Relocating to the US states that are the least restrictive regarding Covid may be something that you are lead to do: [List of Coronavirus-Related Restrictions in Every State](#)

++SLIMY TACTICS LAW FIRMS USE TO DENY YOUR RELIGIOUS EXEMPTION!-- If you missed it, you can [replay it!](#) Yesterday's class was all about these criminal (anti) law firms coercing and conspiring with your employers to deny your religious exemptions. It's absolutely criminal. Watch this one again and again and take notes! Show them that you know what they're up to and equip yourself with all the remedies available for you at [The Healthy American](#). Join me today, live at 3pm pst on my [youtube channel](#) for round 2! Today's class will be all about invoking your rights under Title 7 as a federal employee and/or government contractor. Sign on and ask questions, share your thoughts, and connect with me and all the Healthy Americans around the nation tuning in for the same reason you are: FREEDOM!

Employer's Mandating Vaccinations as a condition for employment?

1. SIDNEY POWELL RESOURCE

When you hear that EEOC guidance says "your employer can require you to get a vaccine," this is false/ mistaken: EUAs have to have the Option to Refuse and the right to Informed Consent for EUAs. The EEOC's guidance updated on May 28, 2021, only states that "federal EEO laws do not prevent an employer from requiring all employees physically entering the workplace to be vaccinated..."[1] It does not address 21 USCS § 360bbb-3, which relates to EUAs and the option to refuse.

This is called a word game or word salad.

There is Potential Liability on Employers or Universities that Mandate Vaccines if an Employee or Student suffers any Side Effects or Death from a mandatory EUA vaccine.

[I Was Fired From My Teaching Job for Refusing to Get Vaccinated — Here's How I Prepared](#)

By [Joshua Mawhorter](#)

Until recently, I was a California teacher working in two charter schools, one as a full-time classroom teacher of Government/Economics and sometimes U.S. History, and the other as a part-time independent study teacher who assists families with a program primarily based around homeschooling. I have taught for about five years and love teaching.

Last week, I was fired from one school and put on unpaid administrative leave at the other because of my refusal either to take and demonstrate proof of the COVID-19 vaccine or test weekly. I even filed a religious exemption [stating the following](#) that was rejected:

“As a committed follower of Christ, I religiously and philosophically cannot submit to either a government vaccine mandate or weekly testing.

These violate fundamental first principles including the Biblical purview of civil government relative to God (Romans 13:1-7; Acts 5:29), the Christian value of freedom of conscience since “whatever is not from faith is sin” (Romans 14:23), the fact that my body is owned and dedicated to the Lord (1 Corinthians 6:20) and not to the state, and my sacred duty to be faithful to oaths sworn (Deuteronomy 23:21; Matthew 5:33-37), including the oath to support the U.S. Constitution and the California State Constitution.

Footnote: Both a vaccine mandate and weekly testing are in violation of the provisions of the Constitution in the 1st, 4th, 9th, and 10th Amendments, especially the 9th Amendment which states, “The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.” The Supreme Court has affirmed a constitutional right to privacy historically in *Griswold v. Connecticut* (1965). Since I am bound by solemn oath to support the Constitution(s), I can neither submit to nor support a vaccine mandate or weekly testing because to do so would violate conscience.”

Based on my refusal to back down on these principles, I was offered two options—the opportunity to resign or be terminated.

In order to force the issue, I chose to maintain my position, refusing to resign; so I was terminated. My situation was sort of the mirror opposite of the old joke-adage, “You can’t fire me, I quit!”

Instead, I basically said to my employers, “I can’t quit, you fire me.” Not everybody is in the position to force the issue, but I am. And I felt I had no choice.

It would be incongruous with what I consistently teach my students; for me to back down, in a matter of rights, liberty, and principles. A quote, often [misattributed](#) to Thomas Jefferson, but nevertheless true, applies, “In matters of style, swim with the current; in matters of principle, stand like a rock.”

I hope I would still have the character to stand by my principles even if my situation was more dire. However, there are some concrete actions and disciplines which protect me now.

First, an emergency fund that can cover 3-6 months of expenses. Second, I have no debt. Third, my expenses are minimal. Fourth, I possess plenty of social

capital—that is, positive social relationships with family, friends, and my community.

I encourage every reader to follow these disciplines and practices as soon as possible because, when the time comes to stand for principles, these are just a few things that can help you do so with confidence. Personally, over the next year, I will take this as an opportunity to become completely self-employed and help other people to find financial freedom because, as we know, it is inextricably connected with personal and political freedom.

There is a great freedom in the ability to say no and walk away. Of all the pressures that make situations like this difficult, financial pressure is often one of the most challenging. It has rightly been said that finances are 20 percent knowledge and 80 percent behavior. A monthly budget is essential in this regard. Contrary to popular belief, a budget is not just a constraint but rather taking full control of your money by knowing exactly how each dollar is being spent.

As [the saying goes](#), a budget is simply telling your money where to go, versus wondering where it went. This gives people a sense of ownership, control, and empowerment. A budget involves the regular discipline of saying no to ourselves so that, if and when the time comes, we can say no when our workplaces attempt to implement policies and expect us to comply because of the financial pressure. Additionally, in order to protect yourself, [Dave Ramsey recommends](#) building a \$1,000 emergency fund and paying off all debt (minus real estate), then building up savings that cover 3-6 months of expenses.

A little bit of discipline today can lead to freedom tomorrow—and the ability to walk away (even from a job you love) when your conscience demands it.

Threats, Mandates, & Coercion—How Should we Biblically respond? Pastors Matt Trewhella and Sam Rohrer

Practical tools for standing up to COVID-19 vaccine mandates

People across our nation are being faced with an impossible choice – violate their sincerely held religious beliefs by taking an abortion-derived COVID-19 injection, or lose their livelihoods, their careers, and their opportunity for education. How can we, as Christians, take a principled stand as we navigate COVID-19 vaccine mandates, which are an unprecedented attack on our civil and religious liberties? Here are some practical resources and tools we hope will help.

Go to: <https://personhood.org/2021/09/16/practical-tools-for-standing-up-to-covid-19-vaccine-mandates/>

++ The group [America's Frontline Doctors](#) argues are advising as long as they're able to avoid doing so, 'Americans should not quit their jobs' over this madness. And prepare instead to be fired over it.

As the mandates are increasing and the “deadlines” fast approach, YOU SHOULD NOT QUIT YOUR JOB. Do not be fooled if your boss says you must resign. Make your boss fire you and do not sign anything or agree to anything that says otherwise. Do not agree with “voluntary resignation.” If you are fired, you are eligible for unemployment. Anything else and you are not.

If you are fired, you place the costs back on them and you get or you fight for unemployment benefits (or get a good attorney & sue them). Let them experience the burden associated with their choices. Avail yourself of any government dollars that have gone to support those previously unwilling to work. Use all tools and resources you can including the CDC's unlawful mandate to halt rents, etc. We suspect you ordinarily would not take advantage of these systems, but these are extraordinary times.

In the last 18 months we have watched the Communists in America radically change the definition of simple words in their efforts to strip away our rights. Words such as “vaccine,” “herd immunity,” and “cases” have literally been redefined by the Communists to support this power grab. By changing the traditional definition of just four words, these usurpers were able to create, in the

minds of the media and the public, a frightening global emergency. Do not allow these tyrants to crush what remains of your rights. Do not “agree” to be fired.

Legal Resources

If you find yourself in a predicament with a company that refuses to hear you out, does not provide you with required information, or threatens termination of your employment, here are a few potential resources for attorneys:

- America’s Frontline Doctors (AFLDS): AFLDS provides an intake form on their site that you can fill out and submit; they will search for an attorney in your area who is taking on this type of case. There is a small fee for the search, and of course, attorneys have their own fees. On July 19, 2021, AFLDS also filed a motion seeking immediate injunctive relief to halt administration of EUA Covid-19 injections to anyone age 18 and younger; anyone who has recovered from Covid; and all Americans who have not

received informed consent as defined by federal law.

<https://www.americasfrontlinedoctors.org/legal/vaccines-the-law>

https://americasfrontlinedoctors.org/press_releases/aflds-files-lawsuit-seeking-immediate-injunctive-relief-revoking-the-emergency-use-of-covid-19-vaccines-based-on-disturbing-new-mortality-data/

- Health Freedom Defense Fund: This nonprofit is working to address unethical and unlawful mask, testing, and vaccine mandates through focused legal actions. Resources for employees include a Notice to Employers (“Vaccine Notice”) that compulsory Covid-19 vaccination imposed by employers on employees violates federal law.
- <https://healthfreedomdefense.org/resources/>
- Informed Consent Action Network (ICAN): ICAN’s legal team is offering to assist employees who are being required by an employer to receive Covid-19 injections.
<https://childrenshealthdefense.org/defender/forced-to-get-covid-vaccine-ican-may-be-able-to-help/>.
- State-level: If you find yourself needing an attorney for a vaccine injury case, you can try looking through this state list: <https://uscfc.uscourts.gov/sites/default/files/Vaccine%20Attorneys.pdf>.

Excellent counsel for those facing the threat of termination of employment because your company's mandatory requirement for you to take the experimental jab!

The secret is NOT to refuse the job and do not sign anything!

From a lawyer (anonymous):

If you are being forced to Vax in order to keep your job, here's a great way to handle it. (Conditional acceptance)

The secret is NOT to refuse it.

“I write with regard to the matter of potential covid vaccine and my desire to be fully informed and appraised of ALL facts before going ahead I'd be most grateful if you could please provide the following information, in accordance with statutory legal requirements.”:

1. Can you please advise the approved legal status of any vaccine and if it is experimental?
2. Can you please provide details and assurances that the vaccine has been fully, independently and rigorously tested against control groups and the subsequent outcomes of those tests?
3. Can you please advise the entire list of contents of the vaccine I am to receive and if any are toxic to the body?
4. Can you please fully advise of all the adverse reactions associated with this vaccine since it's introduction?
5. Can you please confirm that the vaccine you are advocating is NOT experimental mRNA gene altering therapy?
6. Can you please confirm that I will not be under any duress from yourselves as my employers, in compliance with the Nuremberg Code?
7. Can you please advise me of the likely risk of fatality, should I be unfortunate to contract Covid 19 and the likelihood of recovery?
8. Can you please advise me if I were to experience any adverse reactions is the manufacturer of the vaccine liable? If the manufacturer isn't liable will the company I'm currently employed with with be responsible & liable as it is their request that I have the vaccine in order to carry on my employment?

Once I have received the above information in full and I am satisfied that there is **NO threat to my health**, I will be happy to accept your offer to receive the treatment, but with certain conditions – namely that:

1. You confirm in writing that I will suffer no harm.
2. Following acceptance of this, the offer must be signed by a fully qualified doctor who will take full legal and financial responsibility for any injuries occurring to myself, and/or from any interactions by authorized personnel

regarding these procedures.

3. In the event that I should have to decline the offer of vaccination, please confirm that it will not compromise my position and that I will not suffer prejudice and discrimination as a result?

I would also advise that my inalienable rights are reserved.

The point is that if they CANNOT provide that information you've NOT refused.

MUST-READ: A 3-part explainer on COVID-19 vaccines and mandates

Despite what our public health authorities assert, the efficacy of currently available COVID-19 vaccines is inferior to that of natural immunity and in the presence of variants. The vaccines are essentially security blankets, lending people a sense of comfort, but in reality, providing incomplete and unsatisfactory protection from the virus. Yet, alarmingly, these experimental medicines are the subject of mandates and unprecedented measures of coercion.

It is critical that you are informed as to the actual risks and benefits of the COVID-19 vaccines and what you can do to push back against the coming wave of mandates.

In this 3-part series, "*COVID-19 Vaccine Mandates Are Medically Futile, Likely Illegal*," Dr. Alan Moy discusses the medical and ethical dangers of COVID-19 vaccines, the legal implications for employers and schools who force them, and what you can do to stand against medical tyranny.

[PART 1: A primer on vaccine science](#)

[PART 2: Efficacy overstated, hazards understated](#)

[PART 3: Strategies for combating mandates](#)

Personhood Alliance offers religious exemption form for COVID vaccines

Over the past few months, we have received numerous requests for guidance on obtaining religious, moral, and ethical exemptions from the available COVID vaccines. People are deeply concerned, rightly so, that more and more businesses and colleges are requiring vaccination in exchange for employment and access to education.

Denying people the right to make personal, moral medical decisions based on their sincerely held beliefs is wrong. Vaccination must remain an individual choice.

In response, the Personhood Alliance has published a tool called "*Religious, Moral, and Ethical Exemption from COVID Vaccination Requirements*" to provide practical help in addressing the wave of COVID vaccine mandates—vaccines that were produced using aborted fetal cell lines, tested using aborted fetal cell lines, or both.

We encourage you to use this form and share it with others who are seeking guidance. As an option, you can also add the signature of your pastor or priest.

Please share the form and our press release with your social network. Thank you!

[Good News: New OSHA Guidelines: Employers That Mandate COVID Vaccines May Be Held Liable for "Any Adverse Reaction"](#)

New OSHA guidance holds employers liable for adverse reactions if they require employees be vaccinated for COVID as a condition of employment, which could negatively impact the employer's safety rating.

New guidance from the Occupational Safety and Health Administration ([OSHA](#)) is making employers think twice about their [COVID vaccine](#) requirements.

On April 20, companies were [put on notice](#) **they'll be responsible for any adverse reaction should they require their employees be vaccinated with a COVID vaccine.**

In the [Frequently Asked Questions](#) section of OSHA's website having to do with COVID safety compliance, a question was asked whether an adverse reaction to a COVID vaccine had to be recorded if an [employer mandated vaccination](#) as a condition for employment.

OSHA [stated](#):

"If you require your employees to be vaccinated as a condition of employment (i.e., for work-related reasons), **then any adverse reaction to the COVID-19**

vaccine is work-related. The adverse reaction is recordable if it is a new case under 29 CFR 1904.6 and meets one or more of the general recording criteria in 29 CFR 1904.7.”

THE HEALTHY AMERICAN.ORG

and CANNOT deny entry based on vaccination status

BUSINESSES CANNOT LEGALLY ASK FOR PROOF OF VACCINATION

THIS IS A VIOLATION OF YOUR PRIVACY AND PROPERTY RIGHTS AS PROTECTED BY STATE AND FEDERAL LAW

The Fourth Amendment of the U.S. Constitution states, "The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated."

Any person who violates your rights can be held liable under Title 18 USC Section 242, deprivation of rights. Penalty for this crime can include life in prison or death penalty.

Title III of the U.S. Civil Rights Act prohibits discrimination based on medical condition (i.e. unvaccinated) in private businesses such as grocery stores, banks, restaurants, hotels, retail stores and all public facilities including schools.

It is ILLEGAL to require proof of vaccination as a condition for entry or service to any private business or public establishment.

<https://youtu.be/b7YNPgddEA4>

Federal law prohibits mandates of emergency use COVID vaccines, tests, masks — 3 resources you can use to inform your school or employer

With more than 100 U.S. colleges mandating COVID vaccines for in-person attendance and schools enforcing mask mandates, it's critical people understand their rights.

(Article by Aimee Villella McBride and Stephanie Locricchio republished from ChildrensHealthDefense.org)

The bottom line is this: mandating products authorized for [Emergency Use Authorization status](#) (EUA) violates federal law as detailed in the following [legal notifications](#).

All COVID vaccines, [COVID PCR and antigen tests](#), and masks are merely EUA-authorized, not approved or licensed, by the federal government. Long-term safety and [efficacy](#) have not been proven.

EUA products are by definition [experimental](#), which requires people be given the right to refuse them. Under the [Nuremberg Code](#), the foundation of ethical medicine, no one may be coerced to participate in a medical experiment. [Consent of the individual](#) is “absolutely essential.”

Listener Comment: Documents from Catherine Austin Fitts legal team to be used by anyone [employee/student] who is being forced to take the injection--It switches the issue of liability from the manufacturer [who has been granted federal and state(?) immunity] to the entity forcing the injection by way of coercion and/or negligence

She has done her homework and positions the issue in terms of constitutional violations, acknowledgement of the health risks and the agreement to provide financial resources if the coerced individual is harmed by the injection. In other words--I'll comply, if you agree that you are aware of the civil and criminal violations, & agree to provide all the assistance necessary to remediate any and all injuries--and understand that I am signing this under duress.

People should print these out and submit them to any entity trying to force them to accept this illegal experimental injection of unknown constituents.

[Do Not Comply with the Covid SCAMdemic mandates--DIGGING YOUR OWN GRAVE](#)

You have the right of "No Consent" to medical interventions! My in-box was flooded with messages from parents frantic over hearing that colleges and universities would be requiring the Covid vaccine in the fall.

Friends, why are you relying on the headlines? The mainstream media is there to stir you up into a frenzy.

You need to dig deeper. Or, watch the videos where I dig deeper.

Remember:

- Covid vaccines are not approved by the FDA.**
- Covid vaccines have an "emergency use authorization" (EUA).**
- That means the covid vaccines are medical experiments.**
- Masks and covid tests are also medical experiments.**

- No one can force you or your child to participate in a medical experiment.
- You have the right to refuse consent.
- Medical and religious exemptions to covid vaccines, masks and tests must be accommodated by law.

WATCH my NEW VIDEO below to see why and how to be exempt from covid vaccines

CEASE & DESIST ALL COVID-19 VACCINE MANDATES

“Experimental COVID-19 vaccines have not gone through the full Food and Drug Administration (FDA) approval process, and are authorized for Emergency Use only. According to FDA 21 U.S. Code § 360bbb-3 “Authorization for Medical Products for Use in Emergencies”, medical products which have been granted Emergency Use Authorization **may not be compulsory and MUST BE VOLUNTARY only AFTER FULL INFORMED CONSENT**. Thus, mandate of experimental COVID-19 vaccines, or any pressure or coercion to consent to them, VIOLATES FEDERAL LAW..

Private businesses are **LIABLE** for **DAMAGES** caused by the experimental shots if employees are not given **FULL FREEDOM of choice without threat of consequences**. Government officials who impose **COVID-19 vaccine mandates** can be held personally **LIABLE FOR VIOLATING FEDERAL LAW**, which requires voluntary and full informed consent to any product marketed under the Emergency Use Authorization.”

NEW MEXICO STANDS UP!
SETTING LEGAL PRECEDENTS TO FREE A NATION

From: Leo

Sent: Wednesday, March 10, 2021 1:13 PM

Subject: Hi Scott, What I'm really writing about is another heads up. I was recently

watching an interview with Spiro Skouras of the Activist Post interviewing Ana Garner, an attorney from New Mexico. She has filed the first case in the U.S. challenging an employers right to mandate a vax and terminate an employee who refuses. This is big and it could go all the way to the Supreme Court. Lots of potential ramifications could come out of this. What really caught my attention though (as if that wasn't enough) is another case that she has in process. This is a different strategy on the challenges to governors and the tyranny that seems to be getting worse. It addresses the problems why lawsuits all over the country are failing. The court just says that this is an emergency. This lawsuit and one other in the state of Ohio are challenging that and saying that there is no emergency. These are the only two such cases currently active in the U.S. Ohio filed first. Pam Popper is a doctor who is fighting medical tyranny. She's also a co-founder of Wellness Forum Health as well as Make Americans Free Again (and more). This lawsuit has the potential to change quite a few things including stripping "Emergency Use Authorization" from this injectable gene therapy which is illegally being called a vaccine in order to illegally bypass FDA regs. It could also potentially end all of these "emergency mandates". There is a mountain of evidence that there is no emergency. New Mexico case was filed next and according to Pam, it is a better case because of the ongoing research and prep work. The leads counsels in both cases are working together and are willing to share with others who are looking to file similar cases in other states. Ideally, in would be great if there were similar actions in process in all 50 states.

Organizations involved include: [Ohio Stands Up.org](http://OhioStandsUp.org) [New Mexico Stands Up.org](http://NewMexicoStandsUp.org) [Make Americans Free Again.com](http://MakeAmericansFreeAgain.com)

It's worth having a look at some of this and possibly including it in one of your newsletters so that more people become aware. Just one more possible way of fighting the incredible evil that is rising everywhere. Leo

[For Anyone Contemplating Taking Any Covid-19 Vaccination Please Go Through This Information & Checklist--So You Can Know You Have Performed Proper Due Diligence--FAMILY FINANCIAL DISCLOSURE FORM FOR COVID-19 INJECTIONS ~ March 1, 2021 ~\(View as PDF\)](#)

Disclaimer: This form is provided to facilitate effective family due diligence, communication, and planning. It is essential that each person and each family take responsibility to identify and access the information they believe to be most relevant to their situation and decisions, and take responsibility to assess and manage their individual and collective risk as they believe best.

Introduction

The goal of this Family Financial Form is to ensure that an adverse event or death of one family member does not translate into long-lived or permanent financial destruction for the entire family.

This form was created to assist families to communicate regarding and to prepare for the family-wide financial impact of adverse events, if any, resulting from a Covid-19 injection. Examples of adverse events from Covid-19 injections include Covid-19 infection; anaphylaxis; neurological disorders; autoimmune disorders; other long-term chronic diseases; blindness and deafness; infertility, fetal damage, miscarriage, and stillbirth; and death (see Table 1 for examples of each). Traditionally, informed consent forms for vaccination do not provide disclosure or statistics related to financial costs of possible injury, disability, or death, nor do they discuss the impact on family time, resources, health, and wealth—impacts that may include reduced career potential, divorce, and effects on siblings' education and future plans.

Consequently, it is essential that prior to receiving a Covid-19 injection, parents and family members with financial responsibility for children and spouses not only perform thorough due diligence—providing adequate disclosures to their families regarding the potential costs to family members of adverse events or death—but also take steps to protect themselves and family members from the material adverse financial consequences of an adverse event or death.

[Health freedom advocates file informed consent lawsuit to exempt all persons from mandatory vaccination](#)

Attorneys Greg Glaser and Ray Flores are taking on the vaccine industry with a [new lawsuit](#). If successful, all Americans will have the right to exempt themselves from forced vaccination if they so choose, regardless of the reason.

While Americans are already protected under the Constitution from unsolicited invasion of bodily autonomy by the government, the suit seeks to reiterate and reestablish this in the specific context of vaccines.

On Feb. 22, Glaser and Flores will appear in Federal Court to request a court order recognizing the role that vaccines play in the children's health epidemic and exempting all persons from mandatory vaccination. It also aims to emphasize the importance of real control group studies that compare the health outcomes of vaccinated versus unvaccinated.

Images of the court documents as filed are available at [this link](#).

One of them shows that unvaccinated adults enjoy 1,248 percent better health than vaccinated adults. Similarly, unvaccinated children enjoy 1,099 percent better health than vaccinated children. (RELATED: [This study](#) came to similar conclusions.)

++[About Informed Vaccine Consent: Frank Shallenberger, MD, HMD](#) | Principia Scientific Intl. “Dear Patients and Friends, I must have been asked 20 times about the new COVID vaccines. Here are my thoughts. Please pass this information onto many as you can. People need to have fully informed consent when it comes to injecting foreign genetic material into their bodies” The COVID vaccines are mRNA vaccines. mRNA vaccines are a completely new type of vaccine. No mRNA vaccine has ever been licensed for human use before. In essence, we have absolutely no idea what to expect from this vaccine. We have no idea if it will be effective or safe.

Subject: Federal Lawsuit for Mask Mandates Attached

Go to: <https://fraudstoppers.org/free-federal-covid-19-face-mask-mandate-lawsuit/>

Hi Scott. I paid one of my paralegals to draft the attached federal lawsuit.

Currently one of my associates is updating it and improving it. But for now lets get this in the hands of everyone.

As soon as the updated version is done I'll send it to you.

In about 2 weeks we will have a federal lawsuit ready for people who are facing foreclosure or eviction to sue the state governors in their personal capacity for causing this economic crisis.

Let everyone know we can help them sue for damages (with or without an attorney) and we can do the professional mediation if they want to sue to settle.

If any of your folks join our program we will give them a \$100 discount and we will donate \$47 to your ministry.

Just tell your folks to use coupon code: **truth**

This is the coupon code I just created for you.

*"He has told you, O man, what is good:
and what does the LORD require of you
but to do justice, and to love kindness,
and to walk humbly with your God."*

Micah 6:8

Nearly 40 States Require Face Masks. But Is It Constitutional? Louisiana Attorney General Jeff Landry, a Republican, issued a 9-page opinion against Governor Bel Edwards' mask order because it is "likely unconstitutional and unenforceable" and that the mandate cannot be enforced without facing financial or criminal penalties. He said the governor has no power to turn an executive order (which is an directive to government employees under him) into a law, which applies to citizens. According to Landry, companies and police that try to enforce the mandate, under color of law could face liability if individual civil rights are violated because of it. Landry concluded: "The mask mandate flatly violates due process, separation of powers, the delegation clause, state public accommodation anti-discrimination law, and it is unenforceable." –GEG

Attorneys Fight for Constitutional Rights Against Tyranny

Vaccines Can Be Mandated but Not Imposed by Force

Alert Reader sends this — note that the Supreme Court maintained the standard of individual sovereignty over their body. Vaccines can be mandated but not imposed by force. Uses of Jacobson v Massachusetts in the Age of Bioterror

ROBERT STEELE: Vaccines have never been tested and the eradication of liability for those making, selling, and mandating vaccines is itself a crime against humanity long overdue for challenge. The vaccine court is unconstitutional and should be abolished. The Nuremberg protocols need to be applied to all medical experiments and that includes vaccines and masks.

From a constitutional lawyer: Kris Anne Hall

Current Federal and State law...

You do NOT have to stay home.

You do NOT have to close your business.

You are NOT restricted in your travels.

You are NOT banned from religious assembly.

These are NOT laws, as a law must be passed by your state legislature. And, of course, this has not happened in any of our 50 states.

These following orders are UNLAWFUL “orders”:

Stay at home,

Close your business,

Don't go to church,

Practice social distancing,

Wear a mask,

No interstate travel etc etc.

These are NOT laws that can carry any kind of criminal penalty for violation. They are at best ONLY guidelines for "suggestion". These "orders" carry NO legitimate force of law with which to back them up.

No governor nor mayor may craft a law and assign a punishment for its non-compliance.

They can't.

And, even if one of these tyrants tries to do so, such orders or actions would then be profoundly unconstitutional and a solid basis for compensation to "anyone affected" by them.

The Free Exercise Clause of the First 1st Amendment firmly establishes freedom of religion as a fundamental liberty, and the Due Process Clause of the Fifth 5th Amendment firmly establishes your right to purchase a lawful product in interstate commerce from a willing seller as "fundamental".

Fundamental liberties are in the highest category of liberty, akin to freedom of conscience and speech and press and privacy and travel.

Right to Congregate/Assemble

Per the First 1ST Amendment to the United States Constitution:

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances."

Right to Travel:

DESPITE ACTIONS OF POLICE AND LOCAL COURTS, HIGHER COURTS HAVE RULED THAT CITIZENS HAVE A RIGHT TO TRAVEL!!!

Per our 14TH Amendment to the United States Constitution (abridged):

"The right of a citizen to travel upon the public highways and to transport his property thereon in the ordinary course of life and business is a common right which he has under his right to enjoy life and liberty, to acquire and possess property, and to pursue happiness and safety. It includes the right in so doing to use the ordinary and usual conveyances of the day."

Stopping a tyrannical overthrow of the United States and the World, the stripping of our Liberties & Freedoms begins with you. Do your part and stand up for yourself before you no longer have a self to stand up for!!!

These are the facts.. Stop letting tyrants lie to you. Call them what they really are = Tyrants.US ☐ 🗙 🗙

Printable [Face Mask Exemptions – Examining The Reality We've Been Sold](#)

I am exempt from any ordinance requiring the use of a face mask. Wearing a face mask poses a mental and/or physical risk to me.

Under the Americans with Disabilities Act, I am not required to disclose my medical conditions.

DEPARTMENT OF JUSTICE A.D.A. VIOLATION REPORTING NUMBER:
800-514-0301

Violating the A.D.A. can incur steep penalties. A fine of \$75,000 may be imposed for initial violation; \$150,000 for subsequent violations.

Wearing a face mask is far more hazardous than the threat of coronavirus. Covering your nose and mouth forces you to inhale carbon dioxide constantly, limiting your oxygen intake.

Hypoxia (oxygen deprivation) impairs body functions, including brain activity. The oral bacteria that builds up inside your mask is another health hazard. Excessive oral bacteria harms tissues of the mouth, **including gums and throat as well as teeth.**

Your mouth needs constant air flow to stay healthy.
A clean mouth = disease prevention.

**THIS IS THE MASK NEEDED
TO PREVENT VIRUS INHALATION
AND ABSORPTION THROUGH THE EYES**

THIS IS A MIND CONTROL DEVICE

And for an extremely thorough/legally binding mask exemption go to:
