Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Obama's Gun Control/Confiscation Agenda--Obama's Planned Gun Control Regulations to be Incrementally Imposed After the Holidays

Hannity exposed Obama's gun control agenda 2 years ago, so why is anyone surprised at the list I put out earlier today? See below for the list.

Play:

<https://www.youtube.com/watch?v=imwIHX3xhZE>

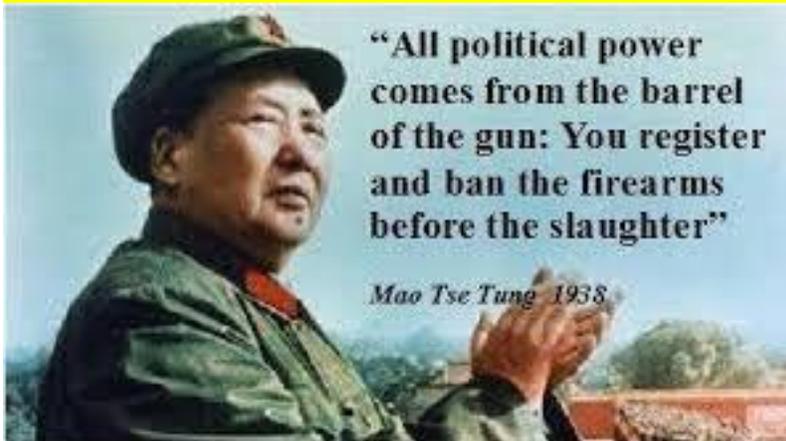

According to my sources, Obama will ultimately implement the following gun control regulations, mostly through a series of Executive Orders.

1. Tax ammunition into oblivion and encourage the prosecution of gun manufacturers and bullet producers for shootings that used their products. This is a given and will be rolled out very early in the form of an Executive Order.
2. The Federal government will purchase as much ammunition as possible in order to create shortages, thus, driving up the price of ammunition.
3. The prohibition of purchasing a gun in one state and transporting that same gun across state lines.
4. New Federal regulations which will permit, without a warrant, any civil authority to enter a home of a registered gun owner to check for gun safety when it comes to the "proper" storage of guns. Said gun can be confiscated and the owner will be subject to arrest and fines if a gun does not meet governmental storage regulations. The new regulations will be devised to prevent one from using the gun in a moment's notice.

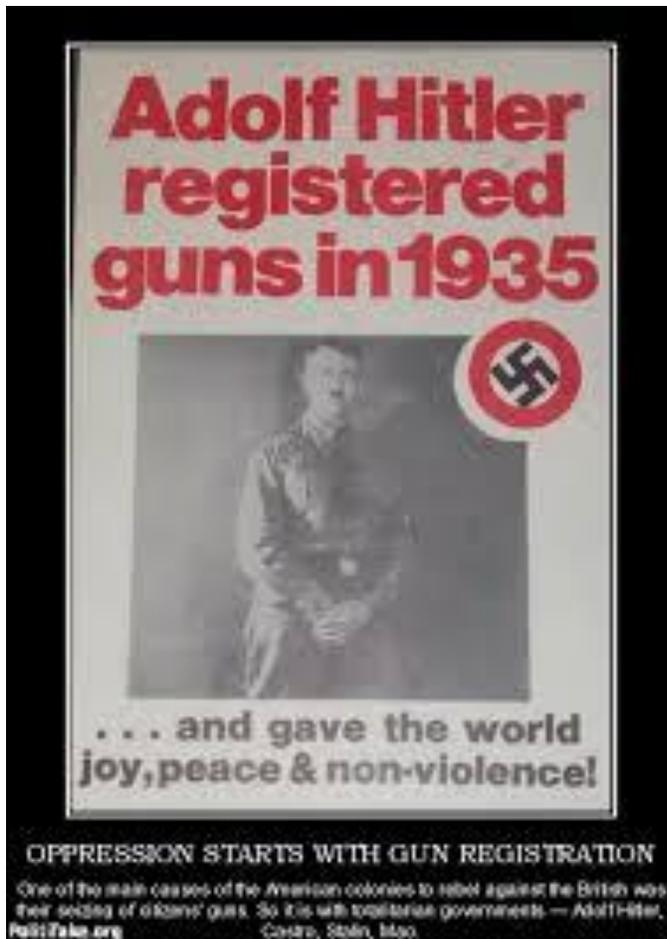

5. There is discussion among DoJ officials about limiting how many guns, in the aggregate, that can be stored in one geographic area. This will amount to gun rationing.
6. Gun owners will eventually be required to attend and pass gun safety courses in the same manner as one renews their drivers license. This will, again, drive up the cost of owning a gun.
7. At some point, no doubt following a false flag event, an Executive Order will be issued to overturn all conceal and carry laws currently in place in several states.
8. With regard to Child Protective Services investigations, any gun-owning parent will receive a negative score when it comes to investigation of child abuse and welfare cases.
9. No veteran will be allowed to own a gun for an unspecified period of time following their discharge from the service. As part of the VA reform there is serious discussion about mandating outplacement counseling for all veterans and gun prohibitions will be a part of this. I was told that this is, in part, is why all the Federal attention is being placed on streamlining the VA process for veteran access.
10. The scope of gun free zones will be expanded. The IRS will be given policing powers on new gun control regulations. Bank accounts and homes can be seized for failure to comply. Further, RICO statutes can be utilized among the non-compliant. It was stressed to me that examples will be made of protesters and non-compliant people.
11. Obama will wait for the next false flag, & then will announce a ban on all assault rifles.

None of the above are in any particular order. These soon-to-be regulations appeared on a DOJ White Paper that leaked to one of my sources.

A PICTORIAL HISTORY OF THE NATIONAL SUICIDE THAT GUN CONTROL/CONFISCATION WILL BRING TO AMERICA:

Mao wrote the Obama's ever evolving gun control play-book.

So we can see where this is headed.

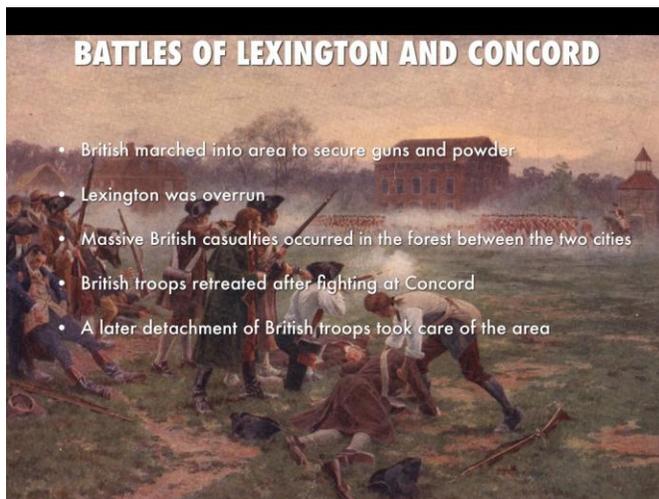

Obama Is Going to be Pulling Out All the Stops to Confiscate Our Guns

He is most likely going to declare that everyone on the 'No Fly List' cannot purchase or possess guns. He will stop at nothing, Just like Mao, until he has all of our guns.

Obama will soon proudly take his place among the greatest gun-grabbing mass murdering despot devils in history

If Hillary got elected it would just be a continuation of Obama's dictatorship.

Lexington and Concord Was About British Confiscation of American Arms

Without Lexington and Concord, there is no American Revolution & the British were after the Colonial guns.

It is our American Heritage to resist the government tyranny of gun control and gun confiscation.

Gun Control Will Also Amount to Government Imposed Slavery Under Executive Order 13603

According to EO 13603, the

President, or the head of any federal agency that he shall designate, **can** conscript “persons of outstanding experience and ability without compensation,” in both “peacetime and times of national emergency. There is only ONE word for forced, “uncompensated employment”. That would be slavery.

This is a civilian conscription **and this is why the Secretary of Labor is in charge of this** instead of the head of the Selective Service! Under these provisions, the government believes that they can send you anywhere, to work on anything of their choosing.

Of course Executive Order 13603 **will be enforced by Federal goons armed to the teeth. And like Mao, this will be enforced against people who have been disarmed.**

The Solution? Noncompliance With All Government Imposed Gun Control Regulations

++ Meet Your Executioners - They Must Disarm You Before They Can Kill You And This Is The First Step - 'To Ensure That The Right To Keep And Bear Arms Is Not Unlimited'

By Susan Duclos - [All News PipeLine](#)

Second Amendment says: "A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed."

Nowhere in the Second Amendment does it mention "limits," in fact, it specifically states "*shall not be infringed*," which makes one wonder if ANY of the Democrats listed below, also known as "your executioners" understands what shall not be infringed even means, as they all are co-sponsoring a bill which states outright " To regulate assault weapons, ***to ensure that the right to keep and bear arms is not unlimited***, and for other purposes."

Below is a chart created in 2002, showing which governments passed "gun control" laws, how many millions were massacred after the passage of said laws and which laws preceded genocide.... note the right hand column where it is abundantly clear that "ban on possession" and/or "confiscation" aka "gun control" always comes before mass murder by a tyrannical government.

In the text of the H.R. 4269 we see the following section title "SEC. 3. RESTRICTIONS ON ASSAULT WEAPONS AND LARGE CAPACITY AMMUNITION FEEDING DEVICES."

It states:

"(v) (1) It shall be unlawful for a person to import, sell, manufacture, transfer, or possess, in or affecting interstate or foreign commerce, a semiautomatic assault weapon.

[...]

(w) (1) It shall be unlawful for a person to import, sell, manufacture, transfer, or possess, in or affecting interstate or foreign commerce, a large capacity ammunition feeding device.

In section 2, they define the term "semiautomatic pistol" as (A) utilizes a portion of the energy of a firing cartridge to extract the fired cartridge case and chamber the next round; and (B) requires a separate pull of the trigger to fire each cartridge. They also define the term "semiautomatic shotgun" as (A) utilizes a portion of the energy of a firing cartridge to extract the fired cartridge case and chamber the next round; and (B) requires a separate pull of the trigger to fire each cartridge.

Ladies and gentlemen they are trying to "infringe" on Americans' right to keep and bear arms, a right that has been [affirmed by the Supreme Court in 2010](#), with the statement "**It is clear that the Framers . . . counted the right to keep and bear arms among those fundamental rights necessary to our system of ordered liberty.**"

H.R. 4269 has only been introduced by the listed would-be "executioners" above and it is up to every single Second Amendment supporter to call

your elected representatives, fax them, write them, use the online contact forms..... either we all stand up and speak out in one united voice or they will continue to strip our constitutionally guaranteed rights by simply changing the Second Amendment itself. **It is a fact that throughout history, the mass murder of citizens has been preceded by some form of "gun control," because a government cannot become a true tyranny, a dictatorship, when the citizens are armed and capable of defending themselves, not just against criminals but from tyrants.**

Anyone who thinks that the Republicans would not go along with the gun ban may want reconsider how they feel about it since **the Republicans just went along with the Omnibus spending bill that's s*** every single American. Something tells me you're going to see they almost unanimous vote in favor of gun ban****

Michael Rivero

The actual text of this bill is at <https://www.congress.gov/bill/114th-congress/house-bill/4269/text> . Read it carefully. The bill defines virtually every kind of auto-loading gun as an "assault weapon" The goal is not to stop crime, as most of these weapons are not used to commit crimes, but to hand a military advantage to the government in advance of a population angered to the point of rebellion by further confiscation of our wealth and our children for more wars of conquest. This bill is a complete violation of the Second Amendment. The United States Supreme Court ruled in *Marbury vs Madison* that laws repugnant to the Constitution are automatically null and void. I agree. The United States Supreme Court also ruled in *United States vs Miller* that the Second Amendment reserves to the people arms equal to those carried by the uniformed government forces, given that the purpose of the Second Amendment is not hunting or target shooting but arming the people against the rise of tyranny. This bill proves that tyranny is alive and well in Sodom on the Potomac. This bill proves that Congress has gone off the Constitutional reservation they are supposed to confine themselves to, and by that act have proven that they are no longer the legal and legitimate government of this nation. As a result, the American people are under no legal or moral obligation to obey such a government, pay its bills, or sacrifice the lives of their children in the government's wars of conquest! "The Constitution preserves "the advantage of being armed which Americans possess over the people of almost every other nation. . . (where) the governments are afraid to trust the people with arms." -- *The Federalist*, No. 46 - James Madison

"What, sir, is the use of militia? It is to prevent the establishment of a standing army, the bane of liberty. . . Whenever Government means to invade the rights and liberties of the people, they always attempt to destroy the militia, in order to raise a standing army upon its ruins." -- Debate, U.S. House of representatives, August 17, 1789 - Elbridge Gerry

"The strongest reason for the people to retain the right to keep and bear arms is, as a last resort, to protect themselves against tyranny in government."

Illinois Beta Testing the Gun Confiscation Law? HR0855 Title '2ND AMEND-NOT INDIVIDUAL RIGHT' - IL Attempts To Ban Private Ownership Of Firearms

By Susan Duclos - [All News PipeLine](#)

Many ANP readers have been concerned over the latest attempt on the part of [Democrats in Congress to strip away more of Americans' Second Amendment rights with their "Assualt Weapon Ban of 2015"](#) introduced in the US House of Representatives with the stated purpose being "To regulate assault weapons, to ensure that the right to keep and bear arms is not unlimited, and for other purposes."

What slipped through the cracks while our attention was focused on the introduction of the U.S. congressional bill was another (on a state level in Illinois) that was filed with the Illinois House clerk on November 6, 2015, sponsored by three Democratic State Representenatives, Emanuel Welch, Rep. Pamela Reaves-Harris and Jaime Andrade, which directly challenges the Supreme Court ruling in [DISTRICT OF COLUMBIA... vs.](#)

HELLER, which held "that the Second Amendment protects an individual's right to possess firearms and that the city's total ban on handguns, as well as its requirement that firearms in the home be kept nonfunctional (even when necessary for self-defense), violated that right."

The Illinois bill [HR0855, titled "2ND AMEND-NOT INDIVIDUAL RIGHT,"](#) is far more dangerous in language and intent than the Assault Weapon Ban of 2015 because there is little chance the Weapon Ban will pass, and has a higher likelihood that the Illinois state bill will pass considering the composition of the Illinois House stands at 71 Democrats with only 47 Republicans.

The danger in this bill is that they are going after private ownership of guns, for if they can ban private ownership, they can take the next step and confiscate weapons legally owned now by making it illegal for private citizens to possess a firearm.

Text of HR0855 - 2ND AMEND-NOT INDIVIDUAL RIGHT, below and can be found at <http://www.ilga.gov/legislation/99/HR/09900HR0855.htm>:

WHEREAS, Gun violence is an ever present problem in the State, as well as nationwide; an example of which is 8 persons dying in Chicago in one week in October due to gun violence; and

*WHEREAS, In the past few years, court rulings, including the United States Supreme Court in District of Columbia V.Heller, in interpreting the Second Amendment to the United States Constitution have overturned long standing precedent, which had **supported state and local authority to deny gun possession** when necessary to promote and protect public safety; in order to reach its decision, the 5 member majority of the United States Supreme Court either ignored or misinterpreted much of the clear and plain wording of the Second Amendment; and*

WHEREAS, As stated by U.S. Supreme Court Justice Stevens in his well-thought out dissent on behalf of 4 Justices in Heller: "The Second Amendment was adopted to protect the right of the people of each of the several States to maintain a well-regulated militia. It was a response to concerns raised during ratification of the Constitution that the power of Congress to disarm the state militias and create a national standing army posed an intolerable threat to the sovereignty of the several States. Neither the text of the Amendment nor the arguments advanced by its proponents evidenced the slightest interest in limiting any legislature's authority to regulate private civilian uses of firearms. Specifically, there is no indication that the Framers of the Amendment intended to enshrine the common-law right of self-defense in the Constitution."; rather the Second Amendment's original purpose was to act as a check on federal gun-making policy, not to prevent individual states from creating gun policy as they saw fit; and

WHEREAS, The legal view of the Second Amendment as a collective, militia right, and not an individual right, held for over 200 years until the Heller decision in 2008, which invalidated a law barring individuals from possessing a handgun not registered before the law took effect and annual registrations for the remaining handguns; and

WHEREAS, The Heller decision and other pro-firearm industry court rulings have resulted in a proliferation of guns in numerous communities and have diminished the security and freedom of our citizens to enjoy a life free of gun violence; living with the fear of gun violence is contrary to living in a free society; high levels of gun violence are a threat to the security of whole communities; and

WHEREAS, The cost of gun violence has been pushed onto everyone except the people and companies that produce and sell firearms; the firearms industry benefits financially when more guns are sold; more firearms in circulation leads to more gun crimes, homicides, and suicides to the extent that gun-related deaths will soon exceed the number of deaths in automotive crashes; but the Heller decision effectively said that most of the Second Amendment should be disregarded in favor of the part that is most profitable to the firearms industry, "the right of the people to keep and bear arms shall not be infringed"; and

WHEREAS, Throughout the history of the United States, federal and state laws **have regularly placed restrictions on who can legally own, possess, and use firearms**; even prior to the ratification of the U.S. Constitution, gun control laws were enacted; therefore laws restricting gun access are not anomalous to American law; and

WHEREAS, Before these court decisions, **state legislatures had been able to pass laws restricting gun access** if it was in the best interests of public safety; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-NINTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we urge the courts, especially the United States Supreme Court, to restore interpretation of the Second Amendment as a right afforded to state-sponsored militias that as Justice Stevens stated in his Heller dissent, " ... it does not curtail the Legislature's power to

regulate the non-military use and ownership of weapons ... "

BOTTOM LINE

The whole resolution is about restricting access of private citizens to legally own weapons.... they aren't going after specific weapons as the introduction of the Assault Weapon Ban of 2015 in the U.S. House of Representatives.... **this bill is going after all privately owned guns.**

This is a beta test but this is also the end

goal of the Obama administration and Democratic politicians.

Once they have banned private ownership, they will have given the state of Illinois the right to confiscate weapons from citizens that refuse to hand them over.

For those that have been waiting for the next volley in the governments attempt to disarm Americans.... this beta test is it.

[Goliath Attacks Texas! Is Texas Now Under 'Weather Warfare Attack' For Opposing The NWO Globalists Disarmament Agenda For America?](#)
[By Stefan Stanford - All News Pipeline - Live Free Or Die](#)

[From the report entitled Weather as a Force Multiplier--Owning the Weather in 2025: "Weather modification will become a part of domestic and international security and could be done unilaterally... The ability to generate precipitation, fog and storms on earth or to modify space weather... and the production of artificial weather all are a part of an integrated set of military technologies."](#)

With the state of Texas now under deadly weather with new tornadoes that [recently killed at least 8 in Dallas](#) and at least 24 in the US; as [a pulverizing winter storm aptly named 'Goliath'](#) is spawning more tornadoes and bringing [blizzard conditions to the southern planes](#), we take a look at the possibility that, once

again, the [state of Texas is being targeted](#) with weather warfare for its' long-standing opposition to the 'new world order' and the globalists disarmament agenda.

TX Panhandle Faces 15 Inches of Snow, 'Historic' Blizzard...

CHRISTMAS TWISTERS HIT TEX; 11 DEAD

Freak holiday weather claims 42 more lives: Tornado death toll rises and 7 are killed in Alabama and Illinois flooding HEART BREAKING PHOTOS

- ❑ Flooding, tornadoes and severe thunderstorms 42 killed people in at seven states since Christmas
- ❑ Unseasonably warm weather starting on Wednesday helped spawn torrential rain and deadly storms across the South
- ❑ Whiteout conditions and snow drifts have already closed some highways in the Texas Panhandle, while historic snowfall totals are expected in nearby New Mexico
- ❑ Parts of Interstate 40 west of Amarillo, Texas, and into Santa Rosa, New Mexico, were shut Sunday

Back on May 26th, [Susan Duclos asked in a story on ANP if we were watching weather warfare against Texas unfolding before our very eyes after a severe drought then](#)

morphed into deadly storms and flooding, while the state of Texas was heavily involved in both resisting 'Jade Helm 15' as well as beginning the process of repatriating their gold from the Federal Reserve.

(Is it just our imagination or do the Texas [tornadoes below](#) look quite evil?)

Susan reminded us back in May that technology was available to leaders of major western nations that enabled them to wage secretive warfare upon the unsuspecting masses using a force believed to be off-limits to the human race: the weather.

"Technology will make available, to the leaders of the major nations, techniques for conducting secret warfare, of which only a bare minimum of security forces need be appraised... Techniques of weather modification could be employed to produce prolonged periods of drought or storm." Zbigniew Brzezinski, via-

"Weather Wars & Un-Natural Disasters"

Weather warfare and weather modification, used by the U.S. military exists, that is not an opinion, it is fact as established by the Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques, which was Adopted by Resolution 31/72 of the United Nations General Assembly on 10 December 1976 and was opened for signature at Geneva on 18 May 1977.

submitted to the Air Force titled "Weather as a Force Multiplier: Owning the Weather in 2025," detailing further research into the use of weather modification. (Source - [52 page PDF presented to the Air Force](#))

The weather in Texas at this very moment is being called 'extreme' and with parts of Texas and New Mexico forecast to receive snow totals between 18" and 24" while the East coast basks in record warmth, we certainly understand the question being asked: **Is Texas once again under a globalist 'weather modification technology' attack with a 'jet stream' that appears to have been modified as seen in the photograph at the top of this story.**

In the 1st video below, a must-see for those who may have missed it featuring [Dane Wigington](#) of the [Geoengineering Watch](#) website, he takes a look at 'Jet Stream modification' and gives us much more proof that weather modification is very real in a must-see video called "Climate Engineering, Weather Warfare and the Collapse of Civilization."

Are we now witnessing weather modification and weather warfare upon Texas for its standing against a 'new world order'? The remaining videos below Wigington's take a look at the absolutely bizarre weather in Texas from several different angles including incredible footage from an airplane showing a Texas tornado supercell cloud as well as new videos from [Spiro](#) and the BBC looking at the Texas carnage. We also take a look below videos at Steve Quayle's book ["Weather Wars & Un-Natural Disasters,"](#) a book that was clearly way ahead of its time.

“Weather manipulation is the pre-emptive weapon par excellence. It can be directed against enemy countries or ‘friendly nations’ without their knowledge, used to destabilize economies, ecosystems and agriculture. It can also trigger havoc in financial and commodity markets. The disruption in agriculture creates a greater dependency on food aid and imported grain staples from the US and other Western countries.” [Michel Chossudovsky](#) Professor of Economics at the University of Ottawa and editor at the Centre for Research on Globalization.

Islamic Atrocities Coming To America?

Sweden is in shambles (as we detailed [here](#) and [here](#)), but the latest escalation in terrorist-related threats to the refugee-protecting nation is just beyond comprehension. **As *The Express* reports, Sweden is now on lockdown after crazed Islamic State (ISIS) jihadis sent letters to European civilians ordering them to convert to Islam within three days or face being decapitated in their own homes.**

This is the notification ISIS has posted threatening to decapitate people in Sweden:

GUDS , DEN NÄDERIKES , DI

mer att bomba ihjäl era ruttna kroppar efteråt !
ilja 1 av dessa 3 val :

mer inte rädde er från att bli mördade !
mer till alla)

Bloodthirsty Daesh Islamists posted notes through the doors of dozens of random neighbors in several cities across Sweden, including the capital Stockholm, threatening to murder “non-believers” in a terrifying campaign of violence.

Sweden is now on lockdown after the chilling letters pledged to behead innocent civilians and then “bomb your rotten corpses afterwards”.

Intelligence officials confirmed they are investigating the horrifying threats – which were signed by “ISIS” – as a state of fear gripped the nation. The notes, written in Swedish, order people to convert to Islam or pay a religious tax, known as the jizya, warning that the police “will not save you from being murdered”.

The letter, posted on Facebook, features the flag of ISIS

It warns Swedes they must convert to Islam or face being beheaded

It states:

“In the name of Allah, the merciful, full of grace. You who are not believers will be decapitated in three days in your own house. We will bomb your rotten corpses afterwards.” You must choose between these three choices: 1. Convert to Islam. 2. Pay the jizya [religious tax] for protection. 3. Or else, you will be decapitated. “The police will not prevent or save you from you being murdered. (Death comes to all of you).”

Swedish police said these death notices were posted through residents’ doors in a number of prominent Swedish cities including the capital Stockholm, earlier this week.

It goes without saying that these Islamic terrorists writing these notices were all thoroughly-vetted "refugees" and this could never happen in America.

Muslim Inbreeding: Impacts on intelligence, sanity, health and society

Massive inbreeding within the Muslim culture during the last 1.400 years has done catastrophic damage to their gene pool. The consequences of intermarriage between first cousins often has serious impacts on the offspring’s intelligence, sanity, health and on their surroundings.

The most famous example of inbreeding is in ancient Egypt, where several Pharonic dynasties collapsed after a couple of hundred years. In order to keep wealth and power within the family, **the Pharaohs often married their own sister or half-sister and after a handful of generations the offspring were mentally and physically unfit to rule.** Another historical example is the royal houses of Europe where royal families often married among each other because tradition did not allow them to marry people of non-royal class.

The high amount of mentally retarded and handicapped royalties throughout European history shows the unhealthy consequences of this practice.

The Muslim culture still practices inbreeding and has been doing so for longer than any Egyptian dynasty. **A rough estimate shows that close to half of all Muslims in the world are inbred: In Pakistan, 70 percent of all marriages are between first cousins (so-called “consanguinity”) and in Turkey the amount is between 25-30 percent** (Jyllands-Posten, 27/2 2009 [More stillbirths among immigrants](#))

Statistical research on Arabic countries shows that up to 34 percent of all marriages in Algiers are consanguine (blood related), 46 percent in Bahrain, 33 percent in Egypt, 80 percent in Nubia (southern area in Egypt), 60 percent in Iraq, 64 percent in Jordan, 64 percent in Kuwait, 42 percent in Lebanon, 48 percent in Libya, 47 percent in Mauritania, 54 percent in Qatar, 67 percent in Saudi Arabia, 63 percent in Sudan, 40 percent in Syria, 39 percent in Tunisia, 54 percent in the United Arab Emirates and 45 percent in Yemen (Reproductive Health Journal, 2009 [Consanguinity and reproductive health among Arabs.](#)).

A large part of inbred Muslims are born from parents who are themselves inbred – which increase the risks of negative mental and physical consequences greatly. (Jyllands-Posten, 27/2 2009 [More stillbirths among immigrants](#)).

More than half of Pakistani immigrants living in Britain are intermarried: The research, conducted by the BBC and broadcast to a shocked nation on Tuesday, found that at least 55% of the community was married to a first cousin. This is thought to be linked to the probability that a British Pakistani family is at least 13 times more likely than the general population to have children with recessive genetic disorders.” (Times of India, 17/11 2005 [Ban UK Pakistanis from marrying cousins](#)).

Several studies show that children of consanguineous marriages have lower intelligence than children of non-related parents. Research shows that the IQ is 10-16 points lower in children born from related parents and that abilities related to social behavior develops slower in inbred babies:

The article “Effects of inbreeding on Raven Matrices” concludes that “Indian Muslim school boys, ages 13 to 15 years, whose parents are first cousins, were compared with classmates whose parents are genetically unrelated on the Raven Standard Progressive Matrices, a nonverbal test of intelligence. The inbred group scored significantly lower and had significantly greater variance than the non-inbred group, both on raw scores and on scores statistically adjusted to control for age and socioeconomic status.” ([Behaviour Genetics, 1984](#)).

Another study shows that the risk of having an IQ lower than 70 goes up 400 percent from 1.2 percent in children from normal parents to 6.2 percent in inbred children.” (Proceedings of the National Academy of Science, 1978 [Effect of inbreeding](#))

[on IQ and mental retardation](#)"). The study [A study of possible deleterious effects of consanguinity](#) concludes, that **"The occurrence of malignancies, congenital abnormalities, mental retardation and physical handicap was significantly higher in offspring of consanguineous than non-consanguineous marriages."**

The risk of stillbirth doubles when parents are first cousins (Jyllands-Posten, 27/2 2009 [More stillbirths among immigrants](#)).

Deaths due to autosomal recessive disorders were 18 times more common in the Pakistani children. Similarly, deaths due to multiple malformations, which may be part of unrecognized autosomal recessive syndromes, were 10 times more common.

(BMJ, 1994 [Infant death and consanguineous marriage](#)).

Another study focused on the relationship between intermarriage and schizophrenia:

"The closer the blood relative, the more likely was there to be a schizophrenic illness."

(American Psychiatric Press, 1982 [The role of genetic factors in the etiology of the schizophrenic disorders](#)).

The increased risk of insanity among children of marriages between cousins might explain why immigrant patients are stressing the psychiatric system and are strongly overrepresented among insane criminals:

"In Sct. Hans Hospital, which has the biggest ward for clinically insane criminals in Denmark, **more than 40 percent of the patients have an immigrant background.**" (Kristeligt Dagblad, 26/6 2007 [Ethnic minorities overrepresented among the criminal insane](#)).

Implications for the Western and the Muslim World

The consequences for offspring of consanguineous marriages are unpleasantly clear: Death, low intelligence or even mental retardation, handicaps and diseases often leading to a slow and painful death. Other consequences are:

Limited social skills and understanding, limited ability to manage education and work procedures. The negative cognitive consequences also influence the executive functions. The impairment of concentration and emotional control most often leads to anti-social behavior.

The economic costs and consequences for society of inbreeding are also enormous.

However, inbreeding among Muslims has severe implications for both the Western societies and the Muslim world.

Expenses related to mentally and physically handicapped Muslim immigrants drains the budget for other public services:

"When cousins have children together, they are twice as likely to have a disabled child – it costs municipal funds dearly. Disabled immigrant children costs Danish municipalities millions.. Comment: All by design..." (BT, 10/11 2003 [Immigrants inbreeding costing one million](#)).

On top come the expenses for Muslim immigrants who – because of different consequences of being born from blood related parents – are not able to live up to the challenges of our Western work market: **Muslim immigrants and their descendants in Europe have a very high rate of unemployment. Comment so what do they do then: They blame society and become militant Islamic Jihadists that want revenge and love to kill!!**

The same goes for Muslims in USA, where the Gallup Institute made a study involving 300.000 people concluding "The majority of Muslims in USA have a lower income, are less educated and have worse jobs than the population as a whole." (Berlingske Tidende, d. 3. marts 2009: [Muslims thrive in USA](#)).

The cognitive consequences of Muslim inbreeding might explain why non-Western Muslim immigrants are more than 300 percent more likely to fail the Danish army's intelligence test than native Danes: "(TV 2 Nyhederne, 13/6 2007 [Immigrants flunk army test](#)).

It probably also explains – at least partly – why two thirds of all immigrant school children with Arabic backgrounds are illiterate after 10 years in the Danish school system: "Those who speak Arabic with their parents have an extreme tendency to lack reading abilities – 64 percent are illiterate. ... No matter if it concerns reading abilities, mathematics or science, the pattern is the same: The bilingual (largely Muslim) immigrants' skills are exceedingly poor compared to their Danish classmates."

(Rockwool Foundation Research Unit, May 2007: [Ethnic students does not make Danish children worse](#)).

The high expenses on special education for slow learners consumes one third of the budget for the Danish schools. "Immigrant children are clearly overrepresented on Copenhagen's schools for retarded children and children with physical handicaps. ... 51 percent of the children on the three schools in Copenhagen for children with physical and mental handicaps have immigrant back ground and on one of the schools the amount is 70 percent. ... The many handicapped children are a clear evidence that there are many intermarried parents in the immigrant families." (Jydske Vestkysten, 4/4 2009 [Tosprogede i overtal på handicapskoler](#)).

Our high level of education may also make it harder for inbred students to follow and finish their studies: "Young people with minority backgrounds have a significantly higher dropout rate at secondary schools than youth with a Danish background. For trade school education, the dropout rate among immigrants is 60 percent, twice as high among adolescents with a Danish background...."

The limited ability to understand, appreciate and produce knowledge following a limited IQ is probably also partly the reason why Muslim countries produce 1/10 of the World average when it comes to scientific research: The lack of interest in science and human development in the Muslim World is also clear in the UN Arab Human Development Reports (AHDR). AHDR **concludes that there have been fewer books translated into Arabic in the last thousand years, than the amount of books translated within the country of Spain every year:**

Conclusion

There is no doubt that the wide spread tradition of first cousin marriages among Muslims has harmed the gene pool among Muslims. Because Muslims' religious beliefs prohibit marrying non-Muslims, and thus preventing them from adding fresh genetic material to their population, the genetic damage done to their gene pool since their pedophile prophet Mohammad allowed first cousin marriages 1,400 years ago, are most likely massive. The overwhelming direct and indirect human and societal consequences have been explained above.

Compassion for the health of future generations should be enough to ban intermarriage among first cousins. **The economic and societal consequences are also very important.**

A legislative ban on first cousin marriages is a logical and compassionate imperative for both the Muslim world, for EU and our Western national governments.
