Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary**

defines: "**Reprove**": To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt. "**Circumspectly**": Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive the **very elect**."

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we **are not ignorant** of his devices."

Luke 21:36 Watch ye therefore, and pray always, that ye may be accounted worthy to escape all these things that shall come to pass, and to stand before the Son of man.

Matthew 24:13 But he that shall endure unto the end, the same shall be saved.

Psalms 101:3: I will set no wicked thing before mine eyes: I hate the work of them that turn aside; it shall not cleave to me.

Psalms 11:5: The LORD trieth the righteous: but the wicked and him that loveth violence his soul hateth.

“The average age of the world's great civilizations has been two hundred years.
These nations have progressed through the following sequence: from bondage to spiritual faith, from spiritual faith to great courage, from courage to liberty, from liberty to abundance, from abundance to selfishness, from selfishness to complacency from complacency to apathy, from apathy to dependency, from dependency back to bondage.” Alexander Fraser Tytler

Separation From Unbelievers and the World

James 4:4: "Ye adulterers and adulteresses, know ye not that the friendship of the world is enmity with God? whosoever therefore will be a friend of the world is the enemy of God."

Luke 12:51-53: Jesus Said: "Suppose ye that I am come to give peace on earth? I tell you, Nay; but rather division: For from henceforth there shall be five in one house divided, three against two, and two against three. The father shall be divided against the son, and the son against the father; the mother against the daughter, and the daughter against the mother; the mother in law against her daughter in law, and the daughter in law against her mother in law."

II Corinthians 6:14-18: "Be ye not unequally yoked together with unbelievers: for what fellowship hath righteousness with unrighteousness? and what communion hath light with darkness? And what concord hath Christ with Belial? or what part hath he that believeth with an infidel? And what agreement hath the temple of God with idols? for ye are the temple of the living God; as God hath said, I will dwell in them, and walk in them; and I will be their God, and they shall be my people. Wherefore come out from among them, and be ye separate, saith the Lord, and touch not the unclean thing; and I will receive you, And will be a Father unto you, and ye shall be my sons and daughters, saith the Lord Almighty."

Amo 3:3 Can two walk together, except they be agreed?

1Cor 15:33 Be not deceived: evil communications corrupt good manners.

Communication Outline of Biblical Usage meaning: companionship or communion

Manners Outline of Biblical Usage meaning: morals or character

Pro 13:20 He that walketh with wise men shall be wise: but a companion of fools shall be destroyed.

Psa 119:63 I am a companion of all them that fear thee, and of them that keep thy precepts.

**It's happening--Your Home Could be Gobbled up by the AI/Datacenter Machine
AI requires data centers are literal behemoths that require tons of energy, suck up water, and need copious amounts of land.**

An X post shows the current fight in Coweta County, Georgia, as property rights are constantly coming into question around Project Sail, a proposed hyperscale data center campus. Then the young woman in the video puts everything in a human perspective. She says Georgia Power is expanding power lines to support data-center demand and that homeowners “don’t have a choice.” The government is preparing to seize homes and land using eminent domain for the construction of a Data Center in Coweta County, Georgia. This American’s childhood home is being “taken by force by Georgia Power. Homeowners in this county do not have a choice” It affects over 330 private properties. Georgia Power says it will negotiate purchases and easements and use eminent domain Georgia Power claims its to strengthen the grid for the growing energy demand in Georgia (due to many new data centers) The lines are widely linked to Project Sail, a massive proposed hyperscale data center campus that will span 829 acres

But while this situation may look grim, the people of Georgia are not giving up that easily.

Local reporting shows people are already taking this to the courts. [WSB-TV reported](#) that nearly 20 Coweta County residents are suing the county government and Atlas Development to block Project Sail, which would span almost 830 acres. The lawsuit alleges problems with the county’s approval process, environmental concerns, traffic, water demand, construction impacts, and property seizures tied to assisting the project.

[CBS Atlanta](#) also reported that residents are fighting the rezoning of rural conservation land into industrial use, arguing the county ignored its own rules and cut citizens out of the process after changes to the proposal. The appeal also says that residents fear declining property values, years of construction noise, blasting damage, light pollution, traffic, and impacts to private wells.

Pure Evil: AI Datacenters and Infrasound & Are These “Datacenters” Actually Concentration Camps?

Residents describe it differently. Some say it is like distant traffic that never passes. Others compare it to an aircraft that never lands. A few say it feels biological, like standing too close to a sleeping animal large enough to crush a house without noticing. The hum sits beneath conversation, beneath sleep, beneath thought. It is constant, low, and mechanical, and after a few weeks the mind stops trying to locate its source because the source is now part of the landscape.

The building that produces it has no windows.

It has fences, cameras, warning signs, and a perimeter that feels less like private property and more like a restricted zone. Trucks arrive at night carrying equipment that is never explained to locals. Floodlights remain on through fog

and rain. Steam rises from cooling stacks even in winter, as if the structure itself is overheating from something happening inside.

On paper, it is called a data center.

In practice, it looks like an industrial organ that has been inserted into a living community.

drjohnson@ix.netcom.com **Subject:** **Listener Comment: Firsthand Information Regarding Entergy Infrastructure Shipments to Louisiana / Public Funding Concern**

I'm reaching out privately because I have firsthand information that appears to corroborate what you've been reporting regarding the Louisiana AI/data center buildout. I am a long time listener and you might remember me. I'm requesting strict confidentiality.

What I can personally confirm:

I work for (Redacted) in Virginia. Our facility is manufacturing large modular electrical/infrastructure units for Entergy, and those units are being shipped to the exact Louisiana location associated with the major infrastructure project you have been discussing.

These are not small shipments. They are massive industrial modules requiring oversized transport, specialized logistics, and significant coordination.

I can also personally attest that the transportation itself has created public safety concerns. I have personally observed dangerous hauling practices involving these oversized loads, and there has been at least three incidents involving these loads tipping during transport leaving our area.

What concerns me from a public-interest perspective is this:

The company I work for publicly received millions in state/regional government grants and incentive support for expansion, while that expanded manufacturing capacity is now producing infrastructure for a project tied to Entergy and, based on your reporting, Meta's AI data center expansion.

I cannot independently verify the accounting allocation of specific grant dollars, but from a public transparency standpoint, it raises an obvious question:

Are taxpayer-supported industrial incentives effectively helping build private hyperscale AI infrastructure?

The Meta connection comes from your public reporting. The Entergy customer relationship, Louisiana destination, scale of manufacturing, and transportation realities are things I can personally confirm.

The scale of what is being built appears enormous. I felt compelled to reach out because the public may not understand what is happening behind the scenes.
Sincerely, [Redacted](#)

MILITARY OPERATIONAL AI DATA CENTERS: OpenAI is building the world's largest AI data center called Stargate in Abilene, Texas

[SOTN](#) Editor's Note: It simply does not get bigger than the ongoing "MILITARY OPERATION AI DATA CENTERS". Which means that this one really is the hill for every American to die on lest they be exterminated in those communities under direct attack by this long planned, highly organized and extremely stealthy conspiracy to commit genocide against the American people. Nothing will bring wreck and ruin to the American Republic like OPERATION AI DATA CENTER. See: [Exposing The Dark Side of America's AI Data Center Explosion](#)

Talk about "The Barbarians Are Inside The Gate" as they push a massive herd of AI Trojan horses into every locale across the USA that they have targeted for destruction and complete control.

[OVER 3,000 SURVEILLANCE CENTERS BUILT OR UNDER CONSTRUCTION AND.....](#)

Truly, that the NWO predatory perps have even gotten so far so quickly with OPERATION AI DATA CENTER ought to tell every single one of US that if we're not at the table, we're on the menu.

["Trump is leading the way for the "American Totalitarian Technocracy" by partnering with nightmarish companies like Palantir....."](#)

KEY POINTS: Trump has consistently proven to be a very willing genocidal maniac by way of various highly misguided presidential initiatives. There was the unparalleled catastrophe known as Operation Warp Speed which saw the extremely deadly and dangerous Covid 'vaccines' rolled out as a completely untested and highly weaponized injection. Prior to that, Trump initiated the military deployment of 5G across America without any testing for safety and adverse effects on human health. At the start of his second term, his very first announcement was about the "Stargate Project"—an unprecedented \$500 billion artificial intelligence infrastructure initiative to build a colossal nationwide network of AI data centers without any public input or consideration of the calamitous effects on numerous cities and counties in all 50 states. (This military op is being executed under the false rubric of "National Security" in order to swiftly overcome any resistance whatsoever in locales that are dug in against it.)

The quite predictable and therefore highly intentional catastrophic AI data center impacts which are already destroying communities are as follows:

First, thermal pollution: data centers dump immense heat into the environment, raising nighttime temperatures and disrupting local ecosystems.

Second, the water crisis: billions of gallons are stolen from communities, as documented in my report on the backlash.

Third, massive energy consumption is driving up costs for everyone and forcing reliance on fossil fuels. Texas has approved the nation's largest air pollution permit for a 7.65-gigawatt natural gas and data center complex — a verdict of death for air quality.

Fourth, air quality degradation, noise pollution, and wildlife devastation create a perimeter of death around every large-scale data center.

Fifth, land use displaces ranching and farming, logging and mining, with no oversight.

Sixth, the PJM Interconnection has warned of a grid collapse as AI servers and retiring coal plants collide, with servers now consuming twice as much power as older models.

Lubricant Industry Insider for a top 3 lubricant blender in the USA--Approximately 40% of global GTL Group 3 base oil production is offline as of 3 weeks ago due to the ongoing situation in the Middle East--This is a critical component of almost every modern motor oil, transmission fluid, PSF fluid, industrial lubricant, etc on the market

Our last shipment of GTL Group 3 base oil came in April 7th. The blended products will start to go out the end of that week and the earliest wind-down of retail stock availability for products already in a production freeze is expected to start April 14th.

The entire industry is scrambling for supply and it's being bought out. locked out,

and bid up.

There will be a massive shortage of critical lubricants that will last for a minimum of 6-12 months. Major specifications and standards will be suspended and what little ends up on the shelf will be of significantly degraded quality.

Shell CEO sends blunt message on oil and the economy

May 9, 2026--The world consumes roughly 100 million barrels of oil every day. For the past several months, a significant portion of that supply has simply not been produced. The gap is not closing. And one of the most senior executives in global energy just said so on the record.

Shell CEO Wael Sawan used the company's Q1 2026 [earnings call](#) on May 7 to deliver one of the clearest assessments yet of where the global oil market actually stands.

"The hard facts are we have dug ourselves a hole of close to a billion barrels of crude shortage at the moment" Sawan said during [Shell's Q1 earnings call](#). "And of course, that hole is deepening every single day, so the journey back will be a long one."

The IEA ([International Energy Agency](#)) called it the biggest supply disruption in history.

<https://www.aol.com/articles/shell-ceo-sends-blunt-message-151700000.html>

Mobil Oil Corporation and Royal Shell Oil Corporation have told COSTCO and WALMART they "have no more pre-packaged oil product to ship to them--Expect bare shelves in the automotive oil section when present inventory runs out."

Toyota Service Bulletin Warns of Looming Motor Oil Shortage

I got word this morning that Toyota is about to release a service bulletin stating you can temporarily use 0w-20 motor oil in lieu of 0w-8 and 0w-16 "because the Shell Pearl GTL facility at Ras Laffan Qatar is completely offline and we are going to run out of 0w20 soon."

See: <https://www.thedrive.com/news/alleged-toyota-dealer-bulletin-warns-of-looming-motor-oil-shortage>

So all of you who own vehicles, had better go to the store, grab the oil you will need for at least one oil change, possible two, because if you don't buy that within the next week or so -- you likely won't be ABLE to buy it, anywhere.

Just got additional heads-up: Prescription and over-the-counter OINTMENTS, CREAMS, and SALVES are also being adversely affected; especially OINTMENTS. Many - but NOT ALL - of these prescription and over-the-counter products use feed-stock from CRUDE OIL to make the products and the packaging. Some manufacturers have been told this week that their feed stock can no longer be supplied.

As soon as the general public finds this out, they will make a "run" on the stores and the stores will sell-out.

One Comment Said: *If anyone read my post earlier...I have a source in the lubricant business that has been seeing this coming for months. Not only engine*

oil folks. Transmission, power steering, gear oil, transfer case fluid, and coolant. Get 2 years of all of it now. Also think of repairs that might need it.

Update 5/17/26: ...The general public is quietly getting the word that Motor Oil will be sold out and GONE very soon.

The purpose of this article is to let you know that the shortages are already starting !!! Big stores are running out of motor oils (and filters.)

If you haven't gotten what you need for your vehicle(s) and/or work tools (Landscaping and the like) you'd better act on it RIGHT NOW. TODAY.

When the general public finally catches-on to what's actually taking place, the stores will be stripped bare of every ounce of motor oil; just like we all see happening to supermarkets when a hurricane is coming - people strip the shelves bare within hours. If you wait, chances are good that you won't be ABLE to get any motor oil.

1 "To install operating systems into people":

Official patents now confirm that nanotechnology is contained within the Covid 'vaccines' and solar geoengineering aerosols.

According to Fitts, these materials act as "operating systems inside people's bodies... making them easier to interact with digital technology like 5G... for ultimate biological control"

This is all tied to the transhumanist agenda... which is already here.

2 Depopulation:

"Mass sterilization"

"Poisoning the masses"

"Lowering IQs"

"Widespread neurological damage"

"Lowering life expectancy"

The World Health Organization have already made it explicitly clear that they believe there are 90% too many people on the planet...

So what do they do about this?

Inject poisons like heavy metals into people's bodies and into their air.

Whether it be geoengineering, 'vaccines', or pesticides - we're being hit from every angle.

Our detox organs today are being overworked... and when they can't take it any longer - that's when disease kicks in.

We have to learn how to support our body.

!! Nanotech, heavy metals, and mRNA are now inside ALL of us. Do not wait until it is too late. We MUST take action.

😞 However, natural solutions are being CENSORED, SILENCED and HIDDEN...

NANOTECH IN VACCINES

DARPA and biotech pushing nanotech that can replicate, form its own neural networks, and even build internal AI inside YOU.

This is transhumanism in action... and it's already here.

👉 The good news?

Our body is intelligently designed to heal and protect itself when we give it suitable support.

Even with all these assaults, detoxification, fasting, and strengthening your natural bioenergetic field can disrupt and remove what doesn't belong.

No matter what "they" put inside of us, the answer is always the same:

Remove the toxins, heavy metals, and foreign proteins.

Don't give in to fear. Educate yourself. Take action. Detox. Reclaim sovereignty over your anatomy.

!! Nanotech is now inside ALL of us. Do not wait until it is too late. We MUST take action.
