+1+ PRAYER TO NEUTRALIZE OCCULT RITUALS

Father God in the name of the Lord Jesus Christ, the Lamb that was slain before the foundation of the earth, seated at the right hand of the Father; we come in the authority given to us in Christ Jesus. **We place a hedge of warring angels with flaming swords of fire around us and our families continuously. We put on the**

whole armor of God. We resist and renounce Satan, the god of this earth. We rise to war by the power of the Holy Spirit against witchcraft, occult maneuvers and devices sent against Your Will and the Body of Christ. We ask you to dispatch legions of warring angels in full battle array to enforce our petitions and intercessory prayers. Rout your enemies on all fronts. Turn their hatred, anger, accusations, conflict, arrogance and wicked schemes upon themselves so that they become caught in their own snares and fall into the pits that they intended for others. We nullify, cancel and oppose every satanic operation, scheme, maneuver and strategy. Cause secret plans, agendas and motivation of the enemy to be revealed for everyone to see. We decree and declare that what these evil people & entities meant for evil, you will turn it around and use it for the good of your people. We close every evil portal that has been opened by them. In the name of the Lord Jesus Christ and His shed blood, we break and cancel every curse, spell, hex, vex, charm, enchantment, decree spoken or unspoken, sent against the Body of Christ, the innocent and your intercessors by every witch, warlock, satanist, sorcerer, voodoo priest, shaman, soothsayer, medium, coven and every minion of the devil working iniquity. May they fall into the very pits they have dug for others. Lord Jesus, reveal your love to them. Save those that can be saved. Show them the truth about who they are serving, and their eternal destination if they continue in their present path. Open their minds, eyes and ears to receive supernatural insight and knowledge to understand the truth of the Gospel. Bring them to salvation. We seal this prayer by the Blood of the Lamb and in the name of the LORD Jesus Christ. Amen.

British Queen "Is Not Human" According To The

Official Royal Website

February 27, 2020 A few days ago I stumbled upon an article with the headline “Queen Elizabeth ‘Is Not Human’ – Confirmed By Buckingham Palace”. Of course this piqued my interest and my first impression was “surely not!”

As I scrolled the page, I noticed screenshots of the article in question on the official royal.uk website.

<<Here they are

My initial thoughts when seeing these screenshots were “hmmm, why on earth would the official Royal website publish such an article?” “Surely not!” The headline states:

“Queen Seen By Her Subjects In A Different Form”

It goes on to say:

“Earlier this week, the Queen was seen by thousands of people in a form they are not acquainted with.”

It goes on to say:

“While she may not be human, she is a devoted leader and Monarch...”

The article clearly states that the Queen changes forms and is not human.

However, the million dollar question is: “Is this fake or is it really an authentic screenshot taken from the official Royal website?”

Notice that on the screenshot there is a URL (webpage address).

The screenshot shows a web browser window with the address bar containing the URL <https://www.royal.uk/queen-seen-different-form-2016>. Below the browser window is a Wayback Machine interface. The Wayback Machine logo is visible, along with a search bar containing the same URL. A calendar view shows the page was saved 7 times between July 5, 2016, and August 19, 2019. The interface is currently loading, displaying the URL <https://www.royal.uk/queen-seen-different-form-2016> and the timestamp 10:14:30 August 19, 2019. A message indicates "Got an HTTP 301 response at crawl time" and "Redirecting to..." followed by the URL <https://www.royal.uk/>. The footer of the Wayback Machine interface includes the text: "The Wayback Machine is an initiative of the Internet Archive, a 501(c)(3) non-profit, building a digital library of Internet sites and other cultural artifacts in digital form. Other projects include Open Library & archive-it.org. Your use of the Wayback Machine is subject to the Internet Archive's Terms of Use."

Naturally, I typed this url into my address bar. I figured that if this exact page appeared in front of me on the Queen’s own website then it’s game over! Try this for yourself. No, the page I was expecting did NOT appear **but what happened next is very strange.**

Do you know what happens whenever you type or click a page url that does not exist? You get a message on your screen that says:

“404 Page not found”

If this would have happened then the matter would be closed. There would have been nothing more to discuss.

This did not happen. Instead, I was directed to the Royal Homepage. This means that the page did exist in the past and someone has set up what is known as a "301 Redirect". A 301 Redirect is something you do in the back end of a website to redirect a website visitor who is trying to visit an old page that no longer exists. Of course you can only do it if you own the website or work for the people that do.

Can I Confirm This? Yes I Can!

There is a tool available to all on the internet called the [Wayback Machine](#). The Wayback Machine allows you to explore 411 billion web pages saved over time even when they don't exist today.

So there you have it. You can see the date and even the exact time that the 301 Redirect was carried out. <https://stillnessinthestorm.com/2020/02/british-queen-is-not-human-according-to-the-official-royal-website/>

+2+ Planned Parenthood Annual Report Shows It Killed 383,000 Babies in Abortions, More Than Ever Before--SACRIFICE TO MOLOCH BEYOND HISTORIC PRECEDENTS AS AMERICA IS ALREADY UNDER GOD'S JUDGMENT YET MEGA PASTORS WONT SPEAK OUT!

It was another record year for the abortion giant Planned Parenthood. Although Planned Parenthood bills itself as a woman's health organization, in reality, it is little more than an abortion business.

[Its 2020 annual report](#), released this week, shows it aborted 383,460 babies, an increase of almost 30,000 babies killed in abortions compared to the year before. In 2019 the abortion giant killed 354,871 babies in abortions.

That means Planned Parenthood killed 1,050 babies in abortions every single day — even though the abortion giant claims its main focus is merely women's health care. In other words, Planned Parenthood kills one baby in an abortion every 82 seconds.

Meanwhile, the "nonprofit" abortion business made more money than ever before — bringing in \$1,714.4 billion income, aided in part by \$633.4 million in taxpayer dollars.

While Planned Parenthood kills more babies in abortions, [the number of abortions in the United States increased just 2%](#)— making it so Planned Parenthood is performing a larger and larger percentage of all the abortions done on babies in the U.S. ever year. With the pro-abortion Guttmacher Institute estimating 930,160 abortions, this means Planned Parenthood kills 41% of all babies killed in abortions in the United States.

Marvel & DCs War on God: The Antichrist Agenda - Superman - Batman - Venom Spiderman - Iron Man - Avengers

Marvel & DC's War on God is an eye-opening exposé series that documents how popular comic books – and the movies that they have spawned – are riddled with anti-Christ themes that glorify gratuitous violence, sexual perversion, blasphemy, and the occult. Many leading comic book writers have admitted that they are using seduction, manipulation, the occult, and even the bible to influence our children to view the God of the bible from a twisted slant.

This documentary series is designed to help parents and young people alike to better discern the underlying messages in many popular comic books and movies that affect millions of professing Christian families. As we seek to know

the Lord and follow His word, it is imperative that we are wise to the ways of the evil one in popular culture.

To truly understand the spiritual foundation of Marvel cosmology, one must first understand the influence behind many of the comic book writers. These same influences were brought into the first iterations of Doctor Strange beginning in 1961, when he was first introduced as Dr. Droom, and then Dr. Druid in 1976.

BIDEN APPOINTS Child Molester/Murderer John Podesta GLOBAL CURRENCY RESET TSAR!! Biden Just Hired Scandalous, Pedophile-Linked John Podesta To Implement America's 'Great Reset'

The disgraced former Clinton campaign manager John Podesta has been appointed by Joe Biden to oversee American execution of the WEF's 'Great Reset' plan.

The \$370 billion in climate change provisions included in the Democrats' Inflation Reduction Act will be implemented under Podesta's supervision.

The scandal-plagued Clinton ally is infamous for using his connections to help convicted pedophile and former U.S. House Speaker Dennis Hastert get released from prison early.

Podesta will also "chair the President's National Climate Task Force in support of this effort," the White House boasted in a [statement](#).

"We are fortunate that John Podesta will lead our continued innovation and implementation," Biden said in a statement.

"His deep roots in climate and clean energy policy and his experience at senior levels of government mean we can truly hit the ground running to take advantage of the massive clean energy opportunity in front of us."

[Thegatewaypundit.com](#) reports: Podesta is currently chair of the board of directors for the Center for American Progress, a liberal think tank he founded in 2003.

Hillary Clinton's former campaign manager also served as chief of staff to former President Clinton and was top climate advisor to President Obama.

In an interview with the New York Times, Podesta said he intends to focus on transforming America away from oil and fossil fuels.

“The transformation of the energy economy is going to be the biggest thing economically that is happening in this country,” he said, promising to work to create “a future that is not blighted by the threat of climate change.” Podesta continues to be plagued by rumors over alleged involvement in “pizza gate” following the leak of DNC and Clinton campaign emails that were published by the whistleblower organization WikiLeaks in 2016.

Subject: “The best way to control the opposition is to lead it ourselves.” ~

Vladimir Lenin—Right Left Paradigm Control System Just Keeps Marching On!!

Communist Playbook:

“The best way to control the opposition is to lead it ourselves.” ~

**Communist Leader:
Vladimir Lenin**

Here is why I bring up this subject:

1) It has become increasingly clear to me that Trump is "controlled opposition" with zero intentions of "saving" anyone from the deadly genocidal jabs, much less from global communism. In fact quite the opposite of

saving, he is a magnet to identify all the die hard conservative patriots in America, SO THAT.....when the communists foment their sudden revolution/coup to take over all aspects of the gov't, the communists will know exactly WHOM to round up and take to communist re-education work/death camps. You donated to Trump? You are on their list, and so are your bank accounts, which will no doubt be frozen upon the sudden coup.

2) A good example of "controlled opposition", is our ridicules so-called two party system, both serving the same Masters. So no matter who gets elected, the country still marches in lockstep into communist slavery, and has been for years. The GOP is "controlled opposition", because "in theory and lip service", they are against communist globalism.

FORCE MAJEURE: Massive global shutdowns are now under way for METALS SMELTING operations covering iron, copper, nickel, aluminum, zinc and STEEL

Without metals and industrial elements — steel, copper, aluminum, iron ore, nickel, zinc, etc. — human civilization cannot exist. Nearly all manufacturing is dependent on metals for industrial processes. Even plastics cannot be made without metals for the injection molding, and aluminum and copper are required for all electrical systems, both commercial and residential.

Yet right now, aluminum, copper and steel plants are shutting down worldwide. Some shutdowns are happening under “force majeure” declarations. In business circles, “force majeure” describes those uncontrollable events (such as war, labor stoppages, or extreme weather) that are not the fault of any party and that make it difficult or impossible to carry out normal business. A company may insert a force majeure clause into a contract to absolve itself from liability in the event it cannot fulfill the terms of a contract (or if attempting to do so will result in loss or damage of goods) for reasons beyond its control.

Note that this is happening in parallel with global shutdowns of:

- Food, fertilizer and agriculture
- Energy
- Manufacturing
- Housing

Thus, billions of human beings are being thrust into a scenario where they face unemployment, bankruptcy, starvation and freezing temperatures, even as their own (western) governments plot against them to maximize suffering and death. See the link below for the full list of metals and steel plants that have so far shut down around the world.

Swiss Face Up to 3 Years in Prison For Violating Heating Rules--New mandate forbids setting house temperature above 19°C (66.2F)!!

by [Paul Joseph Watson](#) September 7th 2022, 5:16 am

Under the new rules, buildings that use gas heating systems are restricted to 19°C, while hot water can only be heated up to 60°C or 140 F (remember water boils at 212 degrees) and radiant heaters are banned entirely. & Who polices something like this?? A live-in Nazi??? Oh I forgot about the Smartgrid!!

It will also be forbidden to heat swimming pools and saunas.

Depending on the severity of the violation and the individual’s economic situation, fines will range from 30 to 3,000 Swiss francs (\$30 to \$3,050), while people could also be imprisoned for up to three years.

Utility companies and larger businesses would face even more severe penalties for breaking the energy rationing rules.

Despite the brazenly authoritarian restrictions, Economy Minister Guy Parmelin asserted, “We are not a police state,” although he acknowledged police would perform “spot checks” to try to catch violators.

Many would suggest this is just a taste of a dystopian ‘net zero’ future, where people who defy climate change ‘energy lockdowns’ face arrest and prison time.

As we previously [highlighted](#), numerous other European countries are introducing similar restrictions in the face of a worsening energy crisis following the shut down of the Nord Stream 1 pipeline.

In Spain, businesses that use air conditioning units to keep temperatures at anything below 27°C (or 80.6F!!!!) in summer or above 19°C (66.2F) in winter face onerous fines of up to €600,000 for “serious violations.”

As we [highlighted](#) yesterday, predicting that cost of living protests in the Czech Republic and Germany will spread around the continent, a prominent economist warned that European citizens are “mad with anger and it will worsen.”

Luciferian Anthony Fauci owns patent on the Covid Kill Shot & Virus SARS-CoV-2 gp120 HIV insertion which destroys the body's cancer-killing T cells

Early on in the *plandemic*, [we reported](#) that unusual HIV insertions had been identified in the Wuhan coronavirus (Covid-19). This strongly suggested at the time that the virus was a bioweapon constructed in a laboratory.

Since that time, it has been [further revealed](#) that Tony Fauci of the National Institute of Allergy and Infectious Diseases (NIAID) owns a patent on at least one such HIV insertion, known as gp120.

HIV's gp120 protein, reports Igor Chudov on his Substack, is the one that activates LFA-1 on CD4 T-Lymphocytes and increases cell susceptibility to LFA-1-targeting leukotoxin, according to [a 2011 study](#).

Interestingly, gp120 just so happens to also be located in the spike protein of SARS-CoV-2, as well as in the spike protein of all covid “vaccines.”

In a nutshell, gp120, as applied to the spike proteins in both covid and covid injections, effectively destroys the body's immune T cells in the same way as HIV. And gp120 specifically is used to deliver HIV into the lymphocytes via the LFA-1 receptor.

“T lymphocytes are cells that are responsible for killing infected or cancerous cells,” Chudov explains, citing the science behind T cells and what they do:

“T cells are a type of white blood cell known as a lymphocyte. Lymphocytes protect the body against cancerous cells and cells that have become infected by pathogens, such as bacteria and viruses.”

“T cell lymphocytes are necessary for cell mediated immunity, which is an immune response that involves the activation of immune cells to fight infection. T cells function to actively destroy infected cells, as well as to signal other immune cells to participate in the immune response.”

So Covid (& the kill shot) was clearly developed in a lab using Fauci's patented HIV insert to destroy the human immune system

As you can see, T cells are a critical component of healthy immunity. Without them, the body basically has AIDS, which is why a growing body of evidence points to the “fully vaccinated” now [having vaccine-induced AIDS, also known as VAIDS](#).

[Study: Incurable prion disease linked to covid jabs--New research out of France has determined that Wuhan coronavirus \(Covid-19\)'vaccines' trigger an incurable and fatal prion condition known as Creutzfeldt-Jakob disease \(CJD\) AKA KURU like Mad Cow Disease In Humans!](#)

Studies [suggest a link](#) between an incurable and fatal prion disease known as Creutzfeldt-Jakob Disease (CJD) and [COVID-19](#) vaccines.

Researchers believe the prion region from the original Wuhan COVID-19 variant's spike protein was incorporated into mRNA vaccines and adenovirus vector vaccines — given to [hundreds of millions of humans](#) — and that it can cause a new type of rapidly progressing sporadic CJD.

According to [Mayo Clinic](#), CJD is a degenerative brain disorder that leads to dementia and, ultimately, death.

Although the [Omicron variant](#) does not have a prion region on its spike protein, current COVID-19 vaccines still use the genetic material — including the prion region — of the parent Wuhan strain.

A French [pre-print paper](#) published in May on CJD and COVID-19 vaccination identified a new form of sporadic CJD that occurred within days of receiving a first or second dose of Pfizer or Moderna COVID-19 vaccines.

Researchers analyzed 26 cases of CJD and found the first symptoms appeared on average 11.38 days after injection with a COVID-19 vaccine.

Of the 26 cases, 20 had died by the time the study was published and six were still alive.

“The 20 deaths occurred only 4.76 months after the injection. Among them, 8 of them lead to a sudden death (2.5 months),” researchers wrote.

“This confirms the radically different nature of this new form of CJD, whereas the classic form requires several decades,” wrote the researchers.

Dr. Jean-Claude Perez, lead author of the French study, on June 6 told [The Epoch Times](#) that all 26 cases resulted in death.

According to the Centers for Disease Control and Prevention (CDC), [prion diseases](#) are a family of rare progressive neurodegenerative disorders that affect humans and animals. Prion diseases are usually rapidly progressive and always fatal.

Although prions [occur naturally](#) in the brain and are usually harmless, they can become diseased or misfolded, affecting nearby prions and causing them to become misshapen.

The abnormal folding of the prion proteins “[leads to brain damage](#) and the characteristic signs and symptoms of the disease,” the CDC’s website states.

Sporadic CJD occurs when a person becomes infected for no apparent reason. Once a single prion becomes infected, it will progress to other prions, and there is no treatment capable of stopping it.

If bit by a tick, at this point (even without a subsequent bullseye rash) I would take the same precautions for this as I would take for Lyme disease. See below. Also regarding a good tick repellent there are several natural ones listed here (without DEET—which is horrible) that have 4.5 stars, but I have no idea which is the best one: <https://www.amazon.com/s?k=tick+repellent+for+people> This one seems to have the highest rating of all the natural ones: TickWise (8 oz) 3 Moms Organics Easy Fine Mist Spray Bottle, DEET-Free Pure and Natural Essential Oils <https://www.amazon.com/dp/B07NMTGHZT>

Also, regarding red meat consumption (and why Satan would not want us consuming it) I covered this in the teachings below.

On the subject of ticks. They are crazy, and I do mean crazy here in NW PA. I mean spring is just now here and the tick bites started coming, into the ER as in pouring into the ER, back in March when it was still snowing every other day. CRAZY.

Last night I met a man who is a tick magnet. I mean he has come to the ER 6 times for tick removal. The rash he had was the size of both my hands put together. He told me he wears repellent, tucks his pants in his socks, wears

clothing that covers him, and he still finds them on him and he works with people who take no precautions and don't get one tick.

I don't worry much health wise but I absolutely DO NOT want to be bitten by any ticks at this point in time. The number of people I have met that have had their lives RUINED by tick bites is off the chart. The evil ones that plague us with their evil man made diseases have thoroughly mastered the use of the tick born vector as a weapon against us.

Dr. Johnson's Comment: See below for my most current updated information and protocol for Lyme Disease. It is my opinion that if you did all three products listed below you could greatly reduce the amount of Invive Silver that would need to be taken, which would save you a massive amount of money. The Biocidin LSF is expensive at 92.00 a bottle but each bottle has 100 doses and you would only need 2 doses a day, so one bottle would last 50 days.

Mild Silver Protein Therapy: Doctor's Desk Reference

Dosage Guidelines for Lyme Disease:

LYME DISEASE, SYSTEMIC For 120 lb. individual

Invive Mild Silver Protein 5000ppm: 4 tsp. (20 ml) twice a day till asymptomatic

Note: If you think you have been bitten just take the above dosage for a week and then discontinue.

Note: Decrease or increase dosage 5 ml(or 1tsp) for every 30 lbs above or below 120 lbs for each protocol above (in this way you can calculate this for children as well, as the dosage is weight dependant not age dependant). There are 24tsp. in each 5000ppm bottle of Invive.

Subject: Lyme disease and Colloidal Silver

Hi Dr. Johnson, I was previously suffering from Lyme disease until I purchased and took Invive's colloidal silver. I have now been symptom free for over a year now and I wanted to thank you for the advice you gave me through email as I was taking it.

I have a friend who has been suffering from chronic Lyme's disease. She has been using a Rife machine in addition to antibiotics for treatment. I told her about Invive's colloidal silver so she started taking and has been taking colloidal silver for a couple months per the appropriate protocol while still using the Rife machine. She initially experienced a herxheimer reaction as expected. After the initial symptoms passed she switch to the maintenance dosage of MSP. She recently experienced another herxheimer reaction. Should she switch back to the initial dosage of MSP? Is there any concern about an extended use of MSP if she continues to have severe reactions for a long extended period of time? Are there any concerns regarding the use of a Rife machine while taking colloidal silver at this time?

Thanks,

Dave A

Dave: Great to hear this.

I would have her follow the protocol listed in the attachment (see above) until she tests negative. If you could forward this email to her that would be great.

She may be negative now but the only way to know is to get tested.

No, there is no problem with doing the silver and the rife machine. I used to own one as well.

No unless she is doing a half a bottle a day of the 5000ppm for months on end there is no concern about the silver. See the 2nd attachment.

God bless!

Stevia Kills Lyme Pathogen: New Study

Ticks that carry Lyme disease spreading rapidly across USA...

++ Lyme disease is caused by the Borrelia bacteria found in ticks. These ticks have spread from the Eastern seaboard across the South and Southwest. According to the Centers for Disease Control the number of counties in the northeastern US that are considered high-risk for Lyme disease has increased by more than 320%. Some 95% of the 300,000 cases a year come from 14 states in the Northeast and upper Midwest. Lyme is now the most commonly reported vector-borne disease in the Northern Hemisphere. If diagnosed early-

a rash commonly appears around the site of the tick bite-Lyme can be treated with antibiotics, but longer term infections can produce joint stiffness, brain inflammation, and nerve pain. But that's not the worst of it. Some people never know they have been bitten by such a tick. Months or years later, depending on how strong their immune system is, they start having symptoms. It could be anything from just not feeling right to strange neurological problems to severe reflux to complete debilitation. World class athletes in the prime of their careers end up in wheelchairs.

Lyme Disease: A government mistake, now a cover up?

Some facts:

1. Lyme disease did not start appearing until the mid-1970s.
2. It's one of the fastest growing infectious diseases in the US
3. It's first recorded outbreak was in Old Lyme, Connecticut
4. Old Lyme, CT is directly across Long Island sound from Plum Island which for years the US government claimed was an entirely benign livestock disease research center.
5. Characteristically, the federal government lied about the fact that biological warfare experiments were conducted on the island for decades. They were forced to give up this charade in 1993 when a Newsday unearthed documents proving otherwise.
6. Extensive experiments were conducted on Plum Island that involved creating diseases and infecting ticks with them- all in the name of protecting America's livestock
7. Like many clandestine research programs, Plum Island appears to have had former Nazi scientists in the role of advisors, specifically Dr. Erich Traub, who was in charge of the Third Reich's virological and bacteriological warfare program in World War II.

If you have trouble believing that the US would employ Nazi war criminals after World War II, do some basic homework. Nazi scientists received a warm welcome in US aerospace and biological and chemical warfare programs. The US also actively recruited Japanese war criminals for this purpose.

Hello there my friend !!! "Jeff" here 😊

First I want to say.....THANK YOU !!!!!!!!!!!!!!! YOU ARE A LIFE SAVER !!!

The Silver cured my Lyme Disease and no symptoms have ever returned. If you remember, I had a continuing problem with back pain that I thought was the Lyme

attempting to sequester itself and hide in my back. It turns out that you were correct when you suggested that maybe it was something "other" than the Lyme causing the problem. I have really bad "back knots" which radiate quite a bit of pain, probably a "post symptom" of the Lyme as well as me lifting weights all the time. Other than that I have my life back and I want to Thank You so very much.

I'm writing a book on how I cured myself from the disease....Yet that's a long time in the making.....I'll keep you updated on that !!!!!!!!!!!!!

I also have to tell you an Amazing story. 😊

I've met a girl that has tremendous health problems. She's been sick for years and both herself and her family believe she has Lyme Disease. She an outdoors person who has had lots of ticks on her. The doctors, of course, don't know what is wrong with her, and have misdiagnosed her with everything from Chronic Fatigue Syndrome to Lupus to everything else !!!.....And she's never had a positive test for Lyme so they don't believe that she can have it !!! You know as well as I do the ridiculousness of the medical community.

I must tell you Lawrence that she has an "IDENTICAL" story to mine !!!!! All the symptoms are exactly the same as mine.....And as I am now a "Lyme Educated Individual"...LOL.....Because of "YOU" and all of knowledge.....I see no other conclusion than Lyme Disease. As I said, both her and her family believe she has it. She's 32 years young.....She had to quit her job.....She moved back in with her family.....She is depressed and just doesn't know what to do.

That's where I come in.....I TRULY FEEL THAT GOD HAS SENT HER MY WAY TO DIRECT HER TO "ADVANTAGE PHARMACEUTICALS".

She doesn't have the money or resources to be able to afford the Life Saving Silver !!!!!

PLEASE HELP HER !!!!!!!!!!!!!!!

She could send you all her symptoms if you'd like.....It is Lyme Disease right down to the very last word !!!!! I can assure you of this.

I've told her that I would You if this is possible.....I WANT TO HELP HER MORE THAN ANYTHING !!!!!!!!!!!!!!!

I look forward to your reply, "Jeff Q, Cured With Silver" !!!!!!!!!!!!!!!

Jeff,

Thank you for your fine correspondence. It is good to hear from you again.

Yes, we will definitely help your friend.

Lyme Disease is a "Clinical" Diagnosis determined by how the Disease "Presents" in the individual.

Lyme is not a serological Diagnosis.

The serology tests are to be used only to "confirm" the existing Clinical Diagnosis.

If she has more than 7 symptoms on the following sheet, then she has Lyme

Disease. Click here> <http://www.xpressnet.com/bhealthy/symptoms.html> .

Our silver is the only silver which will cure 650 diseases, so with our silver's "shotgun ability" we will be able to cure her.

Clinical Use Report Of Mild Silver Protein Dr. Joseph Cardot from Colorado

Researchers have been *warning* the medical establishment for years that the indiscriminate use of antibiotics could spawn< l>, they warned, would create a "*post antibiotic world*" where common, as well as uncommon, infections would quickly escalate into fatal illnesses. The warning have been ignored; the result is that we are - right now - facing a major threat to human life from formerly treatable infectious conditions. A friend of mine, Dr. Richard Callahan, York, NE, in a recent phone conversation remarked that, in his opinion, *mutated pneumococcus bacteria and viral pneumonia will be killing thousands of Americans annually within five years*. Bad news indeed. The good news is that *Mild Silver Protein (MSP) may be an answer to the dilemma we are facing*. I have operated a family practice for 37 years where I have treated all types of infections in patients varying in ages from infants to over ninety. Before prescribing any treatment I believe a doctor should determine if the patient might suffer harmful effects from the treatment. "First Do No Harm." The treatment should also offer the prospect of helping the patient recover. MSP meets both of the criteria.

I started *using a silver suspension* in protocols for patients with infections in January of 1992. The first patient, a female, had "walking" viral pneumonia. She was placed on one tablespoon of the silver suspension t.i.d. She was asymptomatic the fourth day into treatment. I was astounded. I thought that it might have been a misdiagnosis. Since that first experience I have *treated more than 50 cases of viral pneumonia with the same positive results*. Time of treatment varies, due to patient condition and severity of infection, from four days to thirty days. The outcome, however, is consistently positive; the infection is cleared. Since that first experience I have included MSP in protocols for all types of infectious diseases with positive results. MSP has cleared reoccurring ear infections in children who were scheduled for tube surgery making the procedure unnecessary.

Infectious fibromyalgia(Fibromyositis) and Sjögren's syndrome patients have benefited from MSP therapy; MSP therapy helps many rheumatoid arthritis patients with synovial fluid infections that are causing inflammation to no longer need steroids. Systemic Candida Albicans is successfully treated with MSP. It is so effective we must start with small doses to control Herxheimer effect. Staph and other infections in the mouth (Gingivitis) have dramatically improved with MSP therapy. **The Lyme disease spirochete (Borrelia burgdorferi) is eliminated using MSP therapy. I have records of Lyme patients who have been taking various antibiotics for three or more years who have become asymptomatic on MSP**

therapy after just three or four weeks of treatment. The average duration to rid the body of the spirochete is three to nine months. Systemic *Candida Albicans* frequently occurs in patients with Lyme; complicating the treatment and prolonging the duration of treatment.

Lyme disease is far more prevalent than is generally known. Lyme has been reported in the U.S. in 43 states, and in all of Canada. I believe that reported cases of Lyme represent only about 20% of the actual number of Lyme cases. Lyme is routinely misdiagnosed as meningitis or as a "heat rash." A red rash is a typical symptom of Lyme. Mild Silver Protein solutions* are proving to be 100% effective in getting rid of the Lyme spirochete when they are included in the treatment protocol. The important thing about MSP therapy is that it is non-toxic. I have never observed any side effect from using MSP therapy, and I have used it in patients with all kinds of infections. In acute conditions as much as four tablespoons per day has been given, with no adverse reactions observed or reported.

HIV positive patients have responded to MSP therapy if begun before the advanced stages of full blown AIDS. Temple University studies indicate that MSP kills the HIV virus in vitro. I believe that the HIV can be completely eliminated by using higher concentrations of MSP than can be absorbed with oral dosing. In vivo studies should be done using 250 to 750 ppm MSP administered IV. Due to the fact that MSP is non-toxic in high concentrations, this should prove to be a God-sent treatment for the millions who are suffering and dying from AIDS related illnesses. The use of AZT and other chemotherapeutic drugs, in the vain attempt to treat AIDS is, in my view, simply death by prescription. These drugs destroy DNA and the immune system; a case of "the cure being as bad as the disease."

Why not use a proven to be non-toxic protocol with AIDS patients, rather than the present approach of hitting them on the head with a hammer to get rid of the headache? Scientists at a major U.S. pharmaceutical company have developed a Mild Silver Protein solvent formula (MSP). This formula, when applied to the gums, produces dramatic improvement with the first treatment.* Saturate a band-aid pad with MSP and apply to ringworm. The infection is cleared in 2 to 3 days.

Psoriasis (virus in the skin) responds to MSP, applied topically. Within 3 weeks of treatment (b.i.d.) new normal skin growth is observed. It takes three to eighteen months of MSP therapy to heal psoriasis. MSP is so effective in treating gum diseases (Gingivitis) that, in my opinion, if widely utilized in the population, it could eradicate gum disease completely. I have seen patients with severe infections of the mouth whose symptoms included swollen gums, tongue, and cheeks (making them unable to speak or eat) improve immediately. Following one application of MSP most could eat. These severe infections are completely cleared after two to four days of applying MSP four times per day.

We have seen excellent results using MSP therapy in Herpes genitalis. If MSP is applied topically when itching and soreness occurs prior to vesicular eruption it prevents eruption in more than 50% of the cases. Eruptions are mild when they do occur. If treatment is continued b.i.d. topically to the area, the infection clears in half the usual time. Patient should also take 2 teaspoons of MSP orally daily and remain on 1 teaspoon per day to help eliminate future out-breaks. Herpes Zoster (shingles)

has been successfully treated as well. Pain is substantially relieved and duration of eruption reduced as indicated above with h. genitalis, (same Protocol). Mild Silver Protein is not a standard colloidal silver suspension. It is made by a licensed laboratory, that has research to substantiate its efficacy and safety for use in vivo to control infection.*

Many companies have jumped on the bandwagon producing colloidal silver products. Many are unstable; rendering them useless. Most are formulated with only 3 to 6 ppm. Silver suspensions are not homeopathic remedies. They are more effective in higher concentrations. The lab formulates MSP at 30 ppm and 40 ppm as a dietary supplement, and topical application. Types of concentrations I have access to in my practice, range from 30 ppm, 40 ppm, 50 ppm, 100 ppm, 400 ppm, 500 ppm, 1,100 ppm, 2,000 ppm, 5,000 ppm and 10,000 ppm, with 5,000 ppm "now" being demonstrated to be the most palatable to the patient and effective*. These concentrations are responsible for the results achieved with patients coming to my clinic that I have shared with you in this article.* If you and your doctor had access to something that would effectively kill all kinds of infections, and that was completely non-toxic with no side effects, it would be a blessing. Mild Silver Protein has proven to be that blessing in my practice. <http://www.dr-johnson.com/>

Personal Experience with Lyme Disease and Candida by Dr. Paul Farber

In July of 1992 I was bitten by the Deer Tick (Ixodes Scapularis) which according to Dr. Thomas Craig, D.V.M. of the Department of Veterinary Microbiology and parasitology carries the Spirochete which is the causative agent of Lyme disease. After my diagnosis was confirmed a medical doctor, who is a neurologist, put me first on Penicillin orally for two weeks, and then intravenously for four weeks. The results to my symptomatology were minimal and I experienced many side effects including Candida Yeast Infection because of the penicillin's destructive effect on the friendly acidophilus bacteria in my stomach and colon. Since this treatment did not work, the neurologist prescribed a cephalosporin called Rocephan. Unfortunately, this treatment accomplished no more than the penicillin, had many unpleasant side effects, and worsened my Candida yeast infection.

Not knowing what to do, or where to go next I was led to a Dr. Joseph Cardot from Colorado. He told me that Mild Silver Protein was helpful against spirochetes and suggested a regiment to follow. I began with two tablespoons a day for the first month holding it under the tongue sublingually for a minute, swishing it around the mouth for ten seconds, and then gargling and swallowing. I did the same thing for the second and third month, but only one tablespoon per day. By the end of the first two weeks my 35 different symptoms, including extreme pain, paralysis, and numbness were about 25% relieved with no side effects. By the end of the first month I was over 50% well. By the end of the second month I was 75% well. After 3 months of treatment I was 100% well. I have been 100% well for over 2 years. Was I cured from Lyme disease and Candida yeast infection? In my opinion and the opinion of Dr. William Burgdorfer, Scientist Emeritus who discovered the spirochete as the causative agent of Lyme disease, and Dr. John Parks Trowbridge, M.D. an author and expert in the field of Candida yeast infection, I appeared to be CURED. **Dr. Burgdorfer**, who became a close friend, then shared with me that the world would not believe my results without scientific documentation. It seems that there is

enough testing from universities, and reports from practitioners that the Mild Silver Protein developed not only works on Lyme disease but a good deal more bacterial, viral and fungal infections.*

From "Penicillin to "Mild Silver Protein"

An Answer to Lyme Disease "Without Antibiotics" **By Dr. William Burgdorfer, Ph.D.** Rocky Mountain Laboratories, Division of N.I.H. In 1949, Dr. Sven Hellerström from the Dermatological Clinic of Karolinska Institute in Stockholm, Sweden presented a paper "Erythema chronicum migrans Afzelius with meningitis" at the 43rd Annual Meeting of the Southern Medical Association in Cincinnati, Ohio. In presenting his case, he provided convincing evidence that both erythema and subsequent meningocerebrospinal symptoms may develop following a tick bite. He also reported on the successful treatment of his patient with penicillin, a drug shown previously by his colleague Dr. Hollström to be effective in the treatment of Erythema chronicum migrans (ECM).

In the United States, ECM was first reported in 1970 on a physician bitten by a tick while grouse hunting in northeastern Wisconsin. The attending physician, Dr. Rudolf Scrimanti, recognized the similarity of the patient's skin reaction to the lesions of European ECM and promptly and successfully treated the patient with penicillin. The treatment of three additional patients with penicillin and of one with erythromycin resulted in complete resolution of symptoms within 48 to 72 hours. Considered unrelated to ECM were skin lesions in 13 of 51 residents in the eastern Connecticut towns of Lyme, Old Lyme, and East Haddam where, since 1972, clusters of inhabitants had been suffering of an illness characterized by recurrent attacks of asymmetric swelling and pain in large joints, especially the knee. Since such arthritic conditions were not known to be associated with ECM in Europe, the illness was thought to be a new clinical entity and was named Lyme arthritis, later changed to Lyme disease once it was realized that arthritis was only one of several clinical manifestations of this disease.

The search for effective antibiotics in the treatment of Lyme disease began in 1982 with my discovery of a spirochete now known as *Borrelia burgdorferi* as the causative agent of Lyme disease and of ECM and related disorders (acrodermatitis chronica atrophicans, lymphadenosis benigna cutis) in Europe. The antibiotics found effective include tetracyclines (doxycycline, minocycline), penicillins (penicillin G,

amoxicillin), cephalosporins (cefataxim, ceftriaxone), and erythromycin. Application of these drugs depends on the time the disease is being diagnosed. Early Lyme disease is treated orally whereas late Lyme disease requires parenteral or a combination of parenteral and oral applications. Treatment failures have been reported for each of these drugs particularly for the tetracyclines that are only temporarily effective unless they are applied over long periods of time, i.e. months even years. Controversy exists over the length of treatment using Mild Silver Protein (MSP). Some investigators consider 21 to 30 days sufficient for the elimination of the spirochetes, while others believe that patients must be on therapy until they are completely free of symptoms.*

The diagnosis of Lyme disease is a clinical one and is based on the development and recognition of the skin lesion (erythema migrans) a few days, weeks, or even months, after the bite of an infected tick. Unfortunately in up to 40% of the patients, the skin lesion does not develop, is not recognized, or is overlooked. Thus, without treatment, the disease spreads throughout the body and may affect the muscular, skeleton, cardiac and nervous systems. Indeed, Dr. Farber's recent claim having used MSP to successfully cure himself from late stage Lyme disease, comes at a time when thousands of patients suffering of this disease are refused extended antibiotic treatment because their physicians are unable to associate their clinical manifestations with those of Lyme disease. Although never established scientifically, it appears that the Mild Silver Protein silver colloid disables the enzyme(s) used by bacterial, fungal and viral agents for their oxygen metabolism causing them to suffocate upon contact. In vitro studies with Mild Silver Protein and the Lyme disease spirochete, *B. burgdorferi*, revealed a 100% killing effect within less than five minutes after exposure to the silver preparation.* <http://www.invive.com:80/drjohnson/>

TRIAL RESULTS OF MILD SILVER PROTEIN IN LYME DISEASE*

Preliminary laboratory studies on *Borrelia burgdorferi* spirochetes revealed that mild silver protein solutions reduce the growth rate of these cells significantly and eventually lead to cell death. It has been pointed out, however, that the spirochetes tested belong to a laboratory ATCC strain which is widely used in cell and tissue cultures and does not represent recent isolates from Lyme disease patients. In these tests, various concentrations of silver protein solutions were added to the culture of *Borrellia* spirochetes. Low concentrations of a silver protein solution (ranging from 2 to 10 parts per million) slowed the growth rate of the spirochetes over a time span of 1 to 3 days. Higher concentrations of silver protein (between 15 to 75 parts per million) had a much faster deleterious effect on cell replication. Growth inhibition depended on the concentration of the silver protein and on the duration of treatment. More studies are definitely necessary to obtain a clearer picture of the interaction between the silver protein and *Borrellia burgdorferi*. As these very preliminary studies suggest, growth and replication of Lyme spirochetes are measurably inhibited by silver protein in the in vitro setting.

January 13, 1995 Dear Sir:* This is to inform you that we have received a sample (12 ml) of your colloidal silver (1,500 ppm) preparation and have evaluated its effectiveness in a preliminary pilot study against Lyme disease spirochete, *Borrelia burgdorferi* (B31) and against the relapsing fever agent, *B. Hermsii* (HS-1).* In both tests, BSK cultured spirochetes were treated with 150 and 15 ppm of colloidal silver. When examined 24 hours later, none of the treated cultures contained live spirochetes. Few spirochetes, all dead, were observed at 48 hours. Additional in vitro and in vivo studies are in progress and will be reported as soon as results become available.

Lyme Disease

The following protocol has been effective in the treatment of both Lyme Disease and Candida LYME DISEASE: This protocol has been extremely effective in treating Lyme Disease, to the extent that people afflicted with the disease

becoming asymptomatic. The largest problem stemming from this treatment appears to be the reluctance of the individual to continue with the protocol when the Herxheimer (**or detoxification**) reaction occurs. The Herxheimer reaction occurs in 80% of the cases when Candida is present, and can vary in degree of severity on a case by case basis. Candida is present in almost all Lyme cases due to prolonged antibiotic usage. To estimate the severity of the reaction one must assess the progression or extent of Candida. The Herxheimer reaction does not appear to be as severe if very small amounts are used for 7 days prior to beginning the full protocol amount. The treatment period seems to vary from individual to individual. Substantial improvement is noted in most cases after two weeks on the full protocol. Within thirty days dramatic improvement is noticed in most cases. Continuing treatment for six months usually results in the individual being asymptomatic. Ongoing testing and trials may well prove that one injection of *this concentrated MSP may cure the disease.

When it comes to biofilms and resistant and chronically recurring infections, Biocidin by Bio-Botanical Research has been one of the best-if not the top-performing product-in the industry. Anova Health is excited to introduce the NEW Biocidin LSF (Liposomal Spray Formula) that offers a new deeper-acting formula for chronic bacterial issues via its liposomal delivery system.

This more powerful delivery system is able to assist in the delivery of Biocidin's broad-spectrum botanicals to the central nervous system, which is a key benefit when addressing **Lyme disease** and other pathogens. <https://www.anovahealth.com/content/bio-botanical-research-biocidin-liposomal-17-fl-oz-50-ml>
