Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light. See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive the very elect."

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we are not ignorant of his devices."

II Chronicles 7:14: "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

[Obama Announces Plan to Rule by Executive Order](#)

January 15, 2014

Obama has officially announced plans to trash the Constitution and move forward with a socialist-corporatist dictatorship without input from Congress or the American people. He made the announcement Tuesday during a cabinet meeting.

“We’re not just going to be waiting for legislation in order to make sure that we’re providing Americans the kind of help they need. I’ve got a pen and I’ve got a phone,” Obama said.

“And I can use that pen to sign executive orders and take executive actions and administrative actions that move the ball forward in helping to make sure our kids are getting the best education possible, making sure that our businesses are getting the kind of support and help they need to grow and advance, to make sure that people are getting the skills that they need to get those jobs that our businesses are creating.”

Article I Section I of the Constitution clearly states all legislative powers reside with Congress. The founders were inspired by the writings of Montesquieu and insisted on three separate branches of government and instituted a system of checks and balances to prevent tyranny. “There can be no liberty where the legislative and executive powers are united in the same person,” Montesquieu wrote.

James Madison, writing in Federalist 46, **warned that consolidated power at the executive level is the very definition of tyranny. “The accumulation of all power, legislative, executive, and judiciary in the same hands... may justly be pronounced the very definition of tyranny.”**

George Washington signed the first executive order proclaiming a national day of thanksgiving in 1789. **Since that time, the Supreme Court has ruled executive orders may not be used to make law, only execute laws passed by Congress. From Woodrow Wilson and Franklin Roosevelt onward, however, presidents have signed a large number of increasingly audacious and unconstitutional executive orders.**

“Obama, lacking the charm of Franklin Roosevelt, nevertheless seeks to follow his path in growing executive power,” writes [David Davenport](#). **“Starting with President Woodrow Wilson, and culminating in Roosevelt’s New Deal, progressives sought to undermine the power of the legislature in favor of consolidating power in the executive branch. From passing the sweeping healthcare reform bill on a party-line vote, to the largest use of executive czars in our history, to initiating new policies on things like immigration and gun control by executive order, Obama seeks to leave 225 years of constitutional separation of powers behind. This needs to be exposed for what it is: a series of constitutional end-runs and a power grab by a frustrated and legacy-driven president.”**

[William L. Anderson](#) said: **“Unless members of the other branches are willing to act on the important principle of decentralization of power, the American Experiment will end up being nothing but a footnote of history.”**

This relegation of the American experiment to an irrelevant footnote is precisely what the global elite with a stranglehold on government have in mind.

The globalist intelligentsia continues to argue in favor of trashing the Constitution. In 2011, CNN contributor [Fareed Zakaria](#) argued that the Constitution is outdated and its principles should be “debated and fixed” to conform with the modern era. He suggested “a set of amendments to modernize the Constitution for the 21st Century.”

Adherence to the Constitution is now portrayed as a form of mental illness. **“Indeed, there is something infantile in the belief of the constitution-worshipers that the complex political arguments of today can be settled by simple fidelity to a document written in the 18th century,”** the editors the [Economist](#) wrote in late 2010.

The Constitution stands between the global elite and their plan to reduce America to an economic and cultural ruin. Natural rights and individual sovereignty are obstacles and they must be destroyed if a one world totalitarian government is to be realized.

Obama's latest comments on the plan to impose executive decrees – as usual, for the sake of the children – sets the stage for the next phase of dictatorial government and the dismantlement of the Constitution and its relegation to the dustbin of history.

NSA Official: 'We Are Now a Police State'...

December 19, 2013 - Last year, **high-ranking NSA official** Bill Binney said, “We are, like, that far from a turnkey totalitarian state.” **Now, Binney says that the U.S. has already become a full-blown police state.**

Binney told Washington's Blog on Wednesday that:

“The main use of the collection from these [NSA spying] programs [is] for law enforcement. [See the 2 slides below].”

“These slides give the policy of the DOJ/FBI/DEA etc. on how to use the NSA data. In fact, **they instruct that none of the NSA data is referred to in courts – cause it has been acquired without a warrant.**”

“So, they have to...**not tell the courts or prosecution or defense the original data used to arrest people.** This I call: a ‘planned programed perjury policy’ directed by US law enforcement.”

“And, as the last line on one slide says, this also applies to ‘Foreign Counterparts.’”

“**This is a total corruption of the justice system not only in our country but around the world.** The source of the info is at the bottom of each slide. **This is a totalitarian process – means we are now in a police state.**”

Binney, a 32-year veteran of the agency, was instrumental in the creation of the NSA's surveillance program for digital information. He also served as the NSA's senior technical director.

Concerning the collection of data by federal agencies mentioned by Binney, Washington's Blog added that:

“By way of background, the government is spying on virtually everything we do.”

“All of the information gained by the NSA through spying is then shared with federal, state and local agencies, and they are using that information to prosecute petty crimes such as drugs and taxes. **The agencies are instructed to intentionally “launder” the information gained through spying, i.e. to pretend that they got the information in a more legitimate way ... and to hide that from defense attorneys and judges.**”

Regarding this NSA Spying scandal Obama recently said to: **CALM DOWN... as the NSA Spies Are 'Our Neighbors and Friends'...**

& the WHITE HOUSE or Obama didn't know extent of surveillance...

while the president's own review panel concluded that the **Program Hasn't Prevented Any Terrorist Attacks...**

Agenda 21: California Law Would Abolish Private Property

Philip Hodges on Jan 15, 2014

Part of the United Nations' Agenda 21 is the abolition of private property. Confiscation of private property will be done under the guise of "sustainability." They'll argue that having a large plot of land is an inefficient use of the land, and that your land would be better used if it were developed into something else.

Perhaps they'd prefer that a mass transit rail run right through your property. So they'd take your property over through eminent domain, forcing out of your own house and off your property to somewhere else where they have much more dense housing, and use the land that was previously yours as they saw fit.

These types of tyrannical gestures are being implemented around our country at the local level.

In California, there is a law that's awaiting Governor Brown's signature that would institute an agency at the county level that could seize private property basically on a whim and using "sustainability" as the excuse.

Writing for the San Rafael Patch, Richard Hall sums up SB 1 here:

- A city mayor or county supervisor forms a new joint powers authority called a "Sustainable Communities Investment Authority" (SCIA), they appoint elected officials to serve on the SCIA's board.
- If you live within 1/2 mile of a bus that runs every 15 minutes during peak commutes, or the SMART train or Caltrain in a single family home neighborhood **your neighborhood can be targeted by the SCIA as inefficient land use and "blighted" as it is not high density multi-family housing.** Almost everyone reading this in Marin...is therefore affected – I have seen the map with these 1/2 mile radiuses and it covers almost all **Marinites**.
- The SCIA can then wield the power of eminent domain to purchase unused, for sale **or even occupied land in order to build high-density multi-family housing** – that it deems to be efficient land use.
- **The SCIA can then impose local taxes on us to pay not just for the eminent domain purchases but to help the land developer build by subsidizing the building of high density housing.**
- In order to meet criteria in SB1 allowing imposition of local taxes the SCIA **must impose "a sustainable parking standards ordinance that restricts parking in transit priority project areas to encourage transit use to the greatest extent feasible."** Yes you read that right, "to the greatest extent feasible." This could mean anything from reducing available parking, to introducing parking permits and parking meters.

This is, of course, nothing less than communism. They just don't call it communism. They call it "social justice."

Ford VP: 'We have GPS in your car, so we know what you're doing'

January 09, 2014 [Short URL](#)

<<Ford Group Vice President Marketing and Communications Jim Farley

Modern automobiles are logging tremendous amounts of information every single second they're being put to use, and a senior executive at the Ford Motor

Company says car manufacturers have access to every last piece of it.

At the CES electronic trade show in Las Vegas this week, the global vice president for Ford's marketing and sales division opened up about just exactly how much data is being collected by his company's latest line of smart cars.

"We know everyone who breaks the law, we know when you're doing it. We have GPS in your car, so we know what you're doing," Ford's Jim Farley told a Vegas crowd on Wednesday, according to [Business Insider](#) reporter Jim Edwards.

"By the way, we don't supply that data to anyone," Farley assured attendees.

Edwards described Farley's remark as being "both sinister and obvious."

"Because of the GPS units installed in Ford vehicles, Ford knows when its drivers are speeding, and where they are while they're doing it," Edwards wrote. Should the company choose to share that information with law enforcement, **...it could create an environment where surveillance extends off the computer and onto the road.**

As many as 96 percent of the cars mass-produced in 2013 included event data recorders, RT reported last year, similar to the black boxes that log information inside airplanes.

"These cars are equipped with computers that collect massive amounts of data," Khaliah Barnes of the Electronic Privacy Information Center told the New York Times then. **"Without protections, it can lead to all kinds of abuse,"** she said.

As RT [reported](#) earlier this week, **automobile owners don't have a choice (for now) as to whether or not they want their activities being etched into the computers of car makers.** The Government Accountability Office released a report days before Farley's remarks detailing the results of an investigation into data storage protocol among auto makers Ford, General Motors, Chrysler, Toyota, Honda and Nissan and said that, across the board, **if companies retained data then "they did not allow consumers to request that their data is deleted."**

Child-tracking wristbands edge us closer to a dystopian future--Parents will soon be able to track, log and judge the every movement of their offspring

• CES 2014: the wristband that tracks your child's every move via GPS

[theguardian.com](#) 10 January 2014

For those who think the NSA the worst invader of privacy, I invite you to share an afternoon with Aiden and Foster, two 11-year-old boys, as they wrap up a Friday at school. Aiden invites his friend home to hang out and they text their parents, who agree to the plan.

As they ride on the bus Foster's phone and a sensor on a wristband alert the school and his parents of a deviation from his normal route. The school has been notified that he is heading to Aiden's house so the police are not called.

As they enter the house, the integrated home network recognizes Aiden and pings an advisory to his parents, both out at work, who receive the messages on phones and tablets.

The system also sends Foster's data –

physical description, address, relatives, health indicators, social media profile - to Aiden's parents, who note he has a laptop. Might the boys visit unsuitable sites? No, because Foster's parental rating access, according to his profile, is limited to PG13, as is Aiden's.

Foster spots a cookie jar and reaches in. Beep beep! His wristband vibrates to warn him the cookies contain gluten, and he is allergic.

Aiden's mother notes this and consults a menu of her fridge and pantry, all connected to the network, for non-gluten ingredients. There aren't enough so she orders a gluten-free pizza.

The boys turn on the TV. Rather, it turns itself on as Aiden approaches and it lists his favorite channels. The TV notes the boys have a basketball, which has a sensor, and so suggests an NBA game. As they watch, **tailored advertising invites Aiden to put a Miami Heat shirt on a personal wishlist connected to a chain store. He does so and a ping is sent to his mother, who simultaneously receives a reminder of the date of his birthday.** The network notes there is only 90 minutes left of sunlight left and that Aiden has not completed his 120 minutes of daily exercise. It shuts down the TV and gives the boys three exercise options. They choose to shoot hoops in the yard. Aiden's mum receives an alert that they have left the house – leaving the lights on. She can track Aiden's pulse and blood pressure as he plays.

Welcome to the future of parenting, as envisaged by [Cisco Systems](#) at the Consumer Electronics Show in Las Vegas this week. Robert Barlow, a marketing executive, presented the scenario with animation, graphs and statistics to industry professionals.

“The technology for all this already exists,” he beamed, holding a real basketball with a sensor. Cisco can aggregate data from multiple sources to create an “orchestration layer”, he said, **which will help the Internet of Everything generate trillions of dollars in the next decade.** The audience of executives and technicians from America, Europe and Asia got the message. **Big data, big bucks.**

What of Aiden and Foster? You could say, lucky them. Protected from predators and pornography, nudged away from harmful food and obesity, the benefits are obvious. I say, God help them. What sort of childhood is it with every move tracked, scrutinised, logged, judged? Where you cannot wander, try something new, be spontaneous – be yourself – without issuing a beeping alert from wearable, connected technology? This is helicopter parenting at its most stultifying, a constant, hovering presence.

A perilous environment would justify such surveillance. **But Cisco, and hundreds of other companies at CES, are pitching their products - tiny cameras, wearable sensors, connectivity services - mainly at the US and other rich countries where abductions and violent crime are mercifully rare.**

But children ([and pets](#)) are just the beginning, a wedge to introduce the technology. Adults are targets too. **We are already doing it. Older people are given sensors so distant offspring can track health indicators.**

“Old people often resist,” Stuart Sikes, the head of Park Associates, a consulting company specializing in emerging consumer technology products and services, told me. **“But younger people tend to love this technology. It's a polarized market.”**

Since 2009 AT&T's FamilyMap service lets you track relatives through their phone.

New technology is making it ever cheaper, easier, more thorough – and culturally acceptable. “Amazing things happen when you connect the previously unconnected,” gushed another evangelist at Cisco's exhibition. “Everything you do generates data. The more we build these connections, the more we build relationships.”

Nonsense. A ping to your phone saying your spouse has deviated from the usual route home may or may not be useful information **but does not deepen the relationship**, no matter what they're up to.

Edward Snowden's revelations about the NSA revealed ubiquitous state snooping, something anticipated by [George Orwell and Ray Bradbury](#) half a century ago. But the greatest danger to **privacy is not the government but ourselves. Google, Facebook and Twitter have built empires on the fact we prefer convenience to privacy. In a culture of reality television and narcissism masked as social media we sleepwalked into our own Truman Shows. Cisco's vision is just another incremental step.**

Dave Eggers' recent novel [The Circle](#) imagines a dystopian future where an all-powerful corporation plants tiny cameras everywhere, and on individuals, so that all events and conversations are instantly, publicly available online. The naive protagonist, Mae Holland, embraces the company's mantras: **secrets are lies; sharing is caring; privacy is theft.** We are not there, and hopefully never will be. Much of the technology displayed in Las Vegas offers real benefits – healthier and safer lives, more fun – and should be embraced. **But a needed conversation about limits is not happening. Neither the industry nor consumers are paying sufficient heed to the erosion of privacy and the dwindling possibility of opting out, of eluding the unblinking, all-seeing basilisk gaze of extraordinary technology.**

**++ [Why Are Dozens Of High Ranking Officers Being Purged From The U.S. Military?](#)
[ANSWER- SO THE EXECUTIVE BRANCH CAN CONTROL ALL NUCLEAR ASSETS AND PRESENT THE U.S. FOR SURRENDER!](#)**

By Michael Snyder--January 16th, 2014

Since Barack Obama has been in the White House, **high ranking military officers have been removed from their positions at a rate that is absolutely unprecedented.** Things have gotten so bad that a number of retired generals are publicly speaking out about the “purge” of the U.S. military that they believe is taking place. As you will see below, dozens of highly decorated military leaders have been dismissed from their positions

over the past few years. What is going on right now is absolutely crazy – especially during a time of peace. **Is there a deliberate attempt to “reshape” the military and remove those that don’t adhere to the proper “viewpoints”? Does someone out there feel a need to get officers that won’t “cooperate” out of the way? Throughout world history, whatever comes next after a “military purge” is never good. If this continues, what is the U.S. military going to look like in a few years?**

Perhaps you are reading this and you think that “purge” is too strong a word for what is taking

place. Well, just consider the following quotes from some very highly decorated retired officers...

-[Retired Army Major General Paul Vallely](#): “The White House protects their own. That’s why they stalled on the investigation into fast and furious, Benghazi and Obamacare. **He’s intentionally weakening and gutting our military, Pentagon and reducing us as a superpower, and anyone in the ranks who disagrees or speaks out is being purged.**”

-[Retired Army Major General Patrick Brady](#): “There is no doubt he (Obama) is intent on **emasculating the military and will fire anyone who disagrees with him.**”

-[Retired Army Lt. General William G. “Jerry” Boykin](#): “Over the past three years, it is unprecedented for the number of four-star generals to be relieved of duty, and not necessarily relieved for cause.”

-[Retired Navy Captain Joseph John](#): “I believe there are more than 137 officers who have been forced out or given bad evaluation reports so they will never make Flag (officer), because of their failure to comply to certain views.”

According to [the Blaze](#), one anonymous Pentagon official who asked to remain nameless because they were not authorized to speak on the matter **said even “young officers, down through the ranks have been told not to talk about Obama or the politics of the White House. They are purging everyone and if you want to keep your job — just keep your mouth shut.”**

Now this trend appears to be accelerating. We have seen a whole bunch of news stories about military officers being dismissed lately.

Almost always, a “legitimate reason” is given for the dismissal. And without a doubt, if a military officer is actually behaving unethically, that officer should be held accountable.

However, the reality is that everyone has “skeletons in the closet”, and if you really want to get rid of someone it is usually not too hard to find a way to justify your decision.

Taken alone, it would be easy to dismiss those stories as “coincidences”. **But when you put them together with the stories of dozens of other high ranking military officers that have been purged from the U.S. military in recent years, a very disturbing pattern emerges.**

The following is a list of high ranking military officers that have been dismissed over the past few years that has been circulating all over the Internet. I think that you will agree that this list is quite stunning...

Commanding Generals fired:

- General John R. Allen-U.S. Marines Commander International Security Assistance Force [ISAF] (Nov 2012)
- Major General Ralph Baker (2 Star)-U.S. Army Commander of the Combined Joint Task Force Horn in Africa (April 2013)
- Major General Michael Carey (2 Star)-U.S. Air Force Commander of the 20th US Air Force in charge of 9,600 people and 450 Intercontinental Ballistic Missiles (Oct 2013)
- Colonel James Christmas-U.S. Marines Commander 22nd Marine Expeditionary Unit & Commander Special-Purpose Marine Air-Ground Task Force Crisis Response Unit (July 2013)
- Major General Peter Fuller-U.S. Army Commander in Afghanistan (May 2011)
- Major General Charles M.M. Gurganus-U.S. Marine Corps Regional Commander of SW and I Marine Expeditionary Force in Afghanistan (Oct 2013)
- General Carter F. Ham-U.S. Army African Command (Oct 2013)
- Lieutenant General David H. Huntoon (3 Star), Jr.-U.S. Army 58th Superintendent of the US Military Academy at West Point, NY (2013)
- Command Sergeant Major Don B Jordan-U.S. Army 143rd Expeditionary Sustainment Command (suspended Oct 2013)
- General James Mattis-U.S. Marines Chief of CentCom (May 2013)
- Colonel Daren Margolin-U.S. Marine in charge of Quantico’s Security Battalion (Oct 2013)
- General Stanley McChrystal-U.S. Army Commander Afghanistan (June 2010)
- General David D. McKiernan-U.S. Army Commander Afghanistan (2009)
- General David Petraeus-Director of CIA from September 2011 to November 2012 & U.S. Army Commander International Security Assistance Force [ISAF] and Commander U.S. Forces Afghanistan [USFOR-A] (Nov 2012)
- Brigadier General Bryan Roberts-U.S. Army Commander 2nd Brigade (May 2013)
- Major General Gregg A. Sturdevant-U.S. Marine Corps Director of Strategic Planning and Policy for the U.S. Pacific Command & Commander of Aviation Wing at Camp Bastion, Afghanistan (Sept 2013)
- Colonel Eric Tilley-U.S. Army Commander of Garrison Japan (Nov 2013)
- Brigadier General Bryan Wampler-U.S. Army Commanding General of 143rd Expeditionary Sustainment Command of the 1st Theater Sustainment Command [TSC] (suspended Oct 2013)

Commanding Admirals fired:

- Rear Admiral Charles Gaouette-U.S. Navy Commander John C. Stennis Carrier Strike Group Three (Oct 2012)
- Vice Admiral Tim Giardina(3 Star, demoted to 2 Star)-U.S. Navy Deputy Commander of the US Strategic Command, Commander of the Submarine Group Trident, Submarine Group 9 and Submarine Group 10 (Oct 2013)

Naval Officers fired: (All in 2011)

- Captain David Geisler-U.S. Navy Commander Task Force 53 in Bahrain (Oct 2011)

- Commander Laredo Bell-U.S. Navy Commander Naval Support Activity Saratoga Springs, NY (Aug 2011)
- Lieutenant Commander Kurt Boenisch-Executive Officer amphibious transport dock Ponce (Apr 2011)
- Commander Nathan Borchers-U.S. Navy Commander destroyer Stout (Mar 2011)
- Commander Robert Brown-U.S. Navy Commander Beachmaster Unit 2 Fort Story, VA (Aug 2011)
- Commander Andrew Crowe-Executive Officer Navy Region Center Singapore (Apr 2011)
- Captain Robert Gamberg-Executive Officer carrier Dwight D. Eisenhower (Jun 2011)
- Captain Rex Guinn-U.S. Navy Commander Navy Legal Service office Japan (Feb 2011)
- Commander Kevin Harms- U.S. Navy Commander Strike Fighter Squadron 137 aboard the aircraft carrier Abraham Lincoln (Mar 2011)
- Lieutenant Commander Martin Holguin-U.S. Navy Commander mine countermeasures Fearless (Oct 2011)
- Captain Owen Honors-U.S. Navy Commander aircraft carrier USS Enterprise (Jan 2011)
- Captain Donald Hornbeck-U.S. Navy Commander Destroyer Squadron 1 San Diego (Apr 2011)
- Rear Admiral Ron Horton-U.S. Navy Commander Logistics Group, Western Pacific (Mar 2011)
- Commander Etta Jones-U.S. Navy Commander amphibious transport dock Ponce (Apr 2011)
- Commander Ralph Jones-Executive Officer amphibious transport dock Green Bay (Jul 2011)
- Commander Jonathan Jackson-U.S. Navy Commander Electronic Attack Squadron 134, deployed aboard carrier Carl Vinson (Dec 2011)
- Captain Eric Merrill-U.S. Navy Commander submarine Emory S. Land (Jul 2011)
- Captain William Mosk-U.S. Navy Commander Naval Station Rota, U.S. Navy Commander Naval Activities Spain (Apr 2011)
- Commander Timothy Murphy-U.S. Navy Commander Electronic Attack Squadron 129 at Naval Air Station Whidbey Island, WA (Apr 2011)
- Commander Joseph Nosse-U.S. Navy Commander ballistic-missile submarine Kentucky (Oct 2011)
- Commander Mark Olson-U.S. Navy Commander destroyer The Sullivans FL (Sep 2011)
- Commander John Pethel-Executive Officer amphibious transport dock New York (Dec 2011)
- Commander Karl Pugh-U.S. Navy Commander Electronic Attack Squadron 141 Whidbey Island, WA (Jul 2011)
- Commander Jason Strength-U.S. Navy Commander of Navy Recruiting District Nashville, TN (Jul 2011)
- Captain Greg Thomas-U.S. Navy Commander Norfolk Naval Shipyard (May 2011)
- Commander Mike Varney-U.S. Navy Commander attack submarine Connecticut (Jun 2011)
- Commander Jay Wylie-U.S. Navy Commander destroyer Momsen (Apr 2011)

Naval Officers fired: (All in 2012):

- Commander Alan C. Aber-Executive Officer Helicopter Maritime Strike Squadron 71 (July 2012)
- Commander Derick Armstrong- U.S. Navy Commander missile destroyer USS The Sullivans (May 2012)
- Commander Martin Arriola- U.S. Navy Commander destroyer USS Porter (Aug 2012)
- Captain Antonio Cardoso- U.S. Navy Commander Training Support Center San Diego (Sep 2012)

- Captain James CoBell- U.S. Navy Commander Oceana Naval Air Station's Fleet Readiness Center Mid-Atlantic (Sep 2012)
- Captain Joseph E. Darlak- U.S. Navy Commander frigate USS Vandegrift (Nov 2012)
- Captain Daniel Dusek-U.S. Navy Commander USS Bonhomme
- Commander David Faught-Executive Officer destroyer Chung-Hoon (Sep 2012)
- Commander Franklin Fernandez- U.S. Navy Commander Naval Mobile Construction Battalion 24 (Aug 2012)
- Commander Ray Hartman- U.S. Navy Commander Amphibious dock-landing ship Fort McHenry (Nov 2012)
- Commander Shelly Hakspiel-Executive Officer Navy Drug Screening Lab San Diego (May 2012)
- Commander Jon Haydel- U.S. Navy Commander USS San Diego (Mar 2012)
- Commander Diego Hernandez- U.S. Navy Commander ballistic-missile submarine USS Wyoming (Feb 2012)
- Commander Lee Hoey- U.S. Navy Commander Drug Screening Laboratory, San Diego (May 2012)
- Commander Ivan Jimenez-Executive Officer frigate Vandegrift (Nov 2012)
- Commander Dennis Klein- U.S. Navy Commander submarine USS Columbia (May 2012)
- Captain Chuck Litchfield- U.S. Navy Commander assault ship USS Essex (Jun 2012)
- Captain Marcia Kim Lyons- U.S. Navy Commander Naval Health Clinic New England (Apr 2012)
- Captain Robert Marin- U.S. Navy Commander cruiser USS Cowpens (Feb 2012)
- Captain Sean McDonell- U.S. Navy Commander Seabee reserve unit Naval Mobile Construction Battalion 14 FL (Nov 2012)
- Commander Corrine Parker- U.S. Navy Commander Fleet Logistics Support Squadron 1 (Apr 2012)
- Captain Liza Raimondo- U.S. Navy Commander Naval Health Clinic Patuxent River, MD (Jun 2012)
- Captain Jeffrey Riedel- Program manager, Littoral Combat Ship program (Jan 2012)
- Commander Sara Santoski- U.S. Navy Commander Helicopter Mine Countermeasures Squadron 15 (Sep 2012)
- Commander Kyle G. Strudthoff-Executive Officer Helicopter Sea Combat Squadron 25 (Sep 2012)
- Commander Sheryl Tannahill- U.S. Navy Commander Navy Operational Support Center [NOSC] Nashville, TN (Sep 2012)
- Commander Michael Ward- U.S. Navy Commander submarine USS Pittsburgh (Aug 2012)
- Captain Michael Wiegand- U.S. Navy Commander Southwest Regional Maintenance Center (Nov 2012)
- Captain Ted Williams- U.S. Navy Commander amphibious command ship Mount Whitney (Nov 2012)
- Commander Jeffrey Wissel- U.S. Navy Commander of Fleet Air Reconnaissance Squadron 1 (Feb 2012)

Naval Officers fired: (All in 2013):

- Lieutenant Commander Lauren Allen-Executive Officer submarine Jacksonville (Feb 2013)
- Reserve Captain Jay Bowman-U.S. Navy Commander Navy Operational Support Center [NOSC] Fort Dix, NJ (Mar 2013)
- Captain William Cogar-U.S. Navy Commander hospital ship Mercy's medical treatment facility (Sept 2013)
- Commander Steve Fuller-Executive Officer frigate Kauffman (Mar 2013)

- Captain Shawn Hendricks-Program Manager for naval enterprise IT networks (June 2013)
- Captain David Hunter-U.S. Navy Commander of Maritime Expeditionary Security Squadron 12 & Coastal Riverine Group 2 (Feb 2013)
- Captain Eric Johnson-U.S. Navy Chief of Military Entrance Processing Command at Great Lakes Naval Training Center, IL (2013)
- Captain Devon Jones-U.S. Navy Commander Naval Air Facility El Centro, CA (July 2013)
- Captain Kevin Knoop-U.S. Navy Commander hospital ship Comfort's medical treatment facility (Aug 2013)
- Lieutenant Commander Jack O'Neill-U.S. Navy Commander Operational Support Center Rock Island, IL (Mar 2013)
- Commander Allen Maestas-Executive Officer Beachmaster Unit 1 (May 2013)
- Commander Luis Molina-U.S. Navy Commander submarine Pasadena (Jan 2013)
- Commander James Pickens-Executive Officer frigate Gary (Feb 2013)

[The Sides Are Forming for the Coming Civil War](#)

Dave Hodges--[The Common Sense Show](#)

America is in the choosing sides phase of the coming civil war. To use a college recruiting phrase, it is accurate to state that the letters of intent to join one side or another side, have mostly been signed and the commitments offered. However, there is one big uncommitted piece, but very soon the sides will be drawn.

What is going on today in America is all about choosing sides. There are clear lines being formed in the United States. **The recruiting pool consists of the Department of Homeland Security, the American military, local law enforcement, the Russian troops pouring into the United States, the trickle of Chinese troops coming into the country through Hawaii and, of course, the poor, the middle class and elite. This is the recruiting pool which will form the chess pieces of the coming American Civil War.**

Even if all parties in this country wanted the country to [continue](#), even in its present mortally wounded state, it would be foolish to believe that it could continue for much longer.

There are three paramount numbers that every American should be paying attention to and they are (1) national deficit (\$17 trillion dollars), (2) the unfunded liabilities debt (\$238 trillion dollars), and (3) the derivatives/futures debt (one quadrillion dollars which is 16 times the entire wealth of the planet. The net result of these staggering numbers can only end one way, and that is with a [financial collapse](#), followed by a bank holiday, rioting in the streets and the full roll out of martial law. These financial numbers guarantee that the party cannot continue much longer.

Since America, in her present form, cannot continue much longer without experiencing a cataclysmic shift, **we would be wise to realize what resources are going to be the impetus for civil war.** When you play the board game, Monopoly, the properties on Boardwalk are among the most coveted. It is no different in real life. A big prize of the coming conflict is real

estate. Homes, office buildings and shopping malls are the most coveted prize. The MERS mortgage fraud continues unabated as millions of homes have been confiscated through mortgage fraud. When the dollar is worthless and is awaiting its replacement (by the Amero or another global currency), real estate will be very valuable.

Other big game that is being hunted by both sides in the coming civil war will be bank accounts, which must be looted before the dormant computer digits we call money, can be converted into hard assets. That is why my advice is, and has been, convert your cash into tangible assets which can enhance your survivability in the upcoming crash.

Also, your pensions, your 401K's and your various entitlement programs are also at risk as evidenced by Secretary of Treasury Jack Lew's "borrowing" from various Federal retirement accounts in order to increase the debt ceiling fight that will resurface in Congress, again, early next year.

Again, my advice is to convert your assets in tangible items which will aid in getting you through some very dark days coming up in the near future. Before the cognitive dissonance crowd rears their ugly heads and accuses me of fear mongering, ask yourself what the elite did prior to the crash of the economy in 1929. For example, Joseph Kennedy took his money out of the stock market the day BEFORE it crashed. Rockefeller, Westinghouse, et al., all took their money out just prior to the crash, leaving the ignorant masses unaware of what was coming. Don't make the same mistake.

Barring a false flag event, US martial law will have a trigger event, which will lead to martial law, that will be a financial collapse and it will naturally occur as we are already on a collision course with destiny. I am not ruling out other events, but the economic crash scenario is easily the most likely event.

Please allow me to ask you an ignorant question. If you knew that a virus was coming to your neighborhood which would infect much of the local canine population, wouldn't it be prudent to build a fence around all of the dogs in the neighborhood in order to isolate any potentially infected dogs? Well, this is how the elite views humanity.

Many people, devoid of financial resources, will soon become like a pack of rabid dogs and they must be contained. As I have written about recently, it is becoming very difficult to get your money out of the country. Banks, such as JP Morgan Chase and HSBC have already imposed withdrawal limits. If you withdraw more than \$10,000 cash, you run a good chance of being investigated by the IRS. This is one layer of fencing has already been placed around you and your assets.

The NDAA constitutes another big fence being built around the people in which all due process will soon be gone. The NDAA will allow the administration the "legal" right to secretly remove any burgeoning leadership of citizen opposition forces. The second provision which will allow this country to quickly transition to martial law is Executive Order (EO) 13603 which allows the President to take control over any resource, property and even human labor within the United States. This EO gives the President unlimited authority including the ability to initiate a civilian draft as well as a military draft. In short, this spells the potential enslavement of the American people. For those of you who still have your blinders on, research the NDAA and EO 13603 and then when you realize that I am correct in my interpretation, ask yourself one question; If the powers that be were not going to seize every important asset, then why would the government give itself the power to do just that? And while you are at it, remember the Clean Water Act gives the EPA to control all private property as well as the precious resources of all water. And then of course, the FDA and the conflicts with local farmers is escalating. And if this is not enough to convince the sheep of this country that the storm clouds are overhead, then take a look at HR 347 which outlaws protesting and takes away the First Amendment. This unconstitutional legislation makes it illegal to criticize the President and the government, as a whole, in the presence of Federal officials. I have news for you, there are Federal officials in every town, city and county in America. If one violates HR 347, they will be immediately arrested and charged with a felony.

I just saw the *Hunger Games* sequel, *Catching Fire*, and this is eerily similar to what I saw in a lot of movies **in that the people are being provoked to revolution.** In fact, in the TV show, *Revolution*, **the most evil entity in the series is the re-emergence of the United States government** and the heroes of the show are rebelling against the abuse. It seems like everywhere we turn in the media, the people are being encouraged to rise up now and challenge authority. I am sure the establishment would rather confront a small group of dissidents and squelch the rebellion now, before the numbers can become significant and overwhelming to the establishment and this theme is being carried out in the media on a large scale.

Along these same lines, Obama has done nothing but agitate the middle class. I like to ask Obama supporters, can you name one thing Obama has done, on behalf of the establishment elite, to improve the plight of the American middle class? I can't think of even one thing.

The fences have been built around the soon-to-be rabid dog population, so when the infected dogs go crazy, the pieces will have been put in place to deal with the uprisings that will surely follow the loss of everything. Containment is nearly complete. The final action will consist of gun confiscation and one side of the coming conflict is attempting to position themselves to do that in the near future and that would be the DHS, the Russians and the Chinese. I cannot think of another legitimate reason which would describe why these foreign troops are here.

I have told you what is at risk before the inevitable economic crash. Now it is time to take stock of the sides of this coming civil war and a very clear picture is emerging.

The poor have no resources other than their food stamps which are already under attack. **The middle class and their resources are the target for the coming conflict. And most of the middle class has no idea that they have been targeted.** Soon the divide and conquer strategies will lose their effectiveness and the poor and the middle class will be on the same team because they will both have lost everything. **Comment: Not in agreement about this one as I can see the poor invading middle class neighborhoods when the food & supplies run out, and in this case they will definitely not be on the same team.**

As most of you know, I have been screaming from the roof tops that the "Russians are coming, the Russians are coming", in reference to a bilateral agreement signed between the Russian military and FEMA. Well, the Russians are not coming, they are here and so are the Chinese. As most of you also know the Russians and Chinese have threatened to nuke the United States over Iran and Syria in the past several months. Yet, this administration thinks it is a good idea to include the Russians and Chinese in participating in highly secure operations with profound national security implications in such drills as Grid EX II and the upcoming RIMPAC war games which we used to use to fight against the imaginary Chinese and Russian forces.

The sides of the coming civil war looks like this. **On one side, we find the evil empire consisting of the elite, their government puppets, the DHS the Chinese, the Russians and perhaps the military.** The other side, for the moment consists of the middle class and now the poor as they move towards having their entitlements incrementally taken away. **Unless the military and the police can be swayed to the side of the people, the people are going to lose badly.**

There is one big prize and its allegiance has not yet been determined and that is the American military and it is a game changer.

Obama is purging the military like no president has ever done. Bush fired two Generals. Obama has fired hundreds of command level officers. Why? Because the military leadership is the key to the coming civil war. Who will the military support? Will the military support an out of control administration who would use foreign military assets against the people? Or, will they support the people that they are sworn to defend?

Obama has the Russians and the Chinese military coming into the country because our military cannot be trusted to do what needs to be done when the economic crash occurs.

They are needed to confiscate the guns. Obama knows that the military is conditioned to protect the people. He is hoping that he can change the entire structure of the military and thus, change its mission through changing its leadership.

I personally do not think Obama can change the rank and file of the military. I think he can only have a minimal effect on the leadership of the military. If Obama's purge of the military is anything but for the purpose of commandeering its services for the upcoming civil war, I would really like to hear another explanation, because, for the life of me, I cannot see another purpose to Obama's house cleaning of the military. .

Obama needs to be impeached and convicted for treason ASAP.

The Imminent Invasion of the US Has Been Planned for Decades

Dave Hodges January 16, 2014

[The Common Sense Show](#)

Last night on the TV show, *Revolution*, one of the main characters

discovered that the "new" United States had constructed numerous re-education camps and were planning to exterminate large groups of people. In the same episode, two of the other main characters discovered that the United States had released plagues in order to significantly reduce the

population and (by tainting the food) create a pandemic health crisis (via Typhus) that only the new US government could supposedly fix. The globalists are well known for revealing their intentions through the world of entertainment and telegraphing their punches. Pastor Lindsay Williams has often stated that it is an unwritten rule that the globalists must somehow publicly declare their intentions prior to executing a plan which could result in a massive loss of life. However, I did not have to become aware of the *Revolution* script to have heard this message before. In the 1990's, officials from Maricopa County came to my campus and recruited "first responders" to a potential biological and/or chemical attack. The bonus and benefit was that first responders would be the first to receive any available antidotes, so I signed up. Sometime later, FEMA and DHS took over the program. In the transition, I got to personally know some of our FEMA replacements and I was made keenly aware about how real this threat was as one of the families visited me at my office in October of 2012. In that meeting, they informed me that they were leaving the area and relocating to a remote community that they had been prepared as a secret refuge. They asked me if I watched the show *Revolution* and they told me that we were facing a similar false flag event as what happened in the show. The power outage would be followed by a chemical/biological attack with weapons that "no other nation knows that we have". This family and two other families that I know of moved in

December of 2012. I have previously recounted this story in more detail on December 25, 2012 and December 27, 2012 on this website.

I was subsequently told that following the blackout, some of the biological weapons would be designed to induce abhorrent behavior, zombie like behavior, in which an individual's hypothalamus (i.e. the primary site of our stress response known as our fight or flight mechanism) would be overly excited and extreme and random violence would be induced. Along these lines, does anybody remember the two "zombie" disaster preparedness attack drills with the last one occurring in San Diego which was sponsored by DHS?

It was further revealed that these chemical and biological attacks, resulting in mass hysteria and random attacks, would force many people to public shelters (i.e. the new re-education centers). Shortly after that, I discovered the NFL, NBA, NHL and Major League Baseball offered their facilities to DHS in times of national emergency. Since that time, we have seen DHS and FEMA conduct drills for a national emergence in such events as Operation Mountain Guardian. Further, Simon Properties made a similar agreement with DHS to allow the use of their malls and strip centers to be used for the same purpose. Simon Properties is the largest owner of malls and strip centers in North America. Now we see the full fledged introduction of TSA molestation activities at NFL games which began this year. Are some of these dots beginning to connect? One final note about this event, all three families informed me that when martial law was declared, the Russians and the Chinese troops would be the primary enforcers and Americans would soon face "hell on earth". This was over a year before it was announced that Chinese troops landed in Hawaii and that the Russians and the Chinese would be involved in the Grid EX II drill and the RIMPAC War Games. I think it is a fool's errand to try and predict a timetable in which these events will come to fruition. One of the FEMA families told me, before their departure in December of 2012, that we probably did not have two years.

Even if there were no FEMA informants and no Zombie drills by DHS, no power grid takedown drills and no Russian and Chinese soldiers training on our soil to become the vanguard of a martial law force, key Russian defectors have been warning us about these possibilities for decades. The Russians are not our friends and neither are the Chinese.

The phrase "The Rape of Nanking" has special significance in world history as it relates to the genocidal treatment of a conquering army and the utter devastation that it can bring to a civilian population. If you are unfamiliar with this historical event, you may wish to [review these tragic events](#) in order to see why so many are concerned about our immediate future as a nation. After familiarizing oneself with this tragic event, most of us will take an entirely new and sober view of the existence of Russian troops on American soil and the dangers we all face as a result.

If we in the alternative and truthful media are unable to wake up a significant portion of this country as to the intentions of Russian troops on our soil, we will see the modern day version of the "Rape of Nanking" being visited upon American citizens and all the signs point to the fact that we do not have much time to prepare. Since publishing yesterday's article, I have received a half dozen emails detailing eyewitness accounts of Russian soldiers in Gatlinburg, TN., Colorado Springs, CO, Ventura, CA., and Ketchikan, AK. Not only are there Russian troops on American soil, there are legitimate and demonstrable, long-standing military reasons which would prompt Russia to engage in a military takeover of the United States. However, please keep in mind that this takeover is being orchestrated by the bankers. Also, the next and last part in this series will clearly demonstrate that Obama and Putin work for the same interests. Obama has deliberately left the backdoor of this country open to an external invasion.

<http://thecommonsenseshow.com/2014/01/16/the-imminent-invasion-of-the-us-has-been-planned-for-decades>

++Update: Grave Warnings

On December 22, 2013, I interviewed **former deep-cover CIA agent, Dr. Jim Garrow, who was explicit about the presence of both Russian and Chinese troops in America and in Northern Mexico.** He noted that the Russians are operating in cooperation with DHS. This is what Sherrie Wilcox uncovered in the abovementioned video. **My insider sources have been providing me with this information for the past 18 months and it matches the Garrow account, word for word.** **ALL of my sources state that we will have a false flag attack(s) which will be followed by a declaration of martial law and will be largely enforced by Russian and Chinese soldiers.** I have also been informed that as communities are forcibly vacated and relocated to detention facilities at stadiums, malls and heretofore secret camps, the remnants, or stragglers, of these communities will be sprayed with specifically designed bio-agents which are specially designed to completely terminate all forms of life which may have evaded the roundups. I am now just beginning to receive another piece of the puzzle which strongly appears to justify the coming bio-agent attacks. Have you ever wondered why various government agencies are hell-bent on obtaining as much DNA as possible? It is being obtained in order to be used in research. This is research which is designed to bypass certain HLA typings. In the past 48 hours, I have been approached by two whistleblowers who have worked in testing facilities both in California and Arizona. In both cases, these whistleblowers tell stories of research related to methodologies on how to bypass all HLA typings with regard to certain pathogens. The research is so volatile that many of the research personnel have fallen ill. **Most disturbingly, the connecting dots are suggestive of the fact that some entity, within this country, is doing research on how to make a bio-agent so completely destructive so as not to leave any survivors.** If 10 people were to be exposed to Ebola, 90% would die agonizing deaths as the victims would meet their collective demise by bleeding out of every cavity in the body as their organs literally melted down. However, 10% would survive because they would possess a special HLA typing which would help them to recover from the pathogen. The research appears to be seeking to create a pathogen which will be 100% fatal as it will overcome all types of HLA typings. What I am learning from the accounts of both whistleblowers, is that foreign doctors are involved in this research and the experimental subjects medical records are being deleted so as to not leave any trace. My military sources tell me that these pathogens will be delivered through specially designed drones and that both Russian and US intelligence sources are jointly conducting this operation. Now, to the \$64 million dollar question, what does this have to do with Russian troops? The Russians have sufficient motivation to engage in an invasion of the United States because it fits both their national interests to do so and it satisfies the banking masters that they and the CIA both serve. Putin and Obama are playing for the same side. Even if Russia and America goes to war, it is planned because they are taking their marching orders from the banksters which control every single central bank on the planet. The following constitutes the Russian motivation for attacking the United States in order to obliterate our country even when a coming economic collapse may not.

Subject: [Listener Comment: 501c3 Clergy Response Team Preparations?](#)

I live in NW Oklahoma. The largest 501c3 Baptist church in the area, Emmanuel Baptist Church, has a congregation of approximately 1,200-1,500 people. This is an estimation. The pastor of this church is Pastor Wade Burleson... **Pastor Burleson has ties to many governmental agencies as detailed by his "About" page on his website including the DEA, FBI and Homeland Security. <http://wadeburleson.com/about/>**

It was recently relayed to my brother by an EBC church member that the church was having their "Board" vote on removing the expensive wood pews that have been there for years. They were voting to replace them with folding chairs. At first it was relayed to him that this was being done to allow for more seating. **However, it was recently told to him that it is in preparation for a catastrophic event. It was specifically stated that the folding chairs would allow seating to be removed so that cots, bedding and generators could then be placed within the church in case of a catastrophic event. What type of event was not relayed to me nor the timing of the expected event.**

I've researched this remodel and it is true. Here are the before and after pictures.

<http://wadeburleson.com/wp-content/uploads/2012/03/Wade-in-Church.jpg>

<http://www.emmanuelenid.org/>

Further research shows that railroad tracks run adjacent to the church building. They are next to the parking lot, west of the church and not even 150 feet away from the building. They can be seen in the map provided on their visitor page.

<http://www.emmanuelenid.org/index.php/visitors>

Comment: Watch out for large buildings next to railroad tracts especially new construction with barb wire facing inward.

What makes this more significant is that these railroad tracks lead to Watonga where the privately owned Diamondback Correctional facility is located. The prison has been closed for some time but now it looks like they are hiring for a future contract. The mayor of Watonga is excited about the prospect but clueless as to whom is involved in the future contract.

<http://oklahomawatch.org/2013/09/19/vacant-private-prisons-in-oklahoma-may-re-open/>

<http://www.okcfox.com/story/23490668/dimondback-correctional-facility-in-watonga-hiring-400-employees>

The entire chain of events is very suspicious and I would be curious to know if any of your listeners are noticing the same events in their communities. It could be nothing and only coincidence **but the Holy Spirit is convicting us otherwise. My brother penned an email to Emmanuel Baptist asking point blank *what their reasoning is for the remodel and if Pastor Burleson is on the payroll of FEMA as part of the Clergy Response Team.* I doubt we get a response but can be assured that we have been moved up on the government's dissidents**

lists. Yippee!!! So be it!!! We've gotten to the point where we are sick of this garbage and don't care what others think of us. As you say.....being a follower of Jesus Christ is not a popularity contest.

My brother's email:

"Hello, I have recently moved back to Enid and was thinking about attending your church. I attended your church years ago and felt quite welcome. I always admired the fact that the pastor would tell the congregation that if anyone needed money from the offering plate they were welcome to take what they needed. That always impressed me. Now that I'm back in Enid I started asking around and learned that you are in the process of a remodel. I spoke with one of your members who indicated that the church had decided to remove the pews and replace them with folding chairs. I asked the person why the church decided to do such a thing and he indicated that if a disaster occurred the chairs could be removed and beds could be brought in to accommodate those in need. Your member then indicated that the church was buying generators as well, so in case of power failure they would be ready. This all seems great on the surface but over the **past couple of years I have been conducting research on U.S. Government organizations such as FEMA and DHS and learned that they have developed "Clergy Response Teams" from churches that file 501 (c) 3 status with the IRS in order to assist the government in their ability to control the masses when the need arises; That these Clergy Response Team "preachers" receive payment from the US Gov. for their services to preach Romans 13 to their flock, telling them that GOD requires "the people" to obey the government because the government is ordained by GOD. This is very disturbing to me because when Hitler took over Germany he used the exact same tactic to keep the masses at bay while becoming a tyrannical, murdering, dictator. What concerns me even more is that within 150 feet of your church is railroad tracks that run within a few miles of a recently vacated prison in Watonga. It has been proven that the federal government has plans to use these type of facilities in case of civil unrest. I'm aware that Emmanuel B.C. is a 501 (c) 3 organization, but is your pastor part of the government's "Clergy Response Team" and on the government's payroll? If not, can you explain why your church decided to renovate your auditorium in the manner it has, especially now, as the countries financial instability could cause economic collapse? It just seems very odd that your remodel is occurring at this time in history. I know these questions may seem to border on paranoia but I think the people of this country have a right to be a little paranoid based upon past and present unconstitutional and illegal actions of our government. By the way, it is my understanding that Roman's 13 does not apply to governments who undoubtedly have evil intent!**

Thanks for your time! "

Scott, I found this to be interesting timing since we are hearing warnings about a possible event to occur within 60-90 days. I wanted to relay what we are seeing so that others can be on the lookout in their communities. Are large, local churches all of a sudden doing remodels within their communities????

NOTE: We obviously have no intention in attending that church and do NOT attend any 501c3 church. It was only a means to hopefully initiate dialogue and to plant a seed that the Lord can prosper if He sees fit.

[FEMA Seeking Contractors Who Can Supply Biohazard Disposal Facilities, Tarps and Housing Units With 24-48 Hours Notice](#)

FEMA is seeking contractors who can supply medical biohazard disposal capabilities and 40 yard dumpsters to 1,000 tent hospitals across the United States; all required on 24-48 hour notice. Issued on January 10th, you can see the request [here](#).

The request comes on the heels of other requests that the medical supply industry has received recently.

A request for 31,000,000 doses of pediatric flu vaccine from the CDC Solicitation notice can be seen [here](#).

FEMA also put out solicitation requests for: [100,000](#) each of winter shirts and pants and the same for summer. Interestingly only 10% of the items are to be in childrens sizes.

From [Tarps](#) to [manufactured pre-fabricated housing units](#), the requests for goods and services are substantial. Most of the requests and solicitations have an indefinite delivery date and an indefinite number of items to be supplied, such as this one for [beverages](#).

So what is FEMA preparing for?

Tent hospitals were the only way the United States coped with the 1918-1920 pandemic as hospitals and medical centers were rapidly overwhelmed with the sick and the dying. Comment : This is the exact same tent hospitals that were just shown on the last episode of revolution.

Almost every week we are confronted by a new flu strain, or an emerging disease that could, in the right circumstances, threaten our way of life.

Whatever it is they're preparing for, those items that do have numbers attached to them indicate they are not ordering enough to ensure the survival of the bulk of the population. **The government has proved time and time again they cannot deal with even a regional major incident effectively let alone a nationwide emergency. You only have to look at the aftermath of Katrina and Sandy to see that these people cannot protect you, they don't have the organizational skills to do so. Just getting water to hurricane survivors was beyond them. They cited 'logistical' issues and bad weather.**

Dr Johnson, Did you see this - [See my highlighted responses below.](#)

<http://www.telegraph.co.uk/news/worldnews/northamerica/canada/10560108/First-North-American-death-from-bird-flu.html> **Yes**

To me it is misleading - they are talking about the H5n1 flu - and notice they kept this under wraps for over a week - there has been many deaths here in the US from the H1n1-

And isn't the H5N1 - the one that you have to be put on total life support - asap - because if not it is 100% fatal? **No that is the H7N9 strain that I have reported on recently, see:**

<http://www.youtube.com/watch?v=vP1OjN41RGk&feature=c4-overview&list=UUQ7a7Q4EN-OY1mdyanRs-3w>

Also this report just broke: **95 Flu Deaths In California: H1N1: Not Even Peak Of Flu Season Yet!--45 deaths confirmed from influenza this season in California. According to LA Times State epidemiologist Dr. Gil Chavez said "We have 45 confirmed and 50 under investigation — that's 95 right there and we're not even to the peak of flu season."**

<http://beforeitsnews.com/health/2014/01/95-flu-deaths-in-california-h1n1-not-even-peak-of-flu-season-yet-2519376.html>

Now with that said I did a 14 tour back in 2006 with the Prophecy Club on the H5N1 strain which has about a 70% kill rate without life support. For my updated power point presentation on this see: **[Avian Bird Flu: What to Expect and How to Prepare \(Full Version\)](#)** for most of my original live presentation see: [Avian Flu - Killer of Millions full file mp4 - click to download](#)

Subject: [Contending for Truth:] Hi Scott, **[Colloidal Silver Testimonial For Lung Issues](#)**

*Hey, just have to send a quick note. Back around 2010 swine flu scare I took your advice and got a nebulizer and several strength bottles colloidal silver. Had it stashed away for future emergencies. Well, emergency, I have no health insurance and contracted the flu. Laid down to take a nap and woke up, left side chest killing me and almost passed out. Almost called 911. That night I was so scared I cracked out the nebulizer and the 5000 ppm. All I can say is thank God in heaven :) I did that and it helped immediately and I just happened to have a bottle of antibiotics for pneumonia that my Dad had been prescribed, he had only taken one and it turned out he had been misdiagnosed, so I took those also. I am better, have 4 days left of the antibiotics to take. **I have to tell you though that for the last 9 months I wake up hacking and short of breath until I cough up all the sinus drainage and congestion. I no longer wake up like that. Been doing the neb and silver every night before bed and wake up clear!!** Had to thank you, hope you can share with listeners....Heather :)*

Comment: Also for any chronic lung problem vitamin A is very important. Two products I would always recommend for this would be Cataplex A & Pnumotrophin PMG (both by Standard Process) See: <https://www.standardprocess.com/Standard-Process/All-Products>

Subject: Fwd: **[MMS Question & Guidelines & How to Get the Inive Silver Outside the USA](#)**

Hi Dr Scott, Greetings once again from South Africa. Here's something you may like to see. After listening to so many of your teachings, we are trying to get colloidal silver which you recommend, and a strong one at that. However, after having a good look around, all we can find is 18ppm. Then we recently found 20ppm. I've asked the supplier if anything stronger is

available, and below is the reply + a recommendation for an alternative, Chlorine Dioxide/MMS.

What are your thoughts on this?

God speed and keep strong, Matt

Response:

Matt; OK if you order off the: <http://www.dr-johnson.com/> it goes through the Invive factory and they ship all over the world (including South Africa).

20 ppm is just not nearly strong enough to get the job done. See the last attachment I sent you. 20 ppm is like dishwater to a virulent virus. Watch my presentation:

[Colloidal Silver-Mild Silver Protein Part 1](#)

[Colloidal Silver-Mild Silver Protein Part 2](#)

[Colloidal Silver-Mild Silver Protein-Part 3](#)

[Colloidal Silver-Mild Silver Protein-Part 4](#)

OK also with Chlorine Dioxide (AKA MMS) you have to be very careful. I have sold and personally taken this stuff and if you literally do one drop too much you will find yourself on the ground in a fetal position vomiting in a very agonizing way. Just could not continue to promote this to my patients as a result of this. See below for my research on this.

Dr. J.

MMS Guidelines

The immune system attacks unhealthy conditions using the MMS. There has never been any evidence of an attack on healthy cells. But if one supplies the immune system with excessive MMS, the immune system appears to attack unhealthy conditions vigorously. It's what the body needs, but a reaction sometimes occurs that may cause nausea and even vomiting. When this occurs, one has simply taken too large a dose at first. For this reason it is advisable to give doses of two drops or even less for the first dose just to see what is going to happen. When giving two drop doses it is permissible to use a little less than ½ teaspoon of vinegar, but no less than ¼ teaspoon. Situations vary, the healthier a person is the more drops he can start with. When a person is very sick, start with two drops or even one drop and go to the second drop immediately if the first drop didn't make him nauseous. Wait a couple of hours and increase by one drop. Back off for a while if he shows signs of being sicker. A very sick person should receive a dose of some strength every four hours during the day and in some cases every hour. Almost always the sick person will begin to feel better within 24 hours. But the possibility that the MMS will be used by the immune system to break loose some poisons can make a person a little nauseous. Just don't give up. Keep at it until you have reached 15 drop doses that do not make the person nauseous. Then do the 15 drop doses twice a day until the person is well. Normally a person will be well by the time he has increased doses to 15 drops, but if not keep at it. Larger than 15 drop doses. As already mentioned, if 15 drops is good, so maybe 45 drops is three times as good. For goodness sakes, don't go that far. In extreme cases maybe try a couple of 25 drop doses within two hours of each other. The fact is, I have had reports back from people who, when they did not get the results that they wanted, resorted to as much as 25 drops. In that case they were careful to use a full ½ teaspoon of vinegar. The wait is three minutes or longer. Never, never, never, start off with 25 drops. In fact, only in extreme cases go to more than 15 drop doses. Exception to the rule One would only start off with a large dose such as 25 drops in the case of poisoning. If one had taken a dose of poison, a dose of MMS will often help. In the case of parasitic diseases that too would be a reason to take a large dose at first. My friend next door caught some kind of a walking around flu. His throat was sore and he continued to cough and hack continuously. It went on for three weeks and didn't let up. He then began taking the MMS. He took 15 drop doses for several days with no change. Then out of desperation he squirted in a 25 drop dose. He added a teaspoon of vinegar, waited the three minutes, added the apple juice and downed Curing Diseases Chapter 10 Page 4 The Miracle Mineral Supplement of the 21st Century it. The next day the hacking and coughing was gone. He took a second 25 drop dose and the next day the rest of the symptoms were gone. Later just

for research, he tried several larger doses, but he noticed a metallic taste in his mouth the rest of the day, so he decided never to go over 25 drops. I am saying, however, never go over 15 drops unless you absolutely have to. For people who cannot stand vinegar replace the vinegar with at least ½ teaspoon of lemon juice. Lemon juice is somewhat less effective, but it is usable. All other factors should remain the same. Do not use lemon juice unless the person absolutely cannot stand vinegar. Children: It is perfectly safe to have children and babies to take the MMS. Of course, children must have fewer drops than adults. The formula for children is three drops for babies. Other than babies, use 3 drops for each 25 pounds (11.4 KG) of body weight for children. Fat people: Use three drops for each 25 pounds of body weight. Malaria: The procedure for malaria is to always start with a 15 drop dose, and give a second 15 drops dose in one to two hours. (Remember, if you use a standard eye dropper, multiply these figures by 1.5 which in this case would be rounded off to 23 drops). Expect most of the symptoms to be gone within four hours of the second dose, but don't worry if the symptoms are not gone after four hours beyond the second dose, simply give a third dose. All malaria parasites are dead after the second dose. If the patient is still sick, it will not be from malaria. It will be from some other disease. In that case, continue with at least two 15 drop doses each day until they are feeling good.

A Quick Introduction of MMS for your Friends, Family & Clients

One of our members, a doctor, submitted the following information on MMS that she intends to share with her patients. She asked David to review it, and to the best of his knowledge, it is accurate. This may be something you want to share with your family, friends and clients. I have just spent the weekend reading an amazing book that I think you should know about. In *Miracle Mineral Supplement of the 21st Century*, the author writes from his own experiences, his journey with its highs and its lows, and of his determination to achieve his goal; he is truly a man with a mission. I believe everyone needs to read it and share it with as many people as possible. The answer to most diseases has been found and proven out in Africa. It's not a drug, but rather a mineral supplement and it handles most diseases caused by bacteria or viruses, all known pathogens, including AIDS. Miracle Mineral Supplement (MMS) is described as a stabilized oxygen formulation that is a 28% solution of Sodium Chlorite in distilled water. When ordinary white vinegar is added to a few drops of MMS, Chlorine Dioxide is created and when ingested produces a major boost to the immune system, killing virtually every known pathogen, including bacteria, viruses, fungi, molds and yeast. While first developed to address malaria in Africa, it has now been shown to address many disease conditions that are directly or indirectly related to pathogens. There is documentation of over 75,000 cases of malaria being overcome in Africa. Often in as little as 4 hours all symptoms are gone and the person is tested clear of malaria. It is now being reported that MMS can be used to help overcome the symptoms of AIDS, hepatitis A, B & C, typhoid, some cancers, herpes, pneumonia, food poisoning, tuberculosis, asthma, colds, flu and a host of other conditions. Even conditions not directly related to pathogens seem to be helped due to the huge boost to the body's immune system, i.e., macular degeneration, allergies, lupus, inflammatory bowel disorders, diabetes, snake bites and fibromyalgia. Please note that MMS doesn't cure anything, but rather it allows our body to heal itself. Part 1 of the book is free. Yes, you can download it free of charge. Please check it out. Anyone can test this supplement for themselves to see if it works. Anyone can make the supplement themselves. Just visit www.miraclemineal.org to download the free book. I think you will be glad you did. Many thanks.

Updates from Jim Humble on the MMS

Jim Humble was asked about **Lyme Disease**. Here is his response . . . My opinion at this time for lyme is that one starts out very small, like 1/2 drop or so, but taking it every hour during the day. So that's 1/2 drop each hour. Then to one drop each hour and then to two drops and so forth. The hourly doses seem to be needed to go deep into the body. If one starts to get too nauseated, one then takes a drop or two less each hour. But keep up the hourly basis for 8 to 10 hours during the day. Keep attempting to increase the number of drops. Nausea is not a bad

sign, but do not allow yourself to become too nauseated. It means you will stop before you should. Do not be in too much of a rush. Also study my book. There is a great deal of data there that could save someone. Many people with lyme have candida, thus it is better to not ever use vinegar. Use citric acid if possible. (See note below on using citric acid) Mr. Humble had warnings regarding using MMS along with MSM and DMSO. With more experience, he has altered those warnings . . . There is no problem with DMSO and MSM and MMS. In his book, Mr. Humble recommends using lemon juice instead of vinegar when on maintenance doses. David feels it is your choice. If you have candida or conditions that could underlie candida, vinegar will mostly like not help. Mr. Humble recommends citric acid. Citric Acid for MMS Activation (instead of vinegar or lemon). . . . Obtain citric acid in powder form as citric acid crystals. Some health food stores carry them, or you can order them from a pharmacy (heaven forbid). Make a 10% solution of citric acid. To make a 10% solution, put one level tablespoon full of crystals in a clean glass or jar. Then add 9 level tablespoons full of purified water into the same jar. When the crystals have dissolved this is a 10% solution. In all cases when using the citric acid as an activator, use 5 drops for each 1 drop of MMS. Do everything else the same. Wait 3 minutes after mixing, add juice and drink. When using the citric acid as an activator, be sure to keep in mind all of the other instructions concerning taking the MMS. Start with taking 2 drops of MMS and ten drops of citric acid and then work up to greater amounts. Note: When using an eyedropper to measure your citric acid drops, be sure it supplies about the same size drop as your spout on the bottle of MMS. It might be easier to use the same dropper for the MMS and the citric acid

Abscessed teeth, infected gums, and pyorrhea: use 15 drops in a glass, add ½ teaspoon of vinegar, wait three minutes and add ¼ glass of water. Use this solution to brush the teeth. Use a new solution every morning. Do not leave this solution in the mouth for longer than 30 seconds. Expect the pain of an abscessed tooth to be overcome by the immune system in about four hours. Expect all infection and all pyorrhea to be gone in one week. Expect all loose teeth to be rock solid in two weeks. Expect a completely healthy mouth in less than three weeks. Keep in mind that the MMS solution is the most powerful health solution ever developed and it will indeed do exactly what is described here.

Hepatitis A, B, and C and all other strains of Hepatitis: the patients need 15 drops twice a day, but will not usually tolerate 15 drops. When using 15 drops immediately, the immune system attacks too hard. Start with two drops and if that The Miracle Mineral Supplement of the 21st Century does not make them nauseous try three drops on the next dose later that same day. If it does make them nauseous try one drop on the next dose that same day. Always continue with one drop until they can take it without nausea, then go to two. Most people can start out with two drops. Keep increasing the drops until the person can take 15 drops twice a day. Be careful to not cause nausea as that often makes the person afraid of the MMS and they will quit and you won't be able to get them to start again. Remember, the MMS is merely a health drink and you are merely furnishing ammunition to the immune system. A person needs to get accustomed to this mineral drink.

Herpes: The ads on TV can make you sick when you know that herpes can be easily cured when the immune system has the proper ammunition. About a week of 15 drop doses and no more herpes. Of course, one must start with two drop doses and increase daily until he has reached 15 drop doses and then take it for about a week. That means the herpes should be gone in about two weeks. People like to bash the ideas I give here that these things can be cured by the immune system. I've been called many un-nice things. So before you send me a bad letter, why don't you just try what I tell you here. It can't cost you much and what you learn might eventually save your life. If it doesn't work, then send me a nasty letter.

AIDS: MMS does not attack AIDS. The immune system does. It merely needs the right ammunition. As usual start with two drops, but at least three times a day. Increase the drops as quickly as you can until they are taking 15 drop doses three times a day. It will take from three days to three months, but usually less than 30 days. Some cases may only clear up with

intravenous injections. A doctor should always do this. See the chapter on intravenous injections. Please note: normally healthy people can take these drops without nausea, especially after a meal. Only people sick with some kind of disease will get nausea when taking the drops. However, nausea is a good indication that the drops are doing some good. Usually even sick people do not experience nausea when taking MMS, however do not be surprised when people get sick or have nausea or even vomit after taking a few drops of MMS. Try to take it or give it immediately after a meal. The MMS allows the immune system to correct various conditions in the body and this creates solutions that the body must expel during the process. That is normal; however, if you always start with only two drops it is unlikely that you will make anyone sick. Curing Diseases Chapter 10 Page 6 The Miracle Mineral Supplement of the 21st Century Chlorine dioxide is more powerful than any drug by far and more powerful than any other nutrient, at least that is the case in the immune system. The immune system selects out and attacks many things that are not natural to the body and it does it immediately. On top of that, it also destroys poisons that have been generated by the disease. That's why thousands of malaria patients just got up out of their beds and went home in four hours. That's why many AIDS patients in Uganda went home in three days. The fact is, a single dose has at times given the immune system enough ammunition to totally overcome hepatitis C. That's probably why it is the only thing known that can overcome an abscessed tooth. On rare occasions someone may have a little nausea from two drops, but that seldom will be the case. I mean rare, like once in 500 cases. In the case of malaria and some other diseases caused by parasites, one does not start with only two drops. The malaria victim is very sick and he needs some relief. It takes 15 drops to do any good. So give them 15 drops and wait a little over an hour and then give them another 15 drops. They will have tremendous relief and the malaria parasite will be dead. This is also true of many other diseases caused by parasites. On the other hand, some diseases have the ability to dig in deep and it may take weeks or even months of taking the MMS for the immune system to completely destroy them. The fact is, MMS is normally extremely fast acting.

Using MMS in the eyes: Follow these directions carefully, as you can cause problems to your eyes. Use one drop of MMS in one tablespoon of distilled water or eye drops that you buy from a drugstore. Wash your eye with the liquid from the teaspoon making sure it gets directly into your eye. Allow it to stay in for 15 seconds. Do not try to guess 15 seconds. Use a watch with a second hand. Then use distilled water or eye drops to wash the eye until you are certain that you have washed every bit of liquid out of your eye. Do this every two hours until the infection in your eye is gone. Begin taking MMS by mouth using 3 to 4 drop doses every hour until you notice a big improvement in your eyes. If you cannot put drops in your eyes, you can depend upon the doses by mouth if you do it every hour. **REMEMBER:** You cannot allow the liquid with a drop of MMS to remain in your eye. If you do it will cause a burn.

(I burned my eyes once. I left some MMS in my eye thinking that since I didn't feel anything from it that it didn't have enough strength to do damage. I was wrong. It didn't do any noticeable damage to the eye ball, but the skin around my eyes drop and stretched downward about an inch. I looked terrible like my eyeball might fall out and I was worried, but it cleared up in several days.) Curing Diseases Chapter 10 Page 7 The Miracle Mineral Supplement of the 21st Century

Cancer, including leukemia: The theory here is the same. Chlorine dioxide gives the immune system almost perfect ammunition to attack cancer cells. We believe the theory has proven true as many people with cancer have told us that the cancer went away or reduced greatly after taking the MMS. However, there is not yet enough research in this area. Still, it's a lot better than standard medical treatment. People have often told us and we have noticed that skin cancer usually dries up and drops off within one week of taking 15 drops twice a day of the MMS. We do not claim that the MMS had any effect, but that is what we observed. Some cancers are harder to treat than others and in the case where the cancer does not start to disappear within about two weeks of starting to take 15 drops twice a day **one should also get some Indian Herb** There are a lot of people who say that after taking the Indian Herb that their cancer went away, but again we do not claim that. She has many letters that indicate that. We

merely report what people have said. The information on where to get the Indian Herb is at the end of this chapter. Do not hesitate to go to at least 30 drops twice a day of the MMS, or 15 drops four times a day when necessary. Remember, the MMS is not a drug, and we have never noticed any reaction with other drugs. Please do not say you are treating cancer. You are merely giving a health drink of minerals that has been used for 80 years. The immune system is what cures or treats the cancer. As I write these lines, my friend next door has just overcome a small melanoma cancer on his arm. I mentioned that he was taking larger doses at 25 drops per dose. (I do not necessarily recommend doses that high, but do what works). In any case he had already checked with the doctor that it was actually a melanoma. As he took the drops after only a week the melanoma began to have a white ring around it and it then began to grow smaller until after about two weeks it was gone. That is, at least we could not see it any more and there was no longer any sore feeling.

Asthma: MMS has often stopped an asthma attack in 10 minutes or less, but it doesn't work every time. MMS works best with asthma over a period of time. It depends upon the condition of the asthma whether or not it stops an attack instantly or how long it takes to cure a condition of asthma. MMS will always help, but if a person is beyond repair, then MMS will not do the job. However, over a period of time it will often cure the asthma. Start with six drops twice a day for the first day taking the drops after a meal. If the person does not get nauseous from the six drops, go to eight drops the next day. Keep increasing until the person is taking 15 drops twice a day after meals. There is more Curing Diseases Chapter 10 Page 8 The Miracle Mineral Supplement of the 21st Century positive results from taking the drops on an empty stomach, but that often makes a person nauseous. In that case the person will often stop taking the solution and refuse to take more so you must be careful to not make someone nauseous. In any case work up to 15 drops twice a day. After two weeks drop back to 15 drops only once a day. It may take months before one can do this without being nauseous. This is because the MMS is slowly destroying something that is bringing about detoxification of the body. (That's what I think, but the fact is I have watched many people get well from various diseases and they usually are well and feeling energetic when the drops are no longer causing nausea.) Asthma is not easy to clear up, but it has cleared up in those who kept with it. Warnings: (1) Do not allow children to use MMS unsupervised. (2) Do not allow MMS to set in direct sunlight even if it is in a colored bottle as it will create pressure in the container which could rupture and cause severe burns. MMS that has set in direct sunlight can cause very painful burns. (3) Never allow full strength MMS to remain on your skin for more than 10 seconds as it can cause mild burns.. /

In the case of a **brown recluse spider bite**, use only diaper rash ointment (Desitin) or other diaper rash ointment containing at least 40% zinc oxide. I mention this as some people have tried to use MMS for brown recluse spider bites and it had very little effect on the poison. Desitin contains 40% zinc oxide. It will kill most of the poison, pain and itching of a brown recluse spider bite in less than one day. I say this after seeing dozens of people treat their bite with this diaper rash ointment. /

Black Widow bites: As long as we are talking about spider bites let me mention a remedy for Black Widow bites. Slice upon a stem of freshly cut Aloe Vera leaf and put the open slice part against the bite. Use a piece about two inches by two inches. Then tape the aloe vera over with tape holding it tight against the bite and excluding most of the air. Leave it for at least 12 hours before putting a fresh piece on the bite. Most or all of the bite poison will be gone in 12 hours.

Curing Diseases Chapter 10 Page 12 The Miracle Mineral Supplement of the 21st Century
Insect bites, mosquitoes and other bugs not particularly poisonous but irritating. A really heavy mosquito bite can be very uncomfortable for several hours. Use MMS as if you were going to take it. Put 10 drops in a glass and add ½ teaspoon of vinegar. Wait three minutes; then put the solution full strength (just the drops and vinegar) directly on the bite. Rub it in with the tips of your fingers. The itching from the bite will be gone in about 5 minutes and will begin to diminish immediately. You do not need to wash this solution off. Once you have added the vinegar to the MMS you have negated its ability to burn your skin. Once vinegar has been

added the alkalinity of the solution has been destroyed and thus it cannot burn you skin. However, when using the solution in larger areas of the body than a small insect bite always add about 1/2 glass of water to the 10-drop solution that you make up.

Using MMS on the Outside of the Body: Please read this carefully. It is possible to cause problems on the outside of the body when using MMS in too strong of a solution. Once you have added vinegar to the MMS it can not longer cause a burn, but it can still cause a problem when used full strength. When adding six to ten drops in a glass with 1/2 teaspoon of vinegar with the exception of insect bites in a small area of the body, always add over 1/2 glass of water before putting on the outside of the body or in the hair. Never add the 10 drops mixture to any kind of body lotion. When the MMS solution is too strong on the outside of the body, it can weaken the cells and make them more susceptible to bacteria and infection. On the other hand, when use in a weak enough solution, like adding the 1/2 glass of water, it can help a great deal. For jock itch and that sort of thing, after applying some body lotion then spread the solution from the 1/2 glass of water with you finger tips. Sores on the head: Follow the instructions for the insect bites above, but be sure to add 1/2 glass of water to the 10-drop solution of MMS and vinegar. When combed into the hair with enough solution to penetrate to the scalp it will cure most head sores in a few hours. If you use it daily it makes for a healthy scalp, but it also makes you a blond. In other words once or twice a month is okay, but when used daily you begin to notice that your hair is bleaching blond after a few days. (It is a very nice blond.) Prevention: Data has already been presented that MMS improves the immune system. The fact is, MMS is a super preventative for almost any disease known. It's my opinion, after observing hundreds of people taking MMS that it will prevent most cancer, including breast cancer. But not just cancer, any disease that the immune system can attack can be prevented or aided in prevention by supercharging the immune system with MMS. Curing Diseases Chapter 10 Page 13 The Miracle Mineral Supplement of the 21st Century I would appreciate email letters from anyone noticing data concerning all aspect of the MMS, either pro or con. If you cannot afford insurance, you definitely should be taking MMS every day.

Bird Flu, Pandemic and other Mass Hysteria: For over 100 years chlorine dioxide has been used to sterilize hospital floors, benches, and equipment. During that time no pathogen has ever developed any kind of a successful resistance to chlorine dioxide. Due to the nature of chlorine dioxide it is doubtful that any pathogen ever will. It's like trying to develop a resistance to hand grenades or dynamite. The explosion is too violent to resist. Therefore it is doubtful that any of these new mass hysteria or germ warfare diseases will be able to resist chlorine dioxide. That is to say, MMS. Chlorine dioxide is already being use to kill these diseases in buildings and other places. Now anyone can use it in the body as well. Be sure to keep some present in you medicine cabinet.

Treating burns The MMS solution has an amazing ability to treat burns. There is some kind of a chemical created in a burn that is neutralized by MMS. A burn is best treated by MMS immediately after the burn, but it can still help even hours later. When a burn happens no matter how bad, one should squirt the MMS full strength straight out of the bottle all over the burn. Do not use the vinegar in this case. Using the tips of your fingers very lightly with a feather touch make sure it is spread completely on the burn for only 30 seconds to a minute. Do not allow your fingers to press on the burn in any way. If you had a paint brush handy, that would be best. But don't spend any time looking for a paint brush. The sooner you get the MMS on the burn the better. The acidic chemical in the burn is neutralized by the alkaline solution of the MMS. The pain stops immediately, within seconds. Wash the MMS off with water. When treating a burn, make sure you leave it on for at least 30 seconds. Count slowly to 30 before washing it off. You absolutely must wash it off or the burn will become worse. If you do this correctly, the burn will heal in about 1/4 the ordinary time for a similar untreated burn. The MMS must be washed off with water within 30 to 60 seconds. If water is not available do not use the MMS until you are sure that something is available to wash the burn off. Any drinkable liquid will do for washing the MMS off of the burn if there is no water available. In an extreme circumstance, even urine could

be used to wash the MMS from the burn. Sunburns can also be treated. Use a cloth very lightly or with the tips of your fingers very lightly spread the MMS full strength on the sunburned area. Use plenty of the of MMS so that it spread quickly and easily. Leave the MMS on for 15 to 30 seconds and then rinse off with water. It must be rinsed off completely. Do not leave it on. Waiting more than about 30 seconds will make it worse. If you rinse it off, the pain vanishes immediately. How much to use:

(1) **For maintenance** begin with two drops, add 1/4 teaspoon of vinegar and wait three minutes and add ½ glass juice. Work up to six drops once a day, twice a week for young people; six drops once every day for older people. Always use the vinegar, wait, and juice. Most people can start right off at six drops a day and do not need to work up to it. Only a very few will feel any nausea from six drops.

(2) **For most diseases especially liver diseases, and including other problems:** Start with two drops or less if one is very sick. If you don't notice an increase in nausea, go to three drops four hours later. The next day start with three drops in the morning and go to four drops in the after noon. Continue increasing the drops until you are taking 15 drops twice a day. Anytime you notice nausea, reduce the drops, but go to 15 drops as soon as possible. Take the drops after a meal to help prevent nausea. A healthy person experiences no nausea, but do not be afraid of nausea, as it only indicates that the MMS is working. Try to prevent nausea in those you treat because it scares them and makes them refuse further treatment.

(3) **For malaria and other parasite diseases** use 15 drops the very first dose. Wait one to two hours and give another 15 drops. Do the same the next day. Continue for 3 days. Check for parasites. If parasites are present continue up to three months. All parasites will be dead long before three months. Remember; always use the vinegar, wait, and juice. In most cases parasites including worms will be dead in three days.

(4) **Snake bite;** take at least 15 drop doses every ½ hour for two hours, and then every hour for two hours, and then every two hours. Continue every four hours until you are out of danger. As usual, use the vinegar, wait, and juice. Do not cut a snake bite in any case. Be sure to see a doctor, but do not allow him to cut the snake bite. It's okay to use a suction device on the bite. Cutting spreads the poison too fast.

(5) **Burns, 1st, 2nd, or 3rd degree burns:** Do not use vinegar. Squirt the MMS directly on the burn full strength from the bottle. Make sure it covers the burn. Wait no longer than 60 seconds and then wash the MMS off with water. It's very good to use to stop pain and burning for sunburns, but WARNING, do not leave on more than 30 seconds. It must be washed off. Most any drinkable liquid is okay to use to wash off in extreme emergencies. (The MMS neutralizes the acid created by the burn, but if left on the burn it will create a different kind of burn).

(6) **Food poisoning:** Take 12 drops first dose and 6 drops every ½ hour. Be sure to use the vinegar, wait, and use about 1/4 glass of juice or water.

(7) **Children:** For a baby use three drops. For older children use three drops per 25 pounds of body weight. Start out with less for a baby like two drops or even one, then work up to three drops in a few hours if needed. Same with children except with malaria and parasitic diseases. In that case use the full amount to start with. If the parasitic disease is not handled in several days use as much as twice the figures given here.

(8) **Animals,** use with any sick animal: For smaller animals use three drops per 25 pounds of body weight. For horses and other larger animals, use one drop for each 25 pounds of body weight. Use an appropriate amount of vinegar, wait, and normally use water added instead of juice. Most animals will go ahead and drink, but you may have to force feed the animal. In that case a turkey baster with a large squeeze bulb bought at most grocery stores works fine. If there is a question use smaller doses at first.

Jim Humble's Instructions for a Sick Dog . . . People and animals should have 3 drops for each 25 pounds of body weight. Be sure to activate the MMS with Lime or Lemon juice (5 drops for each drop of MMS), wait for at least 3 minutes after activation to add about 1/8th glass of water for each drop of MMS that you used. Once you have added the water, somehow get it

down the dog's throat. Wait for one hour, and then give the dog a second dose of the same size. Do that each day, and if the dog doesn't begin to get well right away, within about 3 days, begin to increase the number of drops. Increase by one drop each day until you have reached about 6 drops for each 25 pounds of body weight. If the animal weighs less than 25 pounds of body weight, use less than 3 drops. One drop for each 8 pounds.

Editor's Note: This is more aggressive than our instructions that say to start with 1 drop. Your chosen protocol will depend upon the animal's condition.

The Truth of MMS by the inventor Jim Humble

- Chlorine dioxide only lasts 2 hours and then deteriorates into sodium chloride (table salt) and discharges oxygen that becomes a part of the body.
- It kills only anaerobic bacteria and microorganisms (these are oxygen vampires). In the quantities recommended it *cannot* do anything else in the body.
- That is the scientific chemistry of it, however, if during the two hours it is active, it kills too many bacteria, the poison from the dead bacteria can cause nausea. But remember, it's nausea from dead bacteria, not freshly added toxins.
- In our updated version of Breakthrough: The Miracle Mineral of the 21st Century, Dr. Hesselink tells of several thousand tests conducted in scientific laboratories over the past 20 years using oxides of chlorine (chlorine dioxide in essence). Most used my exact formula.
- About 5 years ago, I had a number of discussions with the FDA concerning the MMS. At that time I covered all of the details. They were interested, but since I was taking it to Africa at that time they explained to me that they did not have any jurisdiction and/or interest in minerals going to Africa. They, however, felt that it was a good item and gave me encouragement.
- There is no such thing as a non-existent threshold for toxicity. You can get too much of anything. The FDA sets a maximum limit for chlorine dioxide used in foods. That's what we use, and therefore, we remain below the toxicity limit. It just so happens that at the levels we recommend, the chlorine dioxide still retains its antiviral/antibacterial qualities.
- The FDA limits for human consumption of chlorine dioxide is between 1 and 2 ppm (parts per million) in some cases, and as high as 50 ppm in other cases having to do with food. We have shown remarkable results using their 1 and 2 ppm limits.
- Anyone can find a certain amount of data on the Internet about chlorine dioxide, but the medical use is not really immediate. You really have to dig for that data. We have over 160 references listed in my book and Dr. Hesselink has at least several hundred more papers. I'm talking about actual scientific tests and some of the papers cover years of tests.
- For those who don't already know it, the MMS *breakthrough* has already been made. More than 75,000 people have overcome malaria with the protocol. Thousands have overcome other diseases in the US, Mexico, Australia, Zealand, South Africa, Kenya, Uganda, Tanzania, Sierra Leone, and quite a few other countries. Thousands in each of these countries listed. The number is growing daily.

Jim Humble

MMS - Miracle Mineral Supplement

David Dartez (Global Light Network Newsletter Volume 3, Issue 34 8/23/07): Tonight, I am going to get on my soapbox, but then I guess I do that pretty regularly. I am so excited about the power of the new product that we have discovered . . . **MMS - Miracle Mineral Supplement.**

MMS is a stabilized oxygen formulation that is a 28% solution of Sodium Chlorite in distilled water. When citric acid solution is added to a few drops of MMS, Chlorine Dioxide (**Not regular chlorine** which is toxic) is created and when ingested, produces a major boost to the immune system, eradicating virtually every known pathogen, including bacteria, viruses, fungi, molds, yeasts and many parasites.

While first developed to address Malaria in Africa, it has now been shown to address any disease condition that is directly or indirectly related to pathogens. **There is documentation of over 75,000 cases of Malaria being overcome in Africa. Often in as little as 4 hours all symptoms are gone, and the victim is tested clear of Malaria. It is now known that MMS can be used to overcome the symptoms of AIDS, Hepatitis A, B & C, Typhoid, most cancers, herpes, pneumonia, parasites, food poisoning, tuberculosis, asthma, colds, flu and a host of other conditions. Even conditions not directly related to pathogens seem to be helped due to the huge boost to the body's immune system, for example, macular degeneration, allergies, lupus, inflammatory bowel disorders, diabetes, snake bites and fibromyalgia. Please note that MMS doesn't cure anything, but rather it allows our body to heal itself.** Notice how I carefully step around the words "cure" and "heal", even though that is what is really happening. **Comment: By law only the people in the white lab coats within the Medical profession can claim to cure anything.**

MMS is certainly not the end all / be all product, but never-the-less it is a HUGE part of the health and wellness equation. The leading cause of death, in the US at least, is related, directly or indirectly, to the use or misuse of allopathic drugs . . . almost 1,000,000 per year. (See the book **Death by Medicine** by Dr. Gary Null, PhD. and Dr. Carolyn Dean, M.D., N.D.) After that, most of the main causes of death are infectious in nature, and MMS used regularly for maintenance of health could avoid most of those diseases, or taken at the outset of the disease condition, could reverse it. If we will use MMS to eradicate any existing pathogenic conditions and then use it regularly for maintenance, there is every prospect of extending our lives by 20 to 40 years with a very high-quality of life. Do I have your attention yet? This is important! Additionally, much of the poverty and misery around the world is related to epidemic diseases. Huge numbers of the population of Third World countries are sick and unable to be productive or are caring for others who are sick and dying. Malaria alone strikes 500,000,000 people per year, and many of them die. Please join me and Jim Humble, the discoverer of MMS and the author of the book, **Breakthrough . . . Miracle Mineral Supplement of the 21st Century**, and let's make a difference for humanity. Make MMS available to everyone you know and love and to other parts of the world before the powers that be find a way to shut this life-saving supplement down and make it unavailable.

Global Light Network is making and selling MMS, but you too can make it on a small scale or large scale very easily. Jim Humble teaches you everything you need to know and tells you where you can get the supplies. We will also help you if you want to make it and share it. This is not about marketing as much as it is about making a difference in the World. If enough people learn about MMS, use MMS and learn how to make it, "they" will not be able to stop it . . . but it is going to take a lot of people getting involved to reach that point of critical mass . . . the point of no return. **You can draw down Part 1 of Jim Humble's book FREE at www.MiracleMineral.org as a .pdf file. At that same site, you can draw down Part 2 as a .pdf file for \$9.95.** A paperback book that includes Part 1 and Part 2 can be ordered for \$14.95. Either way, **please get Part 2. That is where the really good stuff is documented.** In the body of the newsletter, we have included a summary of the contents of Part 2. Please look through that summary. I will be shocked if you don't feel compelled to learn all there is to know about MMS. BTW, Jim Humble is committed to donate any profits from the book to further the MMS cause. **For further more in depth study I would refer you to Chapter 22 of the newest version of Part 2 of Jim's book where Dr. Thomas Lee Hesselink, M. D., reviews the safety and science behind MMS for 26 pages. Included in the 26 pages are 137 references to mainstream articles regarding Chlorine Dioxide.**

MMS Inventor Jim Humble is recommending that there are many advantages to using a 10% solution of citric acid to mix your MMS. Using the citric acid generates 10 times as much chlorine dioxide, which is the active ingredient in MMS . . . that is what does the work for our immune system.

MMS Instructions

From the revised edition of Jim Humble's book and from our own experience, here are the most recent instructions for using MMS, along with a couple questions and answers.

We have learned from Jim Humble that **citric acid works the best to activate the MMS**. Below are his instructions for using citric acid.

How to Make Your 10% Citric Acid Solution . . . Obtain citric acid in powder form as citric acid crystals. Some health food stores & bulk food stores carry them or you can order them over the internet. **Put two level teaspoons full of Citric Acid crystals in a clean container. Then add 3 ounces of distilled water into the same container. When the crystals have dissolved, this is a 10% solution. In all cases when using the citric acid as an activator, use 5 drops for each 1 drop of MMS.**

How to take the MMS & Citric Acid solution together : In all cases when using the citric acid as an activator, **use 5 drops for each 1 drop of MMS. Once the Citric acid has been added to the MMS swirl to mix & then wait 3 minutes & then add juice (without ascorbic acid, see below) and drink within 1 hour.** When using the citric acid as an activator be sure to keep in mind all of the other instructions concerning taking the MMS.

Start Up Dosage: Always start with 1 or 2 drops of MMS and 5 or 10 drops of citric acid solution and then work up to greater amounts. Swirl to mix and let sit for 3 minutes. Add juice (**without ascorbic acid, see below**) or water and drink within 1 hour. Slowly **increase application 1 or 2 drops of MMS at a time to as much as 10 to 15 drops a day (twice a day for extreme conditions)** until you feel that your immune system is strong. Then drop back to 6 drops of MMS (and 30 drops of citric acid) a day for maintenance. **Anytime you have a sign of nausea or diarrhea, reduce the next application.**

Someone asked when the **best time to take the MMS would be**. After dinner and before bed seems to be the recommended time. If you take the MMS after a meal, the possibility of a reaction is diminished, and when your body is at rest, the MMS can work more efficiently.--David Dartez

For Extreme Conditions and Special Uses: Order the book, Breakthrough . . . Miracle Mineral Supplement of the 21st Century at: www.MiracleMineral.org.

Juice without Ascorbic Acid: Apple, Pineapple, Cranberry Lemonade or Grape juice can be **used in place of water** as long **as there is no added vitamin C. Do not use orange juice.** If you are taking Vitamin C supplements, take them at a different time from the MMS. Juices without ascorbic acid are not easy to find. **Please read the label because they have to list ascorbic acid on the label if it is in there.** The best place to find the juices are at larger health food stores & some larger grocery stores (like Publix). Once at the health food or grocery store the easiest way to find this type of juice is to go to the frozen foods section and look for organic Apple, Pineapple, Cranberry, Lemonade or Grape juice in **frozen concentrate form**. The frozen brand I have used is produced by **Cascadian Farms**. This is by far also the most cost effective way to obtain a juice **without** ascorbic acid.

Alternative MMS activators: Using **Vinegar** as an Activator with the MMS . . . Follow the same instructions as above, but instead of citric acid, use ¼ tsp. of vinegar (with at least 5% acetic acid) to 1-6 drops of MMS. For 7-15 drops of MMS, use ½ tsp of vinegar.

Lemon or Lime as an Activator . . . In his book, Breakthrough . . . Miracle Mineral Supplement of the 21st Century, Jim Humble says you can also use lemon or lime juice as an activator. Please refer to that book for further instructions.

For Children (and Pets): Start with 1 drop a day and slowly work up to 3 drops of MMS a day for each 25 lbs of body weight. (Always add 5 drops of citric acid to each drop of MMS.) Swirl and let sit for 3 minutes. Then add juice or water and drink within 1 hour. (For pets, use 5 drops

lemon or lime juice to each drop of MMS instead of citric acid. Add water instead of juice.)

Citric Acid vs Lemon Juice . . . I like citric acid as it is pure and doesn't have a bunch of junk like a lemon does. I have no idea if it is any stronger than lemon juice. It might be. I think that people have less nausea with citric acid than lemon juice, because the citric is more pure. More pure is usually best as other unknown ingredients are not added. - **Jim Humble**

Warnings

- Do not use MMS full strength always dilute with juice or water once it has been activated with the Citric Acid.
- Do not exceed the recommended applications.
- Keep out of the reach of children.
- **Keep out of direct sunlight and excessive heat.**
- When using citric acid, always use a 10% solution.
- If you are taking prescription drugs, pay attention. A strengthened immune system may recognize them as the toxins they are and attempt to neutralize their effects.

The Truth of MMS by the inventor Jim Humble

- Chlorine dioxide only lasts 2 hours and then deteriorates into sodium chloride (table salt) and discharges oxygen that becomes a part of the body.
- It kills only anaerobic bacteria and microorganisms (these are oxygen vampires). In the quantities recommended it *cannot* do anything else in the body.
- That is the scientific chemistry of it, however, if during the two hours it is active, it kills too many bacteria, the poison from the dead bacteria can cause nausea. But remember, it's nausea from dead bacteria, not freshly added toxins.
- In our updated version of Breakthrough: The Miracle Mineral of the 21st Century, Dr. Hesselink tells of several thousand tests conducted in scientific laboratories over the past 20 years using oxides of chlorine (chlorine dioxide in essence). Most used my exact formula.
- About 5 years ago, I had a number of discussions with the FDA concerning the MMS. At that time I covered all of the details. They were interested, but since I was taking it to Africa at that time they explained to me that they did not have any jurisdiction and/or interest in minerals going to Africa. They, however, felt that it was a good item and gave me encouragement.
- There is no such thing as a non-existent threshold for toxicity. You can get too much of anything. The FDA sets a maximum limit for chlorine dioxide used in foods. That's what we use, and therefore, we remain below the toxicity limit. It just so happens that at the levels we recommend, the chlorine dioxide still retains its antiviral/antibacterial qualities.
- The FDA limits for human consumption of chlorine dioxide is between 1 and 2 ppm (parts per million) in some cases, and as high as 50 ppm in other cases having to do with food. We have shown remarkable results using their 1 and 2 ppm limits.
- Anyone can find a certain amount of data on the Internet about chlorine dioxide, but the medical use is not really immediate. You really have to dig for that data. Life Saving Chemistry: Interview with Jim Humble

2007-09-07-- Adam welcomes Jim Humble, author of Breakthrough: The Miracle Mineral Supplement of the 21st Century. A metallurgist, gold prospector and chemist whose quest to understand why a simple solution of stabilized oxygen – used to make water drinkable while deep in the jungle –sometimes cured malaria. Further research led him to understand the role of trace amounts of chlorine dioxide – a known oxidizer that acts on pathogens, viruses, harmful bacteria, heavy metals, poisons, and parasites – as the real oxidizing agent. With further study, he effectively developed a protocol that produces 1,000 times more chlorine dioxide than stabilized oxygen, but are yet in micro quantities that make it safe for human consumption, and effective in “disinfecting” harmful pathogens from the body. After helping over 75,000 people rid themselves of malaria, the inexpensive MMS protocol is now available to help millions of all walks of life who have become walking pathogen factories. A must listen show.
