William Casey
CIA Director (1981)

Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, **but rather reprove them. But all things that are reprovved are made manifest by the light:** for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest,** and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly,** not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary**

defines: "**Reprove**": To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt. "**Circumspectly**": Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive **the very elect.**"

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we **are not** ignorant of his devices."

II Chronicles 7:14: "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Luke 21:36 Watch ye therefore, and pray always, that ye may be accounted worthy to escape all these things that shall come to pass, and to stand before the Son of man.

Matthew 24:13 But he that shall endure unto the end, the same shall be saved.

Psalms 101:3: I will set no wicked thing before mine eyes: I hate the work of them that turn aside; it shall not cleave to me.

Psalms 11:5: The LORD trieth the righteous: but the wicked and him that loveth violence his soul hateth.

1 Cor 15:33: Be not deceived: evil **communications** corrupt good manners.

Lexicon Strong's G3657--Outline of Biblical Usage of the Word:

"Communications": companionship, communion

"It does not take a majority to prevail... but rather an irate, tireless minority, keen on setting brushfires of freedom in the minds of men." Samuel Adams

"The average age of the world's great civilizations has been two hundred years.

These nations have progressed through the following sequence: from bondage to spiritual faith, from spiritual faith to great courage, from courage to liberty, from liberty to abundance, from abundance to selfishness, from selfishness to complacency from complacency to apathy, from apathy to dependency, from dependency back to bondage." Alexander Fraser Tytler

+1+ PRAYER TO NEUTRALIZE OCCULT RITUALS

Father God in the name of the Lord Jesus Christ, the Lamb that was slain before the foundation of the earth, seated at the right hand of the Father; we come in the authority given to us in Christ Jesus. **We place a hedge of warring angels with flaming swords of fire around us and our families continuously. We put on the whole armor of God. We resist and renounce Satan, the god of this earth. We rise to war by the power of the Holy Spirit against witchcraft, occult maneuvers and devices sent against Your Will and the Body of Christ. We ask you to dispatch legions of warring angels in full battle array to enforce our petitions and intercessory prayers. Rout your enemies on all fronts. Turn their hatred, anger, accusations, conflict, arrogance and wicked schemes upon themselves so that they become caught in their own snares and fall into the pits that they intended for others.** We nullify, cancel and oppose every satanic operation, scheme, maneuver and strategy. Cause secret plans, agendas and motivation of the enemy to be revealed for everyone to see. We decree and declare that what these evil people & entities meant for evil, you will turn it around and use it for the good of your people. We close every evil portal that has been opened by them. In the name of the Lord Jesus Christ and His shed blood, we break and cancel every curse, spell, hex, vex, charm, enchantment, decree spoken or unspoken, sent against the Body of Christ, the innocent and your intercessors by every witch, warlock, satanist, sorcerer, voodoo priest, shaman, soothsayer, medium, coven and every minion of the devil working iniquity. May they fall into the very pits they have dug for others. Lord Jesus, reveal your love to them. Save those that can be saved. Show them the truth about who they are serving, and their eternal destination if they continue in their present path. Open their minds, eyes and ears to receive supernatural insight and knowledge to understand the truth of the Gospel. Bring them to salvation. We seal this prayer by the Blood of the Lamb and in the name of the LORD Jesus Christ. Amen.

Globalist Planned 'World Changing Event' Seen By Clif High 'Web Bot' Project & Growing Number Of 'Future Forecasters' AKA "Remote Viewers" Warning Of Coming Cataclysms, 'End Times' Catastrophe For Humanity

Comment: The end result of this report is the promotion of the delusional, New age, scammer Clif High and the Multiple Remote Viewers that the Alex Jones Channel is also in alignment with: By Alan Barton - All News PipeLine Regarding Clif High, personally I have a hard time following his style of presentation as it usually involves mystic or irrational assumptions (**strange for someone who is so very intelligent**) Rom 12:3 "For I say, through the grace given unto me, to every man that is among you, not to think of *himself* more highly than he ought to think; but to think soberly, according as God hath dealt to every man the measure of faith." **so I seek out what I want by fast forwarding through much of his videos and speeding through his written word looking for bits of interesting stuff if I even go that far. 1Co 5:6** Your glorying is not good. Know ye not that a little leaven leaveneth the whole lump?

Aug 11, **2017**--With so many opportunists coming out every day using the best of our technological platforms, i think the time is now for this awareness video, **The '2017 Year of the Internet Scam Artist'**. This First video identifies Clif High, a particular internet personality who has used the sale of his prophetic predictive linguistic software and webbot reports (based on endless apocalyptic predictions and financial commodities) to entice people to buy various goods including his reports and lose money. In this video I show you his real personality, that he is not interested in the well-being of the people, he is constantly arrogant, rude, his ideas are unbalanced and exaggerated including the claim that there is no god beyond death, because his vast experience of going to the afterworld has proved him right.. I also show how he manipulated his older predictions into fresh ones for the current day to enforce his status of having a trustworthy product, plus so much more such as: the failed 2013 global coastal event, the 2016 market crash, the 2017 market crash, the 2017 earth quakes from Alaska to mid USA, rivers in the sky, levitating forklifts in Antarctica, the sun is not yellow anymore its blue!, How he claims to be a Schizotypal Personality [not sure why he believes this claim is supposed to instill confidence in customers and business partners] he is actually a Narcissistic personality and so much more.

Scott Johnson's Comment: JW is dangerous. I mean he is going to 'lead people to hell' dangerous. Implying that Astral Projection is something we need to aspire too!! Like we as a human race are being held back because we can't do these things! That is one of the highest powers in witchcraft and multiple witches have been killed trying to come to my house via astral projection. JW is extremely deluded and not a Christian. I have talked about this subject in these teachings: <http://www.contendingfortruth.com/?s=Astral%20projection>

Subject: *Ok, so now I'm reading some of the comments JW left and I am developing some rage. Seriously he does not know what he is talking about. It is the total opposite of what he is saying. You become FULL OF FEAR when you do things like he is saying to do. The person I know who has done it is extremely fearful. See his comments below:*

Sent from Samsung Galaxy smartphone.

Comment: Yes these were the verses that came to mind regarding JW:

Proverbs 14:12 & 16:25: "There is a way which seemeth right unto a man, but the end thereof are the ways of death."

Proverbs 28:26: "He that trusteth in his own heart is a fool: but whoso walketh wisely, he shall be delivered."

Jeremiah 17: 9 & 10: "The heart is deceitful above all things, and desperately wicked: who can know it? I the LORD search the heart, I try the reins, even to give every man according to his ways, and according to the fruit of his doings."

Globalists have another shock event planned in pursuit of the 'Four Ds': Digitization, Dehumanization, Destruction and Depopulation

The convergence of multiple red-alert warnings is staring us in the face, all pointing to a major "event" of some type in the upcoming weeks or months. Whatever it is, this new catastrophe will hasten the collapse of the old world order system, a collapse of economies and political structures that is already underway, paving the way for the Great Reset or, as some call it, the New World Order. I call it the beast system.

Predicting the timing of such an event is impossible but I do believe we are looking at a major shock event happening roughly within the next three to nine months, a year at most.

The reason is simple. The billionaire globalist oligarchs desire to bring about a situation which involves digitization (of money and human beings), dehumanization (humans replaced by transhuman hybrids), destruction (of all cultural norms, male/female genders and depopulation (of those deemed "useless eaters")). These are the "Four Ds" needed to bring about the total control that globalist technocrats seek to extend over all human behavior in a restructured world run by artificial intelligence and based on the elimination of all fossil fuel usage by the common man (non-oligarchs).

So the Four Ds are used to get to the fifth and final D, which is dystopia. In the eyes of the globalist predator class, they're reaching for their utopia, but for the rest of us, it will be a horrible, a dystopia.

These globalist oligarchs were only able to destroy so much of the old world order with Covid and they need another big crisis event to finish the job of achieving all their dystopian goals, which are encompassed in the Agenda 2030 Sustainable Development Goals. They've played language games, reminiscent of Orwellian newspeak, to make us think the SDGs will bring about utopia. In reality, the masses will be ushered into the nightmare of dystopia.

If the globalists continue to pressure their minions in national and state capitols to enact their green new deals and "net zero" campaigns, the masses will eventually wake up and come for these globalists. That awakening has already begun, and that is why it is urgent that they escalate a full-blown World War III scenario, which includes famine and shortages, as soon as they possibly can. The window is closing on the King Charles-initiated "Great Reset" and so it's time to double down on destruction and depopulation. If they don't, they will never get to full digitization and dehumanization, the end of human history,

<https://leohohmann.com/2023/09/25/globalists-have-another-shock-event-planned-in-pursuit-of-the-four-ds-digitization-dehumanization-destruction-and-depopulation/#more-15956>

RED OCTOBER IS HERE: Just how many October Surprises will the NWO globalists try pull off? No matter what happens during this RED OCTOBER, the Satanic elite always make good use of this month to prepare for their long-planned American Bolshevik Revolution

What most don't realize is that October is often the month that *The Powers That Be* pull off many other captivating catastrophic events which are integral to the implementation to their *New World Order* agenda.

As if the world did not have enough to fret about, here comes Russia staging a first-time nationwide nuclear exercise on Oct. 3 as follows:

Russian authorities will hold large-scale nuclear prep drills across the country on October 3, 2023

The following video explores how three major events in the beginning of October could lead to a domino effect depending on the actual NWO implementation plan, of course.

Language: NATIONWIDE NUCLEAR EXERCISE IN RUSSIA OCT 3rd & GOVERNMENT SHUTDOWN USA OCT 1st & EMERGENCY BROADCAST OCT 4th (Video)

Then there is this interesting take on the matter of travel after October of this year. **No Travel After October?!?**

No matter what happens during this **RED OCTOBER**, the communists always make good use of this month to prepare for their long-planned American Bolshevik Revolution. After all, the key takeover event of the 1917 Bolshevik Revolution was launched during **RED OCTOBER**.

It does not get any more dangerous and deadly for the American Republic than OPERATION TROJAN HORSE

Of course, the biggest thing that can happen over the next 30 days is the meticulously controlled demolition of the Global Economic & Financial System, just as the banksters did in September/October of 2008 and on **Black Tuesday**, October 29, 1929, and on **Black Monday**, October 19, 1987.

Lastly, given the sheer desperation that the *Plandemic* perps now demonstrate at every turn, there is the distinct possibility of TPTB pulling out all the stops as follows:

BEWARE! THE TRIPLE WHAMMY Of 2023

Psalm 57:1 "Be merciful unto me, O God, be merciful unto me: for my soul trusteth in thee: yea, in the shadow of thy wings will I make my refuge, until these calamities be overpast."

II Timothy 1:7: "For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."

Psalm 18:2: "The LORD is my rock, and my fortress, and my deliverer; my God, my strength, in whom I will trust; my buckler, and the horn of my salvation, and my high tower."

Psalm 34:7: "The angel of the LORD encampeth round about them that fear him,

and delivereth them."

Prayer & Fasting Alert: The Occult Holiday/Holydays for October, November and December

With everything coming our way (**especially going into October and December with all the occult holidays** (see below for the occult calendar for the rest of the year—**this is how high level occultists 'celebrate' these days**) This is how they 'practice' their religion. Personally, I got convicted to do a 3-day water fast (**see below for a high amount of info on fasting**). Anyone who wants to join in please do so (in whatever way the Lord convicts you), **as God is in control but evil is encroaching at every level.**

Vaccine Injury Treatment - Fasting for 48-72 hours creates autophagy - the body's detox process that kills COVID-19 vaccine spike protein damaged cells and reboots the immune system

The benefits of fasting on COVID-19 vaccine injuries are now being looked at seriously in the scientific literature.

Originally Published on Dr. William Makis' Substack

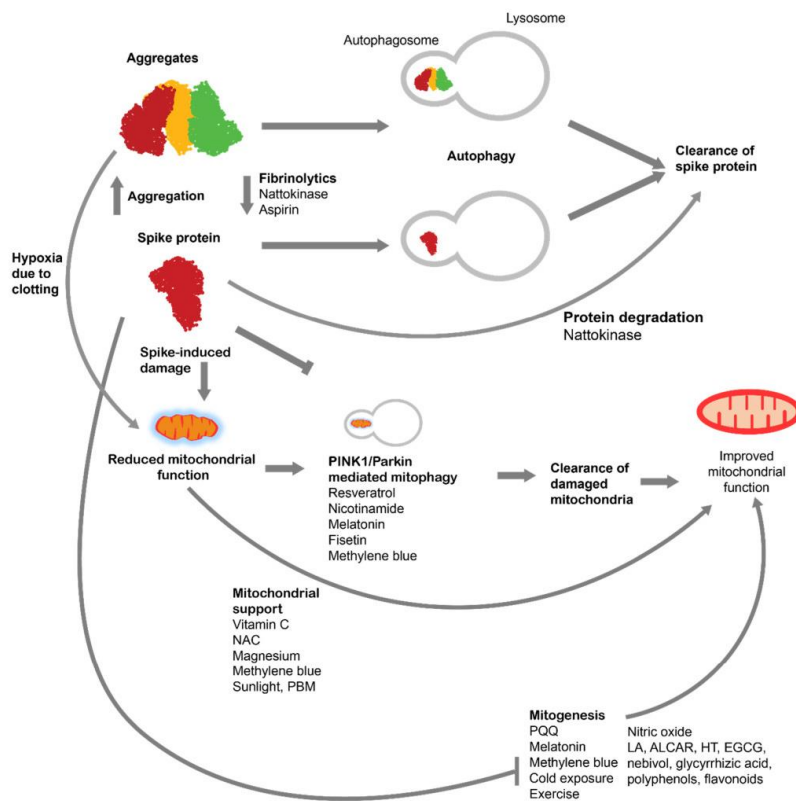

What is the literature on fasting & COVID-19 vax injuries?

The benefits of fasting on COVID-19 vaccine injuries, are now being looked at seriously in the scientific literature with a number of new papers coming out:

- [June 19, 2023 - Matthew Halma et al](#) - Exploring therapeutic applications of Autophagy in spike protein related pathology
- [May 17, 2023 - Matthew Halma et al](#) - Strategies for the Management of Spike protein related pathology

- [March 2022 - Bhatti et al](#) - The impact of dawn to sunset fasting on immune system and its clinical significance in COVID-19 pandemic

COVID-19 Spike protein damage:

- Spike protein creates blood clots, damages blood vessel walls and causes inflammation
- Spike protein damages mitochondria (causes decreased energy production, accumulation of reactive oxygen species)

- Spike protein blocks damaged mitochondria from being cleared by the body
- spike protein fragments can produce amyloid proteins ([click here](#))
- spike protein destroys gut microbiome ([click here](#))
- spike protein causes severe immune

system dysfunction, which can lead to autoimmune diseases and cancer ([click here](#))

Autophagy

- autophagy is the body's way of removing abnormal proteins, damaged cellular components, damaged cells.
- autophagy is stimulated by fasting, heat therapy (sauna), ozone therapy, hyperbaric oxygen therapy
- autophagy is also stimulated by: coffee, resveratrol, turmeric

Fasting:

There are two main categories of fasting:

- prolonged fasting (lasting for at least 36 hours)
- intermittent fasting (shorter fasting periods of 12 to 24 hours)

There are several goals of prolonged fasting:

- remove as much spike protein from the body as possible via autophagy of cells that express the spike protein
- remove spike protein aggregates, amyloid proteins, prions, other abnormal or misfolded proteins that can cause disease
- reboot the immune system and produce new immune cells
- improve gut microbiome
- improve mitochondrial health and function, create new mitochondria
- stimulate stem cell production

The Disturbing Connection Between the October 4th EBS & the CCP — Todd Callender Interview

On September 29, a livestream symposium of attorneys, physicians and other experts discussed the dangers of FEMA's October 4 Emergency Alert Test and other issues related to 5G.

"We will present overwhelming evidence that signals from cell phone towers are not only capable of causing grievous bodily harm, but are designed to do so," said attorney Todd Callender, a symposium speaker. "For example, these signals could create a viral hemorrhagic fever outbreak designed to force Americans into quarantine centers and into compulsory experimental 'vaccines.'"

(Source: [SOS! October 4 FEMA emergency alert test is 'criminal battery,' experts say](#))

As Todd C. said in this interview, we don't have to wonder if they would try something like this, as it has happened to us in the past and they're bombarding us every day as it is:

OK to reiterate: Cell towers will broadcast the test on October 4th for approximately 30 minutes, during which all WEA-compatible phones that are on (WEA is a public safety system that allows customers who own compatible mobile devices to receive geographically targeted, text-like messages alerting them of imminent threats to safety in their area) within range of an active cell tower and whose wireless provider participates in WEA, should be capable of receiving the message, according to FEMA.

The test message will say, "THIS IS A TEST of the National Wireless Emergency Alert System. Agency, covering the United States from 14:20 to 14:50 hours ET. This is only a test. No action is required by the public."

CELL PHONES and "ALL WIRELESS" TECHNOLOGIES are DIRECTED ENERGY WEAPONSTARGETED INDIVIDUALS' PHONES CAN BE PULSED AT HIGHER DEADLIER FREQUENCIES--SMART METERS CAN BE PULSED

The smart meters could likely be pulsed on Wednesday October 4, 2023 during FEMA's Emergency Alert Broadcast. The wireless smart meters can be remotely pulsed with INCREASED FREQUENCIES. Also, transient frequencies can be sent into internal electrical wiring which can travel into the air and into us. This is dirty electricity. Even if you don't have a smart meter on your home the neighborhood area network (houses near you with smart meters) creates densified deadly frequencies. Also, many building codes do not have ground rods that are driven into the earth. Many current codes only require the grounding into the concrete foundation – however, earth-driven rods are a preferred ground. The effective earth-driven grounding sends the frequencies into the ground... transferring the EMF away. Most grounding is not what it should be - which adds to dirty electricity. https://mcusercontent.com/b69c3312f3e5ff587cb5874f8/files/daf4e090-6122-1dc2-9540-4847e997e4cf/EMERGENCY_ELERT_FREQUENCY_WARFARE.01.pdf

DIRTY ELECTRICITY

www.DirtyElectricity.net

DIRTY ELECTRICITY WILL KILL YOU -

Electrical pollution is not something we see, smell, taste or touch, yet it has become the greatest polluting element in the earth's environment.

Dr. Sam Milham is a scientist, Whistleblower.
"This is an industry cover up of the toxic facts, by electric utility companies, the cell phone industry, public utility commissions, state health departments and the FDA."

The basic frequency on the power lines of electrical power delivered to our homes and other buildings is now increased with an "added" higher frequency polluting electrical voltage and currents, delivering that higher frequency power into the wiring and into the devices in our homes, offices, and schools. Dirty electricity does not need a direct wire connection, it connects through the air, traveling into the human body from the wiring that carries the power. Once in the human body, these high frequencies cause cancer and many other diseases. Smart meters, cell towers, cell antennas, cell phone chargers, computers, copiers are a few common sources of dirty electricity.

Dirty Electricity Will Damage the Entire Human Population.

Listener Question: OK, where specifically do you see any Bible for this? We are not in the tribulation yet. Also, they may want to start a zombie apocalypse, but even in the tribulation, scriptures you could use to support this are few, and you would have to extrapolate the actual written word to mean something it does not really say, to mean this.

Now I am not saying any of this is going to happen, but maybe it is by the prayers of the saints that will move the hand of God, so that it does not happen (I agree with what you are saying about praying and that is why I start off all my broadcasts now with those warfare prayers); and yes your right, I don't see Bible for something like a zombie apocalypse prior to the tribulation (or even in the tribulation), but who knows (if there is any truth to this), if this may be a much smaller event than the elites planned, if God intervenes through the prayers of the saints.

5G Causing Illnesses, Stabbing Feeling, Migraines, Dizziness, Vertigo, Skin Rashes, Blurred Vision And So Much More!

Elizabeth Plourde PhD noticed the large issues with 5G when many of her clients turned up horrifically ill after getting a new phone with 5G. Some were getting a stabbing feeling, others were getting migraines, dizziness, vertigo, skin rashes, blurred vision and other illnesses. As someone who suffers from the negative effects of dirty electricity, she noticed the connection for her patients. The main thing she [heard was](#), “I was never told this! I didn’t know.”

Dr. Plourde [says](#) you can survive this, if you take the proper steps.

Plourde wrote the book [EMF Freedom](#) which won the prestigious Best Environmental Book of the Year Award.

She says, “EMF Radiation causes oxidation damage. They never did the studies of putting a human in an electric car or a hybrid car. People are getting sick. After driving in a hybrid for a year to a year and a half, people complain. Our human platelets, in just 30 minutes of being in a car like this, are being oxidized.”

Plourde herself is what is classified as a canary in the coalmine, meaning if there’s something not beneficial to the body, her body will tell you. **She couldn’t walk past smart meters, couldn’t hold a cell phone and had severe sensitivity around dirty electricity. Her dizzy vertigo was overwhelming.**

‘Non ionizing radiation doesn’t break the DNA immediately but it vibrates which eventually breaks the DNA,’ she says. “The new 5G is up in the radar range. They needed more bands to handle everybody. This is so absurd that they are able to do this. The Navy has known for years that it damages, they get cataracts. We are being microwaved in our houses every day. It’s the pulsing that’s causing the damage.”

Even those who are healthy, see a change in their body over time. It’s a slow, low grade change, with negative health effects.

“The 5G utilizes a lot of different bands. The 5G is short millimeter waves, they don’t penetrate walls very easily,” she says. This is why the towers need to be so frequently placed and so close together. She says the oxidation is causing holes in the blood brain barrier and in our cell membranes. Every cell in our body is getting holes. If you have heavy metals, or other toxins inside the body, they are getting inside the cells. The results are our mitochondria can no longer make energy.

“It drops our melatonin, babies aren’t sleeping because it’s dropping our melatonin,” Dr. Plourde says. “My son is 56, we never had a sleeping problem – the kids just went to sleep. Melatonin does a lot for us. It helps protect against cancer, acts as an antioxidant and protects the oxygen.” For some it’s sleep, for others it’s vertigo, and for others still, it’s migraines. “This is the problem, we all are reacting differently. Husbands and wives stand in front of me, one is reacting, the other is not and says you’re crazy.”

This creates division and can be very damaging on a relationship. This is the case for older couples who have been together for a long time, but is especially true for young married couples who are having difficulty getting pregnant.

5G, HUMANS, BEES AND WILDLIFE IN 2023--Babies are being killed by hospitals

A correspondent in North Carolina sent me this account a few days ago of a healthy newborn who was irradiated nearly to death by the hospital environment:

“I want to relate what happened to my Goddaughter’s baby brother at the Duke Medical Center earlier this spring. Baby Emiliano was born in excellent health, but when I returned 12 hours later, he had been moved to a different room and I became concerned because I myself developed dizziness, tremor, and headache within about 5 minutes of visiting his room.

“I knew to check my RF meter because these are microwave sickness symptoms which I get when the RF levels are high. The Cornet measurements hovered between 11 and 15 milliwatts per square meter! Personally, I need the RF levels below about 0.006 milliwatts per square meter, so I can’t imagine what it was doing to an infant who was only 12 hours old. When I opened the curtains I noticed there was a round 5G pole outside on the street; also straight out of his hospital window you could see a rooftop cell array that looked like several large white panels on top of another hospital building across a small green quad. You could see them clearly because the other building was shorter, which meant that the roof panels lined up horizontally nearer to the level of the baby’s window.

“By day 3, Emiliano had developed jaundice and soon was put in the Neonatal Intensive Care Unit, which also had very high radiation levels. While on that unit, his jaundice numbers continued to climb, and he developed a rash. I found it interesting because I developed a rash too. I developed a butterfly rash across my face and the baby had a full-body rash on one side of his body. I told the nurse that I had a 5G rash, just like the baby. She had no clue what I was talking about. She explained that lots of babies get this rash, but they don’t know what causes it.

“After several more days in the Duke Main NICU his condition continued to worsen. I was forcing myself to visit him in the hospital, despite my being horribly sick there, because I am very close with the family. My own rash would return along with the dizziness, tremor and headache every time I visited. These would go away within 12-24 hours of leaving the hospital and returning home. The baby had to stay in the radiation, though.

“After many more days in the NICU, being irradiated 24/7, the baby developed a staph infection near his tiny fingernail. The infection began spreading down his finger and they were talking about amputating his finger. By then, I had been working for days to persuade his mother to have him transferred to Duke Regional, a smaller hospital in the northern part of Durham, and finally she asked to transfer him. My reason is that I knew that Regional had much lower RF levels based on her prior visit there during early contractions when she had stayed overnight and background radiation levels in the room were between 0.003 and 0.01. (Durham Regional is in a less affluent part of town, with lower-tech overall.) They transferred the baby by helicopter and the baby's health improved immediately. Within 48 hours of being transferred away from the high radiation at Duke Medical, the rash improved dramatically, the jaundice scores declined, and the staph infection began to improve.

“The radiation levels at Regional were about a thousand times lower than at Duke Main. Also at Duke Regional there were no visible 5G poles or roof arrays outside the baby's windows. The baby recovered fully there and is home now.”

Cancer in young people is skyrocketing--A review of cancer statistics in young people in 44 countries has been published by an international team of scientists. The rate of cancer in people under 50, they found, has increased dramatically in every one of those countries. The study, published in *Nature Reviews Clinical Oncology*, is titled “[Is early-onset cancer an emerging global epidemic?](#)” The authors speculate on various possible causes for this epidemic, including diet, lifestyle, obesity, the microbiome, and genetic susceptibilities, but are forced to conclude there is no evidence that any of these factors have caused the global increase. **There is only one mention of ionizing radiation in a single sentence, and no mention whatsoever of RF radiation.**

Nearly half of all U.S. honey bee colonies lost last year

The Bee Informed Partnership's [annual survey](#), published on June 22, 2023, revealed that 48.2% of all honey bee colonies in the United States were lost in the period from April 1, 2022 to April 1, 2023. “Lost” means all bees in the colony died.

Smart cities are killing all life--A correspondent in Gold Coast, the “smartest city in Australia”, reported in April that his city is devoid of almost all non-human life.

“Where I live in Australia,” wrote George, “we used to have many rain forest frogs, most famous is the green tree frog. The last time it rained I heard not one bleep. Even the Queensland cane toad has disappeared. After each rain the grass used to be covered with earthworms--not an earthworm on the grass anymore. We used to hear the cicadas chirping in the evening--I haven't heard a chirp for over six years. All my fruit trees have no fruit. There are no insects, bees, spiders or even aphids on my roses. My area is well known as the smartest city in

Australia and our close by bush are dead of any environmental life (bees, butterflies, moths, birds, flying bats, frogs and native animals)

The Government Can Now Use WI-FI To See You In Your Home

<https://beforeitsnews.com/new-world-order/2023/09/wi-fi-ght-it-now-the-elites-are-using-wi-fi-to-see-you-in-your-home-13399.html>

Scott Johnson's Recommendations To Protect Yourself From Smart Meters - Wi-Fi – 5G / 4G & Dirty Electricity

Scott Johnson Comment: Yes the 1st thing I would recommend (in the strongest terms **and this is for everyone reading this email**) is getting a Wi-Fi router you can turn on and off, which also has ethernet ports, so you can just run a ethernet cable to anywhere in your dwelling that it is needed. I realize this is not ideal for a lot of people **but your health is worth it.** I have my whole place hardwired and have my Wi-Fi turned off 99.9% of the time.

Like this one which has 4 ethernet ports and the ability to turn the Wi-Fi on and off, it is the one I had to upgrade to since mine became so old it was interfering with my internet:

NETGEAR Nighthawk R7350 2400 Mbps 4-Port Wireless Router (but you have to make sure it is new and not preowned or open box', as getting the wrong one that has been used can make setting it up a nightmare. You can find these on Ebay still.

Ethernet cables are cheap and you can order any length you need on Ebay as well.

This one thing can be a gamechanger as almost nothing is as bad as being near a Wi-Fi router that is turned on 24/7, especially the new ones. **I have 2 different EMF smog meters that check 6 different things** **and they go crazy when the Wi-Fi is on and**

my dirty electricity meter also goes into outer space as well.

Also keep your mobile phones away from you (even the flip phones); they make my EMF meters go berserk. **The Smart Phones are way worse though. Always use speaker phone when you have to use them and keep them away from your head, and try to keep them in a EMF case turned off whenever you can.**

Turn off Bluetooth as well on any of your devices, when you don't need it. **Just talked to Linda again, see her contact info below and she is a treasure trove of**

information on this subject. Please call her if you have any questions, as she can save you a ton of time and hassle regarding this subject:

Scott Johnson Comment: I am already feeling better from installing all 20 Stetzer filters (I only had like 9 or 10 installed and **my dirty electricity readings were up to 900+ in Taylors room (They should be 25 or below! and the readings were just jumping all around like crazy (this is so bad for all your appliance and electronics!))** and now my outlets are like 40 to 25 depending on what outlet I check and not jumping around; **but Linda is not wild about the Stetzer filters for the reasons she listed below** and this is all she does all day long, is consulting people about this kind of stuff and you can call her if you like and if she does not answer just leave a message.

I also bought an Iron Maiden smart meter cover today. They are outrageously priced, but as far as I know they are the only ones that make them:

Subject: Re: FW: UPDATE Smart Meters, Dirty Electricity in your electrical wiring and what to do about it

...As for the Stetzers--yes, they will bring your levels down. However, they are mitigating DE only on the hot wire, not on the neutral. A DE meter only measures the hot wire. They also create a 2 kHz frequency that is shunted to neutral, they create leading current, and they increase the magnetic field on the wiring. Leading current is bad for devices and appliances. One woman had the voltage regulator (very expensive part) burn out on her generator 4 times due to the Stetzers. They also make many people, myself included, quite ill. The Satic filters filter up to 100,000 kHz, the Stetzers only up to 150 kHz. Huge difference. That said, many people do feel better with them...

Subject: **Listener Comment: solar generators creating emf danger**

Hi Scott, I thought I'd mention that there are emf dangers to solar generators. I purchased an Ecoflow Delta 2 Max, their latest release. Had it sitting in my office about 5ft away from my desk. **Since it arrived I've been feeling all the symptoms of EMF poisoning. I came from a background of EMF overexposure when working corporate so very familiar with the symptoms.** I didn't think it was the Ecoflow as the video reviews suggested it had to be enabled and could be turned off. I didn't register it, as I assumed once I logged into it with the app, then it would begin emitting emf to connect to the phone.

I finally dug out my "Safe and Sound Pro II" to check my house for emf increases getting ready for the Oct 4th event. The \$450 Safe and Sound Pro 2 is still one of the best meters you can buy and measures all the way up to the lower 5g bandwidth. You still can't buy meters to measure the mid to upper 5g bandwidth. **I** turned it on in my office and was immediately shocked at the reading. As I had scanned my house numerous times in the past I knew there shouldn't be that kind of reading anywhere in my house. I don't know how to describe the symbology my meter uses in text but my normal in house readings are 8-9 and go up to around 150-200 as you approach my shielded router. For context my Samsung cell phone emits around 5,000 when a foot away from it (Rated as extreme danger by my meter) and goes beyond my meters ability to monitor when sitting on top of it at 2.5 million (hence why people should never pocket carry when not in airplane mode or make calls with it up to their head). I never keep my phone active when in the same room as me.

Back to the Ecoflow. 5 feet away from the device it was registering a constant 20,000 and when the meter is right up to the device it's emitting over 1 million. This thing is as close to a router as you can get. You'd be safer living under a cell tower than with this in your house. The sad thing is people will have this device close to them powering their devices.

Now I'm going to see if I can mitigate it with a box covered in multiple layers of heavy duty foil. The trick will be airflow.

Subject: **Listener Comment on SMART METERS**

Comment: In a house her family just moved into with a smart meter: My poor dog wakes up like clockwork every morning between 3 and 4 -makes for a long day

He doesn't even like to stay here - so that makes me all the more fired up I'm just so angry I have to fight for my health and just like you I guarantee you that smart meter and dirty electricity is affecting you big time

Symptoms I suffered from the house I was in (with 2 smart meters who communicated to each other) along with all my neighbors (electric and gas meters)

Complete body tingling

Severe nose bleeds

Off the chart mixed up menstrual cycles

Dry burning eyes

Super fatigue

Hurting aching joints

Heart palpitations

Severe pain in my temples (no medicine could touch)

Dizziness (room spinning)

Still to this day I have two nodules in my right arm

It got to the point where I could hear electricity (very scary thing)

Nausea

Insomnia

Ringing in both ears

I mean what's not to love about them 😞😱☐

The bed canopy has been a GOD SEND

I still have the video on YouTube where we tested both meters showing it pegging out because the power company attorney told me via email that the meters only transmit once or twice during the night and we proved them to be LIARS

<https://youtu.be/dQhsRjqQM1U?si=reEK1XmVFzw6sHlu>

This is a very real weapon

UPDATE

Just wanted to let you know I found the bed canopy and put it back on and my little dog now sleeps to 6:30am to 7 a.m. instead of 4 am!!!!!!

Scott Johnson's Comment: For anyone having health issues you cannot figure out, make sure you are aware of the information below, as it could very well be the missing link for many—especially in this day and age where we are being bombarded 24/7 by EMF's coming at us from every different angle

Great to hear! Thank God I have had some real revelations about all this in the last week. The talk to Linda about this was vital and I am convinced now it is not just blocking the smart meter (with a cover), but you also have to knock down all the dirty electricity that is flowing throughout your house 24/7, as the smart meters make that so much worse. She has flyers on her website you can give out; this is just one of them;

[https://www.smartmetereducationnetwork.com/uploads/actionmaterial/Flyer%20DTE%20Unexplained%20Illness,%20It%20Could%20Be%20Your%20Electric%20Meter%20\(Already%20Installed\).pdf](https://www.smartmetereducationnetwork.com/uploads/actionmaterial/Flyer%20DTE%20Unexplained%20Illness,%20It%20Could%20Be%20Your%20Electric%20Meter%20(Already%20Installed).pdf)

So ideally, we would all need some kind of canopy or a shelter like this to sleep in like:

[Topas Canopy](#)

Or <https://lessemf.com/product/bodefense-shelter/> (see below for more updated info on this), plus a really good smart meter cover (this one you informed me about probably being the best:

[maiden/?v=93b46a3fc67d](#) now Linda recommends this one: [Smart Meter Guard](#) but I am not sure if she is even aware of the one I just posted, **and lastly** a good dirty electricity filter system set up in your house and that would be different for everyone, and this is why it is great that you can email or call Linda and talk to her and she is not high pressure and her prices are better than ordering from the factory (you can tell her I referred you if you like—but I receive zero monetary gain for making this referral or any of the links I posted above):

Here are the products she recommends, but you would have to go through her personally to get some of them: <https://www.nodirtyelectricity.com/products/>

Scott Johnson's Comment regarding the EMF sleep enclosures or canopy's

Now Linda told me to order the Naturell EMF material (for my enclosure) which is silver thread coated in cotton (**so the cotton is on the outside**) **as most of the EMF material is silver coated on the outside (like nylon with a silver coating)** She told me she has had many of her clients have done **much worse** sleeping in canopy's with the silver coating on the outside of the fiber (now I realize this is not always the case, but just an FYI). **The reason you don't want that type of silver coated nylon (or material) is that the silver is highly conductive and can act like a conductor and attract the bad EMF frequencies,** whereas the Naturell is coated in cotton, **which is not conductive.** Linda has said she has never had a client have a bad experience with the Naturell material.

Listner Comment & "How To" on Grouding Your Smart Meter--Amazing Before and After Pictures

<susan...@gmail.com> wrote:

FYI the two meters I used are the Trifield TF2 for RF readings and the Innolife DT 1130 for electromagnetic.

On Tue, Sep 19, 2023, 11:03 AM Kevin S

<zwe....@gmail.com> wrote:

Good Morning Scott, Susan mentioned to me that you were inquiring about grounding a smart meter.

What I did, as shown in the photos, was a two prong attack.

First apply a smart meter cover and second wrap copper tubing (or wire) around the meter and ground it into the ground with a copper tube.

I also attached photos showing the readings of Electromagnetic and RF. Both showing levels for a bare smart meter, meter with smart meter shield and lastly smart meter shield with copper tubing grounded. We also put an emf sheet on the inside of our electrical box which lowered the levels to almost nothing. Below are the recording levels for each.

	Electromagnetic.	RF
Smart Meter Only	1259.	16.26
W/Smart Meter Cover	263 (-79%)	0.709 (-95%)
Cover and tubing	0.00 (-100%)	0.178 (-99%)

These readings are approx. 2 inches from the meter. As you can see, significant reduction in levels for both the electromagnetic and the RF readings when either the smart meter cover is used or more so when combining the cover with the copper tubing.

Attached photos show readings for each above and how the cover and tubing are mounted and grounded into the ground. Side note: there was a 6 foot bush in front of the meter prior to grounding with the copper. I grounded about 5 years ago and every year the bush slowly stopped blooming its flowers. This year it was completely dead so I cut it down. In the photo you can see the grounded copper is about 8 to 10 inches from the root.

My comments: Yes actually the copper tubing kinda looks like it is in a rubber coating, but if you look really close it is plane copper tubing, with no rubber on the outside. The reason the copper looks that way is this is an old install and the copper has oxidized. This is what you would need (both the tubing and the stiffer copper tube): <https://www.amazon.com/s?k=copper+tubing>

Now they first put a smart meter cover on. This is the one Linda recommends as my Iron Maiden one is very expensive: [Smart Meter Guard](#). All products from Smart Meter Guard can be purchased with a 5% discount by using the coupon code LindaK.

<This is how Susan & Kevin did it but my way may be preferable, as you don't have to drill any holes. ++So you can just get plane copper wire for grounding<<They showed this to me at the hardware store, as I was asking for copper tubing

(which is more expensive as well) but you really don't need that and it is more expensive and less pliable. The copper wire for grounding will be on a spool & it is like 1/8 inch thick. They will have to cut it for you. I got 28 feet & that was just about exactly what I needed. Also I bought a clamp for grounding (called a

grounding clamp) to connect it to the copper tube, that just inserts into the ground.

My electrical box (where the smart meter is mounted) has little locking thingy on it that the power company installed, but if you can you can, line the inside with some type emf blocking material you can find online. It is also highly advisable to shield the back side of the smart meter (I can't in my case) but it is highly advised.

This is probably the best one:

Field Shield

[Satic Field Shield - Qty 1](#)

\$150.00

^^Also if you did this you really would not need to line the smart meter box, like I said above.
