and the 13 families of the Illuminati—Against the wicked factions of the public universities and public

schools. ++Add to your personal prayers: For the Lord to deactivate, neutralize, destroy and purge any and all nanobots, nanoparticles, nanotech, microchips or implants in or on our bodies, and to destroy and purge any and all wicked bacteria, viruses, candida and parasites in or on our bodies and to deactivate, neutralize, destroy and purge any other wicked things the globalist elite have gotten into our bodies.

++ In 1981 William Casey (CIA Director) Told the Newly Elected President Ronald Reagan:

**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. But all things that are reproved are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. See then that ye walk **circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive **the very elect.**"

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we **are not** ignorant of his devices."

**II Chronicles 7:14:** "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

**Psalms 101:3:** I will set no wicked thing before mine eyes: I hate the work of them that turn aside; it shall not cleave to me.

**Psalms 11:5:** The LORD trieth the righteous: but the wicked and him that loveth violence his soul hateth.

**1 Cor 15:33:** Be not deceived: evil **communications** corrupt good manners.

**Lexicon Strong's G3657--Outline of Biblical Usage of the Word:**

"Communications": companionship, communion

**"It does not take a majority to prevail... but rather an irate, tireless minority, keen on setting brushfires of freedom in the minds of men."** Samuel Adams

---

## +1+ We are in the fight for our lives--“We” as in the human race

There is no real plan to reopen the economy because the people in charge don't plan for most human beings to survive much longer. The coronavirus “vaccine” will be a kill switch, a genocide weapon against humanity that's designed to depopulate the planet. That's why they don't need years of testing. It's not designed to prevent or cure anything; it's designed to *kill*.

The food shortages are being engineered to cause widespread starvation, making people too weak to protest. Food scarcity is the weapon of the globalists, and they know that when people are starving, they will surrender their freedom in exchange for a meal.

The unemployment bailout money fiasco is nothing but the government paying people to not protest while the masses are lined up and readied for the kill shot. As people remain prisoners in their own homes, they will be slowly transitioned into starvation and financial desperation, then told they cannot participate in the economy unless they consent to the coronavirus vaccine. This is how the depopulation globalists will get the masses to “consent” to being injected with what is essentially a euthanasia shot. It won't kill you right away, but it will almost guarantee your death upon exposure to a subsequent infection that's probably being engineered and readied for release by Dr. Fauci and the NIH right now.

It's time to **end the lockdowns**.

They are being artificially extended by the government in order to **cause maximum economic pain and suffering across America** for political purposes.

The lockdowns can be ended in a rational way that protects public health while getting America's economy back to operating status. This depends largely on promoting nutrition so that the immune systems of the people are supported and enhanced through minerals, vitamins, herbs and nutrients that protect people from respiratory infections. (Most people are nutritionally deficient and are thus compromised when it comes to immune function.)

Yet no one in any position of power will dare promote simple, safe, affordable nutrients that might help prevent infections and slow the spread. Why? Because **they are all controlled by Big Pharma**, which profits from human suffering and disease.

<https://www.naturalnews.com/2020-05-07-end-the-lockdowns-launch-the-takedowns.html>

**HR6666 The Bill Of The Beast--'Time's Up! It's Going To Get Ugly!' - You Really Cannot Make This Stuff Up: House Proposes HR 6666!!!! And It's Tyranny Being Unveiled Before America's Sleeping Eyes**

**Play:** <https://banned.video/watch?id=5eb72727244ac5001d1eaab4>

ALL OF WHAT WE SEE HAPPENING IN THE WORLD IS PART OF GREATER PLANS CALLED THE AGENDA 21, AGENDA 2030 AND VISION 2050. THESE ARE THE UNITED NATIONS PLANS TO DEPOPULATE THE PLANET FROM 7.5 BILLION DOWN TO 500 MILLION AND RULE HUMANITY UNDER A COMMUNIST ONE WORLD GOVERNMENT IN THE YEAR 2030. THIS IS WHAT THE GLOBALISTS WANT.

THE GLOBALISTS WANT TO:

- ABOLISH PATRIOTISM/NATIONALISM.
- ABOLISH ALL PRIVATE PROPERTY.
- ABOLISH INHERITANCE LAW AND THE RIGHT TO BEAR ARMS.
- ABOLISH THE NUCLEAR FAMILY.
- DESTROY THE NATION'S STATES, ESTABLISH A COMMUNIST WORLD GOVERNMENT WITHOUT NATIONAL BOUNDARIES, A WORLD GOVERNMENT WILL GIVE THE GLOBALISTS ABSOLUTE CONTROL OVER ALL THE WORLD'S RESOURCES & POPULATION.
- CHIP ALL PEOPLE WITH RFID-IMPLANTS TO HAVE TOTAL CONTROL OVER US.

## Covid-19 & The Globalists Sinister Agenda

[By Stefan Stanford - All News Pipeline - Live Free Or Die](#) Just when you thought you've seen it all in this Orwellian world we're now living in where 'stars' such as 'Madonna' and globalist scientists are putting out calls for the world 'NEVER' to go back to 'NORMAL', we get a HUGE taste of what the globalists 'NEW NORMAL' would be if they can get their sinister way in [H.R. 6666](#), a new bill proposed before Congress to deal with covid-19.

[House Resolution 6666](#), introduced by Rep. Bobby Rush (D-Ill.) last week, would authorize the "Secretary of Health and Human Services to award grants to eligible entities to conduct diagnostic testing for COVID-19, and related activities such as contact tracing, through mobile health units and, as necessary, at individuals' residences, and for other purposes." We get a huge look at what 'as necessary, at individuals' residences' really means in the 1st video at the bottom of this story from Ventura County, Commie-fornia.

This appears to coincide with W.H.O Health Emergencies Program Dr. Michael Ryan's remarks, who said last month that [governments may need to forcibly remove family members from their homes](#) to isolate coronavirus transmission.

As ANP reader 'Jan' recently mentioned in a comment while linking to the bill on this [ANP story](#), "please share this everywhere!!! If this bill passes the government will have authority to come IN YOUR HOME and test you. Among other things." As 'Deplorable D' mentioned in another comment, "I know House bill 6666 was mentioned here but did anyone notice who the 45 cosponsors are of this bill? 44 democrats and 1 republican from New Jersey. Scroll down to see each cosponsor". [That list can be seen here.](#)

As was also [reported in this new story over at Zero Hedge](#), we hear straight from

'the horse's **mouth**' that authorities may be yanking people out of their own homes and placing them into 'quarantine' without their approval should they or other family members living in their homes test positive for the coronavirus. As [Steve Quayle mentioned in an SQnote while linking to that story on his website](#), **"This is the out of sight, out of mind culling of the elderly and in-firmed, just like Hitler did!"**

As ['Del Bigtree' asked on twitter](#), **WHAT WOULD YOU DO if your six year old son or daughter tested positive for COVID19 and was taken from your home to a quarantine center by Ventura Health Authorities? This SHOCKING VIDEO demands that you plan ahead.**

With some arguing that any such moves by government to steal parents or children out of their own homes based upon Covid-19 is exactly the kind of thing that America's Founding Fathers wisely created the 2nd Amendment for, the [comments from the video](#) that we've gone ahead and republished below are absolutely eye-opening and show an America 'awakening' with 10's of millions fully ready to take on 'creeping tyranny'.

**BetsyRossConservative: The "heroes" are not the doctors and nurses, they're the people that stand up to tyranny!**

**Ace Employee: Now they have the excuse they need to kill targeted individuals and they have the boogeyman to place the blame on.**

**Van Dreiman: Who in their right mind would want to get tested after watching this video talk about government overreach ---**

**Almost Homestead: They can round up average citizens but can't find a place or a solution for the homeless, mentally ill, or drug addicts? I can't imagine that people are going to go willingly or watch their children be taken away without a fight.**

**Swiss Army Josh: Unconstitutional and will not comply - us freedom isn't free.**

**Prof T: This isn't going to work. People already know they just want control.**

**Australian: Who's ready for riots?**

**Jay Crew: Time to start stacking bodies people. The tree of liberty is THIRSTY.**

**Dominic Howard: Times up really. They're about to start this thing any day now.. their plan of reopening parts of the U.S. so they can blame the resurgence of this fake virus on the people is in full effect.**

**I'm that guy: Yeah I see myself bugging out living in the backwoods off the grid real soon because there not testing or removing anyone from my home**

---

**HR 6666 for Covid-19 TRACE Act--More draconian laws proposed under the guise of the COVID-19 PLANDEMIC to implement a police state in America!--Dr. Rashid A. Buttar - URGENT! Full Disclosure from the 'INSIDE'**

## SHOCK AS IT'S REVEALED AN ENZYME CALLED LUCIFERASE IS WHAT MAKES BILL GATES IMPLANTABLE QUANTUM DOT MICRONEEDLE VACCINE DELIVERY SYSTEM WORK

May 4, 2020 by Geoffrey Grinder, [Now The End Begins](#):

Bill Gates is building something that we call the Human Implantable Quantum Dot Microneedle Vaccination Delivery System, and it is composed of multiple things. I want to draw your attention to one component, the quantum dot microneedles that will deliver the vaccines, and a very, very unique biochemical

that makes it all work. If you're standing up while reading this, you might want to sit down. Today we bring you 'near infrared bioluminescence enzyme luciferase' which is the chemical that will make the quantum dot vaccination readable through a special mobile device app. That's right, the enzyme that will light up Bill Gates Human Implantable Quantum Dot Microneedle Vaccination Delivery System is called Luciferase, that's what makes the vaccination readable long after the victim has been injected. Luciferase.

**Biblical Meaning of the Word: Lucifer**

Lexicon :: Strong's H1966 - [heylel](#)

Root Word (Etymology)

From [הלל \(H1984\)](#)

KJV Translation Count — Total: 1x

The KJV translates Strong's H1966 in the following manner: [Lucifer](#) (1x).

Outline of Biblical Usage [?]

1. Lucifer = "light-bearer"

1. shining one, Lucifer

1. of the king of Babylon and Satan (fig.)

<https://www.blueletterbible.org/lang/lexicon/lexicon.cfm?Strong's=H1966&t=KJV>

With each passing day, it becomes clearer and plainer to those of us who are bible believers that we are living in a very unique time period. We are witnessing the kingdom of Antichrist and the Mark of the Beast system being assembled before our very eyes. "And he said, Go thy way, Daniel: for the words are closed up and sealed till the time of the end. Many shall be purified, and made white, and tried; but the wicked shall do wickedly: and none of the wicked shall understand; but the wise shall understand." [Daniel 12:9,10](#) (KJB)

[Dan 12:4](#) But thou, O Daniel, shut up the words, and seal the book, even to the time of the end: many shall run to and fro, and knowledge shall be increased.

Over the past few weeks, we have shown you a massive project by Bill Gates that is so all-encompassing that it quite nearly beggars belief. That expression is an Old English term which means something that is so unbelievable that it nearly cannot be believed. The Nazi concentration camps in the Holocaust are a great example of that.

When the films of what went on there came to light it was so astonishing that it

was hard to comprehend such a thing could happen. But happen it did. And what is happening right now, the Antichrist system is a similarly hard thing to fathom, but here we are.

Bill Gates is building something that we call the Human Implantable Quantum Dot Microneedle Vaccination Delivery System, and it is composed of multiple things. At its center we have the COVID-19 vaccination that he wants to give every human on earth, there will be quantum dot microneedles powered by the 'near infrared bioluminescence enzyme luciferase' which is the chemical that will make the quantum dot vaccination readable through a special mobile device app, also a digital identification mark from ID2020, and a human implantable device for buying and selling cryptocurrency with a patent number of #060606. The digital ID will come in the form of something called an Immunity Passport. All of these things, and all being funded by one man, Bill Gates, represents in total at the very least a stunning forerunner to the Mark of the Beast world system. That's at the very least estimation, taken to its logical end, it very well could be the actual Mark of the Beast system.

That's right, the enzyme that will light up Bill Gates Human Implantable Quantum Dot Microneedle Vaccination Delivery System is called Luciferase, that's what makes the vaccination readable long after the victim has been injected, and what allows a mere vaccination to function as a mark. Luciferase.

<https://www.sgtreport.com/2020/05/shock-as-its-revealed-an-enzyme-called-luciferase-is-what-makes-bill-gates-implantable-quantum-dot-microneedle-vaccine-delivery-system-work/>

## COVID-19: The Spearpoint for Rolling Out a “New Era” of High-Risk, Genetically Engineered Vaccines

By the Children's Health Defense Team

For weeks, talking heads have been promoting the liability-free vaccine(s) that will save the world—so Bill Gates and Tony Fauci proclaim—from what Gates has now dubbed “Pandemic I.” As *Microsoft News* peddles self-congratulatory stories about the Gates Foundation's reorientation

of its priorities to devote “total attention” to the pandemic,” Fauci—making the rounds of talk shows—pledges that a vaccine will make its debut in January 2021. Not to be outdone, the White House has now unveiled “Operation Warp Speed”—a joint pharmaceutical-government-military effort aimed at “substantially shrinking the development time for a vaccine”—and President Trump promises one by the end of the year.

Planet-wide COVID-19 vaccination—the overt objective that has all of these players salivating in anticipation—ignores a number of irrefutable obstacles. For one, the RNA

virus being targeted, SARS-CoV-2, already “has mutated into at least 30 different genetic variants.” The variants include 19 never seen before as well as “rare changes that scientists had never imagined could happen.” Knowledge about these mutations may prove useful to clinicians wanting to better tailor their COVID-19 treatments, but the proliferation of mutations makes the chances of developing an effective vaccine irrelevant, even if that was Luciferians goal, which it is not.

Not to worry, say the entities funded by [Gates](#) (and also the [Pentagon](#)). Scientists working in the burgeoning field of synthetic biology are confident that they can “outdo” and outsmart nature using next-generation vaccine technologies such as gene transfer and self-assembling nanoparticles—along with invasive new vaccine delivery and record-keeping mechanisms such as smartphone-readable quantum dot tattoos. Does it matter that the researchers who have been experimenting with these approaches have never been able to overcome “nasty side effects”? Apparently not. Aided and abetted by the generous Gates and military funding, high-fanfare COVID-19 vaccine planning is proceeding quickly. Researchers reiterated this point ... that for most emerging virus vaccines, the main obstacle is not the effectiveness of conventional approaches but the need for more rapid development and large-scale deployment.

In the 1980s, manufacturers were elated when scientists developed new genetic engineering techniques (recombinant DNA technology) that—through the use of “expression systems” (bacteria, yeast, insect cells, mammalian cells or plants such as tobacco)—made it possible to jumpstart vaccine production and produce so-called “subunit vaccines.” The hepatitis B vaccine was the first to employ this “entirely new” vaccine production approach, and a number of the COVID-19 vaccines currently in the works are deploying these techniques. However, a complicating factor of subunit vaccines is that they must be bundled with “immunopotentiating” adjuvants that tend to trigger an imbalanced immune response.

**Comment:** Here is just a sampling of the 3 worst and most common vaccine adjuvants:

#### **Toxic Vaccine Adjuvants**

##### **Ingredients #1: Mercury (Thimerosal or Thiomersal)**

Mercury, which constitutes 49.7% of thimerosal (or thiomersal), has been commonly known for a very long time to be a highly toxic agent. Mercury has always been beloved by allopathy ever since its inception; in fact, the 3 main treatments of the early allopaths of the 19th century were bloodletting, surgery and the injection of toxic heavy metals like lead and mercury to purportedly displace disease! The expression “mad as a hatter” comes from the observation that the early hat makers, who used mercury in felt to make hats, became crazy through inhaling the stuff.

Numerous studies have been done on the toxicity of mercury, with evidence it leads to infertility, gastritis (a precancerous stage of gastric cancer), neurodegeneration, mitochondrial abnormalities, nephrotic syndrome, apoptosis (cell death) and autism, yet the IARC (International Agency for Research on Cancer, under the auspices of the Rockefeller-created WHO) still refuses to admit

mercury can cause cancer and is leaving mercury categorized as a class 2b possible carcinogen (as opposed to class 2a probable carcinogen or class 1 definite carcinogen).

Since thimerosal contains about 50% mercury by weight, vaccines with a ratio of 1:10,000 (or 0.01% thimerosal) have about 50 mg/L mercury, which exceeds the 0.2 mg/L hazardous waste toxicity regulatory level for mercury. According to US state and federal hazardous waste management requirements, any vaccines with this level of thimerosal which are discarded need to be treated as hazardous waste.

### Toxic Vaccine Adjuvants

#### Ingredients #2: Aluminum

Aluminum is another metal which, like mercury, is highly harmful for human health. Aluminum is a “light” metal rather than a heavy metal like lead and mercury, but its health effects are devastating nonetheless. As a vaccine adjuvant, aluminum is normally mixed into the vaccine as a salt, e.g. as aluminium phosphate and aluminium hydroxide.

This study specifically asked the question, “[Aluminum vaccine adjuvants: are they safe?](#)” and found they were not. Other studies have implicated aluminum in the development of [impaired cognitive function](#), [neurotoxicity](#), [Alzheimer’s](#) and [autism](#).

### Toxic Vaccine Adjuvants

#### Ingredients #3: Human Diploid Cells (Aborted Fetuses)

Believe it or not, aborted fetal DNA tissue is used in vaccine cultures, disguised under the name of diploid cells. A diploid cell is simply a cell with a double set of chromosomes. These cells are human cells, derived from the tissue of aborted babies!! This has been going on for over 50 years. The article [Human Fetal Links with Some Vaccines](#) admits that “Two different strains of human diploid cell cultures made from fetuses have been used extensively for vaccine production for decades. One was developed in the United States in 1961 (called WI-38) and the other in the United Kingdom in 1966 (called MRC-5).”

Many people, religious or not, are understandably opposed to allowing themselves to be injected with the tissue of dead babies. Would you want to be injected with that? There are major ethical ramifications here, not to mention grave health issues too. [A study by Dr. Deisher](#) found a connection between the injection of human diploid cells and autism. The basis of this is that when you inject something foreign into your body, your cells will either assimilate it (whereby the foreign human DNA will be transported into nuclei and be integrated into host genome, causing phenotype change) or attack it (meaning you develop an auto-immune response, leading to the auto-immune diseases of the ASD [Autism Spectrum Disorder]). Either way, residual human fetal DNA fragments in vaccines can be one of causes of autism in children. Dr. Deisher’s study concluded:

Autistic disorder change points years are coincident with introduction of vaccines manufactured using human fetal cell lines, containing fetal and retroviral contaminants, into childhood vaccine regimens. This pattern was repeated in the US, UK, Western Australia and Denmark. Thus, rising autistic

disorder prevalence is directly related to vaccines manufactured utilizing aborted human fetal cells.

I also recommend watching Clint Richardson's fantastic documentary "[Lethal Injection](#)" where he delves into the issue of aborted diploid cells and offers further research and analysis.

<https://thefreedomarticles.com/toxic-vaccine-adjuvants-the-top-10/>

Desirous of streamlining vaccine technology still further and enabling vaccine stockpiles in an even shorter time frame, researchers began tinkering in the mid-1990s with nucleic acid vaccines, which include DNA vaccines and messenger RNA (mRNA) vaccines. As a form of gene therapy, both represent a significant departure from classical vaccines.

Researchers quickly learned that both the DNA and mRNA vaccine options have serious downsides, and as a result, vaccines of this type have never been licensed. Nonetheless, almost one-fourth (20/83) of the vaccines listed by the World Health Organization as COVID-19 "candidate vaccines" as of April 23—including two of the leading contenders—are DNA (Inovio) or mRNA (Moderna) vaccines (see the table below).

DNA vaccines are intended to penetrate all the way into a cell's nucleus. According to one biotech scientist, "This is an incredibly difficult task given that our nuclei have evolved to prevent any foreign DNA from entering (Think viruses!)."

A second aspect of DNA vaccines—their gene-altering properties—is even more troubling and remains unresolved. DNA vaccines, by definition, come with the risk of "integration of exogenous DNA into the host genome, which may cause severe mutagenesis and induced new diseases." Framed in more understandable terms, "disruption from DNA is like inserting a foreign ingredient in an existing recipe, which can change the resulting dish." The permanent incorporation of synthetic genes into the recipient's DNA essentially produces a genetically modified human being, with unknown long-term effects.

Vaccine companies are also enamored with the mRNA vaccine approach despite observations that the large mRNA molecules are "intrinsically unstable," "prone to degradation" and may overactivate the immune system. mRNA approaches seem to attract researchers with a highly mechanistic view of human beings. One such individual praises mRNA for its "inherent 'programmability," stating "Much like [a] computer [operating system], mRNA therapy can *reprogram* [one's] body to produce its own therapies". The CEO of Moderna describes mRNA approaches—which use "custom-built" strands of mRNA to "turn the body's cells into ad hoc drug factories"—as being "like software."

The rush to develop gene-tampering COVID-19 vaccines is also accelerating the conjoined-twins fusion of pharma and biotech. The lucrative biopharma sector is now the fastest-growing segment of the global drug industry, currently representing 20% of the worldwide market and displaying an annual growth rate that is more than double that of conventional pharma. And COVID-19 vaccines are helping rescue some biopharma companies' shaky bottom lines.

As biopharma pursues its unfettered race toward a COVID-19 pot of gold, the public needs to take a critical look at the industry's disincentives for safety and

**also take a firm stand against the horrifying prospect of coronavirus vaccine mandates. Otherwise, genetically engineered COVID-19 vaccines are likely to start permanently altering genes, triggering autoimmunity and serving as the catalyst for other vaccine injuries or deaths, and—unhampered by any legal liability—none of the commercial or government actors responsible will likely care.**

**Twenty experimental COVID-19 nucleic acid vaccines (as of April 23, 2020)**

Entities Involved	Technologies	Status and Funding
Applied DNA Sciences (NY); Takis Biotech (Italy)	PCR-produced LinearDNA	Preclinical animal testing underway since April in mice (five versions).
Arcturus Therapeutics (CA); Duke-National University of Singapore Medical School	Self-replicating mRNA (STARR platform); nanoparticle non-viral delivery system (LUNAR)	No timeline provided for human trials. \$10 million in funding from Singapore Economic Development Board.
BIOCAD (Russia)	mRNA (liposome-encapsulated)	Animal testing underway.
BioNet Asia (Thai-French); Thai National Control Lab	DNA	Entering preclinical studies. MOU signed with Thai Ministry of Health.
BioNTech (Germany); Fosun Pharma; Pfizer	Four mRNA candidates (modRNA, uRNA, self-amplifying mRNA)	Phase 1/2 trials (200 participants ages 18-55) approved in Germany for “BNT162”; U.S. approval expected.
Centro Nacional Biotecnología (Spain)	RNA (replicating defective SARS-CoV-2 derived RNAs)	4.5 million euros in funding from Spanish government.
China CDC; Tongji University; Stermima	mRNA	Animal testing underway, clinical trials anticipated.
CureVac (MA and Germany); Acutus Therapeutics; Arcturus Therapeutics	mRNA	Phase I clinical trial in early summer. CEPI funding for vaccine platform (\$8.3 million) and RNA printer (\$34 million). European Commission funding for expanded manufacturing (\$88 million).
Russia State Research Center of Virology and Biotechnology	mRNA	No information available.
Fudan University; Shanghai JiaoTong University; RNACure Biopharma	mRNA (LNP-encapsulated cocktail encoding VLP, LNP-encapsulated encoding RBD)	Comparing different mRNA strategies.
Immunomics Therapeutics (MD); EpiVax (RI); PharmaJet (CO)	DNA (UNITE platform); PharmaJet needle-free injection delivery system	Building on PharmaJet’s active collaboration with BARDA and Department of Defense.
Imperial College London	Self-amplifying RNA	Testing in mice underway. Clinical trials in June 2020. Funding secured from UK Secretary of State for Health.
Inovio Pharmaceuticals (PA); International Vaccine Institute; Korea National Institute of Health	DNA with electroporation	Phase 1 clinical trial of “INO-4800” launched April 6 in the U.S. (Philadelphia, Kansas City) with up to 40 volunteers. Parallel Phase 1 trial in South Korea. Up to \$65 million in CEPI funding. Additional funding from Bill & Melinda Gates Foundation.
Karolinska Institute (Sweden); Cobra Biologics (UK)	DNA with electroporation	Longer-term focus on a vaccine to protect against multiple coronaviruses.
Moderna, Inc. (MA); NIAID; Lonza Group (Switzerland)	mRNA (LNP-encapsulated mRNA)	Phase 1 clinical trial of “mRNA-1273” with 45 participants (ages 18-55): Seattle (Kaiser); Atlanta (Emory); Bethesda (NIH). Expanded to include adults aged 56-plus. Application submitted to FDA (April 27) for Phase 2 studies. \$483 million in funding from BARDA, plus CEPI funding.
Osaka University (Japan); Angen Inc.; Takara Bio; Daicel	DNA	Collaboration announced on March 5. Animal testing to begin soon.
University of Tokyo; Daiichi-Sankyo	mRNA (LNP-encapsulated mRNA)	No information available.
University of Waterloo (Canada)	DNA; nanomedicine; nasal spray delivery	Design underway. Funding from the Natural Sciences and Engineering Research Council of Canada.
Zydus Cadila (India)	DNA	No information available.

Key: BARDA: Biomedical Advanced Research and Development Authority (part of HHS); CEPI: Coalition for Epidemic Preparedness Innovations; FDA: U.S. Food and Drug Administration; GSK: GlaxoSmithKline; HHS: Department of Health and Human Services; MOU: Memorandum of understanding; NIAID: National Institute of Allergy and Infectious Diseases

<https://childrenshealthdefense.org/news/vaccine-safety/covid-19-the-spearpoint-for-rolling-out-a-new-era-of-high-risk-genetically-engineered-vaccines/>

**DO NOT TAKE ANY COVID-19 TEST! Testing Positive Will Get You Permanently Banned from Military Service & You (and Your Family Members) Can be FORCIBLY Taken From Your Home—Plus The TESTS THEMSELVES ARE INFECTED WITH COVID-19!**

08 May 2020--**With all the news about coronavirus and its disease COVID-19, a lot of people are thinking about being tested. DON'T!**

**As the Defense Department negotiates its way through the coronavirus pandemic and its fallout, military entrance processing stations (MEPCOM) are working with new guidance when it comes to bringing COVID-19 survivors into the services.**

**A past COVID-19 diagnosis is a no-go for processing, according to a recently released MEPCOM memo circulating on Twitter.**

**“During the medical history interview or examination, a history of COVID-19, confirmed by either a laboratory test or a clinician diagnosis, is permanently disqualifying ...” **For those that want more details:****

To: All Personnel

References:

- (a) USMEPCOM-200408-5GGB - INFO MSG -2019 -n-CoV Infection Control Workflow
- (b) USMEPCOM Regulation 40-1 Medical Qualification Program

Purpose: To provide interim guidance on rendering a medical qualification determination for an applicant with a history of confirmed COVID-19.

Instructions: All 65 MEPS and one RPS will implement the following:

1. An applicant with a positive MEPS screening for COVID-19, but without confirmation by either a laboratory test or clinician diagnosis, will be allowed to return to the MEPS to continue processing after the 14-day RJ date has been met IAW the current version of reference (a). Upon return to the MEPS, the applicant will be processed IAW references (a) and (b) unless otherwise stated in this information message.
2. An applicant with a history of COVID-19, confirmed by either a laboratory test or clinician diagnosis, will be authorized to process 28 days after the documented date of diagnosis. The applicant will submit either as a prescreen or as a med read, all supporting medical documentation pertaining to the COVID-19 diagnosis. The supporting medical documentation should include all clinical notes pertaining to diagnostic testing, treatment and prognosis.
3. During the prescreen process, a reported history of confirmed COVID-19 will be annotated as “Considered Disqualifying” (CD) and documented in Section VII of the DD Form 2807-2. The DoDI 6130.03 section 5.30.a. will be cited with the AP approved ICD-10 code Z22.9. “Processing Not Justified” (PNJ) will not be used as a prescreen determination for an applicant with a history of confirmed COVID-19.
4. During the medical history interview or examination, a history of COVID-19, confirmed by either a laboratory test or clinician diagnosis, is permanently disqualifying, and the “P” PULHES letter designator will be annotated as “3P” in item 76 on the DD Form 2808. The DoDI 6130.03 section 5.30.a. will be cited in item 79 with the AP approved ICD-10 code Z22.9 in items 77 and 79. Item 52 “Other” from the DD Form 2808 will be used as the associated item number for annotation.
5. All other applicant screening or processing not detailed in this information message will be conducted IAW the current versions of references (a) and (b).

POCs for this message:

Or you may contact J-7/MEMD at:

• J-7/Battalion Support e-mail, [osd.north-chicago.usmepcom.list.hq-j7-memd-battalion-support@mail.mil](mailto:osd.north-chicago.usmepcom.list.hq-j7-memd-battalion-support@mail.mil)  
<<mailto:osd.north-chicago.usmepcom.list.hq-j7-memd-battalion-support@mail.mil>>

1

*The memo reads.*

*Specifically, it lays out guidelines for MEPS staff to deal with potential, as well as confirmed, coronavirus cases. That starts with screening at all MEPS, which includes taking a temperature and answering questions about symptoms and potential contact. If an applicant fails screening, according to the memo, they won't be tested, but they can return in 14 days if they're symptom-free. Anyone who has been diagnosed with COVID-19 will have to wait until 28 days after diagnosis to report to MEPS. Upon return, a diagnosis will be marked as “permanently disqualifying” for accession. Recruits can apply for waivers for all permanently disqualifying conditions, including surviving COVID-19. However, without any further guidance for exceptions dealing with COVID-19, a review authority would have no justification to grant a waiver.*

**Maxwell declined to explain why a coronavirus diagnosis would be permanently disqualifying, compared to other viral, non-chronic illnesses that do not preclude military service. <https://www.militarytimes.com/news/your-military/2020/05/06/coronavirus-survivors-banned-from-joining-the-military/>**

**The move comes as the services prepare for a surge of post-graduation recruits during the summer and fall high season.**

**In recent weeks, new trainees have been 100-percent tested for COVID-19 before starting training. So far, clusters have been discovered at Fort Jackson, South Carolina,**

and Marine Corps Recruit Depot San Diego, the Army and Marine Corps' biggest initial entry training installations.

Another H U G E "downside" to even getting tested, is that self-anointed do-gooders in various public health agencies, are now revealing they may decide it's best to TAKE any infected family member out of their home and away from family, "for everyone's protection."

This would include taking your children!

**WHAT WOULD YOU DO if your six year old son or daughter tested positive for COVID19 and was taken from your home to a quarantine center by Ventura Health Authorities? This SHOCKING VIDEO demands that you plan ahead. #BeBrave #HistoryRepeating [pic.twitter.com/e5RC7dCO7o](https://pic.twitter.com/e5RC7dCO7o)<<Play the Video Here**

— Del Bigtree (@delbigtree) [May 6, 2020](#)

**They call it "Contract Tracing" and justify it as a way to "protect people."**

Many folks say "Thanks but no thanks." Others are more assertive, saying they would "not allow" any government to take their family member against that family member's will, and some have gone so far as to say "if they have to shoot (such government officials) who attempt any such thing, they will."

This is why folks are being advised by many in the private sector NOT to be tested for COVID-19. IF you are voluntarily tested, they can CLAIM whatever they want about your results. And if you're a political adversary, or a member of some group the government doesn't like, they can now take that test result and use it to steal your freedom and use force against you to do it.

Word is already spreading like wildfire in the private sector, with people telling family, friends and neighbors "Don't give them any "evidence" to use against you or your family. Don't get tested."

Interestingly, BEFORE THIS OUTBREAK EVEN BECAME AN OUTBREAK . . . . the New York State Legislature already had a Bill filed to . . . . TAKE PEOPLE BY FORCE! (Gee, what a coincidence):

**From NY Assembly Bill A99 (Not yet a law)**

**2019-2020 Legislative Session**

**(Relates to the removal of cases, contacts and carriers of communicable diseases who are potentially dangerous to the public health)**

STATE OF NEW YORK \_\_\_\_\_

99

*2019-2020 Regular Sessions*

*IN ASSEMBLY*

*(PREFILED)*

*January 9, 2019*

§ 2120-A. REMOVAL AND DETENTION OF CASES, CONTACTS AND CARRIERS WHO ARE OR MAY BE A DANGER TO PUBLIC HEALTH; OTHER ORDERS.

1. THE PROVISIONS OF THIS SECTION SHALL BE UTILIZED IN THE EVENT THAT THE GOVERNOR DECLARES A STATE OF HEALTH EMERGENCY DUE TO AN EPIDEMIC OF ANY COMMUNICABLE DISEASE.

2. UPON DETERMINING BY CLEAR AND CONVINCING EVIDENCE THAT THE

HEALTH OF OTHERS IS OR MAY BE ENDANGERED BY A CASE, CONTACT OR CARRIER, OR SUSPECTED CASE, **CONTACT** OR CARRIER OF A CONTAGIOUS DISEASE THAT, IN THE OPINION OF THE GOVERNOR, AFTER CONSULTATION WITH THE COMMISSIONER, MAY POSE AN IMMINENT AND SIGNIFICANT THREAT TO THE PUBLIC HEALTH RESULTING IN SEVERE MORBIDITY OR HIGH MORTALITY, THE GOVERNOR OR HIS OR HER DELEGEE, INCLUDING, BUT NOT LIMITED TO THE COMMISSIONER OR THE HEADS OF LOCAL HEALTH DEPARTMENTS, MAY ORDER THE REMOVAL AND/OR DETENTION OF SUCH A PERSON OR OF A GROUP OF SUCH PERSONS BY ISSUING A SINGLE ORDER, IDENTIFYING SUCH PERSONS EITHER BY NAME OR BY A REASONABLY SPECIFIC DESCRIPTION OF THE INDIVIDUALS OR GROUP BEING DETAINED. SUCH PERSON OR GROUP OF PERSONS SHALL BE DETAINED IN A MEDICAL FACILITY OR OTHER APPROPRIATE FACILITY OR PREMISES DESIGNATED BY THE GOVERNOR OR HIS OR HER DELEGEE AND COMPLYING WITH SUBDIVISION FIVE OF THIS SECTION."

Link to New York State Government Web Site [HERE](#)

**As shown above even if you've even been IN CONTACT with someone who wasn't sick, but tested positive, they will be able to TAKE YOU BY FORCE! DON'T GET TESTED.**

**And if any "official" comes to ask you questions, assert your Constitutional Right to REMAIN SILENT.**

**Say "I assert my right to remain silent as protected by the Fifth Amendment to the Constitution of the United States. I will not answer any questions. I want you to leave me alone" and then YOU shut up.**

**If they persist, re-state "I have invoked my right to remain silent. Leave now."**

**The TESTS THEMSELVES INFECTED WITH COVID-19!**

As the new coronavirus took root across America, the US Centers for Disease Control and Prevention sent states **tainted test kits** in early February that **were themselves seeded with the virus!!!!!!**, federal officials have confirmed.

After the CDC first sent its test kit to states in early February, **it took the agency around a month to fix the problem.** By then, the virus had invaded many communities unimpeded, and any chance that the US had at containing its spread had virtually vanished..

One wonders how many people **GOT INFECTED** by taking the test?

Will that be YOU?

Don't take the test.

<https://haltturnerradioshow.com/index.php/en/news-page/news-nation/do-not-take-any-covid-19-test-banned-from-military-can-be-forcibly-taken-from-home>

---

**Coronavirus tests are a LIE... false positives vastly outnumber real positives ... official infection counts wildly overstated**

**(Natural News) The African nation of Tanzania recently sent samples to the WHO for coronavirus testing. Among those items that tested positive for the coronavirus were samples from a goat, a papaya and a pheasant, all at once exposing the total science fraud behind coronavirus testing.**

As we've warned for over a month, most coronavirus tests produce huge numbers of false positives. The testing kits are largely made in China, and either through gross incompetence or malicious intent, China-made lab tests are notorious for being so inaccurate that they're practically useless.

We now have enough knowledge of the "false positives" testing fiasco to be able to say, with confidence, that the official coronavirus infection numbers are wildly overstated. Nowhere near that number of people have actually been infected.

---

## +2+ "Your Every Move Will Be Watched": Post-COVID Offices To Resemble China's Social Credit System

by Tyler Durden ZeroHedge.com Sat, 05/09/2020-- We recently detailed how when America's white collar work force returns to their offices, business complexes, and sky scrapers, their experience in the post-COVID 'reopened' work space is likely to resemble something more like an airport security check zone, complete with invasive protocols like frequent temperature checks and 'social distancing' and health surveillance, as well as Plexiglass enclosed cubicles and HR-style enforcement monitors.

If all that sounds like a hassle, the WSJ has since taken up the question of America's near-future office spaces, and the end result looks to be worse than expected. "Your every move will be watched," the report emphasizes:

*In Midtown Manhattan, thermal cameras will measure body temperatures as employees file into a 32-story office tower at Rockefeller Center. The building's owner, RXR Realty, said it is also developing a mobile app for tenants to monitor — and score — how closely their workers are complying with social distancing.*

*PricewaterhouseCoopers LLP said it is preparing to launch this month a phone app for employers that traces contacts by analyzing workers' interactions in the office.*

*More than 50 clients have expressed interest, including some of the nation's biggest banks, manufacturers and energy companies.*

It sounds like something very close to China's 'big brother' social credit scoring system which made world headlines last year, as it relies on cutting edge facial recognition software designed to permanently store a citizen profile while actively tracking individuals' public movements.

There's already been reported instances of Chinese citizens being prevented from taking trains due to the system forecasting they might not be able to pay, or some

other 'pre-crime' risks.

And now this is getting closer to home, possibly coming to an office near you:

Advertising giant Interpublic Group of Cos . is exploring dividing its 22,000 U.S. employees into three separate groups, according to perceived health risks, which could include age. Workers could be asked to disclose medical and other personal information about themselves and, in some cases, family members...

**"It is a reasonable approach, if you can get through the operational and some of the privacy and regulatory issues," Dr. Ossmann said.**

**It's certainly alarming anytime it has to be admitted that "privacy issues" are merely a pesky little something to "get through".**

**Covid-19 is taking workplace surveillance to a higher level, with some employers planning to track movements and gather personal information like never before in Western democracies**

**Welcome Back to the Office. Your Every Move Will Be Watched--Employers plan new tools to measure office interactions and track workers' health:**

<https://t.co/2bjDGAEZtG>

— The Wall Street Journal (@WSJ) [May 6, 2020](#)

**There's already talk of health tracking apps set up on a reward/punishment system of incentives sounding like something straight out of the dystopian futuristic series *Black Mirror*.**

**This would further be integrated with controversial thermal imaging technology – some already set up at Amazon warehouses – capable of storing face recognition data.**

**And it's complete with live "guinea pigs" — rather, currently returning office employees, as the WSJ writes of one real estate company:**

**RXR, the real-estate company, is testing new systems on its own employees. "We are using ourselves as the guinea pigs," RXR's Chief Executive Scott Rechler said.**

**The company aims to have its social-distancing app ready at the end of May. Workers' movements are tracked through their smartphones — you get a higher score the more time in the office you are farther than 6 feet from another person. An individual would see his or her own score, and the employer would see aggregate data on how employees are complying with social distancing as a whole.**

**And more on labeling broad groups of employees according to perceived COVID-19 risk factors:**

**A worker that tested positive for coronavirus antibodies, indicating they had the infection in the past, would be considered a "Level 1" employee — the lowest risk— and could return to work when states and cities lift work-from-home orders.**

**Those without antibodies but who are considered a low to moderate risk would count as "Level 2." This group would include employees who are under 65 years old, don't live with high-risk people and don't have chronic diseases including diabetes or hypertension. This group could potentially return to work in a second wave.**

**Employees over 65, or those who are pregnant, smoke, have chronic diseases or health issues would be considered "Level 3." These at-risk employees would have to wait the longest to return, Dr. Ossmann said.**

**[Psa 94:20](#) Shall the throne of iniquity have fellowship with thee, which frameth mischief by a law?**

**Comment: The KJV also translates the root word for "Frameth" as: fashion, form, & make & also translates the root word of "Mischief" in the following manner: iniquity, misery, painful, perverseness, sorrow, toil, travail, trouble, wearisome & wickedness**

---

## **NETANYAHU SUGGESTS MICROCHIPPING CHILDREN ((To Maintain proper social distancing when schools open))**

Israeli Prime Minister Benjamin Netanyahu is under fire for suggesting that all children in his country be microchipped in order to help ensure they are observing proper social distancing when schools open back up as the nationwide lockdown his eased.

Speaking at a press conference Monday—but only now being reported in the Israeli media—the premier said the Health Ministry could use RFID chip technology to help enact social distancing. He said the legislation proposed in the Knesset would allow for microchipping the entire population.

Netanyahu added:

“I spoke with our heads of technology in order to find measures Israel is good at, such as sensors. For instance, every person, every kid—I want it on kids first—would have a sensor that would sound an alarm when you get too close, like the ones on cars.”

<https://www.trunews.com/stream/netanyahu-suggests-microchipping-children>

## **Medical Researcher on "Verge of Making Very Significant" Coronavirus Breakthrough Shot to Death**

A medical researcher said to be on the “verge of making very significant” coronavirus findings was found shot to death over the weekend in Pennsylvania, officials said. Bing Liu, a medical researcher at the University of Pittsburgh School of Medicine said to be on the “verge of making very significant” Coronavirus findings was shot dead over the weekend in a murder-suicide.

He had been shot in the head and the neck, the agency said.

An hour after Liu’s body was discovered, a second person, Hao Gu, 46, was found dead inside a car less than a mile away, the agency said.

Ross Township police Detective Sgt. Brian Kohlhepp told NBC News that the men knew each other. Investigators believe Gu killed Liu before returning to his car, where he died of a self-inflicted gunshot wound. **Comment: A Classic Mind Control Murder Suicide Mission carried out to perfection.**

“Bing was on the verge of making very significant findings toward understanding the cellular mechanisms that underlie SARS-CoV-2 infection and the cellular basis of the following complications,” the school said. “We will make an effort to complete what he started in an effort to pay homage to his scientific excellence.”

## **Plandemic Documentary: The Hidden Agenda Behind Covid-19**

**Play:** <https://www.bitchute.com/video/IB3ijQuLkkUr/>

---

## **Important Information in Understanding How Covid-19 Actually Works!!! Dr. Mikovits, PhD COVID-19 primarily kills people who were flu vaccinated**

Cellular and molecular biologist Judy Mikovits, Ph.D. believes COVID-19 is not caused by SARS-CoV-2 alone, but rather that it’s the result of a combination of SARS-CoV-2 and XMRVs (human gamma-retroviruses). XMRV stands for “xenotropic murine leukemia virus-related virus.” Xenotropic refers to viruses

that only replicate in cells other than those of the host species. So, XMRVs are viruses that infect human cells yet are not human viruses.<sup>2</sup> The XMRV retrovirus is actually the virus that has the same cytokine storm signature as COVID-19, not coronaviruses, which are far more benign. COVID-19 may be initiated by SARS-CoV-2 but is dependent upon a preexisting infection with and awakening of other viruses such as XMRV, gamma retroviruses, possibly Lyme and other coinfections, including parasites, and this is why anti-parasitic medications like hydroxychloroquine and Ivermectin help. Blood products and vaccines are contaminated with XMRVs that can damage your immune system and cause CFS, cancer and other chronic diseases. SARS-CoV-2 also appears to have been manipulated to include components of HIV that destroys immune function along with XMRVs. Those already infected with XMRVs may end up getting serious COVID-19 infection and/or die from the disease. Mikovits's research suggests more than 30 million Americans carry XMRVs and other gammaretroviruses in their bodies from contaminated vaccines and blood supply. The viruses spread within laboratories as they have adapted to become aerosolized, and contaminate cell lines used in vaccine production and other viral research, including research on coronaviruses. Flu vaccines have spread a host of dangerous viruses around the world, which can then interact with SARS COV-2.

---

### What Will Schools Look Like After COVID Unless There is Massive Pushback? Prison Camps. They'll Look Like Prison Camps.

If you've been wondering what it will look like when the kids go back to school, one school in Quebec has released their new guidelines and they're shocking. Apparently, schools are going to look a lot like prison camps.

This is another example of how things will not just "go back to normal." Everything is changing, including life for our children.

Here are the guidelines one school has laid out.

Schools in Quebec, Canada are reopening on May 19th and one school released its guidelines. This list was submitted by a parent to the Facebook page, Kate for Education. The school was not named for the privacy of the parent. (All emphasis is mine.)

Now if you're saying to yourself, "This is in Canada. There's no way this nonsense will happen here in America," I urge you to remember that the lockdown restrictions in Canada are far less stringent than those in the United States. Look around at the ridiculous rules we already have like stores choosing what items are essential for us to buy. Then tell me "It can't happen here."

Here are those reopening guidelines.

- Once assigned to a class, students will spend their entire day (including lunchtime) in their assigned seats;
- Activities completed while in school will not be evaluated or graded;
- No physical materials will be transported back and forth between home & school;

- Students must include a mini garbage and recycling bag with their lunch in order to collect their personal garbage and dispose of it at home;
- All students must bring in their personal, labeled, and filled water bottle as water fountains won't be available;
- Sharing of ALL items (pencils, pens, sharpeners, wax crayons, rulers, toys) is not permitted;
- When weather permits, recess breaks will be held outdoors and will entail of walking outside safely distanced from one another in a prearranged pattern;
- Gatherings (groups of students together) will not be permitted;
- Limited travel throughout the school by all during the day;
- Bathroom visits will be monitored/escorted so that proper disinfection by our caretakers can follow before another student uses the facilities;
- As per government recommendations, masks and gloves will not be provided;
- Lockers will no longer be used. Students will place their spring/summer jackets behind the chair they will be using & their school bags under their assigned desks;
- There will be no cafeteria service or Home & School pizza & frozen yogurt days.
- There will be no physical activity taking place in the gym, no art classes (although art and craft projects can be promoted as home suggestions), no library periods, and no drama classes;
- No fundraisers or after school activities will take place;

- Parent volunteers will not be permitted in school;
- Students with fever or flu-like symptoms will be returned home.

- To minimize movement, we forecast assigning students to classes nearest to the Berlin Street entrance (on all 3 floors, if needed only);
- Once assigned to a class, students will spend their entire day (including lunchtime) in their assigned seats;
- Students must expect to be regrouped based on the number of students returning;
- Students must not expect to return to their regular class with their classmates;
- Your child may not be with the same teachers as before as several members of our staff will not be returning to school;
- Teachers not returning to school will continue working and keeping close contact with students remotely from home as recommended by the government;
- Activities completed while in school will not be evaluated or graded.
- No physical materials will be transported back & forth between home & school.
- Students must include a mini garbage and recycling bag with their lunch in order to collect their personal garbage to dispose of at home;
- All students must bring in their personal, labelled & filled water bottle as water fountains won't be available;
- Sharing of ALL items (pencils, pens, sharpeners, wax crayons, rulers, toys) is not permitted
- When weather permits, recess breaks will be held outdoors & will entail of walking outside safely distanced from one another in a pre-arranged pattern;
- Gatherings (groups of students together) will not be permitted;
- Limited travel within the school by all throughout the day;
- Bathroom visits will be monitored/escorted so that proper disinfection by our caretakers can follow before another student uses the facilities;
- As per government recommendations, masks and gloves will not be provided. Students are certainly welcomed to bring these items from home. They are also invited to carry their personal disinfecting wipes with them if they wish;
- Lockers will no longer be used. Students will place their spring/summer jackets behind the chair they will be using & their schoolbag under their assigned desk;
- There will be no cafeteria service or Home & School pizza & frozen yogurt days;
- There will be no physical activity taking place in the gym, no art classes (although art and craft projects can be promoted as home suggestions), no library periods, and no drama classes;
- No fundraisers or after-school activities will take place;
- Parent volunteers will not be permitted in school;
- We recommend your child brings a book or two of interest from home to read;
- Students with fever or flu-like symptoms will be returned home;

Lest it sound as though this is a total outlier, [here is the guidance from another school](#) – it's similar but not quite as harsh. And [here are documents from the Minister of Education](#) outlining the guidelines to be followed by the schools.

And did you notice there are quite a few inconsistencies? Kids can't take *anything* back and forth from school. You know, except for their lunches, their garbage, their water, their PPE, and some books to read. That stuff doesn't count as going back and forth and clearly, is germ-free.

**This sounds more like a prison for dangerous offenders than a nurturing place for children to learn and grow.**

Imagine the culture of fear this creates for children. When you drum into a child the constant worry that others might be infectious, how do you expect that child to learn to

communicate with others, make friends, and enjoy learning? This is how you make children afraid of human contact.

**Active children will be miserable. If you think the number of diagnoses for ADHD and similar behavioral issues is high now, just wait until energetic 7-year-olds are forced to sit in the same chair all day and then walk in a properly distanced around a playground, past all the fun stuff like swings and slides.**

If their work isn't even graded or evaluated, what could possibly be the point of returning to school?

I guess there's one point.

**If you want a population of worker bees who will quietly submit to authority and distance themselves completely from the influence of others, this is how you produce that population. You drum into them that they can't even choose when to go to the bathroom, that they can't congregate with others, and that they must remain seated with their hands strictly kept to themselves at all times.**

I wonder if the monitoring of the bathroom will be similar to [what was discussed in this article](#) or if somebody will actually go with them. **And if so, isn't an adult being alone in the bathroom with a child pretty inappropriate?**

**You teach them that every single moment is structured and supervised. You teach them to walk only in orderly formation – no skipping, no running, no playing.**

---

**[RECORD 103,415,000 NOT IN US LABOR FORCE...20.5 MILLION JOBS VANISH IN APRIL...& These Figures Are UNDERCOUNTED!](#) Trump's "zombie economy" scheme pays workers to stay home and NOT work, while small businesses get crushed is the dumbest economic experiment ever attempted!!! But it is not dumb but intentional!!!**

Friday, May 08, 2020 by: [Mike Adams \(Natural News\)](#) **The Trump administration is paying huge numbers of people more money to *not* work, than they used to make at their jobs, so even as economies attempt to reopen, small businesses can't find anyone who wants to work.**

**Why should they work, after all, when they're collecting *more* money to not work? How exactly is the US economy supposed to ever return to normalcy when workers are now being paid by the federal government to *avoid* working, even when jobs are available and small businesses are hiring?**

We're seeing this dynamic firsthand. [The Health Ranger Store](#) has now lost one-third of its temporary warehouse workers because they're making more money sitting at home, collecting money from the government instead of actually working. These are people who quit their jobs to collect unemployment, and the federal government is so desperate to blast helicopter money across the country that **anyone can collect unemployment benefits, even if they quit their jobs.**

There's zero policing of any of this by the federal government, **so employees across the country are committing massive fraud by simply quitting their jobs and claiming they were laid off or fired. And we're seeing the same thing across a multitude of industries, from food production and restaurants to landscaping and many others.** [Rev 21:8](#) *But the fearful, and unbelieving, and the abominable, and murderers, and whoremongers, and sorcerers, and idolaters, and all liars, shall*

*have their part in the lake which burneth with fire and brimstone: which is the second death.*

Ultimately, the Health Ranger Store is facing the same dire choice that millions of other small businesses face across America: **We now have to out-bid government unemployment benefits to entice anyone to come back to work.** That means paying \$20 / hour for entry-level warehouse workers, which means we'll have to dramatically raise prices to cover the increased labor costs. The Trump administration has stolen our labor pool by paying people to sit at home and collect free money. This is the end of capitalism and the beginning of the total demise of small businesses across America.

**The WSJ explains:**

*In Pittsburgh, Les Neilly, who co-owns a business that makes and sells residential awnings and tarps to trucking companies, said three employees he had brought back to work asked recently if they could work a rotating schedule with co-workers who were laid off, so they could take turns receiving unemployment benefits.*

Do you see what's going on? Employees are actually structuring "intentional joblessness" so they can collect federal benefits. This is happening all across the country, and it's absolutely crushing small businesses everywhere.

As the WSJ adds:

*Ilona Luce-Fina, who was laid off from her job as a bartender at the airport in Ithaca, N.Y., said she hopes her boss doesn't call her back too soon. "I was crying at work to leave, but then as time went on and I did receive benefits, it was like, wow, I'm getting more than when I worked there," Ms. Luce-Fina said.*

Exactly. All across the nation, workers are discovering **they will be penalized for going back to work.**

This genius plan could only come from government, of course. And it's the dumbest economic experiment since communism.

This "dumb-and-dumber" economic experiment might actually be consistent with the policies of government stupidity, **since the Trump administration is paying investors not to invest (by having the Fed buy up corporate bonds), and paying farmers not to farm (price control farm subsidies), so why not pay workers not to work? Soon, we'll probably see full-blown communism on parade where factories are paid to not produce anything and airlines are paid to fly empty planes all over the country just to create the illusion of economic activity. Oh wait, that's already happening.**

All this brings up the obvious conundrum that Trump has yet to face: **To get America back to work, the government will sooner or later have to stop paying workers to not work.** But how many small businesses will even still exist by that time?

As [Michael Snyder reports](#), 52% of small businesses now expect to be bankrupt within six months. A big part of the reason for that, of course, is that **small business owners can't find anybody who wants to work.**

While seemingly every Republican and Trump supporter in the nation is screaming about how the economy is being destroyed by the lockdowns, **there are very few voices pointing out how Trump's own bailout policies are destroying small**

businesses across the country. Trump's stupid policies are doing far more damage than the coronavirus ever could.

The only way to get America's economy back on track is to end the "Universal Basic Income" that Trump has put in place. At some point, the free money from Uncle Sam has to stop as economies reopen, or there's no reason for any of these workers to even consider going back to their old jobs (or finding new ones). Yet any effort to cut off the unemployment benefits will now be met with screams and condemnation from the very people collecting those benefits.

Once you start paying people to *not* work, it turns out, most of them begin to believe you owe them a monthly paycheck for not working. While some people would prefer to have a career and a life with purpose, the free money parade becomes a way of life for far too many, and they demand the free money continue in perpetuity.

Oh, and just to make it all worse, members of Congress are now pushing to make the coronavirus unemployment benefits extend *indefinitely*, with no end in sight. It's called the Worker Relief and Security Act, but it might as well be called the, "Crush the economy" plan that will drive the final nail into the coffin of the United States of America.

You can't unleash economic recovery if you pay everyone to avoid working. That's why, as I've explained here, there really is no plan to reopen the economy. This is the end game for humanity. You are being corralled under house arrest, and prepped for the mandatory vaccine "kill shot" that will achieve the global depopulation objectives of the anti-human tyrants who run the world.

They have no real plan to reopen the economy because there's no plan for any future where you are still alive. The real plan is global depopulation — the killing of billions of human beings to "save the planet" and end all the entitlements that are bankrupting governments around the world.

You are being paid *not* to work for the same reason cows are given free food at the trough: You're being prepped for the culling. Planet Earth is being prepared for a post-human era, get it?

**That's why humanity must fight for survival or DIE**

### **+3+ 1.4 Million People to Die From Untreated TB Due to Coronavirus Lockdown**

Around 1.4 million people are expected to die from untreated TB infections due to the coronavirus lockdown, according to research published by Imperial College London and Johns Hopkins University.

"Up to 6.3 million more people are predicted to develop TB between now and 2025 and 1.4 million more people are expected to die as cases go undiagnosed and untreated during lockdown," reports the Guardian.

Lucica Ditiu, head of a global partnership to end tuberculosis, said she was "sickened" by the revelation and that the situation would set back global efforts to end TB by eight years.

**Covid-19: Bill Gates and the UK Vaccine Network Scandal**

This video puts forward the evidence for the corruption of the UK Vaccine Network by The Bill and Melinda Gates Foundation buying influence. 32 members of the panel have received in excess of £200,000,000 in grants from The Bill and Melinda Gates Foundation. **Comment: While I cannot verify this right at this moment: The vaccine is already made. It contains HCG – to cause sterility in women. 61 out of 63 women became infertile in tests. The male vaccine is GNRH which shrinks testicle size, lowers sperm count and kills its mitochondrial DNA, and shrinks prostate. It was tested on baboons. The sperm of vaccinated male animals made females infertile!!!!**

**Canada bans 'assault' style rifles effective immediately**

Canadian Prime Minister Justin Trudeau announced on Friday that Canada is banning 1,500 “assault” rifles effective immediately.

“Today, we are closing the market for military-grade assault weapons in Canada. We are banning 1,500 models and variants of these firearms by way of regulations,” Trudeau announced.

“Effective immediately, it is no longer permitted to buy, sell, transport, import or use military-grade assault weapons in this country,” he added.

Existing gun owners will be given a two-year “amnesty period” to take action to comply with the law.

Right on Cue: Trudeau’s decision takes place one week after a deadly mass shooting in Nova Scotia. The suspect, Gabriel Wortman, used two semi-automatic rifles and numerous semi-automatic handguns in a two-day rampage on April 18 and 19 that [left 22 people dead](#).

Canadians own an estimated 34.7 firearms per 100 people, [according to Small Arms Survey’s 2018 estimates](#), making it one of the highest per-capita firearm ownership rates globally. [In contrast, per-capita firearm ownership in the U.S. is 120 per 100 people.](#)

**Dr. Fauci Introduces “Operation Warp Speed” – A ‘Manhattan Project’-Style Program To Find A Vaccine**

In addition to cranking out more courses of remdesivir, the White House is launching a new federal effort to direct the search for a coronavirus vaccine; a

“Manhattan Project” type effort purportedly inspired by a WSJ story about a group of leading scientists working with the administration – Dr. Tony Fauci confirmed on Thursday.

**FYI:** *Remdesivir is an investigational antiviral compound undergoing clinical trials in a number of countries as a potential treatment for COVID-19. Remdesivir is not yet licensed or approved anywhere globally and has not been demonstrated to be safe or effective for any use. Remdesivir is a highly toxic antiviral drug that failed (for Ebola) and they are recycling it....they have had to stop treatment in a certain number of cases, it is so toxic.....Remdesivir is not a drug for immunological disease so it won't work for that....there is no place for this, there is no sense to it.."* <https://www.youtube.com/watch?v=w4f-ppsOMng>

The plan is to have 100 million doses of a workable vaccine ready by January.

Here's Reuters with the details on 'OWS':

*The Trump administration is planning to speed up development of a coronavirus vaccine with the goal of having 100 million doses ready by the end of 2020, a senior administration official said on Wednesday.*

*The latest Trump administration efforts to speed vaccine development were originally reported by Bloomberg News, citing people familiar with the matter. Called "Operation Warp Speed," the project will join private pharmaceutical companies with government agencies and the military in trying to cut the development time for a vaccine by as much as eight months.*

*It said a White House meeting on the project was scheduled for Wednesday.*

*Last month, President Donald Trump directed Health and Human Services (HHS) Secretary Alex Azar to speed development of a vaccine, and administration officials have been meeting on the effort for three to four weeks, the report added.*

**Dr. Anthony Fauci is Stumping for Big Pharma, Bill Gates' Mandatory Vaccine, and The Mark of the Beast System**

[Genesis 3:1](#) "Now the serpent was more subtil than any beast of the field which the LORD God had made. And he said unto the woman, Yea, hath God said, Ye shall not eat of every tree of the garden?"

Yep, and they are STILL subtil today! Dr. Anthony Fauci has been at, in control of, serving as the director of the [National Institute of Allergy and Infectious Diseases](#) (NIAID) since 1984! That is 36 years folks! Just like those wicked, crooked politicians, he has had his hand in the cookie jar far to long!

[Ecclesiastes 8:11-13](#) "Because sentence against an evil work is not executed speedily, therefore the heart of the sons of men is fully set in them to do evil. 12 Though a sinner do evil an hundred times, and his days be prolonged, yet surely I know that it shall be well with them that fear God, which fear before him: 13 But it shall not be well with the wicked, neither shall he prolong his days, which are as a shadow; because he feareth not before God."

<<Just as the serpent in the Garden of Eden deceived Eve, (Genesis 3:1-5) so too is Fauci slithering around deceiving the masses. With all the evidence that has now come to light (I am sure the FBI and those in the intelligence community know more) Fauci and others should be investigated and scrutinized like Serial Killers, because that is what they are!

Like a Fox keeping watch over the hen house, he has been in charge of warning Americans of Plagues and Diseases. If you look back since he has been in charge, he has failed MISERABLY!

**BREAKING: Dr. Fauci and Obama Admin Gave Wuhan Lab \$3.7 Million After Its Top Dr. Shi Zhenqi Had US Project Shut Down and She Was Sent Back to China**

This evil devil seemed to be a prophet in 2017 when he warned that President Trump would have to deal with a pandemic: Fauci: 'No doubt' Trump will face surprise infectious disease outbreak

He seemed awful sure of himself and I submit to you, knowing what we know now, that he is in cahoots with the globalists, namely Bill Gates, George Soros, and that wicked cabal who are out to destroy America!

**Dr. Fauci is a Roman Catholic and worse, a Jesuit! Dr. Fauci is dedicated to public service, formed at Jesuit high school** Trump also went to a Jesuit college. Now for those of you who know nothing about the Jesuits, they are a secretive group just like the Masons, having their rituals and blood oaths too. That false Prophet Pope Francis is a Jesuit and is as evil as they come. They do hide it well

though. They believe they will rule the world, and like the Muslims, they believe that they are doing God's work. Yea they are doing their god's work alright, but that false god is Lucifer! Jeremiah 48:10: "Cursed be he that doeth the work of the LORD deceitfully..."

**I came across this interesting article: Is Anthony Fauci A Freemason?**

**Medical Expert Caught Allegedly Performing 'Hidden Hand' Sign During WH Press Briefing**

Maybe but Catholics have their own good old boys club and that is the Knights of Columbus. They are just as secretive and wicked as the Masons.

What is interesting in that article is a photo of him with his hand in his jacket which is a Masons way of signaling one another.

On April 4th, when Fauci entered the WH press room and assumed his usual position behind the podium, he was seen briefly placing his left hand inside his coat jacket [Source](#)

Another interesting image is of him giving the Baphomet sign.

“‘As Above, [So] Below’ is one in the same however, as under Luciferianism, it’s about combining extremes. Pure good & pure evil. It is

believed under Luciferianism that enlightenment comes from embracing these extremes. To know Heaven you must know Hell.

“That’s what they believe. Or rather, this is what they tell themselves to justify unspeakable actions.

“Right hand simply provides cover for the left hand, to give the illusion of benevolence. [Read more here](#)

Along with being a Catholic, Jesuit, Mason and perhaps a Knights of Columbus, I am sure he is a ranking Luciferian also!!

#### **Comment:**

□ Allen Whitfield

*The Origin of the word Pandemic - Panic' comes from the name of the Greek god Pan, who supposedly sometimes caused humans to flee in unreasoning fear, which is where the commonly used sense of panic comes from. Pandemic will cause the the unwise to panic and flee for safety. The beginning of wisdom starts with the fear of God, not that of man. Educate yourselves and stop running to those that hate God or those that pretend to know him.*

**From:** Jerry...

**Sent:** Friday, May 1, 2020 11:30 AM

**To:** Scott Johnson

**Subject:** [Listener Question: Increasing Testosterone Naturally - Boron & Zinc](#)

Could you send me a bottle of Testogain? **And do you suggest anything else to increase muscle mass for a 60 year old guy who wants to lift hard?**

**Dr. Johnson's Response:** Jerry: Yes (in addition to the content I posted immediately below this), I really need to do a study on this but I am telling you I feel I have found the key to increasing testosterone. I have literally had to back off taking the two products below (especially the Boron) as mine is going too high (and I am 51 and am on zero drugs, steroids or TRT). People (Including my own daughter) think I am on steroids) and I am telling you it is just from the zinc and boron. I am not even taking the Testogain. For me the key is keeping your liver and gallbladder clean and the two products below. Testogain would only help even more. See the 2nd attachment as well but I have not added the boron info to it yet.

[Trace Minerals Liquid Ionic Boron 2 oz.](#) **If you want to increase testosterone 4-6 full droppers per day (splitting up the dosages work better)—Personally I am probably only going to do 3 full droppers per day as I can't handle a lot more, so please bare this in mind. Testosterone affects men differently.**

[Zn-Zyme Forte\(100 T\)](#) 3 a day

**To Order Email:** [drjohnson@ix.netcom.com](mailto:drjohnson@ix.netcom.com)

**From:** M

**Sent:** Sunday, February 05, 2017

**Subject:** Male Hormonal Enhancement Supplements

**What supplements (if any) do you recommend for male hormonal health/erectile dysfunction?** Your help/advice is welcome.

Thank you and God bless, M

-----

**Dr. Johnson's Comment:** I have been doing a lot of research in the area of male hormonal health recently. I have come to the conclusion you have to really do 3 things: 1) make sure the liver is clean (as that is where all the hormones in the body are processed, 2) you have to lower the estrogen levels in men as "they" are trying to do everything to feminize men with toxic estrogens called xenoestrogens and 3) you have to raise Testosterone levels. I have found some amazing products to do all this:

**For a full body cleanse with a emphasis on liver and gallbladder I recommend:**

[Livotrit Plus \(180 T\)](#) --3 capsules twice a day for one bottle which is a full one month liver and gallbladder detox

[Beta-TCP™ \(180 T\)](#) --3 capsules twice a day for one bottle which is a full one month liver and gallbladder detox

[Davinci Labs HEPATICLEAR 60 capsules](#) —Dosage: 3 capsules twice a day for three bottles which is a full one month liver and gallbladder detox

**To lower the estrogen levels:** [Douglas Labs EstroQuench 120 Capsules](#) 4 a day for the first month then 1-2 a day

**To increase Testosterone:** [Douglas Labs TestoGain 120 capsules](#) 4 a day

++ Also take: [Cytozyme Orchic \(100ct\)](#) 3 a day

**For low energy add in:** [Douglas Labs Adreno-Mend 120 capsules](#)

++For more information or to order just email Dr. Johnson at:

[drjohnson@ix.netcom.com](mailto:drjohnson@ix.netcom.com)

### **Recommend Protocol For Viruses**

**Disclaimer:** *It is your constitutional right to educate yourself in the arena of health and medical knowledge, to seek helpful information and make use of it for the benefit of you and your family. You are the one responsible for your own health. In order to make decisions in all health matters, you must educate yourself. The views and nutritional advice expressed by Dr. Scott Johnson are not intended to be a substitute for conventional medicine. If you have a severe medical condition, see a competent physician. I do not claim to "cure" disease, my goal is to help you to make physical and nutritional changes in your own body so that your body can heal itself.*

**Recommended Products Dr. Johnson Carries:**

++ **Note:** Due to being flooded with orders and major supplier issues, my inventory is changing by the day; so if the product is highlighted in green below, I do have that supplement in stock or coming in. The ones that are not highlighted I still carry, but I am not sure when I will get them. I will be updating this section often. 'Innate Response' brand is becoming harder and harder to get.

++ Note: Selenium, Vitamin C, Zinc, Calcium, Vitamin D-3 and Iodine can easily become depleted from aggressive viruses

Recommended Products Dr. Johnson Carries:

++ Please note you cannot order off the links below, they are there for purely informational purposes. For more information or how to order see further below.

**My choices of selenium:**

Innate Response Selenium 90 Tablet 28.00

Genestra Selenium CWS 0.5 fl oz (15 ml) 14.00

Trace Minerals Liquid Ionic Selenium 2 oz. 15.00

**New Se-Zyme Forte (100 T) 16.00**

**My choices of Vitamin C:**

++ I recommend that every adult take at least 6 to 12 grams of vitamin C per day (but you can go double that is you feel you are infected) for optimum dosing. Space out your dosages every 2-4 hours ideally.

Innate Response Vitamin C-400 180ct 73.00

Innate Response C-Complete Powder 81gm 31.00

Bio-C Plus 1000™ (100 T) 27.00

**New MegaFood C Defense Gummies 90 count 27.00**

**New Mixed Ascorbate Powder™ (300 g) 40.00**

**New Douglas Labs Ester C Plus 100 capsules 28.00**

**My choices of Zinc:**

Zn-Zyme Forte(100 T) 15.00

Davinci Labs ZINC LOZENGE 60(ct) Lemon Flavored 9.00

**My choices of Calcium/Magnesium products:**

Davinci Labs CAL MAG 180 tablets 23.00

Davinci Labs CAL-MAG CITRATE POWDER 30 Servings (164 gr) 4.9 oz 19.00

**New C/Cal/Mag Powder™ (220 gr) 23.00**

**New Ca/Mg-Zyme™ (Ca & Mg) (360 T) 32.00**

**New Douglas Labs Cal/Mag Citrate 250 capsules 29.00**

**Children's lines I carry that help the immune system:**

MegaFood Kids Multivitamin Soft Chew 30 count 25.00

Pharmax Chewable Vitamin D-3 90 tabs 13.00

MegaFood D3 Wellness 1000 IU Gummy 90 count 27.00

MegaFood Elderberry Immune Support Gummy 90 ct 29.00

For a excellent tasting dedicated whole food vitamin C powder for children (and adults) I recommend:

Innate Response C Complete Powder - 81 gm 31.00

**These are the Vitamin D-3 products Dr. Johnson carries:**

Innate Response Vitamin D-3 (2000 IU)- 90 count 45.00

Pharmax Chewable Vitamin D-3 90 tabs 13.00

MegaFood D3 Wellness 1000 IU Gummy 90 count 27.00

**New Davinci Labs A.D.K 60 capsules 31.00**

**New Bio-DK Caps 60ct™ 32.00**

Iodine Products Dr. Johnson carries:

**Iodoral High potency Iodine/Potassium Iodide Supplement (12.5mg iodine/iodide)- 180 tablets 57.00**

**Iodoral High Potency Iodine/Potassium Iodide Supplement (12.5mg)- 90 tablets 31.00**

**Iodoral IOD (50mg iodine/iodide)- 30 tablets 37.00**

**New Iodizyme-HP™ (120 T) 34.00**

-----  
**++** These products are very complicated to sell via an website online as they are professional products that should only be sold via health care providers. Now at the same time I make these easy to purchase, though. Sorry only US orders.

**To Order Email:** [drjohnson@ix.netcom.com](mailto:drjohnson@ix.netcom.com)

God bless!--Dr. J.

**From: John**

**Sent: Friday, March 27, 2020 7:27 PM**

**To: Scott Johnson**

**Subject: Hey bro, I'd like another bottle of 5000ppm silver at same strength...I did the nebulizer last night and when I woke up so much flem came out of my lungs, it helped so much to get it up and out to avoid pneumonia. It litterly cleared my lungs in one 5 min use last night. I mixed it at 500ppm and did 2 5 min sessions before bed spread it out. Another thing I notice is after this morning my shivers are gone... I love this silver and want to tell everyone I can about it. People have to have this product its better than any antibiotic I've taken, even intravenously. This silver if mixed and taken right can save ur life, no joke. U can treat the problem area directly!!! Praise the lord I am healed!!!**

John 12: 24-25

---

**From:** INTERNATIONAL PHARMACEUTICALS

**Sent:** Thursday, March 26, 2020 11:40 PM

**Subject:** Recommendations and Vital ALL ENCOMPASING information regarding the nCOVID-19 Virus

5 cc (1 teaspoon) of the Invive Mild Silver Protein 5000 ppm, per 30 lbs. of bodyweight (split up dosages), per day. 5000 ppm is the "General" rule in the DDR Doctors Desk Reference for the Practitioners.

These are **GUIDELINES** and are not carved in stone, **BECAUSE** each case is different. But you have to start somewhere with a Guideline, and then

Tailor the dosage to the event PRESENTION.

**BUT** it is ALWAYS necessary to "TAILOR" the dosage to the SYMPTOMOLOGY though, especially when dealing with life and death situations.

Hence one 71 year old man last week who was suffocating on his mucous from the Covid-19 and getting worse, had his Dosage upped from 1 teaspoon of 10,700 every 4 hours (as per the typed "Guidelines"), to 1 teaspoon of 10,700 EVERY HOUR, which (Praise the Lord! "Coincidentally") SAVED HIS LIFE and he is totally well (asymptomatic) now.

Therefore always "TAILOR" the dosage to the Symptomatology of the PRESENTATION. Use at least a 6 pack of the 5000 or better yet a 6 pack of the 10,700 if you can afford it. PS: We haven't raised our prices in 25 years, and only wish to continue SAVING LIVES.

**Symptoms of the Coronavirus can be very similar to the flu, BUT what to keep an eye out for "IS":**

**Symptoms of coronavirus can include:**

- Fever (100.4°F/38°C or higher)
- Cough
- Shortness of breath

**Incubation Period (Before you get sick):**

Will be 1-14 days "before" you have/show symptoms.

That means 2-9 days on average "before you have/show symptoms.

**Once you are sick:**

10 days is length of sickness (unless you succumb/die/pass away first).

**Total length of Sickness:**

14 days incubation

10 days of actual sickness/being ill

=====

24 days total length of sickness.

-----

30 days "still" in your bloodstream

=====

**For a total of 54 days**

**Damage still remaining after Recovery from the Corona Virus in many individuals:**

No sense of smell.

GI problems.

Loss of weight during the illness, with difficulty putting weight back on.

Struggle breathing as in shortness of breath from damage to your lungs.

**After 24 days/once you recover, you are to take measures to:**

- 1.) Build up/build back your lung capacity/oxygen capacity.
- 2.) Build up your whole body muscle capacity.
- 3.) Because you got "KNOCKED OUT" with a Sledgehammer.

**Editor's Note:**

Unless they break their own laws, they cannot stop us from distributing it as a Dietary Supplement BECAUSE **our particular product is "Grandfathered In" as the IDENTICAL pre-1938 Mild Silver Protein that was in all the pre 1938 Medical Journals and paper publications And indeed WAS used by most the MDs pre 1938 "before" the FDA took over/stole our food and drug supply, for the benefit of the multinational corporations.**

Your legislators continually go through the swinging door of being hired for millions of dollars by working for the multinational drug companies.

Companies whose drugs KILL over 100,000 USA citizens each year= they Kill 1 MILLION Americans every 10 years,

while our Albert Barnes 1902 Mild Silver Protein product kills no one;

AND

our MSP product is dulciment= **soothing to the tissues** and

our MSP product has **NO side effects** whatsoever (other than a herx effect/dieoff effect), and

**MSP causes NO Mutations of the pathogens** because it kills the pathogens instantly upon contact so that there are no wounded pathogen to go off and mutate into more drug resistant forms/strains, and

Our MSP product has **NO interactions with any other DRUG** and

our MSP product has **NO interactions with any other product** whether vitamin or mineral.

**This Product has been used by MDs since 1902.**

**We distribute as a Dietary Supplement**

**the SAME Product MSP Mild Silver Protein that has been used by MDs since 1902**

see <https://en.wikipedia.org/wiki/Argyrol>

From Wikipedia:

Argyrol [Mild Silver Protein] was manufactured by A.C. Barnes Company until the [Zonite Products Corporation](#) acquired the firm in 1929.<sup>[5]</sup> Argyrol products were compounded by pharmacists at various concentrations and dispensed to the public in pharmacy-labelled bottles. It was also sold in A.C. Barnes Company packaging in solutions of various strengths. A succession of pharmaceutical entities acquired Argyrol over the decades.

**Yet your MD's/legislators/politicians will not tell you about it.**

Wikipedia further states:

The silver protein molecule in Argyrol has been in use for over 100 years to date, with ample clinical data supporting the benefits and versatility of the silver protein molecule in medicine without the detriment of drug resistance. Although

**Argyrol is used as a synonym for the chemical descriptions silver vitelline and mild silver protein.**

---

### **Nebulizer Recommendation**

-----

For **lung infections** nebulize 100ppm Invive Mild Silver Protein directly into the lung fields for 3-4 minute intervals several times per day. If you want to make a 100ppm solution (and you have a 5000ppm bottle) just divide 5000 by 100 to get: 50. So you would add 50 parts distilled water to 1 part 5000ppm to make a 100ppm solution.

Regarding nebulizer recommendations just research nebulizers on Amazon for the best ones, but this looks like a great one: [https://www.amazon.com/Crane-Rechargeable-Allergies-Congestion-Irritations/dp/B07X6873BB/ref=sr\\_1\\_3?crid=2LAEU32MI4UN3&dchild=1&keywords=nebulizer&qid=1585971367&srefix=nebuli%2Caps%2C213&sr=8-3](https://www.amazon.com/Crane-Rechargeable-Allergies-Congestion-Irritations/dp/B07X6873BB/ref=sr_1_3?crid=2LAEU32MI4UN3&dchild=1&keywords=nebulizer&qid=1585971367&srefix=nebuli%2Caps%2C213&sr=8-3)

### **Are Fevers Bad?**

**From:** P

**Subject:** if you have the virus

Dr. Scott, Do you recommend taking Tylenol to break the fever (if the fever gets too high) along with colloidal silver? Some of the other doctors are recommending this.

Thank you,

-----

**Scott Johnson's Reply:** Yes I never advise this unless the fever is above 104 for an extended period of time. Fevers are a God given attribute of our immune systems designed to kill pathogens. Things like bacteria and viruses increasingly do not do well when we have an elevated body temperature. That is why we get fevers in order to "kill the bad guys" in our bodies. Also for the Covid-19 I did a report on the people that were dying in Italy and the UK, and they had almost all been taking ibuprofen prior to the virus overtaking them and them ending up in the hospital.

### **Calcium & Vitamin D-3 Is Vital For Your Immune System**

Most people are not aware of the role that **calcium** plays in our immune system. It is actually one of the chief fuels upon which our immune system runs on. White blood cells are the main tool our immune systems use to destroy foreign infectious

invaders. **White blood cells (WBC) use calcium as the main fuel to propel themselves and destroy these invaders through a process called Phagocytosis. If we don't have enough usable calcium in our body, our immune system cannot ramp up, get to and kill these foreign infectious invaders. It's like having a guided missile, with no way of getting it off the ground. Consequently, if you have a low amount of usable calcium in your system, forget about having a strong immune system. It won't happen because it can't happen. And calcium is not something that can be manufactured in the body unless we leach it from our own bones, which over time would lead to osteoporosis. One of the main signs we are deficient in Calcium during the throws of an infection, is a high body temperature or fever for an extended period of time.** A CONTROLLED fever potentiates all parts of WBC function, from formation of

them, calling them out of the storage pool first and bone marrow second, to calling them to the site they need to be, it makes them move faster, it helps them to perform their function faster as well. This is well known fact.

One of the things that got me into the alternative health field was a poorly functioning immune system. I have found one of the main components in building a strong immune system is keeping calcium reserves high in the body.

### The Borax Conspiracy

*This article is Part I of a 4-part article by Walter Last. It was the initial inspiration for David and Darrell to create Arthritis Relief. The entire article can be found under Arthritis Relief at: [www.ProductsKnowledge.info](http://www.ProductsKnowledge.info). (This should be posted by the weekend.)*

You may not be able to imagine that borax, this humble insecticide and laundry detergent, has the potential of single-handedly bringing down our entire economic system. But you do not need to worry, the danger has been recognised and the necessary steps are already being taken to defuse the situation. I will start with the basics and you will understand what I mean as the story unfolds.

Borax is a naturally-occurring and mined mineral salt and the source of other manufactured boron compounds. The main deposits are in Turkey and California. Chemical names are sodium tetraborate decahydrate, disodium tetraborate decahydrate, or simply sodium borate. This means it contains four atoms of boron as its central feature combined with two sodium atoms and ten molecules (or sometimes less) of crystallisation water. All borax is naturally mined -- there is no synthetic borax -- the difference is only how much crystallisation water it contains. Decahydrate means 10 water molecules, pentahydrate means 5 and anhydrite means 0 water; chemically it is all the same.

Therefore, borax is the sodium salt of the weak boric acid. Because sodium is more strongly alkaline, this makes a solution of borax strongly alkaline with a pH between 9 and 10 (pH 7 is neutral). When ingested, it reacts with hydrochloric acid in the stomach to form boric acid and sodium chloride. The boron content of Borax is 11.3% while for boric acid it is 17.5%, or about 50% higher. Ingested boron compounds are rapidly and nearly completely excreted with the urine. Formerly boric acid was widely used as a preservative in foods but is now banned for this purpose in most countries, and is also banned from public sale in Australia.

According to conventional medicine, it is not known if boron is essential for humans but research shows that we do need it. The reason why it was difficult to answer this question is the presence of boron in all plants and unprocessed foods. Diets with a fair amount of fruit and vegetables provide about 2 to 5 mg of boron per day, but this also depends on the region where the food was grown and how it was grown.

In reality the average intake in developed countries is 1-2 mg of boron per day. Institutionalized patients may receive only 0.25 mg of daily boron. Chemical fertilizers inhibit the uptake of boron from the soil: an organic apple grown in good soil may have 20 mg boron, but if grown with fertilizer it may have only 1 mg of boron. Fertilizers combined with poor food choices have greatly reduced our boron intake compared to 50 or 100 years ago.

Further, unhealthy cooking methods greatly reduce the availability of boron from food. The cooking water of vegetables containing most of the minerals may be discarded during home cooking or commercial processing; phytic acid in baked goods, cereals and cooked legumes may greatly reduce availability, while gluten sensitivity and Candida overgrowth inhibit the absorption of minerals. All this makes health problems due to boron deficiency now very common.

### **Health Effects of Boron**

Due to their content of boron, borax and boric acid have basically the same health effects, with good antiseptic, antifungal and antiviral properties but only mild antibacterial action. In plants as well as animals boron is essential for the integrity and function of cell walls and the way signals are transmitted across membranes.

Boron is distributed throughout the body with the highest concentration in the parathyroid glands, followed by bones and dental enamel. It is essential for healthy bone and joint function, regulating the absorption and metabolism of calcium, magnesium and phosphorus through its influence on the parathyroid glands. Boron is for the parathyroids what iodine is for the thyroid.

Boron deficiency causes the parathyroids to become overactive, releasing too much parathyroid hormone which raises the blood level of calcium by releasing calcium from bones and teeth. This then leads to osteoarthritis and other forms of arthritis, osteoporosis and tooth decay. With advancing age high blood levels of calcium lead to calcification of soft tissues causing muscle contractions and stiffness; calcification of endocrine glands, especially the pineal gland and the ovaries; arteriosclerosis, kidney stones, and calcification of the kidneys ultimately leading to kidney failure. Boron deficiency combined with magnesium deficiency is especially damaging to the bones and teeth.

Boron affects the metabolism of steroid hormones, and especially of sex hormones. It increases low testosterone levels in men and oestrogen levels in menopausal women. It also has a role in converting vitamin D to its active form, thus increasing calcium uptake and deposition into bone and teeth rather than causing soft tissue to calcify. Also other beneficial effects have been reported such as improvement of heart problems, vision, psoriasis, balance, memory and cognition.

The German cancer researcher Dr. Paul-Gerhard Seeger has shown that cancer commonly starts with the deterioration of cell membranes. As boron is essential for cell membranes and boron deficiency widespread, this may be an important cause for the initiation of tumour growth. Boron compounds have anti-tumour properties and are "potent anti-osteoporotic, anti-inflammatory, hypolipemic, anti-coagulant and anti-neoplastic agents."

This overview shows the wide-ranging influence of boron on our health. In the following I want to describe some of these health effects in greater detail.

### **The Arthritis Cure of Rex Newnham**

In the 1960's Rex Newnham, Ph.D., D.O., N.D, developed arthritis. At that time he was a soil and plant scientist in Perth, Western Australia. Conventional drugs did not help, so he looked for the cause into the chemistry of plants. He realized that plants in that area were rather mineral deficient. Knowing that boron aids calcium metabolism in plants, he decided to try it. He started taking 30 mg of borax a day, and in three weeks all pain, swelling and stiffness had disappeared.

He told public health and medical school authorities about his discovery, but they were not interested. However, some people with arthritis were delighted, as they improved. Others were scared to take something with a poison label on the container and meant to kill cockroaches and ants. Eventually he had tablets made with a safe and effective quantity of borax.

Within five years and only by word of mouth, he sold 10,000 bottles a month. He could no longer cope and asked a drug company to market it. That was a major mistake. They indicated that this would replace more expensive drugs and reduce their profits. It so happened that they had representatives on government health committees and arranged that in 1981 Australia instituted a regulation that declared boron and its compounds to be poisons in any concentration. He was fined \$1,000 for selling a poison, and this successfully stopped his arthritis cure from spreading in Australia.

Subsequently, he published several scientific papers on borax and arthritis. One was a double-blind trial in the mid 1980's at the Royal Melbourne Hospital which showed that 70% of those who completed the trial were greatly improved. Only 12% improved when on placebo. There were no negative side-effects, but some reported that their heart ailment had also improved and there was better general health and less tiredness.

Most of his later research was devoted to the relationship between soil boron levels and arthritis. He found, for instance, that the traditional sugar cane islands, due to long-term heavy use of fertilizers, have very low soil-boron levels. Jamaica has the lowest level, and arthritis rates are about 70%. He noted that even most dogs were limping. Next comes Mauritius with very low boron levels and 50% arthritis. The daily boron intake in these countries is less than 1 mg / day. An interesting comparison is between Indian and native Fijians. The Indians are estimated to have an arthritis rate of about 40% and eat much rice grown with fertilizer while the native Fijians with an estimated arthritis rate of 10% eat mainly starchy root vegetables grown privately without fertilizer.

The US, England, Australia and New Zealand generally have average soil-boron levels with an estimated intake of 1 to 2 mg of boron and arthritis rates of about 20%. But Carnarvon in Western Australia has high boron levels in soil and water, and the arthritis rate is only 1%. It is similar in a place called Ngawha Springs in New Zealand with very high boron levels in the spa water which is curative for arthritis. Actually all spas reputedly curing arthritis have very high boron levels. These are also high in Israel with an estimated daily boron intake of 5 to 8 mg and only 0.5 - 1% arthritis.

Bone analyses showed that arthritic joints and nearby bones had only half the boron content of healthy joints. Equally, synovial fluid that lubricates joints and provides nutrients to the cartilage is boron-deficient in arthritic joints. After boron supplementation bones, were much harder than normal and surgeons found them more difficult to saw through. With additional boron, bone fractures heal in about half the normal time in both man and animal. Horses and dogs with broken legs, or even a broken pelvis, have fully recovered.

Borax is also effective with other forms of arthritis, such as Rheumatoid Arthritis, Juvenile Arthritis, and Lupus (Systemic Lupus Erythematosus). For instance Dr Newnham saw a young girl -- aged 9 months -- with juvenile arthritis. He was able to cure her in 2 weeks.

He wrote that commonly people can get rid of their pain, swelling and stiffness in about 1 to 3 months. Then they can reduce treatment from 3 to 1 boron tablet (each 3 mg) per day as a maintenance dose so that they can avoid any future arthritis. He also stated that patients with rheumatoid arthritis commonly experienced a Herxheimer reaction and that this is always a good prognostic sign. They must persevere and in another 2 or 3 weeks the pain, swelling and stiffness will be gone.

I found this statement not only interesting but also surprising. The Herxheimer reaction is an early aggravation of symptoms with increased pain. It is commonly due to toxins released by killed *Candida* and *Mycoplasma*. This is very common with antimicrobial therapy, and borax definitely is an exceptionally good and strong fungicide. What surprises me, however, is that this fungicidal effect is already present at this rather low dose of 75 to 90 mg of borax. Equally surprising is the finding that also up to 30% of those with osteoarthritis experienced a Herxheimer reaction, suggesting that the border between osteoarthritis and rheumatoid arthritis is rather fluid. I believe that in long-standing and especially-resistant cases, it will be advisable to use other antimicrobials in addition. For co-factors in arthritis treatment also see my article *Arthritis and Rheumatism* or the booklet *Overcoming Arthritis*.

### **Osteoporosis and Sex Hormones**

Boron deficiency causes greatly increased amounts of calcium and magnesium to be lost with the urine. A borax supplement will reduce the daily loss of calcium by nearly 50%. As this calcium comes mainly from resorbed bone and teeth, boron deficiency may be the most important factor in causing osteoporosis and tooth decay.

It has been estimated that 55% of Americans over 50 have osteoporosis and of these about 80% are women. Worldwide 1 in 3 women and 1 in 12 men over the age of 50 may have osteoporosis, and this is responsible for millions of fractures each year. Rats with osteoporosis were given a boron supplement for 30 days with the result that their bone quality was now comparable with that of the healthy control group and of a group supplemented with oestradiol.

The beneficial effect of borax on bones seems to be due to two interrelated effects: a higher boron content of the bones which makes them harder and a normalisation of sex hormones which stimulates the growth of new bone. Low oestrogen levels after menopause are thought to be the main reason why so many older women develop osteoporosis. In men, testosterone levels decline more gradually which seems to be reflected in their later onset of osteoporosis as a group.

Research has now shown that boron supplementation in post-menopausal women doubles the blood level of the most active form of oestrogen, 17-beta oestradiol, to the level found in women on oestrogen replacement therapy. Equally, the blood levels of testosterone more than doubled. With HRT there is a higher risk of breast or endometrial cancer which is not known to happen with hormones produced by the body as with borax supplementation.

Some women get premenstrual problems because oestrogen levels are too high and progesterone too low, and therefore may be afraid of using boron. However, I found no evidence that boron raises oestrogen above normal healthy levels. Boron may balance levels of sex hormones similar to the action of maca root powder. Maca acts on the pituitary gland not only to increase but also to balance our sex hormones and seems to stimulate our own progesterone production as needed.

A recent study in younger men (29 - 50) showed that the level of free testosterone (the form that matters most) had risen by one third after daily supplementation of about 100 mg of borax for one week. This is of special interest for bodybuilders.

Contrary to the medical preference of chemically castrating men with prostate cancer, research with boron has shown that elevated testosterone levels are beneficial by shrinking prostate tumours and PSA levels, PSA being a marker for tumours and inflammation in the prostate. Also significantly improved memory and cognition in elderly individuals may be partly due to increased levels of sex hormones and partly to improved membrane functions of brain cells.

I have been asked about boron supplementation for women with oestrogen-sensitive breast cancer. Breast cancer is related to calcifications in the breast. In my opinion it is more important to normalize the calcium-magnesium metabolism and cellular membrane functions rather than feel restricted by a possibly faulty medical concept, especially as I believe that cancer can usually be controlled with long-term antimicrobial therapy. Therefore I would use boron as well as maca in this case. -Walter Last

In reply to Jennybeans of Regina:,  
Please read the link to borax at the top of this page. It tells you how to take it, and yes, you can take it through your skin. Borax is one of those wonderful remedies that does no harm when taken at the recommended dose and as advised in the link above.  
Advert

Question posted by Jennybeans of Regina, SK, Canada on 26 September 2016 at 4:43 4284

Yes, I have the same question - does it work internally as well as externally as a foot soak? I don't want surgery.

Comment posted by David Niven Miller of Perth, WA, Australia on 7 January 2015 at 13:27 3124

Reply to Victoria of Brisbane:  
A tiny amount of borax on a fingertip is a remedy that has been used for over a century - in fact, since the first borax was mined. However, it is not an accurate way to measure how much borax to take. Please read the link at the top of this page "Borax as a source of boron". This is the way I take my borax. It also explains what to expect from this wonderful natural remedy.

---

## **BORAX BACKGROUND**

"Curious to know why borax is one of the most important remedies to kill fungus and nano-bacteria? Us too! We asked our independent contributor from Bangkok for clarification on why borax is an important home remedy to consider in certain cases like dog mange, lupus and rosacea.

Ted's response: "There are a lot of evidence why borax is effective against nearly all forms of fungus, whether they be mycoplasma found in lupus, rosacea, dog mange, interstitial cystitis plasmodium parasites, Morgellons disease, or even pneumonia. I think borax medicine is one of the medicines most ignored, misinformed or even suppressed in our present society. The authorities have done it so well that very few know that the toxicity of borax is about equal to that of simple table salt.

I have seen almost daily, people dying of pneumonia (James Brown died a couple of days ago), a Thai actor got his brains eaten by a plasmodium, for example. The possible cure is relatively simple: borax. Every time I see people dying, borax always come to mind, and you probably see why. Even health experts such as Dr. Batmanhelidj (Your Body Cries for Water) got pneumonia, as so did Bob Hope and Buddy Ebsen

(Beverly HillBilly). I think pneumonia kills just as many people, it's just that cancer and heart disease take greater billboard area. Because of the way the medical system is structured, heart disease and cancer is more profitable, and a simple magnesium and pH may have helped both problems in prevention and possibly cure (I have seen this on many occasions) for a lot less cost.

Below is one of the many interesting articles concerning borax, which mentions the use of borax against fungus, a well known fact amongst microbiologists but totally unknown to the public.

The second article mentions about the use of borax against the dreaded an incurable plasmodium related organism, a common parasites in human. Never mind about its own effectiveness when combined with hydrogen peroxide in the use of dog mange! Ted"

PIONEER MAGAZINE

### **Borax Versus Killer Fungus**

January 1994

Conifer forests are threatened all over the northern hemisphere by the tiny, ubiquitous spores of a naturally occurring fungus called *Heterobasidion annosum*. This disease, better known as Fomes, has reached epidemic proportions in Scandinavia, and is a growing menace in the managed forests of Canada, United States, Britain, and Russia. Fomes rots the roots and heartwood of growing trees. It could be called the acid rain of the fungus world.

Supporting the UK's Forestry Commission, Borax Group scientists Kieran Quill and Jeff Lloyd are fighting back against Fomes, and discovering how to do so with maximum effectiveness and economy. Their principal weapons are Tim-bor (disodium octaborate tetrahydrate) and the analytical capacity of the Borax Research laboratories.

Fomes cannot live freely in soil nor can it infect live trees except through root contact or wounds. Its spores however can colonize freshly cut stumps - both the "thinnings" which are essential as forests mature and the stumps left when the crop is finally felled.

The spores are produced by hoof-shaped fruiting bodies near ground level at a daily rate of about six million per square centimeter. Because these spores can be dispersed over distances of at least 300 miles, Fomes can be considered ubiquitous in most managed forests. Once established the fungus can remain viable in a stump for decades, posing a continuous threat to any conifer growing or planted near it. Fomes can survive both extreme cold and extreme heat.

But how are healthy trees infected? Fomes spores germinate on the stump surface, whence the fungus gradually colonizes the root system of the felled tree. From there it enters the root systems of living trees that are in contact with the stump's roots, causing both roots and heartwood to decay, eventually killing the tree.

The fungus is almost impossible to eradicate, except by the removal of all stumps soon after felling - an expensive and rarely practicable option. However, germination of spores on the surface of stumps can be stopped by chemical and biological agents. In the past, this has been carried out manually by the tree feller, but now with increasing mechanization, the requirements have changed. Today a material is needed that can be sprayed automatically onto the stump while the harvesting machine is actually severing the tree. The material must give value for money, be easy to obtain, have low mammalian toxicity, be non-corrosive and environmentally benign.

Among several fungicides tested, borates have consistently given good control. Tim-bor (known as Tim-Bor® in North America) and borax are the only chemicals to have EPA approval for the control of Fomes in the U.S. However materials that are effective over large areas of North America may behave differently in northern Europe where rainfall, climatic conditions and forest management techniques could result in a completely different set of disease and control characteristics. In the light of this, the UK Forestry Commission and the Borax Group have carried out trials in Scotland with the object of determining borate efficacy. What is the threshold at which Tim-bor becomes toxic to the fungus? How little will do the trick?

Undiseased Sitka spruce near Peebles, Scotland were felled and their stumps were treated with Tim-bor at four percent, two percent, one percent, 0.5 percent, or with water. Twenty-four hours later Fomes was applied dropwise by hypodermic syringe. The stumps were left to mature for a year, during which time samples of wood were regularly extracted with a core borer for borate analysis. At the end of a year, the amount of stump colonized by Fomes was measured on a one inch thick disc cut from a standard depth. Each disc was incubated at 10°C to 15°C for ten days.

During incubation, fruiting structures of the fungus emerge from infected wood. These can be seen quite easily under a dissecting microscope, and allow any diseased zones of the stump to be mapped. A comparison of the measured diseased areas on the sample discs provides a means of judging the success of a particular treatment.

All analytical work for the project was carried out at the Borax Research laboratories in Chessington (UK).

The results from this experiment indicate that at a borate concentration of around four percent, the mean area of infected heartwood was reduced from 22 percent to less than 0.5 percent. This represented less than one square centimeter, an insignificant inoculum. However, at concentrations of two percent and below, no significant control occurred. In an earlier experiment it was found that a concentration of five percent totally prevented infection. So a working concentration of four to five percent of Tim-bor is indicated for full disease control.

As a result of this research, Tim-bor is being assessed for full commercial application by the UK Forestry Commission, and has aroused widespread interest across Europe."

### **Of Cabbages And Things**

February 1999

Plasmodiophora brassicae are nasty little beasts of uncertain origins. They may relate to the protozoa, single celled organisms which are neither plants nor animals, and are only a few thousandths of a millimeter wide and long. Most of their relatives in this microscopic world are harmless, but some distant cousins are Plasmodium species, which cause malaria in humans and Amoeba species which cause dysentery.

Plasmodiophora brassicae's parasitic way of life is to attack vegetables of the brassica family, causing the debilitating clubroot disease. Now, evidence is emerging that boron might play an important part in keeping its effects in check.

Crops of the brassica family are of enormous worldwide importance. Arguably they are second only to cereals in their contribution to human diet and welfare. They range from the cabbages, cauliflowers, calabrese and brussels sprouts familiar in the western

world, to a wide array of leafy and root vegetables widespread in India, China and Japan. The Chinese cabbage, for example, is one of the most important foodstuffs of the Orient. Much of the world supply of vegetable oil comes from rape and mustard seed, while swedes (rutabagas) and turnips are important animal fodder crops in Europe and North America.

There wouldn't be much of a problem hosting a parasite like Plasmodiophora if it didn't have such rampant and dire side effects. In clubroot disease, the plant roots are distorted by massive galls, which inhibit water and nutrient uptake. The grossly deformed roots sap carbohydrates from the leaves and deprive developing flowers. The foliage turns bluish-green, then yellow and then wilts: the plant is past the point of no return and nothing can restore it to health.

Not surprisingly, this is responsible for drastic crop losses and poor quality. It is also virtually impossible, certainly in intensively-farmed regimes, to eradicate the parasite from the soil in which it spends much of its lifecycle.

When Plasmodiophora spores germinate in the soil, the tiny organisms swim around and as soon as they meet a root hair they attach and inject their own cell contents into the root. The genetic material multiplies inside the plant, and it is believed that this presence upsets the host hormone metabolism and leads to uncontrolled cell growth - almost a plant cancer. Once established and now mature, the parasites release billions of new spores back into the soil. It is a very robust lifecycle which is almost impossible to break.

There are clues too that Plasmodiophora may incorporate DNA from the host - perhaps a reason why biological control methods or genetically- induced protection methods have not yet been found. The traditional ways of controlling Plasmodiophora, either heavy liming (that is, adding quantities of calcium), alternative crop rotations or better soil drainage, similarly have only limited effect.

This is where boron comes in. The element is an essential plant nutrient, and it is well known that boron-healthy plants are better able to resist disease-causing organisms. In the case of brassicas, the important thing is to give the plant a head start, and certainly enough boron to begin with can help it resist clubroot.

But this doesn't fully explain why crops which enjoy good boron availability seem to be able to resist clubroot significantly better. Researchers, led by Professor Geoffrey Dixon of the Department of Bioscience and Biotechnology at the University of Strathclyde, Scotland, UK have been looking into this puzzle.

They started out with three possible ideas. Does boron somehow reduce the potency of the clubroot invader directly in the soil? Might it encourage the growth and activity of soil microbes which then prey on the Plasmodiophora before they attack? Or does it actually fight the invasion or its effects within the plant itself?

The team now suspects it is actually the latter. For boron, which contributes so much for so little to plant metabolism, seems not to do the same for the parasitic protozoan. Indeed it works in the opposite way and actually slows down the lifecycle.

What boron and, less strongly, calcium (from heavy liming) seem to do is to reduce the rate at which the invaders mature inside the root and turn into secondary sporangiophores - the ones that cause the damage - whose mission is to release new generations into the outside subterranean world. Boron apparently doesn't stop the initial invasion, but puts the harmful metamorphosis into slow motion.

Whether boron is altering the biochemical environment inside the root to make it Plasmodiophora-unfriendly, or is encouraging the plant to retaliate is not yet clear. But the effect is the same. Brassicas are given more, and often enough time to mature and establish effective roots before clubroot tumors wreak their damage.

A 15-year long series of experiments conducted by the Strathclyde team has convincingly demonstrated that a specific application of boron to the seedlings at transplanting does indeed reduce the onset of clubroot symptoms and hence protects crop yields to a significant degree.

Species by species, brassicas vary in their susceptibility to boron deficiency, but generally they are rated as vulnerable to low boron levels for general growth and health: boron supplementation is, then, important anyway.

But the new message for growers is that, in the right amount and at the right time, it keeps clubroot in check."

## What Boron May Do For You

*Arthritis Relief is our new boron supplement and it is specially-priced through this Sunday along with our herbal extracts.*

Boron is a trace mineral which is important for strong bones. However, it is often ignored in health maintenance and combating disease. It metabolizes magnesium, phosphorous and calcium. This specific element plays a huge role in preventing osteoporosis and utilizing additional important minerals and vitamin D. Your body structure is reliant on strong bones, and boron helps to avoid the aging effect on the bones.

Boron may be understood as a general health enhancer, and we may not yet know the full spectrum of its influence.

Here are some known conditions that have been improved by boron supplementation.

- Arthritis
- Osteoporosis
- Aging
- Menopausal symptoms
- Sex hormones
- Allergies
- Parasites
- Candida Albicans
- Lupus Erythematosus

While boron is an effective treatment for 95% or more in the relief of arthritis (provided the joint has not completely deteriorated) its range of action extends beyond that. It works very well in alleviating arthritis, partly due to its crucial role of calcium integration into the cartilage and bone. This is important for all of us as we age, even if we do not have arthritis. Aging is partly associated with weakening of the bones as they become

increasingly porous -- adequate boron can prevent this aging effect.

For instance, an elderly lady began to take boron daily a few months before her operation for an artificial hip that had been scheduled before she started to take the boron. The surgeon found that he could not use the usual saw for cutting the bone in the hip replacement surgery; the bone was just too hard, like that of a young person, so he had to use a stronger saw to do the job.

It seems that those who are under 60 years of age with arthritis will see results the first month of boron supplementation while those in their 60's will notice relief in the second month. For those over 70 years of age, it may take 3 months of supplementation to get the desired results.

### **Animals**

Boron will usually help animals with arthritis. Farm animals that graze may develop a boron deficiency simply because the land is boron deficient. Dogs and horses commonly experience arthritis and may well be helped with supplementation.

### **Menopausal Symptoms and Sex Hormones**

Boron is essential for estrogen production and can have a rapid effect in helping menopausal women.

It may quickly reduce hot flashes. Boron may bring the sex drive back, even if it's been absent for years.

Minerals and trace-elements get to the 'bottom of things' so to speak; they are often the missing link and can be extremely effective. "Boron raises the level of natural sex hormones in the body and so would eliminate the need for HRT or hormone replacement therapy," states Dr. Rex E. Newnham. Zinc is also important for sex hormones for both sexes.

### **Allergies and Parasites**

Because boron will overcome the symptoms of 95% of arthritis, including rheumatoid arthritis, Dr. Newnham speculates that allergies that are involved especially with rheumatoid arthritis are probably being reduced by boron.

Prof. Roger Wyburn-Mason identified certain amoebae that parasitized the joints of rheumatoid arthritis sufferers. Dr. Newnham states that boron can control these parasites. He discusses the role of infection and parasites further in his book, **Beating Arthritis & Beating Osteoporosis**. Rheumatoid arthritis sufferers often experience the Herxheimer reaction for a week or so after starting boron. This causes a temporary worsening of the arthritis and is due to die-off from the parasites that enter into the blood prior to elimination by the white blood cells.

### **Boron and Systemic Candida**

Boron can help overcome Candida Albicans, according to Dr. Newnham, but other measures are also needed such as a good probiotic, an immune rebuilder such as Tiaga

Extract, Moringa powder or Sweet Wheat; and anti-fungals such as Tiaga Extract, Herbal Tonic, Cleansing Tea and Living Clay. (Organa Mineral Drink is a builder and detoxifier and naturally contains boron.) With Candida, a restrictive diet is also important.

### **Other Issues**

In his book Dr. Newnham gives an account of a retired lady with congestive heart failure and arthritis. After only 2 months on the boron, both her arthritis and her congestive heart failure were considerably improved.

Dr. Newnham heard of a case of hay fever that was greatly improved with boron. This is understandable if we consider that the improvement in calcium metabolism alone, for which much of boron's action is centered on, will tend to calm the system, tending to reduce allergies and the auto-immune reactions involved in many health conditions -- not just arthritis. Boron will help to incorporate all the other minerals into the bones reports Dr. Newnham, "so it is not unreasonable to assume that boron may also help with the correct cellular uptake of minerals and trace elements into the cells.

### **Boron and Fluoride**

Fluoride in the form added to tap water and toothpaste is hazardous to our health. It is industrial waste that someone is making money on by selling to those who add it to our water systems. Fluoride in sea water and trace mineral supplements is in a form and combination with all the other minerals and trace elements that renders it non-toxic.

According to Dr. Newnham, boron will inactivate fluoride in the body, forming a harmless compound.

### **Therapeutic Usage**

For arthritis and other deficiency symptoms that may be linked to other health conditions, Dr. Newnham recommends 10 mgs. Some populations have as much as 30 mg a day in their diet with only good effects; in most western countries the soils are grossly deficient.
