### Are Fevers Bad?

From: P

Subject: if you have the virus

Dr. Scott, Do you recommend taking Tylenol to break the fever (if the fever gets too high) along with colloidal silver? Some of the other doctors are recommending this.

Thank you,

-----

**Scott Johnson's Reply:** Yes I never advise this unless the fever is above 104 for an extended period of time. Fevers are a God given attribute of our immune systems designed to kill pathogens. Things like bacteria and viruses increasingly do not do well when we have an elevated body temperature. That is why we get fevers in order to "kill the bad guys" in our bodies. Also for the Covid-19 I did a report on the people that were dying in Italy and the UK, and they had almost all been taking ibuprofen prior to the virus overtaking them and them ending up in the hospital.

### Calcium & Vitamin D-3 Is Vital For Your Immune System

Most people are not aware of the role that **calcium** plays in our immune system. It is actually one of the chief fuels upon which our immune system runs on. White blood cells are the main tool our immune systems use to destroy foreign infectious invaders. **White blood cells (WBC) use calcium as the main fuel to propel themselves and destroy these invaders through a process called Phagocytosis.** If we don't have enough usable calcium in our body, our immune system cannot ramp up, get to and kill these foreign infectious invaders. It's like having a guided missile, with no way of getting it off the ground. Consequently, if you have a low amount of usable calcium in your system, forget about having a strong immune system. It won't happen because it can't happen. And calcium is not something that can be manufactured in the body unless we leach it from our own bones, which over time would lead to osteoporosis. **One of the main signs we are deficient in Calcium during the throws of an infection, is a high body temperature or fever for an extended period of time.** A CONTROLLED fever potentiates all parts of WBC function, from formation of them, calling

them out of the storage pool first and bone marrow second, to calling them to the site they need to be, it makes them move faster, it helps them to perform their function faster as well. This is well known fact.

One of the things that got me into the alternative health field was a poorly functioning immune system. I have found one of the main components in building a strong immune system is keeping calcium reserves high in the body.

### Calcium & Vitamin D-3 Is Vital For Your Immune System

Most people are not aware of the role that calcium plays in our immune system. It is actually one of the chief fuels upon which our immune system runs on. White blood cells are the main tool our immune systems use to destroy foreign infectious invaders. One of the main signs we are deficient in Calcium during the throws of an infection, is a high body temperature or fever. One of the things that got me into the alternative health field was a poorly functioning immune system. I have found one of the main components in building a strong immune system is keeping calcium reserves high in the body. As sufficient stomach acid is essential for the breakdown of not only calcium but protein, iron and several other trace minerals. If low stomach acid is a factor, [Hydro-Zyme \(90 T\)](#) or [Hydro-Zyme \(250 T\)](#) should be taken with the Calcium and with food. Or as an alternative taking 1-2 tsp. with the calcium should do the trick. One other thing that is important when talking about calcium is the Omega-3 fatty acids which are high in flaxseed oil. You see the omega-3 fatty acids in flaxseed oil are necessary for healthy cell membranes and to transport calcium into the white blood cells, where the calcium is used to support cell motility (movement) and phagocytosis (killing the foreign infectious invaders). Of the Omega 3 good fats, flax seed oil is very important. For this I recommend [Genestra Organic Flax Oil Capsules 90 Softgels](#), as flax is a very volatile oil and spoils very easily. It is a risky proposition buying flax oil off the shelf as usually there is no way to verify quality. This is also an excellent protocol for skin protection as Calcium and Omega 3 fatty acids are essential in preserving and protecting the skin. Now if I feel I may be getting run down, I will increase my dosage of these two products until my system is back in balance. If these products are taken in conjunction with a good whole food multi-vitamin mineral product like [Intramax or the Innate Once Daily formulas](#) you should be in pretty good shape.

For **lung infections** nebulize 100ppm Invive Mild Silver Protien directly into the lung fields for 3-4 minute intervals several times per day. If you want to make a 100ppm solution (and you have a 5000ppm bottle) just divide 5000 by 100 to get: 50. So you would add 50 parts distilled water to 1 part 5000ppm to make a 100ppm solution.

Regarding nebulizer recommendations just research nebulizers on Amazon for the best ones, but this looks like a great one: <https://www.amazon.com/Crane-Rechargeable-Allergies-Congestion->

[Irritations/dp/B07X6873BB/ref=sr\\_1\\_3?crd=2LAEU32MI4UN3&dchild=1&keywords=nebulizer&qid=1585971367&sprefix=nebuli%2Caps%2C213&sr=8-3](http://irritations/dp/B07X6873BB/ref=sr_1_3?crd=2LAEU32MI4UN3&dchild=1&keywords=nebulizer&qid=1585971367&sprefix=nebuli%2Caps%2C213&sr=8-3)

Now with a **sinus infection** the best way to directly go after this is to get any nasal spray atomizer bottle (**Like this one:** <http://sparknaturals.com/index.php/accessories/1oz-blue-glass-nasal-sprayer.html> ) and add 500ppm silver to the bottle. Now to make the 500ppm just add 10 parts distilled water to one part 5000ppm. This will be the strength you use in a nasal spray bottle. One drop of eucalyptus oil to this 500ppm solution is also very good for nasal use. When you use the 500ppm in the nasal spray bottle make sure you tip your head back and spray 3-5 times per nasal passage. You can do this several times per day. You would also want to take 1/4 tsp. of the 5000ppm held under the tongue 3 times a day until you are doing better.

For **Otitis Media (ear infections)** (if your ear drops are not ruptured) you need to dilute the Invive Silver to 500ppm for the ear drops. To make this strength from 5000ppm just add 10 drops of distilled water to every one drop of 5000ppm. Use 3-4 drops in each ear 2-3 times per day till better. In reality I really like just plain old 3% Hydrogen Peroxide for ear infections 2-3 drops in each ear. Tilt the head and hold this dose in each ear for 1-2 minutes before tilting your head back. It will bubble and be quite loud and may burn a little so sometimes children are afraid of the Hydrogen Peroxide whereas the silver should not bubble or hurt at all. For an 8 year old I would administer the 5000ppm silver under the tongue 15-20 drops 3 times a day (hold for 2-3 minutes then swallow) to treat the ear infection internally as well.

For an **eye infection like Pink Eye** only use the 50ppm Invive Mild Silver Protein Strength. One drop in each eye 3-4 times a day typically works wonders.

To make the **AG Cream (AKA Silver Cream)** get some Aloe Vera gel and add drops of the 5,000 ppm silver to the gel to the point just before it starts to liquefy.

#### **Invive Silver Dosing Chart for children/babies**

**Maximum dosage in case of a severe infection:** 5 cc's of the 5000ppm Invive Mild Silver Protein per 30 lbs Bodyweight. 5cc = 1tsp. That means a 30 lb. child receives 5 cc in total per day, **in divided doses** of 1.2 cc q.i.d. (or 4 times a day)

A 10 lb. baby receives 2 cc **in total per day**, in divided doses of 1.6 cc total per day.

In this case (2cc's) that means 7 (drops) Q.I.D. (or 4 times a day)

Q.I.D.= 28 drops total per day divided by 4 = 7 minims (drops) sublingually every 6 hours.

### **Symptoms of coronavirus infections almost perfectly mirror symptoms of zinc deficiency**

Writing for LewRockwell.com, [Bill Sardi writes](#) that all the most prominent signs of COVID-19 almost perfectly mirror symptoms of zinc deficiency. From his article:

...[M]odern medicine is so steeped in its pharmacy of prescription drugs, with its blinders toward nutritional medicine, that it can't see the obvious evidences of a trace mineral deficiency that results in the same signs and symptoms produced by COVID-19 coronavirus.

He publishes this list of COVID-19 symptoms vs. symptoms of zinc deficiency:

<b>Symptoms of COVID-19 Reported by Emergency Room Physician</b>	<b>Symptoms of Zinc Deficiency</b>
Dry cough	Chronic cough
Nausea w/o vomiting	Nausea
Fever	Fever
Back pain (kidney?)	Chronic pain (low back, neck)
Abdominal discomfort	Abdominal cramping
Diarrhea	Loose stool
Loss of smell	Altered/loss of taste and smell
Loss of appetite	Anorexia (loss of appetite), weight loss
Fatigue	Apathy
Atrial fibrillation (new)	Atrial fibrillation
Low lymphocytes (white blood cells)	Decreased immunity
Lower platelets (blood clotting factor)	Low platelets
Neutrophil count/lymphocytes	Lymphocytes decline (white blood cells)
Interleukin-6 (inflammation)	Increased interleukin-6
Pneumonia (fluid filled lung)	Pneumonia
Inflammatory (cytokine) storm	Inflammation
Elevated iron storage (ferritin)	Increased storage, transport of iron
Elevated C-Reactive Protein	Increased C-Reactive Protein

He further writes:

*Dr. James Robb, a pathologist who performed early experiments with coronaviruses back in the 1970s, claims that zinc lozenges are the "silver bullet against coronavirus."*

*Zinc is required to [maintain thymus gland function to produce life-long antibodies from T-memory cells.](#)*

*[Zinc supplementation in the elderly, the high-risk group of coronavirus Infections, lowers illness markedly.](#) [Modern medicine needs to emphasize zinc therapy, especially during epidemics.](#)*

In summary, it looks like zinc might be the single most important preventive measure, possibly in combination with chloroquine, to **halt the spread of the coronavirus pandemic** and get the economies of the world back to work.

And that's why the tech giants (Google, Twitter, Facebook, YouTube, etc.) as well as the corporate-run media will continue to censor all truth about zinc and chloroquine, because they actively hope to spread this pandemic and collapse the global economy.

The best forms of zinc to consume as a dietary supplement are zinc gluconate, picolinate and acetate, by the way. Avoid zinc oxide, as it's almost impossible to absorb.

Beyond manufacturing medical masks and ventilators, we believe **President Trump should order emergency production of zinc supplementation**, making it widely available (perhaps at zero cost) to the entire population. This could substantially slow the spread of the virus and potentially save hundreds of thousands of lives in the USA alone.

[On the Connection Between Graphene Oxide Found in "Covid Vaccines", Electromagnetic Fields, Blood Clots & Severe "Covid" Symptoms | How to Remove Graphene Oxide From the Body - Truth Comes to Light](#)

Many are already aware of the work that the team of Spanish researchers that make up [La Quinta Columna](#) have been doing.

Pay attention to this finding: Graphene oxide inside the body causes thrombogenicity. Thrombogenicity refers to the tendency of a material in contact with the blood **to produce a thrombus, or clot**. It not only refers to fixed thrombi **but also to emboli, which are thrombi which have become detached and travel through the bloodstream**. Graphene oxide inside the body causes blood clotting. Graphene oxide inside the body causes post inflammatory syndrome or systemic or multi-organ inflammations. Graphene oxide inside the body when it is above the levels of glutathione —which is one of the body's natural reserves of antioxidants—, causes alteration of the immune system, collapse of the immune system and cytokine storm. Inhaled graphene oxide spreads evenly throughout the alveolar tract and causes bilateral pneumonias. Inhaled graphene oxide causes inflammation of the mucous membranes and thus loss of taste and smell, possible loss of taste and smell: anosmia. In short, graphene oxide behaves exactly like the supposed SARS-CoV-2 of the official version, generating the same symptomatology of severe COVID-19. When installed at the neuronal level, it causes neurodegeneration or, in other words, neurological COVID-19.

So, from here we started to see what possible compounds, drugs and treatments could degrade graphene oxide. And look what we found: N-acetylcysteine or glutathione administered degrade it. Because what glutathione does is counteract free radicals and oxidants, all the toxins that can enter the body.

And we discovered that there were about 300 clinical studies where certain hospitals and certain universities were using N-acetylcysteine with incredible results.

These are the two sizes Dr. Johnson carries:

[Pure Encapsulations NAC 900 Mg. 120 capsules \\$42.00](#)

[Pure Encapsulations NAC 900 Mg. 240 capsules \\$74.00](#)

For example, 100 patients with saturation levels below 50% practically dead —bluntly speaking—, with bilateral pneumonias, within an hour of intravenous glutathione or N-acetylcysteine administration they recovered. They were taken off ventilators and everything.

Given that to date there is no scientific evidence of an actual sequencing and isolation of SARS-CoV-2, we suspect with many credible indications that COVID-19 disease is actually the side effect of the introduction of graphene oxide into the body by different ways.

And I say 'different ways' because, although they were withdrawn at the time, masks containing graphene oxide nanoparticles have been introduced and are still being marketed. These masks have been introduced and are still being marketed by companies such as Nanografi, so we have masks with graphene oxide, but also graphene oxide nanoparticles introduced in PCR tests; graphene oxide is also present in antigen tests; hydrogels also contain graphene oxide nanoparticles; intranasal vaccines also, since graphene oxide in aerosols is more potent, as is the supposed SARS-CoV-2. Intranasal vaccines are also prepared, for example, by Turkey. They are made by Nanografi for COVID-19 and influenza.

We know that, naturally, graphene oxide is eliminated by the levels of glutathione in the body, and that is why we suspect that they propose a second, third and even fourth dose every so often: so that you have your considerable dose of graphene oxide. In short, we are talking about the simultaneous and gradual mass poisoning of the entire world population.

We are talking about a crime against humanity with the complicity of governments or at least their participation.

When we study glutathione, we realize that it begins to fall from the age of 30 onwards, but above all it falls considerably from the age of 65 onwards. In fact, COVID-19 takes a heavier toll on older people, apart from those who are immunocompromised and have other pathologies. When we study glutathione, we realize that children have high glutathione reserves because of their youth, and the COVID-19 disease itself hardly has an impact on children. Similarly, glutathione is especially low in the obese population and we realize that it is precisely the obese who are most affected by COVID-19. We realize that glutathione is related to vitamin D. Low levels of glutathione contribute to low levels of vitamin D, and it is precisely patients with COVID-19 who have low levels of vitamin D.

Everything that we have subsequently studied only further increases and corroborates the hypothesis that the supposed SARS-CoV-2 of the official version is precisely the graphene oxide. And that all the elements of the supposed protection, that we have been given: masks, PCR tests, swabs, antigen tests

and vaccine — are precisely all those elements that will potentially cause the disease to develop in the future.

And why do I say 'in the future'? When we studied the electromagnetic phenomenon we realized that graphene oxide has what is called an 'electronic absorption band'. The electronic excitation, its magnetic resonance is precisely in the third bandwidth of the 5G technology, the one that is being implemented right now and that has been with us throughout the scandemic.

Incredibly, we are narrating a science fiction movie, but believe me, today nanoscience, neuroscience and biotechnology have advanced tremendously. Can a person be controlled or neurocontrolled remotely wirelessly? Yes, it can be done and it is probably being done in a disguised way, and that may explain some of the anomalous behavioral behavior of the population, especially those who have been inoculated or who have received doses of graphene oxide by different ways.

**Product Description:** Ionic Fulvic Acid is a rich, concentrated liquid dietary supplement that provides 250mg of fulvic acid solution per serving, plus concentrated, 72 full-spectrum ionic trace minerals. Fulvic acid may help support and maintain healthy functions in the body, including the following: digestion, pH balance, energy production, hydration, cellular integrity, enzyme activity, muscle endurance and stamina. Non GMO, Certified Vegan, Gluten Free.

Rated America's #1 Trace Mineral Brand.

3rd party tested to give you the highest quality products.

We use the best manufacturing practices to keep you safe.

With a degree in Biological Science I can testify to the extraordinary benefits of fulvic acid in plant and mammalian metabolic functions. This product is for my personal use. If you take vitamins or eat food you need fulvic acid for best absorption of the active ingredients. Fulvic acid is an organic chelating agent, which is a material that helps molecular nutrients (or drugs) move through cell walls better.

Pine tea also kills parasites.*** Below, find a full podcast and video that reveals two extraction methods, both of which are simple, low-tech, low-cost methods that can be used almost anywhere.

**Fresh pine needles from appropriate trees have been used for centuries as sources of vitamin C and other phytochemicals that Native Americans used to treat respiratory infections and other ailments. Vitamin C is a known cure for scurvy, as scurvy is a disease of vitamin C deficiency. Pine needles contain many other substances that appear to reduce platelet aggregation in the blood, potentially preventing blood clots that lead to strokes, heart attacks and pulmonary embolism diagnoses. (See published science sources below.)**

**[Pine Needle Tea](#)**

You can make pine needle tea two ways. One is to pull three or four needles off a tree and stick them in a cup of hot water. Wait a few minutes then enjoy with or without sweetener.

Or collected a handful of pine needles. Needles nearest the trunk are higher in Vitamin C. Chop the needles and put them into a tea ball. Bring water to a boil. Take off the boil. Steep the pine needles for 3-5 minutes. The tea is delicate.
