**Ephesians 5:11, 13-16:** "And have no fellowship with the unfruitful works of darkness, but rather reprove them. But all things that are reprov'd are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest**, and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly**, not as fools, but as wise, Redeeming the time, because the days are evil."

The **1828 Noah Webster Dictionary** defines:

**Reprove:** To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

**Circumspectly:** Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

**Matthew 24:24:** "...if it were possible, they shall deceive **the very elect.**"

**II Corinthians 2:11:** "Lest Satan should get an advantage of us: for we **are not** ignorant of his devices."

**II Chronicles 7:14:** "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

## [Colorado Batman shooting shows obvious signs of being staged](#)

by Mike Adams, the Health Ranger, NaturalNews Editor (NaturalNews)

James Holmes, the Aurora, Colorado shooter who reportedly opened fire at a Batman movie premiere movie Dark Knight Rising, was a medical student at the University of Colorado, pursuing a PhD in neuroscience, reports ABC News. (<http://abcnews.go.com/US/mass-shooting-colorado-movie-theater-14-peop...>)

**As part of the attack, Holmes painted his hair red and referred to himself as "The Joker," one of the arch enemies in the DC Comics-inspired Batman movie series.**

(<http://newyork.cbslocal.com/2012/07/20/police-14-dead-in-colorado-the...>)

According to news reports, this sudden violent rampage was completely out of character for James Holmes, who was described as "shy."

The New York Times is now reporting:

*Billy Kromka, a pre-med student at the University of Colorado, Boulder, worked with Mr. Holmes for three months last summer as a research assistant in a lab of at the Anschutz Medical Campus. Mr. Kromka said he was surprised to learn Mr. Holmes was the shooting suspect. "It was just shocking, because there was no way I thought he could have the capacity to do commit an atrocity like this," he said.* (<http://www.nytimes.com/2012/07/21/us/colorado-mall-shooting.html?page...>)

"He spent much of his time immersed in the computer, **often participating in role-playing online games...**"

There is already conjecture that James Holmes may have been involved in **mind-altering neuroscience research** and ended up becoming involved at a depth he never anticipated. His actions clearly show a strange detachment from reality, indicating he was not in his right mind. **That can only typically be accomplished through drugs, hypnosis or trauma (and sometimes all three).**

His behavior already reveals stark inconsistencies that question the mainstream explanation of events. For example, he opened fire on innocent people but then **calmly surrendered to police** without resistance. **This is not consistent with the idea of "killing everyone."**

Furthermore, he then admitted to police that his apartment was booby-trapped with explosives. **If you were really an evil-minded Joker trying to kill people (including cops), why would you warn them about the booby trap in advance?** It doesn't add up.

"Holmes was taken into custody shortly after the shooting, police said, adding he didn't resist when he was arrested," reports a local CBS news affiliate (<http://newyork.cbslocal.com/2012/07/20/police-14-dead-in-colorado-the...>).

**In the hours, days and weeks ahead, we can expect a concerted attack on the right to own firearms and the Second Amendment in response to the shooting in Colorado last night. Proponents of disarming the public will argue that restricting the right to own firearms will prevent mass murders and violence. Despite gun control's obvious failure, the calls for more restrictions have already begun:**

\* Piers Morgan of CNN came out of the box, calling for more gun control in the wake of the shooting.

\* On Friday morning, NYC Mayor **Michael Bloomberg**, a noted gun control advocate, called on **President Obama** and GOP challenger **Mitt Romney** to take a stance on the issue in the wake of the shootings.

"You know, soothing words are nice, but maybe it's time that the two people who want to be President of the United States stand up **and tell us what they are going to do about it, because this is obviously a problem across the country,**" **"I mean, there are so many murders with guns every day, it's just got to stop."**

\* And the Brady Campaign took the opportunity to tell the nation that, "This is yet another horrific reminder **that guns enable mass killings.**"

Tragically, many were killed last night. **But even more tragic is that there was not another gun-toting Samuel Williams at the theater -- the senior who rescued several Floridians against two armed thugs at an Internet cafe last week.** ([You can read the story and watch the exciting video here.](#))

And of course, while the national media is sure to focus on this Aurora, Colorado shooting for days to come, there is another shooting in that same city that you probably heard nothing about -- [when a worshipper at an Aurora church stopped a shooting this past April.](#)

**In that shooting, the bad guy was only able to kill one person in the parking lot, as the armed hero took him out before any other damage could be done.**

**Psa 82:2 How long will ye judge unjustly, and accept the persons of the wicked? Selah.**

**Psa 82:3 Defend the poor and fatherless: do justice to the afflicted and needy.**

**Psa 82:4 Deliver the poor and needy: rid [them] out of the hand of the wicked.**

**Psa 82:5 They know not, neither will they understand; they walk on in darkness: all the foundations of the earth are out of course.**

**Funny how the national media tends NOT to pick up stories where the good guy stops the perpetrator!**

To keep this in perspective, see:

\* **Guns are used 2.5 million times a year in self-defense. Law-abiding citizens use guns to defend themselves against criminals as many as 2.5 million times every year—or**

about 6,850 times a day.(1) This means that each year, firearms are used more than 80 times more often to protect the lives of honest citizens than to take lives.(2)

\* Concealed carry laws have reduced murder and crime rates in the states that have enacted them. According to a comprehensive study which reviewed crime statistics in every county in the United States from 1977 to 1992, states which passed concealed carry laws reduced their rate of murder by 8.5%, rape by 5%, aggravated assault by 7% and robbery by 3%.(4)

\* More guns, less crime. In the decade of the 1990s, the number of guns in this country increased by roughly 40 million—even while the murder rate decreased by almost 40% percent.7 Accidental gun deaths in the home decreased by almost 40 percent as well.(8)

[See the Gun Owners of America Fact Sheet here.](#)

**Protection of our families is part of providing for our families:**

1Ti 5:8 **But if any provide not for his own, and specially for those of his own house, he hath denied the faith, and is worse than an infidel.**

In the context of this verse the Noah Webster's 1828 defines the word 'Provide' as: **PROVIDE, v.i. To procure supplies or means of defense; or to take measures for counteracting or escaping an evil.**

**Continuing from CBS:** "He said pictures from inside the apartment are fairly disturbing and the devices look to be sophisticated, adding the booby-traps were 'something I've never seen.' One rifle, two handguns, a knife, a bullet proof vest, a ballistic helmet, a gas device, a gas mask, military SWAT clothing and unidentified explosives were also found in Holmes' car, a law enforcement source told CBS News. Oates said Holmes wore a gas mask, a ballistic helmet and vest as well as leg, groin and throat protectors during the shooting."

In other words, **this guy was equipped with exotic gear by someone with connections to military equipment.** SWAT clothing, explosives, complex booby-traps... c'mon, this isn't a "lone gunman." **Also this guy was jobless and actually collecting unemployment.** [Collecting unemployment...](#) This is somebody who was selected for a mission, given equipment to carry it out, then somehow brainwashed into getting it done.

"Aurora Police Chief Dan Oates said Holmes' apartment is booby-trapped with a 'sophisticated' maze of flammable devices. It could take hours or days for authorities to disarm it," reports Yahoo News (<http://sq.sports.yahoo.com/blogs/lookout/suspect-neuroscience-phd-stu...>).

**This is not your run-of-the-mill crime of passion. It was a carefully planned, heavily funded and technically advanced attack. Who might be behind all this?** The FBI, of course, which has a long history of setting up and staging similar attacks.

**See four documented stories on these facts:**

They were showing images of the cops going into the mall to look for the other suspect. I fell asleep and when i woke up it was down to one suspect, but cut to about 2 pm and i was watching CNN and they were interviewing a witness who was in theater 9 and he said he saw someone get on their cell phone and go over the the exit and was there for a bit and it wasn't long after when "Holmes" came bursting in through the exit.

**Play: [James Holmes Possible Second Shooter in tragic Batman Denver Shooting](#)  
[Eyewitness Account](#)**

by [Zen Gardner](#)--Here we go again. There's going to be a lot of speculation regarding this Batman movie shooting (with a 250 million dollar budget). **It fits too perfectly into their gun control agenda build up of late for it not to be staged.** But already we're seeing the same pattern of foreshadowing and predictive programming.

If you want a real hint, this report just showed up in the Washington Times of all things. They're of course insinuating it was possibly the inspiration for the shooter. We'll be learning more about him quickly but from his disturbed profile he sure **seems to fit the usual mind control pattern.**

What is strange is how prevalent this comic-type illustration predictive propaganda is with these false flag events.

Here's the newspaper story:

**The horrific shooting at the screening of *The Dark Knight Rises* in Colorado late last night bears eerie similarities to a scene in the 1986 comic *Batman: The Dark Knight Returns*. In the comic, a crazed, gun-toting loner walks into a movie theater and begins shooting it up, killing three in the process. The passage concludes with the media blaming Batman for inspiring the shooting, though he is not involved in the incident at all.**

**The 1986 comic, written and drawn by Frank Miller, was a key inspiration for the Chris Nolan *Batman* films. It helped to reimagine the character away from his Saturday morning cartoon image and into a dark, grim avenger. The point of this particular scene in the comic was to show just how far Gotham has fallen since Batman had retired. [Source](#)

As you soak all this in, **remember that the FBI had admitted to setting up terror plots, providing the weapons and gear, staging the location of the bombings and even driving the vehicles to pull it off! This is not a conspiracy theory, it's been admitted by the FBI right out in the open. Even the New York Times openly reports all this in stories like this one:**

**NYT: Terrorist Plots, Hatched by the F.B.I.**

<http://www.nytimes.com/2012/04/29/opinion/sunday/terrorist-plots-help...>

*THE United States has been narrowly saved from lethal terrorist plots in recent years -- or so it has seemed. A would-be suicide bomber was intercepted on his way to the Capitol; a scheme to bomb synagogues and shoot Stinger missiles at military aircraft was developed by men in Newburgh, N. Y.; and a fanciful idea to fly explosive-laden model planes into the Pentagon and the Capitol was hatched in Massachusetts. **But all these dramas were facilitated by the F.B.I., whose undercover agents and informers posed as terrorists offering a dummy missile, fake C-4 explosives, a disarmed suicide vest and rudimentary training. ...the F.B.I. provided a van loaded with six 55-gallon drums of "inert material," harmless blasting caps, a detonator cord and a gallon of diesel fuel to make the van smell flammable. An undercover F.B.I. agent even did the driving...***

**Mystery man Holmes has no background**

On top of all this, the cinema shooter Holmes apparently has no background. "He's not on anybody's radar screen -- nothing," said a peace officer in a NYT article. "This guy is somewhat of an enigma. Nobody knows anything about him."

<http://www.nytimes.com/2012/07/21/us/colorado-mall-shooting.html>

*Mr. Holmes's only criminal history is a traffic summons, the authorities said. He earned a bachelor's degree with honors in neuroscience in 2010 from the University of California, Riverside, and was a graduate student in neurosciences at the University of Colorado at Denver's Anschutz Medical Campus... He was currently collecting unemployment...*

**Question: How does an unemployed medical student afford \$20,000 in weapons gear?**

If you start to look at the really big picture here, the obvious question arises: **How does an unemployed medical student afford all the complex weapons gear, bomb-making gear, "flammable" booby trap devices, ammunition, multiple magazines, bullet-proof vest, groin protection, ballistic helmet, SWAT uniform and all the rest of it?**

A decent AR-15 rifle costs \$1,000 or more all by itself. The shotgun and handgun might run another \$800 total. Spare mags, sights, slings, and so on will run you at least another \$1,000 across three firearms. The bullet-proof vest is easily another \$800, and the cost of the bomb-making gear is anybody's guess. With all the specialty body gear, ammunition, booby-trap devices and more, **I'm guessing this is at least \$20,000 in weapons and tactical gear, much of which is very difficult for civilians to get in the first place.**

The mere manufacture of an explosive booby-trap device is, all by itself, a felony crime by the way. And remember: "Aurora Police Chief Dan Oates said Holmes' apartment is booby-trapped with a 'sophisticated' maze of flammable devices. It could take hours or days for authorities to

disarm it," reported Yahoo News (<http://sg.sports.yahoo.com/blogs/lookout/suspect-neuroscience-phd-stu...>).

Question: Where does an unemployed, introverted medical school student get the *training* to deploy sophisticated booby traps, tactical body armor, weapons systems and more? Certainly not in graduate school!

All this leads to an obvious third party influence over all this. **Someone else taught this guy these skills and funded the acquisition of the equipment.**

**Staged just in time for a vote on the UN small arms treaty?**

More and more, this shooting is looking like a **deliberate plot** staged by the government itself much like *Operation Fast and Furious* pulled off by the ATF

([http://www.naturalnews.com/032934\\_ATF\\_illegal\\_firearms.html](http://www.naturalnews.com/032934_ATF_illegal_firearms.html)) **which helped smuggle tens of thousands of guns into Mexico for the purpose of causing "gun violence" in the USA, then blaming the Second Amendment for it.**

All this looks like James Holmes completed a "mission" and then calmly ended that mission by surrendering to police and admitting everything. The mission, as we are now learning, was to cause as much terror and mayhem as possible, then to have that multiplied by the national media at exactly the right time leading up the UN vote next week on a global small arms treaty that could result in gun confiscation across America.

(<http://lewrockwell.com/eddlem/eddlem61.1.html>)

Even Forbes.com wrote about this quite extensively, warning readers about the coming gun confiscation effort related to the UN treaty. The story was authored by Larry Bell (<http://www.forbes.com/sites/larrybell/2011/06/07/u-n-agreement-should...>) and says the UN treaty could "override our national sovereignty, and in the process, provide license for the federal government to assert preemptive powers over state regulatory powers guaranteed by the Tenth Amendment in addition to our Second Amendment rights."

In other words, this has all the signs of *Fast & Furious, Episode II*. I wouldn't be surprised to discover someone in Washington was behind it all. **After all, there's no quicker way to disarm a nation and take total control over the population than to stage violence, blame it on firearms, then call for leaders to "do something!"**

#### Reichstag Fire

Reichstag fire, burning of the Reichstag (parliament) building in Berlin, on the night of Feb. 27, 1933, a key event in the establishment of the Nazi dictatorship and widely believed to have been contrived by the newly formed Nazi government itself to turn public opinion against its opponents and to assume emergency powers ... Evidence discovered after World War Two indicates that the fire that engulfed the Reichstag twenty-eight days after Hitler's ascendancy to Chancellor was planned and executed by his henchmen, Herman Goering and Joseph Goebbels, **Hitler publicly blamed the Communists, an accusation that allowed him to arrest the Communist members of the Reichstag and thereby eliminate his major political opposition. A young, mentally deranged Communist Dutchman by the name of Marinus van der Lubbe was arrested, tried and convicted of setting the fire.** ... On Feb. 28, 1933, the day after the fire, **Hitler's dictatorship began with the enactment of a decree "for the Protection of the**

**People and the State," which dispensed with all constitutional protection of political, personal, and property rights.**

[Encyclopaedia Britannica](#)

The Reichstag fire was a disaster for Communists because they received the blame for starting it, but it was a dream come true for Hitler and his cohorts as it allowed them to turn Germany into a dictatorship.

Such calls inevitably end up resulting in gun confiscation, and it's never too long after that before **government genocide** really kicks in like we saw with Hitler, Stalin, Pol Pot, Mao and other tyrants.

Here's a short list of **government mass murder** carried out throughout history, almost always immediately following the disarmament of the public (and usually involving staged false flag events to justify the disarmament):

**50+ million dead: Mao Ze-Dong (China, 1958-61 and 1966-69, Tibet 1949-50)**

**12+ million dead: Adolf Hitler (Germany, 1939-1945) - concentration camps, civilian deaths and dead Russian POWs**

**8+ million dead: Leopold II of Belgium (Congo, 1886-1908)**

**6+ million dead: Jozef Stalin (USSR, 1932-39)**

**5+ million dead: Hideki Tojo (Japan, 1941-44)**

**2+ million dead: Ismail Enver (Turkey, 1915-22)**

**1.7 million dead: Pol Pot (Cambodia, 1975-79)**

**1.6 million dead: Kim Il Sung (North Korea, 1948-94)**

**1.5 million dead: Menghistu (Ethiopia, 1975-78)**

**1 million dead: Yakubu Gowon (Biafra, 1967-1970)**

**900,000 dead: Leonid Brezhnev (Afghanistan, 1979-1982)**

**800,000 dead: Jean Kambanda (Rwanda, 1994)**

Death by government:

<http://www.hawaii.edu/powerkills/DBG.CHAP1.HTM>

<http://www.infowars.com/democide-government-killed-over-260-million-i...>

So yes, James Holmes and other crazed shooters kill a number of people each year in random acts of violence. It's horrifying and wrong, **but it's nothing compared to the millions of lives that governments tend to destroy when they gain total power over the populace.**

The most dangerous thing in the world, it turns out, is not a crazy person with a rifle; **it's a government with a "monopoly of force" over the entire population. And that's exactly what the UN spells out as its goal for the world: Stripping all power from individual citizens and handing "monopolies of force" to the governments of the world, shoring up their positions as the only "legitimate" power on the planet.**

**Olympic False Flag Or Total Diversion--By Brigadier General Retired**

July 20, 2012--By now you have heard the speculation regarding the possible false flag event at the London Olympics. You have also likely seen the Illuminati Card Game card referencing the attack.

**Cabalists believe that in order to create the NWO, they must destroy the Old. "The five main individuals in the crowd are wearing clothes with all the colors of the Olympic rings in them." CFR-member, Bilderberger, TCist, Club of Rome founder, multitrillionaire, who has the main stream media in his pocket; David Rockefeller wrote on Sept. 23, 1994: "This present window of opportunity, during which a truly peaceful and interdependent world order might be built, will not be open for too long - We are on the verge of a global transformation. All we need is the right major crisis and the nations will accept the New World Order."**

The London Olympics opens on July 27. The Internet is buzzing with speculation that a false flag will be used as a pretext for war. Olympic opening ceremonies begin on the evening of Friday, 27 July. The ceremonies end in the early morning of 28 July. They officially end on the 12<sup>th</sup> of August.

Most postulate that the attack is motivated by a desire to "clamp down on us further." I'm not convinced about this though as the "clamping down" is occurring almost daily without any such

draconian measures needed. Therefore, allow me to offer another possible motive....but to do so I need to remind you of a few pre-911 events.

1. Gold and silver bullion were removed from the World Trade Center vaults prior to the 911 attack....although amounts, values, & ownership have never been confirmed as far as I can tell.
2. Just weeks prior to the 911 attacks, Larry Silverstein took out \$3.55 billion dollar insurance policy on the WTC which included terrorist attack provisions....although in fairness, not having sufficient insurance on such a large purchase, and not having "terrorist coverage" (after the 1993 WTC attacks) would have been imprudent and irresponsible.

### **Larry Silverstein's 9-11 Partner Owns Gateway to Olympics 2012**

*Monumental scale: the new Westfield Stratford City, bordered on its north side by the new **Stratford International Station**, dominates the Olympics site, dwarfing the Aquatics Centre and Olympics Stadium to the south*

**The new Westfield, Europe's largest urban shopping mall, opened Sept. 2011 in Stratford, the heart of East London. The mega-mall will also double as the London Subway gateway to the Olympics for London 2012.**

Frank Lowy, recently opened the Mega Mall adjacent to Olympic Stadium and Stratford subway station. **Frank Lowy was Larry Silverstein's partner in the World Trade Center on Sept 11, 2001. Over two-thirds of all those attending the Olympics stadium are expected to transit through Westfield's new "Stratford City Center."**

Lowy, a dual Australian and Israeli citizen, is co-founder of the Westfield Group, operator of over 100 shopping centers in Australia, New Zealand, the United States and UK. They also own Marriott Hotels.

**Both these companies have suffered a long list of "terrorist attacks" for which large insurance claims were made.**

3. Irregular short selling of stocks (in particular airline stocks) took place prior to 911. The point of the above is to highlight that financial losses were minimized and some amazingly "prescient" speculative trades were rewarded as the result of 911.

Moving forward to today....what do we know for certain?

1. Last week the venerable 137-year-old London Metal Exchange was sold for \$2.19 billion to the Chinese state-controlled Hong Kong Exchanges and Clearing (HKEx). The price was 134 times earnings (!)---a stunning number---but the purchase gives China insight into metals markets it never would have had otherwise.
2. London is the center of the physical gold world (not New York). The London Bullion Market is the biggest over the counter wholesale physical gold market the world....by far.
3. There are increasing complaints from investors that they cannot get their "allocated gold" delivered to them. (Remember, allocated gold is gold set aside by serial number, in a vault, in your name. It is not "unallocated" or "pooled" gold.)
4. Those who have gotten delivery of their allocated gold...usually after threat of legal action...say the bars they are receiving are not the bars they were told they had.
5. The LIBOR (London Inter-Bank Offer Rate) scandal affected trillions of dollars in the financial markets. Manipulation meant winning trades became losers and vice versa. Legal recourse measures are just beginning...

What we can only speculate on:

1. There is plenty of anecdotal evidence that large amounts (i.e. tons) of gold have moved from London to China and other points east.

2. There are rumors that “allocated gold” has been used to satisfy bigger (government) transfers and is therefore no longer available for delivery to the rightful owners.
3. The LIBOR scandal is so far-reaching it is impossible to estimate the damages to the banks involved.

What would a catastrophic “terrorist attack” (say a low-level nuclear blast in the London Underground (subway)) accomplish?

1. **The theft of the allocated gold would be covered up. “We’re sorry, all that stored gold we had for you was destroyed in the blast.”**
2. **The LIBOR scandal goes away (all records destroyed).... along with the current London Banking system. A new system will arise with the same leadership at the top.**
3. **The pound sterling would fall like a stone and the dollar would suffer collateral damage since the London-New York-Washington nexus is so tight. Worldwide markets would roil. Banks close. All economic woes would then be attributed to the attack and “devaluations and write-downs” would be “justifiable” emergency measures. The loss of wealth would be massive....especially to everyone except the uber-wealthy.**
4. British and US debt holders (Japan, China, Middle East) seem like the losers---except that they (minus Japan) received the gold prior to the attack. Gold & silver would soar, blunting their financial pain, but not erasing it.
5. “Lock down” would occur for citizens in the US (and many western nations). The legal framework is already in place. The power-elite would maintain (and tighten) their grip.
6. Obama's election chances would soar as “why change leaders during a crisis” mentality would set in.
7. War will likely follow...but not immediately. Do we use the attacks then to strike Iran? Or, do other countries make the connections and realize the magnitude of the theft, deceit, aggression, evil of the false flag attack? Do they (China? Russia? Germany? Others?) decide to take a stand and attack the US? Dump the dollar? Isolate and contain us economically?

What would we expect prior to the attack?

1. **Gold would move down or sideways.....movements up would bring too much later attention.**
2. The stock market would go up or sideways.....same reason.
3. You might see big institutions going long and reducing their short precious metals positions....something that is happening now.
5. Rising tensions in “terrorist” countries would provide possible perpetrators the motive....something that is happening now.
6. Many leaders would send surrogates to the Olympic ceremonies rather than attending personally....especially from important countries...or they would leave immediately following the ceremony.

### **Theater Intelligence and Assessment, Heaven Is About To Render Judgment!**

July 18, 2012—From Greg Everson--Within the past few days, I have received information from a retired general (who is in a network of "old school" senior officers) evaluating the known intelligence concerning a two front combat theater of operations. Their goal is to keep as much information available to an involved cadre of military and law enforcement agents/agencies, this unofficial, undirected, yet highly qualified working group, have arrived at the conclusion point as I will describe it here.

The overall engagement strategy here is to entice the American military into pledging huge naval assets in the gulf region. The Straits of Hormuz is the "choke point" for all things challenging to Iran. It is here that the Iranian Navy and Air Force will have their greatest chance to inflict REAL damage on our armed forces. This is a real point of smack down for the Muslims to bring utter destruction on the American military, the American armed forces, and the

**American people.** The Russians and Chinese do NOT have the immediate design or permission from the luciferians to openly face the Americans, however; they will be in the command and control loop that manages the combat theater, once operations begin. **It is clear that events are moving toward an engagement of historic proportions and cataclysmic repercussions on a Biblical scale.** The Pentagon is operating on bluster and ineptitude on a staggering scale. **Homosexuality has reached the highest levels of the Pentagon as well. The former officers who have seen this coming have disowned many of their complicit former colleagues, while watching in dismay as they move ahead with stupefyingly poor planning surrounding the commitment of at least two and possibly three Naval Carrier Task Force groups now in great harms way.**

The "second" front is America itself. Combat troops from Russia and 14 nations, air assets, armor and artillery, fighter suppression through anti-aircraft batteries on movable platforms that can respond to changing air response grids as well as logistics, hardened communications and transportation hubs, **compliment a training contingent that has masqueraded as "friendly forces."** The use of some type of advanced accelerant in the massive western fires defies understanding or previous experience by firefighters in that region. "Almost nuclear" in its ability to spread fire and not be quenched by normal fire suppression methods suggests, but cannot yet be confirmed by scientific testing in labs, **that intentional human complicity in the fires is virtually certain. Specific battle plans in war call for the destruction of natural and man made infrastructure by fire, specifically calling for great monetary, human and technological assets to be used fighting the fires as both a distraction and a planned reduction of the area involved to produce or exist on a "normal" basis.**

**The potential for "weather wars" or space based atmospheric intervention resulting in a one-two-three punch for the continental U.S. destroying crops, livestock and soil viability, while demoralizing and stressing the electorate remains to "seal the deal" for the take over strategy of America underway since 2001.**

Add to all of this the **ongoing destruction of the US currency, the impending imposition of the UN Arms Treaty, the additional/compounded levels of door to door urban warfare training by US police and military, the published records of 'firearms suppression training' by all levels of police agencies in America, the acquisition of tactical equipment and automatic weapons issued to street police is unprecedented and overwhelming in its scope and reach. The implication is that these forces are anticipating widespread resistance and engagement with the American citizenry at a point to be determined after the "trip wire" events occur that will "justify" the intervention of such heavily equipped domestic police and military guard units and foreign troops.**

I believe that these brave and dedicated retired experts are doing what they can. **They caution that our current Republic is dead. The American people have bought into the lies of the government, the courts, the banks, and the president. They want comforts, government checks, and "hope for more change." Well, let me assure you, the class of "stupid unto death" crowd will get their heart's desire soon enough.**

No other conclusion can be drawn. **The main event is mere weeks away.** Civilian networks are being established to counteract some of this, **but one can clearly see that a hugely unprepared, untrained, rudderless society will absorb incredible casualties before even a modest response can be mustered. I have never been more certain that this great "final" plan for the utter destruction of the American nation is poised for implementation as the world's elite serving the Prince of Darkness begins its countdown. God help us to reach more and more for their sake through His mercy.**

These are my descriptions as accurately as I could reproduce them. I apologize that they are a bit "general." but I was receiving it fast in real time and trying to "decode it" and reproduce it in a way that made some kind of sense to the reader or listener. This is the latest. It may flex a bit before the balloon flies, but we must try to reach people for their soul's sake and for those still trying to plan how to live through this.

**Now is the time for us to complete preparations for our families during this time of utter**

devastation, but mostly it is a spiritual time to glimpse events not seen since "the days of Noah" envelope us all.
