PRAYER TO NEUTRALIZE OCCULT RITUALS

Father God in the name of the Lord Jesus Christ, the Lamb that was slain before the foundation of the earth, seated at the right hand of the Father; we come in the authority given to us in Christ Jesus. **We place a hedge of warring angels with flaming swords of fire around us and our families continuously. We put on the whole armor of God. We resist and renounce Satan, the god of this earth. We rise to war by the power of the Holy Spirit against witchcraft, occult maneuvers and devices sent against Your Will and the Body of Christ. We ask you to dispatch legions of warring angels in full battle array to enforce our petitions and intercessory prayers. Rout your enemies on all fronts. Turn their hatred, anger, accusations, conflict, arrogance and wicked schemes upon themselves so that they become caught in their own snares and fall into the pits that they intended for others.** We nullify, cancel and oppose every satanic operation, scheme, maneuver and strategy. Cause secret plans, agendas and motivation of the enemy to be revealed for everyone to see. We decree and declare that what these evil people & entities

meant for evil, you will turn it around and use it for the good of your people. We close every evil portal that has been opened by them. In the name of the Lord Jesus Christ and His shed blood, we break and cancel every curse, spell, hex, vex, charm, enchantment, decree spoken or unspoken, sent against the Body of Christ, the innocent and your intercessors by every witch, warlock, satanist, sorcerer, voodoo priest, shaman, soothsayer, medium, coven and every minion of the devil working iniquity. May they fall into the very pits they have dug for others. Lord Jesus, reveal your love to them. Save those that can be saved. Show them the truth about who they are serving, and their eternal destination if they continue in their present path. Open their minds, eyes and ears to receive supernatural insight and knowledge to understand the truth of the Gospel. Bring them to salvation. We seal this prayer by the Blood of the Lamb and in the name of the LORD Jesus Christ. Amen.

Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. (I am a Christ follower)
As a nurse working in healthcare for the past 40 years, I have seen many things but never this. In 2020, I was in a physician practice to meet the new practice manager. I was ushered into her office. The woman was sitting at her desk writing, so I stood quietly for a minute or so. I finally said excuse me, If this is an inconvenient time I can always reschedule my appointment. At that moment the woman looked up at me and she had cat eyes or reptile eyes. She blinked. Her eyes went back to normal but I

was taken aback. Unconsciously I reached for the cross around my neck and she said I think we need to reschedule. I said certainly thank you and I got out of that office as fast as I could. I asked the Lord for protection on my way home as I had about a 90 minute drive. I never called to reschedule that appointment!

It happened to me at a gas station in Waianae, Hawaii. I ran into a guy who had a Ouija Board tattooed to his chest and stomach. I asked him about it and he shape shifted into a darker, slightly smaller creature with totally darker and bigger eyes with a sinister voice change. Then, he changed back and forth. The evil one was definitely trying to scare me. Eventually, he had to leave. He could not stand my presence as I declared The Lord to him.

Twenty years ago I had a private meeting with the Director of Admissions in the school where I taught. It was no secret that after his wife passed, that he did not like his adult stepson who lived with him. After we had discussed the business at hand, he began complaining about his stepson, that he hated him. He said it so intensely, that suddenly he started hissing I hate him over and over again, and a goat head with long skinny hands and even longer nails manifested itself and I could no longer see him for a few seconds. I said nothing because this entity was not something I wanted to engage without the prayers of another Christian in the room. I immediately excused myself when his face came back and I made sure never to be alone with him again. I had witnessed to him before this, and I continued to do so afterwards. But one thing I know for sure, that when Jesus said he would separate sheep from goats, He was not speaking metaphorically.

Back in the early 80's, I had a brief encounter, when a girl's eyes changed from normal (I believe brown) to total non-glossy BLACK.... She said something, very quickly, in a deep Guttural tone or Voice. The whole episode lasted about 10 or 15 seconds. Her eyes went back to normal and the conversation continued. I was a relatively new Believer in Christ, but very interested in Eschatology. I often thought that this was to detour me from studying the Word of God, but in actuality it turned Me into a Serious Student of the Word of God...

While working at a hotel / convention center as a banquet server I saw a tall guy in a suit staring at me that had completely blacked out eyes (even the whites of the eyes were blacked out) who looked very business professional and this was around a bunch of people during the day. I was aware of what was happening but kind of trying to ignore it so I could do my job. These were business people and not heavy metal type of people also. It was bizarre. I've had all kinds of stuff like this happen in the last 8 years. God is in charge though, and you kind of just learn to deal with it / ignore it / pray through it.

My grandson told me and my wife about a kid in his 1st grade class who's eyes turned into vertical slit pupils when she got mad. We never talked about anything like that around him, he never watched scary movies, and he's just not a story teller. He was very serious but not disturbed by it, which I thought was strange but I guess he just didn't realize that's not normal. Idk.

Another jagged toothed incident happened to a couple up "north" somewhere. They were admiring a man's beautiful huge dogs and had quite the conversation with this

very short stocky man outside his home. At the end, he flashed his sharp teeth with a huge grin . The lady said she was sure he did it on purpose to show them and startle them. The couple were on a youtube video I watched on Marzulli's video or another video . They certainly DO walk amongst us !

Don't feel sorry for or fear for your kids because the world they are going to grow up in is not what it used to be. God created them and called them for the exact moment in time that they're in. Their life wasn't a coincidence or an accident. Raise them up to know the power they walk in as children of God. Train them up in the authority of His Word. Teach them to walk in faith knowing that God is in control. Empower them to know they can change the world. Don't teach them to be fearful and disheartened by the state of the world but hopeful that they can do something about it. Every person in all of history has been placed in the time that they were in because of God's sovereign plan. He knew Daniel could handle the lions den. He knew David could handle Goliath. He knew Esther could handle Haman. He knew Peter could handle persecution. He knows that your child can handle whatever challenge they face in their life. He created them specifically for it! Don't be scared for your children, but be honored that God chose you to parent the generation that is facing the biggest challenges of our lifetime. Rise up to the challenge. Raise Daniels, Davids, Esthers and Peters! God isn't scratching His head wondering what He's going to do with this mess of a world. He has an army He's raising up to drive back the darkness and make Him known all over the earth. Don't let your fear steal the greatness God placed in them. I know it's hard to imagine them as anything besides our sweet little babies, and we just want to protect them from anything that could ever be hard on them, but they were born for such a time as this.

One Comment Read: This is a product that is dressed up with pictures and words for Christians. In a small amount of study, it is easy to see this is not of God. To those who mock, many Christians had a life before they were Christians, and of those, many are well-studied in the occult or have been involved in it before they were Christians. They understand what is actually going on here better than most. This product is 100% incorrect in advertising and a sneaky way to get those Christians involved in something that is against the Bible.

By Keith on March 17, 2023

Question:

[The product description says it will never contact evil ghosts, but can it contact good ghosts?](#)

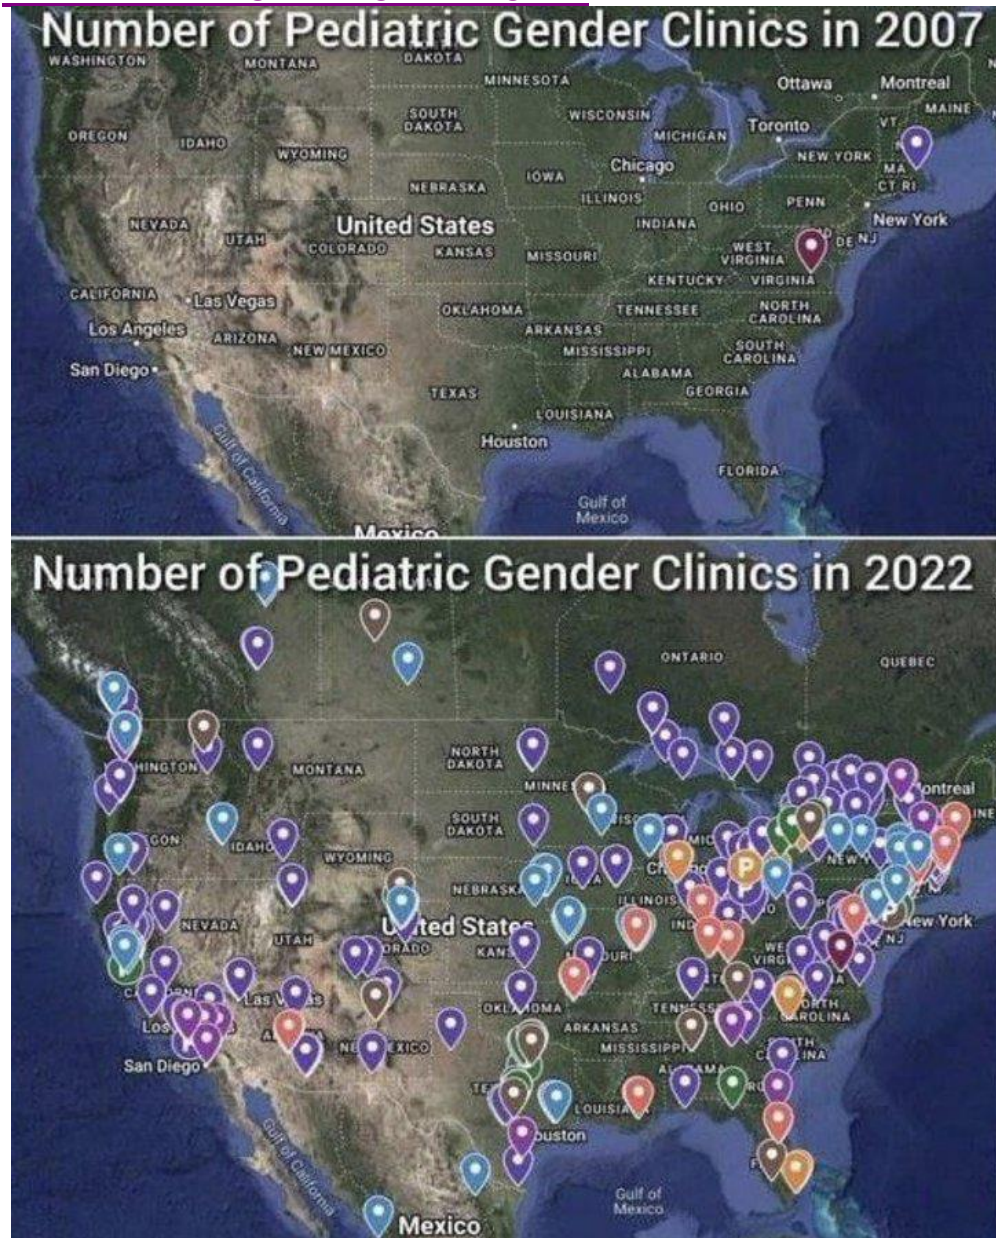

Answer:

There's no such thing as "good ghost"; it's a demonic board. The ONLY way to contact Jesus/God is by prayer and reading your Bible. If you don't care for a true relationship with Jesus then you can get the board. But if you want a relationship prayer is the way. Not a demonic board.

Washington State Senate Bill 5599 Insanity! Stuff of Parents' Nightmares: Washington State Bill Hides Runaway Kids From Transgender 'Unsupportive' Parents

In the dark of night on the last day of the legislative session in Washington state, Senate Democrats passed [Senate Bill 5599](#), a breathtaking evisceration of parental rights. The bill would allow the state to legally hide runaway children from their parents if the parents don't consent to their child's "gender transition" or abortion. No allegation of abuse in the household is required.

This bill also applies to children from other states who may travel thousands of miles for such procedures not available to them at home, cementing Washington

as a “[sanctuary state](#)” for runaway teens. And if that wasn’t enough, the bill allocates up to \$7.5 million of Washington taxpayers’ money to the Office of Homeless Youth Prevention and Protection to provide grants to organizations to pay for [gender transition](#) and abortion procedures.

[fitncrunchy freedomfighter](#)

This bill received A LOT of push back from parents and the legislature still passed it (all democrats voted yes, all republicans voted no). We have a serious problem in our country!!

She grew out of it and now she’s a beautiful 15 year old young lady and is very comfortable with the fact that she’s a girl. If she had been in school they would’ve likely transitioned her.

Washington state Democrats commit unconstitutional act by approving legislation outlawing semi-auto rifles sales

([Natural News](#)) First, a little propaganda and outright false ‘reporting’ from *The Associated Press*:

A ban on dozens of semi-automatic rifles cleared the Washington state Legislature on Wednesday and the governor is expected to sign it into law.

The high-powered firearms are now the weapon of choice among young men responsible for most of the country’s devastating mass shootings.

The **vast majority** of mass shootings occur almost daily in our largest cities, which — by the way — **are run by Democrats**. Also, the **vast majority** of shootings and mass killings are done with *handguns*, not the military look-alike rifles.

Washington’s ban comes following numerous unsuccessful efforts in the state’s legislature and during a time when the nation has witnessed the largest number of mass shootings in the first 100 days of a calendar year since 2009, the year Barack Obama took over.

It should also be said that the shootings coincide with the fact that rampant levels of violent crime are at their highest (in Democrat-run cities) since the same period.

Over 50 gun models, including AR-15s, AK-47s, and comparable style rifles, would be prohibited from being sold, distributed, manufactured, and imported under the new

Washington law. These firearms have a firing rate of one bullet per trigger pull and can automatically reload for subsequent shots. **The law does not prevent individuals**

(who already possess these weapons) from keeping them (that will be next on the agenda).

CENTRAL BANK DIGITAL CURRENCY: Governments Willing to STARVE People into using it!

23 April 2023

For those of us who have been hearing about some new "Central Bank Digital Currency (CBDC)" but haven't paid much attention, THIS ought to get you focused. Government has already shown it is willing to FORCE YOU and sometimes even STARVE YOU into using it!

Nigeria implemented CBDC, but nobody wanted it. After a whole year only 0.5% of the population were using it.

Play: pic.twitter.com/tHOFkvcDnK

So bent on controlling people, are government and their banker pals they were (and are) willing to literally let you STARVE TO DEATH so as to get control over YOUR use of YOUR money.

Oh, and the so-called "main stream media" was SILENT about this in the US and western nations. They don't want anyone knowing what's coming -- what's planned for all of us!

Here's why:

You are Republican? Active in touting "limited government, freedom, privacy?" Your Digital money is **deactivated** until you shut up.

You are a conservative who is vocally against Trans-gender education? Your Digital money is **deactivated** until you shut up.

Want to travel? Oh no you don't. That's bad for the Climate. **You can only use YOUR money within 15 minutes of your home.**

Put simply, CBDC is absolute, total, control over every aspect of your life.

No thanks.

Wonder Where All These Illegal Invaders Are Going To Live? Your Spare Bedroom Apparently

Most Americans have probably wondered ever since Joe Biden erased our southern border where all these illegal immigrants were going to go. **Sure Joe flies them at taxpayer expense all over the country in the dead of night, but what then? Where are they all going to live?**

We finally have the answer. In your spare bedroom apparently. Joe wants you to take them in.

With great fanfare **The Department of State, in**

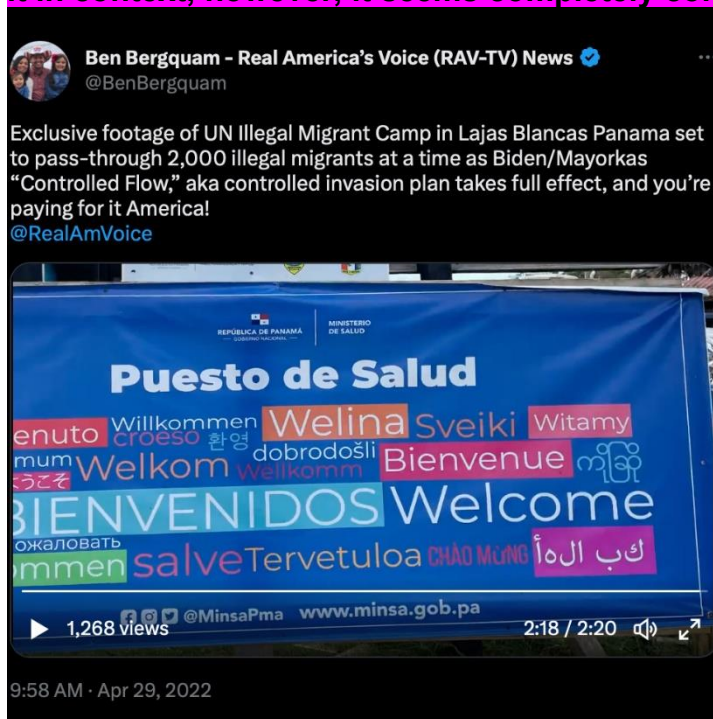

collaboration with the Department of Health and Human Services, is pleased to announce the creation of the [Welcome Corps](#), a new private sponsorship program that empowers everyday Americans to play a leading role in welcoming **illegal alien invaders** arriving through the U.S. Refugee Admissions Program (USRAP) and supporting their resettlement and integration as they build new lives (**illegally**) in the United States.

“In the first phase of the program, private sponsors participating in the [Welcome Corps](#) will be matched with refugees whose cases are already approved for

invasion under the USRAP.”

The idea that Joe is going to let millions of people walk across the southern border and then ask you to take them in as if you were adopting a pet from a shelter may sound like the plot of a Saturday Night Live skit. When you consider it in context, however, it seems completely consistent with this administration’s policy.

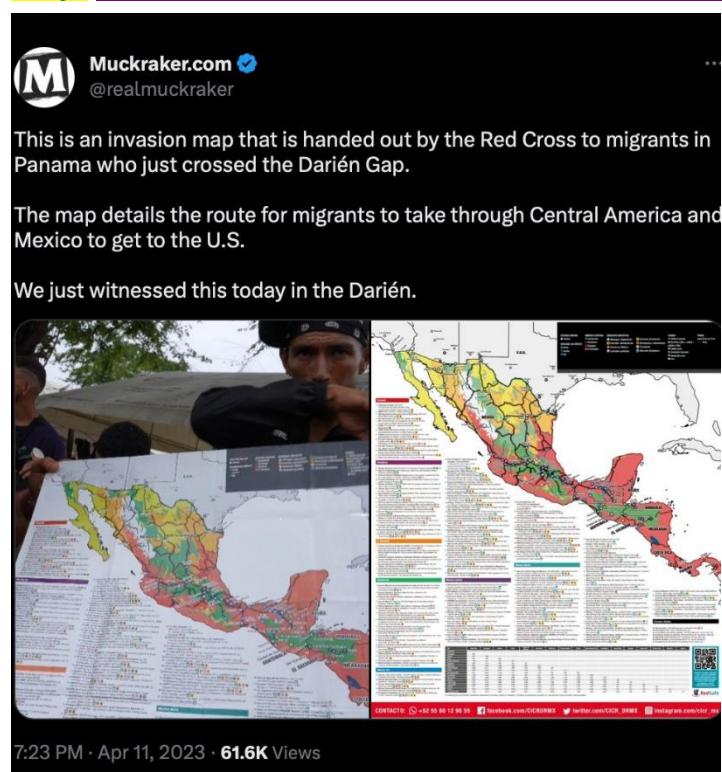

It is now the explicit, formal [policy](#) of the United States government to ensure the orderly movement of huge numbers of illegals into this country. We are not trying to stop them and failing. We are bringing them here.

To this end, the United States via the United Nations has established what amounts to a conveyor belt of camps across Central America to allow the invaders to move north in large numbers to our southern border. This is happening with the direct involvement of the Department of Homeland Security. DHS Secretary Mayorkas just visited

camps in Panama as part of an ongoing effort by the Biden administration to double the capacity of the existing infrastructure.

Biden does not want to stop the flow of migrants. He wants to increase it.

Play: <https://twitter.com/BenBergquam/status/1520039703394803715>

The migrants are not wandering north only on foot. They are being moved in trains & luxury buses like you might take on a tour. They are bused from camp to camp in vast numbers. Again, the bill for this is paid by United Nations outfits financed by the United States government.

Just to ensure migrants don't get lost the Red Cross hands out maps and guides. They show the routes to take. They show where all the camps are located. They provide detailed instructions on how to get across the U.S. border.

You are paying for those too. "This is an invasion caused by the U.S. government."

Michael Yon

In two short years, we have gone from securing our border to using the resources of the American people to move literally millions of undocumented individuals into this country in clear violation of our laws and contrary to the wishes of the vast majority of Americans. We are flooding this country with illegal immigrants not just from Central America but from at least 140 nations around the globe.

And, now when all these millions of people get here, Joe wants you to take them in and support them. You might need bunk beds in that spare bedroom.

Natural News A non-governmental organization (NGO) called Welcome.US that was founded by Bill Clinton, George W. Bush, and Barack Hussein Obama has partnered with American Express and a host of other multinational corporations to [fly illegal aliens into the United States for placement in your local community](#). With the help of fake president Joe Biden and his illicit regime, the three former presidents, via their NGO, initially resettled some 85,000 Afghans across the United States both in 2021 and 2022. Their goal for 2023 and beyond is to bring in a whole lot more than that until every last crevice of the country is occupied by "migrants."

For the Afghan portion of its operation alone, Welcome.US helped fly nearly 20,000 Afghans to American communities. The millions of dollars needed to do

this came from multinational corporations and brands such as Walmart, Airbnb, *The New York Times*, the Business Roundtable, the U.S. Chamber of Commerce, Starbucks, the *Washington Post*, Goldman Sachs, Goodwill Industries, Microsoft, and Chobani.

(Related: Last fall, the Department of Homeland Security [DHS] [released a report](#) showing that Venezuela has been emptying its prisons and sending the criminals to the U.S. for relocation and resettlement.)

Another household globalist name tied to Welcome.US is none other than billionaire George Soros and his Open Society Foundation, numerous members of which currently sit on the Welcome.US “National Welcome Council.”

With the help of open borders organizations such as Miles4Migrants and American Express Global Business Travel, Soros et al. are funding even more flights for migrants from Cuba, Haiti, Venezuela, Nicaragua, and Ukraine, who will also be dumped in your local community in seemingly endless numbers.

“Donations are needed to fund the flights for newcomers to travel to the United States,” reads the website of the initiative, begging for more cash from the public to make this all possible.

“Those forced to flee often leave behind all but what they can carry, and the costs of international travel can be prohibitive. Welcome Connect Travel removes the cost of travel as a barrier for both sponsors in the United States and the displaced families they are supporting through humanitarian sponsorship.”

“With the average cost of a single flight at \$1,600, public donations through our partner Miles4Migrants will help provide a lifeline to newcomers, giving them the opportunity to safely travel to their new communities. Donate below to help newcomers access safe travel.”

Since the wealthy elite of Martha’s Vineyard, where Obama lives, have already made it abundantly clear that they will not be participating in any illegal alien relocation schemes, middle-class Americans will have to accept them into their communities instead.

None of the rich neighborhoods plastered in *We Welcome Our Refugee Neighbors* yard signs will ever see a single migrant resettled there, but you can be sure that American suburbs all across the nation will be flooded with all these plane loads of people until Obama et al. have successfully replaced the current America with their envisioned new America.

This year, the Biden regime also launched its own similar program to Welcome.US that aims to fly in 360,000 migrants from Cuba, Haiti, Venezuela, and Nicaragua. That program is part of an “expansive parole pipeline,” we are told, that has already released about one million migrants into American communities between 2021 and 2022.

Since he first started occupying the Oval Office, the Pedophile-in-Chief has brought in close to five million illegal aliens, all of whom now live illegally in American communities right alongside legal American citizens.

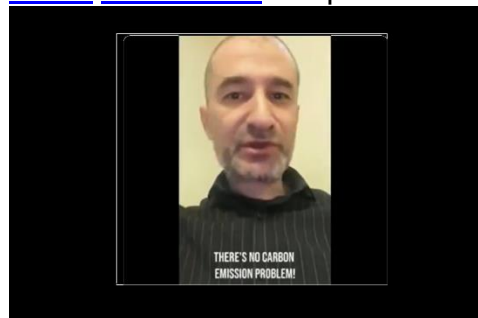

The powers that be are working really hard to replace Americans with these illegal invaders. To learn more, visit [InvasionUSA.news](https://www.invasionusa.news).

There is NO "Man-Made Climate Change"

World Hal Turner 23 April 2023

We've all heard it for years: "Global Warming, Climate Change" ALL OF IT is complete fraud. The people pushing this are modern day snake-oil salesmen. The entire premise, that CO₂ holds heat and is causing the planet to get warmer, is false. Using the environmentalists own numbers, here's proof:

Big Ag panicking as legislators push mandatory labeling for mRNA gene-altered meat

Believe it or not, pork producers have been "vaccinating" their pigs with mRNA-based "vaccines" since at least 2018 – without telling the public, of course.

But [new legislation out of Missouri, if passed, would change that.](#)

Missouri House Bill 1169 would require the labeling of all products that have the potential to edit or otherwise alter human genes. This includes meat derived from animals that have been injected with mRNA chemicals.

"All customized mRNA 'vaccines' are untested," warns Dr. Joseph Mercola. "Only the mRNA platform itself has been approved."

According to the National Cattlemen's Beef Association, there are no current mRNA vaccines licensed in the United States for use in beef cattle. Apparently just pigs are being injected for the time being – but that could soon change as well.

We are also hearing reports that some cattlemen are, in fact, injecting their herds with mRNA chemicals illegally and without anybody knowing about it. Does this mean that some beef products currently on the market are tainted with mRNA?

The Missouri bill seeks to get ahead of this new trend, which was spawned by the Wuhan coronavirus (Covid-19) “pandemic,” by making it illegal to sell meat from animals that received mRNA injections without proper labeling of such. (Related: Check out our [earlier coverage](#) confirming via research out of MIT that RNA vaccines are absorbed through the stomach and intestines, meaning animals that receive such injections are absorbing the contents in their muscle tissue.)

Tell your representatives to pass Missouri House Bill 1169 to protect the American food supply against mRNA poisoning. Attorney Thomas Renz is another freedom fighter who is sounding the alarm about the threat of mRNA in the food supply. He and others are promoting the passage of House Bill 1169, which he helped write, to rein in Big Ag and protect consumers against this latest pharmaceutical threat to their health.

Are You Eating Pork Injected With Merck’s mRNA Livestock Vaccine?

- For the last couple of years, I’ve recommended not eating pork due to its high linoleic acid (LA) content, but there’s an even bigger reason to avoid it now. Since 2018, pork producers have been using customizable mRNA-based “vaccines” on their herds.
- The very first RNA-based livestock vaccine, a swine influenza (H3N2) RNA shot licensed in 2012, was developed by Harrisvaccines. The company followed up with an avian influenza mRNA shot in 2015. Harrisvaccines was acquired by Merck Animal Health later that year.
- **CureVac developed an mRNA-based rabies shot for pigs in 2016.**
- The swine vaccine platform Sequivity, introduced in 2018, was developed by Merck in partnership with Moderna. Sequivity can produce endlessly customized “vaccines,” none of which undergo safety testing.
- Americans have been eating pork treated with gene therapy for nearly five years already, and even more of our meat supply is about to get the same treatment. mRNA-lipid nanoparticle shots for avian influenza are in the works, as are mRNA shots for cows. Lobbyists for the Cattlemen’s Association recently confirmed they intend to use mRNA “vaccines” in cattle, which might affect both dairy and beef.
- Missouri House Bill 1169 would require labeling of products that can alter your genes. It would also require companies to share information about the potential transmissibility of gene-altering interventions, and asserts that fully informed consent must be given for all vaccines, gene therapies and medical interventions.

LETHAL INJECTIONS: 18% of cattle DIE immediately following mRNA “vaccination”

October 21, 2022 ([Natural News](#)) Much of the conversation surrounding mRNA (messenger RNA) “vaccines” centers around their impact on humans, but how about all the animals that are being injected with it?

Believe it or not, cattle are reportedly now [getting jabbed](#) with the stuff, which in a recent mass “vaccination” campaign of an Australian herd resulted in 35 of the 200 animals dying *immediately*.

We [are told](#) that dairy farmers and others are now being *forced* to inject their animals for the Fauci Flu in order to remain in business, and that the animals are not responding well to it.

Just like in humans, the shots are causing such profound damage that many of the animals are succumbing to *instant death*, while the others are getting sick and dying over a longer period of time. (Related: mRNA spike proteins [linger in the heart and brain](#) long after injection.)

For the animals that survive, one wonders what is becoming of their milk, which gets passed on as food for other animals as well as humans. Is it safe to consume mRNA-tainted milk and cheese from a “fully vaccinated” dairy cow?

The answer is *NO*.

“Dairy herd DNA is altered,” one report explains. “Milk is altered and you consume it! Butter, yogurt, and cheese are being altered, meat is being altered – will chicken and other meats be next?”

Storable food FRAUD taking place nationwide as promoters falsely claim “non-GMO” status for GMO-derived foods

If you're buying storable food that you think is “non-GMO,” you've probably been hoodwinked.

We've become aware that a large number of storable food manufacturers and affiliates are falsely promoting their food products as “non-GMO” even when they are heavily derived from genetically modified corn, soy and canola products. A good rule of thumb to remember is that if it's not USDA organic, it's probably GMO when using any ingredients derived from corn or soy. And nearly all the non-organic storable foods being sold right now are non-organic. They contain GMO-derived ingredients like:

- Textured Vegetable Protein
- Maltodextrin
- Corn syrup solids
- Partially hydrogenated soybean oil
- Modified corn starch
- Hydrogenated canola oil

INGREDIENTS: rice (parboiled long grain rice, enriched with ferric orthophosphate [iron], niacin, thiamin mononitrate [thiamin], and folic acid [folate]), refried beans (black beans, salt), modified food starch, black beans, chicken base (corn syrup solids, salt, corn starch, hydrolyzed corn and soy protein, rendered chicken fat, sugar, onion powder, disodium inosinate and disodium guanylate, spices, turmeric, dehydrated parsley, and silicon dioxide added to prevent caking), chili powder (chili pepper, spices, salt, garlic, silicon dioxide, ethoxyquin), onion powder, red and green bell pepper, cumin, non-iodized salt, cilantro, garlic powder, chipotle chile pepper. **Contains: Soy.**

Up to 25-Year Shelf Life

 **MADE IN THE USA**

In addition, the vast majority of non-organic storable foods also contain:

- Yeast extract (a hidden form of MSG)
- Partially-hydrogenated oils that contain trans fats
- Pesticides and herbicides (never labeled)
- Glyphosate residues

on certain crops such as oats and legumes

- Artificial coloring chemicals
- Disodium Inosinate or Disodium Guanylate chemicals for butter flavoring

The frightening truth is that as Americans are stocking up on storable food right now, most people are buying processed foods made with GMOs and questionable ingredients that have long been linked to chronic, degenerative health problems such as heart disease, diabetes and cancer.

Some promoters LIE to consumers with deceptive advertising, claiming “non-GMO” status

Many storable food products are sold under affiliate arrangements with promoters, and we’ve observed many cases where promoters claim “non-GMO” status even though the company they represent doesn’t offer any certification of non-GMO status whatsoever.

“Non-GMO” is something that’s easy for promoters to claim because they know most consumers will never ask for proof of non-GMO status. And federal regulators aren’t aggressively enforcing false non-GMO claims made by affiliates. In effect, the very same companies that buy massive quantities of GMO corn, GMO soy and GMO canola are processing those ingredients into storable foods which are promoted by their affiliates as “non-GMO.”

And they’re getting away with it. And the reason they keep promoting these low-quality foods is because low-grade foods have high margins and high profitability.

So promoters deceive their own customers with false claims, but they get paid nicely by the dishonest food manufacturers who look the other way when their own affiliates are openly deceiving their customers with deceptive marketing claims.

How to know for sure if something is non-GMO

In the United States, the best way to know for sure if something is non-GMO is to buy USDA certified organic storable food products. Certified organic always means non-GMO, did you know that? GMOs are not allowed under organic certification.

USDA certified products must display the green circular “USDA organic” logo on their product. This certification is audited each year by a USDA-certified auditor who spot checks a manufacturer’s inventory to make sure they aren’t cheating on non-GMO claims. I know this because I’ve gone through many USDA organic

audits of my own food manufacturing facility at HealthRangerStore.com.

The other way to know for sure is to look for the Non-GMO Project Verified certification, which is a private certification that means non-GMO but *doesn't* mean organic. So these foods can still be grown with pesticides and glyphosate as long as they aren't genetically modified.

If you've purchased storable food and you're concerned that it might be GMO because it contains ingredients like maltodextrin, textured vegetable protein or soy derivatives, you should contact the manufacturer and ask for non-GMO certification or USDA organic certification.

If they can't produce this certification, they don't have non-GMO products and they're almost certainly selling you GMOs, and you should demand a refund. **READ the ingredients (and prepare to be shocked)**

The No. 1 thing that consumers need to do is read the ingredients labels before buying storable food products. If the labels contain ingredients that are hydrolyzed, autolyzed or hydrogenated, it's almost certainly highly processed GMO-laden food. Almost without exception, ingredients that come from corn — maltodextrin, corn syrup, citric acid, etc. — are derived from GMO corn. When you read ingredients labels, you will be absolutely shocked about what's in most storable food products.

Not surprisingly, many storable food companies go to great lengths to hide their ingredients lists, making them difficult to find on their websites.

Whatever storable food you have right now, add to it with certified organic storable foods that you know aren't GMO. Sadly, this is very difficult to do, given that organic storable food is rather difficult to find. Even my own organic storable food product — known as "Ranger Buckets" — seems to be perpetually out of stock. The minute we manufacture 500 new sets, they're sold and gone usually in a day or two. (See FoodCollapse.com for more news on the rapidly collapsing food supply situation.)

What I recommend as an alternative is to get some 5-gallon pails (buckets) and go purchase bulk, organic food staples like quinoa, whole wheat, oats, lentils, beans, rice, etc., and start stocking up by the pail. This will give you a tremendous value in terms of total calories and nutritional quality, and many of these items like beans and whole wheat can store for 10 – 20 years in a cool location. (Many storable food companies falsely claim 20 – 25 years of shelf life for processed foods that should technically only claim 2 years of shelf life.)

Note that brown rice has shorter shelf life than white rice, so store white rice for long-term viability. Never store wheat flour; store whole wheat berries and buy a food grinder. The less processed the food is, the longer it stores without going bad. I like to store whole flax seeds, for example, but I would not try to store flax seed flour.

If you want certified organic storable food meals, they're incredibly difficult to find these days... perhaps impossible. So you'll need to stock up on organic staples yourself. I've found that as long as you have a good seal on the bucket — usually the lid needs to be hammered on with a rubber mallet — it doesn't need to be nitrogen packed or vacuum packed—I **disagree**. The bucket itself is the seal, keeping out air, light and critters. So be sure to fill each bucket to the very top in order to displace as much air as possible.

And this doesn't even get into the false claims of "meal" definitions where some companies claim a "meal" is 250 calories, which means they're giving you a starvation diet as part of their so-called "one year supply" product. (One year for a rat, maybe, but not for a human...)

Sadly, a lot of the storable food being promoted today, even among patriots and conservatives, would barely qualify as prison food. It's such low quality that any person with even a basic knowledge of nutrition would avoid such products.

Over the years, I've witnessed firsthand popular patriot broadcasters blasting GMOs, Monsanto and Bayer, followed by a commercial break that promotes storable food products made from ingredients derived from GMOs, Monsanto and Bayer.

It's truly insane. Some of the very same people who warn about globalism and the depopulation agenda are themselves selling food products that enrich globalist, anti-human corporations like Bayer, an offshoot of IG Farben which was part of the Nazi Holocaust regime.

But they earn a lot of profits in promoting these toxic products that enrich evil globalist corporations. With a lot of people, it seems, as long as they're getting rich, it doesn't matter what they're promoting.

MY PATRIOT SUPPLIES lies about certain ingredients! BEWARE!

January 28, 2020

My roommate recently ordered some emergency food supplies from MY PATRIOT SUPPLY. She wanted to be ready for emergencies. I said "great," but let me first **CHECK THE INGREDIENTS LISTINGS**. I am a professional health care provider and researching nutritionist as well.

Honestly, I was deeply disturbed when I read the ingredients listed on one product. While MPS clearly states there is **NO MSG ADDED**, I discovered this to be deceitful and misleading advertising.

The ingredients listed in this one meal included **HYDROLYZED SOY OR CORN PROTEIN**! As all nutritionists know, this is just a cover-up for MSG!

Furthermore, all corn or soy, unless specifically stated that it is **ORGANIC OR NON-GMO**, is highly contaminated with pesticides and is typically GMO.

Corn syrup is extremely unhealthy, as well as other dubious ingredients with long chemical sounding names.

If MPS is being deceitful, actually **LYING TO THEIR CUSTOMERS** about "NO MSG" in their products, when in **FACT HYDROLYZED CORN OR SOY PROTEIN** is MSG and unhealthy and used as a flavor enhancer..then **HOW CAN MPS** be trusted with the **REST** of their information they publish about their products or ingredients???

kind of problems with deceitful or misleading advertising regarding food quality also.

I had to toss it. it really makes me wonder what the rest of their food tastes like.

I have been purchasing items from Patriot Supply and just putting them aside. I decided to try a package of their butter and it was so horrible that it took hours to get the horrible taste out of my mouth. So then I opened a #10 of the butter

So I leave a bad review on the butter and they never posted it. So they are lying with all the good reviews because they never post the truth. I got my order in today, I only got the 4-week supply to test it all out. I'm extremely disappointed with the food. It's mostly rice and uncooked noodles, and only a couple of things are freeze-dried like carrots and celery, that's pretty much it. Everything else you can buy from the store and package yourself in the Mylar bags for a fraction of the price! The product is packaged and promoted very well, so don't let the pictures fool you. Everything takes up to 25 minutes to cook and with true freeze food, all you need is to pour some hot water in the Mylar bag and in a few minutes you have a ready meal. This is not true freeze-dried food!

Bottom Line: No, I would not recommend this to a friend

I mean it's toxic food and yet u sell it as if it's all good.. it should convict u that Mike warns of these ingredients and yet u still persist and deny and avoid and blame shift and reject the reality that people care for your soul and yet ur playing games with the Lord..... selling food with toxic ingredients is something an enemy would do !!!! R u gonna smile in our faces with reassurance and then just keep selling stuff u know is toxic .. it's time to wake up dave God will judge u for these things.. it's a form of lukewarmness to not take issue and be concerned I'm sure u will be prideful and defend that which is not defensible . . Dave I beg I to stop selling garbage to Christians or God is gonna swoop in on you when u least expect it dude I do not want to see I suffer for endangering the people of God.... tell me if u think Jesus would have u sell is food that is straight up toxic but then the rank hypocracy of having people on who speak against thos ingredients that are toxic, but yet selling food that is toxic.. God will not bless u if u continue in

this.... and u can be silent all u want dave, u can give me the silent treatment and act offended but u know for a fact that its wrong and u should repent or I will plead the fire of God's word upon you, and it will fall on you like a hammer that breaks the rock in pieces... that's what is needed dave a hammer for your hard heart.. how can I claim to be a Christian and not be sensitive to these things dave !!!
