Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, but rather **reprove** them. **But all things that are reprov'd are made manifest by the light:** for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest,** and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly,** not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

Matthew 24:24: "...if it were possible, they shall deceive **the very elect.**"

II Corinthians 2:11: "Lest Satan should get an advantage of us: for we **are not ignorant of his devices.**"

II Chronicles 7:14: "If **my people,** which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

I John 4:18: "There is **no fear** in love; but **perfect love** casteth out fear: because

fear hath torment. He that feareth is not made perfect in love."

Heb 13:6: "So that we may boldly say, The Lord *is* my helper, and I **will not fear** what man shall do unto me."

II Timothy 1:7: "For God **hath not** given us the spirit of fear; but of power, and of love, and of a sound mind."

Psalm 37: 1-9 "Fret not thyself because of evildoers, neither be thou envious against the workers of iniquity. For they shall soon be cut down like the grass, and wither as the green herb. Trust in the LORD, and do good; so shalt thou dwell in the land, and verily thou shalt be fed. Delight thyself also in the LORD: and he shall give thee the desires of thine heart. Commit thy way unto the LORD; trust also in him; and he shall bring it to pass. And he shall bring forth thy righteousness as the light, and thy judgment as the noonday. Rest in the LORD, and wait patiently for him: fret not thyself because of him who prospereth in his way, because of the man who bringeth wicked devices to pass. Cease from anger, and forsake wrath: fret not thyself in any wise to do evil. For evildoers shall be cut off: but those that wait upon the LORD, they shall inherit the earth."

[The Death of Sam Davis by Pastor John Weaver](#)

Private Sam Davis, one of Coleman's Scouts, was captured, tortured and murdered by Union forces in 1863. He was the first Confederate Medal of Honor recipient. The story of this young man's faith and integrity will move and inspire you. **Listen:** <http://www.sermonaudio.com/sermoninfo.asp?SID=111502102516>

[Gulf Oil Rig Fiasco: It's About Scarcity and World Government](#)

Kurt Nimmo--Infowars.com--May 1, 2010--On Friday, radio talk show host and former Reagan cabinet advisor [Mark Levin](#) accused the Obama administration of a plot to nationalize the oil industry. "I think those SWAT teams are there in coordination with the attorney general's office, the Interior Department, Homeland Security, maybe the EPA....**to seize records at these sites and to lay the foundation for more government takeover,**" said Levin.

Obama said on Thursday he was dispatching [SWAT teams](#) to inspect oil rigs in the Gulf, a response that struck many observers as odd.

This is a public relations stunt designed to make Americans think the federal government is responding to the disaster; but **in fact, the government has no intention of doing anything significant. Obama's response is purely cosmetic and**

for public consumption.

Levin and many Republicans think Obama is a Marxist and wants a Soviet-like centralized economy. Obama, however, is not surrounded by textbook Marxists who want a revolution in the name of the proles. He is surrounded by bankers and monopoly men. The Obama administration is a creature of the CFR, Trilateral Commission, the Federal Reserve, and Wall Street banks.

Oil rigs are being attacked in order to shut down oil production, not nationalize it. The name of the game is artificial scarcity designed to further cripple the economy.

Expert: Surface area of gulf oil spill has tripled 01 May 2010 The surface area of a catastrophic Gulf of Mexico oil spill quickly tripled in size amid growing fears among experts that the slick could become vastly more devastating than it seemed just two days ago.

BP Fought Safety Measures at Deepwater Oil Rigs --Owner of Louisiana Oil Well Objected to System That Would Have Shut Off Spill 30 Apr 2010 BP, the company that owned the Louisiana oil rig that exploded last week, spent years battling federal regulators over how many layers of safeguards would be needed to prevent a deepwater well from this type of accident. One area of immediate concern, industry experts said, was the lack of a remote system that would have allowed workers to clamp shut Deepwater Horizon's wellhead so it would not continue to gush oil. The rig is now spilling 210,000 gallons of oil a day into the Gulf of Mexico. In a **letter** sent last year to the Department of the Interior, BP objected to what it called "extensive, prescriptive regulations" proposed in new rules to toughen safety standards

Gulf oil spill: The Halliburton connection 30 Apr 2010 Investigators delving into the possible cause of the massive gulf oil spill are focusing on the role of Houston-based Halliburton Co., the giant energy services company, which was responsible for cementing the drill into place below the water. **The company acknowledged Friday that it had completed the final cementing of the oil well and pipe just 20 hours before the blowout last week.** In a letter to Halliburton Chief Executive David J. Lesar on Friday, Rep. Henry A. Waxman (D-Beverly Hills) chairman of the House Committee on Energy and Commerce, and Rep. Bart Stupak (D-Mich.), chairman of the Subcommittee on Oversight and Investigations, called on Halliburton officials to provide all documents relating to "the possibility or risk of an explosion or blowout at the Deepwater Horizon rig and the status, adequacy, quality, monitoring, and inspection of the cementing work" by May 7.

A second oil rig has overturned on the Gulf coast. It is not being widely reported. The Wall Street Journal's **MarketWatch** reports: *The U.S. Coast Guard said Friday it is responding to a second oil-rig accident. A "mobile inland drilling unit" with a 20,000-gallon diesel fuel capacity overturned in the Charenton navigational*

channel south of U.S. Highway 90 near Morgan City, La. No fuel leak or injuries have been reported but 500 feet of containment boom has been deployed around the rig, the Coast Guard said.

On Friday, **Obama promised that no new offshore oil drilling leases will be issued** unless rigs have new safeguards to prevent a repeat of the explosion that unleashed the massive spill threatening the Gulf Coast, according to the [Associated Press](#).

The number of structures in the Gulf is [roughly 4,000](#), with 819 manned platforms. How long do you think it will take an bloated, bureaucratic, federal government to install these safeguards?

As **Lindsey Williams has many times noted, the global elite are manipulating oil in order to create a world-wide economic depression. “America will see a financial collapse so great that it will take years to come out of it”.**

“Publicly available CFR and Club of Rome strategy manuals from 30 years ago say that a global government needs to control the world population through neo-feudalism by creating artificial scarcity,” [Steve Watson and Paul Watson](#) wrote in 2005. “Now that the social architects have de-industrialized the United States, they are **going to blame our economic disintegration on lack of energy supplies.**”

“Isn’t the only hope for the planet that the industrialized civilizations collapse? Isn’t it our responsibility to bring that about?” asked [Maurice Strong](#), the founder of the UN Environment Program, during his opening speech at the Rio Earth Summit in 1992.

During an [interview conducted in 1972](#), Strong talked about the concept of zero growth put forward by the Club of Rome in the late 1960s which called for the control of population and economic growth. The Club of Rome is a [neo-Malthusian organization](#) with interlocking membership with the European banking elite such as the Committee of 300 and the Bilderberg Group.

“Federal authorities have shut down two offshore platforms and evacuated one of them near a massive oil spill in the Gulf of Mexico,” reports the [Associated Press](#) today. “The Coast Guard said Saturday that the shutdowns were a safety precaution.”

More offshore platforms will likely be shut down in the days ahead.

Meanwhile, **members of Congress are calling for expanded oil exploration plans to be dropped. “I’ve said to the White House, ‘Don’t you dare think about your**

five-year plans [for offshore oil leases] ... We're just not going to let you," said Florida **Sen. Bill Nelson** on Friday. "Nelson said the state's multibillion-dollar tourist industry and fisheries shouldn't be imperiled for oil's sake. He said the spill may ultimately serve as a lesson that the country needs to develop cleaner energy sources," reports The Florida Times-Union.

As if on cue, the Soros foundation MoveOn has called on its members to telephone the White House and **demand that Obama reinstate the ban on offshore oil drilling**. "The MoveOn campaign is just one of a series of pleas from lawmakers and environmental groups for the administration to reverse its policy in the wake of the explosion and spill," reports [The Washington Post](#).

The explosion and massive oil spill will be used to make sure artificial oil scarcity continues. The ultimate goal is not clean energy or so-called energy independence but delivering the once great United States into the maw of the bankers who are determined to consolidate power and convert the world into a sprawling high-tech prison planet.

[Vatican Tied Mount Graham Observatory Launches LUCIFER Telescope: Does Project Name Imply What Or Who They Are Looking For?](#)

NEWS BRIEF: "[Vatican-Tied Mount Graham Observatory Launches LUCIFER Telescope](#)", Raiders News Network, April 25, 2010

"New instrument for the world's largest optical telescope, the Large Binocular Telescope on Mount Graham in Arizona, allows astronomers to observe the faintest and most distant objects in the universe ..."

"After more than a decade of design, manufacturing and testing, the new instrument – dubbed LUCIFER 1 – provides a powerful tool to gain spectacular insights into the universe – from the Milky Way to extremely distant galaxies. LUCIFER, built by a consortium of German institutes, will be followed by an identical twin instrument that will be delivered to the telescope in early 2011."

What, exactly, do the letters of "**L.U.C.I.F.E.R.**" stand for?

"LUCIFER is an acronym for: **L**arge Binocular Telescope Near-infrared **U**tility with **C**amera and **I**ntegral **F**ield Unit for **E**xtragalactic **R**esearch".

The Illuminati has always dreamed of finding other planets in the galaxies somewhere which could support human life. Space activity has always secretly sought after such discovery; in New Age literature, this effort is known as "Star Seed".

NASA has always been controlled by Freemasons, so that the silent objective is always to find new planets which could support human life. But, I find it highly significant that, at this moment in world history, scientists would dub their new cutting edge telescope

[Profitable Depopulation Plot Links JP Morgan-Chase and Goldman Sachs to Vaccination Contaminations and BigPharma Corruption](#)

April 30, 2010 · [Tetrahedron, LLC](#)

A medical investigation into suspicious outbreaks and propaganda used to sell drugs and vaccines has exposed investment bankers at JP Morgan-Chase (JPMC) and Goldman Sachs (GS) for plotting to shock/stress, frighten, poison, and kill billions of people most profitably—pharmaceutically—according to the Editor-in-Chief of [Medical Veritas](#) journal.

While researching [PFNYC--Partnership for New York City](#)), Wall Street's wealthiest industrialists, Harvard-trained public health expert, Dr. Leonard Horowitz, and investigative journalist, Sherri Kane, discovered shocking evidence of a conspiracy to commit global genocide by generating diseases and death to advance profitable pharmaceutical depopulation.

Population planners at the highest levels of government and industry conspired to spread diseases, vaccines, drugs, and death most profitably, according to research published in the latest issue of [Medical Veritas](#).

In a related Special Report posted on *YouTube*, Dr. Horowitz urged humanitarian organizations and activist groups worldwide to issue investigations, alerts, civil complaints, and criminal charges to stop the pharmaceutical depopulation plot because it risks genetic inheritance, new pandemics, and the possible extinction of the human race.

“Corruption in the drug industry is rampant and transparent,” Dr. Horowitz explains, “Investment bankers at JPMC and GS, who acquired controlling interests in the largest drug firms during mergers and acquisitions, **have placed ‘depopulation’ near the top of their list of geopolitical priorities. Their depopulation agents are now in top positions of government, finance, and industry.**”

The depopulation plan is supported by the world's wealthiest people, including [Bill Gates](#), who admittedly funds vaccinations to reduce global populations by 10-15%. Leading population planners and economic developers advance identical plans to cull the world's population to 1 billion.

“Killing 6-out-of-7 people globally, most profitably, requires planning and an unprecedented conspiracy to commit genocide by applying advances in genetic biotechnologies exclusively available and affordable to drug companies controlled by the investment bankers,” Dr. Horowitz adds.

The doctor points to the fact that US Treasury Department officials previously operated JPMC and GS on behalf of majority stock holders and their partners in pharmaceutical companies heavily represented in the [PFNYC](#) and the trade organizations **that negotiate multi-billion dollar government purchases of drugs and vaccines.**

Researchers, including vaccination contamination expert Dr. Viera Scheibner, reports in the current issue of [Medical Veritas](#) that polio virus vaccines are produced in African green monkey kidney cell cultures **routinely contaminated with transmissible cancer viruses.**

By reviewing drug company patents, Dr. Horowitz learned that the **makers of H1N1 swine flu and rotavirus vaccines use the same cultures risking recombinations, genetic mutations, and unstoppable transmissions of deadly agents threatening new pandemics.**

“This best explains why public health officials are preparing for vaccine-transmitted H1N1s cloned in monkey cells to recombine with bird H5N1s currently circulating. This threatening and most deadly recombination of flu viruses, officials herald may happen in the Fall,” Dr. Horowitz warned.

Besides the inadequacies of safety testing new vaccines without using placebo controls, it is this issue of reliability of information that concerns more than half of the medical physicians polled since they became aware that the **entire medical industry has been hijacked by Wall Street’s pharmaceutical profiteers.** Now they are learning from famous people, like Gates, that the world’s wealthiest people are administering vaccinations for depopulation.

“I love vaccines,” Gates stated at a TED conference in February, 2010, while lecturing on ways to reduce global populations to stem environmental pollution.

The links between the directors of major drug companies, mainstream media moguls, and investment bankers at JPMC and GS are so obvious and incriminating, and the dispersion of unsafe vaccines so common and disturbing, only profitable depopulation as a planned outcome of pharmaceutical investments can explain the current situation.

“Complete censorship was the only option officials have had to prevent a meltdown in public opinion about medicine and the pharmaceutical industry,” said Ingri Cassel, a leading vaccine risk awareness activist. “This explains why news of this vaccination depopulation plan has been neglected by the special-interest-influenced media.”

Investigating conflicting pharmaceutical interests influencing news coverage, Sherri Kane, previously a writer for FOX News in Los Angeles, learned that the **majority shareholders in FOX, TimeWarner, News Corp., and the Wall Street Journal, are heavily invested in GlaxoSmithKlein and Merck’s CSL Laboratories, both makers of risky drugs and vaccines.**

Lloyd Blankfein, the CEO of Goldman Sachs, became a major shareholder in AstraZeneca following his direction of the company's acquisition of the H1N1 FluMist maker, MedImmune. Blankfein has also leveraged ABC-Disney following their merger with money he raised through GS investors. **This resulted in Dr. Oz's heavy promotion of H1N1 vaccines on ABC last year, when officials learned that the vast majority of Americans were unwilling to risk the exposure.**

Rupert Murdoch and Lloyd Blankfein co-chair the PFNYC, founded by CHASE principal, World Bank ambassador, and America's leading energy industrialist and medical monopolist, **David Rockefeller**. **The PFNYC was chartered by the Royal Family of England—a majority share holder in General Electric—the world's largest company—that controls NBC/Universal/Comcast, and MSNBC with Bill Gates.**

The PFNYC is **co-directed by Jeffrey B. Kindler**, the Chairman and CEO of Pfizer—the world's largest drug company. Kindler stewards Pfizer through multi-billion dollar acquisitions **also involving JPMC and GS financing.**

The Pharmaceutical Research and Manufacturers of America (PhRMA), **the drug industry's main trade organization, is also directed by Kindler. PhRMA officials engage White House and Pentagon officials in private negotiations determining pricing for stockpiles of drugs and vaccines.**

Dr. Horowitz views this covert administration of multi-billion dollar pharmaceutical contracts as symptomatic of the industry's corruption. The "corporate shell game" is played using mergers and acquisitions directed by the same people. Their creation of the PhRMA trade organization provides the illusion of their legitimacy and fair competition. Price fixing occurs behind closed doors, explaining why prices vary so widely internationally.

Another gross example of corrupt government is Congressman Henry Waxman's (D-CA) treason against the American people for sneaking dietary supplement regulation language into 'The Wall Street Reform and Consumer Protection Act of 2009,' (H.R. 4173).

For years, Waxman has attempted to pass legislation restricting consumer access to nutritional supplements on behalf of BigPharma. The FDA, largely controlled by BigPharma, contends regulating vitamins, minerals, herbs, homeopathics, oils, colloidal silvers, and more natural products protects consumers.

[Dr. Scott Johnson - Pharmaceuticals As Pharmakeia/Sorcery - Roots of Modern Day Drug Industry 1/26](#)

[Scientists Continue 'Tampering' With Humanity](#)

British scientists have used a new cloning method to **create three-parent human embryos**. The process **involves destroying two human embryos and taking parts from each for a third embryo**. Dr. David Prentice, senior fellow for life sciences at the Family Research Council (FRC), tells OneNewsNow it is really a process of cloning and genetic engineering. "It's always phrased [in] the traditional way: that they're 'going to cure all of these diseases with this new technology,'" he reports. "But bottom line, we're manipulating young human life, **destroying a lot of young human life in the process, and it's a eugenics technique to manufacture children**." He predicts that this method could perhaps lead to designer babies at some point in the future. British scientists are seeking a license to proceed, and Prentice notes that American scientists have used the same technique with monkeys and are seeking federal approval for further research. In this case, only 18 of the 80 cloning experiments showed any development, and only three of the recombined embryos made it to the blastocyst stage. The FRC fellow suggests sticking with God's system.

[Dr. Scott Johnson - Cloning, DNA Manipulation, & Corrupting The Seed 1/11](#)

[Doubt in the Bible Behind Cultural Decay](#)

Issue Date: March/April 2010--For Bible believers who are looking for a reason for the current cultural crisis, they need look no further than the modern Bible versions.

A recent study indicates that there is a growing number of people who call themselves Christians **yet don't really believe the Bible to be God's Word**. News makers have labeled them the "Christian left," or "progressives." Research indicates that they are very short on beliefs that match the biblical doctrines.

Over 82 percent of those who identified themselves as conservative or the "Christian right" **opposed same-sex marriage; 59 percent of the progressives were in favor of it**.

While the conservative Christians believe that the cause of America's problems is moral decay, progressive Christians consider poverty and discrimination to be the causes.

Sixty-seven percent of conservatives agreed that: "If enough people were brought to Christ, social ills would take care of themselves." Only 15 percent disagreed. Progressives were almost exactly opposite with 61 percent disagreeing and only 13 percent agreeing. **The heart of the matter came out in their views on the Bible. Eighty-four percent of conservatives and only 22 percent of progressives viewed the Bible as the "Word of God." Twenty-one percent of progressives viewed the Bible as simply "one important source of wisdom,".**

Has your Bible been changed?

Is YOUR BIBLE MISSING SOMETHING?

LOOK WHAT'S MISSING

DAVID W. DANIELS

See words, phrases, even whole verses which have been removed.

... Over 250 verses
... 40 popular Bibles

Check your Bible against the list!

Linguist David W. Daniels, author of [Look What's Missing](#) and several other books on Bible versions, sees a direct connection **between the modern versions and this loss of faith in the Bible.**

For instance, he was amazed to find that the very doctrines that are being systematically removed from the modern Bibles **are the same ones progressives are ignoring.** For example, "sodomites" no longer appears in modern versions, replaced by "shrine or temple prostitutes" or even "immoral persons." It is no coincidence that people have started disbelieving in the Father, The Son and the Holy Spirit after the removal of crucial words from 1 John 5:7. In [Look What's Missing](#), Daniels details **over 250 scripture verses in 40 modern Bible versions where words, phrases or whole verses are omitted.**

He draws comparisons that show that some versions even contradict each other. He shows how footnotes and bracketed verses only raise more doubt in the reader. If the translators couldn't decide what God really wanted to say, how is the reader going to figure out what is truth?

In Matthew 24:35, Jesus promised His words would remain even if heaven and earth passed away. Daniels asks, "If Jesus made this promise, then where should we look to find them?" So-called "textual scholars" try to tell us that only the original manuscripts were true. If so, then Jesus did not keep His word. If we are not sure we have God's preserved words, then we can pick and choose what we like from the flawed copies of the Bible. From that we get the "Christian left," **who believe our salvation is in the government,** not in God.

Daniels finishes by pointing the reader to the one version that comes from over 5,000 manuscripts that substantially agree and were faithfully copied and translated. "Jesus did keep His promise," says Daniels. "Honest research points to the King James Bible as God's preserved words for the English speaking world."

[**Many Prepping For The Worst**](#)

"Candles and wood." It's Deb Giffin's theme. The Manor Township woman doesn't want to give up her dishwasher or her fridge. But, she said, disaster could strike. Civilization shouldn't count on always having those cushy things. So she's laying away supplies for a rainy day. She's started to fill the pantry of her suburban home with canned pineapple juice, beans and high-energy snacks. She has fastened a large kerosene lamp to the wall of her living room. She has hand tools galore, a fireplace and bundles of wood from a home-improvement store. She has an emergency pack in case she needs to clear out. "I have flashlights that are the crank style" and don't need batteries, said Giffin, 54.

She also has plenty of company. Emergency preparedness is growing into an American subculture that some adherents claim is bigger than the tea party movement. People who become preppers often already have a self-sufficiency mindset, said Art Markman, a University of Texas cognitive psychologist who tracks the preparedness movement. Calamities such as Hurricane Katrina and the Wall Street meltdown stoke that impulse because they stir doubt about whether government can handle the mess, Markman wrote in an e-mail. "When trust erodes," according to Markman, "people want to take over more ... basic responsibilities for themselves. People who feel like they are taking care of their own needs are decreasing the anxiety caused by mistrust."

Listener Tip on How to Collect Water If None Is Available

----- Original Message -----

From: David S

To: [Scott Johnson](#)

Subject: Just one more tip

Hey here is a way of getting water when it's hard to find.

Tie towels around your shins and walk thru tall grass when it is wet from the dew in the morning. When the towels get wet from the dew on the grass, you can wring them out and drink the water. Or you can just suck on the towels to get the water. You may want to strain the water thru a coffee filter or a clean rag, as the towels will also collect bugs and some plant matter as you're walking. But otherwise this is good clean water perfectly distilled by God.

Under Bill s. 1618 TITLE III passed by the 105th US Congress this letter Cannot be considered Spam as long as the sender includes contact information & a method of "removal." To be removed just type REMOVE in the Subject line and hit Reply.
