Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprovved are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

DUBAI — Iranians living here wake up every morning to calls from family members whose accounts of wartime Iran reveal the terror of life under attack by the United States and Israel.

Two weeks into the war that President Donald Trump initially said was intended to force regime change in Tehran, the Iranians living here say their families are mostly huddled at home, trying to avoid both the U.S.-Israeli strikes and supporters of the Islamic Revolutionary Guard Corps (IRGC) patrolling the streets with guns.

But even those who initially supported the strikes by the U.S. and Israel say they are now struggling to imagine the future. “If this war were to end now, we would be in an even worse place than we were before,” said Pivi, 36, an architect who, like others in this article, spoke on the condition of anonymity to protect her family in Iran.

Pivi said she hoped that eventually, people would take to the streets to demand a return to democracy, as her own family had during mass protests in Iran in December. “But right now,” she said, “most people are too scared to move.”

[US to blame for strike on Iran girls' school that killed 175, Pentagon report finds after Trump accused Tehran](#)

A preliminary military investigation has determined that the United States was responsible for a missile strike on an Iranian elementary school that killed 175 people, most of them children.

Donald Trump had previously blamed the Iranian regime for bombing a school filled with young girls on February 28, during the first day of Operation Epic Fury. The ongoing investigation determined that US forces made the mistake while launching strikes on a nearby Iranian military base, which the school building was once part of.

An Iranian-linked hacking group has claimed responsibility for the global disruption of one of the world's leading medical technology companies. Michigan-based Stryker experienced a global outage on Wednesday, saying thousands of employees have lost access to work systems. It employees approximately 53,000 people globally.

The company is a leading provider in advanced medical technologies that improve healthcare outcomes, including joint replacements, robotic-assisted surgical systems, trauma and neurotechnology products.

The Handala group issued a statement on Telegram, saying it wiped more than 200,000 systems and extracted 50 terabytes of data in retaliation for military strikes on Iran.

Handala emerged around 2022 and has claimed responsibility for a number of cyberattacks against Israeli and Western targets.

'Our major cyber operation has been executed with complete success,' Handala says in a statement, describing the attack as **retaliation for what it calls 'the brutal attack on the Minab school'** and for 'ongoing cyber assaults against the infrastructure of the Axis of Resistance.'

Iran plotting drone attack on California as retaliation for the war, terrifying FBI alert reveals

The FBI alerted California law enforcement to potential Iranian drone strikes on the West Coast in retaliation for the US war against the Islamic Republic.

'Iran allegedly aspired to conduct a surprise attack using unmanned aerial vehicles from an unidentified vessel off the coast of the United State Homeland, specifically against unspecified targets in California, in the event that the US conducted strikes against Iran,' the alert obtained by ABC News said.

'We have no additional information on the timing, method, target, or perpetrators of this alleged attack,' the FBI update continued.

Trump Admin Sends Alert To Law Enforcement Warning Iran Sent Encrypted Messages To Trigger Muslim Sleeper Cells

The U.S. has intercepted encrypted communications believed to have originated in Iran that may serve as "an operational trigger" for "sleeper assets" outside the country, according to a federal government alert sent to law enforcement agencies.

The alert, reviewed by ABC News, cites "preliminary signals analysis" of a transmission "likely of Iranian origin" that was relayed across multiple countries shortly after the death of Ayatollah Ali Khamenei.

The intercepted transmission was encoded and appeared to be destined for "clandestine recipients" who possess the encryption key, the kind of message intended to impart instructions to "covert operatives or sleeper assets" without the use of the internet or cellular networks.

It's possible the transmissions could "be intended to activate or provide instructions to prepositioned sleeper assets operating outside the originating country," the alert said.

An armed Muslim man wearing tactical gear was arrested after walking into an elementary school in Spring, Texas, this week.

The suspect, 39-year-old Kyle Najm Chris, AKA, Muhi **Mohanad** Najm, walked into Zwick Elementary School on Tuesday after another visitor failed to secure the

first set of doors to the school.

Although Najm Chris was able to enter through the first set of doors, the school's double-door security system blocked him from entering the hallways and approaching the school children.

Klein ISD waited until Wednesday evening to notify parents about the breach.

Muslim Devil Mayor Zohran’s NYC: Thousands of Muslims Praying to the Pagan Moon God Allah Flood Times

Square

By [Pamela Geller](#) - on February 21, 2026

There are approximately 581 mosques in New York City area. So why pray in the streets? Muslims do not pray in the street in Muslim countries. This is an act of Islamic supremacism & domination.

Muslims are the only illegal invader alien group who come to the West with a

ready made model of society they believe to be superior to Western law and they work furiously, by all means, to impose it. Under Islam, shariah (Islamic) law supersedes Western law. Anywhere Western law and Shariah law conflict, it is always Western law that must give way. What those of us working in defense of freedom did not expect, was the craven capitulation and cowardice by Western left elites to Islamic supremacy.

This aligns with dawah, a religious duty to invite others to Islam, which Islamic texts frame as a precursor to jihad, if invitations are rejected. Muslim Sex Grooming Gangs (Targeting the Raping of Little Girls) Spread to Canada

It goes where Islam goes. It was inevitable. What we call ‘Muslim sex grooming gangs’ are a fundamental part of Islam. From the earliest days of Islam, one of the incentives for Arabs joining Mohammed’s jihadist movement was the privilege of raping

young girls and taking them as sex slaves. Muslim sex slavery has gone where Islam has. And while it’s been most notable in the UK where it was practiced on an industrial scale, it’s also [popping up in Canada](#).

In a release on Monday, Peel police said in January 2024, investigators with their Vice and Human Trafficking Unit began looking into allegations that several young female victims, ages 11 to 14 years old, were being trafficked and exploited in the sex-trade throughout the GTA.

It is alleged the suspects used “coercion, manipulation and threats of physical violence to maintain control and influence over the victims, while financially benefiting from their exploitation,” police said.

Mohamad Omar Al-Saleh, 21; Mustafa Abdo, 22; and Yousif Al-Gburi, 20, have all been arrested and charged with obtaining sexual services for consideration – person under 18 years, sexual assault – female under 16 years, and sexual interference.

This is ridiculous 🤔 anyone else's electric bill went up too?? Ours usually averages between \$200-\$250 but this jump is killing us...

<<Trumps AI Data Centers Causing Electric Bills To Sky Rocket for Those Affected!

Big Beautiful Bill Eats America: Workers wages are being devoured, and the economy is shrinking because of it. Bloated Bill is, in fact, creating the largest transfer of wealth to Trump and his friends in US history.

President Trump's Big Beautiful Bill has managed to raise the federal debt another \$700-billion dollars just during the first four months of his existence in the present fiscal year. Bill did this by handing massive tax breaks to billionaires while helping

drive inflation and interest costs and also by leaving about 10-million more middle-class people without health insurance. Bloated Bill is, in fact, creating the largest transfer of wealth to Trump and his friends in US history. Trump is already setting up to dodge the blame, fearing it may be coming by claiming it will be the Supreme Court's fault for not recognizing his right to be king:

"In other words, if the Supreme Court rules *against the United States of America* on this National Security bonanza, WE'RE SC***!" Trump said.**

This is the most depraved and dishonest government in US history! The most peculiar part is that my fellow Christians are often the ones defending everything he does, no matter how blatantly dishonest, audaciously self-serving, unkind or vile. Trump's lies and coverups are endless.

Jeffrey Epstein's brutal 7-word verdict on Trump revealed

A newly released email written by Jeffrey Epstein has revealed a blistering private remark about Donald Trump, as millions of documents linked to Epstein were published by the United States Department of Justice. The message, sent on February 8, 2017, was part of a conversation between Epstein and economist Larry Summers, who previously served as US Treasury Secretary and president of Harvard University.

Summers is currently on leave from Harvard amid an investigation into his ties to Epstein. In the email, Epstein delivered a harsh personal assessment of Trump, writing: "Recall I've told you - I have met some very bad people, none as bad as Trump. Not one decent cell in his body. So yes - dangerous."

US Military Helping Trump to Build Massive Network of 'Concentration Camps' Navy Contract Reveals

The Department of Homeland Security is quietly moving forward with a plan to expand its capacity for mass detention by using a military contract to create what is being called "a nationwide 'ghost network' of concentration camps."

On Sunday, it was reported that "a massive Navy contract, once valued at \$10 billion, has ballooned to a staggering \$55 billion ceiling to expedite President Donald Trump's 'mass deportation' agenda."

It is the expansion of a contract first reported on in October by CNN, which found that DHS was "funneling \$10 billion through the Navy to help facilitate the construction of a sprawling network of migrant detention

centers across the US in an arrangement aimed at getting the centers built faster, according to sources and federal contracting documents.”

While it’s not unusual for Navy contracts to be used for expenditures aimed at protecting the nation, some have warned that such a staggering movement of funds for domestic detention points to something ominous.

“This \$45 billion increase, published just weeks ago, converts the US into a ‘geographic region’ for expeditionary military-style detention,” “It signals a massive, long-term escalation in the government’s capacity to pay for detention logistics. In the world of federal contracting, it is the difference between a temporary surge and a permanent [infrastructure](#).”

He says the use of the military funding mechanism is meant to disburse funds quickly, without the typical bidding war among contractors, which would typically create a period of public scrutiny. Using the Navy contract means that new projects can be created with “task orders,” which can be turned around almost immediately, when “specific dates and locations are identified” by DHS.

“It means the infrastructure is currently a ‘ghost’ network that can be materialized anywhere in the US the moment a site is picked,”

Amid its push to deport 1 million people each year, the [White House](#) has said it needs to dramatically increase the scale of its detention apparatus to add more beds for those who are arrested. But the documents suggest “this isn’t just about bed space; it’s about the rapid deployment of self-contained cities.”

VIDEOS: Mass Protest Against Disarming of Virginians-- Bill introduced by a Muslim Bangladeshi state senator would ban sale, transfer of most "assault weapons" and high-capacity magazines in Virginia!

Hundreds of Virginia residents turned out in Richmond this weekend to demonstrate against a sweeping gun-control package now under review by Gov. Abigail Spanberger (D).

Men and women carrying rifles and other firearms gathered outside the Virginia State Capitol on Saturday to protest a historic violation of Constitutionally-protected rights looming in the Commonwealth.

“We are out here to fight for our Second Amendment rights,” a Marine Corps veteran told [BorderHawk.news](#).

“They don’t even know what they are trying to legislate. They just know, ‘Guns scary. Guns bad.’ What they are doing is not going to make a difference in crime, it’s not going to make a difference in shootings. It’s an attack on people who fundamentally disagree with them on what the Constitution means.”

Attendees handed out 30-round magazines for AR-15 rifles, which would be banned from being purchased in Virginia under the proposed laws.

SB749 has already been passed by both Democrat-controlled chambers of the state legislature and is now on the desk of Gov. Spanberger, who has until April 13 to decide whether or not to sign it.

State Sen. Saddam Azlan Salim (D), who was born in Bangladesh, introduced the bill in January 2026.

In February of 2026, this same Muslim Democratic Virginia State Senator (Saddam Azlan Salim) introduced a bill to make "Islamophobia" a hate crime--The bill defines "Islamophobia" as "malicious prejudice or hatred directed toward Islam or Muslims."

A Muslim Democratic state senator introduced legislation this session that would formally define Islamophobia into Virginia law and tie it to assault and battery penalties, expanding how hate crimes are identified and reported across the state!

The good news: With its session ending March 14, Virginia's legislature did not pass State Sen. Saddam Salim's (D-Fairfax) bill (S.B. 624) to make "Islamophobia" a crime. The bad news: instead of defeating this measure legislators carried it over to 2027!

GLOBAL SPEECH CONTROL AGENDA The United Nations is now openly calling for "coordinated global action" to police what it labels disinformation and hate speech online!

Let that sink in. An unelected international body — with no democratic mandate over sovereign citizens — is proposing frameworks to regulate what billions of people are allowed to say, share, and believe on digital platforms. This is not about protecting truth. It is about controlling narrative. History shows that the institutions most eager to define “misinformation” are often the same ones that were wrong — or dishonest — about: • Wars • Public health policies • Economic decisions • Political legitimacy The danger is not false information alone. The danger is centralised authority deciding what counts as truth. Once speech is governed at a global level, dissent itself becomes a violation. The real question is no longer whether misinformation exists. The real question is: Who gets to decide what is true — and who gets silenced?
