Ephesians 5:11, 13-16: "And have no fellowship with the unfruitful works of darkness, **but rather reprove them. But all things that are reprov'd are made manifest by the light:** for whatsoever doth make manifest is light. Wherefore he saith, **Awake thou that sleepest,** and arise from the dead, and Christ shall give thee light. **See then that ye walk circumspectly,** not as fools, but as wise, Redeeming the time, because the days are evil."

The 1828 Noah Webster Dictionary defines:

Reprove: To blame, to convince of a fault, or to make it manifest, to excite a sense of guilt.

Circumspectly: Cautiously; with watchfulness every way; with attention to guard against surprise or danger.

II Chronicles 7:14: "If **my people**, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

I John 4:18: "There is **no fear** in love; but **perfect love** casteth out fear: because fear hath torment. He that feareth is not made perfect in love."

Heb 13:6: "So that we may boldly say, The Lord *is* my helper, and I **will not fear** what man shall do unto me."

II Timothy 1:7: "For God **hath not** given us the spirit of fear; but of power, and of love, and of a sound mind."

'Blue Flu' cases spreading around Gulf

17 August, 2010--Some people are calling it the BP Flu. But it is commonly being called the Blue Flu, because the alleged symptoms include blue lips and skin; and it's scarring people all around the Gulf area –from Texas to Florida.

This Blue Flu is separate from people experiencing something called TILT, or "Toxic-Induced Loss of Tolerance." TILT is something that hit some of the folks who had been working on the massive cleanup surrounding the oil spill. Symptoms from TILT include eyes and skin being irritated, headaches and dizziness.

People with TILT are typically those who were in the immediate area of the spill, mostly those directly involved with the cleanup. Those suffering from Blue Flu are an entirely different matter. These are people who were not in direct contact with the spill, or the cleanup chemicals. They simply live in the south, near the Gulf.

Symptoms include swollen glands, notably in the neck, fever, vomiting, headache, bluish lip color, numbness in fingers and toes. The most alarming symptom being reported is "severe symptomatic cyanosis." This is the entire body turning blue, a discoloration of the skin.

Of course this could cause alarm that these are symptoms of **oxygen depletion** along the Gulf. But could this rather be from all that Corexit that was sprayed everywhere, including dropped through the air from airplanes? This was a lot of chemical deposited in a large area, in a short frame of time. One wonders how the people living in the area could not be sickened from it.

Obama backs mosque near ground zero

ERICA WERNER--August 13, 2010--WASHINGTON (AP) — President Barack Obama on Friday forcefully endorsed allowing a mosque near ground zero, saying the country's founding principles demanded no less.

"As a citizen, and as president, I believe that Muslims have the same right to practice their religion as everyone else in this country," Obama said, weighing in for the first time on a controversy that has riven New York City and the nation.

"That includes the right to build a place of worship and a community center on private property in lower Manhattan, in accordance with local laws and ordinances," he said. "This is America, and our commitment to religious freedom must be unshakable."

Obama made the comments at an annual dinner in the White House State Dining Room celebrating the Islamic holy month of Ramadan.

Dr. Johnson's Teaching: [Obama To Abandon Israel While Embracing The Islamic Nations](#)

Obama's Ramadan blessing

August 14, 2010--There's a whole lot of pretending going on in our [world](#) today.

We have a federal judge ruling that the 5,000-year-old institution of marriage was "biased" and immoral from the start because of the way it discriminated unfairly against homosexuals.

And we have a man in [the White House](#) who extols Islam for "advancing justice, progress, tolerance and the dignity of all human beings."

In [blessing the Muslim holiday of Ramadan](#), Barack Obama added that Islam "is a faith known for great diversity and racial equality" and that it "has always been part of America."

[Brigitte Gabriel combats politically correct notions about the "religion of peace" in her book: "They Must be Stopped: Why We Must Defeat Radical Islam and How we Can Do It"](#)

I have more than a passing knowledge of Islam that includes firsthand experience and a significant amount of study over the last 30 years. But somehow I must have missed the advancements of justice, progress, tolerance and the dignity of all human beings.

Honestly, I can think of none.

Did I overlook a reformation in the religion that has resulted in one genocide after another for the last 1,300 years? Racial equality? Has the Quran been rewritten to excise Muhammad's characterizations of blacks as "ugly," "raisin heads" and "pug-nosed slaves"?

Didn't it also say in that book that when Allah created the white man, he touched his right shoulder and he came out destined for paradise, **but when he touched the left shoulder of the black man, he came out destined for hell?**

Who does Obama think sold all those millions of black Africans into slavery in Europe and America? Is he not aware that black slavery is still alive in some Muslim countries in the Middle East?

Justice? Talk to me about it after you finish reading "The Stoning of Soriah M."

Progress? Can you name for me one major scientific or social advancement we can historically and accurately attribute to Islam?

Tolerance? I quote: "O you who believe! do not take the Jews and the Christians for friends; they are friends of each other; and whoever amongst you takes them for a

friend, then surely he is one of them; surely Allah does not guide the unjust people." Today, imams in the Middle East and elsewhere still quote Muhammad's hadith as their current marching orders: "The Hour [Day of Resurrection] will not arrive until you fight the Jews, [until a Jew will hide behind a rock or tree] and the rock and the tree will say: 'Oh Muslim, servant of Allah, **there is a Jew behind me, come and kill him!**'"

Dignity of all human beings? In Islam, Muslim males have a higher worth than any others. A Muslim man can have up to four wives, beat them and change them as he pleases. The key Hadith sections about Muhammad's prepubescent wife Aisha are pretty clear (remember when you are reading that Mohammad was 51 when Aisha was 6):

[Sahih Muslim Book 008, Number 3310:](#)

*'A'isha (Allah be pleased with her) reported: Allah's Apostle (may peace be upon him) **married me when I was six years old**, and I was admitted to his house when I was **nine** years old.*

[Sahih Bukhari Volume 7, Book 62, Number 64](#)

*Narrated 'Aisha: that the Prophet married her (Aisha) when **she was six years old and he consummated his marriage when she was nine years old**, and then she remained with him for nine years (i.e., till his death).*

How about Islam always being a part of America?

Perhaps Obama is referring to the Barbary pirates attacking American [commercial](#) ships, capturing their crews and holding them for ransom. Or maybe he's thinking back further to a main reason Christopher Columbus journeyed West – to find a safe trade route to the East, one that would mean avoiding **the murderous mujahedeen who had blocked the land routes.**

I don't know.

[What do you think](#) he's talking about?

Were any of the founders Muslim?

What are the great Muslim moments in [American history](#)?

Maybe all of this sounds harsh.

But somebody's got to say it.

I'm not going to sit still while this pretender of an American president lies about the historical record and misrepresents evil as good.

It's time to stop pretending.

'Ground Zero' mosque - State Dept. funds, Obama's support

Chad Groening - OneNewsNow - 8/17/2010--A Christian law firm working to stop the construction of the proposed "Ground Zero" mosque says it's an absolute outrage that **the State Department is footing the bill for the imam spearheading that project to travel to the Middle East.**

The *New York Post* recently reported that Imam Feisal Abdul Rauf is set to depart on a multi-country jaunt to the Middle East -- funded by the State Department -- in order to foster "greater understanding" about Islam and Muslim countries.

But the trip has raised concerns that taxpayers may be helping him with the Ground Zero mosque project's \$100-million fundraising goal to erect an edifice blocks away from the site of the Sept. 11, 2001 that left thousands dead.

Is this the guy that you want building relationships, considering he repeatedly will not call Hamas a terrorist organization? wonders Jordan Sekulow, director of international relations with the [American Center for Law & Justice](#) (ACLJ). "If this is the person that we're going to put on tour, I think our government is insane."

Sekulow is also skeptical about the State Department's claim that Abdul Rauf will not do any fundraising while on his trip.

"He's told the Arab media that he is planning on fundraising on this trip," he points out. "And so not only are we paying him to go spew hatred around the world, we're also paying him to go fund-raise for his Ground Zero mosque. It's outrageous that we would pay for someone to spread hatred around the world, and we're going to take a stand very aggressively against it."

The Sekulow adds that the ACLJ intends to take a very loud noise to the American people about this trip.

Ground Zero Mosque Developers Refuse to Rule Out Using Funds From Iran and Ahmadinejad

19 Aug 2010--By: Jim Meyers--The developers of the planned mosque near New York's ground zero on Wednesday refused to rule out using funds from Iran's President Ahmadinejad's to build the \$100 million project.

Mosque spokesman Oz Sultan was asked specifically whether the project's fundraising would include Iran and Saudi Arabia.

"I can't comment on that," was Sultan's **"not-ruling-it-out" reply**, the New York Post reported. "We'll look at all available options within the United States to start."

Imam Feisal Abdul Rauf, the leader of the Park51 mosque project planned for a site two blocks from ground zero, has told officials he would raise money for the mosque and community center from local Muslims, foundations and the sale of bonds.

But earlier this year he admitted to a London-based Arab newspaper that his fundraising would also extend to Muslim nations around the world. Rauf is now touring the Middle East on behalf of the State Department.

Pelosi Suggests Probe of Funding Sources Behind Opposition to Mosque Near Ground Zero

FoxNews.com--August 18, 2010--House Speaker Nancy Pelosi is suggesting a coordinated effort is behind the opposition to a proposed mosque and community center near Ground Zero, saying the whole dispute has been "ginned up" for political purposes and **she supports an investigation into those opponents**.

Commenting publicly for the first time on the Park 51 project, Pelosi said the issue was posing a distraction and that some organized force is behind it.

"There is no question that there is a concerted effort to make this a political issue by some," she said in remarks posted Tuesday in a video on the [San Francisco Chronicle website](#). "And I join those who have called for looking into how is this opposition to the mosque (is) being funded."

Muslim Political Correctness gone Mad!

This is an accurate picture of every Friday afternoon in several locations throughout NYC where there are mosques with a large number of Muslims that cannot fit into the mosque - They fill the surrounding streets, facing east for a couple of hours between about 2 & 4 p.m. - Besides this one at 42nd St & Madison Ave, there is another, even larger group, at 94th St & 3rd Ave, etc., etc. - Also, I presume, you are aware of the dispute over building another "high rise" Mosque a few blocks from "ground zero" - With regard to that one, the "Imam" refuses to disclose where the \$110 million dollars to build it is coming from and there is a lawsuit filed to force disclosure of that information - Just some facts FYI.

This is in New York City on Madison Avenue, not in France or the Middle East or Yemen or Kenya.

Titus 1:16: They profess that they know God; but in works they deny [him], being abominable, and disobedient, and unto every good work reprobate.

Luke 20:47 “...and for a shew make long prayers: the same shall receive greater damnation.”

Is there a message here???? Yes, there is, and they are claiming America for Allah. If we don't wake up soon, we are going to "politically correct" ourselves right out of our own country!

PA town square memorial honors suicide terrorist and his attack as "heroic"
http://palwatch.org/main.aspx?fi=157&doc_id=2816

by Itamar Marcus and Barbara Crook--On June 11, 2002, a Palestinian suicide terrorist walked into a restaurant in the Tel Aviv suburb of Herzliya, and detonated a bomb that killed 15-year-old boy and injured 16 others.

The town square in the West Bank town of Madama where the terrorist lived features a

monument honoring "the heroic Martyrdom-Seeker" and his "heroic Herzliya operation." The monument has pictures of the suicide terrorist and of Yasser Arafat.

The text above the terrorist's picture is a verse from the Quran, urging Muslims to fight the non-believers and promising that Allah will "lay them low":

"Fight them, and Allah will punish them by your hands, lay them low and give you victory over them, and heal the hearts of a believing people." [Quran, 9,15]

Below his picture are the words:

"The heroic *Shahada* - Seeker Omar Muhammad Ziyada (Abu Samed) who carried out the heroic Herzliya operation on June 11, 2002" (Seeker is PA term of honor for suicide terrorists)

In December 2009 and again in March 2010, PMW reported on the naming of another square after the terrorist Dalal Mughrabi, who killed 37 in a bus hijacking in 1978. World condemnation was unequivocal:

US State Department Spokesperson Phillip Crowley:

We also strongly condemn the glorification of terrorists. Honoring terrorists who have murdered innocent civilians, either by official statements or by the dedication of public places, this hurts peace efforts and must end. We will continue to hold Palestinian leaders accountable for incitement. [April 8, 2010]

Illegal's from Terrorists States Released in US- Media Silent

8/18/2010--President Obama's friends in the liberal media are actively avoiding the truth about the current immigration crisis that is threatening our national security and economy! Please read the message below about two separate major failures by this administration in enforcing our immigration laws. In each case, only The Media Research Center's CNSNews.com investigated and reported on these stories. Read these chilling reports and alert your friends and family to join with you in holding the media accountable by [clicking here](#).

Over the last three fiscal years (2007-09), the Department of Homeland Security has **caught and released 481 illegal aliens from nations designated as state sponsors of terrorism and “countries of interest – including Iran, Iraq and Afghanistan! Our government has no idea where these people are, how dangerous they are or what they’re up to!!**

This chilling news was broken by CNSNews.com’s investigative division. [Click here to read the full report.](#)

CNSNews.com Editor-in-Chief, Terry Jeffrey, conducted an interview with Sheriff Larry Dever of Cochise County, Arizona where several frightening facts came to light. Among the most disturbing was that the **US Border Patrol has pulled back from major sections of the US border with Mexico because it is too dangerous.** [Watch the entire interview here.](#)

These two eye-opening exclusives were completely **ignored by a liberal media determined to demonize the elected officials and citizens who are trying to secure our borders.** So far, they haven’t been interested in truthfully reporting the grave risk that we all face because of the Federal Government’s lack of commitment to border security.

Because of the liberal media’s pro-amnesty bias and their unwillingness to report the truth that we’ve uncovered, they have become a further threat to our nation’s sovereignty and fiscal stability!

This kind of liberal media bias forced the MRC to launch our national petition, “Stop the Liberal Lies about Illegal Immigration.” This is a vital part of our effort to hold the media accountable for putting our lives and liberty at risk.

Already, we’ve rallied more than 77,000 citizens from around the nation – citizens who are calling on the media to do their jobs in reporting the truth about this threat!

With your help we hope to quickly push our petition totals to at least 150,000 – enough grassroots support to begin confronting the lies, distortions, and omissions of the so-called “news” media regarding immigration!

Time and time again, *NBC News* is among the most biased in their coverage of scope and impact of illegal immigration. They continue to focus on illegal immigrants as victims of hate-inspired laws and law enforcement and carefully avoid the impact on taxpayers and increases in crime driven by illegal immigration.

Once we reach our goal of 100,000 we will be delivering the signed petitions to NBC News’s office in New York City and their branch in Washington, DC, declaring the outrage of thousands of Americans about the biased coverage on illegal immigration!

[Take a moment right now to join the MRC in challenging the liberal media](#) -- forcing them to begin asking the tough questions of the Obama Administration about the DHS releasing 481 terrorist fugitives among us!

After signing, [forward this message](#) directly to 25-30 friends who are being deceived by the liberal media. Encourage them to read our exclusive CNSNews.com report and to sign our petition.

Interior Dept. documents detail Obama admin plotting to seize Western lands without congressional approval

By: MARK HEMINGWAY--Commentary Staff Writer--08/11/10--Back in February, [a leaked memo from the Department of the Interior](#) showed that the Obama administration was considering designating as many as **17 new national monuments throughout the West, effectively closing off huge swaths of land to development. That this was being done without the input of Congress or local authorities angered many.** Now Rep. Rob Bishop, R-Utah, Chairman of the Congressional Western Caucus and Ranking Member on the House Natural Resources Subcommittee on National Parks, Forests and Public Lands has [uncovered 14 more pages](#) from the document that were previously unavailable.

The new pages show a federal bureaucracy that has contempt for the legislative process and the input of elected representatives. "Should the legislative process not prove fruitful, or if a nationally significant natural or cultural land resource come under threat of imminent harm, the BLM [Bureau of Land Management] would recommend that the Administration consider using the Antiquities Act [to designate a national monument]," reads the new document.

In a statement, Bishop unloaded on the Obama administration. "These 14 pages are further evidence of this Administration's efforts, under the guidance of Secretary Salazar, to control western lands by unilaterally locking them up without input from local residents and stakeholders nor the approval of Congress. Their plotting behind closed doors is disingenuous at best and flies in the face of this Administration's so-called 'transparency'," said Bishop. "Thousands of westerners whose livelihoods depend upon access to our public lands stand to be affected by these decisions and yet this document blatantly goes out of its way to exclude their input or participation. If there was any question about whether or not this Administration has declared a war on the West, these new documents are evidence enough."

THE WILDLANDS PROJECT—The Rewilding of America

Step by step, piece by piece, the Wildlands Project is coming to fruition. **The Project, foundational to the U.N. Biodiversity Treaty which was never ratified by the U.S. Senate, calls for approximately 50 percent of the United States to be set aside as "wildlands", where no human can enter. Much has been accomplished over the past 10 years toward that goal, and the pace is stepping up, with the help of the federal agencies under Obama/Bush/Clinton/Gore.**

From control of the water - to taking land out of private ownership - to "protecting" numerous species - all the pieces of the puzzle work together to form the complete picture. Following are just a few of the news stories that reflect the piecemeal workings to attain the overall goal. **People remain unaware of the size and scope of the operation** because land is being taken in the name of "endangered species". Breaking: Google's Plans to Takeover The Internet Exposed!!

AlexJonesChannel | August 20, 2010 Paul Joseph Watson--

<http://www.prisonplanet.com/>

The net-neutrality ending deal with Verizon is just the beginning of Google's plans to kill the open and free Internet as part of their takeover agenda to completely control the world wide web and force independent media websites, radio and TV shows out of existence for good.

Google's agreement with Verizon to speed certain Internet content to users opens the door to the complete sterilization of the world wide web as a force for political change. Under Google's takeover plan, the Internet will closely resemble cable TV, independent voices will be silenced and the entire Internet will be bought up by transnational media giants.

People who want to run a simple blog will be priced out of existence, online TV and radio shows will cease to exist as the Internet is swallowed up by the corporate borg.

True net neutrality means that independent news outlets who attract an audience by telling the truth can compete on an even keel with corporate giants like ABC, CBS and CNN. The Google-Verizon pact will end that level playing field and in turn eliminate everything that is outside of the mainstream.

"A non-neutral Internet means that companies like AT&T, Comcast, Verizon and Google can turn the Net into cable TV and pick winners and losers online," writes Josh Silver. All video, radio, phone and other services will soon be delivered through an Internet connection. Ending Net Neutrality would end the revolutionary potential that any website can act as a television or radio network. It would spell the end of our opportunity to wrest access and distribution of media content away from the handful of massive media corporations that currently control the television and radio dial."

The deal will also split the Internet into a two-tier system, a cyber toll road, where satisfactory speeds and service will only be obtainable by those willing to pay substantial fees.

The pact also gives Google and huge ISPs the leeway to block certain websites on wireless networks, meaning alternative anti-NWO sites will 'go dark' for millions of people.

Once Google's fiercest critics have been silenced for good the company can then set about implementing its CIA-backed total information awareness program, which will scour Twitter accounts, blogs and websites for all sorts of information left by individual users, aiming to use this data to "predict the future" and completely direct and control people's lives and behavior.

Google CEO Eric Schmidt has announced that Google, in conjunction with the CIA, is set to become the ultimate Big Brother entity that "will know so much about its users

that the search engine will be able to help them plan their lives" by constantly tracking their location via smart phones and telling them where to go and what to do.

We have previously reported on Google's intimate and long standing connections to government spy networks.

There is also no doubt that Google is one of the corporations at the forefront of the government's drive to use cybersecurity as a pretext for killing the free Internet, having previously worked with the NSA and the CIA.

The recent scandal involving the company's street view roaming vehicles accessing the wi-fi details of internet users and mapping their online activities has also raised serious questions over intelligence links and abuse of privacy laws.

Shocking U.N. Efforts to Undermine Youth Morals

During the last week, a well-respected leader in the pro-family movement, Terrence McKeegan, Vice President and Senior Counsel for C-FAM, shared with me his research about the UN's latest efforts to attack the moral foundation of families and children. In the last week a major youth conference was held in Mexico which was aimed at creating a **new declaration for youth to be enacted by the UN General Assembly in connection with the "International Year for Youth."**

One of the things called for in the proposed resolution is **full access for all youth to "universal access to reproductive health."** These words are loaded with hidden meanings. However, McKeegan has unmasked these hidden meanings by gathering copies of UN brochures that it distributed at its youth conference in March, 2010. [Click here to look at the actual sections from these brochures.](#) **The content of this material is shocking. It is not pornographic, but the behavior that it is encouraging is lewdness and immorality personified. I would strongly suggest that only parents look at this material.** Here are just a few examples:

- **Young people living with HIV have the right to sexual pleasure**
- **Some people have sex when they have been drinking alcohol or using drugs.**
This is your choice.
- **There is no right or wrong way to have sex. Just have fun, explore and be yourself.**
- **Sexual and reproductive rights are recognized around the world as human rights.**

Now you know the kinds of ideas that are offered when the UN calls for “safe sex education and awareness-raising activities among adolescents” (UN Committee on the Rights of the Child, 2006, Concluding Observations, Lebanon).

There is already a political movement in the United States to offer these egregious forms of sex education without parental knowledge or review. But, if the UN Convention on the Rights of the Child is adopted in the US, then the debate is over—we would be required to implement the kind of adolescent “health” education dictated by the UN.

We must preserve our families. We must preserve common sense and morality. We must preserve American self-government.

If you have already joined our efforts to stop the UN Convention on the Rights of the Child thanks so much. Would you continue to share this information with your friends as we build toward the next session of Congress? If you have not joined with us, Click here and do so today.

Thanks so much.

Through activist courts and the threat of ratifying the UN’s Convention on the Rights of the Child (CRC), big government intrudes on families more and more. Already, the liberty of parents to direct the upbringing of their children has greatly eroded in federal courts and in such settings as public schools, local libraries, and your doctor’s office.

The traditional right of parents to make decisions for their children (absent abuse or neglect) is now "substantially diminished" at the federal level, and its demise is trickling down to the states. Only an amendment to add this liberty to the text of the U.S. Constitution can give back to our families the legal protections they deserve.

Please take action. [Click here](#) to stop big government’s takeover of the family by supporting Senate Resolution 519 (which opposes ratifying the CRC) and the Parental Rights Amendment to the U.S. Constitution.

False Christ apparition attracts thousands

Comment from Understand The Times:

The following article which describes an “apparition of Jesus” that supposedly took place in a Catholic church in Nigeria recently, is exactly what authors Jim Tetlow and Roger Oakland predicted would be taking place in the future in their book [Another Jesus: The Eucharistic and the New Evangelization](#). Jesus warned that “false appearances” would be taking place as one of the signs of the last days.

(Matthew 24:23-26).KJV - **Then if any man shall say unto you, Lo, here is Christ, or there; believe it not. For there shall arise false Christs, and false prophets, and shall shew great signs and wonders; insomuch that, if it were] possible, they shall deceive the very elect. Behold, I have told you before. Wherefore if they shall say unto you, Behold, he is in the desert; go not forth: behold, he is in the secret chambers; believe it not.**

The article:

St Paul’s Catholic Church along Airport Road in Benin City, yesterday, turned into a mecca of sorts as people from all walks of life thronged the church to catch a glimpse of what has been literally described **as an apparition of Jesus Christ**.

The uncommon, unholy phenomenon according to catholic faithful and enthusiasts present at the church premises, came up early Wednesday **morning immediately after the offering of adoration at the church**. It has however generated so much frenzy amongst **catholic faithful and non-Catholics** who jostled through the ever-busy Airport Road in the state capital to witness the rare spiritual occurrence.

Rev. Fr. Edosomwan further stressed that **the appearance of Christ on the Blessed Sacrament through the monstrance** would help re-direct the lives of Christians whose faith have been ebbing out owing to varying challenges of life. **The “apparition of Christ” according to the Priest, “was to remind Christians that through His presence they can draw support and increase their faith in God.”** [Read more.](#)

The Mass Is a Part of Salvation

“As often as the sacrifice of the cross by which ‘Christ our Pasch is sacrificed’ (1 Cor. 5:7) is celebrated on the altar, **the work of our redemption is carried out**” (Dogmatic Constitution on the Church, Chapter 1, 3, p. 324).

Christ Is to Be Worshipped in the Wafer

“The faithful should **therefore strive to worship Christ our Lord in the Blessed Sacrament. ... Pastors [priests] should exhort them to this, and set them a good example. ... The place in a church or oratory where the Blessed Sacrament is reserved in the tabernacle [place**

where the consecrated wafer is kept and worshiped between Masses] should be truly prominent. It ought to be suitable for private prayer so that the faithful may easily and fruitfully, by private devotion also, continue to honour our Lord in this sacrament” (Vatican II, The Constitution on the Sacred Liturgy, Instruction on the Worship of the Eucharistic Mystery, Chap. 3, I B, p. 132).

“All the faithful ought to show to this most holy sacrament the worship which is due to the true God, as has always been the custom of the Catholic Church....For even in the reserved **sacrament he is to be adored because he is substantially present there through that conversion of bread and wine which, as the Council of Trent tells us, is most aptly named transubstantiation**” (Vatican II, The Constitution on the Sacred Liturgy, Instruction on the Worship of the Eucharistic Mystery, Intro., C 6, pp. 109,10).

THE VIRGIN MARY'S “SACRED HEARTS” RECEIVE EQUAL WORSHIP TO JESUS CHRIST

Subtitle: "Immaculate Heart Of Mary" is a Catholic doctrine that stresses the "perfections which God gave to Mary, the Blessed Virgin, and her holiness which is unique among men". Since Roman Catholicism teaches that Mary was conceived without sin Mary is Co-Redemptrix, equal with Jesus.

<http://www.cuttingedge.org/news/n1810.html>

The pseudo-Mary has appeared to thousands of Catholics as an apparition that demands worship. The DVD below documents many of her exact quotes that have been officially approved by the Catholic church. She says she is the Co-redemptrix that has to be worshipped and prayed to in these apparitions. **If this isn't Goddess worship I don't know what is.**

Dattoos would be printed onto the user's skin, and would identify the user via their DNA

By [Ben Coxworth](#)--August 4, 2010--Five years ago, [Frog Design](#) founder Hartmut Esslinger envisioned a technology that “could influence notions of community, identity, and connectivity with minimal impact on the physical environment.” Using an online design portal, users would select and try out a customized electronic processing device that they would then print onto their own skin. **The DNA Tattoo, or Dattoo, could include printable input/output tools such as a camera, microphone, or laser-loudspeaker – it would be up to the user, as would the Dattoo’s aesthetics. Most intriguingly, it would capture its wearer’s DNA, to ensure an intimate user/machine relationship.**

Conceived for the 2005 Forrester Consumer Forum, the Dattoo was a response to the still-increasing trend of self-expression through connectivity technology – in a sense, you could call it the ultimate smart phone skin. The idea was to “realize a state of constant, seamless connectivity and computability **requiring the convergence of technology and self.**”(like a cyborg Transhuman) This meant that the body itself would need to become the interface, and would supply the required energy. Because Dattoos would largely replace three-dimensional tools such as smart phones or laptops, **the environment would be spared the costs** of producing, transporting and disposing of those items. (I’m sure mother Gaia would be most pleased)

Users in different geographical regions would be linked by common interests, and could communicate with one another, **through their Dattoos.** The unique DNA signatures would allow individuals to be readily identifiable, in a sense almost projecting users Second Life-style into

cyberspace. Software would take a liquid form, in keeping with the Dattoo's "organic computer" philosophy.

Despite evoking creepy *Matrix*-like images of permanent implants, Dattoos would actually be temporary and minimally-invasive (Yeah right). They could even be applied to clothing or other objects, instead of the skin. At the end of the day, they would simply be washed off. The next day, depending on what the user planned to do, they could order up and apply a new one.

Besides DNA-reading/identification, cameras, mikes and speakers, Esslinger's ultimate vision was one of [Dattoos](#) that included nanosensors and interactive Braille-like "touch reading," pattern and image recognition, self-learning and educational applications, living materials that change shape and feel, flexible OLED displays, bionic nano chips and cyborg components.

In the past five years, we've definitely gotten closer to Dattoos becoming more than just a concept. An example from this year is the [Skinput](#), an experimental system that allows users to control electronic devices via a display projected onto their arm.

FORBIDDEN GATES

By Thomas R. Horn--August 7, 2010--NewsWithViews.com

How Genetics, Robotics, Artificial Intelligence, Synthetic Biology, Nanotechnology, & Human Enhancement Herald the Dawn of Techno-Dimensional Spiritual Warfare

In recent years, astonishing technological developments have pushed the frontiers of humanity toward far-reaching morphological transformation that promises in the very near future to redefine what it means to be human. An international, intellectual and fast-growing cultural movement known as transhumanism has been embraced by the deepest and darkest chambers of national laboratories, which intend the use of genetics, robotics, artificial intelligence and nanotechnology (GRIN technologies) as tools that will radically redesign our minds, our memories, our physiology, our offspring, and even perhaps, as Joel Garreau in his bestselling book *Radical Evolution* claims, our very souls.

The technological, cultural, and metaphysical shift now under way unapologetically forecasts a future dominated by this new species of unrecognizably superior humans, and applications under study now to make this dream reality are being funded by thousands of government and private research facilities around the world. As readers will learn, this includes among other things rewriting human DNA (in some instances actually combining men with beasts), a fact not only reflected in the Defense Advanced Research Projects Agency (DARPA) budgets (including the current 2011 president's budget) but that some university studies and transhumanists believe will not only alter our bodies and souls but could open *a door to contact with unseen intelligence*.

And that is just the beginning.

As a result, new modes of perception between things visible and invisible are expected to challenge people of faith in ways that are historically and theologically unprecedented. Without comprehending what is quickly approaching in related disciplines of research and development, vast numbers of people **could be paralyzed** by the most fantastic—and most far reaching—supernatural implications. The destiny of

each individual—as well as the future of their family—will depend on their knowledge of the new paradigm and their preparedness to face it head on.

As outlined in this research, the power operating behind this scheme to integrate human-animal-machine interfaces in order to reengineer humanity is not new. The ancient, malevolent force is repackaging itself these days as the forward-thinking and enlightened progress needed for the next step in human evolution.

Facing god-like machines and man's willingness to cross over species and extra-dimensional barriers put in place by God (or if you prefer, evolution), traditional methods of spiritual warfare, which religious institutions have relied on for the last century, will be monumentally impacted in nontraditional ways.

What continues within these entries will lift the curtain on a world unlike previous generations could have expected or even imagined. This series will combine investigation by numerous brave resources and reproduce leaked documentation that clearly outlines how soon (**several government reports point to "2012" as year one**) **human enhancement technology of the most exotic order will start. Due to the urgent nature and timing of this expose, we offer one caution: If you are a person that is happy living in a "Matrix", cradled in the warm embrace of illusions, we recommend you lay this study aside and enjoy your remaining days uninformed.**

But if like millions of others around the world you have recently awakened with a sense that something foreboding is unfolding on earth, then this information is for you. If you believe that a global event, which so far nobody has been able to clearly explain is on the horizon, this information is for you. If you feel whatever is happening is both physical and spiritual, yet you cannot solve the conundrum of what is stirring beneath the surface, this information is for you. If you hunger to discern the meaning behind the raging turmoil enveloping nature, societies, and global politics, this information is for you.

But prepare yourself for the unexpected, including truly startling and often discomfoting information, which you may not of heard or read anywhere before.

What has been in preparation for thousands of years is about to reveal itself to humanity.

The clock is ticking and the hand is closer to midnight than most can comprehend.

Something wicked this way comes.

The occult desire of the ages is here.

Editor's note: This series is based on research contained in Tom and Nita Horn's upcoming new book: [Forbidden Gates: How Genetics, Robotics, Artificial Intelligence,](#)

[Synthetic Biology, Nanotechnology, & Human Enhancement Herald the Dawn of Techno-Dimensional Spiritual Warfare.](#)

Behind governors, legislators, presidents, dictators, and even religious leaders, these wicked spiritual powers move about unrestricted, controlling the machine of ecclesiastical and civil governments as freely as they are allowed. Whenever such principalities recognize a religious or political body that has become a force for moral good, they set about through a sophisticated labyrinth of visible and invisible representatives to bring that organization down one person at a time.

It is within this concealed arena of evil supernaturalism that unregenerate men are organized. Under demonic influence, they are orchestrated within a great evil system (or empire) described in various scriptural passages as a satanic order. In more than thirty important biblical texts, the Greek New Testament employs the term kosmos, describing this "government behind government." It is here that human ego, separated from God, becomes hostile to the service of mankind while viewing people as commodities to be manipulated in the ministration of fiendish ambition. Some expositors believe the origins of this phenomenon began in the distant past, when a fire in the minds of angels caused Lucifer to exalt himself above the good of God's creation. The once-glorified spirit, driven mad by an unequivocal thirst to rule, conquer, and dominate, spawned similar lust between his followers, which continues today among agents of dark power who guard a privileged "cause-and-effect" symmetry between visible and invisible personalities.

At Satan's desire, archons command this supernatural, geopolitical sphere, dominating kosmokrators (rulers of darkness who work in and through human counterparts), who in turn command spirits of lesser rank until every level of earthly government, secular and religious, can be touched by this influence. **If we could see through the veil into this domain, we would find a world alive with good against evil, a place where the ultimate prize is the souls of men and where legions war for control of its cities and people. With vivid testimony to this, Satan offered to Jesus all the power and the glory of the governments of this world. Satan said, "All this power [control] will I give thee, and the glory of them [earthly cities]: for that is delivered unto me: and to whomsoever I will I give it. If thou therefore wilt worship me, all shall be thine" (Luke 4:6-7).**

According to the Epistle of the Ephesians, it is this dominion, not flesh and blood, where opposition to God's will on earth is initiated. Whereas people and institutions often provide the "face" on our problems, the conflict originates beyond them, in this place where unseen forces scheme. <http://defenderpublishing.blogspot.com/2010/08/editors-note-all-notations-will-be.html>

Eph 6:11 Put on the whole armour of God, that ye may be able to stand against the wiles of the devil.

Eph 6:12 **For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high [places].**

OPENING PANDORA'S BOX?

DARPA and other agencies of the U.S. military have taken inspiration from the likes of Tolkein's Lord of the Rings to wage unending, merciless war using billions of American tax dollars to fund the Pentagon's Frankensteinian dream of "super-soldiers" and "Extended Performance War Fighter" programs. Not only does this program envision **"injecting young men and women with hormonal, neurological and genetic concoctions; implanting microchips and electrodes in their bodies to control their internal organs and brain functions; and plying them with drugs that deaden some of their normal human tendencies: the need for sleep, the fear of death, [and] the reluctance to kill their fellow human beings,"** but as Chris Floyd in an article for CounterPunch a while back continued, **"some of the research now underway involves actually altering the genetic code of soldiers, modifying bits of DNA to fashion a new type of human specimen, one that functions like a machine, killing tirelessly for days and nights on end.... mutations [that] will 'revolutionize the contemporary order of battle' and guarantee 'operational dominance across the whole range of potential U.S. military employments.'"** [3]

In keeping with our study, imagine the staggering implications of such science if dead Nephilim tissue was discovered with intact DNA and a government somewhere was willing to clone or mingle the extracted organisms to make Homo-nephilim. If one accepts the biblical story of Nephilim as real, such discovery could actually be made someday or perhaps already has been and was covered up. National Geographic also confirmed this possibility in their May 2009 special report *Recipe for a Resurrection*, quoting Hendrik Poinar of McMaster University, an authority on ancient DNA who served as a scientific consultant for the movie *Jurassic Park*, saying: "I laughed when Steven Spielberg said that cloning extinct

animals was inevitable. But I'm not laughing anymore... This is going to happen. It's just a matter of working out the details." [4]
