++ In 1981 William Casey (CIA Director) Told the Newly Elected President Ronald Reagan:

Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

Defending Health, Life and Liberty

The **1828 Noah Webster Dictionary** defines: "**Reprove**": To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt. "**Circumspectly**": Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive **the very elect.**"

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we **are not ignorant** of his devices."

II Chronicles 7:14: "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Luke 21:36 Watch ye therefore, and pray always, that ye may be accounted worthy to escape all these things that shall come to pass, and to stand before the Son of man.

Matthew 24:13 But he that shall endure unto the end, the same shall be saved.

Psalm 101:3: I will set no wicked thing before mine eyes: I hate the work of them that turn aside; it shall not cleave to me.

Psalm 11:5: The LORD trieth the righteous: but the wicked and him that loveth violence his soul hateth.

1 Cor 15:33: Be not deceived: evil **communications** corrupt good manners.

Lexicon Strong's G3657--Outline of Biblical Usage of the Word:

"Communications": companionship, communion

"It does not take a majority to prevail... but rather an irate, tireless minority, keen on setting brushfires of freedom in the minds of men." Samuel Adams

"The average age of the world's great civilizations has been two hundred years.

These nations have progressed through the following sequence: from bondage to spiritual faith, from spiritual faith to great courage, from courage to liberty, from liberty to abundance, from abundance to selfishness, from selfishness to complacency from complacency to apathy, from apathy to dependency, from dependency back to bondage." Alexander Fraser Tytler

+1+ Worse Than Katrina? It Appears That We Just Witnessed The Most Costly Natural Disaster In U.S. History By A Wide Margin

Thursday, September 29, 2022

I don't know if I have the words to describe what we have just seen. Summer just ended, and within one

week we have already witnessed the most costly natural disaster in the entire history of the United States. There are some areas along the west coast of Florida that have literally been destroyed. Some have compared the devastation to the dropping of an atomic bomb, and that is not an exaggeration at all. The state of Florida has never experienced a storm quite like this before, and recovery is going to be measured in years.

Hurricane Ian had maximum sustained wind speeds of 155 mph, and that put it just 2 mph short of being a Category 5 storm.

But the high winds weren't what made Ian so horrible.

What made Ian so horrible was the storm surge. Giant walls of water picked up cars, boats, telephone poles and palm trees and tossed them around like toys.

Florida Gov. Ron DeSantis said the storm caused a "500-year flooding event" and said Coast Guard helicopters were plucking trapped residents from the roofs of homes. Communities across the state were or will be swamped by the overwhelming waters, he said.

"The impacts of this storm are historic and the damage that has been done is historic," DeSantis said. "We've never seen a flood event like this, we've never seen a storm surge of this magnitude."

It was already too late when many finally realized that they should evacuate, and it appears that there was a "substantial loss of life" as a result...

In fact, Lee County Sheriff Carmine Marceno says that "This is a life-changing event for all of us," "I don't have confirmed numbers — I definitely know the fatalities are in the hundreds," he added.

"So far, confirmed in the hundreds," he said, noting that conditions were too dire for his officers and other rescuers to get a true sense of the disaster.

This is a time when everybody should be pulling together. According to one estimate, the economic damage from this storm could be somewhere in the neighborhood of 260 billion dollars...

Experts expect the damages to cost up to \$260 billion, though the clean-up efforts are currently unable to get underway as swathes of Florida remain underwater.

Prior to Hurricane Ian, the costliest natural disaster in U.S. history was Hurricane Katrina.

According to the GAO, Katrina caused **170 billion dollars** in damage...

Hurricanes Katrina, Sandy, Harvey, and Irma (selected hurricanes) caused costly damages and challenges for some populations in affected communities. In these communities, the National Oceanic and Atmospheric Administration (NOAA) estimated the cost of damages to be approximately \$170 billion for Katrina, \$74 billion for Sandy, \$131 billion for Harvey, and \$52 billion for Irma. These estimates include the value of damages to residential, commercial, and government or municipal buildings; material assets within the buildings; business interruption; vehicles and boats; offshore energy platforms; public infrastructure; and agricultural assets.

At this point, it appears that Katrina has been knocked out of the top spot. Right at the end of September 2022, we have witnessed the costliest natural disaster in U.S. history by a wide margin.

When the damage to Charleston is factored in, the total economic damage from this storm could easily surpass 300 billion dollars.

[Tracy Thomas](#) 1 day ago

I am in Naples and I am very fortunate. Two months leading up to Ian no matter what time of day or night I would see chemtrails with multiple planes spraying. That is very unusual for our area so I start taking photos of the sky to connect the dots backwards.

[Catherine Lucas](#) 1 day ago

I live in Naples also, and have noticed the exact same thing that you describe here.

[Bella Barro](#) 1 day ago

Hello Peggy, Yes we are in Florida in the panhandle. We were hit by a Cat 5 hurricane Michael in Oct 2018. Not many talk about this one. It formed in the same place as Ian and went straight north devastating Panama City and the

surrounding areas. We have lived here since 2000., in Florida since 1989. We are still clearing up after this storm. But my husband had a dome home built on our property and it will hold up to 275 miles per hour winds, ie tornadoes.

[Evelyn Emmanuel 1 day ago](#)

I told my sister "They're messing with Florida now, because people moved there for freedom" of course she thinks I'm a crazy conspiracy nut. The hand writing is clearly on the wall, but people are either not seeing it or choosing to ignore it.

Slides on Eco & Weather Warfare from Scott Johnson's 2006 Power Point Presentation from 16 Years Ago

- **Senator Claiborne Pell, US Senate Intelligence Committee member, commenting on a USA/USSR treaty signed in 1978 said:**

"Now that **we can control** the weather, create earthquakes and tidal waves and use it as a weapon of war we do not need a treaty."

So what treaty was this Senator in reference to?

- "The Convention on the Prohibition of Military or Any Other Hostile Use of **Environmental Modification Techniques**"
- This government treaty is currently posted online at the "U.S. Dept. of State" website at: <http://www.state.gov/t/ac/trt/4783.htm>
- This treaty was Signed in Geneva, Switzerland on May 18, 1977, and Entered into force October 5, 1978

- Quoting from the first and second paragraphs of this treaty we read:

“Use of environmental modification techniques for hostile purposes does not play a major role in military planning

at the present time (1977). Such techniques might be developed in the future, however, and would pose a threat of serious damage unless action was taken to prohibit their use...

- ...In July 1972 the U.S. Government renounced the use of climate modification techniques for hostile purposes...Both the U.S. Senate and the House of Representatives held hearings, beginning in 1972, and the Senate adopted a resolution in 1973 calling for an international agreement prohibiting the use of any environmental or geophysical modification activity as a weapon...."

- Now the word “geophysical” is defined as “The physical processes and phenomena occurring especially in the earth.” This would include processes like earthquakes, volcanoes & tidal waves.

- So in other words the government has possessed technology to manipulate both climate and geophysical (earth) patterns for many decades.

- Bill Schneobelen-Prophecy Club
Russia's Secret Weapon To Defeat USA

- **CHINA LAKE WEAPONS DIGEST**

“China Lake was for many years a world leader in **weather modification** for drought relief (GROMET), **hurricane abatement** (Cyclops, Stormfury), fog abatement (Foggy Cloud), and rainfall enhancement **for military purposes** (Project Popeye).”

- www.nawcwpns.navy.mil/clmf/coldcloud.html

Operation Sober Popeye (Project Controlled Weather Popeye / Motorpool / Intermediary-Compatriot) was a military **cloud-seeding** project carried out by the **U.S. Air Force** during the **Vietnam War** in 1967–1972. The highly classified program attempted to extend the **monsoon season** over specific areas of the **Ho Chi Minh Trail**, in order to disrupt North Vietnamese military supplies by softening road surfaces and causing landslides.

- Here it is appropriate to quote ex **Defense Secretary William Cohen**, who on April 28th 1997 said, “...**Others are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves.**” Conference on Terrorism, Weapons of Mass Destruction and U.S. Strategy; University of Georgia, Athens
- **Further Weather Modification Evidence:** www.sweetliberty.org/issues/weather/

U.S. Senate Bill 517 and U.S. House Bill 2995

- These bills would allow experimental weather modification by artificial methods and implement a national weather modification policy and are on the “fast track” to be passed in 2006.
- The appointed Board of Directors established by these bills do not include any agricultural, water, EPA, or public representatives, and have no provisions for Congressional, State, County, or public oversight of their actions or expenditures.
