**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. But all things that are reproved are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. See then that ye walk **circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive **the very elect**."

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we **are not** ignorant of his devices."

**II Chronicles 7:14:** "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Psa  
46:1 **God is our refuge and strength, a very present help in trouble.**

Psa  
46:2 **Therefore will not we fear, though the earth be removed, and though the mountains be carried into the midst of the sea;**

Psa  
46:3 **Though the waters thereof roar and be troubled, though the mountains shake with the swelling thereof.** Selah.

Psa  
46:6 **The heathen raged, the kingdoms were moved: he uttered his voice, the earth melted.**

Psa  
46:7

The LORD of hosts *is* with us; the God of Jacob *is* our refuge. Selah.

Psa  
46:8

Come, behold the works of the LORD, what desolations he hath made in the earth.

Psa  
46:9

He maketh wars to cease unto the end of the earth; he breaketh the bow, and cutteth the spear in sunder; he burneth the chariot in the fire.

Psa  
46:10

Be still, and know that I *am* God: I will be exalted among the heathen, I will be exalted in the earth.

Psa  
46:11

The LORD of hosts *is* with us; the God of Jacob *is* our refuge. Selah.

### Easter/Ishtar: Paganism Repackaged

April 8th, 2007 | In this teaching we will be focusing on the history of Easter, exploring its disturbing undeniable Pagan roots. To be objective I have endeavored to garner input from not only Christian sources but also Catholic and Pagan sources as well; and as you will see all three sides are in agreement as to Easter's Pagan origin and history. We will explore exactly when the holiday of Easter was incorporated into the Roman Catholic Church at the Council of Nicaea in 325 AD; whereby this practice then started to permeate and leaven many other branches of Christianity.

Of further note we will prove how the date of Easter is always determined by Astrology and how its date changes every year as a result. If this were the true date of the Resurrection of Jesus Christ, HOW COULD IT CHANGE? We will also be looking at Easter's close ties to Pagan goddess known as Ishtar and the specific associations and practices of Easter like: The Easter Bunny, Colored Eggs, Lent, Ash Wednesday, Hot Cross Buns, Spring Break, The Easter Ham, Wicker Easter Baskets, Easter Sunrise Service, Mardi Gras, etc. . . .

Lastly we will explore why only the King James Version translates the Greek word "pascha" to "Easter" (instead of "Passover") in Acts 12:4; and how this is one more proof of the superiority of the Authorized King James Version.

### Cliven Bundy's Pro-Black, Pro-Mexican, Anti-Government Statements Completely Discredits New York Times

The New York Times decided to do a hit piece on Cliven Bundy and in doing so they used the usual tricks: They edited Bundy's comments. Now the Nevada rancher is being smeared in the media as a racist due to the dishonorable coverage by the New York Times and others. So, in the spirit of fairness and truthfulness in media, here's the complete unedited video remarks of Cliven Bundy, which don't contain racist comments at all, but rather very pro-black and pro-Mexican comments.

---

### Black Soldiers: Cliven Bundy Is Not Racist

A black marine who sides with Nevada cattle rancher Cliven Bundy in his dispute with the BLM has posted a diatribe on Facebook defending Bundy's comments and slamming the corporate media's coverage as a race baiting distortion designed to create social division.

In his missive, a marine going by the handle Charlie Delta blames the “liberal media” for attempting to paint Bundy as a racist, and says he himself has also wondered “the same about the decline of the black family.”

Delta admits Bundy is “maybe not so tactful” and is “not an orator,” **but that “he definitely isn’t – a racist.”** He defends Bundy’s comments as being his own perspective, which he is entitled to.

---

### [HOAX EXPOSED: Full Clip Of Cliven Bundy’s Non-Racist, Pro-Black, Pro-Mexican, Anti-Government Remarks Vs. NYTimes’ Deceptively Edited Version](#)

Watch Bundy explain how we need to keep things from going backwards for blacks, and how the Federal government has created a neo-slave class via entitlement dependency that is so bad it is arguably worse than plantation slavery was. It is 100% clear that Cliven Bundy is not saying that blacks should be slaves picking cotton, but that the Federal government has created conditions for them so terrible, that their current situation may actually be worse.

### [Chilling Truth: The Siege of the Bundy Ranch Reaches into the White House](#)

April 13, 2014 By [Sara Noble](#)--**In the end, there is only one reason why the Bundy ranch was besieged. President Obama had to have taken the lead. He knew it was going on and he sanctioned it. Beyond oil, solar, and Chinese Communists with money, lurks Obama’s Agenda.** A smoking gun has been found in the case of embattled rancher Cliven Bundy. **A lucrative contract – which will benefit Harry Reid and his son Rory Reid – which specifically mentions the need to rid the land of Cliven Bundy. In addition, Natural News pointed out that the BLM is in the business of selling lucrative oil and gas leases.**

There is a much bigger picture in all of this, however, and that is the fact **Mr. Obama believes the government should control the land and water in**

**the United States.** He does not respect private property – it is the government’s to take. That should now be obvious to everyone.

**Mr. Obama is social engineering citizens off their own land into congested cities to control them like cattle (similar to the Hunger Games Movie) and to have it available for government use & to sell these lands to nations such as China (not only for greed sake) but to pay off our massive debts to them.** He has already expressed a desire to share the wealth from our resources with the world through

treaties such as The Law of the Sea treaty.

[Natural News](#) reported that **the Bureau of Land Management is in the business of leasing government lands to energy companies. Significant exploratory drilling is being conducted in**

precisely the same area where the Bundy family has been running cattle since the 1870's. This is known as the "Gold Butte" area.

Oil has been found in nearby areas but oil and gas drilling have worked alongside ranching over the years without a problem. **But of course, if the government can lease the land on which the cattle graze, it will be lucrative for them.**

In July 2011, **the federal government agreed to allow China to buy up 600,000 acres of gas & oil fields in Texas. This is the same administration that would not allow new drilling; kicked Shell out of Alaska after billions of dollars of investments; shut down most offshore drilling; and tried to shut down Texas oil fields on the remote possibility that it might harm a tiny useless lizard that was most often known for being road kill.**

**Bundy's name came up regarding a solar project that the government currently wants to put in place with the Chinese communists using Nevada land.**

[InfoWars](#) posted documents found on the BLM website which BLM has since taken down. One document is titled, "Cattle Trespass Impacts" and it states that Bundy's cattle negatively "impacts" solar development and would prevent the construction of utility-scale solar power generation facilities" on "public lands."

**They are talking about a very lucrative "investment" of \$5 billion by Chinese communists who will set up an enclave – a Chinese communist enclave – on U.S. land in Nevada.**

### **Barack Obama and the BLM Land Grab: The Evil Agenda of Communist Takeover**

On Sunday, Joseph Farah of WND.com exposed one of those stories that sometimes go unnoticed. Why? It's because it was a side note in a story about Harry Reid. Farah [reports](#): *And there's an even bigger story of scandal and corruption still beneath this show of force by the BLM, orchestrated by Harry Reid.*

On Jan. 20, 2013, [WND warned Chinese government-backed economists were proposing a plan to allow Chinese corporations to set up "development zones" in the United States as part of a plan proposed by the Chinese government to convert into equity, the more than \\$1 trillion in U.S. Treasury debt owned by the Chinese government.](#)

The next day, Jan. 21, 2013, [WND documented the Obama administration had begun to allow China to acquire major ownership interests in oil and natural gas resources across the USA.](#)

*The first major intrusion of China in the U.S. oil and natural gas market can be traced to the Obama administration decision in October 2009 to allow state-owned Chinese energy giant China Offshore Oil Corporation, or CNOOC, to purchase a multi-million-dollar stake in 600,000 acres of South Texas oil and gas fields.*

[Jerome R. Corsi](#) reported: **China's two, giant, state-owned oil companies acquiring oil and natural gas interests in the USA are CNOOC, 100-percent owned by the government of the People's Republic of China, and Sinopec Group. The largest shareholder of Sinopac Corporation is an investment company owned by the government of the People's Republic of China, largely to acquire and operate oil and natural gas interests worldwide.**

**On March 6, 2012, the Wall Street Journal compiled a state-by-state list of the \$17 billion in oil and natural gas equity interests CNOOC and Sinopec have acquired in the United States since 2010.**

- **Colorado:** CNOOC gained a one-third stake in 800,000 acres in northeast Colorado and southwest Wyoming in a \$1.27-billion pact with Chesapeake Energy Corporation.
- **Louisiana:** Sinopec has a one-third interest in 265,000 acres in the Tuscaloosa Marine Shale after a broader \$2.5-billion deal with Devon Energy.
- **Michigan:** Sinopec gained a one-third interest in 350,000 acres in a larger \$2.5-billion deal with Devon Energy.
- **Ohio:** Sinopec acquired a one-third interest in Devon Energy's 235,000 Utica Shale acres in a larger \$2.5-billion deal.

- **Oklahoma:** Sinopec has a one-third interest in 215,000 acres in a broader \$2.5-billion deal with Devon Energy.
- **Texas:** CNOOC acquired a one-third interest in Chesapeake Energy's 600,000 acres in the Eagle Ford Shale in a \$2.16-billion deal.
- **Wyoming:** CNOOC has a one-third stake in northeast Colorado and southeast Wyoming after a \$1.27-billion pact with Chesapeake Energy. Sinopec gained a one-third interest in Devon Energy's 320,000 acres as part of a larger \$2.5-billion deal.

When Nevada rancher Cliven Bundy refused to take his cattle off land the federal government demanded for the habitat of an endangered desert tortoise, it focused the nation's attention on an arena Sen. Harry Reid, D-Nev., may have preferred to be kept quiet.

On April 3, 2012, [Bloomberg reported](#) Chinese billionaire Wang Yusuo, one of China's richest citizens and the **founder of Chinese energy giant ENN Group**, had teamed up with Senate Majority Leader Reid to win incentives including land 113 miles southeast of Las Vegas that ENN sought to buy for \$4.5 million, less than one-eighth of the land's \$38.6 million assessed value.

Bloomberg reported ENN intended to create solar energy farms on the Nevada land.

**Bloomberg further documented ENN had contributed \$40,650 individually and through its political action committee to Sen. Reid over the previous three election cycles.**

Subsequently, on Sept. 4, 2012, [Breitbart.com reported](#) lawyer Rory Reid, the son of Sen. Reid, had been appointed the primary representative for ENN Energy Group, to be the front man for a bid by ENN to build a \$5-billion solar panel plant on a 9,000-acre Clark County desert plot in Laughton, Nevada.

[A Reuters report](#) published on Aug. 31, 2012, documented that Reid was recruited by ENN during a 2011 trip he took to China with nine other U.S. senators, supposedly to invite Chinese investment in the United States.

The Senate group accompanying Reid on his 2011 trip to China included six other Democrats and three Republicans: **Richard Shelby, R-Ala.; Barbara Boxer, D-Calif.; Dick Durbin, D-Ill.; Mike Enzi, R-Wyo.; Chuck Schumer, D-N.Y.; Frank Lautenberg, D-N.J.; Johnny Isakson, R-Ga.; Jeff Merkley, D-Ore.; and Michael Bennet, D-Colo.**

"A tortoise isn't the reason why BLM is harassing a 67-year-old rancher," [blogger Dana Loesch wrote last week](#). "They want his land."

**Loesch pointed out that Reid has been accused by ranchers in Nevada of using the BLM to control Nevada land, over 84 percent of which is already owned by the federal government, and to pay back special interests, including his top donor, Harry Whittemore, who first urged Reid to have the habitat of the desert tortoise protected before he was convicted of violating federal election laws by illegally funneling \$150,000 to Reid's 2007 reelection campaign.**

Confirmed by a 71-28 Senate vote on April 9, **BLM chief Neil Kornze served as a former senior adviser to Reid before he joined BLM in 2011, serving for the past year as the agency's principal deputy director**, according to a CBS local television news report broadcast in Carson City, Nevada.

In 2012, **BLM and the U.S. Department of Energy published a "Final Pragmatic Environmental Impact Statement (PEIS) for Solar Energy Development in Six Southwestern States"** that established the basis for allowing the desert tortoise to migrate habitats, paving the way to put solar energy development projects on acreage that includes public land at dispute in the Bundy standoff over grazing rights.

Does anyone see a problem here? **Barack Obama has a track record of selling America out**, but this is ridiculous. Where are the checks and balances to stop Obama from selling America to the Chinese? Is blocking the Chinese from gaining control over America's energy consumption really about national security?

**The answer to that question would seem to be obvious, but for a moment let's pretend it is not. What could possibly happen?**

Pure evil is what can happen.

If that sounds overly dramatic I am sorry but that's the most accurate way to describe it. **Dave Hodges reported yesterday that Nevada is only a drop in the bucket. This is happening all over, and it is about much more than repaying our debt to the Chinese. Dave Hodges reports: It is time to connect the dots on one leg of this land grab in Nevada. The I-15 Canamex Highway runs adjacent to the planned theft of the Bundy property. Comment: <http://www.canamex.org/> Says: Since its inception in 1995, the CANAMEX Corridor has grown to become the cornerstone for the seamless and efficient transportation of goods, services, people and information between Canada, Mexico and the United States. As the implementation of NAFTA moves toward fruition, the CANAMEX Corridor will broaden its initiatives to harvest the benefits of increased trade, tourism and economic activity within the region.**

**In this location, a new Agenda 21 land designation is emerging and it is called a "Solar Energy Zone". Solar Energy Zones will connect the variables of the Canamex, the evisceration of private property rights, land use delineated in the Agenda 21 Wildlands, the control of all transportation corridors within the United States and the ultimate betrayal, the Chinese control of all military bases in the United States.**

How do I know this? First, I have lived through the same resource theft, property rights land grab with the Canamex. Additionally, in Arizona, we are also establishing a solar farm system that has all the hallmark traits of what is going on at the Bundy property. The Arizona state government is cooperating with various federal agencies to build a [massive solar](#) farm 70 miles southeast of Phoenix. The Arizona solar project is located adjacent to Luke AFB flight operations and it is near another energy resource, the Palo Verde Nuclear Power Plant. As an aside, I was contacted by a Palo Verde Nuclear Power Plant employee this week. **FEMA has been on site in a surprise inspection and my source has expressed apprehension and surprise at this development. Does anyone else smell a false flag coming?** Also, as time goes on, I am certain this will connect the Palo Verde Nuclear Power Plant to the solar farm.

**The Bundy area contains the exact same set of variables as what I am seeing here in Arizona in that we see the Canamex Highway nearby, a land grab, proximity to a military base and proximity to another large energy resource, the nearby Hoover Dam. I suspect that I am now going to hear from many people across the country who are going to now connect these dots in their home state and see this for what it is.**

**If the Chinese gain control of all new energy (i.e. solar power), can you imagine what your energy costs will be?** Our problems with this plot extend far beyond energy costs.

I would highly suggest reading both of yesterday's articles on this subject:

- [Read Joseph Farah's article](#)
- [Read Dave Hodges' article](#)

What I want people to understand is that **these marching orders are coming from Barack Obama via his handlers. This is all about a plan to sell this country to China and it is an act of absolute treason. It is not about repayment of debt. It is about the destruction of America.**

America is being attacked from within, and the Cliven Bundy incident is simply the latest manifestation of that. **For anyone who has studied the Cloward-Piven strategy, you will understand that the ridiculous fiscal policies of the current administration are meant to cripple the economy and bring rise to a full socialist, and ultimately communist, state. However, that doesn't begin to describe the horror that awaits, because the planned communist state is being constructed by our president calling upon the help of foreign influences that will eventually run this country, if he has his way.**

**You are fooling yourself if you think that 2014 and 2016 elections will fix this. There are simply too many bad people already in place. The cancer is spreading, and it will take some more of what we saw in Nevada to fix it.**

**Comment:** While I applaud the patriots at the Bundy property, only God Himself could fix America and I don't see any Bible for that happening, especially moving into the end times with the Antichrist and False Prophet coming to power.

### **[50 Political Leaders from 9 states gather in Utah to discuss ways to take back control of federal lands](#)**

By Kristen Moulton--[The Salt Lake Tribune](#)--Apr 18 2014

Western states have gone on the offensive against the Federal government as 50 political leaders from 9 western states are meeting to take back their land from the federal government with accusations that the FEDS continue to mismanage the land that states will be much better prepared to handle. We [learn here](#) that this meeting was planned prior to the Bundy Ranch standoff which they term only a symptom of the overall problem. The video below is a must-see interview with a BLM whistleblower who exposes the military industrial complex's role in the FEDS actions against Bundy Ranch.

**Click here to Watch:** <http://www.youtube.com/watch?v=5IIXtT3Pixc>

It's time for Western states to take control of federal lands within their borders, lawmakers and county commissioners from Western states said at Utah's Capitol on Friday.

**More than 50 political leaders from nine states convened for the first time to talk about their joint goal: wresting control of oil-, timber -and mineral-rich lands away from the feds.**

"It's simply time," said Rep. Ken Ivory, R-West Jordan, who organized the Legislative Summit on the Transfer for Public Lands along with Montana state Sen. Jennifer Fielder. "The urgency is now."

Utah House Speaker Becky Lockhart, R-Provo, was flanked by a dozen participants, including her counterparts from Idaho and Montana, during a press conference after the daylong closed-door summit. U.S. Sen. Mike Lee addressed the group over lunch, Ivory said. New Mexico, Arizona, Nevada, Wyoming, Oregon and Washington also were represented.

**Subject:** [Listener Update on NY Gun Registration Resistance](#)

A friend of mine from upstate NY said that a local small town had a rally March 31 in which over 14,000 weapons were simultaneously discharged at noon. Those gun owners will be joining other armed NY citizens for a march on Albany next Tuesday... I hope all of us are in prayer for them and for the government to back down.

**Here's what she wrote:**

1. Gloversville March 31st 14,000 discharged weapons at noon.
  2. April 15th - march on Albany by above and others, with weapons.
  3. XXXX called and gave me an update. He is quite an activist and says NY State is going upside down over the confiscation/registration fiascos.
-
